

## the Amazing Son In Law Chapter 6952

When Charlie was taking Lin Wan'er (Alani) to revisit his old place outside Bergen, in an oil field far away in Nigeria in southeastern Africa, a large number of walking beam pumps were running 24 hours a day on the vast land. The entire plain was filled with the repetitive rotation of machines and the roar of various other machines.

As the largest oil producer in Africa, Nigeria's oil economy is their mainstay.

When international oil prices were high, Nigeria was once the number one country in Africa. We cannot say that its GDP has always been number one, but it is no problem for it to remain in the top three.

The oil field under the control of the Qing Society has been operating on this land for decades. It was acquired by the Qing Society through special means after Nigeria's independence, and it contributes a lot of profits to the Qing Society every year.

This oil field has a net profit of at least tens or even hundreds of billions of U.S. dollars every year. In the past few decades, it has created tens of billions of dollars in cash income for the Bankruptcy Society. If it is sold, tens of billions of dollars can be cashed in at a time.

There are countless similar industrial and mining industries in the world of the Brokerage Society, but this place is indeed one of the most profitable bases of the Brokerage Society in the world, and also one of the bases with the highest market value.

At this time, on the top platform of a towering drilling tower in the oil field, two middle-aged men stood in front and behind, overlooking the entire oil field.

Standing in the front, near the fence, was the Grand Commander-in-Chief of the Right Army of the Poqing Society, Wu Shutong.

Standing behind him was Lieutenant General Andre.

Among the five military governorates of the Anti-Qing Society, the Right Military Governorate covered the most countries and the largest area. The whole of Europe except Russia and the entire African continent were under the territory of the Right Military Governorate.
