

The Amazing son in law Chapter 7531

hunter Hamid did not realize at this time that the other party was targeting him.

He felt that the real target of this group of people was the Wanlong Palace, or perhaps another mercenary organization that was in competition with the Wanlong Palace.

So he began to think about his situation. Since the other party wanted to create a big incident and throw dirty water on Wanlong Palace, they would definitely kill people here tonight.

Then, what should I and my two ladies do?

This time I came here, I used a false identity. In order not to expose my target, I did not bring any followers or guards. Now it can be said that I am at a point where no one can help me.

Just when he was filled with despair, he suddenly saw Jacob and Elaine squatting in the crowd with their heads in their hands.

At this moment, he suddenly breathed a sigh of relief: "These two people are Brother wade's father-in-law and mother-in-law, so... Brother wade will definitely not stand idly by, right? As long as we hold on until Brother wade shows up, will we be saved?"

"Brother wade attacked my base alone without anyone noticing, and no one could match him. I think it should be no problem for him to deal with these people."

Thinking of this, he turned his head and looked towards the entrance. Looking at the men in black armed with guns and bullets guarding the door, he couldn't help but sigh in his heart: "My dear Brother wade, why don't you come to the party? If you were here, wouldn't you have subdued these idiots in the blink of an eye? What if you don't know the situation here? It doesn't matter if you can't save me, but if you can't save your father-in-law and mother-in-law, how are you going to explain to your wife..."

At this time, the leader of the men in black looked at hunter Hamid from the corner of his eye. Seeing that hunter Hamid was always secretly looking at the door, he was still wondering in his heart: "Is this guy dreaming that someone can come to save him? I know his whereabouts very well. He didn't bring any entourage with him this time. How could anyone save him?"

Thinking of this, the man in black has already made plans for his next move.

As long as the communication is restored, he will let these tourists and celebrities start the live broadcast and start a killing spree during the live broadcast. While killing hunter

Hamid, he will also throw all the dirty water on Wanlong Palace, and then quickly evacuate before the Maldivian government forces arrive. Everything will be perfect.

At this moment, charlie Wade had quietly approached the bar.

When he saw several men in black coming out of the bar with the island's manager, he knew that they must want to repair the network. The spiritual energy covered the entire bar, and he noticed that the situation was relatively stable. He guessed their intentions and thought that they would not kill people in the bar before the network was repaired.

So, charlie Wade immediately turned around and followed the others and the manager. When they left the sight of the guards outside the bar and walked onto a winding and dense jungle path on Baima Island, he suddenly said from behind: "All of you, stand there!"

Several men in black were startled and immediately turned around with their guns pointed at charlie Wade. At the same time, several people looked at him nervously, and one of them blurted out, "Who are you?! Are you looking for death?"

charlie Wade strode towards the men and said calmly, "That's right, you are looking for death. If you have the ability, shoot quickly."

The manager recognized charlie Wade as a guest on the island and said quickly: "Mr. Wade, please don't be impulsive. They... they really know how to kill people. There are many corpses outside the restaurant, and blood is all over the ground!"

charlie Wade smiled and said, "Don't worry, they can kill others but not me."

The man in black in the middle heard that charlie Wade should be a guest on the island, and immediately cursed: "Damn idiot, do you think we are filming a movie here? Go to hell!"

Having said that, he pulled the trigger without hesitation.

However, the next second, he suddenly discovered that the trigger, which he could usually pull easily, now seemed to be completely welded to the gun body, and he couldn't pull it no matter how hard he tried!

Veins popped out on his entire arm from exerting so much force, and the fingers on the trigger were about to break from the enormous force. Severe pain shot through his joints, making his head and face covered in sweat, but even so, the trigger remained motionless.

He was horrified and said to others, "There's something wrong with this guy! Quick! Shoot him to death!"

After receiving the order, several people wanted to pull the trigger immediately. However, their situation was the same as that of the man in the middle, and they couldn't pull the trigger at all!

Several people shouted in fear: "Captain, there is something wrong with my gun, I can't pull the trigger!"

"Me... Me too..."

The captain immediately wanted to press the call button on the communicator to ask for help from his teammates, but then he realized that his hands were inexplicably unable to move.

He instantly broke out in a cold sweat, looked at Charlie Wade nervously and asked: "Who are you? Did you do this?"

Charlie Wade sneered and said disdainfully: "This is not your grandfather's doing, this is your grandfather's magic!"

