

Attributes 1051

Chapter 1051

When the little stool left the Tiger King's territory, Gu Shaoyang followed him. However, when Gu Shaoyang saw the Tiger King's side roaring, he was worried that it would attract the wolves.

Although Master Gu's worries are a bit clumsy, his worries are indeed very reasonable.

They saw wolves hunting in the jungle at night, but they heard the tiger king roaring very close to them.

They seemed to be chasing something away, and they were worried that their wolves had mistakenly entered the Tiger King's territory and made the tigers unhappy, so they hurriedly ran in that direction.

When they arrived, they didn't find anything, they just smelled something that didn't belong to their wolf pack.

After smelling this scent, they understood why the tiger kept roaring at them. It should be that this unknown thing was driven here from them.

And after that unknown thing entered their territory, the wolves would not let it go easily.

I saw them in groups, constantly sniffing the ground with their noses. Even the newly born wolf cub was required by his mother to train him to learn to smell.

Just like that, the little stool had just escaped from the tiger's mouth, and now he was sent to the wolves again, and Gu Shaoyang was just hiding and watching quietly in the tree from beginning to end.

Because the reason why he wanted to lure the little stool out of the inn was to kill him, whether he was eaten by a tiger or a pack of wolves.

Or, being killed by A Xia in the fight with A Xia is the best outcome for Gu Shaoyang, so when he is in danger, he will only be a bystander.

When many wolves were looking for a small stool, Gu Shaoyang followed them not far or near.

Because there were a large number of wolves, and Little Stool was alone, the wolves quickly discovered his route.

Then they immediately set off in groups in the direction of the small stool, while some of the wolves went to spread the news and prepare to attract more wolves.

When many wolves had already set their sights on the small stool, he himself had not noticed the danger coming. Now he was just running towards where Axia was.

The wolves were also approaching step by step in the direction of Axia under his guidance.

Finally, when the stool was about to reach Axia's place, he suddenly noticed movement behind him.

However, when he found a pack of wolves following him, he did not immediately run away madly, because he knew that wolves live in groups. animal.

So once he runs away quickly, there will definitely be groups of wolves rushing towards him immediately, as long as he maintains the same speed as before for the time being.

Then the wolves will keep a certain distance from him accordingly, and he can also use the wolves to force Axia out of the cliff.

As long as Axia can attract the attention of the wolves, his danger will be greatly reduced. At the same time, he can also let the wolves attack him, thereby weakening his combat effectiveness.

In this way, if the wolf pack's skills are strong, then he can be a bystander and watch the battle without having to personally participate in the fight with Axia.

The idea of the small stool was perfect, and he implemented it according to the ideas he had already planned in his heart.

I saw that when he jumped off the cliff, the wolves did not jump down with him, but took a detour and went down the mountain through a rugged path.

After going down the mountain, they didn't find the little stool that had just jumped down. Just when they were wondering, the little stool hiding in the dark threw stones at the wolves who were looking for him below, as if to provoke him.

Soon, the wolves were angered by the stones that the stool kept throwing down, but their claws could not climb.

Therefore, it was very difficult for them to catch the little stool hanging in mid-air. Seeing their helplessness, the little stool was even more provocative.

Not only did he throw stones at them, he even started sleeping in mid-air, as if he was ignoring them.

When the wolves and the little stool were competing with each other, Axia, who had been hiding in the cave before, was also awakened.

I saw him quietly sticking his head out to check, but because the place where the small stool was was blocked by trees, Axia didn't see him.

He only saw a large group of wolves under the cliff, circling in the direction where he was, and some wolves were trying to jump up step by step.

When Axia realized that the situation he was in was dangerous, he immediately stored him in the cave and threw some of his food in an attempt to lure the wolves away.

But Axia didn't know that the more he did this, the more the wolves wanted to go up, because they found that as long as they kept moaning, food would fall from the top, and there seemed to be another thing on top.

This is all meat for them, and the wolves are in a state of hunger.

Chapter 1052

At this time, they need to eat continuously to fill their stomachs and obtain the energy necessary for their bodies.

And because of Axia's feeding, the little stool also discovered his location.

So the little stool moved quietly towards where A Xia was. The closer he got to where A Xia was, the more careful he became, for fear of being discovered by him.

Finally, when the small stool approached the cave where A-Xia was, he immediately turned over and quickly entered the cave, and then came behind A-Xia.

Just when Little Stool was about to kick Axia Zhili out of the hole and let him go directly to the cliff to feed the wolves, he suddenly sensed the danger coming.

So he turned around and hid, and then walked a little further into the cave, and as he progressed, he took a defensive posture and prepared to fight.

The little stool didn't expect that Axia would suddenly notice it, so he almost fell out of the cave due to the force of inertia.

Fortunately, he reacted very quickly and grabbed the rattan on the side. Then he used the inertia of the swing to swing himself back from the outside.

And when he entered the cave, A-Xia was already using weapons to attack him, all of which gave Little Stool too little time to react.

So at the beginning, he was stabbed by Axia's long sword. Then, as Axia pulled out the sword in his hand, the blood from Little Stool's body quickly spurting out.

Immediately a smell of blood filled the entire cave, and the effect of the wind spread outside the cave.

The wolves below and above the cliff also smelled the scent, and when they smelled the scent, they became even more enthusiastic.

