

The Amazing son in law Chapter 7561-7570

Chapter 7561

At this time, the doorbell rang again.

Jacob quickly turned back to open the door, muttering, "I wonder who's here again."

As he opened the door, he saw that the person standing at the door was charlie's wealthy client from the Middle East.

Hamid looked at Jacob and asked politely, "Mr. willson, is Brother wade here? I went to his villa just now and rang the doorbell but no one was there. I saw your housekeeper and he said he was here with you."

Jacob nodded: "Here I am, my dear son-in-law, your client is here!"

After that, he politely said to Hamid: "Please come in first!"

Hamid waved his hand: "No, no, I won't go in. If it's convenient for Brother wade, I want to talk to him alone."

charlie had already walked over and said with a smile: "Brother, what do you want to talk to me about?"

Hamid said quickly, "Oh, it's about Feng Shui. I still have some questions that I want to ask you, brother. Do you think we should go out for a walk and talk while we walk?"

"Okay." charlie nodded readily and agreed. He said hello to his family and walked to the beach with Hamid.

Seeing that there was no one around, Hamid said anxiously, "Brother, do you think I will be in danger if I go back now? The opposition and traitors must be watching me..."

charlie said: "The traitor is easy to deal with. He must not have taken control of the situation yet, so he has to wait for you to die before joining forces with the opposition. The opposition must still want to kill you. I will let Ma Kui wait for you at the Syrian

border. Let him and his men cover you back. In addition, I will notify Wan Pojun and ask him to send someone over to protect you.”

Hamid breathed a sigh of relief and said, “Thank you very much, brother! When I return, I will find a way to find the traitor and kill him! Completely eliminate the internal risks!”

charlie nodded and said, “Try not to leave your base during this period. I will have Wanlong Palace arrange some experts to protect you. Also, remember what I told you before, find a way to make trouble from within the opposition, win over some of the weaker groups in the opposition, and divide them from within first.”

Hamid nodded heavily: “Okay, thank you brother! Thank you!”

charlie asked him: “When do you plan to go back?”

Hamid said: “As soon as possible, I want to take a flight to Beirut tonight and then cross the border back.”

charlie nodded: “Then I won’t see you off, brother. I wish you a safe journey.”

As the two were talking, a golf cart drove towards them from a distance.

The driver was Bernard Arnault’s assistant, and Bernard Arnault was sitting in the passenger seat.

He waved to charlie from a distance with a very attentive look on his face, and shouted repeatedly: “Mr. Wade, Mr. Wade, are you free? I want to talk to you!”

charlie nodded: “Come here.”

Bernard Elno quickly had the electric bike parked on the side of the road. He refused his assistant’s offer of help and limped towards charlie and Hamid using a crutch.

The Amazing son in law Chapter 7562

Seeing that he was grinning with every step he took, charlie stretched out his hand from a distance and made a gesture of raising his hand in the air. Bernard Elno didn’t understand what he meant at first, but the next moment, he found that his crippled leg was suddenly supported by an invisible force, and his body felt much more relaxed, and the pain disappeared instantly.

He was suddenly surprised, and when he thought of charlie’s gesture just now, he guessed that this must be related to charlie, and he was even more shocked.

charlie is indeed a man with great supernatural powers. He was able to summon thunder in the bar last night. That scene left a deep impression on him. He felt that even if he suffered from Alzheimer's in the future, he would never forget that earth-shaking scene.

As light as a swallow, he came to charlie and immediately said respectfully: "Thank you, Mr. Wade!"

charlie nodded and asked him: "Mr. Elno, what do you want to talk to me about?"

Bernard Elno said quickly: "I mainly want to thank you for everything you did last night. You saved everyone, but in the end all the credit was attributed to me. I really don't deserve it."

charlie smiled and said, "Be honest, Erno. I can see that you can't hide your happiness on your face. You don't look ashamed at all."

