Chapter 1281

"It was you who injured these few of my younger brothers. You are so crazy. No one has ever dared to beat one of my men."

Before he finished speaking, Gu Shaoyang punched him hard. He didn't even bother to say this to the man in front of him.

After beating the man to the ground, Gu Shaoyang said coldly. Looking at the man in front of me:

"You have been surrounded now. If you continue to resist, I will not be in the way. I want to see if you can break out of our siege."

Gu Shaoyang's organization is actually notorious outside, and after hearing what Gu Shaoyang said, the mountain king in front of him was already afraid. On the surface,

Gu Shaoyang remained calm, but in fact, he had already He had already asked his men to force out the group of bandits on the mountain.

Seeing that all his brothers had been caught, this time the mountain king had no choice but to admit defeat to Gu Shaoyang.

After the battle just now , the mountain king's body was already full of scars:"I can go back with you and plead guilty, but now I have a child, and I hope to let my children leave safely. They are innocent."

Poor parents in the world. Although this robber usually robbed many brides, he was still very kind to the children.

Seeing a woman behind him holding a child in her arms, Gu Shaoyang suddenly felt It was a bit uncomfortable.

Gu Shaoyang was not an extremely cruel person, so when he saw that all these brides had children, he did not kill them all:

"Now that you have children, I don't want to ruin your family. If you can change your mind and never do this kind of thing again, I can consider giving you another chance."

The killings in the arena have always been very cruel. Originally, the mountain king thought that he would definitely die this time.

But when he heard what Gu Shaoyang said just now, he stared in surprise. His eyes widened, and the woman behind him also ran over crying and shouting:

"This strong man, I hope you can let our king go. Our king doesn't do many bad things in normal times, and no matter what? He is also the child's biological father."

It seems that this mountain king is really good to these brides. Now the brides behind him are crying and begging Gu Shaoyang.

People's hearts are made of flesh. Looking at the group of people in front of them, Especially after hearing that the mountain king was willing to change his mind, Gu Shaoyang did not kill them all, but directly recruited them all into the organization.

Poor brides have become mothers of children, and these brides look like He shouldn't have suffered too much abuse, so Gu Shaoyang didn't do anything right?

These bandits on the mountain are actually people with little knowledge. They have no strength, and besides robbing, they don't know what else they can do. What?

After Gu Shaoyang cleaned up all of them, he accepted some of them into his organization, and also arranged some other tasks for these people. In order to facilitate his dealing with the group in front of him, Under the control of the bandits, Gu Shaoyang directly changed their former nest into the organization's new hideout, and also brought them countless new training materials.

Seeing that Gu Shaoyang brought so many new training materials, These bandits were extremely moved. If they had just relied on them to rob, they would never be able to rob so many cultivation materials even if it took five or six years. The bandit leader was so moved that he burst into tears:"Thank you very much. Brother, if it weren't for brother helping us, how could we have so many cultivation materials? From now on, we will definitely be by Big Brother's side whether we are going up mountains of swords or seas of fire."

The bandit in front of him seems to be really touched, but what Gu Shaoyang wants is not this kind of touch. He hopes that the group of people in front of him can become real people.

It is for this reason that at this time At this moment, Gu Shaoyang glanced at the bandits in front of him with a smile, and then told them all his plan:

"I know that you felt that you had no ability before, so there was nothing else you could do except being a bandit. I can give you some skills and teach you how to do business."

If they can be upright and good people, there are a few people in this world who are willing to be sneaky robbers.

Even if it is for the sake of their own children and grandchildren, they definitely don't want to be robbers. Now they have a choice for them. These people were all stunned by the opportunity in front of them.

Chapter 1282

Seeing that the group of people in front of him didn't react at all, a boy next to Gu Shaoyang rushed out without hesitation.

The younger brother looked at the people in front of him like this:"This is the money our brother has allocated to you on an exception. If you are willing to rely on your own ability to make money, then this is a good opportunity. It is better than doing it secretly all day long." Those who are reviled must be strong."

It was not until they heard these words that the young men in front of them finally reacted and kowtowed in a panic.

One of the younger brothers was so excited that he almost burst into tears:"Thank you, big brother. If big brother can really provide us with principal, then we will definitely work hard. We will definitely work hard to support ourselves with our own hands."

Looking at it. These people also seemed to be very motivated. Gu Shaoyang finally nodded gently, and he also spent some money in the organization, specifically for the group of people in front of him.

After giving them the money, Gu Shaoyang went to the foot of the mountain to inspect the situation in the small town over there. In fact, the small town over there was relatively prosperous, and the economic circulation there was relatively smooth.

After inspecting the situation in the entire small town, Gu Shaoyang nodded. If those bandits could be allowed to come to the bottom of the mountain to do business, they should be able to save more than a dozen taels of silver in a year!