The Amazing son in law Chapter 7532

After that, he frowned slightly, his face full of murderous intent, and shouted sternly: "Tell me, who are you? What exactly do you want to do here? If you speak well, I will give you a quick death. If you speak badly, I will make you suffer more than death."

The man immediately shouted angrily: "I don't care who you are, you can't get a single word out of me! If you don't believe me, just come over here and try!"

Charlie Wade said disdainfully: "I'll try your mother! You are a piece of trash, and you deserve my trouble?"

After saying that, Charlie Wade took out a room card from his pocket, flicked his wrist lightly, and the spiritual energy wrapped around the room card and flew out at high speed!

The room card wrapped in spiritual energy is so sharp that it can cut iron like mud, and the surrounding spiritual energy is like a barrier, protecting the room card from any harm.

The room card flew through the air with a sound of breaking through the air, and then with a swish, it circled around the man and cut off both of his arms from the shoulders!

Scars as big as bowls suddenly appeared on both sides of the man's shoulders, and blood gushed out like two exploding fire sprinklers, splattering the surrounding people's bodies and faces with hot, sticky, sweet and fishy blood!

What's even more magical is that the room card was not stained with any blood. It drew a white shadow in the air and returned to Charlie Wade's hand.

At this time, Charlie Wade's cultivation had made great progress after being destroyed by Lin Wan'er's ring and the four-sided treasure tower.

Although the Soul Piercer is gone, he can use anything to replace it. Even a small room card can be used by him to kill thousands of troops!

These people had never seen such an incredible scene before, and they were all scared out of their wits. The man whose arms were cut off was in so much pain that he almost fainted. He wanted to shout to relieve the pain, but his throat seemed to be stuck by an invisible hand. Even if he tried his best, he could only make a few inaudible whimpers like a dying old dog.

When the manager saw this scene, his whole body convulsed violently, then he rolled his eyes and fell to the ground unconscious.

Charlie Wade ignored the manager and the man whose arms were cut off. Instead, he looked at the other guys with blood on their faces and said coldly, "I'll give you a chance now. Do you want to answer the questions honestly?"

One of them blurted out: "Big brother, spare me! I'll tell you! I'll tell you everything!"

Several others also echoed: "I am willing to say it, I am willing to say it too!"

Charlie Wade looked at the others and said calmly, "It's too late. I just want one survivor."

After saying that, he threw the room card out again, and in the blink of an eye, he cut the throats of these people, and they fell to the ground and died instantly!

The only survivor was so frightened that he wet his pants the instant he did so. Although he killed many people in his daily life, he had never seen such a horrific scene.

In his eyes, Charlie Wade's killing method is comparable to that of the Asura from Hell, and this style of killing without blinking an eye, without any nonsense or procrastination, is more terrifying than the god of death!

He was so terrified that he could only pee uncontrollably while trembling as he said, "I... We are mercenaries hired by the American Blackwater Company... We came here to help the Syrian opposition assassinate hunter Hamid, and by the way, to carry out a terrorist attack and then throw dirty water on the Wanlong Palace..."

Charlie Wade thought that these people were here to assassinate Tawana, and also thought that these people were here to assassinate Bernard Elno, but he didn't expect that these people were here to assassinate hunter Hamid.

Moreover, he was actually hired by the opposition.

What he could not have imagined was that not only did they want to kill hunter Hamid, but they also wanted to put the blame of the terrorist attack on the Wanlong Palace.

He frowned and asked, “Do they just want to kill hunter Hamid? If they kill hunter Hamid, can they take down hunter Hamid’s generals, soldiers and garrisons?”

The other party quickly explained: “This time the opposition is secretly cooperating with a senior official under hunter Hamid. As long as hunter Hamid is killed, he can launch a rebellion in hunter Hamid’s army and lead some soldiers to join the opposition. At that time, the entire hunter Hamid base can be taken down with the help of the inside and the outside.”

charlie Wade nodded, trying to understand the cruelty and viciousness of this move.

If their plan succeeds this time, not only will they be able to obtain hunter Hamid’s base and incorporate hunter Hamid’s army, but they will also be able to force the Wanlong Palace to become a terrorist organization in the eyes of the world. At that time, they will even be able to join forces with Blackwater to attack the Wanlong Palace. If they can drive the Wanlong Palace out, they will simply kill two birds with one stone!

