The Amazing Son In Law (Charlie Wade)

Chapter 3528)

That rich spiritual energy completely transformed every bone, every inch of skin, and even every cell of Charlie, giving Charlie a feeling of renewal.

In the past, the aura in Charlie's body was consumed less and less, and there was almost no aura in the surrounding environment, so the aura could only be consumed and not replenished.

But this time, it was almost like throwing a person who had been short of water all the year round directly into Lake Baikal. The feeling was simply amazing.

Charlie could clearly feel that his body and strength had been greatly enhanced.

Before that, he really hadn't expected that this cultivation pill had such a powerful effect.

I originally thought that the effect of Rejuvenation Pill was already very strong, but now I understand that it turns out that Rejuvenation Pill is simply a pediatrics in front of Peiyuan Pill!

Regardless of the fact that the Peiyuan Pill is only an entry-level spirit pill, but because it contains aura, it is tantamount to a complete increase of a dimension, and it is not the same.

It feels like a gorilla and human beings. Although most of the genes are the same, the gap is simply an insurmountable moat.

After more than an hour, the excess medicinal power of Pei Yuan Dan was completely absorbed by Charlie's body.

Charlie looked at the remaining twenty-four pill pill and thought to himself: "This pill pill has such a great effect if you take the remaining 24 pill. I don't know how it will feel if I eat them all at once?"

Thinking of this, Charlie immediately threw this dangerous thought out of the clouds.

The principle of extreme reversal is still very clear, just that one pill of cultivation has already reached the limit of one's own body, even surpassed the limit, if it is another one, it is afraid that the body will not be able to bear it at all.

So, he carefully put away all the remaining Pei Yuan Dan.

Afterwards, he stood up and checked the time. It was already past 9 o'clock in the night.

Thinking of going to Eastcliff tomorrow, Charlie hurriedly cleaned up the scene and walked out of the villa quickly.

As soon as he left the gate of the villa, Charlie discovered that the scenery in the courtyard under the light seemed to be very different from when he first came in!

When I first drove in, the green grass in the yard had just grown less than ten centimeters of green shoots, and the density of the grass was not too large, sparse, and the few ornamental leafy trees in the yard had just been pulled out. branches and leaves.

However, in these few hours, the grass in the yard has grown several times, and the height even reached the middle of Charlie's calf, which is estimated to be at least 30 centimeters.

And the few green-leaf trees in the yard have changed from their new buds to the luxuriant foliage in the midsummer!

In just a few hours, the scenery in the courtyard has jumped from early spring to midsummer, giving Charlie a feeling of a world away, as if he came in not just a few hours, but a few months.

Surprised, Charlie couldn't help but walked out of the villa and looked at the sides of the mountain trail all the way up the mountain. At this time, the lawn and trees under the light were still the same as they were in the early spring, completely different from the scene in the yard.

Charlie couldn't help but frowned, and thought to himself: "Why are the plants in my yard the only ones growing more luxuriant?"

In doubt, he suddenly remembered that when he cultivated the original essence pill, a large amount of spiritual energy was first filled in the entire villa, and then sucked back by the whirlpool. He couldn't help but secretly: "Could it be that there was aura that leaked from the villa just now. In the yard, that's why the plants in the yard suddenly grew more lush?"

Thinking about it, there is only one possibility.

After all, aura is the best energy for all things in the world, and it has such a strong stimulating effect on the plant itself. Just now, the aura is filling the entire villa, and it is normal for a part of it to overflow.

Originally, Charlie was still thinking about whether to deal with the overly dense green plants in the yard. After all, this is too different from the outside environment, but it doesn't matter if you think about it. The plant grows a bit slower, but after the Qingming Festival and the temperature rises, the plant will enter a stage of crazy growth. By then, there will be no such obvious gap.