Knowing that these bandits must have never done business before, Gu Shaoyang specially gathered them all and taught them a lesson.

Gu Shaoyang stared straight at everyone in front of him: "I know that you were forced by life before, and I also know that you didn't have your own space before. Now that you have this help, you must cherish it."

Gu Shaoyang is not sure whether these people can do a decent job? However, he still felt that he should give these people some experience:

"The most important thing in doing business is integrity. If you don't have integrity, it will be difficult for you to do business in your life. Small profits but quick turnover are your key to overcoming difficulties."

Compared with other shops in that small town, small profits but quick turnover is indeed a marketing point that should be there.

This time Gu Shaoyang also specially found some more experienced bosses: "This time I specially found it for you outside. There are some more experienced bosses here. If you want to learn a trade, you can take the money I give you and become an apprentice in those trades first."

We can't just open a shop right away. There must be some people who want to start as apprentices, so Gu Shaoyang also specially found some more reliable shopkeepers. It has been busy for more than a month. About time, the bandits in the mountain village were finally able to have a stable job. Several of them were opening inns and restaurants, and several of them went to be apprentices in tailor shops. In the past, no one dared to approach the mountain. , now there are gradually people, and the farmers at the bottom of the mountain have also come here to hunt.

Seeing that the surrounding scene is getting better and better, at this moment, Gu Shaoyang finally nodded proudly, A month later, he went down the mountain to check it out in person.

When he arrived at the inn run by the bandit leader, there were really a lot of people in the inn. And a large number of people looked like they were there. They are people from the world.

The bandit is really smiling now:"These are all people from the world. The prices in my store are lower than those in other stores. Naturally, they are willing to come to us. And there are many houses here."

Everyone around was bustling with people. After hearing this, Gu Shaoyang nodded. It seems that this so-called big brother really has two brushes and can control all these people. This is also a skill.

After coming out of the inn, Gu Shaoyang went to the nearby restaurants one after another. The cook in the bandit camp now opened a restaurant of his own. This restaurant has become somewhat famous, and even the cook They have already started planning to get married and have children at the foot of the mountain.

The people in the tailor shop are also very good. I heard from the master that these people in the tailor shop work very hard, and they work harder than others.

Okay? It was easy to finally help these people start their business. At this moment, Gu Shaoyang began to think about moving to the next place.

Ever since the people in the organization helped the people at the foot of the mountain to catch these bandits, the people had become more concerned about it. Their impression became better and better, and now the voices of praise from the masses could be heard everywhere under the mountain.

Sometimes when Gu Shaoyang was walking down the mountain.

Chapter 1283

Everyone could see that there were several farmers around him greeting him warmly, and those people did not shy away from praising him at all.

Nowadays, Gu Shaoyang has become synonymous with good people. After seeing this situation, Gu Shaoyang set off immediately. She had to go to the next place.

After walking for about a day, Gu Shaoyang finally came to a village, which should be called Banqiao Village.

After arriving in the village, Gu Shaoyang was shocked by the situation in the village. There were skinny people everywhere, and every household had broken windows.

Compared with the previous small town, the small town in front of it is like a collection of rags. Only one or two people's doors and windows are intact, and the doors and windows of others have long been tattered and cannot be seen.

Just when Gu Shaoyang frowned and was about to see if there was any inn or place in this town, he suddenly saw an old woman next to him. There was a basket in front of the old woman with some fruits in it.

This old woman is also very skinny, and she looks particularly bad. The fruits in the fruit basket in front are quite fresh.

Gu Shaoyang usually despises this kind of poverty, and this old woman looks pitiful at first sight. He hurried up and prepared to buy all the fruits.

"Give me all these fruits. I haven't eaten fruit here for a long time. I'll give you this."

After saying this, Gu Shaoyang gave the old woman a tael of silver. After seeing the silver in Gu Shaoyang's hand, those people nearby were almost going crazy. They rushed to bring the fruits in their baskets:

"The fruits I have here are freshly picked at home. They are the freshest fruits. If you don't mind it, why not take my share of the fruit and I can give you a cheaper price."

There were chirping sounds everywhere, and after hearing this, Gu Shaoyang frowned. It seems that these people in this town are really very poor.

That night, Gu Shaoyang came to this city. In the only inn, he first asked the innkeeper about things in the village. The innkeeper looked very helpless: "Actually, we really have no choice, and we don't know what to do. The village is very poor inside. Our ancestors have been very poor for generations."

There is not even the simplest decoration in this inn. After hearing this, Gu Shaoyang shook his head. It seemed that his work had come again.

The next day, he immediately looked around the village. This village is shabby, but the fruits in the village grow very well.

