

Attributes 1251

Chapter 1251

This is his biggest step back.

Xie Qi thought for a while and agreed. The old doctor came in from the door and was very happy to know that Gu Shaoyang had agreed to take over Xie Qi.

All day long, Lieqi was in the room introducing the Soul Hunting Organization to Gu Shaoyang. When they hadn't seen each other for a while in the evening, Gu Shaoyang saw Lieqi carrying a carry-on package and preparing to leave the Soul Hunters.

"Where are you going?"

Xieqi waved it off casually, not caring, "We are at home all over the world and travel around the world."

Gu Shaoyang hadn't asked him when he would come back. He had already left. He was so free and easy, and he had a bit of a Jianghu atmosphere!

"I have seen the Lord."

As soon as Xie Qi left, the men who had followed Xie Qi all knelt down at Gu Shaoyang's feet. For a moment, Gu Shaoyang was still a little uncomfortable.

Gu Shaoyang said in a deep voice, "No need to be polite."

He remembered the rectifications he had mentioned before. Taking this opportunity, Gu Shaoyang decided to establish rules.

"First, in the future, each department will form its own system and will not interfere with each other."

"Second, our department will never leave anyone who bullies the weak."

"Third, from now on I will take over the ghost hunting and everything will follow my rules."

Everyone lowered their heads, no one dared to raise their heads to refute

"Since no one objects, I don't want to see anyone violating it in the future. If not, there will be heavy penalties."

There is no rule without rules.

Gu Shaoyang is determined to rectify the spirit hunting atmosphere!

Most of the spirit hunters are masters of hiding dragons and crouching tigers. Gu Shaoyang knew in his heart that they would not surrender to him so easily, but he did not expect that things would happen so quickly..

On this day, Gu Shaoyang passed by the mission hall and heard several senior killers discussing, and the protagonist was him.

"It's just Gu Shaoyang, but he really thinks of himself as the master?"

"It's just that I don't think he has much ability, and I don't know why I fell in love with him!"

"....."

The men around Gu Shaoyang hurried forward, "My lord, do you want me to go and deal with them?"

"No need."

Gu Shaoyang was not interested in listening to these discussions. He only believed in the results and reality. Gu Shaoyang pondered for a moment and ordered his subordinates, "Take a few people to guard the surrounding areas. If there are ghost hunters who cause trouble, bring them to me."

"yes."

Gu Shaoyang doesn't care if they don't obey him.

If these people are too obedient, it will make Gu Shaoyang feel that the future prospects of soul hunting are not bright. The more disagreements there are, the more you can see the internal strength of an organization.

In less than three days, Sure enough, Gu Shaoyang saw those people who were discussing him unscrupulously in the hall again. In the secret room, Gu Shaoyang sat on the main seat without saying a word.

Those people were pushed down by his men and knelt on the ground, and there was still a hint of anger in their eyes. dissatisfied look

"Why arrest us?"

One of them said angrily, "Where were you when we were going through life and death hunting ghosts?"

Whenever one person stood up, several others began to lose their patience.

Gu Shaoyang signaled his men to loosen their ties, stood up, and walked slowly over, "From birth to death?"

"I remember I said, I don't want to see my people bullying the weak outside. You are doing whatever you want in the name of ghost hunting. Do you really think I don't know?"

You guys look at me, I look at you, they all feel guilty.

"We also have to survive, we just have a few dollars to eat. Before....."

Before the man could finish speaking, the hostility around Gu Shaoyang burst out, "It was the past, but now you have to act according to my rules.""

"Punishment."

When those people who were still confident at first saw their subordinates taking out knives, their expressions changed.

"Lord, we dare not"

"Spare your life, we have no merit but hard work. The merits and demerits are equal to each other, so we will not dare to commit the same crime in the future."

Gu Shaoyang turned a deaf ear. He took the knife handed over by his subordinates, looked at it, and said unhurriedly, "I don't care how I indulged you in the past, but now I am in charge of the ghost hunting."

With a glance, he signaled his men to hold the man down. Gu Shaoyang squatted down to be level with them.

"If you make a mistake, you will be punished, right?"

Gu Shaoyang narrowed his eyes dangerously and looked at the person who made the mistake.

If it were fine elsewhere, he would be the biggest on the Soul Hunter Lord and no one could resist the Lord.

"Drag it out."

Gu Shaoyang waved his hand and said slowly, "Remember to hang them in the hall as a warning to others."

"yes."

Of course you have to pay the price for disobedience. If you don't take care of it this time, you might cause trouble in the future.

When everything calmed down, the old doctor came out of the darkness behind

"It seems that he was right about you and can make things happen." The old doctor came straight over and sat down, took a sip of tea, and then slowly said, "If you need any help in the future, just ask, I will stay at Soul Hunter for a while."

Gu Shaoyang nodded and didn't ask any more questions.

As far as friends are concerned, it's better not to get too involved in personal matters. After all, it's too easy to get into trouble.

"Now that you have taken over, what are your next steps?"

Chapter 1252

The old doctor sat upright and looked at Gu Shaoyang with a hint of ambiguity in his eyes, "The ghost hunter is not easy to control."