Moreover, since Blackwater is involved in this matter, it must have a deep bond with the opposition. It is very likely that after driving the Ten Thousand Dragons Palace away, they will plan to take over the opposition’s position.

hunter Hamid said just yesterday that the opposition acknowledged the previous agreement between Wanlongdian and the government. I didn’t expect that these people were actually planning to rob their fellow thieves!

charlie Wade felt a little disgusted. He hated people who broke their promises, betrayed others, and stabbed people in the back the most.

If the opposition is not taught a lesson by doing this, the huge amount of infrastructure invested by Wanlong Palace there may end up being a waste of money for others!

Thinking of this, he suddenly came up with an idea. Since you want to kill two birds with one stone, I will let you shoot yourself in the foot!

Blackwater Company has fallen into the hands of your Grandpa wade today. You can only blame yourself for being blind!

The Amazing son in law Chapter 7533

Inside the bar, the leader of the men in black was unwilling to just sit there and wait for the signal to be restored.

He looked at Tawanna several times. The tall and well-proportioned Tawanna immediately made him have evil thoughts.

Today was supposed to be a terrorist incident that would shock the world, so he knew that he didn't need to restrain his animal nature at all.

So he came to Tawanna and said with a smile: "Ms. Sweet, I didn't expect to see you here again. You are my idol and goddess. I have liked you for a long time."

Tawanna said nervously, "Then...then can you let me go? I just came here for vacation and don't want to die here..."

The leader of the men in black glanced at Tawanna frivolously and said with a smile, "Ms. Sweet, to be honest, what we are doing today is a terrorist attack. For me, the bigger the better. It just so happens that you, a big star, are here too. How can I miss such a good opportunity?"

When Tawanna heard this, she trembled nervously and choked up, "If you want money, I can give you all my money. I beg you not to hurt me..."

The leader of the men in black laughed lewdly and said, "Ms. Sweet, I've heard that you are very open about relationships. I wonder if you would be willing to join me in broadcasting a full-scale adult show to netizens around the world when the network is restored later?"

Tawanna was so scared that she shook her head frantically, tears streaming down her face. She cried, "I beg you, don't do that to me! I don't want the person I love to see me in that disgusting state for the last time..."

At this moment, Tawanna already knew that neither she nor the people around her would survive the night.

These people are not bandits or pirates, they are terrorists! If we fall into the hands of such people, there is no way we can survive.

What she feared now was not death, but she was afraid that the devil in front of her would really defile her in front of netizens all over the world. If Charlie Wade saw her in that state, she would not be able to rest in peace even if she died!

When the leader of the men in black heard her mention the person she loved, he snorted and said sarcastically, "You don't want others to see it, but I want everyone in the world to see it. I want everyone in the world to see you conquer."

At this point, his expression gradually became ferocious, and he said with a cruel smile: “Not only that, I will also let the people of the whole world see with their own eyes how I kill you. I want them to watch with their own eyes their idols and goddesses being destroyed and withered little by little at my hands until they die!”

Tawana stared into the man’s eyes and shouted at the top of her lungs: “You are a devil! Damn devil!”

The leader of the men in black laughed and said, “You are right, I am the devil! If you fall into my hands, I will make sure you wish you were dead!”

After that, he suddenly raised his eyebrows and smiled, saying, “Miss Sweet, I have a lot of energy in that aspect. It seems that there is no need for us to wait for the network to be restored before going to Wushan together. Why don’t we get to know each other here in front of everyone and try it out first, so that I can perform more perfectly in my official debut next time!”

Tawana was so frightened that she wanted to commit suicide right there and then. Her parents were almost on the verge of collapse. They rushed over frantically to protect Tawana, but were forced back by several men in black with guns.

The leader of the men in black said sternly, “From now on, if anyone makes any unnecessary moves, I will just shoot him in the head!”

Tawana’s parents didn’t dare to do anything for a moment and could only squat there, hugging each other and crying.

Tawana was completely desperate at this time. She had realized that she and her parents had no chance of leaving here alive today. Last time in Tokyo, Charlie Wade rescued them, but this time in the Maldives, such a miracle would definitely not happen again.

At this point, the man in black was losing some patience. He grabbed Tawana by the collar and said coldly, “Come on, let me first experience what it’s like to be an international superstar!”

The Amazing son in law Chapter 7534

After saying that, he was about to tear off Tawana’s shirt.

At this moment, there were suddenly several electric sounds and noises coming from the communicator in his ear, as if someone pressed the call button but did not speak, and quickly released the button.