"Brother, I think we should go somewhere else. Look at what this place has become. If we continue to stay here, we will be assassinated by poor people like them.."

These young men even look down upon the poor people in these towns.

But Gu Shaoyang has never had any plans to leave. Now that he has come to this town, he must help this place get rid of poverty..

Gu Shaoyang rolled his eyes directly at the subordinate next to him.

"Is this what you said in human language? Why did we come out this time? It's just that we want to preserve the reputation of our organization. We have done so many things before, why can't we all of a sudden now?"

After saying this, Gu Shaoyang immediately turned around. He had already reviewed the basic situation of this village just now. This village is actually particularly suitable for the development of fruits:

"We have just walked around this village. The natural resources in this village are actually very rich, and the fruits here also grow very well. I tasted the fruits I bought from the old lady last night. , fruits are very sweet, we can start from this aspect."

If we can really sell all the fruits in this town, maybe we can really lead the villagers in this village out of poverty and become rich. After thinking of this, Gu Shaoyang immediately asked the villagers He was called over and looking at the group of skinny people in front of him, he said directly:

"I just took a look at the overall situation in your village. Your village is actually quite favorable, and if you grow fruits, you should be able to create a very good sign."

Single fruit cultivation is likely to result in losses, so Gu Shaoyang specially remembered some previous experiences, just in case.

Chapter 1284

He plans to grow fruits here and raise some silkworms at the same time.

Gu Shaoyang looked at everyone in front of him: "If you want to have enough to eat in the future, then follow me. I can give you a certain amount of principal first, but these principals will have to be paid back later. Mine."

The people in this village are usually poor. Now suddenly such a big pie has fallen in front of them. How can these people control it?

Gu Shaoyang had just finished these words, and the people in front of him were already cheering, and Gu Shaoyang immediately led them to get rid of poverty and become rich.

After almost three months, Gu Shaoyang finally built a complete system in this village. In addition to growing fruits, Gu Shaoyang also processed these fruits into some additional canned fruits and so on.

In just three months, these people in the village finally no longer had to eat without enough food, and the reputation of the village began to get better and better.

After finally conquering the last household in the village, Gu Shaoyang prepared to move on to the next battlefield.

He has helped so many people one after another, and more and more people are becoming particularly good with his help.

Although the reputation of the previous organization was indeed not very good, after such a long period of hard work, the reputation of the organization has quietly changed.

Time goes on like this, and it continues to move slowly. In the blink of an eye, it is only one month away from the full year. In these 11 months, Gu Shaoyang has already made the organization's reputation very, very good.

Compared with the previous times, the organization established by Gu Shaoyang this time is better than other organizations by an unknown amount, and the reputation around it is also very good.

Gu Shaoyang looked at his men happily: "I admit that you were quite capable before, but you must have never been respected by so many people!"

Not only did he manage the internal system very well, it was so good that even the reputation outside was restored bit by bit, which made these subordinates very excited in their hearts.

They used to think that strength was the king, but after following Gu Shaoyang, they discovered that not strength can determine everything in this world.

Time continues to go on like this, and now there is only one month left before the previous one-year appointment, and during this month, Gu Shaoyang has to do the last thing he can do every day.

Sometimes she was actually full of entanglements in her heart. He knew that the people in the organization truly regarded her as their elder brother.

But after all, it was just a one-year promise back then, so Gu Shaoyang didn't plan to be the big brother for a long time. He still wanted to return this position to Xunqi.

Today, Gu Shaoyang is thinking about whether there is anything else he can do. Suddenly the sound of panicked running came to my ears, and there was a person holding a letter in his hand:

"Brother, the people in the village wanted to come over to thank us, and they have prepared a lot of things. Do you want them to come over to thank you?"

It's almost the time for the Chinese New Year. Maybe those people also want to come over and thank me, but Gu Shaoyang never cares about these false claims. Instead of thinking about these messy things here, Gu Shaoyang hopes that he can He should cultivate himself well, and he also wants to travel with Zhi Zhi.

"Go talk to them. These are just our duties. There is nothing to thank them for. Just let them spend all their thoughts on their own business."

Gu Shaoyang didn't want to participate in that so-called touching situation. He hoped that he could think about his own things.

After watching the younger brother just muttered away, Gu Shaoyang finally felt relieved. tone.

During this period of time, his organization has become bigger and bigger, and it has also absorbed some people that no one cares about at all.

Although there are all kinds of people in Gu Shaoyang's organization, some People used to be thieves before, and some people used to be robbers before, but after they joined the organization, they began to develop in a good direction unconsciously. At this moment, Xunqi was practicing on the mountain. He was completely He doesn't know what happened at the foot of the mountain, and in this year, except for occasionally going out to purchase some supplies, he has never been out of other places.

