

Attributes 1181

Chapter 1181

Now it seems a little difficult and unrealistic, but even so it can't stop his determination to do something!

Gu Shaoyang quickly made a silent calculation in his mind. No matter whether there were conflicts or civil strife among the Warcraft tribe in the east, he must create some problems for them, so that he could take advantage of it!

After several days of tracking and observation by Gu Shaoyang, he finally caught their small group gathering.

Among the Warcraft groups in the east, they are divided into six small groups. In such small groups, they each have their own territory. They can only capture food within the prescribed territory and must not exceed it. but! Just because of the problem of catching prey, there were many conflicts among the six small groups, but in the end, because their leader was better at mediating conflicts, these things were over.

But this time! As long as Gu Shaoyang is here, there will be no conflicts that can be overcome!

So when night fell and the Warcraft tribe was preparing to capture food, Gu Shaoyang began to deliberately cause trouble.

When two different groups of monsters in the east were catching food in their respective territories, Gu Shaoyang would deliberately lure the prey from their respective territories to the other's territory.

Then they will deliberately help the prey escape. In this way, at first they think they are exchanging food, but after a few more times, they will feel that the other party is letting their prey escape.

At this time, when neither of them caught the prey, Gu Shaoyang suddenly lured out a prey for the other party to capture, and the monster on the other side that had not captured the prey would become irritable because of the continuous failure to capture the prey. Crazy.

Gu Shaoyang also happened to take advantage of a monster going crazy to let the other side capture prey again, and would also deliberately lure the prey to wander around the monster that had not captured the prey, and finally let the prey go to the other side.

Then he helped capture the monsters on the other side. After experiencing this several times, the group of monsters who had never caught prey and were in a irritated mood would seem to add fuel to the fire.

In the end, it would explode directly, and Gu Shaoyang soon witnessed the war between them. This time, after the war between the two small groups of Warcraft began, Gu Shaoyang quietly withdrew.

His withdrawal is not to ignore them, but to add fuel to the flames!

Because the leader of the eastern Warcraft group is particularly good at mediating their internal conflicts, and this time the two small groups also quarreled and fought over trivial matters.

So if their leader were to come forward, it would definitely be resolved in minutes, but resolving the conflict was not Gu Shaoyang's plan.

Therefore, it is absolutely impossible to resolve conflicts, and the main factor that can resolve conflicts is the leader of the Eastern Warcraft. Therefore, Gu Shaoyang must not let the leader of the Eastern Warcraft group appear between the two small groups fighting.

As long as it can be ensured that the leader of the ethnic group from the east does not appear, Gu Shaoyang believes that they will definitely not be able to mediate the conflict by themselves.

With the plan in mind, Gu Shaoyang soon saw the leader of the east group rushing towards the two small groups fighting.

When Gu Shaoyang saw it, he started to play tricks on him.

I saw Gu Shaoyang placing a large plate of poison on the path that the leader of the Eastern World of Warcraft must pass, and then specially made a trap for him. In the end, the leader of the East Warcraft group stepped on the trap himself, and then drank the poison. In the end, Fainted.

After the leader of the Warcraft clan to the east fell to the ground, Gu Shaoyang stepped forward to confirm. After he was 100% sure that he was unconscious, Gu Shaoyang took out the leader's core.

As the leader of the Warcraft group in the east, this Warcraft's core is more refined than the core of ordinary Warcraft, and its color looks fuller.

After Gu Shaoyang took out the core of the leader of the eastern Warcraft group, he dealt with the other four small groups in the same way as before, and they all fell into Gu Shaoyang's scheme.

And because their leader was absent, their casualties were very heavy. Finally, when they were relieved, they discovered that there were not many of their own clansmen left, and their leader, for the first time, did not come to break up the fight.

And Gu Shaoyang had already removed the cores of the lifeless monsters before they woke up from the fight. In the end, he returned home with a full load and walked in the direction agreed with Pangpang.

Just after Gu Shaoyang had completed the task, Pangpang was still using the core beads of World of Warcraft.

Because the leader of the Warcraft group in the west he went to was lazy and procrastinated in arranging things, so when the Warcraft gathered in him, he just followed the example.

Chapter 1182

He followed the plan he and Gu Shaoyang made at the beginning, exactly as it was, and the final effect was not what he expected. The monsters fought mindlessly.

In the end, Pangpang was reluctant to collect their cores. At this time, Pangpang also felt extremely happy, but his hands were very sore after the treatment, and it was difficult to even lift them up.

On the other side, because Gu Shaoyang was faster than Pangpang, Gu Shaoyang mentioned the destination before Pangpang arrived, and then he kept practicing.

He didn't stop until Pangpang came, and he only stopped for a while after Pangpang came.

"How about it? Is it going well? Didn't you expose yourself? Not injured?"

When he saw Pangpang's figure standing in front of him, Gu Shaoyang was like an old father, asking questions to Pangpang, and Pangpang also answered in a very good-tempered manner.

In the end, Gu Shaoyang confirmed Pangpang's safety. , and the Warcraft Core he obtained, he asked him to practice quickly.

Because now they have the last small ethnic group left, that is, the ethnic group in the south has not been attacked.

So Gu Shaoyang is prepared to wait until Pangpang has practiced enough. , they went to deal with the monsters in the south together, and the reason why he left the monsters in the south until the end.