He frowned, thinking that a team member was calling him, but the signal was interfered.

Teams one, two and three were all on guard at the periphery, and the only person who might have gone far away was the person sent out to repair the signal, so he immediately took out his cell phone and took a look.

He kept waiting for the signal strength icon to appear in the signal bar in the upper right corner, but after waiting for a long time there was still no change.

He pressed the communication button in annoyance and said in a cold voice: “Old Xu, why hasn’t the signal been restored yet?! I still want to broadcast a good show live to netizens all over the world!”

There was silence on the communicator.

His brows furrowed instantly, and he felt a little uneasy.

The Old Xu he was looking for was the captain whose arms were cut off and whose throat was slit by Charlie Wade.

He has worked with this Lao Xu for many years. This man has always been steady and reliable and has never lost contact while on a mission.

There has never been a situation where I was even a little slow in reacting.

Whenever I called him on the communicator, he would reply “received” immediately.

The fact that he didn’t receive an immediate reply from Lao Xu on the intercom made him alert.

So he immediately stood up and walked out while pressing the intercom: “Team One, go find Lao Xu and see what’s going on with them and why they haven’t responded!”

He thought that there would be a reply from the team on the communicator, but unexpectedly, there was still deathly silence on the other end of the communicator.

He suddenly became nervous and stopped walking out.

Then, he suppressed his fear and pressed the call button again: “Team Two, Team Three, please answer!”

Teams two and three were also the teams he arranged to be on guard outside.

Including the team, there are thirty people in total.

However, he never expected that none of the thirty people responded!

At this time, there were only six people from the last four teams left by his side.

Captain Lao Xu and the three soldiers who had just gone out together also completely lost contact.

He felt a little scared and whispered to a man in black beside him: “Go out and see what’s going on outside.”

The man in black who was named was a little nervous, but he didn’t dare to disobey. He could only muster up his courage and walk out of the bar.

Just as he reached the door, he suddenly stopped at the door and stood there motionless.

When the leader of the men in black saw him stop at the door, he shouted at his back, “What are you doing? Go check what’s going on!”

Just as he finished speaking, the man’s head suddenly fell off his shoulders and rolled to the feet of the leader!

The Amazing son in law Chapter 7535

In the bar, the tourists who were controlled were also scared out of their wits.

A healthy and alive person just walked to the door and his head rolled to the ground. It was simply unbelievable!

The leader was so frightened that his face turned pale. He stepped back subconsciously and shouted, “Quick! There are enemies!”

The few remaining militants immediately became extremely nervous. They raised their guns and stared at the gate vigilantly, fearing that a huge army would rush in from outside.

The leader was completely panicked. He had left three teams outside and sent a few people from the fourth team to deal with the situation. If they all met with an accident, he would surely die today...

Thinking of this, he immediately pointed the gun at Tawana and shouted, “Who the hell is that? Get out here right now! Or I’ll shoot her to death!”

After that, he said to several of his men, “Don’t point your guns at the door, point them at the hostages around you! Listen to my orders later. When I say shoot, kill everyone!”

When the hostages around heard this, they screamed in fear.

The leader of the men in black was about to shout at him when he suddenly discovered that the hostages around him seemed to have collectively lost consciousness in an instant and fainted on the spot one by one.

He and his men fell into a trance and confusion for a while. He originally thought that these people must have discussed it and wanted to play dead, but then he changed his mind and thought, these people have been under his noses the whole time, how could they have the chance to collude?

Could it be that when they heard that the guns were going to be pointed at them, they all fainted in fear?

But isn't this pace and movement too uniform? !

The leader of the men in black looked confused, but found that not all the hostages were unconscious. There were three people who were still awake at the scene. One was Tawana, one was hunter Hamid, and the other was the wealthy man Bernard Elno.

The leader of the men in black was puzzled. He looked at the three people and asked, "Why didn't you three faint?!"

Tawanna didn't understand why her parents seemed to lose consciousness in an instant like everyone else. She could only honestly say, "I... I don't know..."

The leader of the men in black looked at hunter Hamid and gritted his teeth and said, "hunter Hamid, you didn't faint either. Tell me honestly, does this have anything to do with you?!"

hunter Hamid was also very confused, but he was calm at this time. He pretended to be surprised and asked: "Who are you? How do you know my real name?"

The man in black said angrily, "I won't hide anything from you now. Our goal this time is to kill you! You gave up your position as a local emperor in the Middle East and came here for vacation. Now you have put us in a mess. I really want to shoot you to death!"

