After listening to this, Zhang Ermao's bladder sphincter tightened and almost didn't squeeze a pee.

He looked at charlie's expression, as if he had been struck by thunder in horror.

At this moment, he was almost afraid of death in his heart, and couldn't help but wonder: "Master wade is going to do something... The purchase price of this ruined thing is not a piece of eight, he sells 18 million... This... this is not to Slaughter, this is going to be too late..."

Bernard Elnor's expression was like a dog, and he waved his hands irritably and said, "It's all right, I beg you to stop insulting my IQ. You leave my room, and if there is any rubbish, please You take everything away, I don't need it either!"

"No need?" charlie's expression suddenly became cold, and he said with a sneer: "That's really embarrassing, Mr. Elnor, if you don't buy these products from us, you will lose the qualification to participate in this auction. ."

"What?!" Bernard Elnor asked angrily: "I have passed your registration review, and I have paid the registration fee, and I also paid the 6 million room fee. What do you have? Eligibility to cancel my auction qualification?"

charlie said naturally with a look: "Because you didn't distribute the goods!"

"Pot goods?!" Bernard Elnor heard these two words, the whole person has been petrified, and he recovered after a while, and blurted out, "The first time I heard that participating in the auction will have to match Good thing! It's ridiculous!"

charlie smiled and said, "Go to your store to buy a bag and distribute the goods, don't you need to come to us to buy Huichun Dan?"

As he said, he took out his consumption receipt and sneered: "Come on, take a look, go to your store and buy a bag of hundreds of thousands. It is mandatory to allocate one million goods, and the goods are also distributed. Those rubbish that has been unsold for several years and is covered with dust, our boss is also learning now and using it, and fully learning from Mr. Elnor's business strategy."

Bernard Elnor glanced at the shopping list, his face suddenly uglier than eating shit.

Distribution is an unspoken rule established by the luxury goods industry. Bernard Ernault has long been familiar with this unspoken rule, and even earns a lot of money by relying on this unspoken rule.

But he didn't expect that charlie would take this set of anti-generals today.

Moreover, the distribution status shown on this shopping list is indeed too cheating.

A bag, even with six times the price of goods, this is really crazy.

So, he said with a look of embarrassment: "This...this...as far as I know...the normal distribution quota is a little several times higher than the public price. A package of more than 100,000 yuan can be distributed 200,000 yuan. That's enough, and I don't know why one million is stocked here...maybe it's the store's own behavior..."

charlie waved his hand: "You don't have to explain so much. Now our boss only gives you two choices: If you want to participate in the auction of Rejuvenation Pill, you must complete the distribution, otherwise, we will arrange it for you now. After checking out, we will refund you all the fees you paid!"

Bernard Elno hurriedly said: "Only the luxury goods industry has the rules of distribution, and the distribution of goods in the luxury goods industry is also a helpless move. The prices of many things are not speculated by our brands, but by outsiders. Speculators are speculating high, such as watches, Patek Philippe's Nautilus, which had a public price of less than 20,000 Euros ten years ago, but now the circulating price on the market is more than 60,000 Euros, which has doubled several times, and the brand's output is also Limited, so we can only fill the gap between the public price and the actual selling price through distribution. This is a normal situation!"

charlie asked with a smile: "Why, even if a piece of Nautilus with hundreds of thousands of dollars is a hot commodity, it must be distributed. What about our rejuvenation pills? The two hundred top rich can only grab two of them. Isn't it much more sought-after than Nautilus? Then it needs to be equipped with more goods like Nautilus, isn't it justified?"
