charlie Wade smiled noncommittally.

Naturally, he couldn't tell anyone about Lin Wan'er, including Nanako.

However, it is indeed true that Lin Wan'er took the Evergreen Pill and lived for so many years but still failed to enter Taoism.

Moreover, the ancestor of the Jiang family had served Meng Changsheng (Willie) all his life, and it can be seen from the image left in that painting that Meng Changsheng (Willie) at that time was indeed sincere to the ancestor of the Jiang family, otherwise he would not have After finding the opportunity, go back and fulfill your promise.

But even though the ancestor of the Jiang family was treated without reservation by Meng Changsheng (Willie), he still failed to realize the truth.

It is really incredible that Nanako Ito successfully attained enlightenment under the guidance of a Buddhist master.

So, charlie Wade asked her: "Nanako, can you tell me the details of your enlightenment?"

Nanako Ito smiled and said, "Of course, Nanako has no secrets in front of charlie Wadejun."

After that, she said How I happened to meet that neighbor in the elevator, how I met Master at Qixia Temple, how I argued with Master Jingqing about selflessness and true self, and how I found the whole process of enlightenment in the sea of consciousness, I told them without reservation. charlie Wade.

After hearing this, charlie Wade did not have any doubts about Master Jingqing and the trigger of the whole incident.

After all, when Ito Nanako described it, she said that when she got off the elevator, she happened to meet a neighbor who was on the phone. After hearing the neighbor talk about the amulet, it was Ito Nanako who took the initiative to ask. I know Master Jingqing.

If someone took the initiative to tell Ito Nanako all this, it would naturally feel a bit deliberate.

But when Nanako Ito took the initiative to fight for all of this, both Nanako herself and Charlie Wade, the bystander, felt that everything was natural.

Precisely because everything seemed flawless, Charlie Wade directly focused his attention on Nanako Ito's method of enlightenment.

This is the first time Charlie Wade has heard of this idea of letting his spiritual consciousness blend into his own sea of consciousness.

Because there was almost no process for his enlightenment. After obtaining the "Nine Mysterious Heavenly Scriptures", he had completed the entire process of enlightenment, so he did not experience how to enlighten himself.

Surprised, Charlie Wade couldn't help but sigh: "It seems that enlightenment really depends on talent and opportunity. Only a few people can do it by looking inside, and even fewer can look inside the sea of consciousness. There are few, let alone the integration of divine consciousness and sea of consciousness on these foundations... Nanako, you have both talent and opportunity, so you can successfully realize the Tao so early."

Ito Nanako nodded and said with a smile: "Nanako is actually not very interested in enlightenment. She just thought that if I successfully enlightened, I would have more time and opportunities to accompany Charlie Wadejun in the future, so I felt full of motivation."

Charlie Wade was moved in his heart, but he couldn't help but sigh: "It's a pity that I don't have a mental method suitable for practicing Reiki. Otherwise, I can share it with you and make progress together."

Nanako Ito smiled and said: "Charlie Wade-kun, don't be depressed, there is still a long way to go, maybe you can find further opportunities within a certain period of time."

Charlie Wade nodded slightly in agreement and said: "Yes, don't worry about this, there will definitely be opportunities in the future."

After that, he thought of something and quickly took out a Peiyuan Dan came, handed it to Nanako and said: "Nanako, although you have enlightened now, you don't have the mental method at hand, and there is no naturally existing spiritual energy around you. It is very difficult to improve your strength, even if you want to increase the spiritual energy in your body. , this elixir is specially used to replenish spiritual energy, please take it first and give it a try!"

The Amazing Son In Law Chapter 6562

charlie Wade said frankly: " I am ashamed to say that I have no good way to further improve my cultivation, so I rarely practice. As for the mountain villa, apart from refining some elixirs, I have no other use."

Ito Nanako asked him: "Do you still think it's because you haven't cultivated your mind?"

"Yes." charlie Wade nodded: "My current situation is like a self-study of elementary school courses, but I haven't found any middle school textbooks yet. The students accepted by the school have no idea how to improve themselves in the next step, and they are equivalent to streetwalkers in the field of monasticism."

