

Attributes 1121

Chapter 1121

Gu Shaoyang was not surprised by the housekeeper's reaction. He just leaned on the door with his hands, looked up at the sky and thought quietly.

"Let someone cook me a bowl of noodles. I'll eat something light today. Also, how did you deal with the baby?"

Gu Shaoyang has not eaten for a long time because he has been busy, and when he returned to Tian Dao's house, he would definitely have nine bowls of food.

So he could only pretend to be not very energetic, with a sad look on his face. Said.

When the butler saw "Tian Dao" like this, and what he asked about, he had to swallow the words of concern that were on his lips.

Because if he talked too much, it would probably offend him. , plus he hasn't settled the baby's matter yet.

So now his best way is not to speak, and then try to reduce his own sense of existence.

In this way, he can try to avoid the butler's own punishment, and "Tian Dao" anger

"yes! Sir, I'll send someone down to prepare immediately." After receiving the instructions from "Tian Dao", the butler immediately responded, but for the second question he asked, the butler did not immediately answer.

And Gu Shaoyang is also a human spirit. When the butler did not continue to return to the question about the baby, He had already guessed that the butler must not have handled the matter well.

So he did not rush him. After all, with Tian Dao's character, he would not ask a second time, and the butler himself would tell him at the right time.

That's it. The butler quickly went down to prepare, and a bowl of noodles was very simple, so the servants quickly brought the noodles up.

While the servants brought the noodles up, the butler also came to Gu Shaoyang, and said directly to Gu Shaoyang Kneel down straight

"What's wrong? Things didn't go well?"Hearing a "dong" sound behind him, Gu Shaoyang used his peripheral vision to catch a glimpse of the butler kneeling beside him.

However, his tone was very cold, because he had already guessed the result from the butler's actions.

Now he wants more than anything else. It was just an explanation from the butler. After all, he was standing in Tian Dao's face now, so he naturally had to do what Tian Dao should do.

I saw Gu Shaoyang eating the noodles slowly in his hand, while the butler was kneeling behind him. He didn't even dare to breathe.

It wasn't until Gu Shaoyang finished eating the noodles that he turned around and looked at the housekeeper kneeling behind him.

"What will be the consequences if things are not done well? You are the housekeeper. You know the rules of the house very well. Go down and receive the punishment yourself."

Gu Shaoyang wiped his mouth, his tone was very dull, and there was no joy in it, and his current approach was also different from Tian Dao's usual style.

But the housekeeper didn't doubt anything about this, he just thought it was because he was going too far. He was just angry, and "Tian Dao"'s abnormal reaction also made the housekeeper very nervous. The housekeeper even felt a sense of crisis, because "Tian Dao" could replace him at any time and let others take his place. And once he is dismissed, he will not be far away from death.

Because he knows too many secrets about the children and Tian Dao. It would be okay if the person behind the scenes succeeds in the end.

If not, then he will definitely die. It was very tragic!

Thinking of this, dense beads of sweat appeared on the butler's forehead. When he walked to the place where he received the punishment, the clothes on his back were soaked completely.

"I'm here to receive the punishment. How you usually hit people, hit me now."

When he arrived at the place of punishment, the butler lay down on the chair without saying a word, and then bit his sleeve tightly, waiting for the pain of the stick falling on his body.

When the person who executed him saw the butler's actions, After hearing what the butler said, they all looked at each other, and their movements were a little slow.

After all, the butler was the person who directly led them, but now they wanted to attack him.

If they attacked too hard, would they be punished by the butler later? What about revenge?

Such an idea soon appeared in the minds of the two executioners, so they did not dare to drop the wooden sticks in their hands.

The housekeeper, who was lying on the stool waiting for the stick to fall, did not feel the pain for a long time, so he He turned around to check.

As he passed by, he saw the two executioners holding his back and not daring to make a move.

"It's the master's order to let me receive the punishment. Do you want to disobey the master's order?"

The steward said very angrily. Only the power of Nakata Michio can make them act now.

Sure enough, after the two executioners heard the order from Nakata Michio, they immediately dropped the sticks in their hands on the steward.

And they even gave him a blow. It was even heavier than before, and the butler who was still gritting his teeth and persisting began to groan uncontrollably.

On the other hand, when the butler went down to receive the punishment, Gu Shaoyang returned to Tian Dao's room after dinner and closed his eyes to rest. The sky was getting dark by then, and he had to take a good rest to recuperate and prepare for tomorrow.

He didn't know how many hours had passed since he had recently prepared the potion for the head of the Lin family in the jar.

Chapter 1122

What kind of effect did the medicine have on his body, and he couldn't rush in, so he could only wait until he went to deliver blood tomorrow morning to feel it.

The night is always long, and the arrival of night is a good thing for some people and a bad thing for some people.

And night is also the best time to do some shameful things.

But after all the hawkers setting up stalls on the street packed up and went home to eat, the watchers came out.

It wasn't until midnight that the watchman finished his work before he returned home to rest.

And when the watchman returned home to rest, some people who had done bad things also came out.

They ran together in pairs, carrying long things in their hands, toward the forest, and soon they reached their destination.

After arriving at the destination, he immediately threw the things he was carrying into the woods, and finally checked carefully to make sure that no one saw their actions around, and then left with confidence.

And early the next morning, the things thrown into the forest last night were also found.

