

## At School 1451

### Chapter 1451 Half a Year Later

Qiao Shuyi's case quickly spread like wildfire. First, everyone in the capital knew about it, and then a mysterious force spread it to the national news.

A stone caused a thousand ripples. Such a serial murder case brought quite a blow to entire China.

Because of their special status, the Jian Group and the Qiao family were the first to be implicated. The Jian Group's shares plummeted by billions of yuan overnight, and they suffered heavy losses.

At this moment, the Ji Group decisively took action and cut off the operation chain of all the industries under the Jian Group and the Qiao family. Jian Changsheng was mentally and physically exhausted because of this, and he didn't have the mood to fight anymore. The fortress that he had spent many years building collapsed overnight.

Three months later, the Jian Group declared bankruptcy. The Yu family treated the Qiao family coldly. Like a stray dog, all the noble families ostracized and spurned them. After struggling at death's door for a while, they disappeared, and the Qiao family no longer existed in the capital.

Jian Yiyi lost all her endorsements, and they canceled her movie and television drama resources. Because of her mother's vicious incident, Rose Entertainment announced that they would end their contract with Jian Yiyi unconditionally.

The pure and innocent girl in the entertainment circle in the past was just a flash in the pan. She became a street rat that fans hated.

Jian Changsheng sent Jian Yichen abroad to study and temporarily avoided the rumors in the country. However, the truth always came out, and there was no concealing the truth. He couldn't hide this matter at all, but he was a child and couldn't change anything.

His mother's sins were grave, and he could not ask for forgiveness on behalf of those who had died tragically.

Qiao Shuyi could not sleep well in prison every day. Every night, when the lights were switched off, she would see Han Wenjing and Vivian's ghosts floating in front of her, constantly asking her why she wanted to harm them.

Fear coupled with her highly tense nerves made her suffer day after day. Soon, she became skin and bones, and there was a problem with her mental state.

A month later, the court sentenced Qiao Shuyi and Qiao Shuchen to death for intentional murder. They would be executed immediately!

Half a year later...

Baiyun City, Haicheng District, Lijing Villa District.

"Oh no!"

In the room, Ji Haoyu sat on the bed and looked at Jian Ai lying at the side. He blinked in shock.

"What's wrong?" Jian Ai asked in surprise.

"It broke." Ji Haoyu blinked and looked at Jian Ai innocently.

Jian Ai was surprised again and suddenly sat up. "What are you waiting for? Quickly buy me medicine!"

"Oh." Ji Haoyu came back to his senses and quickly grabbed the clothes scattered at the side. "Wait for me. I'll be right back."

"Haoyu." Jian Ai suddenly looked up at him, making Ji Haoyu stunned. Jian Ai stuck out her tongue and licked her lips. She whispered, "Why don't we forget it?"

“Ah?” Ji Haoyu couldn’t help but widen his eyes. “Then... what if you’re pregnant?”

Jian Ai looked at his cute appearance and wanted to laugh. In the end, she held back and said, “It depends on fate. After all, not everyone can break the safety measures. If I’m pregnant, it means that the time has come.”

Regarding pregnancy, Jian Ai did not plan to have a child so early, so she used safety precautions with Ji Haoyu every time.

However, this time, she suddenly thought it through. Since it broke, so be it.

They were already married. It made no difference to her if she gave birth early or later. Moreover, it was Ji Haoyu’s child.

If they welcomed their children because of this accident, it would be fate between them.

Hearing Jian Ai’s words, Ji Haoyu couldn’t help but smile. He pounced forward and imprisoned Jian Ai in his arms. He smiled evilly and said, “Why don’t we do it again? To increase the probability?”

Jian Ai couldn’t help but roll her eyes and push his head away. “Stop joking. Get up quickly. I still have to accompany Mom and Uncle Wu to register their marriage today.”

“Oh, I almost forgot.” Ji Haoyu quickly nodded.