Ito Nanako could see charlie Wade's helplessness and couldn't help but said: "charlie Wade-kun, don't belittle yourself, in this world, any one The disciplines are all established little by little by predecessors, and the same goes for spiritual practice. Although charlie Wadejun does not have a ready-made mental cultivation method, I believe that if charlie Wadejun is willing to study hard, he might be able to develop a set of mental methods by himself. ."

charlie Wade did not comment on what Nanako Ito said. He also knew that this possibility must exist in theory. However, it would be easier for the predecessors to plant trees and for others to enjoy the shade. It would be easier to stand on the shoulders of giants and achieve results, and If you want to establish a sect in a certain field on your own, it is not something that can be described as "difficult". It requires a genius beyond ordinary people to do it.

charlie Wade didn't think he had such a genius, but Nanako Ito's words also gave him some inspiration.

It is difficult for a primary school student to have talents like Newton and Gauss.

But if you are more down-to-earth and do more research on the basis of elementary school mathematics, you might be able to figure out a little bit of the knowledge of junior high school mathematics.

Just like before, Ito Nanako relied on her own exploration to achieve voyeurism and found a way to make her consciousness jump down in the sea of consciousness without a teacher. That method not only made her martial arts improve rapidly, but also it laid a solid foundation for her enlightenment.

As soon as he thought about this, Charlie Wade secretly decided in his heart that he would take more time to go to the mountainside villa in the future, where he could concentrate on studying Taoism. Maybe he could find a way to break through on the existing basis.

However, when I think about my grandmother's family living in a villa in the middle of the mountain, if I come here every day to practice retreat, I will definitely pass by the door of my grandmother's house. Out of courtesy, since I am here, it is impossible not to say hello, but once I say hello, this efficiency. The stool will naturally decrease.

Besides, if Nanako Ito comes here every day, it will not be easy to explain to her grandmother after all.

Therefore, Charlie Wade couldn't wait to find a new place to practice.

After thinking about it, Fei Kexin's idea of buying the Quinton family's waterfront mansion when he was a child in Aurous Hill under the pseudonym Zhan Fei jumped into his mind.

The Quinton family's villa is located in Shuiyun Villa, which is far away from the city. It is surrounded by mountains and rivers, has excellent scenery, and has not many residents, so it is relatively quiet.

Moreover, the Quinton family's mansion is the merger of two villas. Not only does it have the buildings of the two villas themselves, but it also took advantage of the early loosening of policies to do a lot of additions to combine the two villas into one. The actual usable area is at least three times the size of a villa.

Fei Kexin originally bought this house and asked his wife Claire to help design and renovate it. Now that it has been idle, it is better to buy this house from Fei Kexin and use it exclusively for his own cultivation in the future.

Moreover, there are not many households in Shuiyun Villa. There are only twenty or thirty households in total, and they are all large houses. Charlie Wade feels that he might as well do it more thoroughly and send more people to come forward to cover all the households in Shuiyun Villa. Buy all the houses and make it your own base.

The reason why Charlie Wade had this idea was because the geographical location of Shuiyun Villa was indeed special.

This community is built on a gentle hillside. The lake in front is actually a naturally formed barrier lake. The road passes through the foot of the mountain, and the road up the mountain is a two-lane cement road built by the developer of the community. Road, and this road only leads to Shuiyun Villa, which means that except for the owners and visitors of Shuiyun Villa, almost no one else will come here.

Once the actual owners of the entire community are all themselves, outsiders will naturally be isolated from the community.

Moreover, Don Albert's original underground force had a deep background in Aurous Hill, and there were many property companies among them. He could easily replace the property company in Shuiyun Villa and let Don Albert come forward to establish a new property company. Then replace all the employees of the property company with your own people.

In this way, the confidentiality level of Shuiyun Villa will be higher.

I can do something big in Shuiyun Villa.

Every villa in Shuiyun Villa has a large underground space. What's

even more rare is that Aurora liked to practice martial arts since she was a child, so her father built a special training ground for her underground and invested a sum of money to develop it. Taking a look at the underground part of Shuiyun Villa, maybe we can gradually turn it into an existence comparable to a dead soldier's garrison, which will be of great use in the future.

Thinking of this, Charlie Wade immediately said to Nanako: "Nanako, I'll call Miss Fei Kexinfei. She has a very suitable training venue in her hands!"

The Amazing Son In Law Chapter 6563

In view of the time difference, Charlie Wade did not call Fei Kexin immediately, but thinking about this matter would not be any difficult for Fei Kexin. He would call her to communicate with her in the evening and start planning the follow-up. .