He also acted more quickly when he wanted to go up, and Gu Shaoyang, who was watching the battle from the sidelines, also smelled the strong smell of blood.

However, he did not show up when he smelled the blood, and quietly helped the wolves in secret, helping them quickly enter the cave.

Because only when he entered the cave and participated in the battle between Axia and Xiaostool, he could accelerate their fighting power faster and consume their physical strength.

Only in this way can they finally lose their physical strength and die, thus achieving his goal.

In order to allow the wolves to go up faster, Gu Shaoyang grabbed a leaf from the tree and flew directly towards the loose stone.

In an instant, the loose stone was hit by the leaves thrown by Gu Shaoyang, and the stone also slipped down and accumulated to a certain height, allowing the wolves to climb up.

When the wolves saw that they could climb up the cave as long as they had enough height to support them, they couldn't help but look for large piles of stones.

Not long after, the wolves piled up a stone ladder, and then they climbed up using the stone ladder.

Soon they successfully reached the top, and some of the wolves who were thinking of other methods on the side changed directions and headed towards where they were after seeing that their method was successful.

So faster, the wolves entered the cave in groups. At the beginning, when only a few wolves entered, Xiaostool and Axia could still cope with it.

But as the number of wolves increased, they were forced to the nearest good part of the cave. Now they had no place to escape if they wanted to escape, and there was no way forward when they retreated.

So for a while they had no choice but to fight with the wolves head-on. At first they would have tricked each other, but now they were unable to escape.

Too busy to take care of himself, he has no ability to continue to create difficulties for the other party.

Especially since the two of them were carrying loads upstairs, the wolves were very eager for their bodies and wanted to eat them right away.

And in the dark cave, the eyes of the many wolves formed in the darkness are like the eyes of a pair of demons, which is very scary.

At this moment, Gu Shaoyang, who was hiding in the tree outside, saw that the wolves were all moving up and he was no longer in the woods outside. Then he moved to change positions and came to a place where the pair could see the cave.

In this perfect position to watch the battle, Gu Shaoyang felt sleepy, because now it was almost impossible for Xiao Shizi and A Xia to escape from the wolves, unless they had some precious and abnormal magic weapon in their bodies.

However, this seems impossible to Gu Shaoyang, because Gu Shaoyang knows very well that there is something about Little Stool and Axia.

So now in the cave, the two of them were bitten by evil wolves several times while walking. In the end, they could only resist desperately, while Gu Shaoyang watched from the tree opposite the cave.

When they thought that Xiao Shizi and Axia were about to be wiped out by the wolves, Xiao Shizi and Axia jumped out of the cave without knowing what method they used.

He jumped directly over the wolves and jumped down. All the wolves capable of fighting entered the cave, and the remaining ones outside were little milk wolves.

There was no threat to Little Stool and Axia at all, so they jumped down and landed safely.

Chapter 1053

When Gu Shaoyang saw them landing safely, he immediately frowned. Then Gu Shaoyang quietly followed them to the foot of the mountain to see what they were going to do.

I saw that after Xiao Shizi and Axia broke away from the wolf pack and flew below the cliff, Xiaoshi Zi and Axia immediately ran away in one direction.

Originally, A-Xia was running towards the east, but when he took the stool, he was running towards the west.

However, when Little Stool realized that he and A-Xia were going in different directions, he immediately changed directions and followed A-Xia closely.

After Axia discovered that the little stool had been following him, he couldn't help feeling a little panicked.

Because behind them there is a pack of unwilling wolves, and now Little Stool is following closely behind him, and looking at Little Stool's appearance, they are bound to have a life-and-death fight with him today.

This would put him in great danger, and Gu Shaoyang, who was following them not far or near, also discovered the idea of the small stool, so he felt a little relieved.

At least he knew that Xiao Shizi didn't want to give up, so he didn't have to do anything to deal with the two of them, he just had to watch them kill each other.

In this way, as Axia ran ahead, Xiaozi chased behind him, and the wolves also chased behind them, and behind them there was Gu Shaoyang who they didn't know.

But Axia kept running and soon ran out of the wolf pack's territory. The wolves saw that the front was not their territory and did not dare to invade at will.

However, although Axia got rid of the wolves, she still couldn't get rid of the little stool. The little stool was still chasing behind Axia.

Moreover, he was about to catch up with him soon, and in the hands of Little Stool, he had already prepared his weapon, ready to kill A-Xia with a knife when he was about to catch up!

And Axia also discovered the idea of the small stool, so when the distance between him and the small stool was almost close, Axia suddenly stopped.

The moment he turned around, he also took out his weapon and met Little Stool with a knife. Little Stool was unable to react for a moment and was stabbed by Axia's long sword.

Although the long sword held by the small stool towards A Xia also hurt him, it was only a physical injury and had little impact on A Xia.

But now the little stool was directly stabbed in the abdomen by Axia, which was somewhat fatal to him!

However, in order to persevere and win the final victory, Xiao Shizi took a few steps forward from his long sword, and the long sword in Axia's hand went deeper.

In the end, it penetrated his entire body, and he took advantage of the opportunity to pick up the long sword in his hand and pointed it directly at Axia's neck, and then killed Axia quickly and accurately with one blow.

After the small stool dealt with Axia, he immediately relaxed and hung to the ground. However, he did not dare to lie down because there was a Yibing long sword inserted in his body.