When it was unknown if Wang Yunmei would survive the accident back then, Uncle Wu’s hair turned white overnight. Later, when she was finally saved, Uncle Wu served Wang Yunmei until she was discharged.

This time, Uncle Wu finally moved Wang Yunmei. The two of them had been in a relationship for a while, and they were going to register their marriage.

Just as she was about to go out, Jian Ai received a call from Bai Zhou.

Bai Zhou blurted something on the other end of the phone. Jian Ai's expression changed from calm to shock. In the end, she quickly answered, "I'll rush back immediately."

"What happened?"

Ji Haoyu looked at Jian Ai's expression and couldn't help but ask worriedly.

Jian Ai looked at Ji Haoyu deeply and sighed. "There's an emergency on Bai Zhou's side. I have to go over it immediately. We have to go on at least one such important day. Go in my place!"

"Ah? Are you in such a hurry?" Ji Haoyu was a little surprised. After all, today was a special day.

However, Jian Ai nodded without hesitation. "Of course. Otherwise, would I be absent on such a day?"

Ji Haoyu could only agree. "Then be careful. Call me when you reach the capital."

As he spoke, Ji Haoyu was about to turn around and get into the car when Jian Ai suddenly stopped him. "Haoyu!"

Ji Haoyu paused and turned around. He raised his eyebrows in confusion.

Jian Ai looked at his face and felt conflicted. In the end, she said, "If you find out that I'm hiding something from you in the future, will you forgive me?"

Jian Ai had many secrets that she did not tell Ji Haoyu, but Ji Haoyu knew.

Although he didn't know the exact details, he knew that Jian Ai had something she couldn't tell him. He never asked because he knew that Jian Ai would tell him one day.

Therefore, Ji Haoyu didn't think too much about it and thought that Jian Ai was talking about this. He couldn't help but smile. "I'll never blame you."

Jian Ai smiled. She could not help but love Ji Haoyu.

The two of them went in opposite directions. One went to Baiyun City's Civil Affairs Bureau, and the other went to the airport.

At noon, Jian Ai rushed to Bai Zhou's apartment in the capital.

As soon as she entered, she couldn't wait to ask, "Where's Uncle Ji?"

As soon as she finished speaking, a little girl suddenly rushed out. "Sister Xiao Ai!"

It was Xiao Liuli. The little girl had grown much taller.

The two of them hugged. Bai Zhou said, "The High Priest is taking a shower inside. Sit down first."

After they sat down on the sofa, Jian Ai asked anxiously, "You said on the phone that it's about the twelfth. What is it? Is the twelfth here?"

...

Jian Ai had never seen the person ranked last among the twelve guards. Previously, every time she mentioned him, Bai Zhou would avoid answering.

There were some unknown stories about this person. Bai Zhou had told her before that the time was not ripe, so he could not say it. Now that he suddenly mentioned the matter of the twelfth, what did he mean? Was the time ripe?

When Bai Zhou heard this, he shook his head. "The twelfth isn't here, but it's a long story about him. Sect Master, calm down."

Chapter 1452 Not One of the Twelve Guards Can Be Missed

As she spoke, the High Priest, Ji Yansong, walked out.

Seeing Jian Ai, Ji Yansong still lowered his head respectfully and said, "Sect Master."

"Uncle..." Jian Ai was about to call him Uncle when she suddenly felt that something was wrong. She quickly changed her words. "Dad."

Ji Yansong smiled and nodded gently. "Good child."

She had long informed Ji Yansong about her marriage with Ji Haoyu.

"Sit down and talk." Ji Yansong gestured for Jian Ai to sit down first.

After bringing everyone to sit on the sofa, Bai Zhou said to Jian Ai, "Sect Master, we haven't revealed any news about the twelfth to you before because we couldn't find him either."

"What do you mean?" Jian Ai asked in confusion, "Can't you sense all the members of the ancient sect with your ability? Why can't you find the twelfth?"

