The Amazing Son In Law   (Charlie Wade)

Chapter 3132-3133

Fitz Banks is not a local snake in Aurous Hill.

Therefore, although he can use a lot of relationships, the degree of reliability of this relationship is not high. Basically, his subordinates have to find several layers of relationships in a roundabout way to reach the key person.

Normally, if he wants to inquire about the information of someone in Aurous Hill, a call is made to the person under his hand, and the person under his hand will then activate contacts and find the local relationship in Aurous Hill. Although it is a bit more troublesome, it is not too difficult.

However, what he didn't know was that the BMW he wanted to check this time was registered under the name of Charlie's wife, Claire.

As the spokesperson of the Wade Family in Aurous Hill, and as Charlie's right-hand man, Isaac Cameron had already managed the upper and lower relations, all the personal information related to Charlie, Charlie's wife Claire, the   Jacob, and his mother-in-law Elaine, All have very timely warning reminders.

If someone inquires the information of their family of four in the system, the moment he enters his name or license plate number and clicks on the query, he will send an early warning to Isaac Cameron as soon as possible.

At the same time, regardless of whether he is inquiring about the names of the four members of Charlie's family, or their license plates, addresses, and ID numbers, the system will immediately trigger the protection rules, and first give a feedback "system information maintenance, please try again later" The tips to the other party.

Therefore, when Fitz Banks found the key person and entered Claire's license plate number into the system, Isaac Cameron immediately received the message.

But the person found that the system information was being maintained, so he didn't think much about it, and planned to wait a few minutes and try again.

While he was waiting, Isaac Cameron immediately contacted the person in charge of the Aurous Hill Transportation Department to conduct a counter-check directly in the internal system. In less than a minute, he found the person searching for Claire's license plate number.

That person was a middle-level manager of the Aurous Hill Transportation Department. A few minutes ago, he received a friend's entrustment to help inquire about the local license plate number. The other party only asked for the registration information of the car. He didn't think much about it, so he prepared. Feedback to the other party after checking.

But what he didn't expect was that Isaac Cameron locked him in only less than a minute.

Then, he was suddenly called by the leader to the leader's office.

He didn't know it was his own search behavior that caused the catastrophe. He pushed the door and asked with a flattering expression: what do you want me to do?"

The person called immediately asked him: "You just checked the information of a BMW in the system?"

"Uh…" the person said nervously, "No, is there any misunderstanding?"

"Misunderstanding?" said in a cold voice: "Don't forget that there are behavior statistics inside the system. The login account of the car you just checked is yours, and the IP address that sent the query request comes from your workstation. How do you Explanation?"

The man was startled. He usually has a good relationship with man, and he can be regarded as one of the other's confidantes. It stands to reason that he shouldn't suddenly become so serious. He must have caused trouble.

So he hurriedly said in a low voice and flattering: what we do is the work of the traffic system. I check the license plate number. There is no principle problem? Why are you so angry, don't Because I'm so angry again."

sternlk said: "In normal times, opening one eye and closing one eye will pass, but this time you stabbed a big basket! I can't save you!"

The man asked nervously,What the hell is going on here? Can you give me a rough idea? My heart is panicking like something…"

"Because of your business, President Isaac Cameron from Shangri-La has come to me. You know his background. It is certainly not a trivial matter to let him find him so quickly. !"

The man exclaimed: "Isaa…Isaac Cameron?!   what should I do now, please show me the way!"

manopened the mouth and said: "There is a way to make up for the work, it depends on whether you are worthy of cooperation."

The man hurriedly said: "Cooperate, I will definitely cooperate!"

…

After Isaac Cameron solved all the problems in the fastest time, he immediately called Charlie. At this time, Charlie had just drove away from the Olympic Center.

After answering the phone, Isaac Cameron said to Charlie, "Master, someone inquired about your wife's car in the traffic data system just now."

Charlie frowned and asked: "Who did the investigation?"

Isaac Cameron hurriedly said: "Is a middle-level manager in the relevant department."

After speaking, he reported the incident to Charlie.

After Charlie listened, he said, "isaac, you have done a good job of this, so take precautions."

"This is my job."
