

The amazing son in law - The Amazing Son In Law

Chapter 7135

Realizing that the Plague God hidden in the sea of consciousness came from the Four-sided Treasure Tower, charlie Wade immediately stepped towards the Four-sided Treasure Tower.

When he came to the side of the Four-sided Treasure Tower, he stretched out his hand and gently touched it. Then he kept an eye on his sea of consciousness, hoping that the Plague God would leave at the right time.

charlie Wade thought that approaching the Four-sided Treasure Tower would allow the mysterious thing in the sea of consciousness to leave the sea of consciousness at the right time, but the mysterious thing had not made any movement, as if it had disappeared out of thin air. At

this moment, charlie Wade suddenly realized that the thing did not seem to want to return to the Four-sided Treasure Tower.

He couldn't help but think to himself: "Is this thing going to stay in my body?"

Thinking of this, he peered into his consciousness, disconnected all senses to the outside world, and focused all his attention on the sea of consciousness, trying to find the trace of the Plague God, but the other party really disappeared out of thin air, leaving no trace.

And the Four-sided Treasure Tower in front of charlie Wade did not react at all after being passed into the spiritual energy by himself, and there was not even any flow of spiritual energy.

charlie Wade couldn't help but feel uneasy. This thing absorbed so much of his spiritual energy, but it could still hide in his sea of consciousness like a grain of dust. It must be extraordinary.

And now charlie Wade couldn't judge whether this thing was good or bad. Apart from other things, just from the fact that it lured him into a trap, it was probably not a good thing.

Lin Wan'er (Alani) walked up to charlie Wade at this time and whispered to him: "Sir, have you found anything?"

charlie Wade nodded and said vaguely: "It should be related to it."

"Then..." Lin Wan'er (Alani) hesitated for a moment, and asked again: "Can it be solved?"

charlie Wade shook his head and said: "I won't leave."

Lin Wan'er (Alani)'s cherry mouth opened slightly, wanting to say something, but held back. Then after a pause of a few seconds, he asked again: "What are your plans now, sir?"

charlie Wade sighed and said: "Let's go home."

After that, he said to Sun Zhidong (Meir) and the military representative not far away: "I just want to confirm whether there is anything abnormal with the Four-sided Treasure Tower. There is nothing else. Sorry to bother you." The military representative

immediately said: "You are polite. If you are sure that you don't need to take a look or study it again, then we will go up first."

"Okay." Charlie Wade nodded. Before leaving, he took another look at the Four-sided Treasure Tower. Suddenly, an idea came to his mind. He thought to

himself: When I first saw the Four-sided Treasure Tower, I accidentally used my spiritual energy to scan the Four-sided Treasure Tower. Unexpectedly, the Four-sided Treasure Tower had great magical powers and actually absorbed my spiritual consciousness into it, presenting to me the grand scene of Master Xuanzang and many other great powers building the Four-sided Treasure Tower.

Since the Four-sided Treasure Tower is a magic weapon, why not pass some spiritual energy into it to see if there will be any reaction?

Maybe it can awaken the Four-sided Treasure Tower, or trigger a certain mechanism of the Four-sided Treasure Tower.

So, he said, "Wait a minute, I have something else I need to confirm again."

As he said that, he injected a wisp of spiritual energy and a wisp of spiritual consciousness into the body of the Four-sided Treasure Tower again.

What surprised Charlie Wade was that when the spiritual energy was injected into the Four-sided Treasure Tower, the Four-sided Treasure Tower did not actively guide his spiritual consciousness, or lead his spiritual consciousness to a certain illusion. On the contrary, when the spiritual consciousness entered the interior of the Treasure Tower without any interference, Charlie Wade found himself inside the Treasure Tower. Compared with his spiritual consciousness, the Treasure Tower at this time was magnified more than a hundred times in proportion, as if he was inside the real Treasure Tower back then. Looking up at the internal structure of the Treasure Tower that was tens of meters high, he was amazed.

And the more incredible thing was yet to come.

Charlie Wade's spiritual consciousness found a large number of murals in the Four-sided Treasure Tower. The murals were all portraits of the Buddha. If you look closely, every gesture of the Buddha is different, and among them are the handprints that he saw under the aurora.