So, Charlie Wade said to Nanako: "Nanako, in my opinion, you don't need to go back to continue practicing martial arts. Why don't you come with me to the Mid-Levels Villa to help me in the afternoon. When you're done, we'll go back to Tomson Yipin together."

Nanako nodded without hesitation and said: "Nanako listens to Charlie Wade."

After saying that, Nanako asked: "Charlie Wade, do you want me to say hello to Hong Tianshi?"

Charlie Wade waved his hand and said: "Don't go now, he I must still be teaching. Let's talk to him in private later."

"Okay!"

Then, Charlie Wade took Nanako back to his mountainside villa and went to the basement of the villa. Nanako was surprised to find that here there is actually a simple oral liquid filling equipment, and there are many unused empty oral liquid bottles and bottle stoppers next to it.

Nanako asked in surprise: "Charlie Wade, why do you still have pharmaceutical equipment here?"

Charlie Wade smiled and said: "It's just a set of simple filling and sealing equipment. I plan to prepare some for the martial arts students in Champs Elysees to improve their strength. As for the elixir, there are just too many students in Champs Elysees. I can't afford to give each elixir a pill, so I simply turn the elixir into water and dilute a batch of oral liquid for them."

After saying that, Charlie Wade said again: "I originally prepared more than two hundred bottles, but I didn't expect there would be so many people at that time. Who would have thought that later Maxton, Hong Tianshi's great disciple, brought the entire Taizhen Tao to Aurous Hill, so I prepared some more. Give it to them tomorrow."

Charlie Wade turned off the car and planned to take Nanako into the elevator first, then go up to the first floor from the elevator, and then walk back to his villa.

When he and Nanako were about to get out of the car, a female driver had already got out of the car in the parking space diagonally opposite. After she locked the car, she carried her bag and walked to the elevator hall.

When Nanako saw her, she said to Charlie Wade: "Mr. Wade, she is the neighbor I mentioned. It was only when I heard her calling her friend that day that I learned that Master Jingqing was coming to Aurous Hill."

Charlie Wade nodded lightly. , smiled and said: "It seems that if you have the opportunity, you must thank her. One phone call and she helped you realize the truth by accident."

"Yes!" Nanako also agreed with Charlie Wade's point of view and said: "If it hadn't been for her, I might not have had the chance to realize it."

After saying that, Nanako asked Charlie Wade, "Would you like to meet Master Jingqing, Lord Wade? Maybe he can also give you some inspiration."

Charlie Wade shook his head: "I'm in a special situation, so I'd better try not to meet strangers like this who have already realized enlightenment."

After saying that, Charlie Wade looked at the woman's back, suddenly became more discerning, and immediately sensed it with his spiritual energy.

He didn't doubt this woman in his heart. He used his spiritual energy to sense her, and it was entirely because he thought of the 'scholar' from the Po Qing Society. He felt that all the coincidences in this world may not be coincidences.

Therefore, he thought about using spiritual energy to confirm. If the other party was an ordinary person who didn't understand martial arts, let alone spiritual energy, it would prove that he was worrying too much.

The Amazing Son In Law Chapter 6565

By / March 6, 2024

After saying that, he pressed the button on the elevator. Layer button.

The woman nodded slightly and said with a smile: "I thought you were a couple. You seem to be a perfect match."

Nanako Ito said shyly: "No, no... we are just ordinary friends..."

The woman nodded and said no more. Ridicule.

The elevator quickly reached the first floor, and charlie Wade said goodbye to the two of them, got out of the elevator, and walked back to the villa area.

At this moment, he never dreamed that the woman who was in the same elevator with him just now was his biological mother's subordinate, and the reason why she came back before him was because everything was planned.

Lydia (Ava) (Charlie's mom) was worried that charlie Wade would think too much, and deliberately asked her to find an opportunity to appear in front of charlie Wade, so that charlie Wade could confirm that she was an ordinary person who did not understand martial arts and spiritual energy.

The reason why we have to calculate the time to let this woman enter the basement first is to further reduce the possibility of being suspected.

After all, people are subjective animals. If a person follows you to the same place, an interested person will think that he is being followed, but the opposite is different, and the level of suspicion is greatly reduced.