"Since I have agreed to take over, I will be responsible to the end."

Gu Shaoyang raised his hand and stroked his temples. In the past few days, just understanding the scope of influence involved in hunting ghosts has taken him a lot of energy.

If he knew what it was like now, he would definitely not agree to take over hunting!

Now he The task of releasing him has not yet been finalized, so the ghost hunting organization is undoubtedly the best place to take shelter.

He is not in a hurry, and has plenty of time to sort out these trivial matters.

The old doctor nodded, stood up and said goodbye, "Let's go first. You play slowly."

Everyone understands the difficulty of hunting ghosts, but if they don't explain it clearly, Gu Shaoyang will no longer keep each other. In the past few days, he has discovered that hunting ghosts can not only issue tasks, but also get a lot of information.

Maybe someone knows something about what he feels. Interesting things...

His subordinates came in from outside the door and said in a respectful tone, "My lord, it's been done."

"Um."

Gu Shaoyang waved his hand to let his men come closer, "Let the words out. If anyone doesn't follow my rules in the future and acts recklessly in the name of a ghost hunter, they will end up like them."

He wanted to see who would dare to go out and bully the weak in the future!

It was getting late, Gu Shaoyang stood in front of the window sill under the moonlight, and couldn't help but think of what the old doctor said.

There are laws for everything.

The laws he wanted were simple, and Some conflicts within the spirit hunting organization are slowly intensifying.

Gu Shaoyang understands that he will not be able to completely convince them for a while, but the day is long and he is ready...

As for those who covet the branches, he will not let go of any of them. Pass!

Thinking of this, a fierce look flashed between Gu Shaoyang's brows, and he quickly concealed it.

The strength of the branch has been slowly increasing, and when the day comes that he can stand alone, Gu Shaoyang's worries will be half over.

But now The most important thing is to deal with the spirit hunting matters!

Of course, Gu Shaoyang knew that this method of "killing chickens to scare monkeys" would not be able to conquer those people. He had a plan in his heart that slowly took shape.

The next day, the usually calm spirit hunting organization The inside exploded

"Did you see the lobby?"

"I've seen it a long time ago, someone actually offered a huge price to get the Dragon Pearl of the East China Sea!"

"If this deal is completed, let alone having to worry about food and drink in the future, this will be a major event that will bring glory to the family."

"....."

Gu Shaoyang stood upstairs, indifferently watching the capable warriors in the hall gearing up and showing great interest.

This is what he wants!

It's true that he sent out this task overnight last night. One advantage of a task of this level is that no one knows that he is the boss behind the scenes.

Gu Shaoyang tightened his lips and ordered to his men, "Gather the top five elites in the internal rankings and let them know that I am going to get the East China Sea Dragon Ball.""

"Yes, my lord."

The men retreated quietly, as if they had never appeared at all.

Gu Shaoyang had a plan, which was to take those elites to get the East China Sea Dragon Pearl, and then subdue them. When he came back with the East China Sea Dragon Pearl, he would Let's see what these people who are dissatisfied with him have to say.

Doubt that he is not worthy of sitting in this position?

Gu Shaoyang sneered, they are not qualified!

His subordinates worked very efficiently. In less than half an hour, they summoned everyone to wait in the secret room. Everyone looked at Gu Shaoyang, but no one dared to speak first.

After all, they could naturally hear about what happened yesterday, and they didn't dare to disobey him again.

"I asked you to come here today. I believe you all know that a buyer has posted a mission for Dragon Ball of the East China Sea." Gu Shaoyang paused and said calmly, "You are the top five elites on the soul hunting rankings."

"This time, if everyone cooperates with each other and takes down this task, I will definitely reward you heavily."

Everyone looked at each other and said in unison, "Yes, Lord."

The Dragon Pearl of the East China Sea is located at the deepest seabed on the east coast. Not to mention the long and difficult journey along the way, no one has ever dared to dare to take down this legendary luminous pearl.

Now the master of the spirit hunter has said that he will take over this task. Naturally, others did not dare to shirk anymore.

Starting from the hunting spirit, Gu Shaoyang took the five of them all the way east, walking through the mountains and flowing through the rivers. It took five days to reach the estuary of the east coast, and then To the east is the endless sea

"Let's rest here for one night and go to sea tomorrow."

The next day, Gu Shaoyang waited outside early, but the five people never showed up. Only then did he learn that the five people had severe diarrhea last night due to acclimatization. Seeing that the mission could not be carried out, Gu Shaoyang didn't seem to care. , "Then continue to rest and wait until you can recover and go into the water."

He had actually expected that this group of landlubbers from the inland, no matter how powerful their martial arts skills were, would not be able to withstand such a torment.

The climate on the east coast changed rapidly and the sea wind blew violently. Going to the sea was not an easy task..

Then let alone retrieving the Pearl of the East China Sea from the bottom of the sea.

A few people can rest for three or four days.

Chapter 1253

During this period, Gu Shaoyang would hang out in nearby towns whenever he had time and didn't care about their affairs at all.

"What do you mean by this, Lord?"

During the break of drinking tea, one person couldn't help but said, "Let us come and get it. He would rather eat, drink and have fun by himself and don't care about our life or death.""