In the forest, three things wrapped in straw mats had been uncovered, and after being uncovered, people discovered that they were the "bodies" of three children.

When another corpse appeared in the forest, some families who had lost their children immediately rushed towards the forest.

When the child's parents found out that it was their own child, they knelt on the ground and cried hard.

Some families whose children were taken away but have never received their bodies are even more sad.

Because they don't know whether their children are dead or alive, and they don't know whether their children are actually dead, but their bodies were not dumped here.

Or maybe, their bodies were actually dumped in the forest, but because there were jackals, tigers and leopards in the forest, their bodies were taken away!

Such speculations have surrounded the parents who have not found their children. Although they do not want to prepare for the worst, the actual results have to make him think this way.

"well! Let's all leave, let's leave!" When everyone was surrounding the "bodies" of the three children in the forest, a relatively rational person yelled at everyone.

Under his driving, many people gradually dispersed, and the three The child's parents also took the child's "body" back home.

In this way, the tragedy ended with the cries of many people, and the innkeeper was very sad when he heard about it.

But he But he did not go to the forest in person, because he was still being watched, and he was afraid to go, fearing that if he saw the body of his child, he would not be able to bear it. In the early morning,

Dongcheng died amid a cry However, the originally lifeless city became even more sad because of the cries.

The city lord who had been hiding in the alley felt very uncomfortable after hearing about this incident.

But he had no choice but to wait for Gu Shaoyang to go Contact him and bring him news.

Tianzhai at this time. When he woke up in the morning, Gu Shaoyang was still lying on the bed without getting up, and he heard crying outside early in the morning.

He knew without asking him that they must have discovered it again He found the child's body, otherwise it wouldn't be like this. And he didn't ask too many questions about it, didn't have too many expressions, he just got up and cleaned up briefly, then set off directly towards the tree hole. Because he still had to go to the tree hole.

The head of the Lin family in the jar in the pond next to the flower shop sent "blood water" to him.

And based on time, the head of the Lin family in the jar may become weak today.

Wait until he gives him "blood water" again today The next time something happens, he may be even weaker and need the baby even more urgently.

Then it will be the best time for him to take action!

Thinking like this, Gu Shaoyang can't help but feel a little excited, because he has been planning for a long time , now it is finally time to close the net and catch the fish.

And because of this complicated task, Gu Shaoyang has been delayed for too long.

Fortunately, nothing happened to the boy in white in the inn on the other side, otherwise he would have been too busy to take care of him.

"housekeeper! Prepare a car!" Opening the door, Gu Shaoyang had already put on Tian Dao's human skin mask.

As soon as he opened the door, the housekeeper who went to collect the punishment yesterday was still standing at her door, and his attitude was more respectful than before.

"Sir, the car is ready." The butler raised his hand, ready to help "Tian Dao" get into the car, but Gu Shaoyang didn't even look at him. He just passed him and got into the car alone. The butler, who had been ignored, could only take back his hand angrily and watched. "Tian Dao" and the driver left.

Along the way, under the driver's steady driving, "Tian Dao" quickly arrived outside the tree hole, while the driver waited outside the tree hole as usual, and "Tian Dao" went in to get the "blood water".

Casting a spell to enter the tree hole, Gu Shaoyang immediately moved away the person guarding the three children as soon as he entered, and then prepared him.

Chapter 1123

The blood water was poured into the blood bucket, and after pouring it in, Gu Shaoyang added a whole bottle of dispersing powder into it and stirred it evenly.

After doing all this, Gu Shaoyang came to the children again and lifted up their sleeves.

Then they made cuts on the children's wrists, and there were a few drops of blood around them.

After he finished all this, Gu Shaoyang left with the blood bucket in his arms.

When people outside saw "Tian Dao" rushing out, they immediately knelt down to see him off until he went up and returned home.

The people inside the tree hole got up heavily, and then they dared to go inside to check.

Outside, after carrying the blood bucket out, Gu Shaoyang quickly got into the car, and the driver immediately spurred the horse towards the flower shop.

Finally, they stopped steadily at the door of the flower shop, and Gu Shaoyang also entered the pond under the cover of flowers.

When he entered, he walked directly towards the blood bucket and quickly poured the blood water in the blood bucket.

After doing all this, Gu Shaoyang immediately knelt respectfully in front of the head of the Lin family in the jar and said: "Boss, we have found another child, and there are still two left." At this time,

Gu Shaoyang faced the head of the Lin family in the jar. The situation reported by the person was completely fabricated, because he never found the baby again.

The reason why he said this now was just because he wanted to reassure him, and he was not in a hurry to leave because he wanted to sense the strength of the head of the Lin family in the jar.

In this way, he can make a good judgment on when is the best time to take action.

In this way, after Gu Shaoyang knelt in the jar and reported in front of the head of the Lin family, he opened his eyes and stared closely at the "field road" in front of him."

"good! continue!"

"My deadline is coming soon, and my health has begun to show signs of illness in the past two days. You have to find all the children tomorrow, and you can send them to me in advance the day after tomorrow."

The head of the Lin family in the jar gave instructions to "Tian Dao", and Gu Shaoyang frowned immediately after hearing his instructions.

But soon his expression returned to normal: "Boss, don't you still have a deadline? Two days? Why should I send the child to you in advance?"

