

The amazing son in law - The Amazing Son In Law

Chapter 7123

Hearing Charlie Wade's ridicule, Li Yalin couldn't help but laugh and said, "Originally, I thought you were really going to give Wu Shuhang a Remodeling Pill for free, and I felt a little bit sorry. Now it seems that this pill really gave Sara a great stimulus, and at the same time did not let Wu Shuhang get any benefits, killing two birds with one stone."

Charlie Wade nodded and said, "The pill is indeed precious, but as long as it can produce the desired effect, it is worth the money."

Li Yalin said, "This Wu Shuhang is also unlucky. He had three hands chopped off in a row."

Charlie Wade smiled and said, "The Wu family under Sara's protection either committed many evil deeds or assisted the tyrant. The fact that they can reproduce to this day is inseparable from the tens of thousands or even more dead warriors and cavalry guards enslaved by the Poqing Society. Speaking of which, everyone has original sin. I only cut off Wu Shuhang's hand, which is already a bargain for him."

After that, Charlie Wade said, "No, I gave him one hand first, and then cut off his other hand. It's even, if anyone is to blame, it can only be Sara."

Li Yalin smiled and said, "Indeed, I think he hates Sara the most now, not you."

After that, he couldn't help but ask Charlie Wade, "By the way, Mr. Wade, how did you come up with this idea? Are you so sure that Sara will cut off Wu Shuhang's left hand again? If it were me, I might not do it. The first time I cut off his left hand was a punishment for him. He had accepted and completed the punishment at that time. After that, if someone gave him a pill and made his left hand grow again, I don't think I have any reason to cut off his left hand again. If I keep his left hand and let the pill you gave me become an established fact, it will not only show my fairness and justice, but also make my enemy lose a pill in vain. But if I cut off his hand again, wouldn't I just fall into the opponent's trap?"

Charlie Wade smiled and said, "Chief Inspector Li, the reason why I said before that I wanted to put eye drops on Sara was that I wanted to use this pill to humiliate her. Although Sara is still alive today, the organizational structure and underlying logic of her ruling the Poqing Society are still based on the feudal monarchical thinking of the Ming Dynasty. The monarchs of the feudal era, whether wise or foolish, have a common characteristic, which is that they cannot tolerate humiliation. In terms of achievements, Yan Wang Zhu Di is considered a wise monarch. If Fang Xiaoru does not give him face, he can also kill his ten clans. If Wu Shuhang swaggers around with his left hand, Sara will lose face. She knows that I want to humiliate her with this pill, but she can only do it."

Speaking of this, Charlie Wade sighed: "In fact, I hope Sara doesn't cut off his left hand. In that case, the core members of the Poqing Society will know that their mysterious enemy has a pill like the Reshaping Pill, which is a heaven-defying pill. This will make them more afraid of me, and at the same time will reduce their fear of Sara's confidence."

Li Yalin pondered for a moment, nodded gently, and said: "I haven't considered this level. It seems that criminal investigation thinking is still very one-sided."

charlie Wade said: "Every profession has its own expertise, so a team needs all kinds of professional talents to complement each other. If Sara had a detective like you who is proficient in criminal investigation, I'm afraid she would know who I am now."

Li Yalin nodded and smiled: "What you said makes sense, but the underlying logic of the Poqing Society also determines that it is difficult for them to have real high-end talents. Except for the members who are controlled and enslaved, the others are basically the Wu family's own people. Those who are enslaved must always be guarded against by them, and they have hatred for them, and they will not really work for her wholeheartedly. If the Wu family can cultivate top talents themselves, it's okay. If the Wu family can't cultivate them, then it's really a grass-roots team. "

charlie Wade smiled and said, "Just look at the late Qing Dynasty. Those royal nobles and the children of the Eight Banners have lived a life of luxury for hundreds of years. How can there be a person who can support the collapsing building? If it weren't for the four heroes of the late Qing Dynasty to extend the life of the Qing court, the royal nobles of the Qing Dynasty would have fled back to their hometowns outside the Great Wall long ago. And the four heroes of the Qing Dynasty were all Han people without exception. If Sara still appoints people based on personal connections in the future, the result of the Broken Qing Society may be worse than that of the late Qing Dynasty. At least there were four heroes in the late Qing Dynasty to continue the fate, but she didn't even have one hero. "

Li Yalin asked, "Is Miss Song a hero? Didn't you say that her talent is far beyond ordinary people? "

charlie Wade said, "Song Ruyu's talent is indeed far beyond ordinary people. It is really amazing that she has such strength at a young age, but based on my current understanding of her, she is just a military general. Even if she is not caught by me, she will not be able to bring an overall improvement to the Broken Qing Society in the future. The current Broken Qing Society does not need people who can fight. What they need is a modern brain. "

Having said that, charlie Wade said again: "By the way, with Wu Shuhang's strength, his life would not be in danger even if his two hands were cut off. It seems that there is no need to go to the hospital for treatment. Moreover, he should not dare to go to the hospital so openly. Inspector Li, what do you think is the reason?"

Li Yalin thought for a while and said: "After the incident with the Reshaping Pill, Wu Shuhang has been completely exposed. It seems that it makes no difference whether he hides or not if he goes to the hospital so openly. "

Having said that, Li Yalin added, "And I guess he must be afraid that you will feed him another Reshaping Pill. Every time we encounter a homicide case, especially a homicide case with unclear motives and special means, what we worry about most is that there will be a second case before the case is solved. Because this kind of homicide is not like robbery, kidnapping or revenge killing. The targets of robbery and kidnapping are random, and the targets of revenge killing are mostly single, but the motives are unclear and the means are special, which is often the easiest to become a serial murder case. If it were Wu Shuhang, he must be most afraid that you would use the same method to deal with him again. This time, both hands will grow out at the same time. Sara might have to cut off his hands again in anger. With the experience and lessons learned from the first time, the Reshaping Pill should be something he never wants to eat again in his life. Hiding in the hospital is equivalent to making his lack of hands public. At this time, you will definitely not feed him the Reshaping Pill again. "