"Okay, just say a few words."

One of them, who was older, interrupted him and said, "You'd better think about how to get into the water."

"How about we find a local to explore the sea?"

"Damn it, even we can't stand the cold air of the East China Sea, let alone an ordinary person, we have to rely on ourselves."

Gu Shaoyang, who had just come back from outside, happened to hear these conversations. The corners of his mouth curved. Just as he was about to go back to the room, his feet suddenly turned and came to them.

The five people stood up in a panic, with expressions on their faces. Something was wrong on weekdays.

Seeing their nervous looks, Gu Shaoyang knew without guessing what they must have been talking about just now, and most of the topics were related to him, otherwise he wouldn't have looked panicked when he saw him.

"Lord."

Gu Shaoyang nodded, not intending to ask them about the topic just now, but just asked them directly: "When are you going to leave?"

Hearing Gu Shaoyang's words, everyone who had just spoken ill of Gu Shaoyang looked at each other in shock. An older man stood up and said, "Your Majesty, none of us are acquiesced in this task....."

Not a fan of water? You still know that you can't do it! I thought you could do anything!

Gu Shaoyang thought silently in his heart, but there was no change on his face

"Naturally, we have to find a way."

Gu Shaoyang interrupted him and spoke slowly: "You should have heard the saying that the capable work harder. The top five in the soul hunting rankings should have more than this ability. I hope you won't disappoint me."

After saying that, Gu Shaoyang walked to the room with the pastries he bought, leaving them to figure out the rest. After all, the top five are all very strong. When he disappeared completely, those who were not convinced by him would The man immediately spoke, "Do you think this is what the Lord said?"

"We were working hard here, and he went back and fell asleep."

The more the man talked, the angrier he became, "I think he just doesn't have any ability, and he's not even willing to do any face-saving work."

As several people were talking, they all looked down on Gu Shaoyang from the bottom of their hearts.

On the other hand, Gu Shaoyang casually threw aside the pastries he bought, lying on a chair nearby with his eyes closed, not caring about other people's affairs at all..

Their words came into his mouth one after another. Gu Shaoyang smiled and didn't care. They were just having fun, and now they have to come up with a solution. Now they can't think of a solution, and they are getting more and more worried. The more anxious they are, the more they blame Gu Shaoyang, and the more disgusted they are with him.

But these are all part of Gu Shaoyang's plan. The more anxious they are, the less likely Gu Shaoyang will help them. He just wants to slowly grind them out. temperament, otherwise they always think that they are omnipotent.

And another day has passed, and few of the five people who went to find a solution have come to report on the progress.

And if they didn't come, Gu Shaoyang could only come forward and convene a meeting. He Sit on the chair in the room and ask them to tell each other about their difficulties.

"The cold energy of the Dragon Ball of the East China Sea has been unrivaled from ancient times to the present. We really can't find a way to overcome this predicament."

"What's more, I heard that the Dragon Ball of the East China Sea is a treasure that controls the sea. If it is removed rashly, it is likely to cause a tsunami, and the innocent people around will suffer."

Gu Shaoyang raised his eyebrows. He didn't expect that there were people in this group of people who thought about the people. This was beyond his expectation.

"go on."

Gu Shaoyang motioned for them to continue. Several of them looked at each other, thinking that their attitude was so obvious. Do they need to continue talking?

"What we mean is that it's better to go back to the soul hunter first, and it won't be too late to come back when we think of a perfect solution.

Gu Shaoyang frowned and asked, "Do you think it's a good idea to go back now?"

"Or do you think you can come up with a so-called perfect solution when you go back?"

These two sentences left the five people speechless.

Gu Shaoyang glanced at the faces of the five people and simply said directly, "Keep thinking, if you can't think of it, just waste your time here."

"In short, I should take back the idea of returning home!"

Gu Shaoyang stood up and left first, leaving five people standing facing each other without saying a word.

Was he determined to embarrass them to death?

Several of them looked helpless and miserable. If they could figure it out, Good idea, how could they be willing to stay in this hellish place and suffer this in vain?

"How great is this!"

Looking at Gu Shaoyang's distant back, all living beings felt even more anxious. However, Gu Shaoyang on the other side did not leave to rest, but came to look for things near the seaside.

Because he believed that all things are interdependent, and there must be a way to enter the seabed, but You have to think about it carefully.

Chapter 1254

Several days passed quickly, but during these few days, Gu Shaoyang did not give any orders at all.

These people already felt unconvinced in their hearts. Seeing that Gu Shaoyang couldn't even come up with a solution at this moment, he began to feel extremely angry in his heart.

"You even try to become our eldest brother, why don't you see if you have that ability? If we had followed the big brother before, we would have found a way in by now."

The people around him were chattering away like this. Although Gu Shaoyang heard their discussion, he didn't say anything else.

Time continued to go slowly like this. On the fourth day Gu Shaoyang has no longer decided to do nothing.

Now he has been wasted here for three days. If he continues to be delayed, the time stipulated on the task list will have passed. It was not easy for him to do it. Finally setting up such a big game, Gu Shaoyang didn't want the game he set up to be delayed by the so-called messy things.