Bernard Elno smiled awkwardly and said, "To be honest, Mr. Wade, from last night till now, this may be the peak of my personal reputation in my life. I dare not lie to you. I am really very happy in my heart. Everything depends on you to take care of it!"

charlie said casually: "It's not like I'm taking care of you. After all, you've spent money. It's considered normal cooperation between us."

Bernard Elno said quickly: "No, no, no, everything still depends on Mr. Wade's care, otherwise I might have died long ago."

After that, he paused for a moment and continued, "By the way, Mr. Wade, the President of France wants to summon me as soon as possible and commend me. I will spend New Year's Eve with you, your family, and other Chinese guests on the island tonight, and will leave for France early tomorrow morning. But don't worry about the two islands. I will solve them within a week. If you have anything else you need me to do about these two islands, you can tell me and I will handle it all at once!"

charlie said: "How about this, if you have something to do, go back and do your own thing. When this group of guests leave the island one after another, you can announce to the public that Baima Island is closed for rectification. I plan to use this place as a sea base for Wanlong Temple. It is relatively convenient because it is close to Colombo, Sri Lanka. When the time comes, you can come forward to say hello to the Maldives senior management and tell them that Baima Island will be rebuilt. At that time, I will let Wanlong Temple bring construction workers to carry out the renovation."

Most cargo ships going to Europe via the Suez Canal have to go through the Strait of Malacca from Singapore, pass through Sri Lanka, and then enter the Red Sea and cross the Suez Canal.

Colombo, Sri Lanka is an important hub on this route. Even if the ship does not stop in Colombo, it will pass through the south of Sri Lanka. Although it is still a few hundred kilometers away from the Maldives's White Horse Island, it is relatively convenient. charlie plans to transform White Horse Island and station a group of Wanlong Palace soldiers, equipped with high-powered speedboats similar to those taken by Ma Kui and others, as well as medium-sized seaplanes. If there are any problems on the route, they can provide rapid support. In addition, the Maldives has weak military strength and is unable to cover this area of waters.

Bernard Elno said without hesitation: "Don't worry, Mr. Wade, I will come forward to solve everything so that Wanlong Hall can rest assured to carry out construction here!"

The Amazing son in law Chapter 7563

Seeing Bernard Elno being so sensible, charlie said to him with satisfaction: "Blackwater still needs you to continue to give them some eye drops. Since your French president wants to summon you, it must be a big news in Europe. Remember to mention Blackwater more during the summons. It would be best if your French president could come forward and protest to the American government, asking them to thoroughly investigate Blackwater."

Bernard Elno immediately said firmly: "Don't worry, Mr. Wade. I will do everything I can to keep the White Horse Island incident hot during this period. I also plan to go to the United States in a while to put some pressure on Blackwater."

charlie asked him: "How do you plan to put pressure on them when you go to the United States?"

Bernard Elno smiled attentively and said, "Mr. Wade, what I want to do is go to the United Nations headquarters in the United States and donate 10 to 20 million US dollars to the United Nations Office of Counter-Terrorism, so that they can use this money to promote and enhance the publicity and implementation of anti-terrorism, if for no other reason, just to slap Blackwater in the face."

charlie nodded and said appreciatively: "This is a good idea. Going to Blackwater's lair and slapping them in the face, I like this style of behavior."

Seeing that charlie liked his plan, Bernard Elno immediately smiled and said, “I am very honored to be recognized by Mr. Wade!”

charlie changed the subject and said, “But since you are going to the United Nations, don’t just donate 10 or 20 million US dollars. It’s not enough. Donating more can also attract more attention.”

Bernard Elno felt a little pain in his heart, but he still gritted his teeth and said, “Okay! Since Mr. Wade said so, I will donate 100 million!”

charlie smiled and nodded: “Yes, I may not be as good as you in business, but I think that as a person, it is not necessarily a bad thing to expand your vision and open up your fingers. Don’t always care about the gains and losses of the immediate interests.”

Bernard Erno said against his will: “Mr. Wade is right!”

charlie smiled and said, “Don’t worry, I won’t let you suffer any loss. Do you still remember how much you spent on the last bid for the rejuvenation pill?”