"It's not what you think," Bai Zhou explained. "Actually, I found him early on. At that time, he was still a fifteen-year-old child, but later, he was captured by foreign armed organizations. After that, there was no news, so I couldn't sense him."

Jian Ai's eyes widened in shock.

Seeing this, Ji Yansong quickly said, "Don't worry, I've already found him."

It turned out that all these years, Ji Yansong had been looking for the twelfth outside. After helping Jian Ai master the power of blood, he used an excuse to leave because he wanted to continue looking.

Now, he finally found him.

However, the reason Jian Ai was shocked was: "Why was he captured by a foreign organization? Was it because he exposed his uniqueness?"

As expected, Bai Zhou nodded. “The twelfth is called the Thousand-faced Spirit Possession. His mental cultivation technique is to transform into a thousand faces and become everyone he wants to become. Not only does he change his appearance, but even his voice and expression can be completely changed. This ability is very special. After he accidentally exposed himself, someone targeted him and a mysterious organization kidnapped him.”

“Moreover, the High Priest and I suspected from the beginning that this organization was not simple. It belongs to Uganda. Over the years, it should have captured countless ability users and carried out cruel experiments and research.”

“This is something we’ve always been worried about. Be it foreign espers or people with mental cultivation techniques left behind by our ancient sects in China, if they expose their abilities, they’ll be treated as anomalies and even more as research subjects.”

Jian Ai nodded in understanding. Then, she looked at Ji Yansong and asked, “How is the twelfth now? Where is he?”

Ji Yansong said, “I have the base of this organization. Because it’s a secret project, it can’t be exposed. Therefore, the location of the base is quite hidden. It’s on an island in the Black Sea.”

The Black Sea was a dangerous sea area with a large belt with no wind in this land. It was very strange.

In the sea of the Black Sea, there were over a thousand nameless islands. It was undoubtedly the most hidden and safest to choose this place as the base.

It was difficult for Ji Yansong to find that place.

“We have to save him!” Jian Ai said firmly.

Bai Zhou nodded as well. “It’s been many years. Although I can still sense the twelfth’s vital signs, he must have been tortured badly in the base all these years. If we don’t save him, he might die.”

“I told you before that the time was not ripe because I didn’t want to tell you something that had no results. That would only make you worry about nothing. Moreover, your ability hadn’t completely awakened at that time. I was also afraid that you would be in danger if you were rash.”

Ji Yansong said, “It’s different now. We’ve found their location, and you’ve completely grasped the power of blood. Let’s work together to save the twelfth. Not a single one of them can be missing!”

Jian Ai nodded resolutely. “That’s right. We can’t lose a single one of the twelve guards!”

That day, everyone among the twelve guards of the ancient sect received the news that they were gathering. Be it in China or abroad, they came to the capital immediately.

At the same time, Bai Zhou’s funding of the mercenary group over the years was finally useful again. The mercenary group’s six-man team, Irene, Andrew, Louise, Eugene, Robert, and Gale, also came to help.

Ming Zui also brought someone with him. It was the esper who was convinced after fighting him back then and recognized him as his brother—Lei!

There was no time to lose. After everyone gathered in the capital, they set off in three days.

Before leaving, Jian Ai did not see Ji Haoyu but called him.

On the phone, Jian Ai said, “This is a necessary trip. Just wait for me to come back.”

There was still no reason. The tacit understanding between them no longer needed the truth to prove it.

Ji Haoyu answered and said, “I received news that Adolf is dead.”

“Ah?” Jian Ai was shocked. Of course, she was familiar with this name. He was the boss behind one of the renowned killer organizations.

Later, Ji Haoyu’s ‘Blaze’ organization and the joint army formed by Mu Yao and the rest of Country Z destroyed this organization. Ji Haoyu had told her about this before.

However, she knew about Adolf’s name in another way.

This person escaped from that siege and wanted to make a comeback a few years later. To take revenge, he even sent Lei and the rest to China to kidnap Haoxue and forced Ji Haoyu to submit.

