Fei Kexin shook her head and said seriously: "skuna, remember, in most cases, the more you are in a high place, the less you like to take advantage of others. When you give him a lot of favor At that time, he will definitely return this favor to you on something." After that, Fei Kexin said again: "At Stanford, there is a special course that teaches those corporate executives how to be alert and respond to commercial bribery. There are many classic cases in which the party who commits commercial bribery uses almost all The same case is to constantly give favors to the other party in various ways without mentioning one's own needs. When the other party's feeling of indebtedness reaches a certain level, as long as he speaks, the other party will take risks for him."

skuna nodded thoughtfully, and then asked Fei Kexin a moment later: "Miss, do you still plan to let the master have a meal with him?"

"Don't eat it now." Fei Kexin said hurriedly: "Since charlie said that he would invite me to dinner after he is busy, let Grandpa come over at the normal time schedule. If he fails to make a comeback at the auction. Dan, I will take him to see charlie."

...

Two days later.

Aurous Hill Airport has ushered in its busiest day since its completion at four o'clock in the morning.

In normal times, the daily number of passenger, cargo and business jet landings at Aurous Hill Airport would add up to 800 times, of which the number of take-offs and landings was almost equal.

But today, Aurous Hill Airport has nearly 300 more landings than usual.

Starting in the early morning, a large number of private jets began to land at Aurous Hill Airport non-stop.

These private jets, without exception, all came to Aurous Hill to participate in the Huichundan auction.

According to the requirements of the auction organizer, these bidders must arrive in Aurous Hill within today.

And according to the requirements, they must follow the organizer's arrangements from landing to the end of the auction. Any violation of the requirements will be regarded as a waiver of the right to bid for rejuvenation.

Therefore, after landing at Aurous Hill Airport, these top wealthy people can only wait in place for further arrangements from the organizer.

At ten o'clock in the morning, nearly one hundred private jets landed in Aurous Hill, almost occupying all the parking spaces at Aurous Hill Airport.

Some private jets have even begun to be temporarily parked at airports in other cities around them after passengers have disembarked because they have no stopping conditions.

At this time, at an altitude of less than 1,000 kilometers from Aurous Hill, a private jet modified by a Boeing 747 is flying fast towards Aurous Hill.

Inside the huge cabin, it has been transformed into a mobile villa in the sky. In the extravagant living room at the front of the plane, two elderly people are sitting.

Both their hair and beards have become pure white, but one of them looks old and healthy, while the other can clearly see that their energy and physical condition have become very poor.

These two people are Jian and Orion Exeor who have flown all the way from the United States.

Since Orion Exeor was invited by Charlie to attend the Huichundan auction as a distinguished guest, and Jian also successfully obtained the qualification to participate in the Huichundan auction, Orion Exeor simply followed Jian's private plane all the way to Aurous Hill.

At this time, the service staff walked to the meeting room and said respectfully: "Master, Mr. Orion Exeor, our plane will land at Aurous Hill Airport in about ninety minutes."

"Okay..." Jian nodded lightly, then looked at Orion Exeor, and asked him: "Brother Orion Exeor, I don't know if I can get a divination for me and see if I can successfully photograph the Huichun Dan this time.?"

Orion Exeor couldn't help laughing: "Old friend, in fact, I've already done some calculations for you before you set off."

Jian hurriedly asked: "Brother Orion Exeor, I don't know what the hexagram is like? Is it good or bad?!"

Orion Exeor sighed softly and said with emotion: "Maybe my way is not enough. I see this matter like looking at flowers in the mist, or looking at the moon in the water."