This is also because the south is closer to the monsters on the first level of the Devil's Forest, and the closer it is to the first level of the Devil's Forest. The local monsters are becoming more and more powerful, so Gu Shaoyang urges Pangpang to practice.

After all, when they reach the first level of the Devil's Forest, they will face life matters that have not been finalized yet.

Everything that follows is brand new. So Gu Shaoyang and Pangpang had to welcome a new self and a new future.

After the two of them found a place and stayed for almost a day to practice, Gu Shaoyang and Pangpang finally packed up and got ready to go.

Their next stop is the south!

This time they attacked the small groups of Warcraft in the east, west, and north of the Devil's Forest almost at the same time. Moreover, these small groups have a common problem, that is, they are more or less internally There is a contradiction.

The small southern group of second-level monsters in the same place as them were indifferent when they attacked the north together.

Therefore, Gu Shaoyang thought that this southern group of monsters should be more than just their leader. The consciousness is relatively advanced, and the monsters in their own group probably know that fighting will be very harmful to the spirit, so they simply don't take action.

But even if they don't take action, Gu Shaoyang can still find their weaknesses and attack them one by one!

After all, no matter it is Whether humans or animals, or monsters, as long as they are living animals and plants, they must have something to fear, because everything in the world is interdependent and resists each other.

"Why do you feel that the monsters in the south will be more powerful?"

Pangpang was walking on the road, holding two wild fruits in his hand, and silently sucking the juice from the fruits in his mouth as he walked. Gu Shaoyang also held two fruits in his hand, but he ate them in just a few bites. It's over.

Just quench your mouth's thirst.

"I feel like they are very powerful, but you have to actually see them to know, so let's not scare ourselves here and hurry up."

After Gu Shaoyang said that, he walked faster towards the south. When Pangpang saw it, he hurriedly finished the fruit in his hand, and then wiped it randomly on his hands twice.

Finally, he trotted to keep up with Gu Shaoyang's footsteps.

And Gu Shaoyang was thinking about the days as he walked towards the small group of Warcraft in the south.

It has been almost half a month since he entered the Devil's Forest, but now they are still stuck on the second level, and they are still on the second floor. They did not approach the first floor.

If they continue to delay like this, then if they want to enter the first floor again and then walk out, they may have to delay for a whole month!

This time is a bit difficult for Gu Shaoyang. It was too long, and he didn't want to delay it for so long, so he had to speed up the process now and try to get out as early as possible.

In this way, Gu Shaoyang's eyes became firmer after silently calculating in his heart, and Pangpang who was following Gu Shaoyang because of Gu Shaoyang's speed was too fast, so he had been concentrating on the road, only thinking about not being left behind.

Therefore, he didn't notice Gu Shaoyang's emotional changes at all. He just felt that his speed seemed to be faster again, letting him run. It was a bit difficult.

But as Gu Shaoyang moved forward quickly, they finally arrived at the place where the southern monster was before dark, and as soon as they came over, they met them catching prey.

And this southern monster was also with three other people. The small groups of monsters in different directions are different.

Other small groups of monsters attack when night is about to fall, but they attack directly whenever they want to eat.

Chapter 1183

There are no restrictions due to time, weather, or other reasons.

When Gu Shaoyang and Pangpang saw them catching food, they still chose to hide in the dark and observe. The situation of the monsters in the south was just as Gu Shaoyang and Pangpang had guessed.

The magical beasts in the south seem to be closer to the first level of the magical beasts in the Devil's Forest, so their strength is stronger than the previous magical beasts in the east, west, and north.

Moreover, their intelligence is better than theirs. When dealing with the relationship between their own monsters, they can also handle it on their own without their leader having to step in.

Seeing this, Gu Shaoyang could understand with some calculation why the monsters in the east wanted to find the monsters in the south to form an alliance with them to deal with the monsters in the north, but the monsters in the south were unwilling.

Because the Warcraft in the south is originally stronger than the other three Warcraft groups.

If they really want to destroy that small group and dominate the second level of the Devil's Forest, then they can directly destroy the monsters in the east, west and north, and then directly rule the south.

But their speed didn't do that. Because the food, cultivation resources, and regional environment to their south are better than those to the east, west, and north.

So how could they give up a good environment and then allocate the monsters in their tribe to a bad place to develop?

Moreover, as long as they continue to occupy such a favorable position, the other three small ethnic groups will never be their opponents, so as long as they do not take action easily, the other three ethnic groups will always be able to maintain peace with them.

Now, except for the three small groups in the south, there are fights and heavy casualties, but this does not affect them. On the contrary, the more fiercely the three small groups fight, the better it is for them.

Therefore, the Warcraft group in the south has always looked like it has nothing to do with itself.

"Why do I look a little too smart for this southern ethnic group?"

After several days of observation by Pangpang and Gu Shaoyang, Pangpang suddenly whispered in Gu Shaoyang's ear, and after hearing what Pangpang said, Gu Shaoyang couldn't help laughing.

"Things that you all know, but the leader of the Warcraft tribe in the south does not know. It seems that they are not very smart."

Gu Shaoyang patted Pangpang's head gently and said. Pangpang didn't hear what Gu Shaoyang meant. He thought he was being praised, so he grinned at Gu Shaoyang.

And Gu Shaoyang also looked at Pangpang. He looked very helpless and smiled fondly. He only hoped that Pangpang could be stupid and blessed. After experiencing this devil's forest, his strength would definitely improve greatly. He only hoped that after Pangpang went out, He will not let others take advantage of his strength to do bad things

"Okay, let's go find out who the leader is in the south, and if we can, just get rid of their leader."

