Chapter 1171

The consequences would definitely be disastrous, and Gu Shaoyang also felt that when this little thing was caught, he didn't look like a newly born monster at all.

Instead, it looks like an old thing that has been around for hundreds of years! Because there was no fear in his eyes when he was caught, as if he was very sure that he would not be caught.

Is it possible that there is something explosive in this?

Gu Shaoyang restrained the little thing in his hands, his mind was running rapidly, and just when he felt something was wrong in his heart, Ma Xiaoer beside him suddenly spoke up and shouted loudly

"Little brother! Run! It's a scam!"

Sure enough, things did not go as Gu Shaoyang expected. There was indeed a fraud in it. Moreover, by the time the two of them reacted, it was already too late. They were already surrounded by many magical beasts. They also formed a circle around them, allowing them to There was absolutely no way to escape.

But fortunately, Gu Shaoyang still had a handle in his hands, the one they had prepared to save him with good intentions, but it turned out to be a bad little thing.

"do not come! If you come here again! I'll take action!"

Gu Shaoyang was seen squeezing the little thing's neck, but the monsters surrounding them seemed not to be threatened by Gu Shaoyang at all, and did not retreat at all to beg for mercy. The little thing whose neck was choked by Gu Shaoyang also remained silent. Ma Xiaoer was a little worried about this situation.

"Brother, looking at our current situation, it might be a little difficult for us to get out! Ma

Xiaoer said worriedly to Gu Shaoyang, but Gu Shaoyang comforted him very confidently: "Don't worry, their boss is in our hands, they don't dare to do anything!"

When Ma Xiaoer heard Gu Shaoyang's "boss", he couldn't help but frowned, and then looked at the little thing in his hand.

It was such a little thing. Even after looking at it for a long time, Ma Xiaoer couldn't believe it, so he remained skeptical. manner

"He is not our boss! Our boss is here!"

After the monsters surrounding Gu Shaoyang and Ma Xiaoer heard Gu Shaoyang's words, they quickly vacated a position behind them, and then a more burly monster appeared, and he stared at Gu Shaoyang menacingly, his eyes full of However ,

Gu Shaoyang was not threatened by it in the end, and even took the opportunity to see from the eyes of an old monster surrounding them that it was nervous about the little thing in its hand.

Seeing this, Gu Shaoyang was sure that the little thing on his phone was The mastermind of this incident, and when the monsters surrounding him continued to approach him, he smelled that the smell on them was exactly the same as the smell of the little thing holding his cell phone around his neck. After smelling the smell,

Gu Shaoyang became even more It's determined, and Ma Xiaoer also realized this

"snort! You little thing didn't expect your thoughts to be so deep! If you group of monsters dare to take a step forward again! Don't blame us for being rude to him!"

Now the little thing in Gu Shaoyang's hand discovered that his plan and his identity were revealed, and he began to panic.

"Humanity! Let me go! I'll give you what you want! As long as you don't hurt me!"

Just when Gu Shaoyang and Ma Xiaoer both looked at the group of monsters surrounding them, something unexpected happened to them!

They didn't expect it at all! The monsters in this devil's forest could actually talk! In the beginning, Outside the Devil's Forest, the person who had entered the Devil's Forest did not mention this when he told them about it.

But now they encountered such a thing on the first day they entered, and they couldn't help but be very surprised.

But they had seen strong winds and waves. Gu Shaoyang quickly came out of his shock.

"hehe! Let you go! You think well! You are the one I am most familiar with here. Should I let you go so that you can plot against us?"

Gu Shaoyang whispered in the ear of the little thing in his hand, and then the hand holding his neck was a little harder.

It was only at this time that the little thing really felt that his life was being threatened.

"Are you relieved? If you let me go, I will promise you that I will never hurt you!"

The little thing assured Gu Shaoyang and Ma Xiaoer very sincerely, but after the two of them looked at each other, they finally chose not to believe it.

Because before they entered, the man who had entered the Devil's Forest told them not to believe it. Anything that Warcraft does!

Based on this alone, it is impossible for them to believe this little guy, not to mention that his scheming is so deep, and this is his territory, so the little guy will definitely die today!

"Okay, you don't have to say anything, it's impossible to let you go! But I can consider taking away your core!"

Gu Shaoyang said in the little thing's ear very arrogantly, and after the little thing heard Gu Shaoyang's words and felt that the strength in his hand was getting stronger and stronger, he began to struggle.

Chapter 1172

It's just that Gu Shaoyang grabbed the back of his fate, so he couldn't escape no matter how hard he struggled, and Gu Shaoyang wanted to prevent him from giving orders to the monster in front of him.

So he quickly took out a pill from his space ring and fed it into his mouth.

After taking this pill, the little thing could no longer speak and became mute.

So now no matter how hard he struggles or how he opens his mouth, he can't make a single sound. In the eyes of the surrounding monsters, he was just being choked by Gu Shaoyang and trying to escape.

After Gu Shaoyang poisoned the little thing in his hand to mute, he began to whisper to Ma Xiaoer

"Later I will pretend to throw out the small thing in my hand, and then you quickly attack the monsters in front of you and cut them directly in half, so as not to damage the core."

"There are so many World of Warcraft here now. Let's deal with them separately. As long as our physical strength can keep up, the cores of all Warcraft here belong to us!"

Gu Shaoyang said to Ma Xiaoer, and Ma Xiaoer started to get excited after hearing this.

