

The amazing son in law - The Amazing Son In Law

Chapter 7124

charlie Wade nodded and said, "That makes sense, but this also proves that he has no value in the Po Qing Society. The Po Qing Society knows that he has been exposed, and they can't kill him, nor can they let him return to the Right Army Governor's Mansion. Letting him go to the hospital is also a temporary resettlement plan."

Li Yalin asked charlie Wade: "Mr. Wade, do you think Wu Shuhang is still of use?"

charlie Wade said: "It's hard to say. From the intelligence level, what he knows is nothing more than the information of the Right Army Governor's Mansion. Now I have mastered the new trends of the Right Army Governor's Mansion, and he himself has been excluded. In the future, he may not know more about the Po Qing Society than me. "

Speaking of this, charlie Wade said: "But emotionally, he should hate Sara to the core. If I promise him that after Sara dies, I will give him another remodeling pill to make him a normal person, then between me and Sara, he should be more inclined to me winning, rather than Sara. "

Li Yalin said, "That's what I mean. Wu Shuhang must know in his heart that if he can become a normal person again in this life, I'm afraid only you can give him this opportunity. If you give him a promise, maybe he will turn against us, but if he has no value to the Po Qing Society, he has no value to us, so there is naturally no need to invest too much in him. "

charlie Wade said, "Whether he is valuable to us depends on whether he has the opportunity to return to the Po Qing Society in the future. Does Sara want him to fend for himself in Morocco, or does she want him to stay there first and let the people of the Right Army Governor's Office take him away when the time is right. "

Li Yalin smacked his lips and said, "What if I communicate with him? Let him know that if he returns to the Right Army Governor's Office in the future and cooperates with you to provide more information, you will let him become a normal person again after Sara dies in the future. "

charlie Wade said, "Whether this person is valuable or not is still an unknown. It is better not to have any direct contact with him for the time being. "

Li Yalin said, "Oh, right, we can observe secretly and have someone arrange some vending machines in the hospital to observe the general situation of the hospital. It would be best if we could install them directly in the inpatient department."

charlie Wade said, "It is normal for hospitals to have vending machines, and it is also normal for inpatient departments to have vending machines. However, there are only one or two vending machines in the public area of the inpatient department, and it is impossible to get them in the ward area, so we can't take pictures of which ward Wu Shuhang is in, and who enters and leaves his ward."

Li Yalin nodded and said, "This is indeed a bit difficult, but we now have a lot of facial information of the members of the Poqing Society. As long as we install vending machines on the way to the

inpatient department, we will be reminded immediately once one of these people goes there. If these people visit him regularly, we can summarize the rules, but if no one goes there, he will probably be completely abandoned. “

charlie Wade asked, “What if someone comes from the

Right Army Governor’s Office?” Li Yalin said, “We have basically judged a lot of people from the Right Army Governor’s Office through the monitoring of Naples Airport last time. These people are all first-level warnings at Ai. No matter where they are captured by our vending machines, Ai will report them as soon as possible.”

Li Yalin said, “However, the faces collected that time may only be part of the Right Army Governor’s Office. I can also let Ai always compare the faces of strangers collected at the airport and the dock with the faces that appear in the hospital, so that we can identify who came to Casablanca by plane or boat from other places and then went to that hospital. “

“Generally speaking, few people go directly to the local hospital upon arriving at a place, and Wu Shuhang is in the inpatient area. Even if someone feels unwell after getting off the plane and goes to the hospital for treatment, he will not appear here directly, unless his purpose of coming to Casablanca is very pure, just to visit patients;” “

So, if Ai finds out that someone has just arrived in Casablanca and immediately goes to the hospital where Wu Shutong is, such a person will be very suspicious.”

At this point, Li Yalin remembered something and said, “Didn’t the Right Army Governor’s Office go to Spain? Then I will let Ai have another screening. If someone takes a plane or ship from Spain to Casablanca, and then immediately goes to that hospital, then this person is probably from the Right Army Governor’s Office. By then, even if Wu Shuhang is of no value to us, at least he can provide some information about other people in the Right Army Governor’s Office. If the Right Army Governor’s Office really sends someone to see him, then maybe he is still valuable, and then we can find a way to convey some information to him.”

“Okay.” charlie Wade nodded and said, “Then I’ll contact someone to quickly arrange for the vending machine to be moved to the hospital.”

charlie Wade then said, “By the way, Inspector Li, have Ai keep a close eye on Nigeria. It’s meaningless for the three elders to stay in Nigeria now. They are likely to leave, and they will definitely not take a plane nearby. They will probably change cities or even countries.”

Li Yalin said, “Don’t worry, I have already given Ai an order to monitor the airports and docks in Nigeria and surrounding countries, focusing on all adult Asian males, especially older Asian males traveling in groups of three.”

charlie Wade nodded and said, “Also have Ai pay attention to people who appear in Buenos Aires, Argentina, or other airports in Argentina in the future, and compare them with those found in Africa. If they match, mark them out. The headquarters of the Po Qing Society is likely to be on an island in the Antarctic Circle, so no matter where these three people start from, they will most likely return to Argentina in the end.”

Li Yalin agreed immediately, “Okay, Mr. Wade! “

charlie Wade said: "After having Ai, our biggest gain is that we have more and more information about the members of the Poqing Society. From now on, any movement of these people will not escape our monitoring. The map of the Poqing Society will become clearer little by little here."