If it goes according to the agreement between the two people, then After the last month, the organization was able to be returned to Xieqi's hands.

I knew that Xieqi was always a neat and tidy person in doing things.

Chapter 1285

So Gu Shaoyang thought that the curious people in the past few days would come to him immediately. Unexpectedly, it had already been several days and he still didn't see the shadow of the other party at all.

Sometimes the younger brothers kept saying: "I think, I think we should actually go to other places to see, and the previous eldest brother has not come back, just in case he doesn't want to be the eldest brother." Where are you?"

They have been following Gu Shaoyang for a year, and they really hope that Gu Shaoyang can become their eldest brother. When they think of Xunqi's return, how many of the younger brothers feel reluctant to let go?

Although these juniors all hope that Gu Shaoyang can stay in his post, Gu Shaoyang has never had such an idea. He also knows that he is the one who comes to act as a temporary agent.

He waited there eagerly for more than half a month, but still didn't see Xunqi's figure, which made Gu Shaoyang break into a cold sweat.

He didn't know where the other party went to practice. If he encountered some messy things again, wouldn't it become very dangerous?

It's not long before the agreed time, but he has never received a letter from Xunqi, which makes Gu Shaoyang feel very uneasy in his heart.

After waiting for nearly two days, Gu Shaoyang finally couldn't bear it anymore and went directly to the old doctor in the organization.

The old doctor is usually loved by everyone, and the previous leader Xun Qi also respects him very much, so to some extent, the old doctor in front of him is the legendary soul of the team.

Now Gu Shaoyang is frowning tightly in front of the old doctor: "The leader was never a person who would let others go before. Now that the appointed time is almost here, I feel really lethargic in my heart. No less."

Gu Shaoyang couldn't even sleep at all in the past two days, and after hearing this, the old doctor also felt that something was not right.

What Gu Shaoyang said just now is indeed correct. The old doctor has always been very clear in his heart that hunting for novelties pays special attention to the concept of time, and it is absolutely impossible to be late.

We had made an agreement before, and if it hadn't been for some special reasons, Xunqi wouldn't have broken his promise inexplicably.

The old doctor clearly felt that something was wrong, but Gu Shaoyang next to him didn't even have time to let him speak, so he directly stated the purpose of his coming here today:

"I can't just watch something happen to the leader. I'm thinking of searching outside in the next few days. If I can find it, it's best. But if I can't find it, it's best for us to make some preparations here.."

Gu Shaoyang thought something must have happened to Xunqi. After telling the old doctor all these things, Gu Shaoyang turned around and handed over the affairs of the organization to others.

She had also specially cultivated the people around her before. Those few younger brothers now have management talents, and they manage each one quite decently.

Anyway, they have already told the old doctor their plans, so Gu Shaoyang has no intention of thinking about anything else. What, he immediately prepared to find Xunqi.

After packing his luggage, Gu Shaoyang started on the road. In order to find Xunqi as soon as possible, Gu Shaoyang also contacted the branches.

Because trees are everywhere, and there are some mature trees in every place, and the branches It can be said that he is the king among trees, so Gu Shaoyang asked the branches to come out to contact the trees in various places.

Let them pay attention to see if they have seen Xunqi, and if so, tell him quickly, and then he will go look for Xunqi. If not, If you see Xunqi, it is very likely that he is in danger and needs help urgently.

"Once you know it, act quickly. I'm going to leave now, and you should stop practicing first."When Gu Shaoyang told Zhi Zhi, he was still sucking spirit stones from the spirit stone veins to practice.

After learning about it, Zhi Zhi could only stop what he was doing and follow Gu Shaoyang's order first, and Zhi Zhi returned to the ground and put his The roots penetrated deeply into the soil.

Then soon deep in the ground, the rhizomes of the branches spread through the underground to the tree spirits in various places. They soon learned of Gu Shaoyang's order, and then started to act one after another.

When the branches were finished After this incident, he was not idle, but hurriedly rushed in the direction of Gu Shaoyang.

Because Zhi Zhi and Gu Shaoyang had telepathy, and Zhi Zhi felt comfortable very quickly, it didn't take long for them to reunite, one person and one pet merged again

"Where do you think the curiosity might go, Master?"Coming to Gu Shaoyang's side, Zhi Zhi asked meekly and doubtfully. Facing Zhi Zhi's inquiry, Gu Shaoyang also had one head and two heads, because he didn't know where Xunqi was now.

## Chapter 1286

Not only did he not know where Xunqi was, but Gu Shaoyang didn't even know whether the other party was dead or alive.

He has been searching everywhere these days, wanting to see if anyone has seen Xunqi? But every time, no clues were found. Just when the situation became a little bit tricky, the Sophora Tree Spirit under the branch at this moment suddenly sent news.