Now Gu Shaoyang strives to be fast, accurate and ruthless, so he thought of the principle of catching the thief first.

Pangpang always obeys Gu Shaoyang's orders, so after he made the decision, Pangpang just followed behind Gu Shaoyang.

Immediately, after a whole day of searching, the two people finally found the leader of the southern Warcraft group based on clues.

When they saw the southern leader, they were all shocked, because the southern leader's body was very huge. It's almost twice as big as an ordinary Warcraft!

And the reason why he is like this is because he loves to eat!

Next to the leader of the Warcraft group in the south, everything is filled with food and food residues. He is lying there. There are small-class monsters who eat, drink, and eat on the ground.

Just like the big fat man in the human world who only knows how to enjoy himself, he is completely selfish and has no idea of progress.

I saw the leader of the monster group in the south. After that, Gu Shaoyang was finally able to understand why they always acted as if it had nothing to do with them.

"What should we do with him like this?"

The fat ones, playing with two stones in their hands, looked at Gu Shaoyang with ignorant eyes, looking like they didn't understand the world.

"Since he loves to eat so much, let's just start with food."

As he spoke, the corners of Gu Shaoyang's mouth slightly raised, but it disappeared quickly.

"Walk! Go and prepare food for him!"

Gu Shaoyang said, pulling up Pangpang and leaving. Pangpang was in a state of confusion. Before he could react, Gu Shaoyang had already pulled him into a jungle overgrown with weeds.

"Come! Look at the way this grass looks like, it's called ecstasy grass, we'll pick this!"

Gu Shaoyang picked a plant for Pangpang, and then asked him to pick it.

Quickly running, Pangpang and Gu Shaoyang picked a large bag slowly, but the two of them put the picked Ecstasy grass together. when.

Chapter 1184

Pangpang couldn't help but ask questions

"Is the leader of the southern Warcraft clan different from other Warcraft clans? Other monsters eat meat, but he eats grass?"

Pangpang's fatal question is indeed a question. The leader of the Warcraft group in the south will definitely not eat ecstasy grass because he is a carnivore.

But! Just because he doesn't eat grass doesn't mean that other animals don't eat grass.! For example, the Demon Rabbit in the Warcraft Clan!

Just after Gu Shaoyang and Pangpang saw the leader of the Warcraft Clan in the south, Gu Shaoyang specially observed him. He found that there was a lot of meat around the leader of the Warcraft Clan.

But he was the only one He has an unusual fondness for the magic rabbit. He will not listen to suck even the bones that the magic rabbit has eaten, as if he is particularly obsessed with it.

And next to the leader of the magic beast group in the south, the number of magic rabbits is particularly small, so Gu Shaoyang guessed that this Warcraft leader must like to eat Magic Rabbits very much, but because the bodies of their Warcraft beasts are too big. The bodies of

Magic Rabbits are very petite, so it is particularly difficult for them to defeat the Magic Rabbits. Therefore, the Warcraft Leader He is so picky when he eats magic rabbits.

If the leader of the southern Warcraft group suddenly has the freedom to eat magic rabbits, then he will definitely eat a lot! So Gu Shaoyang is going to use this ecstasy grass to feed a wave of magic rabbits. , and finally give them all to the leader of the southern Warcraft tribe.

In this way, after the leader of the southern Warcraft tribe eats the magic rabbit, he will completely fall into a coma. If there is not three or two days, it will be impossible. It was impossible to wake up.

In the end, when Pangpang learned about Gu Shaoyang's plan, he went to help catch rabbits. Because Pangpang was energetic and agile, it didn't take long for Pangpang to catch more than ten magic rabbits..After

Pangpang caught the magic rabbits, Pangpang created a big barrier for them, and then raised them all in the barrier, feeding them only Ecstasy Grass. In this way

, whether they like it or not, If you like to eat, you can only eat this.

At first, these magic rabbits would faint for several days when eating Ecstasy, but slowly they fainted for less and less time, and even later they would not faint again. Fainted.

But after they reached this point, Gu Shaoyang took such a large group of magic rabbits and placed them next to the leader of the southern Warcraft group.

Suddenly faced with so many magic rabbits, the leader of the southern Warcraft group thought they were his men. He was given a filial piety, so he quickly ate half of the more than ten magic rabbits.

In the end, half of the magic rabbits were left by his side, and in the end he ate so many at once. After the Demon Rabbit, he himself was affected by the Ecstasy Grass in the Demon Rabbit's body.

Soon he fell into a coma. At this time, Gu Shaoyang and Pangpang, who were guarding in the dark, saw the leader of the southern Demonic Beast group in a coma. , the two of them were covering one after another.

Pangpang stood behind Gu Shaoyang, guarding him to see if any monsters were approaching. Gu Shaoyang stood in front of the leader of the southern group of monsters who had fainted, and stretched out his hand to aim. His head began to take away his core.

Soon, after the two of them cooperated with each other, they successfully took out the core of the leader of the southern Warcraft group. After taking it out, Gu Shaoyang was not in a hurry to leave.

I saw him again There were many traps arranged nearby. His purpose of doing this was to wait until some monsters came forward when they found out that their leader was dead. As long as they came forward, they would fall into Gu Shaoyang's trap.

By then, Gu Shaoyang can get their cores without any effort.