Lydia (Ava) (Charlie's mom) intervened in Nanako's enlightenment. In order to prevent charlie Wade from noticing anything unusual, she had to dispel all charlie Wade's doubts. Otherwise, with charlie Wade's character, he would definitely get to the bottom of it before giving up.

A few minutes later, charlie Wade returned to Tomson Yipin's villa area.

In the villa at this time, Elaine and Jacob were watching TV in the living room on the first floor.

They said they were watching TV, but they just turned on the TV and listened. In fact, they were both half-lying on the sofa, each scrolling through their mobile phones.

Claire has not returned from the United States, and charlie Wade has been out for many days. From the beginning, the enemies fought every day, and gradually became tired and tired, and evolved into the most familiar strangers. Although the two were under the same roof, , but there is almost no communication between them.

charlie Wade pushed the door open and came in. Both of them subconsciously stood up from the sofa, looked at charlie Wade in surprise, and said in unison: "The good son-in-law is back!" After saying that, the

two of them looked at each other with disgust, as if they were both I was disappointed with the tacit understanding just now.

Jacob was about to take a step forward to talk to charlie Wade. Elaine had already limped to his side. He twisted his butt to the side hard, catching Jacob off guard. He immediately lost his center of gravity and waved. After a long time, my arms couldn't regain their center of gravity, so I could only stumble back to sit on the sofa.

Jacob looked up angrily. Elaine had already reached charlie Wade and said with a flattering face: "Oh my dear son-in-law, why did you come back at this time and didn't say hello to mom in advance? Have you eaten yet? Do you want mom to give me some?" Can you make something to eat?"

charlie Wade smiled and said, "Don't bother Mom, I've eaten."

Jacob stood up quickly, walked up to him, and said, "Good son-in-law, how are you going to leave this time?" For so many days?"

The Amazing Son In Law Chapter 6566

By [_](#) / March 6, 2024

charlie Wade smiled and said: "The business volume this time is relatively large. I visited several houses and factories in a row. The main reason is that this customer is strong."

"Ouch!" Elaine said happily: "So You must pay a lot of money to a strong customer,

right?" "That's right." charlie Wade nodded and said casually: "This customer is very willing to give money. Before he came back, he even paid an extra million for carriage fees."

Elaine He exclaimed: "My dear! Just give me one million for the carriage fee. What kind of magical customer is this?"

Jacob on the side also exclaimed: "This is the rich man. If you give me an extra million, I will treat him like a fairy." Is it a tip? What a waste of money!"

Elaine thought of something at this time and quickly said to charlie Wade: "Good son-in-law, I read on the news that the youngest son of the richest man in India got married, and the pre-wedding party alone cost more than 100 million US dollars. , the equivalent of RMB is over one billion. You said that if you could find such a client and provide him with feng shui for choosing a wedding location, then it would be worth tens of millions of dollars to you?"

charlie Wade laughed dumbly. He could only nod and said: "It's almost the same, but I don't know the customers in India. I don't think I can make this kind of money."

Jacob pulled charlie Wade to sit down on the sofa and said, "Good son-in-law, you have a good eye." Taking a longer view, always showing Feng Shui to Chinese people is a kind of cultural occlusion. Our Chinese civilization has a long history, but most foreigners don't believe it. Let's forget it if foreigners don't believe it. Many young people in our country don't believe in the wisdom left by our ancestors. , they would rather study zodiac signs and tarot cards all day long than study the things of our ancestors, then you tell me, why can't we let foreigners also study our Feng Shui secrets and I Ching Bagua?"

charlie Wade thought What Jacob said makes sense, but his idea is a bit wishful thinking. If you look at history, both Eastern and Western cultures can be said to have a long history, and even the East is even worse. However, the West has seized the golden forty years in the late World War II. This In the past forty years, the world's cultural, commodity and financial exchanges have become increasingly close, and the speed of cultural communication is naturally astonishing. Therefore, their modern culture is the most widely spread. Things like zodiac signs, just like Hollywood movies, have long been

Sweeping the world, but if the secret technique of Feng Shui, the I Ching Ba Bagua, wants to sweep the West, it may still have a long way to go.

However, Charlie Wade did not argue with Jacob, but just smiled and said: "Dad, you are right, cultural confidence and cultural output are both important. When there are opportunities in the future, I will definitely go overseas to promote Feng Shui."