Gu Shaoyang asked pretending not to understand, and the head of the Lin family in the jar did not intend to explain to him, so he just waved to him tiredly and motioned for him to leave. After

Gu Shaoyang understood, he quickly stepped back. He has already told the Lin family about being the head of the family, and there is no need for him to stay for a long time now.

If he gets bored by staying there all the time, and if he gets angry and revokes his rights and status, then he will lose more than he gains.

So the best thing for now is The best way is to go with the flow and follow him as much as possible. When he fights back, Gu Shaoyang will never be soft.

Finally, after leaving the depths of the pond, he returned to the carriage, and although he had received the Lin family's food in the jar, His family ordered him to quickly search for the baby, but he said he did not intend to rush it.

After the coachman drove the carriage back to the farmhouse, Gu Shaoyang swaggered inside with Tian Dao's human skin mask, and everyone he saw His people would kneel down and give him his luggage.

The feeling of being completely respected by him gave Gu Shaoyang a strong psychological satisfaction.

At the same time, after Gu Shaoyang returned to Tianzhai, he went to the study. Where is Tian Dao and how is it outside? There is evidence of helping the head of the Lin family in the jar to buy and sell babies.

There is also evidence in the jar that the head of the Lin family gave Tian Dao money, property deeds, etc., but because he has a big business now, he has not spent these things.

And Tian Dao Tian Dao is greedy for money and very narrow-minded, so he will treasure his treasures personally and not let others know where he keeps his treasures to avoid being coveted.

Now Gu Shaoyang walked into his study, and based on Tian Dao's own memory , so he quickly dug out all the things he had collected.

Gu Shaoyang also piled the things neatly together. After everything was packed away, he took some records of correspondence and put them into the space ring.

By the way , He also put all the dirt into the space ring, and finally Gu Shaoyang walked out of the room and returned to his own room. The study room had become extremely messy as Gu Shaoyang rummaged through the cabinets, but without his permission, he absolutely couldn't Someone would come in, so it was difficult for him to clean up.

Otherwise, if someone saw his study, the state of his study would definitely make them think that the home had been stolen, so to prevent them from having this idea, Gu Shaoyang cut it off directly from the source.

He directly He locked the study with a lock and returned to his room.

However, after Gu Shaoyang returned to his room, he did not rest. Instead, he opened the secret passage again and got out.

Chapter 1124

After Gu Shaoyang got out of the secret passage and came to the deserted alley, he changed his identity again.

But this time he didn't change into his original appearance, but the old man changed into the appearance of an old man, which is how he ordered them last time with the gold medal given to him by the city lord.

After transforming into an old man, Gu Shaoyang went to the old ruined temple, and then called again with the token given to him by the city lord.

Soon several people from last time appeared in front of Gu Shaoyang

"Grandpa! You finally showed up! You at least let us gather those old subordinates from before and we have already taken care of it!"

Seeing Gu Shaoyang again, several Dongcheng protectors were very anxious. They pulled Gu Shaoyang and shook him from side to side, hoping that they would quickly assign tasks to them.

At this time, Gu Shaoyang was operating an old man, and now he was being pulled by three or five of them at the same time. Can't help but feel a little uncomfortable, so Gu Shaoyang immediately coughed twice.

His face turned red instantly. After they saw Gu Shaoyang's face, they immediately began to become nervous. The hand of one of them who had just been holding Gu Shaoyang's body also instantly relaxed. come down

"Ouch! Are you okay? Look at us! Forget about your physical condition!"

Several Dongcheng protectors immediately helped Gu Shaoyang sit on a chair, and then quickly squeezed his shoulders and hammered his legs, for fear of what would happen to him.

"Okay, okay! My old arms and legs are old, so stop working! When I see you here today, I have something serious to tell you."

"All of you, the day after tomorrow, try to assemble your team near the flower shop outside the city and outside a big tree hole in the forest."

"In addition, after you have arranged the people and horses, use my fireworks as a signal. If my fireworks explode, then you can rush into the place I just told you."

"At the end of the day, you have to be careful not to expose yourselves. If you see someone while waiting, but don't have my signal, don't go there! So as not to alert the enemy!"

Gu Shaoyang manipulated the old man to distribute tasks. The several guardians in Dongcheng thought that this was the city lord's intention, so they all nodded very solemnly and took over the task.

After arranging the tasks, he discussed all the details with them. After that, Gu Shaoyang parted ways with them

"Okay, you go quickly, I have to go to the market slowly and leisurely." Gu Shaoyang waved to them and said, among them, Zuo Zuo no longer said that he would send him back.

Because he knew that Gu Shaoyang would definitely refuse, and he was also mysterious, so he simply stopped asking.

Soon the big brothers The guardians left the ruined temple one after another, and Gu Shaoyang also stood up tremblingly alone, walked out of the ruined temple on his own legs, and came to the street. On the street outside, Gu Shaoyang also bought a lot of meat, and after finishing shopping , he walked towards a hidden alley.

After a while, Gu Shaoyang walked to the door of a family, and the house looked in tatters, but when the people inside opened the door, what came into view was It's a garden full of flowers and plants.

And it looks like it's been carefully taken care of, but it doesn't look like it's in tatters from the outside.

"Who are you looking for?"The person who opened the door was the city lord, but after he opened the door, he only stuck out his head. The door was also ajar and not fully opened.