Because what was surrounding them now was not a small group of monsters. He roughly counted about thirty of them. And there were only two of them!

Moreover, the monsters surrounding them were both as tall as they were and as strong as they were. If their claws were on them, they would probably not be able to get out of bed for several days.

In the face of so many magical beasts, Gu Shaoyang would be so confident that he would take them all in, which was a bit impossible for Ma Xiaoer.

But after listening to the plan given by Gu Shaoyang, he began to admire Gu Shaoyang again.

After making the plan, Gu Shaoyang and Ma Xiaoer immediately followed suit. Soon after Gu Shaoyang made a false move and pretended to throw the small thing in his hand, many monsters ran in that direction..

And Ma Xiaoer also took advantage of this moment to strike at the back of the monster. He boldly drew out his knife and struck them on the waist one after another. Soon a blade fell to the ground.

And Gu Shaoyang made a false move, he immediately took out his big knife and fought with them. As for the small thing in his hand, he was still holding it tightly in his hand.

However, the little thing accidentally hit the tree trunk after being thrown hard by Gu Shaoyang a few times. So he fainted, and when the little thing woke up again, all the magical beasts that he had just held to save him had turned into cores that Gu Shaoyang and Ma Xiaoyang could count on their hands.

"Oh my God! So many cores! It will definitely save my child!"

Ma Xiaoer sighed while counting the cores. After getting so many cores, Ma Xiaoer no longer wanted to go inside.

"Gu Xiaodi, thank you very much for getting such a core with me, but now I have to go back, and I may not be able to accompany you on the road ahead!"

After Ma Xiaoer counted the kernels, he felt mixed. He actually wanted to follow Gu Shaoyang and continue walking inside, but because he had something to do outside, he had to leave.

Gu Shaoyang also understood him better, so he patted his shoulder comfort

"It's okay, Brother Ma! Everyone has their own things, and I can understand you. As for breaking into the Devil's Forest, you can wait until your child is well, right?"

Ma Xiaoer nodded silently after hearing Gu Shaoyang's words. However, when he thought that he was about to enter the second level, but had to leave, he felt a little regretful.

"Brother Ma, if you go out, give all the cores I have here to your children. I came here just for promotion. These cores are of little use to me, so you can give them all to your children."

Gu Shaoyang said and took out a bag, which contained all the cores of the monsters they had just killed.

Before Ma Xiaoer could say anything after taking the cores from Gu Shaoyang's hand, Gu Shaoyang faced the only one again. Let's start with the remaining Warcraft gadgets.

"You can take away the core of this thing. It seems that its core should be the best among all Warcraft, and it should also be the most useful."

Gu Shaoyang said and raised his hand to face the little thing. When the little thing saw Gu Shaoyang's hand coming towards his head, the struggle became more intense, but in the end it still could not escape its fate.

In the end, it also became I picked up a bead and lay quietly in Gu Shaoyang's hand.

"brother! Thank you on behalf of the children at home!"

Ma Xiaoer took the bead from Gu Shaoyang's hand, and then clasped his fist in front of Gu Shaoyang to thank him, but Gu Shaoyang gently supported Ma Xiaoer's hand, then waved his hand and said

"When it comes to thanking you, I think it should be the child's biological parents thanking you! If you are an unmarried man raising a child, it will definitely be difficult for you to find a wife in the future. Your kindness is truly commendable!"

Chapter 1173

Gu Shaoyang really admired Ma Xiaoer, and the two of them parted ways after chatting for a while.

Gu Shaoyang continued to move towards the depths of the Devil's Forest, while Ma Xiaoer moved towards the outside. His purpose was very clear, which was to save the child.

After Ma Xiaoer left, Gu Shaoyang went with the person he rescued.

After Ma Xiaoer left for a day, the man Gu Shaoyang saved finally woke up from his coma.

After waking up, he himself was very surprised: "I...I...is this heaven or hell! Why is this still in the Devil's Forest!"

The man who woke up looked at the familiar environment around him and couldn't help but collapse. And when he saw Gu Shaoyang, he felt even more uncomfortable

"It's over! It's over! You are the King of Hell! I actually went to hell! Lord Yama, please let me go! I haven't done anything bad!"

At this time, Gu Shaoyang was holding the dry branches he picked up in the Devil's Forest, preparing to light a fire for the night. But before he could get close to the person he rescued, he found that he had already knelt down in front of him.

There was something in his mouth. He kept begging for mercy, and it wasn't until Gu Shaoyang heard him chanting "The Lord of Hell" that he suddenly realized what he was thinking about now.

Gu Shaoyang looked at him begging for mercy and didn't speak. He just lit the branches on fire, and then sitting next to him, he turned his head to the side and watched him perform with no expression.

The person begging for mercy from Gu Shaoyang saw that the person in front of him had no reaction and was still making a fire. Only then did he realize that something was wrong.

At this time, there was a cold wind. It blew by, and the man kneeling on the ground shivered.

I can still feel the wind! Do I feel it? Am I not dead?

Could it be! Yes...

I thought to myself, and the man kneeling on the ground immediately stared. He looked at Gu Shaoyang with big eyes, and Gu Shaoyang stared into his eyes without hesitation. In the end, both of them couldn't help laughing.

"Hahaha...I'm not dead! I'm not dead! Still alive! Still alive!"