This locust tree spirit has been practicing in Tianshan before. Not long ago, I just saw that Xieqi once practiced there, and I don't know if he has left now.

After receiving the news from the Sophora japonica tree spirit, Zhi immediately told Gu Shaoyang the news, and by the way, he also mentioned what he had heard:

"The Sophora Tree Spirit under my command just now came over to tell me. He said that he had seen Xunqi in Tianshan before, and said that his strength seemed to be much greater than before."

After all, I have been practicing for a whole year. If there is still no progress at all, then wouldn't this year be equivalent to practicing in vain? After hearing these words,

Gu Shaoyang nodded. , now that there is news about the hunt, he must hurry over and see if there is any shadow of the other party in that place?

Gu Shaoyang and Zhi Zhi immediately set off towards Tianshan that night, and in their hearts They were all nervous. If the curiosity was not in that place, their clues would be interrupted again.

After hurriedly arriving at Tianshan Mountain, the Sophora japonica tree spirit had already been waiting at the entrance of Tianshan Mountain. At the same time, The Sophora Tree Spirit introduced them to them:

"I saw that man accidentally before. I felt that the man was really powerful, so I never dared to show my face in front of that man. If I am not wrong, that man should be you all the time. Looking for someone."

Since Gu Shaoyang simply shared the information about Xunqi's appearance with the Sophora japonica tree spirits at the beginning, they were not sure that the person they found this time was Xunqi.

They had already carefully searched the entire Tianshan Mountains, but Gu Shaoyang still couldn't find the curiosity, and he couldn't find any trace that the other party had practiced here.

Finally, he was able to stop and rest for a while. At the same time, the tree branch sat directly next to him, helplessly there. Sighed:

"It seems that we are really late this time. Since Xunqi is dedicated to cultivating, he will definitely go to many places. We will probably have to look for him again."

Gu Shaoyang actually feels very uncomfortable in his heart. He didn't expect that it would be so difficult to find the big brother in the organization. He has been looking for it for a week and there is still no clue.

Gu Shaoyang right here is trying to find someone. When Xie Qi was in a hurry, Xie Qi on the other side had successfully practiced in seclusion, and now he was ready to go down the mountain.

After just one year of practice, Xie Qi could feel that his condition was better than before. He had made a lot of preparations before the year, and now he can be said to be a master among masters.

After going down the mountain in high spirits, he went to an inn to have something to eat, and happened to hear a few people next to him discussing here. Here we go:

"You must have heard of the ghost hunting organization, right? Didn't you always say that the big brother in that organization is temporary? Now it seems that the rumor is indeed true. Gu Shaoyang seems to have been looking for their former eldest brother these past two days."

After hearing this, Xun Qi's heart skipped a beat. Since he practiced on the mountain every day, his concept of time was extremely vague. He even didn't know how much time had passed.

"I have also heard that the organization is spending a lot of money to get information about their former eldest brother. If there is information about that eldest brother, they are willing to pay a lot of money to buy him out."

The two people were discussing there non-stop. At this moment, he really couldn't sit still anymore. He had to rush to the organization now.

"I heard that the person has not been found for more than a year. The world is so dangerous. That person may have been dead long ago. I don't know why we are still looking for him now. Didn't Gu Shaoyang manage the organization very well?"

When they said these words, the tone of the people in front of them sounded a little strange, and after hearing these words, Xie Qi suddenly came back to his senses.

It turned out that they all thought something had happened to me. No wonder Gu Shaoyang was so anxious to find me. As for myself.

I have basically had no news during this year, and the most important thing is that I have never sent any information to the organization during this year.

Chapter 1287

It is estimated that some time has passed since the original one-year appointment. The reason why Gu Shaoyang wants to find him so much is probably because the other party is afraid that he will die, right?

After hurriedly eating everything he ordered, Xie Qi immediately rushed towards the headquarters, and at the same time he also released the news that he was alive.

Although he didn't know where Gu Shaoyang was now, Xie Qi still prepared to tell him everything, and he also let out the news that he was going to the headquarters.

Gu Shaoyang and Zhi Zhi on the other side originally wanted to go to the next location. When they heard that Xunqi was preparing to rush to the headquarters, they felt their hearts boiling.

After looking at the time, it should be almost the same now. Gu Shaoyang hurried back to the headquarters that night, and he and Xieqi basically arrived at the headquarters one after the other.

Before Xunqi, he was very dignified in the organization, and the people in the organization were also convinced by him.

Now that they see their eldest brother's abilities increasing so much, this group of people are even more happy. A group of people kept saying:

"It's really great. I didn't expect you to be able to come back, brother. This time is really great. Brother, you shouldn't leave again this time, right?"