Gu Shaoyang stood at the door carrying meat, but he looked like an old man. Therefore, the city lord did not recognize him, so his tone was very confused and full of suspicion. It was not until Gu Shaoyang took off the mask on his face that the city lord showed an expression as if he suddenly understood, and then he took Gu Shaoyang's hand and pulled him away. He took him to the back room

"It turns out to be you, come in! come on in! You didn't contact me for so long, I thought something had happened!"

The city lord has been alone at home recently, and he heard that three more children were found outside, so he has been very anxious. Gu Shaoyang has not come to contact him for a long time, so he thought that he also What happened?

But fortunately, he finally came to contact him.

"I'm fine, but the time for the mastermind behind the scenes is coming soon, and he's going to take action!"

Gu Shaoyang said with a serious face. At the same time, his eyes were staring at the city lord. He wanted to see what kind of expression he would have on the city lord's face.

Because for so long, the city lord has always said that he should shut up. He couldn't leave the house, but Gu Shaoyang didn't think so. On the contrary, he also felt that the city lord knew everything.

But for some reasons, he had been reluctant to reveal his thoughts.

But when two people cooperated, one party Keeping it secret made Gu Shaoyang very unhappy, especially when he was still helping him save the city he managed.

"When will he start?"When the city lord heard Gu Shaoyang say that the time for the mastermind behind the scenes was coming soon.

Chapter 1125

There was no surprise or curiosity on his face at all, and it even seemed as if he actually knew the limits of the mastermind behind the scenes.

This made Gu Shaoyang feel suspicious, but Gu Shaoyang did not ask him immediately. Instead, after entering the yard, he put down everything in his hands.

He just started to ask the city lord to tell him about the recent situation in the city.

"People in the city are getting more and more scared now. Many people want to move away from Dongcheng, but now that this place is controlled by people, they won't go at all."

"People who come in from the outside are not allowed in or out, so now the population in Dongcheng is increasing, but the food is getting less and less."

"Because there have been no new babies for a long time, the aging population in Dongcheng is particularly serious. Many families only have old people and no children. Some family members died of illness at home, and no one discovered it until the smell started."

Gu Shaoyang told him what he had learned. The city lord also looked solemn and worried when he heard about the things in the city.

However, Gu Shaoyang still did not see surprise on the city lord's face, but worry.

"City Lord, why aren't you surprised? Is it possible that you already knew this?"Gu Shaoyang stood up from his chair and came to the back of the city lord, putting his hands on his shoulders, indicating something.

In fact, from the first time he saw the city lord, he found that he was a particularly wise person, and such a wise man It is unreasonable for a person to choose to avoid when faced with such a situation.

Moreover, he has obviously understood the current situation in Dongcheng. He also has the right to call on some people, but he did not take the initiative to use it. He handed over the power to him.

So this made Gu Shaoyang very curious about what he was hiding behind the city lord.

Is there something that he was unwilling to tell and was still hiding until now?

"You have had the token from the beginning, and you could obviously call on the protectors of Dongcheng to do things for you, but you kept putting it off until you saw me before giving me the token and letting me make arrangements."

"After I arranged things, you are actually very clear about all the changes that happened in Dongcheng, but you are indifferent to it and seem to be hiding something."

"As for the man behind the scenes, every time I mention him, you are not surprised at all, as if you are trying to get to know him, or in fact, you are very familiar with him, and you are even a little afraid of him!"

Gu Shaoyang now said all his guesses behind the city lord. After the city lord heard Gu Shaoyang's guess, his body immediately became a little stiff.

Gu Shaoyang's hands on the city lord also noticed the changes in his body, and in Gu Shaoyang's heart He is also more certain of his own conjecture

"It seems that this is indeed the case. Now that it has reached this point, is the city lord still not ready to tell me the matter?"

"Is it possible that you want to wait until Dongcheng really turns into a dead city before taking action?"

Gu Shaoyang was very angry when he saw the city lord's appearance. When he thought that the children might die because of the city lord's concealment, he wanted to beat the city lord severely.

But the city lord was his employer, and he was working with the old doctor. People I know, so no matter how much dissatisfaction Gu Shaoyang has in his heart, he can only hold it in by himself.

"If you are not ready to say anything, then just continue to wait slowly. Failure to complete a task will not have any impact on me. As long as you feel that you can watch the people of Dongcheng die one after another under your eyes. Just in front of you."

Gu Shaoyang said that he was really angry and left. When the city lord saw this, he immediately held his hand anxiously: "No! I said! I... have my own reasons!"

The city lord's voice suddenly choked up and his tone was trembling, as if there was something difficult to say.

Seeing the city lord's appearance, Gu Shaoyang did not intend to comfort him, but just returned to the chair and waited for the city lord to speak about what happened.

And the city lord He cried quietly for a while, and after adjusting his mood, he spoke about his difficulties.

"In fact, I know the person behind the scenes, and he is my brother!"

Originally, Gu Shaoyang only thought that the city lord had something to hide, but he didn't expect that he actually had such a relationship with the person behind the scenes.

"He and I are brothers from the same father and mother, but our family was poor when we were young, so our family sent my brother away, directly to the door of the Lin family."

"The Lin family is a kind person, so they adopted their younger brother. Moreover, the Lin family had just become infertile, so they adopted their younger brother and claimed that he was their son."

"In this way, my younger brother grew up in the Lin family. Everything was going well at first, but suddenly one day, the head of the Lin family died of illness. When he died, he told his younger brother his true life experience."

