

The Amazing son in law Chapter 7755

After Lin Wan'er (Alani) returned to Aurous Hill and Zijin Villa, she has never left the house.

The school curriculum is very full, but Lin Wan'er (Alani) is already tired of school.

The reason why she went to Aurous Hill University to study was mainly to find and get close to charlie Wade. Later, when charlie Wade found her, she shared all her secrets with him, and the school became unnecessary.

After returning from Japan, she fell into depression and felt that she was no longer able to maintain her identity as a college student. She asked Qiu Yingshan(Curtis) to help her put in a formality and applied for leave of absence from Aurous Hill University on the grounds that she was sick and needed recuperation.

With Qiu Yingshan(Curtis)'s relationship, the school leaders naturally approved her application immediately, so Lin Wan'er (Alani) stayed in Zijin Villa without leaving.

In the blink of an eye, several days have passed.

These days, charlie Wade and Lin Wan'er (Alani) were almost the same. He stayed in the villa halfway up the mountain in Champs Elysees Hot Springs and never went out.

During this period, he has been trying to go into seclusion, but because his mind is too heavy, the effect of the seclusion is not very good.

He hoped that Li Yalin and Lin Wan'er (Alani) could bring him good news, but the progress reported by Li Yalin was not optimistic, and there was no news from Lin Wan'er (Alani).

During the days when charlie Wade was in seclusion, Li Yalin had already flown from Australia to China.

He was in Australia and failed to track down Stephen Thompson. Although he knew that as long as he dug hard, he would definitely find clues, it was like looking for a needle in a haystack.

Looking for a needle in a haystack. The needle is right there in the haystack. It's not that you can't find it, but the cost is too high, or even beyond human power.

In order not to waste time, he decided to give up Australia and use China as the entry point.

Solving a case is actually a process of screening, and the difficulty depends on the base of screening.

Every crime is committed by humans. It is unreasonable to say that if we check all eight billion people on the earth, we will definitely find the person we want to check.

But the problem is that no one has the ability to do this screening.

Not to mention 8 billion people, even for 800,000, it would be difficult to achieve a thorough screening. All we can do is to do a rough screening several times and then a detailed screening. If nothing is missed in the rough screening, it's fine. Once something is missed in the rough screening, all the subsequent work will be almost in vain.

Li Yalin has been a police officer for many years, but he cannot solve every case. Some cases cannot be solved no matter how hard he investigates.

When he spent several days without finding any clues related to Stephen Thompson, he realized that Stephen Thompson's level of defense and the professionalism of the team behind him were very high. If he continued to investigate, there might not be any progress in a year or two.

So he returned to China and met Xion.

With the help of Xion, he took the Elms family and the Ito family's ninjas to investigate clues about the departure of Claire's family of three.

If searching for Stephen Thompson in Australia is like searching for a small boat in the vast ocean, then searching for Claire's family of three in China is like looking for a specific mung bean in a pile of mung beans.
