

The Amazing Son In Law (Charlie Wade)

2771

Faced with Charlie's question, Kairi Elms – Xion's Mom didn't have any secrets, and said, "Going back to Master Wade,

our Elms family's internal boxing method requires a lot of temperature and medicinal materials.

The medicinal materials are mainly based on some qi supplements.

Medicinal materials are the main ingredients, supplemented by strong medicinal materials, such as ginseng,

Ganoderma lucidum, velvet antler, and cordyceps sinensis. The strong ones are mainly Chinese herbal medicines used for

bathing medicinal baths."

After talking, Kairi Elms – Xion's Mom introduced: "Our Elms family has two prescriptions,

one is called Buqi San, the other is called Xingtian Decoction. Buqi San is made from precious medicinal materials such

as ginseng and ganoderma, which are made in a special way. The finished Chinese medicine can replenish qi,

blood and internal force after oral administration, so as to enhance internal force and enhance the meridian;"

"As for the body wake-up soup, it is a decoction made from a variety of Chinese herbal medicines.

People directly soak in the decoction to strengthen bones and muscles and increase physical strength."

Charlie asked curiously: "Then how much does your entire family invest in medicinal materials each month?"

Kairi Elms – Xion's Mom hurriedly said: "In the past, our investment was at the peak, at least 20 to 30 million yuan per month.

Basically, we can guarantee that every member of tElms family who practices martial arts will get a pair of qi powder

and a pair of awakening bodies every month.

Tang, if it is a key training object, you can even get two to three pairs a month."

Speaking of this, Kairi Elms – Xion's Mom sighed and said, "But recently, because Elms family's

financial situation is a little stretched, my father temporarily cut off most of the input of medicinal materials."

“Currently, Elms family’s tentative monthly cost of medicinal materials is around three to five million.

Most family members with ordinary qualifications can no longer receive medicinal materials.

There are only a few key training objects, which can barely use them, but the medicinal materials are also Greatly discounted

, the efficacy of the medicine will naturally weaken a lot.”

Charlie asked again: “How are the effects of your two medicinal materials?”

Kairi Elms – Xion’s Mom shook her head and said helplessly: “In fact, even if the medicinal materials are not discounted,

the effect is not very good. This is mainly because the effects of the prescriptions we use are relatively ordinary,

which consumes a lot of medicinal materials, which may be very difficult for ordinary people.

There will be immediate results soon, but for those who already have a certain training foundation,

the effect can only be said to be better than nothing, and it can also play a certain auxiliary role.”

Charlie nodded gently, and said calmly: “When it comes to prescriptions, I happen to have a pill that can increase the internal and external strength of the body.

I personally feel it is very good, but I don’t know if it is suitable for your family’s internal medicine.

Jiaxin Fa, Madam , you can try this medicine with Xion.”

With that, Charlie took out two blood-saving heart-saving pills from his pocket.

This kind of pill is actually not valuable to him.

If he wants to, he can refine it in large quantities.

This kind of pill had no effect on the current Charlie,

but for the average person, the effect was very good.

Rao is hemiplegia and high paraplegia, which can be cured by this medicine.

If it is taken by ordinary people, the physical fitness can be greatly improved, so as to achieve the effect of

prolonging longevity to a certain extent.

The medicinal power contained in this medicine is extraordinary.

For martial arts practitioners such as Kairi Elms – Xion’s Mom and Xion, it can not only strengthen the body and strengthen the meridians,

but more importantly, it can greatly increase internal strength. It's a panacea that I can't even dream of.

At the beginning, Aurora relied on a blood-saving heart-saving pill, and his strength improved by leaps and bounds in a short period of time.

With just one pill, it went from lagging behind Ito Nanako by a lot to overtaking Ito Nanako by a lot.

This shows that How powerful is this kind of effect on ordinary martial artists.

Charlie can see from the strength of Xion and Kairi Elms – Xion's Mom that although they are relatively top in the martial arts family,

their strength is really far behind him, and they can't make it to the stage at all. It can also be inferred that

the effect of He's medicine tonic method must be minimal, and it may not even reach one thousandth of the blood-saving heart-relief pill.

Therefore, he had a plan in his heart.

"Didn't the Banks Family use money to buy the Elms family in the past?"

"Then I will change my path today!"

"I use money as a supplement and medicine as the mainstay to bind Hejia deeply!"

"Doesn't your family want to cultivate more masters? With your current method, how can it give you 10 billion a year?"

Even if your people use ginseng for food every day? That kind of method of stacking medicinal materials,

no matter what, the effect is definitely not as good as my heart-relief pill!