Soon I saw that man jumping up from the ground. Looking at Gu Shaoyang, his eyes were not only happy but happy, but after he laughed, he immediately started to feel sad again.

"I'm still alive, but all my companions are dead, so what's the point of being the only one left!"

"well——"

I saw Gu Shaoyang watching the face of the man he saved changing moods and sorrows very quickly, as if he was performing magic. This was the first time for Gu Shaoyang to meet such a person.

It happened that he had no company when he went to the Devil's Forest, so when Gu Shaoyang heard the man say that all his companions were dead, he asked more questions.

"How did your companions die?"

When Gu Shaoyang picked up this person, he almost died because of his bad breath, but he didn't see anyone's body around him.

So if he had companions, it was very likely that they were not with him. It was the same place, but Gu Shaoyang didn't see it specifically.

However, Gu Shaoyang thought about the reason for treating him and guessed that his companions must be like this, but he still had to ask him for details.

"Their strength was superior to mine, so when I walked to the first level of the Devil's Forest, I collapsed before I even reached the second level, and they went straight to the second level."

"But not long after they left me and entered the second floor, I saw one of my companions suddenly running outside, and I saw that his entire body was suddenly swallowed by a big monster."

"At that time, I was hiding in a tree and didn't dare to make a sound, so the monster didn't notice me, but at that time I heard him walking towards inside and saying something."

"After eating these few people, it was enough for him to sleep well for a few days."

Recalling this, tears filled the eyes of those who were successfully rescued by Gu Shaoyang. However, after hearing this, Gu Shaoyang did not feel sorry for them.

Because they obviously came in together, but they abandoned their companions halfway, and in the end they Everyone died, leaving only the person they left behind.

From a certain point, this is like a cycle of cause and effect. If you do bad things, there will definitely be retribution.

"Well, so what's your name? My name is Gu Shaoyang!"

Gu Shaoyang didn't answer his words anymore, but just changed the topic lightly, and the man quickly stepped forward and introduced himself to Gu Shaoyang.

"My name is Xiaopang, you can just call me Pangpang."

As he said this, the man touched the flesh on his body, and then smiled innocently. When Gu Shaoyang saw his appearance, he only thought he was cute, so he nodded heavily.

"OK! By the way, do you want to go out now or continue to go in?"

Now that Pangpang's body has recovered, Gu Shaoyang still respects his decision.

Pangpang fell into deep thought after being asked by Gu Shaoyang, and finally he started to answer after thinking for a while.

Chapter 1174

"I decided to move on with you! I want to see my companions and see if they were eaten by monsters or if they are still alive!"

Pangpang said his decision very firmly, and Gu Shaoyang was very supportive, but he felt that the possibility of his companions surviving was probably zero.

However, he did not say it directly because he was afraid of being hit. He couldn't see Pangpang's enthusiasm, so he could only respond with a faint nod.

"correct! I haven't thanked you for your life-saving grace yet!"

Pangpang and Gu Shaoyang chatted for a while and suddenly thought of something, so they saw Pangpang suddenly kneel down towards Gu Shaoyang, and then kowtowed very seriously and solemnly.

But before Gu Shaoyang could knock off Pangpang's head, he quickly killed him. Lifted up from the ground

"Don't! Don't! Don't! You must not do this! I'm just doing it with a little effort, just passing by! Thank you for your kindness!"

After Gu Shaoyang helped Pangpang up from the ground, he quickly asked him to pick up some firewood, because this way Pangpang would have something to do, and he would no longer mention thanking him or kneeling down for him..

And Pangpang picked up firewood very quickly, and he also burned the fire big and prosperous. Sitting next to the fire, he felt very warm.

But Pangpang's doing this also attracted many monsters looking for the fire. , so Gu Shaoyang hurriedly took Pangpang and hid in the dark, and then only saw three or two magical beasts jumping to the side of the fire they had made.

"this! How can they occupy our territory!"

Pangpang, who was hiding in the dark with Gu Shaoyang, became very dissatisfied when he saw that the fire he had worked so hard to light was occupied by a group of monsters. However, because he was being held down by Gu Shaoyang, he couldn't go out and beat them up at all..

And Gu Shaoyang did this for his own good. After all, the fire was so big that it would definitely attract more than one or two monsters. If they went out rashly now.

Even if the current few monsters were eliminated, there would definitely be more monsters in the future. There were a lot of them, so Gu Shaoyang decided that they would wait for a while and then catch them all together!

Just when Gu Shaoyang and Pangpang were hiding in the dark together, there were more and more magical beasts beside their fire, and they After seeing no one around, they began to gather together to warm themselves by the fire. It seemed that they did not intend to leave, and they stayed in place, and the number of their monsters increased.

When they numbered almost twenty, Gu Shaoyang began to plan with Pangpang. In the end, the two of them stood in the southeast corners respectively, and then used the encirclement technique at the same time.

Finally, the two of them centered on the fire and surrounded all the monsters sitting next to the fire. After the siege, Gu Shaoyang and Pangpang directly took their cores from the encirclement. Because Gu Shaoyang and Pangpang cooperated with each other, they quickly eliminated the twenty monsters.

"What to do with their bodies?"

After taking away the core of the monster, Pangpang looked at the corpses of the monster on the ground, his eyes filled with disgust.

"Just throw them aside for now."Gu Shaoyang thought for a while, then looked around, and finally found a small pit, and then he and Pangpang threw all the corpses of the monsters in.