Seeing that the group of people in front of him had no way to do anything, Gu Shaoyang directly called these people over. Looking at them he said:

"We have been here for three days, right? I don't know if everyone has come up with any solution. If you have no solution, you can speak freely now."

The people in front of him seemed to be in deathly silence, and this deathly silence had been expected for a long time.

Seeing that the group of people in front of him couldn't think of any other way, at this moment Gu Shaoyang finally smiled. For a moment

"Since the eldest brother has already brought us to this place, it is natural that the eldest brother should make the decision. We, the younger brothers, are usually responsible for fighting and killing in the back, and the mental work is not our turn at all."

Originally, Gu Shaoyang wanted to say something, but he just hit the person in front of him, and the person in front of him looked equally unwilling to admit defeat:

"I have followed our last eldest brother on several missions before. Whenever something happened, eldest brother would stand in front of us. If you can't do this, then why should we recognize you? Be the big brother?"

These people finally expressed their inner thoughts. After hearing this, Gu Shaoyang was not angry at all:

"I thought you were all used to figuring things out on your own, but it turns out you're just used to being arranged. That's okay. Just stay here for a while. I'll tell you what to do in a while."

After saying this, Gu Shaoyang turned around and left, and then came to a small cave in the back mountain. He started to make alchemy.

Originally, he wanted to let these people express their true thoughts. Since the one just now Everyone had already spoken out, so there was no need for him to delay any longer.

About three or four hours later, with the sound of an explosion, Gu Shaoyang walked out of the cave with a pot of pills.

Fortunately, he had seen a pill in a book before. As long as he could eat these pills, he could breathe freely in the water.

Fortunately, Gu Shaoyang took a look at the formula of the pill at that time, so now Only then was he able to prepare this elixir.

After casually arriving in front of this group of people, the group of young men at this moment were still waiting there. They wanted to take a look and see if Gu Shaoyang could get it. Something good was coming out.

The huge noise from the back mountain attracted them one by one to watch. At the same time, Gu Shaoyang also came over carrying a gourd:

"Fortunately, I prepared something for you before. The name of this pill is diving pill. As long as you can take this pill, you will naturally be able to breathe freely in the water."

After saying this, Gu Shaoyang directly gave one to each of the people in front of him, and then took a bite first as he set an example:

"This pill allows you to breathe freely underwater, and it also prevents you from being affected by the water pressure below. Once you get inside, be sure to follow me closely."

These people in front of me have never heard of such a magical thing before. If it is true that there is such a magical thing, wouldn't the fishermen on the beach have already used it?

Although everyone's I always felt a little doubtful in my heart, but no one dared to eat it. Gu Shaoyang here also rolled his eyes and jumped into the water.

This time, Gu Shaoyang was diving in the water. It took more than 20 minutes. When he returned to the water, the group of people on the water were hurriedly trying to fish him out.

Chapter 1255

Gu Shaoyang's hair had already been wet, and at this time he was quietly looking at the group of people in front of him:

"I have been diving under the sea for 20 minutes just now. There is no big problem now. Come down quickly. It has been delayed for three days. If we delay it any longer, we will not be able to complete the task."

Seeing that Gu Shaoyang was able to come back safely, the group of people at this moment were finally convinced. After everyone jumped back into the sea with a plop, the group of people were finally shocked. Several people had been there before He was afraid of water, but now he can move freely in the water like a fish.

The people around him were very excited. They thought they couldn't speak, but they didn't expect that Gu Shaoyang could still give orders in the water:

"This time we will go to the bottom of the sea first, but there will also be some unusual fish on the bottom of the sea, so you must be careful."

After hearing this, the group of boys were even more shocked. They never expected that not only could they breathe freely in the water, but they could also speak freely.

"Oh my God, this is really amazing, right? We can actually talk under the sea!"

"The pills the boss gave us are so powerful. If we get a few more pills in the future, wouldn't we be invincible?"

The people around were very excited, but some people were still unconvinced. Some even thought that Gu Shaoyang was just lucky.

A group of people swam to the depths of the seabed in a mighty way. It was their first time to come to such a place. Deep under the sea, I still felt a little uneasy in my heart.

Just when Gu Shaoyang here was about to say something, a demonic wind suddenly blew directly in front of him.

The wind was very strong, and Gu Shaoyang here didn't have time. He asked the group of boys behind him to hold on to their things, and several of them were blown away.

This strange wind was really too strange. It had been calm before, so how could it suddenly happen? There was such a strong wind suddenly?

There was no time to think too much. The only thing Gu Shaoyang could do now was to keep his balance quickly and see if he could protect the men around him? There were constant rumors in his ears. Hearing the frightened voices of his men, Gu Shaoyang tried his best to protect the men around him, but in the end he only protected five or six.

The wind seemed to be getting stronger and stronger, and Gu Shaoyang, who was here, was just trying to fight. When he was swimming upstream, a strong wind suddenly came and pushed him to the bottom of the sea.

His whole body felt like it was falling apart, and the world in front of him had become a little blurry. At this moment, Gu Shaoyang fainted.

