

## The Amazing Son In Law Chapter 6065 -

James Smith really didn't expect that Charlie Wade was not only the boss of Jiuxuan Pharmaceutical, but also gave his son a chance to survive when he was most desperate.

Thinking back on his helplessness before, at this moment, he was extremely grateful to Charlie Wade in his heart.

Liam smiled and said, "Mr. Smith, don't worry. Mr. Wade has explained that he is out of town now, so you should accompany your son to receive treatment these days. When the child's condition improves, he will naturally recover when he returns to Aurous Hill." I invite you to meet."

James Smith said gratefully, "Then Mr. Liam must help me convey my thanks to Mr. Wade, our whole family is grateful for his great kindness!"

Liam nodded and looked at James Smith. In the current state, he knows in his heart that this person is really grateful to Charlie Wade, and will definitely do his best for Charlie Wade in the future.

The underlying cultural background and underlying logic of Jiuxuan Pharmaceuticals are quite different from those of Western society. If Jiuxuan Pharmaceuticals' drugs are to be successfully marketed in North America or even Europe in the future, there must be a person who understands the Western medical system very well, and in this world those who have enough resources in the system will be the striker prizes who charge forward.

And James Smith is definitely the best candidate, not one of them.

Liam, as the CEO of Jiuxuan Pharmaceutical, also looks forward to James Smith joining the team one day.

However, he knew in his heart that he was not suitable to come forward in this matter, and Charlie Wade still had to communicate with James Smith.

So, he smiled and said to James Smith, "Don't worry, Mr. Smith, I will convey it to Mr. Wade for you later."

Then, he looked at the time and said, "Mr. Smith, I have something else to do, so I won't bother you. We have already arranged for the child's follow-up treatment. Don't worry, all cancer patients who participate in clinical trials, as

long as they enter the nine Mysterious Pharmaceuticals will get better and recover without exception, so you don't have to worry about it now, just stay with the child and wait for the child to recover and be discharged from the hospital."

Liam's words undoubtedly gave James Smith great confidence. He nodded repeatedly and watched Liam leave gratefully.

After waiting outside the CT room for about ten minutes, the electric door slowly opened, and several doctors immediately went in and pushed out Jimmy who was still in a coma.

As soon as Jimmy left the CT room, James Smith hurried forward to check on his son's condition, but his son hadn't received the Jiuxuan Zaizao Pill yet, so his condition didn't improve.

At this moment, two doctors in white coats walked over quickly, one of them was holding a small suitcase, and the other was holding a portable professional video camera.

The two came to Jimmy, and the doctor with the suitcase asked the other doctors, "Is the patient ready to take the medicine now?"

The doctor who had been in touch with James Smith nodded and said, "The patient has done all the examinations." It's over, you can take the medicine."

The doctor nodded and said, "Okay, now I'm going to take the medicine."

After finishing speaking, he exchanged glances with the doctor holding the camera beside him, and said, "Start recording now."

The other party immediately turned on the record button of the camera , Then the doctor opened the suitcase, and there were dozens of spherical medicine boxes slightly smaller than golf balls neatly arranged inside. He took off two in order, and rotated in front of the camera to show the anti-counterfeit seal on the spherical medicine box. At the same time, he opened the mouth and said, "Patient number e33 in group e, name Jimmy Smith; age twelve years old; on the first day of admission, he took two Jiuxuan Zaizao Pills. Please check the information with your family members."

After that, he handed the two Jiuxuan reconstituted pills to James Smith, and said, "Mr. Smith, please check these two pills.

## The Amazing Son In Law Chapter 6066 -

This

The integrity of the best candidate (2/2) pill, if there is no problem, we will take it apart and give it to the child.

James Smith asked in surprise, "Is the medication process so strict?" The doctor nodded and said, "

At present, many people in the black market are buying Jiuxuan Reconstituted Pills with a lot of money. The pills are clearly recorded. From now until the patient is discharged from the hospital, every time he takes Jiuxuan Zaizao Pills, our specialist will personally deliver the medicine and supervise the patient to take it. "

James Smith suddenly realized.

Jiuxuan Reconstitution Pill should be the only drug on the market that can completely cure all cancers, and there is no supply on the market yet , Those rich people who are sick will definitely ask for extremely high prices. If the drugs are not strictly controlled, maybe someone inside Jiuxuan Pharmaceutical or the family members of the patients will rack their brains to recreate Jiuxuan because of huge benefits. Take out the pills and sell them.

Strict supervision on the delivery of the medicines and the process of taking the medicines can prevent such things from happening.

James Smith carefully checked the outer packaging of the two Jiuxuan Reconstituted Pills and confirmed that there were no abnormalities. , handed the medicine back to the doctor, and said, "There is no problem with the medicine, please hurry up and give it to the child!" The

doctor nodded slightly, and opened one of the pills under the watchful eyes of the camera and everyone, and then asked a doctor to gently pinch Jimmy's mouth open, and then put the pill into his mouth. Then, he did the same

thing , and put the second pill into Jimmy's mouth.

The two Jiuxuan reconstituted pills quickly melted in Jimmy's mouth. The medicine not only has a medicine that can treat cancer, but also has

ingredients to quickly restore the body's vitality, so Jimmy was pale , The bloodless complexion soon recovered a little rosy.

A minute later, Jimmy woke up, He slowly opened his eyes, and found that he was in an unfamiliar environment, and there were many strangers around him, so he was a little nervous for a while.

Seeing that his son had woken up, James Smith rushed forward and said excitedly, "Jimmy, Jimmy, you are awake! Dad is here!"

When Jimmy saw James Smith, his nervousness instantly eased a lot. Couldn't help but ask, "Dad, where am I? Where's Mom?"

James Smith wept with joy, choked up and said, "You're in Jiuxuan Pharmaceutical, and Mom and sister are waiting for news from us outside. If they know you're awake, they must be very happy!"

Although Jimmy is not very old, he has long known that his disease can only be cured by Jiuxuan Zaizao Pills from Jiuxuan Pharmaceutical, which is why his father brought him here from the United States all the way.

However, he also knew that his condition did not meet the selection criteria for the clinical trial of Jiuxuan Zaizao Pill, and he had already been rejected by Jiuxuan Pharmaceutical.

So, when I heard my father say that I was in Jiuxuan Pharmaceutical, I couldn't help being surprised.

James Smith asked him with concern, "Jimmy, how do you feel now? Are you feeling better than before?"

Jimmy nodded slightly, and said truthfully, "I feel much more comfortable, and the pain before is also much better. , Dad, don't I have to die?"

James Smith grabbed his hand, nodded heavily, and choked up, "Don't worry Jimmy, you won't die, you will live a long life, Dad promises!

" The doctor said, "Mr. Smith, the child's condition is better now, let's send him back to the ward first, go back to the ward to have a good rest, continue to take the medicine at the same time tomorrow, and the body will be further strengthened. I believe that Jimmy will be able to recover in a few days." Get out of bed and move around."

“Good!” James Smith said excitedly, “Thank you doctor! Thank you!”