Moreover, the strength of the monsters that can move freely around the leader of the southern group of monsters will be too low, and they are also the right-hand man of the leader of the group of southern monsters. They must also occupy a pivotal position in their group.

So if they are eliminated, then the rest of the monsters will be nothing but scattered sand, no matter how strong they are, and they will be easy to deal with.

With the calculation in his heart, Gu Shaoyang quickly set up the trap, and just in case, Gu Shaoyang specially checked it after setting up the trap.

But just as he was about to finish checking, they heard a sound approaching

"Brother Gu! Hide now! there's noise!"

Pangpang suddenly jumped up to the tree, and then stood on a high place and saw the monsters that were coming towards them. There were more than one. When he saw this, Pangpang immediately called out.

Gu Shaoyang hurriedly hid after hearing this. On another tree, silence finally returned to the place, except for the leader of the southern Warcraft group who fell to the ground.

"yeah? Why did the leader fall asleep on the ground? Is it comfortable for him to sleep like this? Let's go make the leader sleep more comfortably."

The leader of Xiaolan, who was close here, said to Xiaohong and Xiaozi beside him.

They all agreed.

Chapter 1185

Gu Shaoyang and Pangpang, who were hiding in the tree, watched their three monsters slowly approach the leader of the group of monsters in the south. With every step closer, Gu Shaoyang and the others were one step closer to success.

Seeing that the two of them were full of expectations and were about to succeed, behind the three monsters, a monster with food suddenly stopped them.

"Hey! Deputy leaders left and right! Do you also come to see the leader?"

A new monster called out to the three monsters in front, and the three monsters in front walked back after hearing their call.

After the four monsters gathered together, they returned to the original place. After exchanging pleasantries, they finally walked together towards the place where the leader was.

Gu Shaoyang, who was hiding in the dark, finally felt relieved when he watched them all walking towards the leader of the Warcraft group in the south.

And they step by step As they walked in the direction of their leader, they fell directly into the trap made by Gu Shaoyang and were instantly knocked unconscious by his drug.

However, one of the monsters fell into the trap made by Gu Shaoyang. He didn't faint after the stroke, he was just a little confused, but when he woke up, he wanted to climb out of the pit.

Fortunately, Gu Shaoyang discovered it in time, and the monster didn't come out of it.

"okay! Pangpang, hurry down and collect them first!"

Gu Shaoyang waved to Pangpang on the tree, and then he found a monster and started to attack it. Soon he got a core.

And Pangpang who followed Gu Shaoyang also got a core after jumping down from the tree.

After successfully taking away their cores, Gu Shaoyang left with Pangpang at this time, because the rest were just some Little Warcraft, their core value is not much.

Next, they will attack the Warcraft on the first floor, but when entering the first floor, they also have an old rule, which is to first attack at the boundary line. Cultivation.

So far, in addition to the core they just got, they still have the previous core, so they plan to absorb all the core they have before entering the first layer.

In this way, their strength will gradually increase. With the improvement, even if you can't fight with the monsters after entering the first level, you can at least have a fighting chance.

The night in the Devil's Forest comes suddenly and very long. Gu Shaoyang always feels extra special when he takes Pangpang to practice at night. It takes a long time, and Gu Shaoyang is stronger and absorbs faster. He has to finish training before Pangpang every time, and this time is no exception. After finishing training, Gu Shaoyang jumped directly to the tree. At this time, the two of them He was on the boundary line between the first and second floors in the Devil's Forest.

Gu Shaoyang was staying in the tree to observe the Warcraft territory on the first floor. The Warcraft on the first floor and the Warcraft on the second and third floors I heard that the monsters on the first level are twice as powerful.

So at this time, Gu Shaoyang could just check the authenticity before Pangpang finished practicing, so that they could be prepared and not face the real one. He was panicked by the monsters on the first floor.

When Gu Shaoyang was quietly observing, he discovered that the monsters on the first floor were very fast at catching prey.

And they could also talk! Hearing, smell, speed, etc. , these are very good! And some of the animals on the first floor are also very comfortable.

When Gu Shaoyang saw this, he couldn't help but reflect on himself.

When he went to the Devil's Forest on the first floor, did he Being able to be like those monsters and animals, if he can't do it, then can he take Pangpang with him again?

When Pangpang puts away his spiritual power, spits out a breath of turbidity, and opens his eyes again, His eyes became even brighter.

Looking at his level at this time, he has been successfully promoted and has reached the peak state. I think it won't be long before he can be promoted again.

"Brother Gu, let's go!"Pangpang raised his hand and slipped to Gu Shaoyang's side very quickly. Seeing Pangpang's speed, Gu Shaoyang felt a lot more relieved.

So he took Pangpang and continued to move forward. With the two of them now After entering the first level of the Devil's Forest, for those monsters, as long as the two of them can join forces, the chance of winning will be much greater.

Gu Shaoyang determined a destination, and then went to that place with Pangpang, When they arrived at their destination, the two people continued to practice.

Because when they came to the first floor, they returned to the place where the leader of the Warcraft group was just in the south. This time they found some more Warcraft when they went there. The two of them then took away the cores of those monsters, and finally went to the first level to practice.

Because they had the cores in their hands, and the area on the first level had more demonic energy, they practiced.

Chapter 1186

When Gu Shaoyang realized this, he began to plan.

Because although now was a good opportunity, he had no intention of leading Pangpang to break through the door rashly, knock out the monster guarding outside, and rush out.