When the two of them threw the corpses of the monsters in , , they did not return to the fire to warm themselves up, but added some more fire to it.

After the fire burned more intensely, Gu Shaoyang and Pangpang continued to hide in the dark, waiting for the next wave of monsters to arrive.

But this time, the monster seemed to be disobedient, and even made them squat on the spot for a long time without appearing.

"Forget it, they probably won't come, let's go back and warm ourselves by the fire."

Pangpang has been waiting for a long time and has lost his patience. Now there is still no movement at all, so he suddenly stood up and prepared to walk towards the fire.

But before he could take two steps, he suddenly felt a tightness on the back of his neck. , and then the whole person was suspended in the air. Just when he wanted to roar loudly, his mouth was also covered. At first, Pangpang thought the monster had caught him, but when he heard Gu Shaoyang's voice ringing in his ears After that, he became quiet

"Shh-! listen! There's movement!"

Hearing Gu Shaoyang's small voice, Pangpang also listened carefully with his ears. Finally, he heard the movement, and it seemed that the movement was not small.

Listening to the footsteps, it seemed that many monsters were rushing towards where they were.

"Walk! Climb the tree!"

Because the movement was too loud and the sound was getting closer, Gu Shaoyang and Pangpang couldn't tell which direction the sound came from, so they quickly climbed up the tree. In this way, they could occupy a favorable position, even if There are many monsters coming from behind, and they can deal with them well from high places without running away in confusion.

Chapter 1175

Thinking like this, Gu Shaoyang and Pangpang were already hiding in the tree.

Not long after they climbed the tree, a large group of magical beasts attacked from around them. Not only were their numbers huge, they were also coming from all directions.

At this time, the two of them couldn't help but be glad that they had just chosen to go up the tree. Otherwise, if they were under the tree, they would definitely face monsters from all directions, and their position hiding under the tree would definitely be exposed.

"What to do now, there are so many Warcraft!"

Pangpang and Gu Shaoyang stayed in the tree together and looked down. He made a rough count and found that there were probably more than fifty monsters surrounding the fire at this moment!

They had no way of dealing with such a large number of monsters. Not to mention taking away all their cores!

And facing so many monsters, Pangpang just wanted to escape cleanly, but now he couldn't escape at all! So Pangpang was a little anxious for a while

"take it easy! I have a solution!"

Gu Shaoyang, who was lying on the tree at the moment, had his eyes rolling, and he quickly came up with a way in his mind - dispersed sneak attack!

Finally, Gu Shaoyang told Pangpang his thoughts and specific action strategy, and Pangpang After Fatty understood it, he cooperated with Gu Shaoyang.

Then the monsters beside the fire under the tree heard a sudden noise from somewhere, and then they immediately swarmed in.

Gu Shaoyang and Fatty also took advantage of this moment, They caught a few lone monsters and cut them in half.

Finally, they quickly threw their corpses aside, without taking out their cores.

When the two of them succeeded , they quickly threw their bodies aside. After cutting off the lone monster, the rest of the swarming monsters had also searched the surroundings and found nothing.

However, they were still in a very vigilant state, while Gu Shaoyang and Pangpang were waiting in the tree.

Waiting After the warcraft are no longer so vigilant, they immediately make noise, and then they can catch those warcraft that are not paying attention, and they will be left alone, becoming the next core to be picked up by Gu Shaoyang and Pang Pang. In the end Gu Shaoyang and Pangpang have been using this method, and they also used this method to kill more than a dozen monsters in a row, and the monsters under the tree gradually discovered that something was wrong.

"Roar——! "

Soon a roar rang through the sky, and Gu Shaoyang and Pangpang who were hiding in the tree were almost shaken down by the deafening roar, but fortunately they were stuck directly in the tree, so they were not shaken down.

Some tree critters are not so lucky.

After they were shaken down by the roar, the monsters started to attack them when they saw it, as if they were venting their anger, and many small animals also suffered at their hands.

Such a scene made Gu Shaoyang and Pangpang a little dissatisfied when they saw it, so they looked at each other and then started to attack the monsters that hurt small animals.

I saw the two of them directly surrounding all the monsters, and then began to suck their cores directly. Their actions also made many monsters unable to bear it, and then they voluntarily handed over their cores and chose to commit suicide.

Because Gu Shaoyang and Ma Xiaoer had implemented this method before, it was extremely successful this time. The two of them also successfully turned all the remaining Warcraft into cores.

And Pangpang looked at the cores all over the ground, and his eyes wished they could grow on the ground. In the end, Pangpang was responsible for collecting the cores, while Gu Shaoyang took the corpses of the monsters that they had not taken away the cores just now.

In the end, both Gu Shaoyang and Pangpang had a lot of cores in their hands, but Gu Shaoyang had much fewer cores than Pangpang.

When Pangpang saw it, he immediately shared the core in his hand with Gu Shaoyang: "Brother Gu! Let's share it equally. Most of these are your contribution. You can keep what you have in your hand!"

Pangpang said and divided it equally. He had already divided the core and handed it to Gu Shaoyang, but Gu Shaoyang refused and even gave the core of his phone to Pangpang.

"This core is not very useful to me, so you should keep it to improve your strength. The strength of the Warcraft we will encounter inside will definitely be stronger than the current one, so you must be stronger!"

Gu Shaoyang said earnestly to Pangpang, and Pangpang also reflected on himself after hearing Gu Shaoyang's words.