Bernard Elno didn’t know why charlie asked this, so he said: “Probably more than 100 billion US dollars. Didn’t you ask me to match a lot of goods at that time...”

charlie nodded and said, “I will never let my friends suffer. You are my friend now, so I can make you a promise. When you spend 50 billion US dollars with me, you don’t have to participate in any auctions. I will give you a rejuvenation pill directly.”

“Fifty billion dollars for a rejuvenation pill?!”

Bernard Arnault’s eyes almost popped out of their sockets when he heard this.

Fifty billion U.S. dollars may seem like an astronomical figure, but compared to the increase in lifespan that a rejuvenation pill can bring, it is a perfect bargain for Bernard Elno.

Because his group, even in the context of an economic recession, still made a net profit of 20 billion euros last year.

Twenty billion euros is about twenty-three billion dollars.

Although Bernard Arnault is not the only boss and shareholder of the group, at least more than half of it will go into his personal pocket. After various ways of tax avoidance, the actual profit he can get is at least more than 10 billion US dollars a year.

A rejuvenation pill would not only allow Bernard Arnault to live twenty years longer, but would also allow him to earn more than \$200 billion.

In comparison, what is fifty billion dollars?

So, in ecstasy, he held charlie's hand, and asked with red eyes: "Mr. Wade, are you kidding me?"

The Amazing son in law Chapter 7564

charlie said calmly: "Of course not. We Chinese have an old saying that a gentleman's words are as good as gold."

"Great, great!" Bernard Elno was so excited that he kept turning around in circles. He subconsciously said to charlie, "Mr. Wade, is there anything else you need me to spend money on? If not, I will try to get you 50 billion US dollars! It will be all together in a week at most!"

charlie waved his hand: "If you buy it directly, the price won't be this high. If you buy it directly, it will cost at least 100 billion US dollars."

Bernard Elno was confused: "So...what do you mean by 50 billion?"

charlie smiled and said, "I may need your help in many things in the future. You can calculate how much money you spent each time you helped me, and we will use this amount as the standard. Remember, it must be my request and you must fulfill it to count. The money you spend on your own initiative without my permission cannot be counted."

He paused for a moment, looked at Bernard Elno's impatient expression, and continued, "Don't you luxury goods people like to use points and membership levels? Different membership levels enjoy different service levels, different discounts, and different products. In addition, some can also redeem gifts with points. Just think of it as every dollar you spend with me, you can accumulate one point. When you accumulate 50 billion points, you can come to me to exchange for a rejuvenation pill."

Bernard Elno was very excited: "This... this idea is really great! Mr. Wade, when will we officially start implementing it?"

charlie smiled and said, "Look, let's start the calculation from this moment. If you donate 100 million US dollars to the United Nations Counter-Terrorism Office, then the 100 million will be included. When it accumulates to 50 billion, then we will cash it out."

Bernard Elno immediately blurted out: "Then I will donate 50 billion to them directly! Please give me some time, I will go to raise funds, and when I have raised enough, I will go to America and give 50 billion US dollars directly to the United Nations!"

charlie asked with a dark face: “Do you look like an enemy, or do I look like an enemy? Even if I want to slap Blackwater in the face, I can’t use 50 billion to do it, right? Are they worth the price?”

Bernard Elno said awkwardly: “Mr. Wade... I... I mainly want to meet your consumption requirements as soon as possible...”

charlie waved his hand: “You have to remember, only the consumption I asked you to spend counts, and the consumption you made on your own initiative does not count. If I don’t ask, even if you give 50 billion US dollars to my mother-in-law, I won’t give you a single point.”

charlie was afraid that Bernard Elno would randomly exploit bugs to gain experience. If he chose Elaine to gain experience, wouldn’t that be the same as using money to kill Elaine?

This might be the way Elaine most hopes to die, and I can’t let her get her wish.

