

The Amazing Son In Law Chapter 6089 -

At this moment, Lin Wan'er (Alani) was concentrating all her thoughts on the seedling in front of her. She knelt on the ground and looked at the seedling without blinking, her face full of excitement.

And Charlie Wade, who was standing by the side, looked at the emerald green seedling, and he was nothing but dazed.

Charlie Wade felt that his brain circuit was not enough.

He couldn't understand why all traces of rain disappeared after a heavy rain.

The nine-year compulsory education he had received left him with only four words in his mind at the moment, which is unscientific.

Or six words, it's f*cking unscientific.

He looked at his whole body, stretched out his hands from the top of his head to his chest, then from his chest to his back, and then from his back to his ankles. He couldn't help taking off his shoes, and reached into them for a long time.

However, the places touched by the fingers are very dry, and there is no trace of being rained at all.

Lin Wan'er is the same.

Charlie Wade clearly remembered that just now Lin Wan'er (Alani)'s hair was wet from the heavy rain and stuck to her cheeks, she was somewhat embarrassed.

And the trendy T-shirt on her body, because of the water, clearly showed traces of underwear.

But now, not to mention water marks on her t-shirt of that size, not even a wrinkle can be seen.

"It's so f*cking weird!" Charlie Wade muttered to himself.

Immediately afterwards, he asked Lin Wan'er (Alani) again, "Miss Lin, did it really rain just now? Is this not my hallucination alone?"

Lin Wan'er (Alani) nodded lightly, and said softly, "Master, it was indeed raining just now. My family has lived for so many years, and I have never seen such a heavy rain."

"Yes." Charlie Wade also nodded slightly, then stared at her and asked, "But, where is the rain? Where did it go?"

Lin Wan'er (Alani) shook her head, "I don't know."

Charlie Wade put his hands on his hips, and said inexplicably, "This is really unscientific. People say that geese leave traces. How can there be such a heavy rain? How can it be gone? The soil is not even wet, what a hell Already..."

Lin Wan'er (Alani) smiled and said, "Young master cultivates the Tao, and there is a strange woman who has lived for nearly four hundred years in front of him, why should he be obsessed with science?"

Charlie Wade said seriously, "I think Tao can also be explained by science. Yes, it's just that the current level of technology has not yet grasped the principle of it. Reiki is just a more advanced energy, just like atomic energy. When people have not mastered it, they feel incredible. Presumably, at that time, no one would believe that one kilogram of nuclear fuel will release energy equal to how many thousand tons, that is, millions of kilograms of coal, Reiki may be an invisible energy similar to nuclear fuel. "

Lin Wan'er (Alani) smiled, and said seriously, "Young master is right. Maybe aura is just like what you said, it is another kind of energy of a higher level that has not been mastered by most people, nor has its principle been researched. "

Charlie Wade said again, "Even spiritual energy has to follow the law of energy conservation, right? It rained so much just now, the rain stopped and the water was still there. This is the conservation of energy, but where does the water go now? "

Speaking, Charlie Wade continued, "Also, I used up most of the spiritual energy in my body with a thunder strike, where did my spiritual energy go?"

Lin Wan'er (Alani) pointed to the seedling in front of her, and said with a smile, "Young master's aura is here! " If it weren't for the thunder of the young master, how could the mother of pucha be reborn?"

charlie Wade was stunned, and asked her, "Didn't the mother of pucha turn into coke more than three hundred years ago?" Lin

Wan'er nodded, and said seriously, "That's true. Back then, my slave family saw her being smashed into coke by lightning.

charlie Wade pointed to the seedling and asked, "How can this be explained?" "

Lin Wan'er (Alani) said very seriously, "Young master, although the mother of Pucha is just a tree, she is also a tree that survives the catastrophe. Although she is not a human being, think about it differently. Jie, how terrifying is his strength? In the same way, the mother of pucha is probably one of the best among the trillions of trees in the world, and her ability is probably far beyond our imagination. "

charlie Wade asked in surprise, "You mean, is there any way for her to save herself after failing to cross the tribulation?"

Lin Wan'er (Alani) nodded, and asked charlie Wade, "Have you ever heard of Sanxian, my lord? "

charlie Wade subconsciously shook his head, "I've never heard of it." "

Lin Wan'er (Alani) said, "In previous legends about cultivating Taoism, there was a saying that if you can successfully overcome the catastrophe, you will become an immortal, and if you fail to overcome the catastrophe, you will be wiped out. But besides this, there is actually another possibility, that is, When the tribulation failed, the soldier was dissolved and became a loose immortal. In this way, he could reshape his golden body and regain his cultivation, but in this life, he would never have the chance to ascend through the tribulation."

charlie Wade asked in surprise, "It's so powerful

. Doesn't that mean that as long as the cultivation base can be raised to the level of transcending the catastrophe, it is equivalent to being a guarantee, becoming a feather and becoming an immortal, and being defeated and disbanded on the spot to become a loose immortal? Isn't this the unfinished chapter of the state-owned enterprise back then

The Amazing Son In Law Chapter 6090 -

Is my brother going to university? If you pass the exam, you are a college student, but if you fail the exam, you will have a job in a state-owned enterprise, so it is not up to him to be unemployed.”