Indeed, compared with Gu Shaoyang's strength, one is in the sky and the other is on the ground, and the core of the first level of this Devil's Forest is for For Gu Shaoyang's cultivation, it is completely a drop in the bucket, not enough at all.

He needs cores to cultivate at least the second level of Warcraft cores, and now if he practices, he will directly absorb the demonic energy in the Devil Forest.

And Fatty If you are fat, you only need to use the kernel directly.

"Okay, let's move to another place. There shouldn't be any more Warcraft coming here, and even if they come, they won't stay for long."

Chapter 1176

Gu Shaoyang said that he was about to leave with Pangpang, but Pangpang didn't quite understand, so he asked curiously

"why? Why don't we continue to capture monsters here? Isn't it so easy to catch them here?"

Facing Pangpang's questions, Gu Shaoyang just carried him away, and while leaving, Gu Shaoyang explained to him.

"Because all the corpses of Warcraft are nearby now. Do you think that Warcraft will stay where it is when it sees that all the corpses of its companions are nearby?"

"Is it possible that they are not afraid of death? Or do they just want to die?"

Gu Shaoyang explained to Pangpang while looking for a safe place. Then he quickly found a safe place, and he also finished explaining the reason to Pangpang.

"So, it seems that those Warcraft are not too stupid after all."

After arriving at a safe place, Gu Shaoyang didn't chat too much with Pangpang. He just calmly put him back on the ground, and then sat down cross-legged.

"Okay, it's almost dawn, let's practice for a while."

After saying that, Gu Shaoyang had already entered into cultivation. After seeing Gu Shaoyang's actions, Pangpang was not willing to lag behind. He immediately followed him.

Pangpang placed the things he had just taken out from the body of the monster in front of him. , and then he started his practice.

Soon he only saw the two of them. One person was surrounded by demonic energy, and the other person had cores around him. After the cores were absorbed, they became Black stones fell to the ground.

Finally, after dawn, Gu Shaoyang and Pangpang calmed down from their practice. They temporarily stopped practicing and started on their way.

"Let's go, while it's not completely bright yet, we can walk for a while, so that the possibility of encountering Warcraft will be much smaller."

Gu Shaoyang led Pangpang towards the second level of the Devil's Forest. After practicing for a few hours, the strength of the two of them also improved a bit, but it was not very obvious. If they want to be able to move quickly in the Devil's Forest, To improve their strength, I'm afraid they must have the core of the first level of Warcraft in the Devil's Forest. However, they are still far away from entering the first level of the Devil's Forest, so they can only continue to accumulate now.

This way, when they enter the Devil's Forest Only after the first level can you resist the monsters you encounter again

"Brother Gu, how far is this from the second level of the Devil's Forest? We have all been walking for a long time, and it is already daybreak."

Pangpang, who had no patience, looked at the bright sun hanging in the sky. The sunlight was very dazzling, and the light shining on his body also made him feel very hot, and his whole body was exhausted.

Gu Shaoyang heard Pangpang's weak voice. Then he turned his head and glanced at him, then stopped again, and finally jumped to the tree.

Finally, under his observation, he discovered a lake

"Let's go somewhere to rest for a while. There happens to be water to relieve your fever."

Gu Shaoyang said and led Pangpang towards the direction of the lake. After Pangpang heard what Gu Shaoyang said about the lake, he became obviously more energetic. He also walked faster than before, so they After a while, they came to the place where the lake was, and Pangpang jumped in directly after seeing the lake.

Gu Shaoyang couldn't help but feel nervous after seeing his actions.

Because they had never been in contact with the lake in the Devil's Forest. , so if there is something inside that will cause harm to them, then Pangpang's action of jumping in directly will undoubtedly lead to death.

But the good thing is that after Pangpang jumped into the lake, there was nothing in the lake. Monster, and Pangpang was also swimming very happily in the lake.

"come! Brother Gu, come down quickly! It's really cool inside!"

Pangpang swam toward Gu Shaoyang, waving to him, but Gu Shaoyang just walked closer and put his legs into the lake to cool off.

In fact, Gu Shaoyang was also very hot when he was on the road, but his endurance was better. , so he can be patient, and Pangpang is still a child, so he will tell many things directly.

And Gu Shaoyang thinks that he is an older brother, so he will take care of him as much as possible.

"Okay, you can play for a while and then we can continue on our way, otherwise it will waste too much time."

Gu Shaoyang looked up at the sky, roughly judged the time, then put on his shoes and socks and wandered around to see if there were any traces of monsters. In the end, he found nothing after wandering around for a while.

After he returned When they arrived at the lake, Pangpang had already packed up:"Let's go! Keep on going!"

After cooling down, Pangpang regained his vitality. He was bouncing along the way and didn't seem to feel tired at all, while Gu Shaoyang was very quiet.

Chapter 1177

Now the two of them were getting closer and closer to the second level of the Devil's Forest, and they could often hear the roars of monsters on the road, which made Pangpang, who was a little timid, only dare to hide behind Gu Shaoyang.

He didn't dare to continue jumping around, looking here and touching, and Gu Shaoyang was very helpless when he saw Pangpang like this, but who made him so young?

So Gu Shaoyang just let Pangpang be a coward, but when he really encountered difficulties, Gu Shaoyang would still let Pangpang deal with them boldly.

After all, they are now in the Devil's Forest. This place is no better than the human world. The monsters will not let you go just because you are young. The jungle here is strong!