It's not that they don't like Gu Shaoyang's management, they just know that Gu Shaoyang has no ambition here, so they are unwilling to force him to stay.

At the same time, Gu Shaoyang has returned to the organization after a long journey. When he saw Xun Qi, he couldn't help but directly He came over and patted the other party on the back:

"Why did eldest brother come back just now? How long has it been? I don't know how long it's been since I received the news. Look at how anxious I am already."

When Gu Shaoyang said these words, there seemed to be some complaints in his tone. He had been frightened in his heart these past few days, fearing that something unexpected might happen to him while hunting.

And since the one-year appointment had already passed, A long time has passed, so Gu Shaoyang was even more worried about the safety of the other party. Unexpectedly, the other party didn't even send him any news. Regarding this incident, Xunqi has always felt a little uncomfortable in his heart. He also knew that he had indeed breached the contract this time, but because he had been practicing in the mountains for too long, he had no concept of time:

"Good brother, I know I must have wronged you this time, but I had no idea about these things when I was practicing in the mountains, so I don't know what happened. I only came down after I finished practicing."

In fact, Gu Shaoyang is understandable. After all, he has practiced before, and he also knows that practicing in the mountains is completely different from practicing outside.

Anyway, now that everyone has returned to the organization, Gu Shaoyang is ready to follow up. He explained his work to his eldest brother, and also reported what he had done this year. The hunt that night made the younger brothers cook a large table of dishes, which was also regarded as a thank you to Gu Shaoyang for taking care of him for such a long time:

"If it weren't for you, I wouldn't have been able to practice outside with confidence. Now I have practiced to the level I want. Thank you very much."

The curiosity along the way heard that Gu Shaoyang had built his organization into another situation, and he was particularly happy in his heart:

"I have heard about you all the way over the years. I know that you have been working hard to lead our organization in a good direction, and you have succeeded now. Our organization's reputation is facing the outside world. Very good."

Gu Shaoyang just wanted to introduce this matter, but he didn't expect that he had already heard it mentioned by others outside before Xunqi, which made him lower his head in embarrassment:

"It's nothing, I just hope that our brothers can be respected by others, and it's not good to fight and kill for a long time, and it might hurt our brothers."

Gu Shaoyang's next plan is to go to Tianwai International to make a career. Although he also knows that Tianwai International is a world where the jungle is the strongest, he believes that he can have a place:

"Now that the organization has been handed back to the elder brother, I will set off tomorrow. I plan to go to Tianwaiwai to have a look. That place should be conducive to cultivation."

After hearing this, Xie Qi frowned. The reason why he chose to practice in the mountains and forests was because he knew that the outer world itself was a world where the weak and the strong preyed on each other:

"You must think clearly for me. People in the outer world are predators of the weak. If you don't have enough ability to protect yourself, you will probably be eaten by them."

This matter must not be taken carelessly!

Chapter 1288

If you are not careful at all, it may cause some unavoidable consequences.

Time continued to move slowly like this, and at this moment, Gu Shaoyang nodded solemnly. He had already thought about this matter, and naturally he would not be distracted by other things about.

Gu Shaoyang didn't know at all. In fact, Xun Qi also had some concerns in his heart. He didn't know if he could manage this organization well.

But since Gu Shaoyang has worked so hard this year, he must continue to work hard. The next day, Gu Shaoyang was already taking the branches and preparing to leave the organization.

Zhi Zhi also practiced outside for a long time before, and now he is even stronger than Gu Shaoyang.

But after arriving at the entrance of Tianwaiwai, Gu Shaoyang felt a little embarrassed at this moment, because there was no way to continue practicing on the branches of Tianwaiwai.

If Zhi wants to improve his strength through practice, he must find spiritual stones. If there are no spiritual stones, then he will have no way to practice at all.

It was precisely for this reason that after hesitating for a while, Gu Shaoyang still left the branch at the mineral vein.

Before leaving, he looked at his good brother with some reluctance, sighed softly and said:

"You must practice well. Only true strength is reliable in this world. If you don't have strength, everyone can come and bully you."

Maybe Zhi Zhi doesn't know how important strong strength is yet, but it is definitely right to continue practicing, and he also knows that Tianwaiwai is not conducive to his own cultivation, so he didn't say anything else. The cultivation in Tianwaiwai is basically All he relied on was his Heavenly Immortal Qi, but today's branches are simply unable to absorb these Heavenly Immortal Qi.

After leaving the branches in the mineral vein, Gu Shaoyang came to Tianwaiwai by himself, and he had already begun to plan the next thing.

Now he is already standing at the entrance of Tianwaiwai, but if he really wants to go in, he must be introduced by someone.