"After the head of the Lin family passed away, the matron of the Lin family also followed the old head of the Lin family. They left the huge Lin family property to my younger brother to take over."

Chapter 1126

"Originally nothing happened, but after my parents learned that both the Lin family and his wife had passed away and my brother took over the Lin family, they wanted to recognize my brother as his ancestor."

"As expected, they were all kicked out. My brother was unwilling to recognize his ancestors and return to the clan. My parents also became heartbroken because of this. My brother's body was also overwhelmed by this double blow, and he finally collapsed."

The city lord recalled what happened before, with a sad look in his eyes, while Gu Shaoyang listened and just sighed silently in his heart that the relationship was chaotic.

And since the city lord's couple had already taken out the child, they shouldn't If you think about taking him back again, otherwise you will only cause secondary harm to the child!

Gu Shaoyang thought this in his heart, but he did not say it out loud, but continued to listen quietly to the city lord's story

"After my brother fell down, my parents also heard the news, so they went to visit with my greetings, but they were still turned away by the Lin family. After doing this several times, my parents became more and more anxious. , my brother's condition is getting more and more serious."

"Finally, my parents heard somewhere that there was a folk remedy that could treat terminal illnesses using human blood, so they disguised themselves as traveling doctors and went to the Lin family."

"After they entered twice, they used their own bones and blood to treat my brother. In the end, my brother's condition really improved."

"For this reason, they became even more convinced that human blood could cure my brother. At first, they used their own bones and blood to treat him, but gradually, my brother's needs became greater and greater, and the two of them could not meet them."

"And after my brother knew that the way to cure him was human blood, he started to masturbate people everywhere. At first, they were men and women, old and young. Later, I don't know where they heard that children's blood is more effective."

When the city lord said this, his expression became even more sad, but when Gu Shaoyang heard this, he couldn't help but ask a question: "Since you knew it from the beginning, why didn't you stop it?"

Gu Shaoyang couldn't understand it. The city lord knew everything about this incident from the beginning to now, but he never stopped it. He allowed the situation to develop to this point. That's why Dongcheng is like this today. It can be said that it has a great relationship with the city lord for it to become like this!

"The people of Dongcheng trust you so much. What do you think they will do if they find out that you are like this?"

Gu Shaoyang originally thought that the city lord might be worthy of sympathy, but now it seems that he can say that this is one of the culprits that caused this matter to become like this.

"I...I sent someone! It's not that I haven't taken action!"

When the city lord was questioned by Gu Shaoyang, he immediately began to refute, feeling very unfair in his heart.

"I sent people to stop him at that time, and even directly ordered my brother to be arrested, brought to justice, and killed in the street. However, my mother knew about it just after I issued the order!"

"My mother immediately threatened me with suicide when she found out. But at that time, she did not ask me to revoke the order, but asked me to relax for a few days. They said they wanted to say goodbye to my brother for the last time."

"Because I felt sorry for them, I agreed to my mother, but I never expected that a few days later, everyone around me would be killed by my parents, and their blood would be sucked by my younger brother."

"And I myself was drugged and imprisoned by him. In the end, my city master talisman was taken away from me by them, and they ordered the whole city and managed this place on my behalf."

"I was imprisoned by them for several years, and I gradually accepted it, but I was also thinking of a way, so I contacted the ghost hunting organization."

"And this is, in the past few days, my parents have passed away because of their hard work, and I am finally free."

The story of the city lord has been finished. After listening to it, Gu Shaoyang felt that the city lord deserved sympathy, but he still couldn't understand.

Now that his parents have passed away, why did he still choose to stay behind closed doors and hide here? How about living an ignoble existence?

"Now that your parents who are used to restraining you are no longer here, shouldn't it be more important for you to stand up? Why are you still like this?"

Gu Shaoyang asked his question, and after he listened to the city lord's answer, he had the same idea as the city lord, he must not be allowed to appear in this world.

"In fact, I don't want to hide, but my parents told me before they died that the best way to keep my brother alive when he was dying was to exchange the blood and bones of his close relatives."

"But they couldn't sacrifice me for my brother, so they asked me to hide because my brother is looking for me everywhere now."

The city lord said with some sadness, and after hearing his words, Gu Shaoyang suddenly remembered that he didn't care too much when he told the head of the Lin family in the jar under the pond that the number of babies was not enough.

Now it seems, He probably already knows the address of the city lord!

Chapter 1127

Now he is afraid that he will just wait for the day when his deadline comes, and then come directly to catch the city lord in the pond!

After Gu Shaoyang realized this in his heart, his mind immediately started running, thinking of ways.

If the city lord is asked to leave with him now, I'm afraid there will already be someone monitoring the city lord outside.

If he is not allowed to leave, then on the day when the head of the Lin family in the jar expires, the city lord will undoubtedly die, and he will also be successfully resurrected.

By that time, I'm afraid no one can stop him!

No way! You have to find a way to deal with it! The plan of the head of the Lin family must not be allowed to succeed!

Gu Shaoyang was thinking secretly in his heart, and then he got up and walked around the room. The city lord frowned when he saw Gu Shaoyang suddenly looked sad.

"What happened?" The city lord has never gone out like this because he has been avoiding tracking by his younger brother, so he doesn't quite understand that his younger brother may actually know where he is hiding.