Before he fainted, he seemed to have seen several of his men being blown to the nearby area, but he no longer had the strength to save his men.

No. I don't know how much time passed, but when Gu Shaoyang opened his eyes again, the world in front of him was already dark.

After finally adapting to the dark environment under the sea, Gu Shaoyang found that all his men had been completely blown away. He was missing.

After walking forward for almost ten minutes, Gu Shaoyang finally saw one of his men lying on the ground. He ran forward in a panic and shook the man in front of him awake. After that, Gu Shaoyang took this subordinate and continued to look for others.

This time the wind was so powerful that Gu Shaoyang really did not expect that such a thing would suddenly appear. The surrounding group of subordinates were also there. After searching for it for about one night, a few people finally found most of them?

When making this pill, Gu Shaoyang also specially added an additional function to the pill, that is, it can always make people's bodies absorb nutrients from the surrounding seawater.

Fortunately, such a special function was added to the pill before. Nowadays, several people are not hungry at all, and all of them seem to be in high spirits.

Several people are looking for it. It lasted a whole day, and they searched everything around them. When it was almost dark, Gu Shaoyang finally counted the brothers. Obviously, they had basically counted them all today. I have searched most of the areas around here, but even though I have been searching for a whole day, in the end I still missed three.

"Why is there a difference of three? Haven't we always been there? How could it be possible that these three people were not found? You have to live to see people die or see corpses!"

As he spoke, Gu Shaoyang counted again.

The people next to him also seemed to be in trouble. They did not expect that they would not be able to find their companions.

Chapter 1256

After the sky darkened again, there was no light at all under the sea. Just when everyone was at a loss what to do, a glimmer of light suddenly appeared not far away.

After the bright lights came closer, Gu Shaoyang finally discovered that these bright lights were actually emitted by the legendary luminous jellyfish.

The seabed is like a dream, and the corals next to it are also strangely shaped. From time to time, there will be one or two small fish between the fingers. Everything is like a dream.

Everyone gathered together to discuss the next steps. Since three partners were missing, everyone didn't know what to do.

"Otherwise, we should go there first. If we delay any longer, we will definitely not be able to complete our mission this time." One of them warned carefully.

The task this time also has a time limit. If they don't complete the task quickly, their trip will be in vain and they won't get their salary at all.

Next to them A few people seemed to be a little shaken, but after all, they were in the water, and this place was unfamiliar to everyone, and everyone was unwilling to leave the three unlucky guys in a strange place.

People around them looked at It seemed to be getting more and more confusing, and at the same time, another person proposed again:

"I think we can leave some marks here. If those three people see this mark, they will naturally follow our marks, and we will be able to walk back along the marks then."

What he said was that he wanted to stop caring about those people's intentions, but after hearing these words, Gu Shaoyang had already frowned.

Since he brought them here with him this time, then No one can be missing, and if everyone comes together, they must go back together.

After looking at the person who just proposed, Gu Shaoyang refused directly and coldly: "Since I personally brought you out, then I will definitely I want to take you all back without telling anyone? Let's take a rest here first and continue searching later."

Gu Shaoyang has already made up his mind. If he doesn't find those three people, he would rather fail this mission than leave his companions behind.

The other people looked at each other in confusion. , and finally several people nodded helplessly.

After a short rest, the few people there immediately began to search again.

When it was almost dawn, Gu Shaoyang finally saw There was a bright light ahead. When I walked to the light, I realized that it was the three missing men surrounding a group of glowing jellyfish.

Seeing the large army, these three men were really excited, and they all ran over quickly. , the jellyfish behind them also dispersed in a hurry.

The three of them were almost scared to death. They had no experience in this place, and in addition to encountering such a strange sea breeze inexplicably, all their experiences were even more... It made them feel uncomfortable.

Seeing Gu Shaoyang coming to find them with a large force, the three people knelt down on the ground. Needless to say

, they were touched. Now everyone has found them. Gu Shaoyang was also ready to go, and at the same time he became more careful on the road.

A group of people continued to move towards the seabed in a mighty manner. Just when they were about to land, a sea monster suddenly attacked directly from the right direction.

They don't have much experience in the sea, so naturally they don't know what kind of monsters are hidden in this place.

In addition, the sight in the sea is a bit dark. Even with the blessing of the pill, human sight It still can't be compared with the sight of monsters in the water.

Just when Gu Shaoyang here was about to lead the people around him to land, at the same time, a big monster with fangs suddenly appeared next to him..

The appearance of this big monster was so sudden that the people around it didn't react at all. In an instant, everyone had more or less wounds on their bodies. As they got closer to the sea monster , The bones on the arms of those people have been exposed, and now they are lying on the seabed and rolling around.

There is salt in the seawater, and it is for this reason that the injuries sustained on the seabed are more severe than The injuries were much more serious than those suffered on the sea.

Seeing that more and more people were injured, the helpless Gu Shaoyang directly stepped forward and killed the sea monster in front of him in three strokes.

Originally, he was beside him. The group of men were still panicking, but when they saw that Gu Shaoyang had killed the sea monster in three strokes, everyone around him was stunned.