Later, he colluded with Prince Qi Ye of Qiusi and accepted the mission to assassinate Bai Zhou. Then, he gathered many ability users from all over the world. Later, Jian Ai sent the twelve guards and Irene’s six-man team to assassinate him, nipping the danger in the bud.

This person could be said to be extremely dangerous. Why did he suddenly die?

“Sister Yao has been tracking his whereabouts for the past few years. He once did unforgivable things to Sister Yao and her sisters. Sister Yao won’t let him off.”

“We finally found him in South Africa a while ago, and he almost ran away again. Fortunately, Sister Yao was fast enough to finish him off on the spot.”

Jian Ai nodded in understanding. She had heard the name Mu Yao from Ji Haoyu more than once.

Ji Haoyu’s tone was usually sloppy. Few names sounded respectful when he said them.

Mu Yao was someone Ji Haoyu respected.

If there was a chance, she had to get to know her.

“Don’t worry and go. I’ll be going to Country Z during this period. Xing Yun and Xing Li have been hiding in Country Z because of Adolf all these years. I’ll pick them up,” Ji Haoyu said.

Jian Ai answered, and the two of them hung up.

Three days later, the group boarded the plane and went to a small country in the east of Europe.

That was the country closest to the Black Sea, and this trip would cause a violent storm in the belt!

#### Chapter 1453 A Sudden Strike

On this day, the sea area of the Black Sea was as calm as usual, like a pool of stagnant water.

The sun was high in the sky, but it could not reflect the black seabed. At a glance, it was like the night sky was hanging upside down. This black sea was as its name suggested. The creatures who could live in this sea area were all kings of the sea.

A thousand nautical miles away from the land was a group of islands. There were dangers everywhere in the belt. Almost no ships would pass by here, let alone traces of human habitation.

Among these islands, there was an extremely hidden secret base. The top of all the houses in the base was filled with green plants. Looking down from the sky, they almost integrated with the colors on the islands, making them extremely difficult to discover.

A small cruise ship that was advancing rapidly suddenly appeared near this island and was approaching the target island bit by bit.

On closer look, another person was floating on the black sea. Three people were flying in the air. It was strange.

These people were Ye Liushang, Yu Wuyuan, Chi Lian, and Irene.

With their height advantage, they could see further and predict dangerous signals in advance.

No one knew what was on that island. Heavy weapons, armed forces, or even nuclear weapons...

Or both.

"We're almost there. Everyone, be careful!"

On the deck of the cruise, Ji Yansong suddenly spoke, and everyone became vigilant.

Bai Zhou also said, "It's indeed here. The aura of the twelfth is getting more obvious."

At this moment, the other party seemed to have discovered them, a group of uninvited guests. This secret base hid the dark side of the world that no one knew about, so they naturally could not see the light.

It was impossible for anyone who knew about this place to leave.

Therefore, when they saw Jian Ai and the rest approaching with an obvious goal, the heavenly lightning launcher on the outer wall of the base fired a tracking bomb without hesitation. This tracking bomb locked onto their cruise ship. Once it was focused, the ship would be destroyed and everyone would die!

However, everyone looked at the rapidly approaching tracking bomb expressionlessly because they knew that this extremely powerful biochemical weapon could not hit them.

Yu Wuyuan, who was flying in the air, raised his finger and muttered, "Tracking Sword!"

As soon as he finished speaking, a sword light appeared in front of Yu Wuyuan. The sword light rushed over and collided with the missile.

Boom—

With a loud bang, the missile exploded in mid-air, raising black smoke in the air.

In the next second, the twelve launchers on the outer wall fired together. The twelve tracking bombs came at them from the distant island like a fairy scattering flowers.

"I'll do it!"

Chi Lian shouted and suddenly stopped in the air. She put her hands together, and golden light shone in her eyes. "Holy Type Six—Respect the Gods and Buddhas!"

With a delicate shout, a huge golden holy Buddha suddenly appeared behind Chi Lian. There were six Buddha hands on each side, exactly twelve hands.