One of his men immediately said, "Boss, why are we still hesitating? Just kill that bastard hunter Hamid. If we kill him, our mission will be halfway accomplished!"

The man in black said coldly: "I don't need you to teach me how to do things! There are mysterious enemies outside that we can't figure out. We must keep these people as hostages to have a chance of survival!"

For the leader of the men in black, today's mission was to make money, not to sacrifice.

Although the entire Blackwater company is extremely large and has countless mercenaries under its command, there is no such thing as so-called loyalty among them.

Everyone put their head on the belt and joined Blackwater in order to make money, not to become a “martyr” of Blackwater.

So, at this point, he no longer cares whether he can complete the mission or not, he only cares whether he can leave here alive.

If he killed hunter Hamid, he would lose a very valuable bargaining chip, so he would not do such a stupid thing.

Then, he pointed the gun at Bernard Elnó and asked sternly: “What about you? What’s wrong with you? Why aren’t you unconscious?!”

The Amazing son in law Chapter 7536

Bernard Elnó looked around evasively, hesitating: “I... I don’t know what’s going on...”

The leader of the men in black pointed his gun at the woman who had collapsed on the ground beside Bernard Elnó. That woman was Bernard Elnó’s wife. Then, he said angrily, “You don’t know, right? Fine! I’ll shoot your wife to death and see if he’s pretending!”

After saying that, he pulled the trigger without any hesitation.

At this moment, a cold voice suddenly came from outside the gate: “Always pointing the gun at these old, weak, women and children, what kind of ability is that?”

The leader of the men in black subconsciously turned his head and saw a young man slowly walking in from outside the door. The man was wearing short-sleeved shirt and shorts with a coconut tree pattern, a pair of flip-flops on his feet, and an undisguised smile of disdain on his face.

When Tawana saw this figure, she felt as if a god had descended from heaven. She choked with disbelief and said, “Mr. Wade... is it really you, Mr. Wade...”

As she spoke, tears instantly filled her eyes, so much so that she could not see charlie’s appearance at all.

hunter Hamid was so excited that he almost jumped up and said excitedly: “Brother wade, you are finally here, Brother wade! These bastards are here to assassinate me, and they just claimed to be from the Ten Thousand Dragons Hall. I suspect that they are not only targeting me, but also the Ten Thousand Dragons Hall!”

Bernard Elnó also recognized charlie at this time.

He didn’t know charlie’s true identity, but he had a deep memory of charlie’s face, and even hated him to the core.

Because it was he who brought that fake painting seller Zhang Ermao (Cade) and forced himself to buy hundreds of millions of US dollars worth of garbage as matching goods for the Rejuvenation Pill auction!

But he never dreamed that he would meet this young man on his own island!

And, it seems, Tawanna also knows this young man!

Thinking of the sudden change that had just happened and the terrorists' instant panic, he realized that charlie might be the key to changing the situation, so he quickly said, "Mr. Wade...Mr. Wade, long time no see, Mr. Wade!"

charlie smiled slightly and said, "Mr. Eln, long time no see. I wonder if those luxury stores under your name are still doing distribution sales recently?"

Bernard Eln avoided charlie's gaze awkwardly.

It is absolutely necessary to match goods. My luxury brand makes money by matching goods. Although I suffered a great loss when I bought the rejuvenation pill last time because of matching goods, in comparison, my matching goods are universal matching for global consumers, so the income I get from matching goods must be more.

So how could I cut off my own source of income just because I suffered a loss once? On the contrary, I now require them to intensify their policy on distribution of goods and make back the money I spent on buying the rejuvenation pills as soon as possible.

So, he said to charlie awkwardly: "I am not sure whether the goods will be matched or not, but Mr. Wade, don't worry, no matter which brand of goods under our group you like, you can enjoy the free bill policy!"

charlie sneered, "You are such a stingy old man. If I go to your store and take something without paying, you will probably not be able to sleep for three days and three nights, right?"

Bernard Eln was too embarrassed to answer. The leader of the men in black didn't expect charlie to chat with the hostages. He immediately pointed his gun at him and asked, "Who are you? What did you do to my men outside?!"

charlie smiled and said, "I killed all your men, and now their bodies are piled up on the ground outside."

The leader of the men in black widened his eyes and shouted in disbelief: "How is this possible! They are all well-trained mercenaries. How can you kill them all quietly by yourself?!"