So if he lies down, the long sword will move inside his body again. If he leans over, the long sword will penetrate deep again, so now he is attacked from both sides and unable to move.

Gu Shaoyang saw in the dark that Little Stool had dealt with A Xia, and after A Xia was indeed lifeless, he slowly walked out from behind Little Stool.

When he heard the footsteps behind him, Xiaozi immediately stood up from the ground with great vigilance, and the long sword supporting his body was pointed at the person behind him.

And when Xiao Shizi saw that the person appearing behind him was Gu Shaoyang, his face was filled with excitement and hatred that could not be concealed.

When Gu Shaoyang saw him like this, he knew that Axia must have said something to him before he died, so he looked at him like this now.

But now A-Xia is dead, and the little stool is no different from a dead person to him, so he is not afraid at all

"how? Are you excited to see me?"Gu Shaoyang joked coldly. To him, the little stool was just someone who had been monitoring him and the boy in white, and they all tried to kill them.

But this society has always been cruel, and the law of the jungle is strong. In addition, Gu Shaoyang has always acted according to the concept of "I will not offend others unless they offend me", so he never provokes others.

Similarly, if others provoke him, then he is not easy to provoke, and he will never let them off easily.

Axia, Jiuer, and the shopkeeper, the three of them are the best examples, and now Little Stool has to go down and accompany them.

"you! It's you! You are the murderer of my ninth brother!"The little stool was very angry when he saw Gu Shaoyang's calm look. He staggered forward and wanted to attack Gu Shaoyang.

But now that his physical condition can't even let him take two more steps, he can't breathe. How can he attack Gu Shaoyang? ?

So Gu Shaoyang just stood aside and looked at the small stool indifferently, as if waiting for him to die naturally, and as if he wanted to hear what more forgotten words he could say.

Chapter 1054

In this way, Gu Shaoyang neither advanced nor retreated, just stood there obediently, while the small stool also staggered forward, but it moved very slowly.

Looking at the slow-moving little stool, he was too excited, so the blood from the wound continued to flow out. His face became paler and paler, and even the pace of walking forward became more and more difficult.

So Gu Shaoyang could only shake his head helplessly, because now he had seen the death of the little stool.

The little stool himself seemed to see the God of Death waving at him, and Gu Shaoyang standing in front of him was the God of Death.

Seeing that the stool was getting worse and worse, Gu Shaoyang stopped standing where he was, because he no longer needed to deal with the stool.

In his current situation, he would die of excessive blood loss in less than half an hour, and there was no one nearby. Even if there was one, it would be powerless for Little Stool to save his life.

He was in a state of certain death, so Gu Shaoyang dared to leave so confidently.

The little stool looked at Gu Shaoyang's leaving figure and felt even more anxious. The more anxious he was to act, the more painful it was. The little stool, which was already trembling all over, finally fell to the ground due to difficulty in moving.

The long sword inserted in his abdomen penetrated directly and made a splash inside his body.

Although the little stool can no longer feel the pain, the passing of life makes him feel scared.

So when Little Stool's life completely passed away, there was only fear in his eyes.

After staying away from the small stool, Gu Shaoyang returned directly to the inn. The sky was still gray at this time and everyone was still asleep.

Therefore, Gu Shaoyang went straight back to the room, just waiting to perform another scene after dawn, then his obstacle would be removed.

In the early morning of the next day, Gu Shaoyang got up at the time discussed with everyone the night before, and after finishing packing, he was ready to set off.

But when Gu Shaoyang was about to call everyone to set off, one of the people taking care of the small stool suddenly reported

"Oh no! Oh no! The stool is missing!"

When someone reported that the small stool was missing, one of the people assigned to get the treasure also discovered that the treasure they put on the table yesterday was also missing!

"The little stool disappeared together with the treasure. Could it be that he took the treasure to find Axia?"

One of them made a bold guess, while another person who was a bit gossipy said: "I heard that this Axia was the one who killed Jiuer, and Jiuer and Xiaostool have a very good relationship."

"So is it because Little Stool heard our conversation yesterday that he secretly took the treasure to take revenge while we were all resting?"

As for this person's guess, the others all agreed, and even Gu Shaoyang pretended to be sure that what he said was very right.

"right! It should be what you said! I also heard about what happened between Axia and Xiao Shizi, but since Xiao Shizi went to take revenge, why didn't he come back all night?"

Gu Shaoyang raised the question, and everyone also thought along Gu Shaoyang's train of thought and made guesses.

"It couldn't be that the little stool was killed by Axia, right?"

"wrong! wrong! I heard that Axia was seriously injured and his cultivation level has not recovered yet! And Little Stool only lost one cultivation level, and his own cultivation level was very high, so how could he be killed by A-Xia!"

"According to what you said, how is it possible that the little stool hasn't come back yet? Could it be that he was seriously injured again in the fight with Axia? Where is he waiting for us to save him now?"

Listening to their speculations, Gu Shaoyang remained silent from beginning to end, looking like he was thinking, and finally he proposed

"Since everyone's guesses are different, we might as well go and see for ourselves, so that we can know whether Axia and Xiaostool are dead or alive now, and we can also give an explanation to the organization."

Gu Shaoyang said very uncertainly, and everyone said yes after hearing this, so they set off in a grand way, leaving the inn to Xiaoba alone.