"Your brother may already know your current address. The top priority now is to find a way to deal with the past. And you can't let them see the flaw!"

Gu Shaoyang told the city lord the flaw he discovered, but the city lord didn't believe Gu Shaoyang.

"So maybe my parents chose this place for me. I have never been exposed for so long. How could I be discovered in just a few days?"

"And even if I was discovered, someone should come to me, but why didn't anyone come to me?"

The city lord kept shaking his head, saying questioning words, but when Gu Shaoyang heard the city lord's words, he just shook his head silently, and then sat back on the chair.

"The reason why you haven't been arrested yet is because your brother's deadline is still two days away. If you don't believe it, then you can just wait here for the day when your brother is due to die. See if anyone will come to arrest you.."

Gu Shaoyang didn't want to intimidate the city lord, it's just the fact. If he insists on not believing in Hua, then there is nothing he can do about it.

"Is what you said true? but I....."

Although the city lord didn't quite believe what Gu Shaoyang told him, he was also very worried at the same time.

If it was really like what Gu Shaoyang said, then he would have been exposed now, and he urgently needed to change places.

Otherwise, what awaits him in the end will definitely be to be kidnapped by his younger brother and exchange lives with his younger brother.

At that time, after his brother is successfully resurrected, he can also claim that the person who kidnapped the child is the city lord, and that the Lin family is a family that has been quietly doing good things.

In the end, the Lin family may also be elected as the city lords by the people because of their prestige.

At that time, the real city lord who obviously did nothing will be infamy for no reason, and his position as city lord will be taken away by his younger brother.

Suddenly, the city lord seemed to have experienced the fantasy scene in his mind, and when he thought of what he might experience, the city lord couldn't help but trembled all over.

"No! We must not let this happen!"The city lord took Gu Shaoyang's hand and said with very sincere eyes.

He hoped that Gu Shaoyang could help him.

After Gu Shaoyang was asked by the city lord, he patted his shoulder to comfort him.

"Don't worry, I will find a way, but I need your cooperation."

After Gu Shaoyang said this, the city lord immediately nodded in agreement, and then the two of them began to discuss countermeasures in the room.

As time passed, the bees and butterflies in the yard had finished collecting nectar, but Gu Shaoyang and the city lord hadn't finished discussing it yet..

Finally, after a long time passed, the city lord and Gu Shaoyang finally came out.

However, when the city lord and Gu Shaoyang went out, they only walked to the door. After Gu Shaoyang sent him out, the city lord returned to the yard.

And Gu Shaoyang was leaving. After that, several people immediately followed behind him. They kept monitoring Gu Shaoyang and followed her wherever she went. At the same time, Gu Shaoyang suddenly discovered their existence, and after discovering them, Gu Shaoyang did not immediately shaking them away, he walked directly to the flower shop. By the way, he bought a bouquet of flowers, and then he took the flowers to a small alley.

In the end, when the people behind Gu Shaoyang followed him, they didn't notice him. When they saw the figure, they immediately started to send out signals.

And when they sent out the signal, Gu Shaoyang quietly slipped to the side of one person and quietly took away the signal bomb from him.

All this was not discovered by that person, After successfully getting the signal flare, Gu Shaoyang returned to his original appearance, and he did not shy away from walking on the street.

Because he was very safe in his current appearance, and no one knew him at all, and he was like this They didn't catch their eye either.

In the end, Gu Shaoyang wandered around the street before returning to Tian Dao's house.

Chapter 1128

In the secret alley, Gu Shaoyang changed his appearance again and became Tian Dao.

After he became Tian Dao, Gu Shaoyang went back. After returning, Gu Shaoyang opened the door of Tian Dao's room, and then started Tian Dao's enjoyment at home.

After Gu Shaoyang finished enjoying himself in Tian Dao's house, he set out towards the tree hole.

Now there are only two days left for the Lin family in the jar to be the head of the family, and he has to pretend to prepare for the baby.

After all, as the head of the Lin family, he must do a good job in saving face, otherwise he will be in trouble if someone catches him.

After Gu Shaoyang came to the tree cave, in order to show that he was dedicated to being the head of the Lin family, he personally went to Linchengshu to look for the newborn baby.

But he searched around but couldn't find the right one. There were some suitable babies but the family liked them very well, so Gu Shaoyang couldn't get them, so he could only return without success.

In fact, if Gu Shaoyang really wanted to snatch the baby away, the resistance of their parents would not be a problem for him.

It turned out that it was just because he didn't want to help the Lin family in the jar, that's why he was like this.

And now the head of the Lin family in the jar has become worse and worse since he took the blood prepared by Gu Shaoyang.

And his cultivation level is getting less and less. Therefore, in the past, he only needed to send blood water once a day, but now he needs to send it twice a day.

Gu Shaoyang also wished for this request from the head of the Lin family in the jar. He didn't know how to increase the dose for him every day without being discovered, but now he took the initiative to ask for it, which made Gu Shaoyang feel that it was a God-given opportunity.

Therefore, after Gu Shaoyang failed to find the baby in Lincheng, he returned directly to Dongcheng and used his old method to send blood to the head of the Lin family in the jar.

After another day like this, the deadline for the head of the Lin family in the jar was finally coming, and Gu Shaoyang also loaded all the babies he had prepared for the head of the Lin family in the jar into the carriage.

