

The Amazing Son in Law Chapter (Charlie Wade)

CHAPTER 2651

Fifteen minutes after taking off, Charlie only had the last few tens of kilometers to the destination.

According to Isaac Cameron's calculations, Charlie should jump out of the cabin after 5 minutes, and then use his remote guidance to land five kilometers away from the destination.

So he asked Charlie: "Master Wade, are you ready?"

Charlie nodded: "Ready. "

Isaac Cameron said to Anthony: "Mr. Anthony, please ask the captain to open the hatch." "

Good! Anthony immediately walked to the cockpit and asked the captain to open the door at the rear of the plane."

When the hatch slowly opened, a violent cold wind poured in instantly, and Isaac Cameron and the others shivered with cold.

Isaac Cameron hurriedly said to Charlie loudly: "Master! You must be careful and careful! Six hours later, we will definitely be waiting for you at the place you specify!"

Charlie smiled slightly: "Don't worry, we will see you in 6 hours!"

At this time, *Isaac Cameron* accompanied Charlie to the open hatch. Everyone looked at Charlie with breathlessness. This was his first parachuting. Not only was it extremely difficult to parachute, but also the real difficulty began after landing.

Except for Isaac Cameron, no one at the scene could figure out what kind of self-confidence Charlie had that would make him dare to go deep into Longtan Tiger's Lair guarded by thousands of soldiers alone. This kind of hell-level difficult task, I am afraid that the movie dare not dare. Take it like this.

Therefore, each of them was squeezed by Charlie's safety.

Anthony even felt that this matter would probably end with the Wade family paying a large amount of cash to the opposition and redeeming Charlie from the opposition.

However, Charlie's face was light and windy.

Five minutes have passed, and Isaac Cameron said to Charlie, "Master Wade, you can jump!"

Charlie was indifferent, and said lightly: "Wait."

Isaac Cameron said nervously, "Master Wade, we can't wait any longer. Our flight speed is still very fast. If you wait any longer, your landing point will deviate greatly. If the landing point is closer to the opposition base if you are, then you

will be very dangerous! And, the closer you are, the bigger your goal will be after you open the umbrella!

Charlie smiled and said, "The time is urgent, so it is better to be closer. "

Isaac Cameron looked at the time, blurting out:"!! Master, you have done it now, only three kilometers from the possibility can not wait any longer, "

Anthony also face nervous, he said:" Yes ah young master! wait any longer, you jump to the head of the opposition base go up ah 9.!

Charlie looked Isaac Cameron, asked him: "? If I want to fall one kilometer from their position, what is the most appropriate time to jump"

Isaac Cameron swallowed his saliva, and said with difficulty: "If you really want to control about one kilometer, then you have to wait another 30 seconds.

"Good!" Charlie nodded and said, "You help me count down, after 30 seconds, I jumped out on time!

Isaac Cameron wiped off the cold sweat and stammered: "That's true. It's really too dangerous.

Charlie smiled and said, "It doesn't matter, don't I still have a surrender book on me? Giving them the surrender book is like spending money to experience extreme sports. "

Side of the Anthony helpless secretly sigh.

He first met Charlie, only this time feeling, Charlie is simply unheard of dude.

He had seen out of super-wealthy people all over the world spend money to play a woman to have fun, But I have never seen Charlie, a super rich second generation who came out to spend money and kill his life.

Isaac Cameron has been staring at the stopwatch in his hand, and when the last 10 seconds were left, he started the countdown.

"10, 9. 8.

At this time, the hatch has been fully opened, and there is a thick cloud outside the hatch.

Although Syria also belongs to the Middle East, the latitude here is similar to that of Aurous Hill, and it is also winter, so it is the most rainy season in Syria.

Thick dark clouds not only block the sun, but also make the air very humid.