Chapter 1257

The injured people around him have now been helped to the side, and at this moment, Gu Shaoyang directly took out the gourd that he had filled with pills before.

Fortunately, he had obtained some elixirs to restore his physical strength before coming here, and now these elixirs were finally put to use.

After giving one pill to each of his subordinates, Gu Shaoyang took the lead and took his own medicine. He also introduced it by saying:

"Everyone, listen carefully. We are now at the bottom of the sea. There are many monsters here. The pill I just gave you should heal your injuries and increase your physical strength."

A few people looked at the pill in their hands with doubt. The black pill in their hand looked ordinary. How could it be the legendary miracle medicine?

Several people looked as if they were doubtful. At this moment, Gu Shaoyang also put bandages on several seriously injured people.

Because the monster just appeared so suddenly, many people did not react. The most seriously injured people in front of him also It was the one who was most unconvinced with Gu Shaoyang before.

Seeing Gu Shaoyang personally come over to put bandages on them, these people were actually very touched in their hearts. However, since they had always looked fearless before, so They were still unforgiving.

It was obvious that they had taken such a big advantage on Gu Shaoyang's side, but these people did not give in at all, and they were still chattering and chewing:

"If it were our previous boss, I'm afraid he would have found the Dragon Ball long ago. How could he be delayed here? It's because Gu Shaoyang is too slow that we encounter this situation here."

A few of them are talkative and mean-spirited. Although they say they don't surrender, in fact they already recognize Gu Shaoyang as the eldest brother in their hearts, and they just need an opportunity to pierce the window paper. Time continues to slow down like this. After walking down and curing all the wounded easily, Gu Shaoyang was now ready to take them to the depths of the sea.

The legendary Dragon Balls of the East China Sea are all in the deep sea. They Although they have found the bottom of the sea, they still have to move forward. This time they finally learned their lesson. After all, they are in the sea and not on land, so everyone is very careful.

Currently Gu Shaoyang was also extremely vigilant. The view around him in the water was not good to begin with, and there were snoring sounds coming from time to time, which was even more disturbing. Everyone had already left for about four or five days. It had been an hour, but there was still no sign of the legendary East China Sea Dragon Palace. A man sat down directly on the ground:

"We have been walking for such a long time, we should take a good rest no matter what, right? And the light in the water was so dim that my eyes were almost blinded."

Seeing that the people around him also looked exhausted, Gu Shaoyang could only let his men take a rest first.

Everyone was lying on the ground one by one, but just when Gu Shaoyang was drowsy, A strange sound came from my ears again.

I turned around suddenly and saw a very, very large tentacle flying towards Gu Shaoyang in a flying way.

I felt a little surprised in my heart. At the same time, Gu Shaoyang jumped up suddenly, and kicked the subordinate who had been lying next to him to the side. The huge claw suddenly fell into the air, and it was not until now that Gu Shaoyang finally saw this clearly. One time, what they encountered turned out to be a huge octopus monster.

The octopus in front of them was as tall as four or five Gu Shaoyang. The other subordinates had already been awakened, and they kept retreating back in fear.

It's hard to see such a huge creature when you're on land. Now it's the first time you've come to the bottom of the sea, and you've already encountered such a huge creature. After thinking about this, Gu Shaoyang could n't help but hit him hard. The ground spat, if he had known that he was so unlucky this time, he should have released some other difficult tasks.

With great difficulty, Gu Shaoyang finally rescued all the surrounding men, right here Gu Shaoyang was just about to fight the octopus monster when a voice suddenly came to his ears. The octopus monster had several hands, and the octopus monster just wanted to use one of its tentacles to make a sneak attack. Unexpectedly, he was attacked by One of the men behind him noticed it.

Just when the octopus monster over there was about to attack, he stopped it. He didn't have time to remind Gu Shaoyang, so he could only throw Gu Shaoyang to the ground.

Chapter 1258

The octopus's tentacles sank directly into the body, and the man protecting Gu Shaoyang spat out a mouthful of blood, which soon turned red.

After directly cutting off the tentacles of the octopus monster with a knife, Gu Shaoyang quickly carried the man behind a coral.

"Third child, Third child, you must not let anything happen to you. You must not let anything happen to you!"

Gu Shaoyang was doing emergency bandaging as he spoke, but it was too late now. The third child was directly stabbed in the heart and left before he could even say his last words.

When someone had an accident, several people had already hid in a mountain. In the lake, at the same time, the people around him lowered their heads in silence.

Blood was constantly flowing from their chests, and because they were underwater, the surrounding water was dyed red.

The few people around me all lowered their heads and observed a few minutes of silence. The third child is usually quite well-connected in the team.

And since everyone has been getting along for such a long time, everyone has a very good relationship. Now an octopus monster suddenly appeared and took away a companion, which made everyone feel angry.

After carefully putting the third child down on the ground, Gu Shaoyang looked coldly at the one who was still outside. That octopus monster had two or three of its tentacles cut off.

It was completely dark all around. Maybe the octopus monster had done something else? At the same time, a person next to him stood up. Get up and look around coldly:

"Brothers, we must not let this octopus monster continue to show its teeth and claws. This octopus monster has taken away our brother, and we must let him stay here!"