He only waited for the instructions from the head of the Lin family in the jar to send all the babies to him.

However, Gu Shaoyang waited for a long time but did not receive instructions from the head of the Lin family in the jar, and he had no doubts.

Because judging by the time now, the head of the Lin family in the jar must have entered a period of weakness. If he hasn't come to him to deliver the baby yet, then there is a high probability that he will go to the city lord.

After Gu Shaoyang guessed it, he immediately ran towards the city lord's yard. When he was about to run, what he saw was dozens of people surrounding the city lord's door, and each of them had weapons in their hands. And a big net designed to catch things.

And Gu Shaoyang also saw that the big net in their hands was not an ordinary big net, it was specially made.

And it seems that it took a certain amount of time and came prepared.

When Gu Shaoyang discovered this, he left there.

But he didn't give up the city lord, but went to a different place.

Gu Shaoyang had considered this matter when discussing with the city lord before. They had already guessed that the head of the Lin family in this jar would definitely attack suddenly one day.

So the city lord discussed with Gu Shaoyang to strengthen the defense around the courtyard, and they also made a secret passage inside the courtyard. Because the secret passage was just made, no one else knew about it except the two of them.

But now that Gu Shaoyang found someone outside the city lord's yard, he immediately changed direction and walked towards the secret passage he and the city lord made.

Soon he came to the door of the secret passage, but because the secret passage was dug not long ago, it looked very damp, and there was no lighting in the secret passage. Gu Shaoyang could only touch in the dark when entering, relying on his memory. Forward.

When Gu Shaoyang walked from the secret passage towards the courtyard, the city lord inside also walked from the inside towards the outside.

The two people met in the secret passage.

"You came? You wait here for a while. After I leave, you can go to the place I told you. You must not leave here until I leave! Do you understand!"

After Gu Shaoyang met the city lord, he took the city lord's hand and said, and the city lord nodded heavily when he heard Gu Shaoyang's words: "Let's proceed according to the original plan."

After that, the city lord and Gu Shaoyang parted ways. Gu Shaoyang walked towards the courtyard, and the city lord walked towards the outside.

However, the city lord stopped after walking a certain distance and waited for Gu Shaoyang's signal.

And After Gu Shaoyang walked in, he immediately changed into the appearance of the city lord and pretended to be him.

After he pretended to be the city lord, Gu Shaoyang immediately pretended to climb over the wall and escape secretly, but when he manipulated the city lord's appearance, he just turned over. When the wall hits the ground.

Gu Shaoyang was immediately caught by the people surrounding him. They seemed to have expected the city lord to do this.

After Gu Shaoyang was caught, he immediately lit a flare in the sky. The flare he lit was obtained from the person who was chasing him before.

So the people who captured Gu Shaoyang now thought it was their own people who set off the flare, so they had no suspicion.

After the city lord in the secret passage saw the signal flare released by Gu Shaoyang, he immediately quietly walked from the secret passage towards the place Gu Shaoyang told him.

When the city lord reached the place, he quickly closed the door tightly, and in order not to show off, he didn't even light the lamp and just went about his business in the dark.

On the other side, Gu Shaoyang had been resisting non-stop after he was captured while pretending to be a city lord. While he was resisting, he suddenly felt a soreness in his neck.

When Gu Shaoyang felt it, he immediately pretended to be fainted and fell down. The people around him also carried him on their backs, and ran forward faster with him on their shoulders.

But in fact, Gu Shaoyang didn't faint at all. He was just acting like this to show them and reassure them.

So Gu Shaoyang let them carry him towards their territory, and he actually knew the final territory.

When Gu Shaoyang was carried on their shoulders and bumped so hard, he wanted to open his mouth and curse, but he was in a coma now, so he couldn't do this.

Soon, not long after, Gu Shaoyang was carried by them to a person, and when the person saw that it was the "city lord", he waved to the person they just carried.

Then they immediately retreated, and the city lord dressed as Gu Shaoyang was carried away by another person he didn't know.

This time Gu Shaoyang clearly felt that this person was not so bumpy when he was carrying him. He should be a person who knew martial arts and had good cultivation.

But compared with him, it's still far behind.

Later, when Gu Shaoyang was carried by another person, he finally arrived at the final destination. After that person carried Gu Shaoyang to the destination, he stepped back very respectfully.

Suddenly, Gu Shaoyang was in the same room as the head of the Lin family in the jar, and the surroundings were filled with the smell of blood.

Because Gu Shaoyang should be in a "coma" at this time, he never woke up until he suddenly felt his face being drenched with water, and then he slowly opened his eyes.

After opening his eyes, Gu Shaoyang immediately pretended to show a surprised expression. In the jar opposite Gu Shaoyang, when the head of the Lin family saw the expression of the "city lord", he was very happy.

"You finally have this day!"

The head of the Lin family in the jar said to the "city lord", and after hearing the words of the head of the Lin family in the jar, the "city lord" immediately backed away in fear and wanted to stay away.

Looking at the expression of the "city lord", inside the jar The head of the Lin family was very proud, and he slowly got up from the jar and walked in the direction of the "city lord".

When the head of the Lin family walked towards the "city lord", he kept He stepped back. When he had no way to retreat, the "city lord" stood up holding on to the wall behind him.

"What do you want to do to me!" Gu Shaoyang imitated the majesty of the city lord and shouted at the head of the Lin family, but the head of the Lin family was not afraid at all and was even very arrogant.

