

The Amazing Son In Law Chapter 6049 -

charlie's release of Meng Changsheng (Willie)'s portrait in Aurous Hill really gave Sara a great shock, so much so that when she came to China this time, one of the things she was most worried about was revealing her identity.

In her opinion, the young people camping not far away should be students who are still studying. She is not at all worried that any of these people can threaten her safety, but she has just heard charlie and Lin Wan'er (Alani)'s conversation, knowing that her actions are already a bit suspicious in the eyes of others, in this case, she is really hesitant.

And her attention was indeed drawn to another direction unconsciously by charlie. Now she was only worried about being suspected by others, but never doubted the identities of these young people.

While Sara was still hesitating, a golden glow spread down, and the sun had already risen from the east.

Those young people around charlie who stayed up all night and were still excited, after seeing this ray of light, they immediately became excited. Pull out your phone to take a picture and record a video.

Seeing that no one was paying attention to her, Sara walked towards the woods behind the camp.

At this time, Sara was only seventy to eighty meters away from charlie and Lin Wan'er (Alani).

It's just that her attention was not on these young people at all, and she was in a silent state, and she didn't release her aura to investigate each other, so she didn't notice any abnormalities at all.

At this time, charlie was carefully looking at Sara from the corner of his eye.

This woman looks to be in her thirties, with a mature and charming appearance. Whether it is appearance or temperament, she can definitely be regarded as the top of the top.

And in her hand, she was carrying some yellow paper and a wine jar. The yellow paper looked very rough, and it was probably extremely difficult to buy nowadays.

charlie could tell that the yellow paper and wine jar Sara was carrying must be for worshipping Parker, and being able to come to worship him shows that in Sara's heart, Parker is not only hate.

Lin Wan'er (Alani) was also a little surprised. Originally, she thought that Sara would come here aggressively and vent her personal anger in front of her parents' tomb, but she didn't expect that Sara would come here with the things used for worship.

The other people who were camping together also saw Sara who was alone at this time, and for a while, everyone whispered to each other secretly.

Someone said, "I'll go, is that elder sister here to visit the tomb?" Someone echoed, "It looks like it, but I don't

see any tomb here."

"Tombs, right?"

Arlo Hu said calmly, "Even if it is a tomb, there is nothing to make a fuss about. Before Chang'an built the subway, it was said that thousands of ancient tombs were discovered during the construction of only one of the lines. It seems that there are outstanding people here. It's normal to have a few ancient tombs."

charlie also nodded at this moment and said, "The old nonsense is right, even if others come to visit the tombs, it's nothing surprising. Let's not talk about others behind their backs, in case it would be embarrassing for others to hear, impolite."

Arlo Hu nodded and said, "Kaiden(charlie)'s point of view is the same as mine. Let's not care about other people's affairs. When the sun rises, everyone should take the time to go back to the tent to rest for a while, sleep in the cage, and stay up all night. I didn't feel tired at the beginning, but now I feel a bit overwhelmed."

Everyone said that their feelings were the same as his, but they didn't know that it was the aftereffect of the depletion of the spiritual energy in the liquor.

Lin Wan'er (Alani) suddenly took out her mobile phone at this time, and said to charlie, "Honey, before the sun's light is so strong, let's take a photo with the sun and take some selfies."

The Amazing Son In Law Chapter 6050 -

charlie guessed that she wanted to take a picture of Sara, so he nodded understandingly, then took out his mobile phone and turned on the camera function of the front camera.

After opening the camera, the two turned around tacitly, with their backs facing the rising sun and Sara, and took a group photo.

After taking the photo, charlie quickly clicked on the photo to enlarge it. Thanks to the high resolution of the front camera, Sara's appearance was clearly captured in the photo.

Afterwards, while adjusting his posture, charlie took a group photo with Lin Wan'er (Alani), and kept capturing photos related to Sara through the photos taken by the front camera.

But it's a pity that Sara entered the woods very quickly, and the front camera didn't have a telephoto function. It's a bit of a dream to take pictures of her in this situation.

So, he put his phone in his pocket and continued to pretend to enjoy the sunrise with Lin Wan'er (Alani).

And from the corner of his eye, he was still staring at Sara carefully.

After searching for a while in the woods, Sara chose a relatively empty place, and then took out a hammer and a cylinder made of wooden handle from her bag.

Immediately afterwards, Sara threw the yellow paper on the ground, pressed the cylinder against the yellow paper, and then hit the head of the cylinder heavily with a hammer.

In this way, on the rough yellow paper, there were left circular outlines with a square space in the middle.

This is the "making money" that ordinary people have rarely come into contact with.

Although the yellow paper is rough in workmanship, it is highly flammable. I know that it is still the best choice for many people in rural areas to sweep graves and pay homage to relatives in Qingming.

And the cylinder of the wooden handle is the mold for making money.

Sara skillfully separated a stack of yellow paper was spread flat on the ground and supported by a mold. Starting from the upper left corner, the tail of the cylinder was violently hammered. On this stack of yellow paper, a circular outer circle and a square circle in the middle were left. shape.

This, in fact, represents the copper coins used in ancient China.

Copper coins were the main currency of the ancients. Therefore, the copper coins produced in this way were burned to the dead, which was the real paper money in the hearts of the ancients.

Burning such paper money to the deceased can ensure that he has no worries about food and clothing on the other side.

This way of making paper money is basically hard to see nowadays. In the current funeral industry, no one is still producing such cheap and simple products. Even the most basic paper money is printed with the head of the Jade Emperor, writing Banknotes printed on the face of Tiandi Bank.

But for Sara, she still has the habit of using yellow paper to make money to pay homage to the souls of the dead, so this time she came to southern Yunnan, she specially brought yellow paper and the mold that has been used for hundreds of years.

At this time, Sara had completely ignored the young people she met just now. In her opinion, those people were completely different from her in the world, so she didn't need to pay attention to them, let alone care about them. The mental journey was almost exactly the same as Lin Waner's prediction, Lin Waner bet right!

So, after she concentrated on putting all the yellow paper on dense copper coins, she got up to pick up a convenient branch, and then, she used that branch to clear a flat area on the ground.

Then, Sara took out the lighter, ignited one of the yellow papers, and then threw the ignited yellow paper back to the center of the flat ground, and then began to fill it with paper one by one.

Looking at the burning flames and the ashes rolled up by the heat wave, Sara's eyes were already filled with tears, and she murmured in a low voice that only she could hear, "Brother Parker, Sara is here to see you..."