So Gu Shaoyang will train with Pangpang all the way. He just wants Pangpang to improve his strength, so that he will naturally not be afraid of anything if he has the confidence.

Soon, Gu Shaoyang and Pangpang saw the boundary line between the third and second levels of the Devil's Forest while walking. Seeing this line meant that they were about to enter the second level.

And now that Pangpang is outside the boundary line of the second floor, he can only hear the roar of the monsters inside. It seems that there are many more monsters in the second layer than in the third layer.

"Okay, let's go!" When he got here, Gu Shaoyang directly took Pangpang's hand and wanted to go in, but Pangpang was a little resistant.

"No! No! No! Let's practice here for a while, and then go in!"

Pangpang muttered. At this time, he was not very confident in his own strength.

Because if he was not strong enough and rashly broke into the second level of the Devil's Forest, he would indeed be very likely to die, and Gu Shaoyang thought After he worried, he let go of his hand

"OK! Then we can only find a place to practice until tomorrow morning and then go on our way."

It was already afternoon at this time, and Gu Shaoyang planned for them to take advantage of this time to practice until almost dawn in the morning, so that they could rest with their eyes closed and improve their strength. Moreover, they would also be more capable when practicing again. Quiet, they can avoid the attacks of Warcraft.

Although they need the cores of Warcraft, because they got a lot of Warcraft cores yesterday, they don't need so many cores of the lowest level Warcraft in the third level for the time being.

And After Pangpang was helped by Gu Shaoyang to open up the conversion between spiritual energy and demonic energy, he was able to practice with twice the result with half the effort, and Pangpang's strength also improved a lot.

Soon Gu Shaoyang and Pangpang found a suitable place together In the place where they practiced, the two of them closed their eyes and entered the state of cultivation. The

Warcraft core previously obtained in Pangpang's hand also decreased at a speed visible to the naked eye, but it improved very slowly.

On the other side, although Gu Shaoyang was practicing, There is no such thing as the essence of Warcraft Core, but he only relies on himself to absorb the magic energy in the Devil's Forest, and his improvement speed is almost the same as Pangpang.

If he can get the second level of Warcraft Core in the Devil's Forest, then I'm afraid his strength will improve very quickly!

As the night gradually came, the dusk in the sky gradually darkened. Gu Shaoyang and Pangpang still sat there motionless until the early morning of the next day.

Sky The twilight in the sky gradually receded, and when the sun's rays slowly pushed away the clouds and mist and emerged, Gu Shaoyang and Pangpang put away their luck and slowly opened their eyes.

Exhaling a breath, Gu Shaoyang looked at himself. After several After an hour of struggle, although there was no substantial change in his strength, he clearly felt that his body was better than before.

And his speed seemed to be faster than before, but he didn't know this. Is it because he is used to staying in the Devil's Forest?

"let's go!"

After opening his eyes, Pangpang immediately jumped down from the tree. He quickly came to Gu Shaoyang's side and took his hand, running forward with all his strength.

This time they both arrived at the third level of the Devil's Forest. When they reached the boundary line of the second level, the two of them collapsed without hesitation.

And just when the two people just crossed the boundary line of the second level of the Devil's Forest, they first felt that their bodies were light. The feeling disappeared again, and turned into the same discomfort they had when they first entered the Devil's Forest.

This feeling had always been in their hearts, and it only made Gu Shaoyang and Pangpang notice that they were very irritable. Their emotions From being tolerant at the beginning, he gradually turned into irritable.

However, because Gu Shaoyang has better self-control ability, when he is about to become irritable, he will only choose to be alone quietly, and the opposite of Gu Shaoyang is Pang Pang.

He is in He would scream when he felt irritated, and every time he yelled, he would pull Gu Shaoyang and run away quickly.

Because he was worried that his scream might attract the monsters in the second floor, so his life was more important!

Chapter 1178

However, because of Fatty's venting screams, every time after they left the place, three or two monsters would go to the place where they made the noise to check.

After the Warcraft found nothing every time, they would leave very reluctantly, and Gu Shaoyang and Pangpang walked like this for one-third of the second level of the Devil's Forest.

After walking for so long in person, Gu Shaoyang and Pangpang discovered that the distance to the second level of the Devil's Forest was actually longer than the third level.

And there seemed to be more monsters, because they often heard the roars of monsters every time they walked, and they became more careful every time they heard the roars.

Because both of them felt that it was unrealistic to deal with the second-level monsters in the Devil's Forest with their current strength.

Therefore, they have been recharging their energy, waiting for their strength to increase to the point where they feel that they can fight to the death with the monsters on the second level of the Devil's Forest, then they will look for it and then take action.

No! Both of them had practiced for two consecutive nights, and after two days of traveling, they finally felt that their strength had improved a lot than before, so they now started to look for Warcraft. The fat third-level Warcraft core is gone, and he can now absorb the second-level Warcraft core, so he is even more looking forward to it.

In comparison, Gu Shaoyang seemed relatively calm. Because now his strength is also constantly improving, and this second level of Warcraft core is already dispensable to him.

The first third level of Warcraft Core was almost useless to Gu Shaoyang, but now the second level of Warcraft Core is dispensable to Gu Shaoyang.

I'm afraid that only the first level of Warcraft Core in the Devil's Forest is what Gu Shaoyang really needs but can't get for the time being.