Jacob and Elaine happened to be in the living room, so Charlie Wade said to them: "Mom and Dad, Claire sent a video, I will take it here." The

two agreed quickly, and then they were no longer hostile to each other, so Charlie Wade He pressed answer without hesitation.

After the video connection was successful, Claire's delicate and graceful face appeared on the phone screen.

Seeing Charlie Wade, Claire said in surprise: "Husband, you are home!"

Charlie Wade nodded: "I just came back today to show you my parents."

As he said that, he moved his phone and connected Jacob and Elaine They were all photographed.

Jacob asked with concern: "When will my daughter come back? Dad misses you!"

Elaineze said quickly: "Good girl, don't listen to your dad's nonsense. Although mom misses you too, it's hard for you to be with the American Fei family now. Cooperation, what a great opportunity this is, you must put your career first, if it doesn't work, Mom will go to the United States to take care of you!"

Claire said with a smile: "Mom, I sent the video to Charlie Wade just to say this, this is not I just finished a morning meeting with Ms. Fei and the others. There are some legal issues with the project in the United States. It needs to be suspended for a while. The specific time has not been determined yet, so I plan to return to Aurous Hill first."

Elaine heard this After hearing this, he couldn't help but feel a little disappointed and said: "Then the eldest Fei family still can't solve some legal issues?"

Claire said with a smile: "Whether we can solve it or not, we have to go through judicial channels after the lawyer intervenes." ". "

Elaine said: "What I mean is, don't they have the ability to solve the problem directly in one step?"

Claire could only explain: "No matter how rich you are, you must abide by the law. Since it is a legal matter, The problem must be solved in the legal field."

"Forget it, forget it." Elaine said a little disappointed: "I originally said that I would go to the United States to accompany you for a few days. Come back as soon as you come back."

With that, Elaine Then he said: "By the way, girl, they won't use this as a reason to delay your salary, right? Mom tells you, you must not let them do this kind of thing. It is their problem that caused the project to be suspended, and it should be given to you. You can't lose even a penny of money!"

Claire said helplessly: "Mom...why do you talk about money when you talk about it..."

Elaine said with a serious face: "In the real world, what's the point of talking if you don't talk about money? Are you talking about a relationship?"

Seeing that Elaine was so disappointed, charlie Wade quickly said: "Daughter-in-law, when will you come back? Have you set a time?"

Claire said: "I want to share the information about the project here with you first. I will seal the progress and solve the remaining problems. If there are no other problems, I will hurry up and go back. If I can't finish it tomorrow, it will be the day after tomorrow at the latest."

The Amazing Son In Law Chapter 6568

By / March 7, 2024

charlie Wade asked her: "Have you seen the ticket? Is there a suitable flight the day after tomorrow? ?"

Claire said: “Ms. Fei said that she would directly arrange for the Fei family’s special plane to take me back, but I’m embarrassed. The cost of a special plane flight is millions. How can I let people spend money?”

Elaine quickly said. : “Girl, then you can take a regular flight back, and let her directly discount the money for the private plane to you! Discount it for one million!”

charlie Wade said quickly: “The Fei family has a lot of planes. If you don’t usually fly, just throw them away. That’s something you have to maintain. The actual cost of one extra flight is actually not that high. In addition, there is no direct flight from New York back to Aurous Hill. You have to transfer in the middle. It’s too troublesome. My wife, I’d better ask Ms. Fei to arrange a special flight to take you off. Let’s go.”

Claire said with some embarrassment: “But that’s so embarrassing...”

charlie Wade said: “There’s nothing to be embarrassed about. Besides, this is Miss Fei’s suggestion. I will call her later to thank her. .”

After saying that, charlie Wade added: “You have been in the United States for so long. My parents and I miss you very much. Come back as soon as you finish the things at hand. Miss Fei will arrange a flight to take you off. You can go directly to the airport after finishing your work. You can get home after just sleeping on the plane. Otherwise, you have to wait for the flight to take off, and you have to transfer in the middle and you don’t know how long it will be delayed. “

Claire saw that charlie Wade had said this, so he nodded slightly, stuck out his tongue, and whispered: “Actually, I also want to go back early, but I feel embarrassed to let others spend money.

charlie Wade smiled and said, “Then you don’t have to be embarrassed when your husband makes money to buy a private jet. ”

Claire thought it was a joke and said casually: “Okay, okay, but I don’t want you to work too hard.” “

The Amazing Son In Law Chapter 6569

By / March 7, 2024

Jacob said hurriedly: "I didn't mean that! " What I mean is that even if you work for Apple, you just get what you get. Although Claire is doing well in her field, having an income of several million in a year is already pretty good. You have only been in the United States for a short time, and you want someone to give Claire eighteen million. Isn't that nonsense?

