

The Amazing Son In Law (Charlie Wade)

2833

He knew that this time, Master Banks was a little messy,

but fortunately, he kept the Elms family firmly within the 2 billion quotation.

This should be a credit. After returning, the master will naturally have it.

Expressed.

This night, banks butler fell asleep in the sound of the ding-ding-ding around, and slept particularly securely.

Lord Elms (Wilfred) and Yoel, as well as several other core members of the Elms family, were almost sleepless all night.

Everyone had their own thoughts. Except for Lord Elms (Wilfred), everyone else had already begun to figure out that they

could get a share of the annual income of 2 billion.

How much you get, and how to use it after you get it.

At six o'clock in the morning, the sky in the east had begun to light up gradually.

There was a night of snow last night, and the entire Mocheng was almost completely covered by snow.

Due to the cold weather in this small city, most people spend more than half of the year at home for winter holidays.

This time is also very quiet, and there are hardly any people in the street.

At this moment, in the southern sky, a helicopter came quickly.

Kairi Elms sat in this helicopter, looking anxiously at Mocheng,

which was less than a hundred kilometers away.

In her arms, holding two blood-saving heart-saving pills given by Charlie.

She believes that if Xion is the father and the banks family reunited,

no matter how strong the belief is, as long as the father takes one of them,

he will immediately change his mind.

When there was still more than ten kilometers away from the Elms's mansion, she said to the pilot:

“Brother, please find a suitable location one or two kilometers away from the compound to land,

so as not to be discovered by someone who is interested.”

Helicopters are rarely seen in small cities, so they are bound to attract attention.

It doesn't matter if others are paying attention. Kairi Elms's main concern is that Bank's Butler, who lives in Elms's home, will find out.

If he finds out that he came back in a helicopter, he will most likely become suspicious, so as to verify the origin of the helicopter.

If he finds clues to the Wade family, it will definitely be a problem in the future.

As long as he didn't find the helicopter, even if he saw him in Hejia, he wouldn't be too suspicious.

When the pilot heard this, he hurriedly said:
“Ms. Kairi, from the map, I can’t find a suitable
landing place in the city,

but the distance outside the city is a bit far
away.

Do you have any good suggestions?”

Kairi Elms said: “There is a river about 1.5
kilometers southeast of Elms’s house.

The river is completely frozen in winter. When I
saw the troops engaged in training a few years
ago,

tanks all ran on the ice and helicopters It’s
definitely okay.”

The pilot nodded: “In such a cold day, the river
must be able to carry it.

Then I will just land on the river as you said!”