"Why can't we find Warcraft when we want to find it now? Should I use something to attract them?"

After Pangpang and Gu Shaoyang were prepared, they wanted to attract the monsters and take away their cores.

But after they waited there for a long time, they didn't even see the shadow of a bird, just like the devil's forest. The monsters on the second floor seem to have disappeared from the world.

"Don't be anxious, wait a little longer, we won't wait until we change places."

Gu Shaoyang was more patient, so he was ready to wait a little longer. But when Pangpang heard what Gu Shaoyang said, he couldn't say anything else, so he could only agree, and then lurked with him to wait. As a result, After the two of them had been lying in wait for more than an hour, there was still no sound from the monsters around them, and neither of them had any patience.

So Gu Shaoyang stood up directly, then flew up the tree to check the situation, and finally he came back from Jump down from the tree

"okay! Let's go! There seems to be some activity among the Warcraft today. I just saw a large group of Warcraft densely packed somewhere in the distance. I don't know what they are doing.

Gu Shaoyang pointed in one direction. Pangpang became interested when he heard it.

"Gather together? Is it possible that the Warcraft also have some activities? If that's the case, then wouldn't we be able to watch the fun!"

Pangpang's mind was spinning very fast, and in an instant he pulled Gu Shaoyang to run in the direction he just pointed, but Gu Shaoyang stopped his desire in time.

"no! Can I rashly expose ourselves! Wherever there are so many Warcraft, it is inevitable that there will be powerful Warcraft. By then, the strength of the two of us may not be enough for others to play with!"

Gu Shaoyang's analysis was relatively objective, but Pangpang was a little unhappy after hearing it. When the time came, he still wanted to go and see it.

"Then...can't we just be quiet and take a look secretly?"

Pangpang still wants to bargain with Gu Shaoyang. Looking at him like this, he seems to really want to see what it is like to hold an event for Warcraft in the Devil's Forest, and how it is different from the human world. At first, Gu Shaoyang disagreed no matter what. At that time, he finally relented and agreed to take Pangpang to take a look secretly. After all, they had already entered the Devil's Forest, and everything could be treated as a trip.

And after entering the Devil's Forest this time, they might not go there next time. We will come again, so we should cherish every rare opportunity, especially when the World of Warcraft holds events in the Devil's Forest. It is not something that can be encountered every time. This can be regarded as a gift from God for them to come to the Devil's Forest..

Gu Shaoyang thought silently in his heart, and soon he quietly waited for Pangpang to arrive at the place where the monsters gathered.

Here they saw a lot of monsters, and the monsters lined up in a very orderly manner.

Chapter 1179

There are also different rankings of strength among the Warcraft, and there seems to be some level.

Because Gu Shaoyang and Pangpang saw in the dark that they seemed to be divided into some kind of gang. Some monsters didn't pay attention to other monsters at all, as if there was some hatred between them.

"What happened to them? Isn't it said that Warcraft is very united? Why doesn't it seem like this now?"

Pangpang had heard something about Warcraft before, but now that his own seeing was believing, he began to doubt the statements he had heard before.

After discovering this, Gu Shaoyang began to verify

"Don't worry, let me test it first."

As he spoke, Gu Shaoyang picked up a leaf, and then flew towards the face of a monster. Because Gu Shaoyang used his internal force on the leaf, the pain of the leaf hitting his face was very obvious.

And the monster below After feeling pain on his face, he immediately turned around and looked at the monster next to him angrily, but the monster next to him ignored him at all.

The eyes that faced him just moved away. He lost his sight, and then took two steps away from him, as if he disliked him very much. The beaten monster became very angry when he saw the monster next to him, but because he didn't scold him, he didn't say anything. , so the beaten monster was prepared to stay far away from him.

And after the beaten monster stood far away, he turned his head to the side in disgust, not to look at the monster he was unhappy with.

It was precisely because he did not turn his head away. He turned his head away, so Gu Shaoyang threw a leaf at him again, and when the leaf hit his head again, the beaten monster began to get angry.

It happened that the beaten monster was very angry and didn't know who hit him. , as soon as he turned around, he saw the unhappy monster talking and laughing with his companion, and he just lowered his hand from above.

Seeing this, the beaten monster thought that the monster that just beat him was this general. Putting it down, his eyes immediately started to glow, and when he looked at the monster that made him unhappy, he immediately punched him with a big fist. The monster that was also beaten for no reason turned around and looked at the monster that hit him, and he felt even more unhappy..

He had already been rolled back several times by the monster behind him, but because the other party did not make any real harm to him, and it was common for them to roll their eyes at each other.

So he He didn't take it to heart, but now the monster that had been rolling his eyes at him actually attacked him directly and blatantly, which made him really intolerable!

"what you up to! Want to fight?"

The monster that was beaten inexplicably turned around and got ready to fight. The monster that had been beaten twice by Gu Shaoyang with leaves saw that the other party said this, so he became rude. Soon the two monsters They struggled together. When the monsters around them saw their situation, instead of trying to break up the fight, they all joined the fight.

So more and more monsters were fighting at once, and some affected monsters from other teams were being After the bullying, this became involved, so the number of monsters they fought continued to increase.

When the leader who held this monster meeting saw the monsters below completely struggling with each other and not listening to what he was saying, he could only hold his forehead helplessly..Because the Warcraft either don't fight, or they will fight until they are satisfied, and it is impossible for other Warcraft to stop them.