Bernard Elno understood what charlie meant and quickly asked him: “Mr. Wade, please tell me how much I can spend at the United Nations this time?”

charlie held up two fingers: “At most 200 million US dollars.”

Bernard Elno nodded immediately: “Okay! Then I will donate 200 million US dollars to them!”

At this point, he said to charlie in a somewhat decadent tone: “Mr. Wade, you have to give me more opportunities to spend money. If it’s only one or two hundred million each time, I don’t know when I can accumulate enough points for 50 billion...”

Bernard Arnault suddenly felt that he had become the protagonist of “Brewster’s Millions”.

The Amazing son in law Chapter 7565

In the movie, Brewster has to spend \$30 million within the specified time, otherwise he will have to take out his \$300 million inheritance.

The remake of this movie, “The Richest Man in Xihong City”, has the same setting.

Bernard Arnault is not afraid of spending a lot of money now, but only of spending less and spending slower.

It would be best if charlie could spend 50 billion US dollars overnight. If he couldn’t spend it or spent it too slowly, it would make him anxious.

Seeing his anxious face, charlie said, “Don’t worry. This time when you go to the United States, I can give you another chance to double your points. If you seize it, you can spend these 200 million US dollars and get 400 million points.”

Bernard Elno said quickly: “Mr. Wade, please speak!”

charlie said: “When you go to the United Nations to donate 200 million US dollars to the counter-terrorism office, you must tell them that this money can only be used for counter-terrorism work outside the United States and outside the areas firmly controlled by the United States. For example, this money cannot be used for counter-terrorism in the United States, and it cannot be used for counter-terrorism in the Middle East where the United States actually controls.”

Bernard Elno said in surprise: “Mr. Wade, you...you want me to slap the American government in the face?”

“That’s right.” charlie nodded. He wanted to slap them in the face. Otherwise, they would keep trying to cover up Blackwater and rack their brains to exonerate Blackwater, or to make a big deal out of a small matter. “

Bernard Elno pointed to his forehead and said awkwardly: “Mr. Wade, their current commander-in-chief is a little different from normal people. If I say this, I’m afraid they will find a reason to sanction me...”

charlie asked him: “How much is your group’s net profit in America in a year?”

Bernard Arnault said: “North America accounts for about 25% of all net profits, which is about 5 billion euros. Excluding the Canadian market, which accounts for about 20%, the US market is about 4 billion.”

charlie nodded, waved his hand and said generously: “Don’t be afraid, this time we will confront them directly and do everything we can to make them sanction you. If they make you lose 4 billion US dollars a year in the American market, although I can’t compensate you for the 4 billion, it will be counted as the amount you spent on me, and I will also give you 4 billion points!”

The last second, Bernard Elno was still afraid of being sanctioned by the United States, but at this second, he suddenly felt invincible.

He felt like he had obtained a god-level equipment in the game. Other people’s equipment was to resist attacks as much as possible, or to counterattack the attacks, but his equipment could convert the opponent’s attacks into his own health bar.

In other words, the harder others hit you, the more health you will have!

He suddenly had an intense urge to burst his chest. He wanted to rush to America and try every possible means to commit suicide and make America impose crazy sanctions on him!

And we must not let them go soft!

It would be best to just shut down all your business in America!

The Amazing son in law Chapter 7566

At this moment, Bernard Arno was extremely excited.

For the first time in his seventy-plus years of life, he felt an extremely strong aversion to money.

How to quickly spend 50 billion on charlie has become his most anticipated thing now.

How do you say this hot topic?

Stop the f*cking bullshit and take my money!

He felt that charlie was quite mean. He could spend \$50 billion whenever he wanted, but he still had to listen to his orders and wait for his instructions. This really made him a little impatient.

However, when charlie thought of the losses caused by the tough confrontation with the United States, he would count them as points for himself. In just a few seconds, he thought of various ideas for gaining experience during this trip to the United States.

Didn't charlie say that as long as the money lost due to the sanctions imposed by the United States is counted as experience.

