

The Amazing Son In Law (Charlie Wade)

Chapter 3479)

Chen hurriedly said, "These are all rumors from the outside world. None of us know how much Hunter (Hamid) has reserves. What if Hunter (Hamid) deliberately releases smoke bombs to confuse us? Let us mistakenly think that he has plenty of supplies, and then talk to him. Peace talks, then we will be fooled by him!"

After speaking, Chen added: "And don't forget that he overtly integrated a lot of stragglers some time ago, and now his number has doubled several times, and the consumption of materials will become faster and faster! No, now even one. The month can't last, and what we have to do is to be more patient and to be more resolute in our attitude towards Hunter (Hamid). If we don't leave Hunter (Hamid) with any opportunity for mediation, Hunter (Hamid) will definitely Square inches are in chaos!"

The other party shook his head and said: "My superiors have agreed to the peace talks. From the perspective of my superiors, as long as Hunter (Hamid) is willing to surrender publicly, and disarm all the soldiers under him, and disband in place, we can no longer pursue them. Hunter (Hamid) has any legal responsibility, and even if Hunter (Hamid) is willing, we are willing to incorporate him into the government army and let him serve as an official."

"What?!" Chen blurted out: "Hunter (Hamid) killed so many of you and should be publicly sentenced to hanging, but you still want to put him down?!"

The other party said indifferently: "As long as he is willing to surrender, those will not be a problem. You must know that Hunter (Hamid) has become the beacon of all opposition parties and a benchmark for all opposition parties. If Hunter (Hamid) surrenders, The confidence of all opposition parties will suffer a severe setback. This is a great thing for us, and of course we are willing to punish him!"

Chen gritted his teeth and said, "Hunter (Hamid) is the mortal enemy of our Wanlong Temple! If you want to reassure him, you must consider how our Wanlong Temple will deal with this matter in the future! Do you want to be an enemy of the entire Wanlong Temple? ?!"

When the other party heard this, he was obviously a little worried.

Indeed, no one dared to provoke the powerful Wanlong Palace casually.

Chen saw that the other party hesitated, so he struck the iron while it was hot, and said, "Aside from your superior's attitude, you and I should have the same attitude towards Hunter (Hamid). They all hope to kill and then quickly, so don't worry about this matter Promise Hunter (Hamid), in my opinion, you might as well reject him decisively first, which can also bring greater psychological pressure to him! If you can reject him, you will not lose anything, and it is impossible for him to refuse to follow him because of you. The peace talks turned into anger, and then sent troops to attack us."

The other party thought for a moment, and then said: "Tell you the truth, Commander Chen, even if I don't want to negotiate with Hunter (Hamid), I'm afraid this matter is no longer for me."

Chen said immediately: "You can't help but you are useless. Don't forget. You alone can make the final decision. Even if you agree to negotiate with him and reach a settlement with him, our Wanlong Palace will not Will promise! At that time, our Wanlong Temple 15,000 soldiers will be here, as long as Hunter (Hamid) and his men dare to come out, we will fight to death!"

The other party suddenly became embarrassed.

If Chen is really unwilling to negotiate, it really doesn't make any sense for them to talk to Hunter (Hamid). After all, if the Wanlong Palace will not withdraw troops at that time, who can do anything to them?

Thinking of this, he said helplessly: "Commander Chen, I will give you five more days to consider at most. If you still don't want to negotiate with Hunter (Hamid) after five days, then we can only withdraw our troops!"

"Okay!" Chen thought that it would last five more days, so he agreed without hesitation and blurted out: "Then you can just reply to Hunter (Hamid) first, and say that you will not consider peace talks for the time being! "

"Row!"

Subsequently, the news was quickly fed back to Hunter (Hamid) through the intermediary.

When Hunter (Hamid) heard that the government army was unwilling to negotiate with him for the time being, he immediately scolded angrily: "Damn, I took the initiative to negotiate, they are not willing! It's really shameful!"

After speaking, he hurriedly asked Charlie: "Brother Wade, what shall we do now? Wait until they change their minds?"

Charlie frowned, shook his head and said: "I'm anxious to go back and there are still things to do, I can't wait."

Having said that, Charlie said again: "They are not willing to negotiate. I think they don't know enough about your strength."

"Yes!" Hunter (Hamid) said coldly: "They must think I am a soft persimmon!"

Charlie snorted and said: "In this way, you immediately take all your stockpiled materials, send them the photos, and then tell them that this is just the tip of the iceberg of all your strategic reserves, and finally give them a chance to negotiate. , I don't believe they won't agree this time!"
