

The Amazing Son In Law Chapter 5994 -

Li Yalin's words made everyone suddenly enlightened.

Having settled down with the family for so many years, I never figured out why bruce, who was extremely scholarly and gentlemanly, violently clashed with the Rothschild family back then.

Even charlie couldn't figure out why his father was an enemy of the Rothschild family. For a long time, charlie even thought that the culprit who killed his parents was this wealthy super family.

But after talking so much with his grandfather's family and Li Yalin today, he really understood that the reason why his father wanted to do this was to give himself a suitable opportunity to draw a clear line with the wade family and even the An family.

He and his mother probably realized that they were about to face danger at that time, and drawing a line between the two families must also be to protect them.

An Qishan couldn't help crying, and choked up, "bruce and Lydia (Ava) (Charlie's mom), these two silly children, why would they rather die than ask us for help... As a father, not only did I not realize that they were in great danger, They have even been complaining about their estrangement from the family... Now I know that they just didn't want to drag us down..."

Li Yalin comforted him, "Uncle An, you don't have to blame yourself too much. It is very clear that even if the An family and the wade family are combined, they cannot be the opponent of the Po Qinghui, so how can they make their family suffer for themselves." "Yes..."

" The old lady couldn't help but sigh with red eyes, "Lydia (Ava) (Charlie's mom) has a strong personality, and he was unwilling to talk to his family when he encountered any difficulties since he was a child. The reason why An's wealth was able to expand rapidly 20 or 30 years ago was due to her strategizing in Silicon Valley. When she went to Huaxia with bruce, she didn't take any money with her from home..."

The old lady's words made An's family feel even more heavy.

The An family brothers and sisters have always been of the same mind. For them, family is far more important than money.

Therefore, even though An Lydia (Ava) (Charlie's mom) had passed away for more than 20 years, they still couldn't let go of him.

Now it is analyzed that they encountered danger back then and kept a distance from the family in order not to hurt the family, and each of them felt even more sad.

When everyone was silent, charlie's aunt Tablita suddenly said, "I understand that my sister and brother-in-law don't want to involve the two families, but why did they take charlie with them?" Everyone was shocked by her

words Make a shock.

And they immediately realized that Tablita was right.

Since the couple didn't even want to get involved with their own family back then, why did they bring their only son with them?

They probably had made up their minds to die back then, but since they knew they were going to die, they shouldn't have brought charlie, who had just turned eight years old, with them.

According to human nature, at that time, it would be reasonable to do everything possible to send his son to a farther and safer place.

But after the couple fell out with the wade family, they brought charlie to Aurous Hill.

Thinking about it carefully, this is indeed a bit unbelievable and incomprehensible.

An Qishan couldn't figure it out at this moment, he looked at charlie, frowned and said, "You are right... charlie is their only blood, the more dangerous it is, the more he wants to send his son far away It's far away, but why did they take charlie to Aurous Hill..."

After that, he asked charlie, "charlie, do you still remember the details before and after your parents took you to Aurous Hill?"

The Amazing Son In Law Chapter 5995 -

charlie thought for a while, and said Said, "It's been more than half a year, and I can't remember too many details, but now that I think about it, I didn't think of anything weird." Then,

charlie said, "I have always felt that My parents went to Aurous Hill back then because they had a falling out with my grandfather and the entire wade family, and they had to go to Aurous Hill to settle down. So in my all-time understanding, I always thought that it was my grandfather and the wade family who drove my parents out of the house. That led to their subsequent murders, they were the murderers who indirectly killed my parents, so for quite a long time, I hated my grandpa's family very much."

Li Yalin said at this time, "Uncle An, Aunt An, Lydia (Ava) (Charlie's mom) and the others must have prepared for charlie in advance and prepared a way for him to retreat, otherwise, charlie would not have had an accident with them." On the same day, she was safely transferred by bruce's subordinates, and bruce arranged for charlie to be sent to the orphanage, and replaced all the people in the orphanage with her subordinates in advance. charlie's person, this is enough to prove that he has already planned everything."

After speaking, Li Yalin said seriously, "So, going back to the question you mentioned just now, I think Lydia (Ava) (Charlie's mom) and bruce brought charlie to Aurous Hill. Not only do they have their own arrangements, but they also have their own unknown secrets."

An Qishan murmured, "I still can't figure it out...Even if he has arranged everything, what is the purpose of doing so?"

"No matter how good the arrangement is, there is a risk of mistakes, and in the face of such a powerful opponent, once a mistake is made, it will be a matter of life and death. If you think about remedial measures, there is absolutely no chance;" "What's more,

this The object of the risk is not someone else, but his own flesh and blood!" "

According to normal people's thinking, if an event may lead to death, no one is willing to let their children take this kind of risk, but he and Lydia (Ava) (Charlie's mom) want Chen to take the risk."Isn't it somewhat irresponsible to take this risk? "

At this time, charlie said indifferently, “Grandpa, I believe that Dad has his reasons for doing this, and I don’t think he is irresponsible to me;” “Everything has the risk of death

, Taking the child out by car has the risk of a car accident, taking the child swimming has the risk of drowning, and feeding the child has the risk of choking to death. What parents have to consider is not to avoid all risks 100%. In the face of risks, this is it worth doing or not;”

“I believe that there are very few parents who do not take their children out to avoid car accidents, let alone watch their children starve to death because of choking, so I think they must have had them The reasons and reasons;”

“And I believe that they must do it for my own good. “

An Qishan was stunned for a moment, then nodded lightly, “charlie, what you said makes sense. Although your parents were very young back then, both of them were people of great wisdom. Good fortune is definitely not something that can be cultivated in a greenhouse;”

“Whether they handed you over to the wade family or the An family to raise you, it is very difficult, or even impossible, for you to grow into what you are today, maybe your parents You had this foresight back then, and you foresaw your development today in advance.

At this time, Li Yalin who was on the side suddenly asked charlie, “Mr. Wade, since your parents have mastered some rather magical powers, or have already touched the context of them, is there any connection with the power you mastered later? ” “

charlie was slightly taken aback by his question, and suddenly a horrifying thought came to his mind, “Could it be that it wasn’t by chance that I got the “Nine Profound Heavenly Scriptures”?” If it is not a coincidence, then what is the causal relationship that allowed me to obtain this inheritance twenty years after my parents passed away? ! “