This is so easy to do. It's hard to make money while kneeling these days, and it's even harder to make money while standing. But if you want to lose money while standing, even a dog will do that if you give it a bowl of dog food!

So, he patted his chest and said to charlie: "Mr. Wade, just wait and see the news in a few days. I will definitely go to the United States to make a big fuss about this matter!"

charlie nodded and snorted, "I'm optimistic about you, keep working hard!"

hunter Hamid, who was watching from the side, was secretly shocked. His Brother wade was so amazing that he could control Bernard Elno completely with just one pill. If he had twice as much ability as him, he might even be able to become the commander-in-chief in Syria.

The more he felt that charlie was capable, the more he felt that he was so lucky. He kidnapped a few stupid American top students, and ended up attracting charlie, a true god. Not only did he cure his lame leg, but he also helped him resist the attacks of the government forces and the Ten Thousand Dragons Palace, and he continued to consolidate his strength in the war. This time, he stumbled, and it was charlie who turned the tide. He really has been saved too many times in his life.

It's a pity that I am a man with a big beard. If I were a sexy beauty, I would give birth to eight children for charlie first and then talk about other things.

Bernard Elno was in a good mood, so he said to charlie: "Mr. Wade, can you and your family come to the New Year's Eve dinner this afternoon?"

charlie knew that he had organized a New Year's Eve dinner for the Chinese guests, and they could also watch the Spring Festival Gala, so he was happy to join in the fun. But when he thought about the fact that what happened last night had caused a sensation around the world, and countless people were paying attention to this small White Horse Island, and the number of online viewers for tourists on the island would be over 100,000 if they did a live broadcast of the New Year's Eve dinner tonight, wouldn't he be exposed worldwide?

So he told Bernard Arno: "So, you can have someone issue a notice later, saying that for safety reasons, from now on, until every guest leaves White Horse Island, no one is allowed to use mobile phones in public places and areas. If they can comply until the moment they leave the island, each person will receive the \$100,000 compensation. Otherwise, White Horse Island has the right to take back the compensation. In addition, no one is allowed to bring mobile phones to the New Year's Eve dinner tonight."

Bernard Elno knew that charlie was low-key, so he immediately nodded and said, "Okay, Mr. Wade, don't worry, leave it to me!"

After the three of them finished chatting and said goodbye to each other, Bernard Elno returned to the villa where he was staying. The first thing he did was to immediately call the person in charge in the United States.

The Amazing son in law Chapter 7567

He made a series of preparations in advance, and then asked his assistant to contact the United Nations Counter-Terrorism Office to inform the other party of his decision to donate.

The name United Nations sounds cool, but it actually has no presence.

Its positioning is somewhat similar to the royal family of a constitutional monarchy. In name, it is quite powerful, the supreme ruler, but the real power of the country lies in the hands of parliament.

When something goes wrong, those in power will ask it to take charge of the situation, but it's just a show. In reality, members like the United States don't give it any face at all.

However, it looks down on many of the members who give it face, because they are all a bunch of poor relatives. They seem to come to visit you with a bag of local specialties, but in fact their house is running down and they want you to pay for them to build two villas and marry two wives.

When they suddenly heard that the former richest man in the world was coming to donate money, the relevant United Nations staff were very excited and immediately prepared to welcome Bernard Arnault.

Therefore, Bernard Arno decided to return to France to meet the President tomorrow, accept some media interviews in France the day after tomorrow, firmly express his attitude, and then immediately take his private plane to America to gain experience.

...

In the afternoon, Bernard Arno fulfilled his promise.

All guests who landed on the island, whether adults or children, received compensation of US\$100,000 per person.

charlie and Claire gave this right to Jacob and Elaine, so the couple each received US\$200,000.

Today is New Year's Eve, which is the biggest festival in China. The old couple had received a windfall, so they were extremely happy. So they went to a restaurant to celebrate the New Year at around 4 o'clock.

The family left the guest room and came to the commercial area of Baima Island, where they found lights and decorations everywhere. The area was full of decorations related to the Chinese New Year and looked very festive.