Because a companion died, everyone held a grudge against the octopus monster. After hearing this, another person directly raised his weapon:

"Yes, we have been good brothers for such a long time. We must not let this octopus monster continue to be arrogant in front of us. We must kill him to pay homage to our dead brother."

The remaining companions became more and more excited. Seeing this situation, Gu Shaoyang silently retreated to a corner. He also wanted to know what his subordinates were capable of.

Since they lived in the deep sea, Therefore, the monsters here are very capable of withstanding pressure, especially the octopus monster in front of them. The tentacles of the octopus monster extend in all directions. All the companions around him rushed forward one by one. Only Gu Shaoyang is still hiding in the coral. They were observing the situation outside.

Maybe it was because of the excitement of the death of their companions, so everyone became more and more angry towards the octopus monster.

One person rushed forward angrily, and stabbed the octopus monster hard. One of the tentacles was cut off.

The knife in Ah Da's hand almost fell off, but luckily he staggered and was supported by another companion next to him, so that he could not roll into the coral bush over there. He was helpless. Seeing that the octopus monster in front of him had entangled one of his friends again, at this moment, Ada finally couldn't bear it anymore and rushed forward suddenly. He still felt a bit of buzzing in his head. , and at this time, Ada had already arrived in front of the octopus, and directly raised one of the tentacles of the octopus. Before the people next to him could react, Ada had already chopped off the tentacle. It fell off, but what I didn't expect was that this time the octopus monster reacted quickly.

Just when Ah Da raised his knife to cut off one of the tentacles, a tentacle on the other side also directly entangled him.

Originally, it was in the water. The water pressure is very strong, and coupled with such a violent exercise just now, Ah Da is already breathing heavily.

Time continues to go down like this, minute by second, Ah Da here The big face has turned purple.

Although many tentacles have been cut off, the power of this octopus monster cannot be underestimated, and this time the octopus monster also directly attacked Ah Da.

Are there countless people around him who want to rush up? But these people can't come to rescue Ah Da at all, because the octopus monster has too many tentacles.

Ah Da can be regarded as the core figure of the entire team. Now Nowadays, Ah Dadu has been entangled in this way, and the other people have begun to shake their feet unconsciously.

Just when Gu Shaoyang here just stood up, the friends waiting on the other side have also been attacked by the octopus monster. The tentacles were on the list, and the octopus monster spit out ink.

It was bad now. Originally, only a few people were entangled, and there were still a few people who could come to save them, but now most of them have been killed. Entangled.

Even the core character Ah Da has been entangled tightly. How could those around him have a chance to escape?

Chapter 1259

There were constant sounds of ouch ouch in his ears. After seeing this situation, Gu Shaoyang gently put down the piece of coral he had just broken off.

Several people tried to escape just now, but the octopus monster's tentacles attacked directly from all directions and knocked them all to the ground.

Seeing that this group of people was about to be caught by the tentacles of the octopus monster again, at the critical moment, Gu Shaoyang directly drew the knife.

After cutting off all the tentacles in front of him three times, Gu Shaoyang suddenly rushed forward and stabbed the octopus with a sword.

More than a meter of ink spurted out from the place where it was penetrated, and the closest companions had been sprayed into little black men.

Somewhat displeased, he once again stabbed the octopus monster's body with his sword. The octopus monster's body began to shake violently, and those who were caught at the beginning were also shaken down.

The bones in everyone's body seemed to be falling apart. After finally escaping from death, these people hurriedly hid behind the coral to hide.

Gu Shaoyang's two blows just now had almost destroyed the internal organs of the octopus monster. At this moment, he stood quietly, looking at the octopus monster in front of him as if he was going crazy:

"I have no choice. It's not easy for you to practice under the sea for so long. I originally wanted to let you go, but who knew you, a monster, were so ignorant? If that's the case, don't blame me for being rude to you."

To be able to cultivate into such a behemoth in this deep sea, I think this octopus monster must have gone through twists and turns before, so Gu Shaoyang didn't want to kill him.

If it weren't for the fact that this octopus monster was really too deceiving, it is impossible for Gu Shaoyang to hurt him, but this time the monster has already hurt his brothers.

The companions around him had already hid in panic, and at the same time, Gu Shaoyang directly activated his internal power, detonating such a huge behemoth in front of me.

There was a banging sound in my ears, and a pool of black traces splashed everywhere. After those black traces fell, there was a small inside where the explosion had just occurred. Dan.

In fact, I really didn't want to do anything to this octopus monster at the beginning. If it hadn't been because of this octopus monster that killed several of my brothers, I wouldn't have ended up like this now. Gently. After picking up the elixir, the brothers around him had already come out. Some of them had just sprained their feet:

"This octopus monster is so hateful. Fortunately, I was defeated by you in the end. Big brother is really awesome, and I really admire you!"

In the past, there were several people who were not very optimistic about Gu Shaoyang, but after getting along with each other for this period of time, they gradually discovered that the successor chosen by their eldest brother was indeed right.

