then purchase a number of mining equipment, in the mountain, the mountain use as cover to build positive fortifications, as well as the inverse slope of fortifications.

" In this way, the other As long as you bomb, you can hide in the fortifications, and you can minimize the loss whatever the opponent hits.

"Moreover, once you have the reverse slope fortifications, it will be even more difficult for the opponent to lay down your base area.

Even if they can break into your valley, your soldiers can directly cover the entire area with firepower from the reverse slope fortifications halfway up the mountain.

The valley, let them come back and forth.

Hunter (Hamid) on the other end of the phone, when he heard these, his eyes lighted up.

Charlie continued at this time:'You strengthen your defenses and turn yourself into an iron bucket. ,

Then they will not be able to defeat you, and then they will definitely give up dealing with you and choose to go to war with other opposition forces,

and you, try not to take the initiative to attack, just shrink in your base area, the enemy will come and we will block, the enemy will withdraw and we will raise, In that way,

you can not only preserve your strength very well, but also have the opportunity to continuously absorb the defeated skirmishers

with your strong defensive ability."

Hunter (Hamid) said excitedly, "Brother, where do you learn from? Yes? It sounds very reasonable!

Charlie smiled and said: "Learned from our ancestors in China, let you do a good job in infrastructure and

defense construction, and at the same time don't take the initiative to attack. This is

called digging deep holes, accumulating food, and slowing down. To be king. "After

speaking, Charlie said again: "Let you wait for the stragglers who are armed by other opposition factions.

This is called watching the fire from the other side, in other words, it is also called the dead dao friend not the poor dao.

Hunter (Hamid) said with emotion: "I can further enhance my defense ability based on the experience taught by my brother,

but if my brother's army asks me for help, then how am I embarrassed to really watch the fire from across the bank?

Charlie smiled and said: "What's the matter with this

Excuse me? If someone beat someone else, just look at it.

Hunter (Hamid) said embarrassingly: "I'm afraid that will spur the entire opposition camp.

Charlie said seriously: "It doesn't matter to spurn, the most important thing is to survive.

We don't take the initiative to look for things, and we don't get too close to other opposition parties.

We do our best to preserve our strength, so that in case the opposition party fails one day, you Here is another piece of hard bones.

The other party can't chew, so they have a great probability of recruiting you. Once they recruit you, it will be easier to do so, so that you can negotiate terms with them and change the position. After all

, Charlie smiled slightly and said earnestly: "This is called forward and attackable, and retreat and defense.

.

Hunter (Hamid) was silent on the other end of the phone.

said these strategies and tactics, which he had never thought of before.

Their current strategic situation is relatively simple. It is nothing more than fighting indiscriminately.

As long as they meet the incompatible forces, they will definitely fight.

However, most people just pay attention to the present, and there is no long-term systematic strategic plan at all.

In contrast, Charlie, although he grew up in a peaceful age, he has never seen what a war is like, but he has learned various allusions in Chinese history since he was a child and has a certain theoretical basis for various strategies.

Moreover, in the few wars of the Huaxia nation against foreign enemies, many classic battles were fought, which further highlighted Huaxia's

unique strategic thinking. Therefore, Charlie synthesized his own cognitive foundation and quickly understood Hunter (Hamid)'s

current situation. A relatively more accurate judgment.

As long as Hunter (Hamid) can implement the strategic instructions of digging deep holes, accumulating food,

and slowly becoming king, no matter whether the opposition can succeed or not, he himself has a chance to succeed.

After Hunter (Hamid) listened to this, the whole person was greatly inspired, and blurted out: "Brother! After listening to you,

I am really enlightened! I will arrange for someone to purchase a batch of light industrial and mining equipment, and immediately start working on the main pass and surrounding areas.

Build fortifications on the mountain, and purchase more weapons, ammunition, food and medicine, and be prepared to stick to the base for a long time!
