

# The Amazing Son In Law ( Charlie Wade )

## Chapter 3198-3199

On the tray, there are three glasses filled with pure water, and a long bundle of fruit knives.

Don Albert carefully placed the tray in front of Charlie and respectfully said: "Master Wade, the water and knife you want are here."

Charlie nodded and smiled slightly: "Thanks for your hard work."

Don Albert said hurriedly: "Master Wade, you are too polite. If there is nothing wrong, I will go out first."

"it is good."

After Don Albert left, Stefanie Sun asked Charlie, " Charlie, what do you need water and a knife for?"

Charlie smiled and said, "You'll know right away."

Come on, he took out a very delicate rosewood box from his pocket.

When he opened the red sandalwood box, Orrin Sun recognized the pill in it at a glance.

He knew that this was the miraculous medicine that saved his life at the beginning and even made him younger than 20 years old.

Mother and daughter Angie and Stefanie Sun witnessed this miracle with their own eyes, so they were naturally impressed by this rejuvenation pill.

However, the family of three didn't know why Charlie suddenly took out such a precious treasure.

At this time, Charlie took out the Rejuvenation Pill directly, and then took the fruit knife sent by Don Albert and divided the Rejuvenation Pill into three equal parts.

At this time, the family of three finally realized the purpose of what Charlie did.

Orrin Sun and his wife Angie felt some inexplicable tension,

excitement, and faint expectation deep in their hearts.

It's not that they have always coveted the Rejuvenation Pill, but that they both have almost reached the age of knowing the fate of heaven.

The more they reach this age, the more they yearn for the youth that has passed away.

Usually they don't dare to hope that they still have a chance to have any contact with the Rejuvenating Pill.

Therefore, seeing Charlie take out one and divide it equally into three, the two of them have realized what Charlie is going to do, and they are naturally excited and impatient. .

Then they saw Charlie and put these three rejuvenating pills into three cups of pure water.

It is also amazing to say that this solid rejuvenating pill, as soon as it enters the pure water, it immediately melts away, and quickly melts into the water completely.

The pure water melted with the rejuvenating pill, there is still no color, as if the rejuvenating pill disappeared directly into the water.

Afterwards, Charlie put the three cups of water that melted the rejuvenating pills and handed them in front of the three of them, and said:

"Uncle Orrin (Sun), Aunt Angie, and Stefanie Sun, your bodies are all healthy now. It's just because of the intensity of your work that you are in a good condition.

The meeting is slightly worse, especially Aunt Angie is relatively obvious. After all, you have worked

harder during this period, and when Uncle Orrin (Sun) got sick before, you did not worry less."

"In these three glasses of water, each one contains one-third of the rejuvenating pills. Although it can't make the three young people

more than 20 years young, they can at least restore their physical, skin, and mental state to five or eight years. Years ago."

"At the same time, it can greatly supplement the body's demand for vitality, and it can also greatly improve the energy and physical strength of the three in the future work and life."

Speaking of this, Charlie looked at Angie with an excited look, and said with a smile: "Auntie Angie, if you drink this glass of water,

not only will your tiredness be completely relieved, but your skin and body will also be younger.

It is estimated that in time, People who don't know will think you are less than thirty-five years old!"

"As for Uncle Orrin (Sun), you may be able to reach the state of thirty-eight or nine years old."

"As for Stefanie, it is estimated that the whole person's feeling can return to the state of eighteen years old."