Therefore, the leader of the Warcraft stopped talking about his affairs after seeing them fighting, and They just sat there and looked at them.

Gu Shaoyang and Pangpang, who were hiding in the dark, saw these monsters using deadly moves to deal with each other, completely aiming at the opponent's life. Although they felt a little cruel, but more But they were thinking.

If you fight back, be sure not to hurt their core!

Gu Shaoyang and Pangpang stood aside and their hearts tightened, because these are all high-quality monsters in the second level. They Their cores are also countless times better than the cores of the third-level Warcraft.

The essence of their cores is also more powerful. For their cultivation, the help it can provide cannot be underestimated.

But where do the Warcraft fight? They will take care of the core, and they have only one purpose in fighting - either you die or I die!

So when the Warcraft fight, it is inevitable that a lot of Warcraft cores will be damaged, and after the damage, there will be no more Warcraft cores. The value of the core has been greatly reduced. The effect of training will be greatly halved. This kind of Warcraft core is still somewhat useful to Pangpang, but for Gu Shaoyang, it is almost the same as the third-level Warcraft core.

And in the fight between Warcraft, it is almost the same After that, the leader of Warcraft quickly spoke out to stop it. Now the leader can still control the situation.

Chapter 1180

And he has to speak quickly while there are still a lot of Warcraft. Otherwise, after a while, there will be very few Warcraft left. By then, it is not certain whether their Warcraft can still exist in the Devil's Forest..

In the end, the Warcraft finally stopped fighting under the loud stop of the Warcraft leader, and at this time, the number of Warcraft was only half.

"okay! Stop making noise! We were originally going to join forces with the Warcraft Clan in the east to deal with the Demon Clan in the north!"

"But now see for yourselves! We have already lost half of the monsters in your fight with your fellow tribesmen! How should we join forces with other monsters if the fight continues?"

The leader of the Warcraft was a little speechless when he mentioned this matter. The Warcraft standing below him stopped after hearing what the leader said, but the matter still has not passed in their hearts.

And Gu Shaoyang and Pangpang learned about the west side After the information from the Warcraft leader, Gu Shaoyang guessed that the Warcraft leaders from several directions in his direction would definitely gather their companions like them.

And there must be internal conflicts in other Warcraft groups like this Warcraft group in the west. , and Gu Shaoyang can provoke the conflict between them with just a slight provocation.

Then he will be able to let them kill each other without any effort, and he himself will be able to reap the benefits, and he will not let these Warcraft discovered that he did it!

"Fatty, we are like this! What do you think about splitting up?"

Gu Shaoyang made a rough plan in his mind, but he was also slightly worried, so he was going to discuss it with Pangpang to see if Pangpang thought they could do it.

If Pangpang didn't think it was possible, then they would act together. If Pangpang thinks it's okay, then they can act separately, which will be more efficient.

"One of us went to the east, one to the north, and finally we went to the south to gather. We had only one purpose, which was to provoke civil strife among them. As long as they were in chaos, we could pick up the corpses."

"But is your current strength good enough? After all, the second-tier monsters are not comparable to the third-tier monsters. I'm worried that you won't be able to cope if you are exposed alone, and I certainly won't be able to arrive in time."

"I'm just afraid that if we work separately, you won't be able to handle things by yourself....."

Gu Shaoyang expressed his plans and worries, leaving the rest to Pangpang to make his own choice.

Although Pangpang is young, he has gone so far with Gu Shaoyang now. He can foresee some things himself, so he can also be responsible for his own choices.

"I think I might give it a try!" After listening to Gu Shaoyang's words, Pangpang thought for a while, and finally plucked up the courage to say it to Gu Shaoyang. Pangpang's decision was also made after his own careful consideration.

So after Gu Shaoyang got his answer, he began to talk to Pangpang. Planned a route, and the Warcraft below them all left after discussing the matter with the leader.

So at this time, there were only Gu Shaoyang and Pangpang, and they quietly came out of the tree after planning the route. Go to the ground, and then start with the corpses of the monsters that fell on the ground.

Take out the cores from the corpses of the monsters that have lost their breath of life.

Because there are a lot of them, it is enough for Pangpang and Gu Shaoyang to do this together. It took more than an hour to complete.

After completion, the two of them did not leave immediately, but found a place to practice again.

The two of them divided the cores they received in half, and then started practicing separately, because Gu Shaoyang's absorption speed was very fast, so he had already recovered his breath while Pangpang was still practicing.

Finally, Gu Shaoyang left a message for Pangpang and then set off first.

He and Pangpang assigned Gu Shaoyang to go to the east and Pangpang to go to the north, Gu Shaoyang, who had absorbed a lot of cores, clearly felt that his strength had improved a lot this time.

When he ran towards the east, his speed was also very fast, so fast that he could hardly believe it.

And Gu Shaoyang was in. After arriving in the east, he quickly found a good terrain and observed it for a few days. He thought that the monsters in the east had not held a monster meeting yet, but after waiting for two nights, he found that the monsters were very quiet.

So he went. He no longer stood still and waited, but began to wander around cautiously. Finally, he finally heard the discussion of Warcraft while wandering around.

"We are going north in two days. Is your equipment ready?"

Gu Shaoyang saw three monsters with different body colors walking side by side on the road, and they kept muttering.

When he heard their discussion, Gu Shaoyang knew that they had already convened the meeting, and if he wanted to. When there are many monsters, pick something to do.