Gu Shaoyang has no connections in this place at all. If he really wants to go in, If he wants to go in to practice, he must first find someone who can write a letter of recommendation for him.

After thinking of this, Gu Shaoyang couldn't help but feel a headache. Did he really not know who he should go to? In his impression, he seemed to have no dealings with these people in the outer world at all.

And just as Gu Shaoyang was about to go out to find someone, at the same time, he suddenly received a gift from the old doctor and Xie Qi. A letter came over.

This letter happens to be the letter of recommendation that Gu Shaoyang needs most now, and the curiosity in it also specifically mentions this matter:

"I forgot to remind you a few days ago that if you want to enter the Foreign World, you must be recommended by a certain person. Now you have already arrived at the Foreign World, right? This letter of recommendation is a gift from the two of us."

This letter of recommendation was also written by someone else. After seeing this letter of recommendation, Gu Shaoyang finally felt a lot better.

The old doctor had already given him a lot of help in normal times, and now For giving him such powerful help on such a major matter, he must express his gratitude when he returns.

This letter of recommendation is what Gu Shaoyang needs most, and it is also the best gift he has received so far.

Since Now that he already had a letter of recommendation, Gu Shaoyang immediately took the letter and came to the border of Tianwaiwai. He originally thought that he should be able to enter Tianwaiwai, but the people guarding the border looked down upon others. , when they saw Gu Shaoyang's dusty appearance, they started to mock him.

"People like you should go to other places to practice. We have the most abundant Heavenly Immortal Qi in the world. Do you think cats and dogs can enter this place?"

The tone of the man in front of him sounded particularly speechless, and after hearing this, Gu Shaoyang also frowned. He didn't want to have any conflicts with these people yet:

"No matter how rich the heavenly aura is, is it still a place for cultivation? The existence of such a place is to enable people to practice better. I think there is nothing wrong with me coming to this place, right?"

Gu Shaoyang must not be outdone. He has done so many great things before, how could he be bullied by these two little minions in front of him?

"Don't be nice here. There are many people in this world who want to come to us, but there are very few people who can actually come to us."

Chapter 1289

"Do you think you can practice after entering now? But don't let yourself accompany it."

These people simply look down on people, and they also feel that Gu Shaoyang is definitely not a rich man? In addition, Gu Shaoyang has traveled all the way here, and his current mental state is not good, so these people are even more unscrupulous in ridicule:

"People like you should go outside to practice obediently. All the people who practice here are experts. If you die inside, your parents will really have raised your son in vain. It's better to hurry up. Go back!"

I have already made it clear to these people in front of me that I am here to practice, but these people simply look down on me. After thinking of this, Gu Shaoyang felt angry in his heart. At the moment, he frowned coldly. He frowned and his tone of voice couldn't help but become cold. He directly took out the letter of recommendation that Xunqi had given him:

"I don't need to worry about whether my parents have white hair and give birth to black hair. This time, they came with a letter of recommendation seriously. I hope you can let me in, or don't let me in. What kind of conflict would it be better for us to have?"

Gu Shaoyang's temper has almost reached its limit. If it weren't for knowing that he didn't want to cause trouble in this foreign country, he would have beaten these men to the ground just now. Originally, these men looked like it was still a fool's errand, but when they saw that Gu Shaoyang

actually took out the recommendation letter, the expressions on their faces began to become a little embarrassed.

They really didn't expect that Gu Shaoyang actually had the recommendation letter. They thought that Gu Shaoyang actually had the recommendation letter. This man wants to fish in troubled waters and enter the outer world.

Time continues to go down minute by second. At the same time, Gu Shaoyang is also quietly looking at the group of people in front of him. He knows that these people I probably didn't expect that I would be recommended:

"You all should be familiar with Chinese characters. Can you take a look to see if the content here is true? I can guarantee the authenticity of the content here, but if you don't let me go, then don't blame me for being rude to you."

The people in front of them opened the envelope hesitantly. When they saw the signature inside the envelope, they all froze on the spot.

Originally, they looked down upon it at the beginning. But after seeing the signature on the envelope clearly, one of them immediately handed the envelope to Gu Shaoyang with a playful smile:

"It turns out that we are distinguished guests. I'm really sorry. A few of us were just worried that if we didn't have the strength, we would be bullied inside. In fact, we didn't have any ill intentions at all just now."

When he said these words, this man's face was particularly ugly. After hearing this, Gu Shaoyang directly snatched his letter of recommendation from this man's hand:

"I advise you not to underestimate anyone. If you underestimate anyone, you may be completely destroyed. Be careful when you speak and do things in the future, but don't make things like today. The moth."