"Hahahahaha...what to do? Didn't they tell you when they died? And they told me personally that your blood can save me!"

"At first they wanted you to save me with your life, you know! Originally I refused, but in the end you sent people to arrest me! You still want my life!"

"So tell me, you are like this! Then why should I care about a little bit of brotherly love!"

The head of the Lin family looked at the "city lord"'s question and felt indignant and dissatisfied. After hearing his complaint, Gu Shaoyang only felt that he and the city lord were like this because of family reasons. But now he His identity is the city lord, so he has to argue with the head of the Lin family.

"Brotherly love? When have you ever cared about it? Didn't I find a doctor for you when you were sick? Didn't I help you after I found out you were this brother? Did your parents not care about you? Have we ever pictured you again?"

""City Lord" recalled what the real City Lord told him, and then recounted it according to his memory, but the head of the Lin family snorted coldly after hearing it, as if he looked down on him. In the end,

Gu Shaoyang pretended to be the city lord and settled with the head of the Lin family. After a few rounds, he could see that the head of the Lin family had always been resenting the fact that he was abandoned. Later, he became ill again, but his brother was in good health, had a high status, had great power, and had a good family.

Chapter 1130

So this made the head of the Lin family very jealous.

For this reason, he did a lot of stupid things, and all those he hurt were his close relatives, and he himself was also very painful in his heart.

Part of what he is doing now may be because he wants revenge, but whether he is taking revenge on himself or the city lord is unknown.

"You don't have to worry about those things anymore, what you should be taking care of now is yourself!"

After arguing with his brother for a long time, the head of the Lin family suddenly rushed in front of him and pinched his neck tightly with both hands.

Because he had just come out of the blood tank, he was covered in donated blood. When his hand touched the "city lord", his body was also stained with blood.

Gu Shaoyang looked at the blood on his body and just frowned, a little unhappy, and the head of the Lin family was so fast. Quickly, before he could react, he directly lifted him from the corner and threw him to the other side.

Gu Shaoyang was immediately thrown to the ground by the head of the Lin family. Because he had no time to react, he ate him severely. He kicked, but Gu Shaoyang reacted immediately.

When the head of the Lin family was about to kick his second kick, Gu Shaoyang immediately turned over and left, and his kick missed. After the miss, the head of the Lin family was not angry, but seeing that he quickly took out a knife, the blade was very sharp. It must have been sharpened with a whetstone to become like this.

And the existence of this knife may also be because of the city lord, so the head of the Lin family is so careful. For this reason, Gu Shaoyang couldn't help but sigh that his mind was really a bit narrow.

Facing his own brother, he was actually able to do it, just because his parents' generation had done things that had passed.

"Now let's take the final step! Let me become you! Let you bear the infamy, let you take my place!"

Suddenly, the head of the Lin family seemed to have changed. His whole face was ferocious, and his strength was constantly retreating due to excitement.

He also discovered this himself, so he The movements towards the "City Lord" are also moving faster and faster, because he wants to get his blood as soon as possible, so that he can be resurrected! So that he can be reborn! So that he can live a long life!

These goals are all It is the wish of the head of the Lin family now, so when he faces the "city lord", the greed in his eyes is very obvious and undisguised. When

Gu Shaoyang pretended to be the city lord, he couldn't help but feel a little embarrassed when he saw the face of the head of the Lin family. Disgusting.

He is obviously such a normal person, but now he has become like this. He is neither human nor ghost. He does some things without any sense and makes people speechless.

And what he wants to do now is to make people speechless. Gu Shaoyang was speechless, because he had never heard that any illness could be cured by soaking in blood. This was actually just his own inner comfort. This was all because he felt it was effective, so he comforted himself in his heart. himself, and after being comforted in this way, the pain in his body would disappear a lot, so he felt that this method was effective. Just when the head of the Lin family threatened the "city lord" with a knife, Gu Shaoyang suddenly changed his appearance, When the head of the Lin family was about to approach him, he immediately transformed into Tian Dao.

Then he snatched the knife away from the head of the Lin family, and then destroyed the head of the Lin family system with a backhand.

It didn't take long. After that, Gu Shaoyang successfully tied the head of the Lin family to the pillar. Because the rope was tied to a special nature, no matter how hard the head of the Lin family broke free, he was very angry even if he couldn't break free. Until now, The person in front of him all the time was actually Tian Dao.

In terms of strength, neither the city lord nor Tian Dao was Gu Shaoyang's true identity, and Gu Shaoyang was not prepared to tell his true identity.

In the end, Gu Shaoyang finished what he wanted to do After that, he took out the flare he had agreed with the real city lord again, and then released it into the sky.

In a house in an alley, when the city lord saw Gu Shaoyang's signal flare, he opened the door again and quietly When he went out, he dressed up as Tian Dao under the guidance of Gu Shaoyang.

So when the city lord entered the pond, he was not blocked, and no one outside doubted his identity.

Because today the head of the Lin family actually had no intention of letting Tian Dao come, but the people watching outside didn't know the head of the Lin family's plan, so they let the suite go in.

After all, he was the one who came to take care of the Lin family every day. They were delivering things, so they were already familiar with it.

The city lord who successfully entered the pond walked towards it step by step, and soon discovered Gu Shaoyang and the head of the Lin family who were tied up at this time.