Gu Shaoyang is not only His physical strength is particularly powerful, and most importantly, his intelligence is also very powerful. Just now, Gu Shaoyang killed this octopus monster without destroying the inner elixir, which made everyone particularly admired. It's a bit regretful. Looking at the dead brothers lying in the coral, Gu Shaoyang shook his head gently:

"This time it's my fault that I couldn't protect you properly. You must be careful. We have no experience in the deep sea at all. There are too many monsters in it. You must be careful about everything."

After saying this, Gu Shaoyang came to the coral bush and bowed respectfully to the dead brothers.

If it weren't for the hidden mission he issued, these brothers would definitely still be on the shore now. They were all alive and kicking, so from this aspect, maybe they were the culprit.

They gradually felt a little uncomfortable in their hearts, but they still had to go on and set up a tomb for these brothers. After that, Gu Shaoyang led everyone to continue heading towards the bottom of the sea.

The huge octopus monster just now had polluted the entire surrounding environment, and the surrounding environment was so polluted that it was difficult to see clearly what was in front of them.

Okay? It was easy to finally get out of the environment polluted by the octopus monster. At this moment, the deep sea became darker.

When he could barely see the surrounding area less than one meter away, one of his subordinates couldn't help but complain. said:

"If we had known earlier, we should have brought something that could shine underwater. Look at what this has become."

Basically nothing could be seen around them? They could only move forward gropingly, and a few people were almost cut by a few conch shells under their feet.

Chapter 1260

There is no light in the depths of the seabed, so this group of people have been very careful. Just when Gu Shaoyang here was about to say something, a group of light suddenly came in front of them.

Due to the experience of the big monster just now, everyone was very nervous now, staring at each other in front of them, not daring to relax at all.

Gu Shaoyang was also very confused in his heart. If according to his previous understanding, there should be no light in the deep sea. How could light suddenly appear?

Just when I was feeling puzzled, a large group of fish swam over in front of me, and each fish had a faint light on its forehead.

After seeing this group of fish, Gu Shaoyang finally realized that the fish in front of him were called lantern fish. They were called lantern fish because they could emit light.

Nowadays, everyone is surrounded by this group of lantern fish. Looking at the group of lantern fish in front of them, the friends around them also look very surprised:

"Nature is indeed a miraculous craftsman, and it can actually create such miraculous species. Isn't this thing really amazing?"

Looking at the group of lantern fish that appeared inexplicably, Gu Shaoyang actually had a bad premonition in his heart, but before he could say anything, a friend next to him touched the group of fish out of curiosity.

"Stop it!" Seeing that the little friend was about to touch the lantern fish, Gu Shaoyang quickly shouted in a panic.

But it was too late to say anything now. The lantern fish at this moment was already emitting a more dazzling light. And as the light gradually fell, more and more lanterns began to flee in a hurry.

This suddenly made several people around them a little at a loss. They didn't know what happened. They watched helplessly just now. After all the group of lantern fish escaped, the sea floor was once again plunged into darkness, and everyone was a little confused.

Just when Gu Shaoyang was about to move on, the partner who just touched the lantern fish suddenly A person next to me suddenly turned pale with fright:

"What happened to you? What's wrong with you?" As he spoke, the man who touched the lantern fish just fell down.

The people around him couldn't help shouting loudly. When they took a closer look at the partner just now, they were shocked. It was discovered that this friend was actually dead!

The expressions on everyone's faces had become more and more ugly. After this incident, they knew more about the dangers of lantern fish.

Some people couldn't help but panic. They were avoiding it. At this moment, they didn't dare to have any contact with the person just now.

With great difficulty, they finally reached a place where there was no lantern fish, and everyone was breathing heavily there..

Since they were running in private just now, they didn't know where they were now. Each one of them looked around cautiously to see if there was any dangerous lantern fish just now? After watching it carefully for a while, When no traces of the lantern fish were found, these people finally breathed a sigh of relief.

At the same time, Gu Shaoyang also found that there seemed to be a lot of sea urchins on the rocks in front of him. With the experience just now, he naturally could not He allowed his companions to touch the sea urchin again.

But just as everyone continued to move forward cautiously, one person accidentally touched a corner of the sea urchin.

At the moment he took his hand away in a panic , the man's lips had turned black, and the whole person seemed to have collapsed, falling directly behind.

After seeing this situation, Gu Shaoyang hurriedly took out an antidote pill, After finally giving it to the other party to eat, this companion was finally out of danger.

Although he could come over from the gate of hell, Gu Shaoyang still had to be wary of those around him and be careful.

After all, antidote pills are not omnipotent. , and this time he came down to complete the mission. Although he was prepared, they had never seen many things on the seabed.

So if they encounter any danger again and his preparations are not used, then they will be in very danger.

So , just in case, Gu Shaoyang could only ask a few of them to be careful, otherwise if something happened again, it would be very sad for the entire team.

This is also a situation that no one wants to see.

"Okay, let's move on."

Gu Shaoyang looked at everyone and saw that everyone had almost recovered and everything that needed to be packed had been packed, so he said to everyone carefully.

Staying away from the sea urchins, Gu Shaoyang led them to continue moving forward. This time they continued towards the bottom of the sea. Setting off from the depths, what they will face soon is also unknown.
