

The Amazing son in law Chapter 7560

When Jacob heard that charlie and Claire could still get compensation even though they were not at the scene last night, he suddenly felt a little sour in his heart.

He felt that he had earned the hundred thousand U.S. dollars at the risk of his life, but charlie and his daughter could get the same amount of money without going, which made it seem like the point of risking his life was zero.

After all, he was a top university graduate, and an equation immediately emerged in his mind: Assuming the number of people on the island is X , and the risk they bear is Y , then originally $X+Y$, which means the number of people on the island and the risk they bear, equals 100,000. But now, X also equals 100,000. Substituting the two conditions, the value of Y is zero.

Elaine was also subconsciously dissatisfied at this time, and muttered to Hani: “Hey, Hani, you have to talk to your boss. We almost lost our lives in the bar yesterday. My daughter and son-in-law didn’t go to the bar yesterday. If they can get 100,000 US dollars, then shouldn’t we at least get 200,000? You can’t let us take the risk in vain, right?”

Hani said apologetically: “I’m sorry, Ms. Elaine, this matter was decided by the president of our group. I am just a low-level housekeeper. I don’t even have the opportunity to talk to the president. How can I be qualified to give him suggestions...”

Elaine was indignant: “Then it’s okay to give us 150,000, right? At least you have to give us a little more to make sense!”

Hani was embarrassed and said quickly: “Ms. Elaine, I will report your opinion to my supervisor, but I can’t guarantee that it will be recognized.”

After that, he quickly made an excuse and said, “I’m sorry, Ms. Elaine, I have other guests to notify. If there’s nothing else, I won’t bother you!”

Before Viola Ma could speak, Hani quickly turned around and left.

Elaine said angrily: “Their boss is too ignorant. How can they treat people who are on the scene and those who are not on the scene equally?”

Claire said helplessly: “Mom, it’s great that they can take the initiative to compensate you. Don’t be picky. I don’t want my part of the compensation. I’ll give it to you.”

Elaine’s face instantly blossomed with joy, but she said, “Oh Claire, I don’t want your money. I just think they are inhumane. I want to gain more benefits! I remember that the compensation standards in the United States are very high. If you fall while eating in a

restaurant, the restaurant can pay you 1.8 million or 800,000 US dollars. Your father and I were almost killed yesterday. Two hundred thousand dollars each is not too much.”

Claire said: “You also said that the compensation standards of the United States are high, but we are in the Maldives after all, and the per capita GDP here is so low. One hundred thousand dollars is already a lot, so don’t dwell on it anymore.”

Elaine nodded and smiled quickly, “You’re right, Mom won’t worry about it anymore. By the way, Claire, your 100,000 yuan will be divided equally between your dad and me, but you can just ask them to deposit it directly into Mom’s account, so it will be convenient for them.”

Jacob was stunned and wanted to say something but held back.

When it comes to money, he doesn’t dare compete with Elaine. After all, for Elaine, money is harder to get than a bone in a dog’s mouth, and he doesn’t dare to offend her.

Seeing Jacob’s unhappy expression, charlie took the initiative to say, “Dad, I’ll give you my share. You and Mom are going to Dubai this time, so have fun and don’t be like last time.”

Jacob was pleasantly surprised: “Oh my good son-in-law, you...you are not kidding me, are you?”

charlie smiled and said, “How can you joke about such a thing? I will tell them later that Claire and I will pay the compensation to you and mom respectively.”

Jacob was so happy that he couldn’t help but hug charlie and sighed: “People say that a son-in-law is half a son, the ancients were right!”
