

The Amazing Son In Law Chapter 6184 -

charlie's words immediately scared five people including Will Johnson to their wits!

How could they have imagined that they had endured the humiliation and been tortured by charlie until now. They originally hoped that charlie would let them go, but who would have thought that charlie actually found the boss of the Chinese gang and even ordered them to kill him.

The five people were horrified. Will Johnson said vaguely with blood in his mouth, "Mr. Wade... We have done as you asked, please spare our lives..." charlie smiled and said, "If begging for mercy is useful

, There is no chance for your hands to be stained with anyone's blood and life. Thinking back to those people you killed, did they beg you before they died?" After saying that, charlie ignored

Will Johnson and put the gun He directly put it into Ni Dawei's hand and said coldly, "Why are you still standing there?"

Looking at the pistol in front of him, Ni Dawei looked particularly struggling.

Ni Dawei naturally has a deep hatred for Burning Angel.

However, when charlie handed the gun to his hand, he began to feel inexplicably nervous again.

He had been working hard in the Chinese gang for many years. Although he often fought with others, killing someone with his own hands had never happened before.

charlie suddenly handed him the gun and reminded him that there were five bullets in the gun. His intention was very obvious, which was to let him pick up the gun and kill all five enemies one by one.

Ni Dawei couldn't help but start to worry. He was wondering, if he really shot and killed these five people here, would he have to live the rest of his life hard under the pursuit of the police and the pursuit of the Burning Angels.

After all, he didn't feel that the Hua Gang had any chance of winning against the Burning Angel.

He couldn't resist even a Burning Angel, let alone the Italian behind the Burning Angel.

However, Charlie's words just now were indeed deeply affecting. It stimulated him.

Under his leadership, it's okay that the Chinese Gang failed to get out of Chinatown. Now they are still being killed by the opponent. Now the entire Chinatown has completely become the territory of the Burning Angel. If he runs away, the Chinese Gang will also be completely destroyed. Become history.

At that time, not only will the dead brothers die with their eyes open, but even the vendors in the entire Chinatown will be greatly negatively affected.

For a moment, Ni Dawei experienced the entanglement and struggle that he had never experienced in his life.

Charlie felt a little disappointed when he saw him hesitating again and again, and said coldly, "He is fearless, hesitant, timid, and indecisive! Having a boss like you is really a great pity to the Chinese Gang and even the entire Chinatown!"

Ni Dawei was immediately ashamed, but still did not make a choice between the two.

Just when he didn't know what to do, Gunbir on the side suddenly walked up to Charlie, stretched out a hand, and said firmly, "Mr. Wade, give me the gun, I'll do it!" Arman said slightly

. Startled, he looked at him with a slight frown and asked, "Gunbir, if you kill someone, you may not be able to stay in the United States anymore." "It doesn't matter,

Uncle Arman!" Gunbir clenched his fists and said seriously, "Uncle Arman, if I don't get rid of them, I can only continue to be bullied by them and let them squeeze me when I stay in the United States! What's more, they themselves deserve to be killed! And I am an illegal immigrant in the United States. The worst I can do is get rid of them. Just find a boat to leave the United States! I would rather never come back than take this breath!"

After that, he gritted his teeth and said sternly, "But before I leave the United States, I must fight with all my life to kill more of them. A life! Revenge for the compatriots who died in Chinatown!"

Arman wanted to say something, but he held back the words when he reached his lips. He just looked at Charlie subconsciously, waiting for him to speak.

Charlie looked at Gunbir and said very seriously, "Gunbir, if you shoot, you still have two options to choose from. The first way, I will arrange for someone to send you out of the United States overnight. Just like you said, Never come back again."

Having said this, Charlie paused slightly, and his tone became a little higher, and he continued, "As for the second way, stay here and kill more people who deserve to be killed!"

Gunbir looked blank. He asked Charlie, "Mr. Wade, what do you mean by the second way?"

Charlie said with a serious expression and a firm tone, "Stay here, I will help you form a new Chinese gang. From today on, everyone will be humiliated." You, kill them! Anyone who insults your brothers and sisters and your compatriots, you also kill them!"

Gunbir was stunned on the spot. After hesitating for a few seconds, his eyes gradually became determined, and he nodded heavily and said, "Mr. Wade! I Choose the second option!"

Charlie reminded, "Once you choose the second option, I'm afraid there will be no turning back in your life. Are you really sure you want to choose this way?" he

said without thinking, "Mr. Wade, I'm sure!" After

saying that, he glanced at Ni Dawei and said seriously, "Big Weiwei is a good person, but he is not suitable to lead the Chinese Gang. Over the years I have been in Chinatown, I have seen the Chinese Gang become more and more... I am weak, seeing my compatriots getting older and falling apart, and seeing those foreign devils getting more and more aggressive, I really feel unwilling

to do so! If I have the opportunity to lead the Chinese Gang, I must do my best to make the Chinese Gang develop and grow, and make it the best in New York and even the United States. People dare to mess with you!"

Charlie nodded, looked at Arman, and asked, "Uncle Arman, what do you mean?"

Arman sighed softly and said, "Since Gunbir himself has made a choice, then of course his subordinates will support, I understand Gunbir's character. He is decisive and straightforward in doing things, and has extraordinary courage. He is indeed more suitable to lead the Chinese Gang than Da Wei, and with the help of the young master, his subordinates also believe that Gunbir will definitely be able to open up roads in the mountains with the help of the young master. Build a bridge over water!"

Charlie nodded slightly.

He could see that Arman did not want Gunbir to take this path.

But he believed that Arman would be the same as him. He could see that Gunbir had already made a choice deep in his heart. .

So, he looked at Ni Dawei with an embarrassed expression and asked, "What do you mean by Mr. Ni?" Ni

Dawei coughed twice and hesitated, "Nowadays, members of the Chinese gang are dying and escaping. Mr. Wade wants to support Gunbir to become the boss of the Chinese gang, but with only him as a polished commander, I'm afraid it will be difficult for him to develop..."

Charlie said coldly, "Mr. Ni, looking down on yourself and badmouthing others will only make you a self-pitying and resentful woman. It will lower your vision, lower your status, and make you useless." Trash, if you think about it carefully, what good will it do to you if Gunbir fails? Can it help you walk out of the hair salon with confidence and boldness? Can you become the big brother of the Chinese gang again and dominate Chinatown?"

When Charlie said this, he continued without waiting for Ni Dawei's answer, "I tell you, it won't happen! If Gunbir fails, you will either never leave your lover's hair salon for the rest of your life, or you will be able to return to Chinatown for the rest of your life! And you will never have another chance to turn around in this life!

Immediately, charlie looked at him and asked, "What if Gunbir succeeds? " If you take a step back, you can continue to live in Chinatown openly. If you take a step forward, maybe you can become the core backbone of the Chinese Gang. Which one is more important, which one is better, which one is worse, I believe you have your own considerations! "

When Ni Dawei heard this, he felt ashamed.

He really didn't think highly of Gunbir, not to mention, charlie
