

The amazing son in law - The Amazing Son In Law

Chapter 7082

Jadiel told him, "Hurry up and notify all members of the Right Army Governor's Office to evacuate Naples immediately and activate the backup address. In any case, there can be no other losses. Do you understand?"

"Understood!" Wu Shutong said, and asked hesitantly: "Grandpa... I... I want to ask you a question in private..."

Jadiel said: "Go ahead."

Wu Shutong looked at the wound on his left wrist and asked him: "My hand... Is there any chance it will grow back?"

Jadiel was silent for a moment, then said: "I once heard the Lord Ying mention a kind of elixir called Reshaping Pill, which can restore a person's body and regenerate broken limbs, but I have only heard of it and never seen it."

When Wu Shutong heard about this elixir, he was immediately excited and said repeatedly: "Thank you, Grandpa! Thank you, Grandpa!"

He knew in his heart that it was basically impossible for him to come up with such a powerful elixir with his own strength, but since the Lord Ying mentioned this elixir, then

I think she is likely to be able to practice it.

If I perform well in the future and make great achievements, the Lord of England might reward me with a Remodeling Pill. By then, I can return to my normal appearance.

After hanging up Jadiel's phone with many thanks, Wu Shutong immediately said to Yuan Chengze: "The Lord of England has ordered that all the Cavalry Guards that can be mobilized here be transferred to Morocco. You should contact Sun Tongzhi immediately and ask him to send all the Tiger Guards to Morocco. We need to find their clues in Morocco!"

Yuan Chengze said respectfully: "Grand Commander, wait a moment, I will notify you right away!"

...

At this moment, Charlie had already met Abbas and others.

In the dark night, everyone rushed all the way to the food factory, trying to arrive before dawn.

On the way, Charlie received a call from Li Yalin. On the phone, he said to Charlie: "Mr. Wade, the vending machines we set up in Nigeria have captured a large-scale personnel movement in the Nigerian oil fields. At least hundreds of people are driving to the airport."

Charlie asked curiously: "So many people? The Cavalry Guards over there are at most a few hundred people, are they all out?"

"It should be." Li Yalin said: "The local airline temporarily added two charter flights, the route has been applied for, and it will take off in an hour and a half, and the destination is Casablanca."

Charlie smiled and said: "It seems that Sara is a little anxious this time. She sent so many Cavalry Guards in a short period of time, probably to find out our whereabouts."

"Yes." Li Yalin said: "After they arrive, they will definitely start looking for clues from Duke Mining, but the Moroccan police will definitely arrive before them and start an investigation. With the local police around, they can't be too smooth. It's estimated that it will take at least 10 days or half a month to cover the scope of the investigation to the food factory area. By that time, we will have left here long ago."

Li Yalin said, "Besides, AI has left some false clues in the monitoring system of the Casablanca Port. If those clues can mislead them, then their investigation direction will be completely different from our actual location. I'm afraid that in the end it will be a waste of time."