The Amazing son in law Chapter 7537

Although the leader of the men in black was unwilling to believe charlie's words, he knew very well in his heart that all his men had lost contact, and the subordinate who had just been beheaded at the door had proved that what charlie said was true.

However, he didn't believe that all his men died at the hands of charlie alone. He speculated that charlie must have accomplices outside.

At this moment, he did not shoot at charlie immediately, but pondered for a moment in his heart, and said to charlie: "Brother, we are all here to make a living, there is no need to be too serious. You killed so many of my brothers, I admit it, and I will not make any excessive demands. As long as you can let us go, I can hand over these hostages to you intact!"

charlie said calmly: "You are not qualified to negotiate terms with me."

The leader of the men in black said with a gloomy expression: "Brother, this is a bit inhumane, isn't it? If you really want to fight to the death, even if I can't survive, I will drag these people down with me! Our guns don't have eyes. I see that you know these people. Do you want to collect their bodies?"

charlie sneered and said, "You are the one who collects the bodies for your men!"

After saying that, he suddenly waved his hand and shouted loudly: "Thunder is coming!"

The next second, the entire bar was suddenly filled with dark clouds. Layers of black clouds instantly covered the entire ceiling, with lightning and thunder. It was as shocking as if one had suddenly arrived at a height of thousands of meters and was watching a thunderstorm up close!

At this moment, charlie no longer intended to pretend in front of these people.

Whether it was these mercenaries pretending to be members of the Ten Thousand Dragons Palace, or hunter Hamid, Tawana, and Bernard Elna, he no longer wanted to deliberately hide his true strength.

He must make these people completely controllable and submissive to him. This will not only perfectly resolve today's issues, but also keep these three people completely under his control in the future.

He had just killed so many people. Without the cooperation of these three people, this matter would never have been concealed. White Horse Island would never have been able to properly dispose of dozens of bodies. Moreover, if these people suddenly disappeared, Blackwater would definitely try every means to investigate the reason.

What's more, these people, including his father-in-law and mother-in-law, all have memories of the terrorist attack. Although it is not difficult to erase them one by one, if this matter cannot be concealed, there is no point in erasing their memories. On the contrary, Blackwater will find clues when it secretly investigates.

Therefore, he did not intend to hide this matter. He wanted these people to cooperate with him. Not only would he solve the follow-up of this matter perfectly, but he would also put the entire blame on Blackwater.

Blackwater is now colluding with the opposition. This time, we must bring Blackwater to ruin worldwide. At the same time, we must also send a strong warning to the opposition so that they will not dare to have any bad thoughts towards hunter Hamid and the Ten Thousand Dragons Palace from now on.

So, when the dark clouds filled up the ceiling of the bar and the lightning flashed and rolled between the ceilings, charlie looked at the leader of the men in black and said coldly: "Watch out, I will only give you one chance!"

The man in black was trembling with fear. He had no idea how charlie had done all this, let alone what he was going to do.

At this moment, charlie raised his hand and pointed to his feet. Then, the lightning and thunder in the ceiling suddenly gathered into a powerful lightning. With a bang, it struck the wooden floor at his feet, directly piercing a hole as big as a washbasin in the floor. The air was also filled with the smell of burning wood.

The leader of the men in black felt that all the hairs on his body stood up because of the lightning!

The Amazing son in law Chapter 7538

The others also looked at charlie in amazement. They never expected that there was someone in this world who could control thunder and lightning!

Tawana and hunter Hamid knew that charlie was very powerful, but they never dreamed that he could be so powerful to such a magical level.

At this moment, the leader of the men in black finally realized that the young man in front of him was not at the same level as himself, or even in the same world. In the face of such a powerful force, he had no chance of winning.

So, he decisively threw away the pistol, knelt on the ground with a plop, and said devoutly: "Mr. Wade, I was blind and offended you, so I deserve to die. However, considering that I haven't made a big mistake, I hope you can give me a chance to atone for my sins."

After that, he quickly turned around and said to the few remaining men: “You bastards! Put down your guns! Kneel down and beg for forgiveness like Mr. Wade!”

The men finally came to their senses, dropped their guns, and knelt down.

charlie nodded and said calmly: “I like to communicate with people who know the current situation.”

After that, he asked the leader, “Tell me everything you know in detail.”

