

## The Amazing Son in Law /

### Super Hero Charlie Wade - Charlie Wade Chapter 7366

“Will you tell them that when you were destitute, you married another woman in secret?”

“Will you tell them that despite everything Stefanie sun has sacrificed for you, you still choose to stay with your current wife?”

“If that’s your answer, how many people do you think will still respect you?”

“How many people in the world will condemn you?!”

“By then, have you considered how much pressure the Wilson family girl will face? Have you thought about how many people who admire Stefanie sun and eagerly anticipate your marriage will gossip about her?”

charlie Wade was rendered speechless by his grandfather’s words.

He knew the old man was right.

Claire wasn’t a celebrity—she had no fan base.

Stefanie sun, on the other hand, was different. She had hundreds of millions of devoted fans.

For years, she had maintained a spotless reputation in the entertainment industry, free of scandals or rumors. Everyone knew that this billionaire heiress hadn’t joined the industry for fame, money, or entertainment—she had done it to find her long-lost fiancé.

It was precisely this pure and heartfelt reason that made her fans idolize her to the extreme.

There wasn’t another female celebrity in the industry who could compare to her.

Many actresses had remained scandal-free for years, only to eventually marry into wealthy families—some even wed rich men decades older than themselves, older than their own fathers.

Their so-called purity had always been a means to an end.

How could they possibly compare to Stefanie sun?

These days, if you wanted to support a female star without fear of disappointment, you became a fan of Stefanie sun.

If my identity as the heir of the Wade family is revealed in the future, people will inevitably ask why I haven't married Stefanie sun.

And sooner or later, someone will ask Claire—why haven't you taken the initiative to step aside?

At that moment, Charlie Wade felt as if his entire world was crumbling.

Charlie Wade looked at the old man, his voice filled with emotion. "No matter what I do, it's wrong! It's wrong if I don't marry Stefanie! It's wrong if I do! It's wrong if I hide it from Claire! It's still wrong if I tell her! I can justify concealing my identity by saying I haven't yet avenged the Qing Society, but once that's done, if I continue to hide it, it's still wrong! What am I supposed to do? How can any of this possibly have a perfect ending?"

Lord Wade had never seen Charlie Wade this distraught.

Even when he knelt at Lingshan to pay respects to his parents, he had not looked so helpless.

Back then, though he was in pain and filled with resentment, he had a clear purpose. His unwavering determination had driven him forward.

But now, in Lord Wade's eyes, he looked like a lost child.

Feeling a pang of sympathy, he gently patted Charlie Wade's shoulder and consoled him. "Charlie, if people could let go of impossibly high moral standards, many problems in life would be easier to resolve."

"The girl from the Wilson family has been good to you, and you have treated her well in return. You've even repaid kindness to her parents despite past grievances. If she truly loves you, wants to bear your children, and spend her life with you, I have nothing to say—but you must admit, your feelings are not entirely pure."

"You also said that once she learns your true identity, she will be disappointed. But remember, you carry the names of your parents—two people whose unjust deaths left the world mourning. Once you have avenged them, you cannot simply live in seclusion. You cannot hide away and let the world believe that Bruce Wade and Lydia (Ava) (Charlie's mom)'s son perished long ago. You cannot allow their names to fade into obscurity."

"On the contrary, you must declare to the world that Bruce Wade and Lydia (Ava) (Charlie's mom)'s bloodline lives on! You must use your strength and achievements to

restore the world's reverence for your parents and ensure their legacy endures! That is your duty and responsibility as their son."

"If you agree with what I'm saying, then tell me—aren't you and the Wilson family girl destined to go your separate ways sooner or later?"
