

The Amazing Son In Law Chapter 6063 -

Liam quickly arranged for the three of them.

Arlo Hu and Hallie were placed in the adult ward, while little Jimmy was placed in the children's ward.

Under the guidance of the staff, James Smith completed the hospitalization procedures for his son, and the whole process was like a dream.

He thought that his son had no chance to participate in the clinical trial of Jiuxuan Pharmaceutical, and he was just discussing with his wife whether to send the child to the United States for hospice care, but he didn't expect that everything would turn upside down in the blink of an eye Variety.

Because he had a certain understanding of Jiuxuan Zaizao Pills, James Smith had only one thought at the moment, and that was his son's life, which was really saved this time!

He couldn't help guessing in his heart, who was secretly promoting all this. Could it be that the Mr. Lin that Arlo Hu met by chance really had such great ability?

Just when he was lost for a while, his wife Jenny called suddenly.

Only then did James Smith remember that he was too excited and curious to keep pace with his wife on such an important matter. So he immediately connected the phone, and before he could speak, Jenny on the phone couldn't wait to ask, "James

, how is your situation?"

He said endlessly, "Jimmy has already been admitted by them. I just completed the admission procedures for Jimmy. There is a clinical trial base inside Jiuxuan Pharmaceutical, and Jimmy and I are here!" Jenny blurted out excitedly, "Really

?! James, is what you said true? Are you kidding me? Did you lie to me?!"

James Smith said in a very firm tone, "Honey, how could I joke with you about such an important thing? Now that Jimmy has It's on the hospital bed, and their doctor is examining Jimmy."

As he spoke, he quickly said, "Wait a minute, I'll send you a video!"

Before Jenny could respond, James Smith hung up the phone and sent a video call to Jenny.

Jenny also connected immediately, and soon, Jenny saw James Smith running quickly in the corridor of the inpatient area on the screen of the mobile phone.

James Smith switched the camera. He had already run back to Jimmy's ward. As soon as he opened the door and entered, he saw two doctors conducting a detailed examination on the comatose Jimmy.

These doctors are all doctors poached by Jiuxuan Pharmaceutical from major tumor hospitals. Their main task here is not to treat patients, but to use the most professional means to monitor each patient's use of Jiuxuan Reconstitution Pills. The physical changes before and after treatment are used to record the specific efficacy of Jiuxuan Reconstitution Pills.

Seeing James Smith coming back, a doctor said to him, "Excuse me, are you Jimmy's father, Mr. Smith?"

James Smith nodded quickly and said, "I am, doctor, how is my son now?"

The doctor said "At present, Jimmy's condition is not very good. All aspects of him are signs of terminal cancer, but he is not life-threatening. We have just collected his blood and sent him to the laboratory for a comprehensive cancer diagnosis. Indicator inspection, immediately arrange for him to have a Pat CT to see the current division of cancer cells."

James Smith asked impatiently, "Excuse me, when can you start taking Jiuxuan Reconstitution Pills for your children?"

In James Smith's view, Jiuxuan Reconstitution Pill is the only life-saving straw for his son at present. As for blood drawing and CT scan, these are just routine cancer examinations and have no therapeutic effect.

The doctor also understood James Smith's mood and explained, "You don't have to worry about this. The reason why we draw blood and do CT scans is mainly to understand the physical condition of the child when he is admitted to the hospital, so that it can be used later. Reference and comparison."

The Amazing Son In Law Chapter 6064 -

As he spoke, the doctor said again, "We have already collected the child's blood before taking the medicine, and now we will send the child to the radiology department. CT, after coming out of the CT room, immediately give the child two Jiuxuan Reconstituted Pills."

James Smith asked pleasantly, "Take two at a time?"

"Yes." The doctor nodded, "Considering that Jimmy's condition is more critical, we plan to give him a five-day fast consolidation period. During these five days, we will give him two Jiuxuan Reconstitution Pills every day to allow his physical condition to recover quickly. After five days, we will enter a stable period and take one pill a day. Jiuxuan Zaizao Pills until he recovers and is discharged from the hospital."

James Smith breathed a sigh of relief, taking two Jiuxuan Zaizao Pills a day for five days in a row, his son will definitely be greatly relieved, and maybe he will be able to get out of bed after five days up! Thinking

of this, he quickly said gratefully, "Thank you so much!"

The doctor smiled slightly, "You're welcome, this is what we should do."

"Looking at the time, he said, "It's almost time to go to the Radiology Department. Mr. Smith will come with us."

Okay!" James Smith agreed without hesitation, and then together with the doctor, he pushed his son's hospital bed to the Radiology Department.

After arriving at the radiology department, the nurse injected a contrast agent into Jimmy who was unconscious, and then pushed him into the CT room. Since Pater's CT is a full-body scan, it will take a relatively long time.

James Smith was somewhat anxious. What he was anxious about was not the result of Pat's CT, but when his son would be able to eat today's Jiuxuan Zaozao Pill.

While James Smith was pacing outside the CT room door, Liam walked in from the entrance of the Radiology Department.

James Smith saw Liam at a glance, hurried forward, and said respectfully, "Mr. Liam, thank you so much!"

> Liam smiled and said, "Mr. Smith, you should not be thanking me for having this opportunity for Jimmy, because in my case, a child like Jimmy who is over ten years old and from a wealthy family does not meet the admission criteria. Our clinic The experimental items have clear scoring rules and algorithms, and I must follow this rule to screen the list, and I have no right to exceed the scope of the rules."

James Smith couldn't help asking, "Mr. Liam, I want to know who gave Jimmy this Opening?"

Liam smiled and said, "The person who can give you this opening outside the rules is naturally the one who made the rules. Only he has the authority and qualification to let Jimmy in." James Smith asked curiously, "

You Isn't he the CEO of Jiuxuan Pharmaceutical?"

Liam nodded, "I'm the CEO, but I'm not the boss. The real boss, you've met, is Mr. Wade ."

"Mr. Wade?" James Smith exclaimed Said, "He...he is the boss of Jiuxuan Pharmaceutical?"

"Of course." Liam said with a smile, "Jiuxuan Pharmaceutical can have today, all thanks to Mr. Wade."

Then, Liam said again, "By the way, I forgot Let me tell you, the Mr. that Arlo Hu and the others met was actually Mr. Wade, but Mr. Wade did not reveal his true identity to the two of them due to personal reasons. It happened that the two of them were also cancer patients, so Mr. Wade decided to give them The two made a special opening, and then Mr. Wade thought of you and Jimmy, and Arlo Hu called you over." James Smith widened his eyes and murmured, "It turns out

that Mr. Wade is the owner of Jiuxuan Pharmaceutical Boss... No wonder I saw him in Fei's scientific research center that day, and even Miss Fei respected him..."

Thinking that it was my arrogance that missed Jiuxuan Pharmaceutical, charlie Wade actually gave Jimmy this... The chance of survival made him

extremely grateful to charlie Wade, so he subconsciously asked Liam, “Mr. Liam, I wonder if I have a chance to meet Mr. Wade?!”
