

The amazing son in law - The Amazing Son In Law

Chapter 7118

Wu Shuhang hurriedly said, "I can hear you, Grandpa. What do you want me to do?"

Jadiel said, "I called to convey the Lord's order to you two."

Wu Shuhang's expression suddenly froze, and he blurted out, "Grandpa, please tell me. I'm all ears!"

Jadiel paused for a moment, then slowly said, "Shuhang, the Lord ordered the three elders to cut off your left hand to punish you for your poor performance and the loss of the Morocco garrison. The Lord thought that you had no subjective intention, so he showed you a break and did not order the three elders to execute you. Do you understand this favor?"

Wu Shuhang did not dare to hesitate, and immediately said, "Grandpa, I know the Lord's kindness very well. In the future, I will do my best to serve the Lord and be loyal to him!"

Jadiel sighed lightly and said, "Shuhang, the Lord has an order. Because your left hand was cut off by the Lord's instruction, the three elders "Now the thieves deliberately used the Remodeling Pill to regenerate your left hand and cruelly cut off your right hand. This move is intended to deliberately create internal conflicts in the Wu family and also plant hidden dangers for the stability of the Wu family. Therefore, the Lord of England specially ordered General Andre to cut off your left hand immediately. The matter of the Remodeling Pill started with you two and ended with you two. You must not leak this matter to anyone else, otherwise you will be severely punished for treason and rebellion!"

When Wu Shuhang heard this, he collapsed instantly and cried to Jadiel in the video: "Grandpa, my grandson only has this left hand left. If my left hand is cut off again, what's the point of my grandson living here?"

Andre on the side was also horrified. He never expected that Wu Shuhang had already lost his right hand, but the Lord of England wanted to cut off his left hand again. If this order could not be reversed, then he would have to have three hands chopped off. This kind of experience is probably only Wu Shuhang in the world who can experience it.

Jadiel in the video said helplessly at this time: "Shuhang, this is the order of the Lord, I have no choice."

Wu Shuhang cried and begged: "Grandpa, please say a few good words for your grandson in front of the Lord. If my grandson loses both hands and returns to the Right Army Governor's Mansion, I am afraid that people will talk about and ridicule him. At that time, I will not be able to command the Governor's Mansion, which is not good for the Right Army Governor's Mansion!"

Jadiel pursed his lips and said: “Shuhang, the Lord has other orders about the personnel arrangements of the Right Army Governor’s Mansion. After your left hand is cut off, I will report to my brother, the Right Army Governor. The Governor’s Office has issued an order that your brother Wu Shuhan will take over immediately, and the Lord will spare your life and allow you to go back and reunite with your family. At that time, your brother Wu Shuhan will be ordered to take extra care of you and your family, so that you and your family will live a life of wealth and prosperity, and have no worries about food and clothing. “

At this point, Jadiel said, “Shuhang, this is already the best outcome for you. Don’t forget your brother, whose fate is much worse than yours.”

Wu Shuhang was completely desperate at this moment.

His eyes were empty, his expression was wooden, and he was silent for at least half a minute.

Half a minute later, he lowered his head and wiped the tears from the corner of his eyes with his left hand. Then he looked at his left hand and murmured, “Although the Lord has spared my life, from now on, I will be a complete useless person. I can’t eat or dress myself, I can’t wipe my tears when I cry, and I can’t even wipe my butt when I go to the toilet... I am a man of seven feet tall, and it’s better to die than to live like this...”

Jadiel advised, “Shuhang, people say that it’s better to live than to die. This is an eternal truth, so don’t think that it’s better to die. In addition, I also want to remind you, what’s the use of dying? Even if you die, your left hand will still be lost. Its existence is the biggest hidden danger of the entire Poqing Society and the Wu family!”