The leader of the men in black said respectfully, “Mr. Wade, my real name is Ma Kui. I am Australian, of mixed Chinese and Japanese descent. I joined Blackwater ten years ago and am a level seven mercenary under Blackwater, mainly responsible for the affairs of the Southern Hemisphere.”

charlie asked: “What does a level seven mercenary mean?”

Ma Kui explained: “Mr. Wade, Blackwater has a very strict promotion system for the convenience of internal management. Combat positions are divided into ten levels from 1 to 10, and level 10 mercenaries are the strongest. The same is true for management positions, but management positions are not called mercenaries of different levels. They start with M, from M1 to M10.”

charlie frowned and said, “Why does this system sound very similar to those of Internet companies?”

“That’s right!” Ma Kui said, “Blackwater has been making management reforms over the years, and now it basically has the structure of a large multinational company.”

charlie asked again: “As an Australian, you are also responsible for the southern hemisphere business. Why were you assigned here? Maldives should generally be a northern hemisphere country, right?”

Ma Kui said quickly: “Mr. Wade, you don’t know that most of Blackwater’s mercenaries are of European and American and African descent, and there are relatively few Asians. This time, Blackwater has specially mobilized a group of Asians from all over the world, so I was temporarily sent here.”

charlie nodded and continued to ask: “Blackwater sent you here to assassinate Commander hunter Hamidha, right?”

“That’s right!” Ma Kui nodded heavily and said, “Because the opposition has always been secretly supported by the US government, the top executives of Blackwater have long cooperated with the Syrian opposition. At that time, Wanlong Hall cooperated with the government forces, so they were considered enemies of the United States and the opposition. In fact, the two sides had already secretly colluded.”

Magui explained, “The opposition has two goals. One is to kill hunter Hamid and seize hunter Hamid’s territory, and the other is to drive Wanlong Hall out of Syria. Blackwater also wants to further strengthen its influence in the Middle East, so after learning that hunter Hamid came to the Maldives for vacation, they decided to let us pretend to be Wanlong Hall’s mercenaries and create a terrorist attack. Then they can kill hunter Hamid without anyone noticing, use the terrorist attack to package hunter Hamid’s death, and then splash the black water of the terrorist attack on Wanlong Hall.”

“By then, the US government will push for the United Nations to define the Wanlong Temple as an international terrorist organization. After driving the Wanlong Temple out of Syria, the base of the Wanlong Temple in Syria will be handed over to Blackwater to inherit...”

The Amazing son in law Chapter 7539

Ma Kui’s words made charlie realize that the situation in Syria might be much more complicated than he had imagined.

If it were just a bunch of opposition members who came from wild backgrounds, they would definitely not have such a good brain to design such a vicious plan that would kill two birds with one stone.

Once an internationally renowned troublemaker like Blackwater got involved, the technological content immediately increased.

Fortunately, by chance, I chose the same island as hunter Hamid, otherwise, if we missed it, hunter Hamid would have died today, and Wanlong Palace would have been framed. As a shareholder and investor of hunter Hamid and the actual owner of Wanlong Palace, I would have suffered the most losses.

Therefore, Blackwater is simply eyeing both their house and car at the same time. If we don’t teach them a lesson, they will not learn their lesson.

So charlie said to Ma Kui: “I will give you a chance to live now. If you cooperate well, I will ensure that you survive safely. But if you don’t cooperate, I will not only kill you, but also find out all your family members based on your identity and make them suffer together!”

Ma Kui said in panic: “Mr. Wade, everyone has their own responsibility. You...you can’t hurt my family!”

charlie sneered and said, “Fuck you, everyone is responsible for their own actions. You want to kill hunter Hamid and put the blame on Wanlong Palace, and you are willing to kill hundreds of tourists here. Compared with you, what does it matter if I kill all your clans?”

After that, he looked at hunter Hamid and said sternly: “Commander Ha, these people are coming for you. Maybe they don’t intend to let your two pregnant wives go. If you leave here alive, how do you plan to take revenge?”

hunter Hamid immediately gnashed his teeth and cursed: “These bastards are insidious and vicious. I will kill all their immediate family members, regardless of gender, age or status. Even the fetus in the belly will not be able to survive!”

charlie looked at Ma Kui and said calmly: “You heard it all. This is the bitter fruit you sowed yourself. You can’t blame anyone else.”