Because that would only cause a louder noise and attract a lot of monsters. At that time, he and Pangpang should not even think about leaving.

So Gu Shaoyang was prepared to use his own body to retaliate! Use the same method against these monsters!

Soon Gu Shaoyang was rummaging around in his space ring, and finally found the drug he had concocted himself, and then blew it through the crack in the door at the two monsters outside.

Soon, the two drugged monsters fell down. Upon seeing this, Gu Shaoyang immediately cast a spell to open the door, and then opened the door and went out with Pangpang on his back.

However, Gu Shaoyang did not walk away immediately after going out. Instead, he took away the cores of the two monsters outside, threw their bodies into the small dark room, and closed the door tightly before leaving.

Because they were not familiar with the terrain here, Gu Shaoyang was very careful when leaving, and Pangpang, who was carried on his body, slowly woke up from the bumps.

"Brother Gu?"

In a daze, Pangpang called out to Gu Shaoyang, and when Gu Shaoyang heard it, he quickly put him down. After all, Pangpang weighs about a hundred pounds!

"you're awake?" After putting Pangpang down, the two of them were still in the lair of Warcraft, and Gu Shaoyang was not ready to leave the lair of Warcraft. On the contrary, he was still preparing to fight them on the territory of Warcraft.

After all, the most dangerous one The place is the safest place. How could Gu Shaoyang not think of things that Warcraft can think of?

And since he has been hiding here, Gu Shaoyang can also directly contact their leader. The principle of capturing the thief first, capture the king, Gu Shaoyang has long used. He passed, but now he is preparing to use the same method to deal with the leader of the Warcraft group on the first level.

"Are we in the lair of Warcraft now?"

After Pangpang woke up, he looked around and spoke very carefully, for fear that making too much noise would attract the surrounding monsters.

"Yes, we are now in the lair of Warcraft."

Gu Shaoyang nodded towards Pangpang. Pangpang wanted to leave after learning that they were in the lair of Warcraft, but was stopped by Gu Shaoyang.

In the end, after Gu Shaoyang told him the method and plan, Pangpang finally calmed down. Don't worry, I have given up the idea of leaving.

"So should we find a place to hide now? Staying here all the time is not an option."

Pangpang looked around now, a little scared, because now the two of them are hiding behind a big tree, and they may be discovered by Warcraft at any time. This is really too dangerous.

"Let's go up first and take a look."

Gu Shaoyang looked around and agreed with Pangpang's words, so he asked Pangpang to go up first, and then he observed the cover below, and then waited for Pangpang to go up before he went up.

Standing on a high place, the two of them started Observation, but after they were in the tree, the two of them realized that the height was still not enough. Because the monsters were huge, the places they built were very tall.

"Brother Gu, let's go somewhere. The trees there should be slightly taller."

Pangpang pointed at that place, but Gu Shaoyang just shook his head and refused, because the tree pointed by Pangpang's hand was not much higher than the tree he was now in. Even if they went up, the height would not be high enough.

"So where should we go?"

After being rejected, Pangpang couldn't help frowning. Now they must be very careful in the decisions they make, because they are likely to be discovered by the monsters, and once the monsters find out that they have escaped from the small dark room, it will be so soon. There will be many monsters out to look for them

"where to!"

Just when Pangpang was very confused, Gu Shaoyang suddenly stretched out his hand and pointed forward, and the place where Gu Shaoyang pointed was the house built by Warcraft. They were standing on the tree and couldn't see clearly where Gu Shaoyang was pointing.

So Pangpang He was confused and very confused.

When Gu Shaoyang saw Pangpang like this, he immediately explained:"I just looked at it. Where there are the fewest monsters coming in and out, it is the safest place."

Gu Shaoyang said very confidently, and Pangpang had 100% trust in Gu Shaoyang, so he followed Gu Shaoyang and walked forward cautiously.

When they walked over, because there were many monsters coming in and out on the road, Gu Shaoyang and Pangpang Fatty kept dodging, and his head almost turned dizzy.

As they walked towards the inside, they were almost discovered several times, but fortunately they all escaped in time.

Finally, they finally came to what Gu Shaoyang said. That was the doorway where the least number of monsters came in and out.

Just as they were quietly hiding at the door, a monster suddenly rushed into the room, as if there was something urgent.

Chapter 1187

As Gu Shaoyang said that, he helped the couple up from the ground, and with Gu Shaoyang's guarantee, their hearts could be relieved a little.

But children are the thorns in the heart of their parents. Although they have done enough psychological construction for themselves in their hearts, when that day actually comes.

Both the guard and his wife felt that it would be the most difficult time of their lives.

But now Gu Shaoyang just wants to catch the murderer who kidnapped the child quickly, because his clutches are already ready to reach other cities.

Gu Shaoyang didn't know much about this place in Dongcheng. Now that he is cooperating with the guards, he has found a helper for himself. They also sell fabrics, so Gu Shaoyang can ask them about the fabrics.

Thinking like this, Gu Shaoyang took out the cloth in his arms: "Take a look, do you recognize it, or know where this kind of cloth is sold, or have you seen someone wearing it."

Gu Shaoyang said and took out the cloth. was handed to their hands, while the guard's wife fumbled with the cloth, browsHe couldn't help but wrinkle up tightly.

The guards' eyes became even more solemn after seeing the cloth. Gu Shaoyang didn't know why, so he was very puzzled. But looking at them, they should know something.