Lin Wan'er (Alani) covered her mouth and smiled, and said, “What do you think, my lord? Not to mention whether the legend of Sanxian is true or not, even if it is true, it is also noted in the legend that there are very few people who can successfully defeat the soldiers at the critical moment of crossing the catastrophe, and it is hard to find one of them. The success rate is even lower than the success of crossing the tribulation. In other words, only two of the one hundred and two people can cross the tribulation successfully. Among the other hundred people, ninety-nine were smashed into pieces by the sky thunder, and only One can get away with it. “

Speaking, Lin Wan'er (Alani) said again, “Since the young master uses the university entrance exam as an example, then the slave family will compare all the monks who have passed the catastrophe to the recent college entrance examination candidates. Those who become immortals are basically equivalent to being admitted to Tsinghua University. Or Harvard and Cambridge, as long as candidates who are not admitted to these top universities will be eliminated in principle, they will be directly expelled from the high school campus and assigned to the society, and they will not have the opportunity to step into the campus in this life

; The unlucky guy who is only 0.1 points away from the admission scores of these top universities, after he became a Sanxian, although he lost the opportunity to go to university in this life, he has one advantage, that is, he is allowed to continue studying; “”It's just that

he He must start from the first grade and continue to the third year of high school; but after the third year of high school, he has to stay in the third year of high school all his life, and live until he is old, and he will be a high school student all his life; ”

“Think about it, my son. If a person fails the college entrance examination at the age of 18, then starts to study again in the third year of high school, and then repeats the grade in the third year of high school until he is 100 years old, the classmates around him will always be a group of 18-year-old young people. People, they either go to college and leave, or they are sent directly to the society, and they will never see them again. Only him, who has stayed here unshakably, Sanxian almost feels this way. “

charlie Wade was slightly taken aback, gave Lin Wan'er (Alani) a thumbs up, and sighed, "Miss Lin is indeed talented and intelligent. After letting you talk like this, I basically understand what Sanxian is. "

After speaking, charlie Wade looked at the seedling again, and asked her, "Ms. Lin, are you sure this is the mother of Pucha?"

Lin Wan'er (Alani) nodded heavily, "Yes! Her breath is exactly the same as that of the mother of Pucha. In addition to the many coincidences just now, I can conclude that this is 100% the mother of Pucha."

charlie Wade nodded slightly, and muttered, "If this is the case, does that mean that the mother of Pucha has become a loose fairy in the tree?"

Lin Wan'er (Alani) said without thinking, "It is almost I mean, it's just that Sanxian is just I didn't have the opportunity to verify some of the rumors I heard before, so all this is just my inference. Ye

Chen nodded, squatted down beside her, looked at the seedling, and murmured ecstatically, "This seedling looks ordinary, nothing special. Can't feel it. Seeing that he was suspicious, Lin Wan'er (Alani) said very firmly, "My lord, everything I said is true .

I believe that she must be the mother of pucha!" "

"Tsk..." charlie Wade smacked his lips, nodded to himself, and muttered, "There is such a miraculous thing, it is really unimaginable and unheard of."

As he said, he asked Lin Wan'er (Alani) curiously, "You said it grew so fast just now, why isn't it growing now? " "

Lin Wan'er (Alani) also looked blank, "Go back to my son, I don't know..."

charlie Wade rested his chin with one hand, looked at the seedling and sighed, "It's interesting, it's really interesting.

After all, he smelled the refreshing tea fragrance, subconsciously stretched out his hand and grabbed a young leaf from the seedling, and while putting it in his mouth, he muttered, "Let me taste it, what kind of taste will such an awesome tea tree have! "

Seeing him tearing off a young leaf, Lin Wan'er (Alani) immediately shouted in distress, "Master, you must not!" "

Lin Wan'er (Alani)'s "Ah" hadn't finished the ending, Charlie Wade quickly reached out and grabbed a piece, handed it to her mouth, and said seriously, "It's better to have fun alone than to have fun with others. You should try it too. Have you drunk it?" She has so many tea cakes, you must be the most familiar with her taste, try it and see if it tastes the same. Lin

Wan'er was about to cry, and said with red eyes, "Even if the young master eats up my slave, it's better than eating her leaves!" She waited for more than 300 years and just broke the ground today. There are only a dozen young leaves in total, and two of them were picked off by the young master. It's so pitiful..." "

It's okay. "Charlie Wade said seriously, "You see her vitality is so strong, the leaves that are pulled out will definitely grow back soon, you and I will treat her as pruning branches for her, don't people say, the tree will not be straight if it is not pruned. "

Lin Wan'er (Alani) said incomparably wronged, "My lord, she has just sprouted, why can't she just cultivate at this time..."

Seeing that her eyes were red, Charlie Wade reluctantly handed the two leaves in front of her, and said, "Look, I've pulled them all, and I can't put them back for her. At worst, I'll only pull these two leaves, and I won't pull any more leaves." , is it okay?"

Lin Wan'er (Alani) sighed resentfully, and muttered angrily, "Young master, taste it yourself, I can't bear it..."