In the next second, the golden light in the Buddha's hands intensified, and twelve beams of holy light shot out.

Boom—

Boom—

Explosions rose and fell, and Chi Lian received all twelve missiles.

The cruise ship did not slow down and was getting closer to the island!

As they approached, the destructive missiles were no longer useful. Otherwise, they would implicate themselves who were on the island.

The person in charge of the base received the news and saw what had happened through the monitor. He couldn't help but say in English in shock, "Ability users are attacking. Activate the defense system!"

Since they could not use the missiles, they switched to guns.

Tap, tap, tap—

Tap, tap, tap—

Bullets filled the sky like raindrops. Irene's silver-white hair danced without wind, and the crystal ball in her hand suddenly emitted a seven-colored light.

Crack! Crack!

Crack! Crack!

Countless mirrors appeared in the air and finally formed a seamless mirror wall in front of them.

The mirror sucked all the bullets into the mirror. Then, the color of the crystal ball in Irene's hand changed. The inhaled bullets flew out of the mirror and poured toward the base.

This was the terrifying thing about the Witch of Mirrors, Irene. She could suck all the attacks into the mirror and return them to you in the same way.

However, when the bullets flew above the base, they were blocked by something transparent. When the bullets hit it, there was a faint electric current.

Yu Wuyuan flew high and saw it. He couldn't help but frown and say, "It's a defense net. They've activated the defense system!"

However, as soon as he finished speaking, a figure suddenly darted out from beside him. When he looked closely, a pair of burning wings grew on the figure's back.

It was Ye Liushang!

Ye Liushang flew to the sky above the base at an extremely fast speed. His handsome face lowered his head slightly and looked down at the base under his feet like he was looking at an ant. His thin lips opened slightly, and he said, "The power of the phoenix—Star Stone Descends!"

As soon as he finished speaking, the wind and clouds in the sky changed. A black spinning dark cloud appeared in the sky with lightning and thunder. In the next second, a huge meteorite quickly swooped down from the dark cloud.

In the blink of an eye, the Star Stone hit the island's protective net. The strong collided, and a powerful pressure exploded in all directions. Sand, rocks, and plants flew everywhere on the island. The scene was exceptionally spectacular.

Boom! The protective net shattered!

At this moment, they had also reached a distance where they could land on the island. The Space and Time Controller, Ming Zui, raised the staff in his hand and muttered, "The power of space and time—Teleport!"

In the next second, everyone on the deck disappeared and appeared on the island!

However, as soon as everyone landed, dense gunshots sounded from the forest around the island. The island was indeed heavily guarded and had sufficient weapons.

Jian Ai quickly said, "Everyone, act according to the plan!"

Everyone echoed in unison when they heard that. Then, they divided into a few teams and ran in different directions!

The scene had already gone out of control. No one had ever invaded this base or even discovered it. Now that they were suddenly attacked, and there was a group of terrifying ability users, the person in charge of the base was caught off guard.

They immediately contacted the outside for reinforcements through the communication system.

However, the signal tower that sent the wireless signal was so striking that Jian Ai and the rest had already formulated a plan.

Through Ming Zui's power of space and time, Lei immediately flashed to the side of the signal tower. Without hesitation, he summoned a bolt of lightning and shattered the signal tower. For a moment, all the communication systems in the base were collectively extinguished, and it completely became a place isolated from the world.

Si Yue, Robert, Louise, Luan Qingyang, and the rest quickly cleaned up the enemies hiding outside the base while the others surged into the base.

Wherever Jian Ai passed, a dazzling blood mist would rise. The people in front of her instantly lost their vitality, but she did not stop walking. She brought Bai Zhou and Zhi Tong, who were behind her, and quickly entered the depths of the base along with the twelfth's aura.

#### Chapter 1454 Battle

Gunshots sounded everywhere, and explosions came wave after wave.