What charlie and his family didn't expect was that outside the restaurant where the hotel provided New Year's Eve dinner for Chinese tourists, there was actually a professional lion dance team performing hard.

charlie couldn't help but be curious. In a place like Baima Island, all foreign materials have to be purchased from outside the island. Where did they get so many Chinese New Year-related materials?

Just as I was wondering, I saw an old man in a red Tang suit standing at the door of the restaurant. He was constantly greeting every guest who came in, and even took out red envelopes with "Happy New Year" written on them from his pocket and handed them to each guest with both hands.

charlie looked carefully and found that it was Bernard Elna. He didn't expect that this old guy would dress himself in a bright red Tang suit, which matched his silver hair and made him look like a mascot.

Viola Ma recognized him at a glance, and hurriedly said: "The boss of that luxury goods group is actually giving out red envelopes! Go and see how much money this old man can give!"

As she spoke, she took the lead and walked ahead.

Bernard Elna also saw charlie at this moment. In order to prevent charlie's family from being suspicious, he just smiled and signaled to charlie with his eyes, and then handed a red envelope to Elaine who had come to him: "Ms. Elaine, Happy Chinese New Year! Congratulations on your prosperity!"

As he spoke, he handed a red envelope to Elaine.

The Amazing son in law Chapter 7568

Elaine felt the thickness of the red envelope and felt a little disappointed. She couldn't help but secretly complain in her heart: "It feels like there are only two bills in this red envelope at most. Even if they are all one hundred dollars, it's only two hundred dollars. This old man is still not big enough. He should at least give a thousand dollars, right?"

Because the red envelope was not thick enough, she lost the urge to check it out immediately. She stuffed the red envelope into her pocket and said with a smile, "Hey, congratulations on your prosperity, Boss Erno! I hope your business will be prosperous and you will be healthy in the new year!"

Bernard Erno was also very happy and said with a smile: "Thank you for your blessing, Ms. Elaine. I will borrow your good wishes!"

Elaine whispered: "In our China, if someone gives you more blessings, you have to give more red envelopes in return. This is called reciprocity. Do you understand?"

Bernard Elno was a little confused at first, but his brain was quick after all, and he soon understood what Elaine meant. He laughed and said, “Thank you Ms. Elaine for reminding me. I have learned another knowledge point about Chinese customs!”

As he said that, he quickly took out another red envelope and handed it to Elaine, smiling and saying, “Ms. Elaine, I also wish you good health and all the best in the new year!”

Elaine took the red envelope with a smile, and then quickly made up for herself: “Mr. Elno, you are the big boss, I won’t give you a red envelope.”

Bernard Arnault thought to himself, “How can the idiom ‘banmennongfu’ be used in this way? It’s really an eye-opener.”

At this time, charlie, Claire and Jacob also came over.

Bernard Arno quickly took out three more red envelopes and said Happy New Year to everyone.

Jacob took the red envelope and thanked him cheerfully. However, Claire did not take the red envelope. He just said politely, “Thank you for Mr. Elno’s blessing. I also wish you a happy new year. But you don’t have to spend money on the red envelope.”

Elaine said quickly: “Hey Claire, the red envelope is just for good luck. It’s not a big deal for Mr. Elno. If you are embarrassed, Mom will keep it for you first.”

As he spoke, Elaine’s hand had already reached out and took the red envelope in his hand.

Claire said with some dissatisfaction: “Oh, Mom, can you stop being so obsessed with money...”

Bernard Elno hurried to smooth things over: “Mrs. Wade, don’t take it so seriously. There’s not much money in the red envelope. It’s just one thousand euros. It’s mainly for good luck.”

Elaine’s eyes lit up, and she thought to herself, “Wow, such a thin red envelope actually contains one thousand euros. The euro is more valuable than the US dollar. This old man is really willing to spend it!”

