

The Amazing son in law (charlie wade) - The Amazing Son In Law Chapter 6340

While drinking coffee, charlie Wade discovered that there were two black Cadillac SUVs parked outside the motel across the road. Although both cars were turned off and the windows were heavily filmed, there was actually something inside. There are always people, and every car has four people.

charlie Wade guessed that these people should be the Rothschild family's subordinates, who are always on standby here. If there is any emergency, the eight people can immediately go to support.

Moreover, the SUV they ride in has strong performance and heavy weight, and is most suitable for interception. It will not be afraid of an ordinary car in front of it, even if it collides head-on.

charlie Wade couldn't help but secretly think that these people had already started setting up a dragnet a kilometer away. If they got closer, he didn't know how many people would be keeping an eye on them.

It seems that it is not that easy to take the Sifang Baozhu away from here without exposing yourself as much as possible.

At this time, several middle-aged men in plain clothes walked into the coffee shop. charlie Wade looked at a few more people and found that their walking gait, body posture and control of fine movements all seemed to be well-trained. He was a professional professional, so he stirred the coffee in the cup silently and quietly observed these people.

A few people chose a table in the corner by the window and ordered a few cups of coffee from the waiter. After the waiter left, one of them looked at the motel outside the window and cursed in a low voice, "These Rothschilds are the best." Don't cause any trouble for us. Once they cause another big scandal, our reputation will probably be completely ruined." The

other person nodded and lowered his voice and said, "The higher-ups now want us to keep an eye on them here for the time being. , if they do anything out of the ordinary, we must immediately step forward to stop it, but the above also reminds us not to go any further. Rose

Childe's people are very sensitive now. Once we get too close to the Zhou family, they will cause trouble. "

The man before sighed helplessly, "They don't pay attention to the FBI at all. It's pointless for us to keep an eye on them. Look at their personnel and equipment. They are several times better than us. They really want to do something. We can't stop things. "

As he spoke, he lowered his voice and said, "I heard from people in the equipment department that the Rothschild family has brought in several sets of the most high-end thermal imaging equipment. Within a few hundred meters, you can even tell whether a mouse is male or female. I don't know what they are going to do. The colleague opposite smiled slightly and said, "

If you can't stop them, that's the true intention of the higher-ups. If the Rothschild family insists on doing something, no one can stop them, and the White House has no chance. We just need to act like we're trying to stop them." We have completed our mission, and if public opinion really collapses, we can still explain that we did stop them, but they didn't take us seriously at all. The third person who had been silent until now suddenly said, "

Did you see the helicopter passing by in the afternoon?" "

I saw it. " The other two people nodded, and one of them asked, "Is there anything special about helicopters?" The Rothschild family has arranged at least a dozen helicopters nearby. The

third person pretended to be mysterious and said, "Those helicopters are just waiting secretly nearby. None of them has flown within a mile of Zhou's house. The one in the afternoon is the only exception. You know who is sitting on that helicopter?" Who is it?

The two people quickly asked, "Who is it?

" " The

third person whispered, "I don't have exact information about who it is, but I can be sure that those on that helicopter were direct members of the Rothschild family. member! "

"real? The two looked stunned, and one of them quickly said, "Are direct members of the Rothschild family here too?" What are they here for? "

The man said, "I don't know what he's doing specifically, but it can be seen from Rothschild's series of actions that the Zhou family is very important to them. Yesterday, the director went to a meeting above, and I heard him talking to the deputy. The director talked and said that almost the entire Rothschild family had mobilized and put the entire New York and an area of 200 miles under martial law!

"Martial law?" One of them asked, "Why didn't I hear about it?"

The man explained, "The current martial law is not open to the public. The police come out to block all land transportation. All vehicles leaving the designated area must be inspected. The reason they use is to fight drugs. "According to the tip, a large amount of drugs entered New York;" "

In addition, all passengers on outbound planes must go through two security checks, and the goods that have been loaded into the warehouse must also be security checked again, otherwise they will not be able to take off. This is done secretly. The outside world does not know;"

"In addition, all cargo ships are also prohibited from leaving the port, and the customs will conduct one-by-one inspections. The customs' external rhetoric is that a batch of nuclear materials that can be used as weapons are currently leaving New York and being sent to terrorists. In fact, this is all fucking farts. Who with a sick mind would sell nuclear materials from New York? There is fart nuclear material in New York, but it is just the means of the Rothschild family. "

As he spoke, the man added, "Oh, by the way, even helicopters can't leave New York now. The whole of New York has been surrounded by an iron barrel!

"Who did you hear this from?" The first person asked with some confusion, "How come I didn't hear about such a big movement?" "

The man explained, "This has just started today. Currently, there are a group of core members of the Rothschild family watching every aspect of the land, water and air. A group of high-ranking guys are now scrambling like crazy. I don't know what I'm doing.

The other person sighed, "I don't care what the hell they are going to do. I just know that I have to stay up all night again tonight. I don't know when this hard life will end. " "

At this time, the waiter came over with three cups of coffee. The three of them exchanged a look and stopped talking in low voices.

They thought that the three of them were whispering in the corner and would not be overheard by others. , but he didn't expect that every word they talked about fell clearly into Charlie Wade's ears.

Charlie Wade's heart moved. In his opinion, the Rothschild family was strictly guarding the Zhou family manor in order to be able to. After finding the Sifang Baozhuang, even the core members have flown to the front line. They must be

here to grab military glory. If there were no people from the Rothschild family, it would be really difficult for me to do it under the nose of so many professional equipment. The Sifang Baozhuang is taken away.

Now that the core members of the Rothschild family are here, it is equivalent to a breakthrough. It's like being dozed off and someone hands you a pillow!

I want to take the Sifang Baozhuang away from here without anyone noticing. , and bring them all the way out of the United States, the best way is to let the Rothschild family members serve as mules for transporting human flesh.

No matter who is coming from the Rothschild family this time, they have no questions are here to help yourself!