"I found this fabric on the child who was thrown into the woods. The child was holding this tightly in his hand. I think it was missing from the person who kidnapped the child."

"But I searched for a tailor shop all day today, but I couldn't find the origin of this fabric, and I didn't dare to ask others easily."

After Gu Shaoyang told them the origin of this piece of cloth, their eyes were full of regret, but after they adjusted their mood, they explained to Gu Shaoyang

"This piece of fabric cannot be found outside at all, because it is exclusive to the Lin family, and this fabric has always been made in-house and is only provided to the head family!"

The guard said through gritted teeth, but Gu Shaoyang felt from his words his deep disappointment and hatred for the Lin family.

Even though he now knows that this cloth is exclusive to the Lin family, their children are still there, and even when the matter has not been confirmed.

Their emotions are already very excited, and there may be some tricks that Gu Shaoyang doesn't know about.

"Do you have any festivals with the Lin family?" Gu Shaoyang asked in confusion, and the guard's wife said angrily after hearing Gu Shaoyang's inquiry.

"Not before! But now there is!" However, when Gu Shaoyang heard what the guard's wife said, he was even more confused and confused.

Seeing Gu Shaoyang's anxious look to know, the guard adjusted his mood and explained

"In fact, there are still a small number of children in the city. These children are either a little older or, like us, they are not yet born."

"The Lin family also has children, and they have a lot of money and power, so they secretly formed an organization with the reputation of protecting the children of ordinary people like us."

"And all of us had almost nothing, so most of us sought the protection of the Lin family, and became one with the Lin family, preparing to fight together against those who abducted the children."

"But I didn't think about it! them! them!"

Hearing this, Gu Shaoyang understood why the guards and his wife's deep disappointment and hatred for the Lin family came from.

But he still didn't understand something: "Although there are fabrics from the Lin family, the matter has not been confirmed yet. , why are you so sure it is the Lin family?"

Gu Shaoyang asked his question, but the guard's wife was sobbing softly, seeming to be blaming herself.

"Because when my wife was pregnant, she didn't announce it or seek help from others. However, the food at home became less and less, and my wife needed nutrition while pregnant with the child."

"So we took the initiative to seek help from the Lin family, and the Lin family was very generous to us, so we have always been very grateful."

"Besides, no one else knows about my wife's pregnancy except the Lin family. My wife rarely goes out after she is pregnant, so if our child is exposed, it can only be done by the Lin family!"

The guard said with great certainty, and Gu Shaoyang felt that it was very reasonable after listening to his analysis. After all, it seems that the Lin family is indeed the most suspicious at present.

It seems that he also needs to go and explore the Lin family. Before I have always thought that the child might be in the flower shop, but now it seems that may not be the case.

The man behind the scenes is too cunning, and his identity is not yet known, so it is particularly troublesome to find it, but if the general target is determined , then it will be easier to find

"Okay, since you all said so, I will go visit the Lin family tonight, but you need to protect yourselves."

Chapter 1188

Gu Shaoyang looked at the belly of his guarding wife and said, their most important task now is their children

"We know, but how should we contact you if we have anything?" When Gu Shaoyang was about to leave, the guard suddenly blocked his way.

After being blocked by the guard, Gu Shaoyang took out something similar to a toy from his arms and handed it to their hands.

"I almost forgot such an important thing. This is a call. If you need anything, just pinch it hard. Just pinch it and I will know your location."

"It doesn't make any noise, and it's small and easy to carry, so you can always keep it with you in case you need it."

As he said this, Gu Shaoyang handed the calling Gu to their hands, and the guard and his wife, one by one, nodded heavily to Gu Shaoyang with the calling Gu.

After settling the matter, Gu Shaoyang left, and his wife They and their husbands could no longer feel at ease at home, and their hearts were always tense.

For fear that someone would come and snatch their children in the next second, the guard also quit his job of guarding the door and concentrated on being with his wife at home.

After Gu Shaoyang left their home, he quietly came to the vicinity of the Lin family.

However, the guards of the Lin family were too tight, and it was broad daylight, so Gu Shaoyang had no way of sneaking in.

So he could only wait until He went in at night, and just when Gu Shaoyang was about to leave, he suddenly saw the door of the Lin family open.

Then he saw a carriage parked at the door of the Lin family, and then a man walked toward a ball wrapped in cloth. The long strip of things got on the carriage.

But because the things in the man's arms were wrapped too tightly, Gu Shaoyang didn't know what the things in his arms were.

And Gu Shaoyang saw the man get on the carriage and drive. After leaving, he hurriedly followed them in stealth mode.

Although it was daytime and he couldn't sneak into the Lin family's house invisibly, he could follow them invisibly and blatantly to see where they were going mysteriously.

Just like that, Gu Shaoyang followed the Lin family to the outskirts. Here, there were also many daffodils and a small pond.

But what was different from the flower shop was that these daffodils were not taken care of at all and looked particularly dirty. It was messy, and the small pond also exuded a stench.

Moreover, Gu Shaoyang also found that there were many traces of carriage wheels on this road. It seemed like they would come here every day.

After realizing this, Gu Shaoyang became more cautious. He followed, and soon he saw the people in the carriage getting out of the carriage, and then took out the things in their arms.

When he got off the carriage, he looked around carefully, for fear that someone would discover his whereabouts. After finally making sure that no one noticed, he walked towards the thing in his arms and came to an old tree.

