

The Amazing Son in Law Chapter (Charlie Wade)

Chapter 2685

To Charlie, a blood-relief heart-saving pill was really nothing.

If he wants to mass-produce this kind of thing, he dare not say that he can directly put it on the production line, but it is very easy to refine one hundred and eighty, or even three or two hundred in a day.

The main reason for playing so much is to ensure that this thing is invaluable and invaluable in the eyes of outsiders.

Therefore, giving Hunter (Hamid) one at hand is almost equivalent to a fruit farmer who owns 10,000 mu of orchard, giving someone an apple at hand, which is not worth mentioning.

However, this thing is of great significance to Hunter (Hamid).

In a peaceful world where there is no war, a person with a disabled leg will also have a lot of inconveniences. He will even regard recovery as the greatest wish of life.

What's more, Hunter (Hamid) is a general who seeks to survive in the war.

Charlie cured his leg today, which is equivalent to saving his life.

With a healthy body, Hunter (Hamid) can better lead soldiers to fight, and even lead the soldiers, so that the soldiers can maintain obedience.

Therefore, he excitedly said to Charlie: "Brother! You are my greatest benefactor in this life besides my parents! In the future, as long as you need my help from my brother, my brother will die!"

Charlie nodded and said with a smile: "With the words of my brother, my magic medicine is in vain."

Hunter (Hamid) said seriously: "Since my leg was scrapped, the team has dropped from more than 10,000 to 2,000. At that time,

I actually didn't have the fighting spirit I had before. I always thought that as long as I could barely survive. It's okay to come down. In the future, choosing a reliable force to rely on in the past can be considered as a guarantee..."

Having said this, Hunter (Hamid) was melancholy, suddenly a bit more fierce in his eyes.

His voice became unusually firm, and he shouted loudly: "But! Now that God has given me this opportunity, let me meet my brother, you noble, and let my brother you heal my

leg! Then my Hunter (Hamid), from now on At the beginning, I must not sink into the same way as before! I must go all out to re-make the team bigger

and stronger. Perhaps one day, Hunter (Hamid) can also become a real prince and general!"

After all, he looked at Charlie and said sincerely: "Brother! If the day I really become a prince, brother, when I am crowned, my brother must come to witness for me!"

Charlie nodded and said with a smile: "I think you have the fate of being rich and wealthy. I think it won't be long before you can wait until this day."

Hunter (Hamid) laughed, stretched out his hand to Charlie, and said excitedly: "Brother, then I will lend you good words!"

Charlie smiled slightly, stretched out his hand and shook his hand firmly, and said, "In addition to fighting wars, he needs to be more economically savvy. In this society, the economic foundation determines the superstructure. As long as you have enough funds, Don't talk about 10,000 people at the bottom, even if it is 100,000 or 1 million, it is not a problem at all."

Hunter (Hamid) said seriously: "My brother is wrong. From now on, I will have to use 120% of the fighting spirit to regain the size of the team!"

While talking, the sound of a helicopter roared from a distance.

In mid-air dozens of kilometers away, two bright lights approached quickly.

Hunter (Hamid) knew that this was the helicopter that came to pick up Charlie, so he said with a bit of sorrow: "Brother, you are walking too hastily. I'm really ashamed of my brother being a landlord and serving you well. !"

Charlie smiled and said, "It doesn't matter, there will be opportunities in the future."

After speaking, Charlie remembered something, and then said: "By the way, Musa and the others, it's not that you really betrayed you, but I used some tricks to add some

psychology to them subconsciously. Hint, so after you go back, don't embarrass them because you are angry, just don't let them take up important positions for the time being."

Hunter (Hamid) suddenly realized that he nodded and said, "No wonder they listened to your command one by one, it turned out to be like this..."

After that, he immediately assured Charlie: "Don't worry, my brother, I will definitely not embarrass them, and for the seven Americans, I will keep them alive as you said."