Elaine said disdainfully: "You don't know how to deal with the world at first glance. Then Miss Fei has found a good son-in-law to help with feng shui, and she will not give less to her son-in-law if she wants to do it well." "

charlie Wade heard that the two of them were arguing about something and had a headache. At this time, his mobile phone WeChat received a message from Fei Kexin, which read: "Mr. Wade, is it convenient for you to answer the phone?"

charlie Wade then opened his mouth and said to Elaine and Jacob: "Mom and Dad, I'm going back to the room first." "

After that, he got up and went upstairs.

Back in the bedroom, charlie Wade made a voice call to Fei Kexin. After the call was connected, Fei Kexin said respectfully: "Mr. Wade, I'm disturbing you so late. charlie Wade said: "

Miss Fei, you're welcome. Claire sent me the video just now. You've already started finishing the video, right?" "

"right. Fei Kexin said: "In order not to make your wife suspicious, I have arranged all the normal procedures. After the finishing touches are completed, your wife can go back." "

With that said, Fei Kexin added: "The current situation at the construction site that is announced to the outside world is that there are some legal disputes, but I have also let it out to the outside world. I am trying to find ways to settle out of court and try not to go to court, so this matter The matter can be resolved quickly or slowly. It all depends on your needs. If you no longer need your wife to come to the United States, this project can also be put on hold. If you need your wife to come back next month, I can directly announce that we have agreed with you. Once the other party reaches a settlement, construction can resume. "

charlie Wade admired Fei Kexin's intelligence and agility in his heart, so he said with a smile: "Thank you, Miss Fei, for making such a thorough arrangement and having enough progress and retreat. "

The Amazing Son In Law Chapter 6570

By / March 7, 2024

charlie Wade was not polite to Fei Kexin and said: "Then I would like to thank Miss Fei."

Fei Kexin said: "Mr. Wade is so polite. I am glad that I can serve you. It's an honor."

After reaching an agreement with Fei Kexin, charlie Wade called Doris Young again.

Doris Young hadn't answered charlie Wade's call for a long time, so her voice couldn't contain her excitement and she said, "Chairman, do you have anything to do with me?"

charlie Wade said, "Doris Young, you know the situation at Shuiyun Villa. I want to take it all, but I can't take it with a big fanfare, so the price can't be too outrageous to avoid being noticed by interested people. Do you think it's difficult?"

"Shuiyun Villa..." Doris Young pondered for a moment and said. : "Chairman, Shuiyun Villa should be a villa area with a certain age. After I took over the Emgrand Group, I read the previous information of the Emgrand Group. At the beginning, the Emgrand Group was also preparing to compete for that land. Later, due to the lack of supporting facilities in the surrounding area, it was So I gave up. It's in the mountains in the suburbs. It hasn't been developed over the years, and housing prices haven't risen. It shouldn't be difficult to get it."

charlie Wade felt happy and said: "Doris Young, then you can Help me arrange some capable business personnel. First find out the owner information of Shuiyun Villa, analyze the current occupancy rate of Shuiyun Villa, and then analyze the age level and employment status of the staying owners. After getting all the information, go The villa owners in Shuiyun Villa who have private one-to-one contact can use the identity of the Dihao Group and different people to buy all the villas in Shuiyun Villa one by one. There is room for price increases, but they must be careful. Real estate prices

Employees in the industry have a very keen sense of smell. If they know that someone is purchasing Shuiyun Villa at a high price that is not in line with the market conditions, it will definitely cause unnecessary trouble. So I hope you can do it as soon as possible without being noticed. Get the entire Shuiyun Villa as soon as possible.”

Doris Young said immediately: “Okay Chairman, I will arrange this matter, and I will report to you as soon as there is any progress!”

Take Shuiyun Villa to secretly build a base, This is what charlie Wade has no other solution for right now.

Aurous Hill is an inland city with a very high population density. It is almost impossible to find a place without being disturbed at all, so we can only find a way to cross Chencang secretly.