Then Gu Shaoyang only saw him pulling at the bark of the tree, and then he directly peeled off the bark of an old tree, forming a It was in the shape of a door for people to walk through.

The man walked straight in towards the thing in his arms, and then restored the bark. The person who drove him here saw him enter and drove away alone..

After the carriage left, Gu Shaoyang slowly walked out, and then slowly approached the bark of the tree. He pressed against the bark to hear if there was any sound.

But the result was that he was disappointed. He couldn't hear anything at all. There was no sound at all, and the bark was like a natural sound isolator.

When Gu Shaoyang realized this, he felt even more that the children were probably inside, because the bark could isolate the sound.

In this way, even the children They were crying, and no one passing by outside would notice anything unusual, and the environment here is so bad.

Even if someone passed by, they would probably take a detour, for fear that the dirty water in the small pond and the broken daffodils would be contaminated on their skin. Body.

Nothing was found by sticking to the tree bark. Gu Shaoyang wanted to imitate the man just now and move the bark away, but when he got started, he found out.

Someone actually cast a barrier on the bark of this tree. If he touched it rashly, he would most likely alert the people inside.

In order not to alert the enemy, Gu Shaoyang had no choice but to let go.

But after he temporarily let go, he did not leave. Instead, he hid in the dark and observed. He just wanted to see when the person inside the bark would come out.

If he can catch the pattern or timing of his coming out, then he will definitely be able to go in and find out next time!

Just as Gu Shaoyang was thinking this, the bark of the tree suddenly opened from the inside, and the person who came out was holding a large wooden barrel in his hand.

The wooden barrel in her arms still exuded a strong smell of blood. When Gu Shaoyang smelled this smell, he was already very sure that the lost child in Dongcheng must be hidden in the bark of the tree!

Chapter 1189

Seeing this, Gu Shaoyang and Pangpang hid in place and stood still.

After hiding for a short time, Gu Shaoyang and Pangpang saw all the monsters inside walking out. As they walked out, they kept cursing.

"These two humans are so cunning! Send someone to find them quickly! Catch them and eat them immediately! No one left alive!"

Seeing that the talking monster was full of momentum, and the people next to him were very respectful to him, so Gu Shaoyang boldly guessed that he was the leader of the monster group.

And the leader of the monster group did not look as tall as those monsters, on the contrary. He is still very petite in comparison, and after the monster next to him walked out, the other monsters also showed the same respect to him.

It seems that the monster next to the leader should be some kind of leader in the group, but he is just under the leader Under.

In the dark, Gu Shaoyang and Pangpang were hiding in place. After they all left the room, the two quietly slipped into the leader's room. After entering, the two began to look for a place where they could hide. , finally they finally found the bed of Warcraft, and then got in.

Just as the two of them hid in, the leader of Warcraft who had just left walked in again, but this was not because the leader of Warcraft discovered Gu Shaoyang and Pangpang hid in his room.

But the Warcraft leader came back to get his weapon. Because he was going to find Gu Shaoyang and Pangpang himself, he left quickly after taking the weapon.

Just after the Warcraft leader left, another day passed. After a long time, Gu Shaoyang and Pangpang who were hiding under the bed carefully got out.

"Now they probably won't be back for a while."

Pangpang walked around in the Warcraft leader's room and played with the things in the Warcraft leader's room. Gu Shaoyang also wandered around after coming out, but he was not having fun, but looking to see if there was any secret room here..

After all, he felt that the monsters in the first level of the Devil's Forest not only knew how to use drugs to control people who tried to enter their territory, but also knew how to cultivate a house, and they were so united, which was really scary.

So if they knew how to build a secret room , then it definitely did not scare many people, but if it did, then Gu Shaoyang and Pangpang could just hide in the secret room. In this way, as long as the leader does not enter the secret room, they would not be able to find them, and they would hide in the leader's room In the secret room inside, they can also take action against the leader at any time.

In this way, they can bring the emperor to order the princes!

Gu Shaoyang's idea is very bold, but it has to be said that if they succeed, it will be very difficult for them. With capital, they can also walk sideways here!

While the Warcraft tribe was looking for Gu Shaoyang and Pangpang outside, the two of them had been hiding in the secret room until the leader of the Warcraft tribe came back cursing

"How do you guard these two humans? Why were they allowed to escape? And how long has it been since we've had humans here! What are the monsters on the first two floors doing?"

The leader of the Warcraft group on the first level of the Devil's Forest searched around outside with him but still found nothing, so he was in a very bad mood.

Gu Shaoyang and Pangpang, who were hiding in the secret room, heard the leader of the Warcraft group curse. After saying that, the two of them just wanted to laugh, but they were worried that they would be exposed.

So they could only hold back and keep silent. After the leader of the Warcraft group scolded his subordinates, he asked them to go down. Soon, inside the room He was the only one left.

However, even though the leader of the Warcraft group was now alone in a room, Gu Shaoyang and Pangpang still stood still because they felt that now was not the best time to take action.

Because if they rashly If they go out and attack the leader of the Warcraft group, he will definitely scream, and when he screams, he will attract a lot of Warcraft outside.

Then they will be sent into the tiger's mouth by themselves, so they must not go out at this time, they must They had to wait until the leader of the Warcraft group fell asleep before going out.