In the room, the man in white clothes When the young man heard their discussion, he had roughly guessed that Xiaoshizi and Axia probably no longer existed in this world. On the other side, as Gu Shaoyang and his party set off towards the junction of the north and the south, they discovered that there were many They were very careful when walking.

So they were not targeted by tigers, but during the search process they found that many tiger footprints were pointing in the same direction, so they said They set out following the footprints.

Following the footprints, they came to the territory of the wolves. At the junction of the territory of the wolves and the territory of the tigers, they also found many dense footprints.

Moreover, a sharp-eyed person in the team also discovered a A lot of people's footprints!

With their familiarity with the small stool.

Chapter 1055

The person who took care of the stool could tell at a glance that the human footprints belonged to the stool.

"I am very sure that this footprint belongs to Little Stool. It seems that the wolf pack and the tiger pack are chasing the same person."

When they realized this, their hearts couldn't help but tremble, because they didn't know whether the little stool had been attacked.

Although the little stool had lost half of its cultivation, it was still good, but they had to face so many people. It is still very difficult for wolves and tigers.

Especially the wounds on his body are not completely healed yet. If he is really bitten, then he will escape death, and there is no need to talk about seeking revenge from Axia!

"It seems that the current situation is not very good!"Gu Shaoyang pretended to be very worried, and the pace of looking for a small stool became faster and faster.

Everyone followed Gu Shaoyang, followed the footprints of the wolves, and finally came to a cliff.

And here, they were Before I even got close, I smelled a very strong smell of blood.

"Oh my God! The smell of blood is too strong! A small stool, I'm afraid!"

Now everyone's guesses are unanimous, and Gu Shaoyang also holds the same opinion as them, but he still feels that he has to wait until he finds the small stool or Axia's body before he can make a final conclusion.

Everything they are discussing now is nothing. It was all their own inner speculation.

In this way, Gu Shaoyang continued to lead them to search, and they came to the cave. Inside the cave, they found a lot of blood stains, but beside the blood stains, there were also many wolf corpses lying there..

And the blood has solidified on their bodies, and some parts of their bodies have been mutilated. It seems that Axia or Xiaoshi killed the wolves that besieged them. The remaining wolves directly attacked their companions because of hunger. That's why their bodies were mutilated.

Gu Shaoyang and others who didn't see Axia and the stool here didn't stay too long. They continued to search for the blood stains left behind.

And they found that there were two The blood stain was the closest and farthest from the cave. Behind the blood stain were more footprints of wolves.

It looked like they were being hunted by wolves, so Gu Shaoyang and others followed the trail again. They searched for the bloodstains, and after they continued to search based on clues, they finally found Axia and Xiaostool based on the clues of bloodstains.

However, when they found Axia and Xiaostool, the two of them had already There was no breath of life, and their bodies were covered with a layer of dust. It looked like they had died the night before.

"It seems that Little Stool successfully avenged Jiuer, but he himself also died because of it."

The person responsible for taking care of the little stool felt a little sad. He stepped forward and cast a spell to subdue the corpse of the little stool, and eventually it formed a small bead.

Then Gu Shaoyang also subdued Axia's body and gave it to another person for safekeeping.

"Okay, now that our mission has been completed by the little stool, and the shopkeeper has been subdued, it's time for us to go back and resume our lives."

After finally handling the matter, Gu Shaoyang proposed to go back. There was not much expression on his face from beginning to end.

But the people who followed him were in a very heavy mood, and at the same time they secretly decided in their hearts that no matter what happened, They will never take action against people from the same organization.

"Let's go, let's go back. I'll stay at the inn for the last night today, and then I'll go back."After Gu Shaoyang finished speaking, he took the lead and took the lead, and the team members followed immediately.

When they returned to the inn, they each returned to their own rooms. When Xiaoba asked them, they didn't answer anything. He remained silent.

Seeing them like this and not seeing the little stool, he could probably guess the result.

In the room upstairs...

After Gu Shaoyang returned to the room, he went directly to the room of the boy in white, and the boy in white The young man seemed to have expected his return, so he was already sitting on the table and making tea.

"The trouble is solved."As soon as Gu Shaoyang entered the room, the boy in white said with certainty, and Gu Shaoyang just answered in a muffled voice, and then sat down opposite him.

"When to go back?"The boy in white and Gu Shaoyang sat quietly for a while, and then the boy in white took the initiative to ask, and Gu Shaoyang raised his head and answered.

"Leave tomorrow."

After receiving the answer, the young man in white was surprised, but the surprise on his face quickly disappeared. Although he was surprised by Gu Shaoyang's answer, he was not surprised.

"Everything has been taken care of, are you sure everything is correct?"Out of concern, the young man in white asked

"Don't worry, I've already taken care of everything that needs to be done, but it's you."

After saying that, Gu Shaoyang looked at the boy in white with some worry in his eyes, because he would be leaving early tomorrow morning.

Chapter 1056

And after he leaves, he will be the only one left here. When Gu Shaoyang returns to the organization, he will definitely report it to the organization and ask someone from within the organization to come and take over the inn.

At that time, the young man in white who is now in the inn will be more dangerous than when the shopkeeper was in the inn.

Because the new manager will definitely attack him for merit, but the boy in white cannot attack easily.

