

The Amazing Son In Law (Charlie Wade)

Chapter 3564)

Helena did not expect that her cousin suddenly became so unfeeling.

She blurted out subconsciously: "If my grandma really passed away before my engagement, how could the engagement ceremony be held as scheduled? When my grandma passed away, I was still holding an engagement banquet as usual. Will spurn the entire royal family!"

Olivia on the other end of the phone said coldly: "Don't worry, I will let her survive these three days as much as possible. Even if she really passes away within these three days, I will not release the news. I will wait for you. It will be announced after the engagement."

Helena could not help but angrily scolded: "How can you do this?! What do you think of grandma? Is it a tool in your control?!"

Olivia sternly said: "Helena! You remember it! Now her life and death are not important at all! Your marriage to the Wade Family is the most important! The Wade Family has promised to invest 30 million dollars immediately after you and Jon Wade get married. Million euros and the royal family are cooperating to develop tourism real estate in Europe. If you dare to make any accidents to me, don't blame me for being rude to your mother!"

Helena was very angry and shouted: "Olivia! I have always regarded you as my own sister, and my mother has treated you as a daughter since I was a child. Your present face is too much!!"

Olivia sneered: "Helena, Olivia is not what you should be called! Remember, you want to call me the Queen!"

After speaking, Olivia threatened again: "Helena! I know you are not in good health, but you remember my words! You'd better let yourself live for a few more years to ensure that the cooperation between the royal family and the Wade Family can land, Qian Don't let this happen! Otherwise, I will drive your mother out of the royal family and let her fall into the street!"

"Dare you!" Helena was extremely angry, gritted her teeth and roared: "If you dare to move my mother, I will kill you!"

Olivia sneered: "Helena, you better figure out the current situation. After grandma's death, I will immediately ascend the throne as the new queen. Why do you kill me? It depends on your congenital heart disease. I advise you to save it!"

Speaking of this, Olivia smiled contemptuously, and said: "Helena, don't say I don't give you a chance, as long as you complete the marriage with the Wade Family, and then find a way to live a few more years, and honestly stay in China. Now, I will guarantee the safety of your mother's life, otherwise, don't blame me for disregarding the affection of my family!"

Helena only felt shuddering. Originally, she thought that what the royal family could most threaten her was her mother's future pension and livelihood.

But now she knew that in Olivia, the bottom line was pulled lower, and she even started to threaten herself with her mother's life.

At this moment, she felt that Olivia on the other end of the phone had become extremely strange in an instant.

She really couldn't understand why this sister, who had known her for 23 years, turned out to be such a scorpion heart.

But she also knew in her heart that if she insisted on confronting Olivia, then her mother's life safety would really be threatened, because Olivia now controls the entire royal family and is about to become a queen again soon. It was a widow who lived in the imperial house and survived in the cracks. How could she be Olivia's opponent.

So she immediately said: "Olivia, I can promise all your requirements, but you must also promise me one condition!"

Olivia sneered: "Okay! You might as well talk and listen."

Helena said word by word: "I can marry the Wade Family and help you attract Wade Family funds, but you must let my mother come to China, and I will take her to my side to take care of!"

Olivia seemed to have heard Tianda's joke, and sneered coldly: "Helena, you are simply whimsical. You still don't understand why you should go to China first to participate in the ancestor worship of the Wade Family. The ceremony? It is to separate you from your mother, so although the royal family will send many representatives to attend your wedding with Jon Wade, it will definitely not let your mother pass!"
