

The amazing son in law - The Amazing Son In Law

Chapter 7138

Lin Wan'er (Alani) carefully examined it and said to charlie Wade, "Look, sir, the leaves of the Mother of Pu'er Tea are just like the fake green plants sold in shopping malls. Every leaf is perfect and impeccable, without even a trace of yellowing or curling."

charlie Wade couldn't help but marvel, "It's not afraid of severe cold and snow in winter, and I think it's not afraid of scorching heat in summer. Ordinary pests probably can't affect it. We were worried that the Mother of Pu'er Tea would not grow well if it left the environment of Dianchi Lake, but now it seems that we were worrying too much."

Lin Wan'er (Alani) nodded and said to charlie Wade, "By next spring, it will be more luxuriant."

charlie Wade smiled and said, "Then you can pick some tea leaves and make tea bricks. Not only will they taste good, but they can also replenish some spiritual energy. They are definitely the best tea."

Lin Wan'er (Alani) remembered something and said to charlie Wade, "Sir, you might as well study whether the leaves of the Mother of Pu'er Tea can help with refining pills. This plant, which originally contains spiritual energy, is probably the only one of its kind. If it can improve the effect of the pill, it can be regarded as making the best use of it, which is much more suitable than simply brewing it for drinking."

charlie Wade said, "I now The recipes used are all recorded in the Nine Mysterious Heavenly Scriptures. I am not sure whether adding the tea leaves of the Mother of Pu'er Tea to the recipe will affect the original efficacy. However, I can try the Rejuvenation Pill first when I refine the pill next time. The material cost of the Rejuvenation Pill is relatively low. If it can improve the efficacy, I can try it when refining other pills in the future. "

Lin Wan'er (Alani) said: "Based on my understanding of Chinese medicine prescriptions, there are generally two types of prescriptions. One is that each medicinal material must be completely in accordance with the prescription, and the amount of each medicinal material must be appropriate to exert the efficacy of the prescription. There is also a prescription that only provides a foundation. If you add the finishing touch of medicinal materials to this basic prescription, sometimes it will have unexpected effects. The Mother of Pu'er Tea is a sacred tree that has survived the heavenly tribulation. Her leaves must also be a rare treasure of heaven and earth. "

charlie Wade nodded and said: "Miss Lin is right. Many prescriptions are not immutable, but need to be continuously upgraded. I will give it a try if I have the opportunity."

At this moment, charlie Wade's mobile phone suddenly received a call from Li Yalin.

charlie Wade pressed the answer button and asked, "Inspector Li, is there anything new?"

Li Yalin said hurriedly, “Mr. Wade, Ai found three suspected targets who are suspected to be the three elders at Porto Novo International Airport in Benin this morning. These three people took the earliest flight from Benin to South Africa.”

charlie Wade asked him, “Do you have a photo? Send it to me.”

“Yes.” Li Yalin immediately sent a high-definition photo to charlie Wade through WeChat.

In the picture, three Asian men who looked to be in their sixties and seventies appeared at the boarding gate of the airport together. Each of them had a blank expression and a cold expression, and their appearance was somewhat similar.

In addition, it can be seen that these three people did not have much carry-on luggage. Everyone was empty-handed, and the boarding gate showed that this was a flight to Cape Town, the capital of South Africa, and at this time, there were already many people queuing up at the boarding gate.

charlie Wade asked Li Yalin: “Inspector Li, what are the specific details of Ai’s determination that the three of them are suspicious?”

Li Yalin said: “The analysis results given by Ai are that Benin borders Nigeria, and the straight-line distance between Lagos in Nigeria and Porto Novo in Benin is only more than 100 kilometers. The probability that the three elders chose to leave from here is very high. In addition, these three people also meet the prerequisite of Asians. More importantly, Ai believes that the facial features of these three people are highly similar, and there is a high possibility that there is a blood relationship and genetic similarity.”

charlie Wade looked at the three people in the picture and could also feel that these three people were completely different from the other passengers around them, and there was indeed some similarity between the eyebrows of these three people.

So, charlie Wade said to Li Yalin: “I also feel that these three people are a little bit wrong. If they are really the three elders, then they will definitely transfer to South America after flying to Cape Town. Inspector Li is keeping a close eye on their movements. If their next stop is really South America, then it can be basically confirmed that they are the three elders!”

No data found.