So this means that he can only be beaten passively and dare not say a word, otherwise it will only be worse.

Gu Shaoyang also told the boy in white the worst outcome, but he just smiled faintly.

Then he nodded firmly towards Gu Shaoyang:"Don't worry, I have already considered all the results myself."

"Since someone wants to harm me, then I will cooperate with him and be appropriately forbearing. I believe it will be helpful to me in the future. After all, a man can bend and stretch!"

After experiencing these things, the young man in white has already seen through his heart. The airs of those young masters in the past have long since disappeared in the struggle for survival.

Now, in his body, there is a bit more accumulation. He He is also more sensible than his peers.

And Gu Shaoyang felt a little relieved when he saw that he could understand so clearly. Otherwise, if the boy in white couldn't help but take action, both of them might be exposed.

"Since you understand it yourself, I won't say much, but you still have to be careful. Before I come back, if someone makes things difficult for you and endangers your life"

"When you can't help but want to fight back, just smash the ball. Then I will know it immediately and think of specific countermeasures."

Say, Gu Shaoyang took out a small ball from his palm and put it into the hand of the boy in white. He also accepted the small ball and nodded heavily to Gu Shaoyang. In this way, Gu Shaoyang returned to his own room. , but the boy in white did not rest after Gu Shaoyang left. Instead, he sat cross-legged on the bed and practiced.

During the days when Gu Shaoyang left, he kept practicing whenever he had nothing to do. In a short period of time, his physical fitness improved , and his cultivation level has also been greatly improved.

This is a very good thing for him. After tasting the benefits of diligent practice, the boy in white has stepped up his practice and has to eat and drink every day. He practiced sleeplessly.

However, because Xiaoba often knocked on his door, he was always disturbed, so he could only change the time of practice to the evening.

As time passed quickly, Gu Shaoyang and The people he brought out from the spirit hunting organization gradually woke up from their dreams. Today they will go back to organize a recovery.

"okay! After everyone has finished packing, hurry up and set off. Don't waste time."Gu Shaoyang stood at the front of the crowd and looked at everyone and said.

And everyone reluctantly followed Gu Shaoyang and left. They came here not long ago, but this was the first person they had completed since joining the spirit hunting organization. Same.

It also has special meaning for themselves, so it is worth remembering.

For Gu Shaoyang, this is just a part of his life. Life is still very long, and there is no need to dwell on the small things in front of him..

On the way back to the Black Cave, their speed was much faster this time. Before, it was because there was a small stool that was holding them back. But now that there is no small stool, their speed has increased rapidly. So they only used In one day, they returned to the spirit hunting organization, and everyone except Gu Shaoyang returned to their rooms to rest after returning to the spirit hunting organization.

Only Gu Shaoyang, because he was the leader of the team, so he still He couldn't rest. He had to report the situation to the old doctor before he could rest.

In this way, Gu Shaoyang came to the old doctor's pharmacy, and just like before, this time the old doctor was still not in the room.

So Gu Shaoyang could only stay alone. Wandering around his room, this time there were more prescriptions for him on the old doctor's medicine board. It seemed that he was very busy. So

Gu Shaoyang was also idle and went straight to help the old doctor.

So when When the old doctor came back from outside with the medicine box, what he saw was Gu Shaoyang taking the medicine box he had written down and filling out the medicine one by one.

And he always got it wrong, with a 100% accuracy rate!

"Ahem...are you back so soon? Mission accomplished?"The old doctor saw that Gu Shaoyang was too serious and did not notice his arrival, so he gave a warning. In fact, Gu Shaoyang had already noticed the old doctor's approach, but he deliberately ignored it. Although

Gu Shaoyang joined the spirit hunting organization for a short time, But he can also feel very strongly the old doctor's status here, and if he can please the old doctor, then he will be here.

Chapter 1057

I can do whatever I want, and I can do things without restrictions.

If he can please the old doctor, then the old doctor will definitely do his best to satisfy him.

This is a good thing for Gu Shaoyang, and pleasing the old doctor is a piece of cake for him, so such a thing must be done!

And after he did this, he really got the appreciation of the old doctor, which showed that his guess was correct and his approach was also correct.

"You must be tired after working for so long, so just leave me to do it later."

The old doctor waved to Gu Shaoyang and motioned for him to come over, but he shook his head and refused.

"I'm not tired. I'll report the situation to you while taking medicine. This way I can help you and complete my work."

After that, Gu Shaoyang began to report, but the old doctor was worried that he would divide the wrong medicinal materials because of his dual focus, so he kept staring at his hands.

After observing for a while, the old doctor found that Gu Shaoyang was not wrong at all. Then I relaxed and listened carefully to his report.

Gu Shaoyang summarized everything in detail, took care of all the details, and briefly and clearly explained what he had led the team to experience.

And When the old doctor heard about his strong thinking ability and his strong decision-making power, his favorable impression of him could not help but rise sharply.

In the old doctor's heart, he even wanted to introduce him to higher-level leaders.

But he He also considered that after all, Gu Shaoyang had just joined the soul hunting organization, and it was really not appropriate to be promoted too quickly, as this could easily lead to hatred from others.

Therefore, the old doctor's thoughts were temporarily suppressed and hid in his heart.

"Okay, I will report and arrange the people you said about sending people to manage the inn. You have been on the road for a day, so you should go and rest quickly."