Andrew transformed into a burning man and barged through the enemy forces, leaving behind a sea of fire wherever he went. Because Jian Ai had compelled this base to disappear completely, no one needed to be careful anymore. They used destructive killer moves.

Bolts of lightning struck from the sky, shattering all the houses in the base. The enemy fired with their guns, but facing many of the twelve guards and ability users with strange and powerful abilities, the weapons in their hands were useless.

In the air, Yu Wuyuan and Chi Lian attacked at the same time.

“Sword Form Tianzheng—Ten Thousand Swords Return!”

As soon as he finished speaking, countless sword auras appeared behind Yu Wuyuan and rained down like a rain of swords. Explosions and the cries of the enemy sounded on the ground one after another.

“Holy Light—Seven Stars of Judgment!”

Chi Lian formed a seal with her hand, and a golden wheel flashed behind her. Seven golden holy spears shot out. The power of the holy spears was like a bomb, flattening the houses in the base.

In the base, a secret door suddenly opened on the ground, and numerous fully armed men in black rushed out. There were so many reserve troops in the base.

However, as soon as they rushed out, a huge transparent cover enveloped them.

Ming Zui appeared in front of everyone in a black robe and holding a staff. Seeing this, the group of people quickly raised their guns and fired, but the bullets disappeared into thin air after passing through the transparent cover.

Ming Zui used the power of space and time to send all the bullets to another empty place.

Then, Ming Zui’s lips moved slightly, and he whispered, “The power of space and time—Slaughterhouse!”

As soon as he finished speaking, the oxygen in the transparent cover was instantly sucked out. Everyone inside stopped breathing, and their faces turned red. They suffocated to death!

The inside of the base was like purgatory, but pink petals filled the sky outside the base. However, these petals looked beautiful, but they were secretly hiding infinite killing intent.

Every petal was a sharp blade that cut the throats of the enemies outside the base.

On the other side, poisonous smoke rose everywhere. Before the enemies hiding in the dark could see Xiao Zhen, they were poisoned and died.

With just over ten people, they had unilaterally slaughtered thousands of stationed troops in the base. In front of absolute strength, ordinary humans were so insignificant.

“Sir, we can’t hold on anymore!”

In the control room, the subordinate said with a trembling tone.

The officer was a Westerner and the supreme leader of the entire base.

He gritted his teeth and looked at the tragic scene in the surveillance cameras. He immediately ordered, “Release those people!”

“But...” The subordinate was shocked and couldn’t help but remind him, “Those people are the results of our hard work over the years. If they die, wouldn’t all our previous efforts be in vain?!”

“We have no choice. We can only let them hold on for us for a while,” the officer said with a determined expression. “Bring all the research information and doctors and escape from the sea from the back!”

The information and these researchers were the most important. As long as there was life, there was hope. They could not protect this base!

The subordinate could only listen!

A few minutes later, a deafening alarm suddenly sounded in the entire base. The alarm was like a signal. When all the surviving enemy soldiers heard this alarm, they opened the secret door and escaped back to the ground.

Everyone looked at each other in confusion. Were they abandoning the island and running away?

Before anyone could think about it, a thick metal door suddenly opened slowly in the depths of the base. Then, three people walked out.

One of them noticed Chi Lian floating in the sky a few hundred meters away. That person suddenly jumped and instantly appeared in front of Chi Lian.

So fast!

“Be careful!”

Seeing this, Yu Wuyuan quickly reminded her. The person had already been kicked out. Chi Lian reacted and subconsciously reached out to block it. Unexpectedly, the other party’s leg strength was shocking, and he kicked Chi Lian from the sky to the ground.

Boom—

With a loud bang, Chi Lian fell heavily to the ground, creating a huge pit!

What powerful leg strength. He could jump from the ground a few hundred meters away to Chi Lian in the air. He must have infused all his strength into his leg and used his leg to exert strength.

Yu Wuyuan looked at this person. It was a black man like Andrew. However, this person’s face was dull and emotionless, like an emotionless robot.