Bernard Elno then looked at charlie again, handed him a red envelope, and said with a smile: “Mr. Wade, I wish you a happy new year!”

charlie smiled and nodded, took the red envelope, handed it to Viola Ma, and said, “Mom, keep it as a souvenir.”

Elaine squinted her eyes, smiled with wrinkles on her face, and said happily: “Since the good son-in-law said so, then mom will keep it for you.”

charlie asked Bernard Elno with interest: “Mr. Elno, where did you get these Lunar New Year materials and this lion dance team?”

Bernard Elno smiled and said, “The resources in the Maldives are really scarce, and there are not many Chinese living here, so I specially asked people to purchase them from Dubai. They were urgently airlifted here early this morning. The lion dance team was also invited from Dubai. I hope to give the Chinese guests on the island a sense of home.”

Then, Bernard Elno said, “By the way, Mr. Wade, I have specially invited some professional Chinese chefs from Dubai. They will be in charge of tonight’s New Year’s Eve dinner. I hope you... and your family will enjoy it.”

charlie nodded and said with a smile: “Mr. Elno is thoughtful.”

Bernard Elno was praised, and his face was wrinkled with smiles. Then he whispered to charlie: “Mr. Wade, in order to make you and your family happy, I specially arranged a lottery. The first prize is 100 million US dollars. You can let your family win it through a secret operation. What do you think?”

charlie was extremely angry, and lowered his voice and said angrily: “If you keep thinking of such a bad idea, I will increase the experience points for exchanging for the Rejuvenation Pill to 500 billion!”

The Amazing son in law Chapter 7569

There are about forty Chinese tourists on Baima Island. If they were to be arranged according to the normal Chinese banquet rules, I’m afraid several families would have to sit together.

However, the restaurant did not follow the traditional Chinese banquet style of eight or ten people per table. Instead, the chef designed a set of dishes and wrote the details of the menu on paper in the style of Japanese kaiseki cuisine, with each person having a set, and all meals were served separately.

This menu has a total of sixteen dishes, including four cold dishes, four stir-fried dishes, four stews, two soups and two meals in accordance with Chinese cuisine habits.

In addition, a variety of Chinese liquor is available for guests to choose from.

The benefits of this are obvious. When each person is served, they only have a small portion of food. There is no need to share tableware with others, and there will be no extra waste. Most importantly, several people can have a table.

Under normal circumstances, couples who go out to play cannot finish three or four dishes. It is too wasteful to order sixteen dishes, and sharing a table will affect the experience. This way of sharing meals is very friendly to small families of two, three, or four people.

During the meal, Bernard Arno specifically asked the waiter to bring white wine and toast to the guests at each table. At this moment, except for his European white face and skin, he looked exactly like a Chinese.

At 5 pm local time in the Maldives, the live broadcast of the Spring Festival Gala began on time.

The status of the Spring Festival Gala in China is like that of the Super Bowl in the United States, and its significance is even more important than that of the Super Bowl. So even though it is not that good to watch, most Chinese people are still willing to sit in front of the TV and take a quick look at it.

For several consecutive years, the largest title sponsors of the Spring Festival Gala were Internet companies, especially Taobao, which appeared the most frequently.

But this year, the largest title sponsor of the Spring Festival Gala has finally been replaced by a physical enterprise, Bruce Automobile.

Although Bruce Automobile has not yet produced any actual cars and has not released any models, the various preheating in the past period of time and the in-depth cooperation with Tawana have made this brand gain enough attention.

Now, it has become the largest sponsor of the Spring Festival Gala, and its popularity will inevitably increase significantly.

After thanking Bruce Automobile for its sponsorship and title, the host announced to all the audience that Bruce Automobile's first model will be officially released on July 1, the first year of the second half of the year.

This news shocked the audience in front of the TV and people in the automotive industry.

I knew that Bruce Automobile was very fast, but I didn't expect it to be so fast. They would release their first car on the first day of the second half of the year. This speed is much faster than Remi.

But what they don't know is that Bruce Automobile's cash reserves are more than that of the entire Remy Group, not to mention Remy Automobile.