The old doctor looked at the dust on Gu Shaoyang's clothes and waved to him, saying very thoughtfully, and Gu Shaoyang no longer stayed here and left directly.

However, when Gu Shaoyang pushed out, he was about to leave the old doctor When he came to the medicine house, he suddenly stopped him.

"If you have a good rest tomorrow, come here and help me take the medicine according to the prescription!"Hearing the old doctor's voice from behind, the corners of Gu Shaoyang's mouth immediately raised slightly, but it disappeared in an instant. Then instead, he turned around and looked at the old doctor and replied very respectfully:"Okay! no problem! give it to me!"

After that, Gu Shaoyang really left and returned to his own room in a few steps. Gu Shaoyang immediately fell asleep because he was really tired and needed a good rest.

The next day, Gu Shaoyang slept until three o'clock in the morning. Just woke up, and the old doctor had already placed all the medicine boxes for Gu Shaoyang today on the prescription table.

After placing them, he took the medicine boxes and went out to treat people in the organization.

And when Gu Shaoyang woke up from his dream , when he remembered that he had to go to help the old doctor get medicine, it was already afternoon.

"no! Gotta get there quickly!"At this time, Gu Shaoyang only prayed in his heart that the old doctor was not in the pharmacy. Otherwise, if he knew that he was sleeping until this time and went to help, he might have a bad impression of him. So when Gu Shaoyang went to the old doctor's

pharmacy, , completely running like crazy, but fortunately, the old doctor didn't come back after he went out.

Seeing that the old doctor was not there, Gu Shaoyang felt relieved, and then he rolled up his sleeves and prepared to help the old doctor grab medicine, but he saw the old doctor There were densely packed prescriptions on the table.

Gu Shaoyang tremblingly picked up the prescriptions, feeling that his mind went blank, and he couldn't help but mutter to himself:"There are so many prescriptions, how long will it take to catch them all?!"

Looking at so many prescriptions, Gu Shaoyang didn't have time to sigh too much. He could only quickly correspond to the prescriptions, find the location of the medicinal materials and grab the medicine, and he was busy until the evening.

And because he was too focused, so He simply ignored dinner and time, and his whole person seemed to have turned into a machine, operating mechanically.

When the old doctor returned to the pharmacy, what he saw was Gu Shaoyang mechanically repeating the movements of his hands, and he left There were not many prescriptions left in the room.

When he saw this scene, his eyes almost dropped with shock, because the reason why he left so many prescriptions for Gu Shaoyang was to keep him safe for several days. Do it.

But I didn't expect that he would finish several days' work in one day.

Moreover, he divided and packaged the medicinal materials and placed them very neatly in the order of the prescription. Everything was in order and every aspect was considered. Comprehensive.

This is what the old doctor found most incredible, and at the same time he admired it very much.

After the old doctor entered the room and saw that Gu Shaoyang was so attentive.

Chapter 1058

He didn't bother him, but quietly waited for him to finish the work.

Finally, after Gu Shaoyang had been busy all day long, he finally finished taking the prescription given to him by the old doctor, and he breathed a long sigh of relief.

Only then did Gu Shaoyang, who had relaxed, realize that the old doctor had appeared in the room without knowing when.

"When will you come back? Why don't you say anything?" Seeing the old doctor come back, Gu Shaoyang asked in surprise, but the old doctor just slowly stroked his long beard with one hand and said

"It doesn't matter, I just think you are taking it too seriously and I can't bear to disturb you." The old doctor's tone was gentle that no one else in the organization could feel, but Gu Shaoyang didn't find such a tone unusual.

"I have completed all the tasks you gave me. Would you like to take a look at it and check it to see if there are any mistakes? Gu

Shaoyang pointed to the large and small bags of medicinal materials piled on the ground and said, but the old doctor shook his head and denied: "No, you won't have any problems, I believe you!"

The old doctor said with great certainty, and Gu Shaoyang just smiled faintly when he heard the old doctor's words.

"If nothing happens today, I will leave first." Finally, Gu Shaoyang finished the matter, and now that he was done, his stomach began to grow dissatisfied.

After a while, he only heard the words coming out of Gu Shaoyang's abdomen: "Gurgling - Gurgling ____"

"No meal? It seems that you were too focused on what you were doing, and you even forgot to eat. Well, tonight you can stay with this old man Kazuya and have a few sips."

After saying that, the old doctor didn't care whether Gu Shaoyang was different or not. He turned around and ordered the waiter to prepare. Seeing the old doctor's enthusiasm, Gu Shaoyang didn't

resist. Moreover, he wished to spend more time with the old doctor, the better, and with him. Drinking together with the old doctor might help him reach a higher level.

In this way, after the old doctor ordered the people in the kitchen, they prepared the meals. At the same time, the old doctor also took out the good wine he had collected. Taste it with Gu Shaoyang.

At the dinner table, Gu Shaoyang is humble and polite. He never boasts about what he has done for the old doctor, nor does he act domineering outside because he gets along better with the old doctor.

He has always tried his best. He did his job well, which also made him more favorable by the old doctor.

However, the more the old doctor admired and liked him, the less he dared to help him get promoted easily, because there was a saying It goes like this:"The higher you climb, the harder you fall."

Although Gu Shaoyang's mentality in all aspects is very stable now, the old doctor is still worried that if Gu Shaoyang is suddenly given a big platform to develop.