The tone of his words sounded particularly indifferent, but after hearing this, the man in front of him just nodded his head non-stop. The man next to him also changed his demeanor now, and kept nodding his head. Compliments:

"You are right, you are right, I know everything you said this time is right. The two of us were really worried that you would be bullied after entering, so we wanted you to retreat before the difficulties. We also hope You must not be familiar with us."

To be honest, Gu Shaoyang felt very strange in his heart. He didn't know why a small letter of recommendation had such a huge magic power.

It was obvious that these two people were showing off in front of him just now, but now Suddenly I was very respectful to myself. Are all the people with letters of recommendation good?

Although I felt a little doubtful in my heart, after all, I had already obtained permission to enter, so I took my recommendation. After writing the letter, Gu Shaoyang immediately prepared to go in.

However, the person next to him ran out in a panic again. He looked at Gu Shaoyang in front of him with some embarrassment and said, "Wait a moment here, someone will come to you soon." of."

After hearing this, Gu Shaoyang became suspicious again. Is it possible that someone really wanted to pick him up when he went to heaven?

Just when he felt doubtful in his heart, two people came out in front of him at the same time, and this The two people were followed by a large number of subordinates.

The two people took a look at the tokens in the organization to the two gatekeepers, and the two gatekeepers immediately stepped aside respectfully.

Chapter 1290

The leader came to Gu Shaoyang: "Brother has already greeted us before, and I hope you can come in with us. We have packed it for you."

These people in front of him should be People in the organization, and after hearing this, Gu Shaoyang suddenly realized that the power of the organization was indeed stronger than he imagined.

Since there is already such a huge team in the outer world, it seems that I have not neglected these things before. I still know too little...

Seeing that such a large group of people came to pick me up, Gu Shaoyang Only then did I finally understand that the power within the organization was not as simple as it seemed on the surface.

The people in front of them should have been living in Tianwaiwai for a while, so they have a very special understanding of the situation here. One person was telling Gu Shaoyang about the things here:

"You should have heard about things here before coming here. This is actually a world where the weak and the strong eat each other, and the world here is also very special and unusual."

This place is famous for the jungle. If you don't have any strength, you will probably be bullied by others."

"Don't worry, the organization has certain rights in this place. If you really encounter something, you can explain it clearly to the people in the organization first, and the people in the organization will help.."

After hearing this, Gu Shaoyang felt a lot more at ease. It seems that he has really come to the right place this time. At least there is someone to help him come to such a place.

Because the people in the organization have previously At that time, he had already inquired about everything in Tianxianguo, so they were assigned to a pretty good house, but no one paid any attention to him for several days. On the one hand, he did not have too much experience, and on the other hand, He was not prepared, so when no one came to pay attention to him, Gu Shaoyang felt panicked for the first time.

He couldn't help but frowned and thought:"That shouldn't be the case. If no one comes, If so, should I go out and find someone to bring over the few people who supported me before? I don't even know what I should do?"

Gu Shaoyang now has no idea what he should do next, and since he knows nothing here, he has no acquaintances.

In order not to continue to waste time, Gu Shaoyang planned to go out the next day to inquire. After he came outside, He happened to see a man in front of him. The man didn't look domineering.

After coming directly in front of the man, Gu Shaoyang looked a little reserved. After all, it was his first time in this place:

"Hello, I would like to ask how we practice cultivation here? How can we cultivate the fastest?"

I originally thought that this man should not be domineering, but after hearing this, the expression on the face of the man in front of me suddenly became extremely mocking:

"You look dull. I guess you are from outside. It seems that this is your first time to practice here."

There is always a feeling of looking down on people in the tone. After hearing this, Gu Shaoyang was stunned. It seems that you can't look at the surface when looking at people. This person pretended to be submissive before, but it was just He was just afraid that others would find trouble. Seeing that he was a newcomer, he was so unscrupulous in front of him.

Gu Shaoyang nodded quietly at first, because he knew that he couldn't fight with the person in front of him, but what happened next The man's words really made him completely angry:

"My advice to you is to get out of here quickly. Not just any cat or dog can come in here? If he were beaten to death, the parents at home would be very sad."

Gu Shaoyang was already very angry. After hearing this, Gu Shaoyang became even more angry. In line with the principle of not wanting to conflict with these people here, he could only find another person to inquire. Another person was very happy:

"Don't mind if the person just spoke harshly. Most of the people here talk like this. They are just arrogant. If you want to practice well, you must go to Tianlu Academy."

Gu Shaoyang had never heard of Tianlu Academy before, so he naturally didn't know what it was about. The person in front of him still introduced it and said:

"Of course, good places are particularly difficult to enter, and Tianlu Academy has cultivated a lot of talents in the past. If you really want to practice well, I advise you to consider it. Tianlu Academy There are very good conditions in the college."