In today's society, money always makes things easier. With sufficient funds, the speed of all links will increase exponentially.

According to hank's plan, the design of bruce Automobile's first mass-produced car will be completed in the first half of this year, and after its official release in the third quarter of the second half of the year, delivery will officially begin in the fourth quarter.

The Amazing son in law Chapter 7570

Although bruce Automobile's first car is still under intensive design, its basic positioning has been very clear, which is a new energy medium and large SUV with a price range of 250,000 to 350,000 yuan.

In the Chinese market, SUVs have always received a lot of attention. Many car reviewers who worship foreign things like to play tricks on Chinese people's preferences, saying that Chinese people don't understand cars and don't consider anything else when buying a car but only look at its size. Unlike foreigners who are well versed in car culture and prefer small cars with a strong sense of control.

In fact, in charlie's opinion, such remarks are pure nonsense.

Why do Chinese people like bigger cars?

That's because most Chinese families who own a car only have one car.

A middle-aged man saved money to buy a car. Not only does he have to take care of his and his wife's commuting to get off work and picking up the children from school, he also wants to take in the occasional self-driving tour for three generations. So the car must not only be able to carry people, but also have enough space to carry luggage.

Those car reviewers who make money from Chinese people, lick the boots of foreign countries and play tricks on China, don't they ever use their brains to think that a family in Europe and the United States has at least two cars, and some even have three cars. They can naturally match the car models according to their own needs and preferences. Moreover, these rubbish people clearly know that one of the best-selling models in the US market is the huge and extremely cargo-capable pickup truck. Why have you never heard these people complain that Americans don't understand cars?

Under the current national conditions, if a family can only afford 50,000 yuan to buy a car, they will naturally buy a compact and cheap small car. If they can afford more than 200,000 to 300,000 yuan, a practical SUV must be the first choice. Remy's SUVs sell

200,000 to 300,000 units a day, which is enough to show the important position of SUVs in China's mid-to-high-end automobile market.

In order to make Bruce Automobile go global as quickly as possible, Charlie has even made plans. After Bruce Automobile has gained a foothold in the domestic market, he will use the Rejuvenation Pill to pave the way, let the Rothschild family help him obtain production and sales qualifications in the United States, acquire an American car company with sufficient productivity, such as GM or Ford, and then let Bernard Arno take charge of brands like French Peugeot, and then integrate them into Bruce Automobile's overseas production base.

Although Charlie didn't know how to build or sell cars, he knew that this brand was named after his father, and he had to do his best to make it the best car brand in the world.

In this year's Spring Festival Gala, the elements of Bruce Automobile were not ubiquitous like those of previous sponsors.

Sometimes they do product placement, sometimes they let the host do oral broadcasts whenever possible, and sometimes they create a red envelope rain to increase their presence.

Although Bruce Automobile also spent the same amount of money, it only made two advertisements. One was to have the host announce the release time of Bruce Automobile's new car. Other than that, there was only a Hongying wordless logo appearing at the end of the program list.

Low-key and restrained are the keynotes of Bruce Automobile's sponsorship this time.

The programs come one after another, steadily and precisely like an assembly line.

Although the comedy programs of the Spring Festival Gala have been declining year by year, everyone feels a strong sense of freshness because they have never tried to celebrate New Year's Eve with dozens of compatriots in a restaurant.

Moreover, sometimes, people's sense of humor decreases as the number of people increases.

This is also why a person watching a talk show video on a mobile phone may think it is just so-so, but the audience at the scene are laughing so hard that they are bent over, and the atmosphere at the scene is still better after all.

What Charlie didn't expect was that the Spring Festival Gala actually had a mysterious program whose name had not been announced in advance.

When the host appeared on the screen, he smiled and said, “In the past, we would announce the program list before the Spring Festival Gala every year. But this time, our program team did not announce the full program list because we have been actively working for this program two days before the live broadcast. Now I can tell you that this program can finally meet you on the Spring Festival Gala stage!”