Ma Kui was so scared that his soul flew out of his body. He was not afraid of death, but he was terrified when his family was really in danger. He kowtowed to charlie and said, “Mr. Wade, don’t worry. My life will belong to you from now on. I will do whatever you ask me to do. I only ask you and Commander Ha not to hurt my family...”

charlie said calmly: “Then listen carefully, the first task I give you is to hold your assault rifle and shoot all the bodies of your men outside a few more times.”

“Ah?!” Ma Kui asked in horror, “Mr. Wade, why do you have to give them more bullets?”

charlie smiled calmly and said, “Because I want the whole world to know that it was you who killed your men.”

“Me?” Ma Kui was even more terrified, blurting out: “Mr. Wade, you are going to kill me. Blackwater will not let me go! They will definitely seek revenge on me and my family!”

charlie asked back: “Blackwater? Think about it, after the truth comes out, when people know that Blackwater is willing to secretly carry out terrorist attacks for its own interests, how can they have the courage to retaliate against your family?”

Ma Kui’s eyes widened: “You mean to make me a tainted witness?”

“That’s about right.” charlie said, “After everything is ready, I will ask Mr. Bernard Elno to seek help from the Maldivian authorities. At that time, he will tell the Maldivian authorities and the whole world that it was you who brought people to the island to carry out a terrorist attack tonight, and he promised you a large amount of money in exchange for your temporary defection in the critical moment. After you defected, he and several of your confidants killed your other men.”

Ma Kui cried and said, “Mr. Wade... If this happens, won’t I have to bear the anger of the whole world? Blackwater will not let me go, the Maldives government will not let me go, and even the world will spurn me...”

charlie asked back: “So what? At least you can still live, and your family can live too. Otherwise, you will die, and your family will die too. Moreover, you will be disgraced after death, because everyone will know that you are the culprit of this terrorist attack! If you cooperate with me, you can gain a little reputation for stopping at the brink of disaster!”

Bernard Elno raised his hand at this time and said hesitantly: “Mr. Wade, I... I don’t want to be an enemy of Blackwater...”

“Then go to hell!” charlie stared at Bernard Elno and shouted mercilessly: “Don’t forget, I saved your life today! What qualifications do you have to negotiate with me?!”

Bernard Elno was frightened by charlie’s fierce expression and didn’t know how to respond for a moment.

charlie continued in a cold voice: “I tell you, I took action today to save my father-in-law and mother-in-law, and secondly to save hunter Hamid and Tawana. You and I have no relatives or friends, and I saved your life because you are useful to me. If you refuse to be used by me, then you can die.”

After that, charlie looked at Ma Kui and asked him, “You know what to do, right?”

Ma Kui only wanted himself and his family to survive, so he was naturally very attentive at this time and immediately said, “Don’t worry, Mr. Wade, as long as you say the word, I will immediately shoot this old Deng to death!”

Bernard Erno was so scared that he trembled all over. He waved his hands and said, “Mr. Wade, please don’t misunderstand me. That’s not what I meant... I wanted to say that no matter what you ask me to do, I will do my best to cooperate!”

charlie looked at him and said in a cold tone: “Elno, I know that people like you only care about money, but I might as well tell you frankly today that the rejuvenation pill you once dreamed of was made by me, and I am also the boss behind the auction of the rejuvenation pill. Last time I asked you to match some goods, it was just a little punishment for you, but if you make me unhappy, you will not even have the opportunity to match goods in the future.”

From the moment charlie summoned the heavenly thunder, Bernard Elno guessed that charlie must be the refiner of the rejuvenation pill. That kind of magical medicine must require someone with great supernatural powers to refine it.

And when charlie said that he would not even have the opportunity to distribute the goods in the future, he suddenly became extremely panicked.

So he quickly bowed to charlie and said, “Mr. Wade, I was confused just now. You saved my life. You are my second parent. For you, let alone offending Blackwater, I would not mind offending the entire United States.”

charlie said calmly: “It’s useless to talk nicely, I’m waiting to see your actual performance!”

Bernard Elno said quickly: “Please give me a chance to perform well, Mr. Wade! Just give me your instructions for today’s matter!”

Seeing that he was getting the point, charlie said, “Go find your employees on duty in the office area and ask them to restore the network service immediately. Then you can call the Maldivian authorities to explain the situation.”

After that, he looked at Tawanna and said, “Ms. Sweet, you have the greatest influence on the Internet, and I hope you can do me a favor.”

Tawana stared at charlie infatuatedly, and said impatiently: “Mr. Wade, just say it, I can agree to anything! I am not afraid of offending Blackwater!”