Even if the leader of the Warcraft group who fell asleep at any time sensed the danger, Gu Shaoyang and Pangpang had a way to shut him up immediately. After determining the time to take action, Gu Shaoyang and Pangpang stayed in the secret room, and the two of them were not idle. Because they had not solved the antidote to the fruit, Gu Shaoyang and Pangpang worked together in the secret room to develop it.

"Why must we develop an antidote? We have no use for it anymore."

When Gu Shaoyang took Pangpang with him to develop the antidote, Pangpang didn't want to move, so he kept mumbling.

Gu Shaoyang was not angry after hearing this, but explained patiently: "If you don't use it now, it doesn't mean we won't do it later. No need, just in case you need it."

Chapter 1190

Pangpang scratched his head: "I don't know what to prepare for emergencies. It seems that after I go out, I will learn from you." When

Gu Shaoyang heard these words, he looked up at Pangpang and twitched slightly. There was some helplessness at the corner of his mouth.

The weak light could never illuminate the darkness in the distance. The flame in the oil lamp flickered, leaving a little bit of light in this secret room several feet square, but it could only illuminate the small table under it. The four walls of the secret room were made of uneven stones and were airtight.

Pangpang couldn't understand what he was doing. He picked up the oil lamp on the table out of boredom and studied it curiously.

"I don't know what it is made of, but it looks very strong. A hard hit on the leader's head should make him calm down for a while."

Pangpang became excited when he thought of that scene. The rich expression on his chubby face, coupled with the caterpillar-like eyebrows, was extremely funny. He held the oil lamp source and moved it with his hand, and the weak wick it flickered, as if it was about to go out.

Gu Shaoyang was studying something on bottles and jars without raising his head. When he saw the light source shifted, he raised his head and frowned and said to Pangpang: "Don't move, just in case. If some mechanism is activated, then it's not you who should let him settle down. You should be more careful."

"Oh, got it." Pangpang pouted, and carefully put the oil lamp back to its place.

Pangpang was a little bored, because he couldn't understand what Gu Shaoyang did, but in order not to hold him back, he still sat beside him calmly and refused to let him go. He was distracted.

At this moment, the leader of the Warcraft clan in the room was pacing back and forth with his hands behind his back. Feeling unhappy no matter what he was thinking, he raised his foot and kicked the wooden stool in the room violently.

Gu Shaoyang's ears in the secret room moved slightly, and he immediately put down the things in your hands, put your ears against the door, and listen carefully to the sounds outside.

Seeing this, Pangpang also followed suit and pressed his ears against the wall of the secret room.

The sounds were not quite clear, but he could still hear them vaguely.

"Someone come!"

A guard opened the door and came in. He knelt on one knee and waited for the leader to give orders.

"Chief, what are your orders?"

"Where on earth would these two humans run to, and why were they allowed to escape! A group of bastards who fail to succeed but fail to succeed, and the fat in their mouths just flies away!"

When the guards heard this, they lowered their heads even lower. How could they have expected that two weak humans would slip away from the mouths of the Warcraft tribe.

Seeing that the guards did not speak, the leader of the Warcraft tribe was even more furious and snorted coldly. A voice said: "A bunch of trash, from now on, send me more people, I must find them, if you can't find them, just wait.""

A red light flashed in the leader's eyes, and the bloody aura on his body became even stronger.

"Catch them, I will torture them, bleed their blood, eat their flesh, and gnaw on their bones!"

When the guard heard this, he trembled with fright and did not dare to take it seriously.

"obey"

"Go out, I'm tired too and need a rest. There's no need to bring dinner."

"yes."

The guard retreated, closed the door softly, and sent more people to arrest the two human beings who were not high-minded.

The leader turned and walked to the bed, lying on the bed without changing his clothes. For these two human beings, he spent a lot of time I have too much energy and need a good rest.

"Hiss, what should I do? He wants to send more people...."

Gu Shaoyang in the secret room signaled with his eyes, and Pangpang immediately closed his mouth.

Gu Shaoyang seemed to have no burden at all and sat back to pack his things.

When I met Pangpang later, he was like an ant on a hot pot. He couldn't sit still, so he comforted him in a low voice:"Why are you anxious? I'm here. Don't worry, I will go out safely.""

"after all....I can't be trapped here. I'll pay attention outside later, but I still need to be careful."

"Yes, I know."

Pangpang nodded heavily. Although he was a little stupid, his body was a little bulky, and he had eaten a little more, he still had the look he should have. After all, at this critical moment, life was at stake!

They sat quietly After a while, he waited for the opportunity.

After a while, Gu Shaoyang felt that the time was almost there, so he stood up and tried with Pangpang. He also took a deep breath, walked to the door of the secret room, and touched the conspicuous door with his right hand. After turning the mechanism, the secret room door made a very slight muffled sound and slowly moved open, opening a crack to reveal the outside environment.

In just a few blinks, the secret room door turned into a three-foot-wide entrance.

Gu Shaoyang saw The door opened and he listened cautiously to the movement outside.

Apart from the snoring of the leader of the Warcraft group who had already entered the sleeping state, there was no other unusual movement outside.

Then he was the first to bear the brunt and walked in front. Pangpang glanced secretly and also made a gesture with him. He walked out in the same posture, twisting his hands and feet.

Gu Shaoyang stood in front of the bed and squinted, his narrow eyes full of coldness, with an evil smile on his lips. Then he took out the drug from his pocket and faced the Warcraft clan The leader's face squirted violently.

The leader of the Warcraft clan, who was sleeping, seemed to feel something and moved slightly.