In the end, he himself is not qualified and makes him fall to the bottom and never recover from it. Then he will Did his kindness become the murderer who hurt him?

So the old doctor never mentioned this matter, and Gu Shaoyang would not take the initiative to mention it.

In this way, Gu Shaoyang and the old doctor talked about common things and pharmacological insights. After finishing the meal, Gu Shaoyang was also slightly drunk from drinking.

He didn't expect that the old doctor had such a good drinking capacity!

Originally, he thought that the old doctor was already this old, so his drinking capacity must be The sleep time will also decrease accordingly, but he didn't expect that the old doctor was evenly matched with him.

There was even a faint feeling that he was better than him. This feeling could not help but make Gu Shaoyang feel frustrated, and it also made him want to take advantage of it. The plan of asking the old doctor some things when he was drunk was ruined.

Similarly, the old doctor also admired Gu Shaoyang's drinking capacity, because he knew very well how his own drinking capacity was, and treated him as the same as Gu Shaoyang. He also did not expect that the other party's drinking capacity was so high. They are all so good, and the reason why the old doctor is always busy with work and keeping up with the drinking vortex in the soul hunting organization is actually because he can't find a drinking buddy who can match him. But now it seems that Gu Shaoyang's existence can help him find the right one. As a drinking buddy, he could have a drink and brag when he was fine.

After this meal, the old doctor continued to ask Gu Shaoyang for help, and Gu Shaoyang also became closer and closer to the old doctor. Recently.

Although Gu Shaoyang usually keeps a low profile and never stirs up trouble, let alone suppressing others with his status, people within the ghost hunting organization respect him very much. The reason is because he is good friends with the old doctor, but they Not wanting to offend the old doctor, Yuci did not dare to confront Gu Shaoyang.

When Gu Shaoyang was prospering within the spirit hunting organization, the young man in white who lived in the inn seemed to be in dire straits.

Ever since inside the inn After going to a new shopkeeper, the boy in white's whereabouts and food were all changed.

His food allergies often contained chronic poisons and some unclean things.

Chapter 1059

And these were all carried out under the instruction of the new shopkeeper. Although the young man in white knew it, in order to pretend to be stupid, he ate all the new shopkeeper's food.

Moreover, he had to pretend to know nothing in order to reassure the shopkeeper.

In this way, after Gu Shaoyang did this several times, the shopkeeper completely relaxed about him and never gave him anything abnormal again.

However, regarding his whereabouts, the shopkeeper still sent people to follow him closely, not leaving him any space at all.

In this regard, the young man in white has been forbearing because the new shopkeeper's subsequent actions were too much, but in general it did not threaten his life, so the young man in white never cared about it.

Compared with the boy in white, Gu Shaoyang's life was much easier, and because he was very serious about his work, his mood in front of the old doctor had been particularly stable for so long.

So the old doctor finally helped Gu Shaoyang put in a good word in front of his superiors, and Gu Shaoyang finally received a rare promotion.

Gu Shaoyang didn't have much emotional ups and downs about his promotion, because he knew that this would happen sooner or later.

And the old doctor also expected that he would definitely have no reaction at all, and after so many days with him.

He also discovered that Gu Shaoyang was actually a very low-key person, so the old doctor did not intend to celebrate his promotion.

There were more people outside who wanted to send gifts to Gu Shaoyang to congratulate him, but in the end they were dismissed by him saying they didn't need them.

Although his behavior was a bit unreasonable and he didn't know how to get along with others, he didn't dare to express any dissatisfaction with his behavior.

All this is because Gu Shaoyang himself is very strong. He doesn't bother to be with others. Secondly, because he has a good relationship with the old doctor. No one dares to offend the doctor unless he lives in this world and is not sick at all. Will give birth.

Obviously this is impossible, so Gu Shaoyang can act independently without being controlled by them.

The only thing that is a little different now is that Gu Shaoyang was transferred to the headquarters due to his promotion and will be far away from the Black Hole Mountain.

In other words, after that, the old doctor would no longer find anyone to drink with him, no one to help him pick up medicinal materials, and no one to listen to his chatter.

"well! You boy! You have to come back often to keep me company with this old man!"

Although the old doctor was very reluctant, he finally chose to let go.

After all, he knew that Gu Shaoyang must belong to the eagle in the sky, and this small black cave mountain could only take him in temporarily.

But if he wants to be able to live long-term To retain him, we must constantly provide him with a platform to help him grow.

That's why the old doctor reluctantly helped Gu Shaoyang get promoted so quickly and sent him directly to the headquarters.

When Gu Shaoyang went to the headquarters, without the old doctor Under the protection of doctors, actions are not so smooth.

Because everyone has a kind of rejection phenomenon towards new people, Gu Shaoyang still has to spend a certain amount of time to integrate into them.

No, when Gu Shaoyang enters a new organizational environment, There was no one outside, as if they were ignoring him.

Gu Shaoyang was not surprised by this, and he was not the kind of fragile person, so he walked directly in.

However, when he was about to report When I arrived, I found that the door was locked...

Although the spirit hunting organization clearly stipulates that one cannot exclude its own people, this rule is an exception in the headquarters.

Because the people who enter the headquarters at Mengniu show that their abilities are very outstanding. , their cultivation level is not low, and they are in a place where masters gather.