It seemed that the base had used special experiments to modify the combat tools. They no longer had human minds and emotions.

“Damn, it hurts!”

Chi Lian crawled up from the ground and looked at the black man in front of her. She twisted her painful neck. In the next second, golden light shone in her eyes as she shouted, “Holy power—Furious Buddha Lotus!”

It seemed that Chi Lian was angry!

A huge golden lotus suddenly bloomed under the black man’s feet. In an instant, a Buddhist light soared into the sky and enveloped the black man. A huge airflow swept the other party’s body, and its lethality was world-destroying.

Seeing this, Yu Wuyuan smiled. Women were angry creatures.

With a casual wave of his hand, seven white sword auras appeared in front of Yu Wuyuan. “Chi Lian, I’ll help you!”

As soon as he finished speaking, the sword aura tore through the air and instantly fused into the golden light of the Buddha lotus. In an instant, the man was dead!

On the other side, there was a loud bang. Duo’s Cup of Transcendence had shattered!

The person in front of him had silver skin that was incomparably hard and had immense strength. When Duo used the Cup of Transcendence to trap him, he forcefully shattered the Cup of Transcendence from the inside.

How powerful. Duo frowned and knew that this person had been modified to be extremely special.

He did not have any other special abilities, but this person was quite troublesome because he was difficult to die!

“The power of repose—Hell’s Chains!”

Duo attacked again. Countless chains wrapped in black smoke suddenly darted out of the ground and quickly intertwined, instantly trapping the man with silver skin.

However, in the next second, the person exerted strength and broke the Hell’s Chains!

Then, the person rushed over at an extremely fast speed. With a wave of his hand, he punched through the air with a force that could suppress a thousand kilograms.

Just as Duo was about to receive this punch, a gust of wind suddenly flashed beside him in the next second. Then, a fist was faster and more ruthless than the other party’s, punching the other party’s stomach.

...

The silver-skin man instantly flew backward twenty to thirty meters and smashed through the wall of a house in the distance.

“Uncle Duo, are you okay?”

It was Si Yue!

After cultivating beside Ye Liushang, he had already mastered the power of darkness. His strength increased rapidly. The speed and strength of that attack just now were enough to show how terrifying his current strength was.

“I’m fine. This person is a little troublesome. I can’t kill him with just my fists!” Duo said.

Chapter 1455 Sinking

When Si Yue heard this, he suddenly smiled evilly and said arrogantly, “That depends on whose fist it is!”

“Si Yue, I’ll help you!” At this moment, Chi Yang appeared behind Si Yue.

The power of darkness, known for its speed and strength, was the most complementary to Chi Yang’s auxiliary mental cultivation techniques. The effect of the two of them working together was great.

“Then I’ll leave it to Brother Chi Yang!”

Chi Yang opened his hands, and a green light flashed across his eyes. “Tide Life Technique—the source of strength!”

“Tide Life Technique—the source of speed!”

Green airflow instantly wrapped around Si Yue’s body. Powerful genuine energy was infused into his entire body, making him feel extremely smooth.

As soon as the silver-skin man crawled out of the ruins, Si Yue moved and instantly disappeared from the spot.

In the next second, countless fists landed on the silver-skin man like raindrops. With a bang, Si Yue forcefully punched countless metal pits in the silver-skin man's armor-like skin.

What abnormal strength!

In the end, Si Yue suddenly gathered his strength and punched the person's head. A shocking scene happened. The person's head flew off. Si Yue's punch directly punched the other party's head off!

Seeing this, everyone widened their eyes in shock. It was obvious that they were shocked by the horror of Si Yue's attack.

In the air, Ye Liushang smiled in satisfaction.

On the other side, Jian Ai, Bai Zhou, and Zhi Tong rushed into the deepest part of the base. When the sealed door opened, the scene in front of her stunned her.

Cage after cage hung in the air like pigeon cages. In each cage, there was a person imprisoned. It was obvious that these people were all ability users. There were dozens of them.