Everyone has a sense of superiority in their hearts, and the regulations on harmony in the organization are unnecessary in their opinion.

Because everyone is Speaking based on strength, Hehe can only target the weak, but they will not admit that they are weak.

Outside the door, Gu Shaoyang found that someone maliciously locked the door to prevent him from entering, and the movements of his hands stopped for a few seconds.

Then he Directly casting a spell, he instantly suppressed the air pressure one kilometer around him, and then aimed at the door in front of him and shook it suddenly.

In just an instant, the door was shaken open, and his relaxed movement was also towards him. The person who deliberately made things difficult for him said - I am not afraid of your little skills.

Similarly, after Gu Shaoyang slightly shows part of his strength, it will make those who are not as good as him dare not make mistakes in front of him.

Because generally speaking , newcomers who come here will be groveling and respectful, because they are newcomers after all.

But this concept seems like bullshit to Gu Shaoyang. After he came here, he acted like - I am the boss, everyone kneels to me. Feeling!

On the contrary, many people stayed away from him and did not dare to provoke him easily. This was exactly Gu Shaoyang's purpose.

Chapter 1060

The reason why he is so high-profile is because he knows that people here speak based on their strength. If he doesn't show his performance, then those people will only push forward.

In order to protect his legitimate rights and interests, he could only do this, otherwise next time, they would do more than lock the door to him.

The final result was just as Gu Shaoyang expected. After he had a very tough attitude when he first came here, no one made any trouble to him for several days in a row.

Some people were actually kind and friendly when they saw him, to which Gu Shaoyang also smiled politely.

Because now he wants to let people here know that although I am not someone to be trifled with, as long as you are kind to me, I will not take the initiative to make things difficult for you.

In this way, after Gu Shaoyang got along with them for a few days and went to the headquarters to officially work, everything was calm.

But the calmer the situation, the more undercurrents there are, and the more Gu Shaoyang dares not relax.

Finally, some people couldn't hide their fox tails anymore, and they couldn't help but attack Gu Shaoyang.

And Gu Shaoyang was already prepared for this.

On this day, when Gu Shaoyang was leisurely preparing to go to work, he smelled a different smell in the air on the way.

Based on the fact that he had stayed in the old doctor's prescription for so long, this breath should be a high-level drug, but now he has discovered that it is completely avoidable.

But Gu Shaoyang chose not to take the usual path. After he smelled this scent, he was sure that someone must be deliberately trying to mess with him, so he went along with the flow and pretended to faint.

Because by following the other party's plan, Gu Shaoyang would also know who was trying to deliberately prank him behind his back, and this time he was able to pretend to be stunned and find out.

Then next time, those who want to use medicine on him must be more careful, because they will find that Gu Shaoyang is very proficient in pharmacology.

In this way, after Gu Shaoyang fell down, several people quickly came out of the darkness and came to him, looking at Gu Shaoyang who was lying motionless on the ground.

They also kicked him hard with their feet, as if to vent their dissatisfaction with him.

Gu Shaoyang is a person who holds grudges. When someone kicked him years ago, he secretly counted in his heart and recorded all the times this person kicked him.

I just wait for him to come and deal with them together after he knows the biggest mastermind behind the scenes.

Soon, Gu Shaoyang, who had fainted, was violently dragged into a small, dark room, where Gu Shaoyang could still smell a very foul smell.

It made people feel sick, but Gu Shaoyang directly suppressed the nausea in his heart, because he could only bear the anger for a while to find out the mastermind behind the scenes.

Completely prevent such things from happening again!

When Gu Shaoyang was brought into the dark room, the people who dragged him in all left, and Gu Shaoyang heard them talking outside.

It sounded like the real mastermind was outside, and Gu Shaoyang got up straight after seeing them leave.

Then he found a set of clean clothes from the space ring and put them on, then put a stool in the dark room and sat quietly.

So when the real mastermind outside came in, what he saw was Gu Shaoyang sitting on a chair with his back to him.

When he saw this scene, the man behind the scenes wanted to run away immediately, because it was only at this moment that he realized that Gu Shaoyang had not been tricked at all.

The reason why he is here now is probably because he has already seen through everything, so he did this on purpose. But he didn't know it, and he came here stupidly, wanting to do something to him.

"how? Do you dare to do it or not?"Gu Shaoyang still had his back to the other party, but he could tell by the other party's disordered breathing that the other party was anxious and scared.

But now he just woke up suddenly and discovered what he had exposed. The other party was so scared. , if he really takes action again, wouldn't the other party be so scared that he wets his pants?

"Let me guess who you are?"Seeing that the other party didn't speak, Gu Shaoyang started to play a guessing game, and every time he said a name, he could hear it.

A voice behind him took a breath, as if he was afraid, It seemed to be disdain.

Finally, Gu Shaoyang finally guessed the number of people based on their breathing rate, and Gu Shaoyang also matched the names one by one with the one behind him.

"From this point of view, you are: Niu Da, Niu Er, Xiaomi, Ruffian, Ah Jiu, and Miye!"

After saying that, Gu Shaoyang got up from his chair and turned around to check, and the people standing behind him were completely consistent with his guess. Among the people in front of Gu Shaoyang now, three of them were when he just came here and was about to enter. Someone who deliberately pranks him.