However, before they could take the next step, a sparse sound suddenly came from behind them. When they turned around, they saw branches that filled the sky quickly extending over.

None of them could control trees, so they must be from the other party.

Jian Ai's eyes turned cold when she saw this. She pulled Bai Zhou, who had no combat ability, behind her and said, "Go and look for the twelfth. Leave this to me!"

Bai Zhou and Zhi Tong looked at each other and nodded. "Sect Master, be careful!"

With that, the two of them rushed into the imprisonment room. In the next second, Jian Ai instantly transformed into a blood mist and rushed towards the spreading tree.

In an instant, the aisle turned red. Jian Ai's body was nowhere to be seen, but an illusory shout could be heard. "The power of blood—Hunting Domain!"

A huge blood-colored rose exploded, and a bloody smell surged at the scene. The tree instantly became broken limbs and bones. Its true body appeared, and it suddenly hit the wall and bounced back to the ground.

Jian Ai looked closely and saw a blond youth with blue eyes. However, the youth's expression was dull, and he didn't even know pain. He stood up and opened his hand to Jian Ai.

For a moment, countless plants spread out behind him again. They bared their fangs and brandished their claws like a huge net that covered the sky as they wrapped around Jian Ai.

Seeing this, a red light appeared in Jian Ai's eyes and she transformed into a blood mist again. "The power of blood—Infinite Paramita!"

At this moment, everything suddenly froze. A large blood-red spider lily formed under the youth's feet, but he could no longer feel the beauty of all of this. In an instant, his body exploded into a pool of blood and mud.

Jian Ai revealed her true body. Seeing this scene of flesh and blood flying everywhere, she couldn't help but frown. She naturally knew the brutality of the power of blood, but this was the first time she had used it to kill someone. She wasn't used to it.

"Twelfth!"

Bai Zhou's voice suddenly came from the imprisonment room. When Jian Ai heard this, she knew he had found him and quickly rushed in.

In a pigeon cage, a youth was curled up in the corner and looking down.

As if because he had been imprisoned for a long time, he could not tell if it was reality or a dream. The youth stared at Bai Zhou for a long time before recognizing him.

His dry lips moved slightly, and he asked tentatively, “Brother... Brother Bai Zhou?”

Bai Zhou nodded agitatedly. “It’s me. It’s me. The Sect Master brought all the twelve guards to save you!”

Jian Ai rushed up to him and looked up. She met the twelfth’s eyes, which were gradually glowing with humanity. He looked very young. Even if he was already in his twenties, perhaps because they had imprisoned him all year round, his appearance was still in his teens. He had changed little, and his body had not even developed much.

The last person among the twelve guards of the ancient sect was ranked twelfth. He was the Thousand-faced Spirit Possession—Mu Li.

Jian Ai shattered the pigeon cage that imprisoned Mu Li. His body fell from the sky, and Zhi Tong quickly went forward to catch him.

“Can you walk?” Bai Zhou’s heart ached when he saw him. His tone softened.

Mu Li nodded and looked at Jian Ai with a complicated expression as if he had a lot to say. Jian Ai smiled. “You’ve suffered. We’re late. Let’s talk outside!”

Mu Li answered and suddenly said, “Sect Master, save them too.”

Jian Ai paused and looked at the people in the other pigeon cages. These people were all ability users who had been captured. Perhaps before this, they were also ordinary people who lived in every corner of society.

This island would be razed to the ground soon. If they were abandoned, they would disappear with this island.

Jian Ai thought for a moment and nodded in agreement.

“You guys go first. Leave this to me!” Ye Liushang understood what Jian Ai meant and couldn’t help but say.

When everyone heard this, they got on the boat one after another. When the boat drove out of a safe distance, Ye Liushang activated his phoenix divine power. The weather on the Black Sea changed, and the island shook. Not long after, it slowly sank into the sea.

Jian Ai wanted this island to disappear completely.

Everyone watched from afar and sighed.
