

## Attributes 1291

### Chapter 1291

Time continued to move slowly like this. After hearing this, Gu Shaoyang nodded. He knew that it would be difficult to get into this famous Tianlu Academy, but even if it was difficult to get in, he should still fight for it. It takes a fight

"It's quite a coincidence that you came here. In three days, this academy will be recruiting apprentices soon. You should hurry up and find out what you need to prepare. Three days is a long time."

Tianlu Academy is about to recruit apprentices. After hearing this, Gu Shaoyang felt excited in his heart. If he could enter this academy in one fell swoop, he would be able to make greater progress in the future. He hurriedly returned. After entering his small room, Gu Shaoyang immediately started to pack up his things. He first packed up all the things he had brought.

Knowing that there should be a lot of competitions before entering the academy, Gu Shaoyang specially I went to a tavern, bought a glass of wine for the person sitting at a big table, and then asked in detail what I needed to prepare.

"The seats at Tianlu College are always very scarce. If you are really ambitious, you can give it a try. There is nothing special to prepare, just prepare your own letter of recommendation.."

Since Gu Shaoyang had already bought a lot of wine for this group of people, they naturally became a little more polite. The recommendation letter was something that Gu Shaoyang had prepared a long time ago, and his recommendation letter seemed to be in This country is quite important.

"You must be careful. The apprentices recruited by Tianlu Academy all have special talents. If you accidentally get injured in this competition, I'm afraid you won't be able to recover. You'd better be careful. wonderful."

The few people before leaving seemed to be particularly worried about Gu Shaoyang. After all, they rarely see anyone in this world who would take the initiative to buy wine for them.

After Gu Shaoyang finally left, the people behind him began to There was a discussion there:"These young people are really young and energetic. There have never been so many people who wanted to

apply for the academy before. This year, so many people came all at once. I don't know who can get in." Yo."

Gu Shaoyang has been here for the past three days, preparing things in a disciplined manner. Although he knows that he does not need to prepare too much, after all, he is a new arrival, so he still hopes that he can be better prepared.

This evening Gu Shaoyang is preparing. To reward himself, he suddenly heard a few people outside discussing the exam:

"I heard that this time there seemed to be young people from three families coming outside. The young people from those three families have worked hard, and I don't know if they can win the favor of the academy this time."

Gu Shaoyang was stunned for a moment. He really rarely heard that people in the family would come to this place to practice, but since they have already come to this place to practice, it seems that the family should be prepared, right?

Very It was almost the day when the academy started recruiting apprentices, and that day was really full of people coming and going. Normally, we don't see many people signing up, but there were a lot of people that came that day.

Looking at the group of people in front of me, they kept coming. Going back and forth, even Gu Shaoyang couldn't help but be stunned for a moment. He didn't expect that there were so many people in this academy.

"No wonder that group of people advised me to be careful when registering. It seems that so many people came to register every year before. This is really difficult."

It was the first time I saw so many people taking the same exam. Gu Shaoyang was stunned when he saw this situation. The first round of the written test was a written talent test, and there were several big and strong guys in front of them who all failed. Come on, this made several people ridicule:

"I thought that this group of people must be very powerful, but it turns out that it is just like that. If I had known earlier, we should have signed up to participate. Even cats and dogs like this have the ability to come, and we must have a better chance of winning."

Many people have passed before Gu Shaoyang, but everyone's talent is mediocre, which made the examiners couldn't help but frown.

When Gu Shaoyang came to the competition site, the examiners in front of him showed no interest at all, because They thought that the man in front of them did not have a strong physique, and they knew at a glance that he was probably here to hang out.

Gently placing his hand on the stone in front of him, Gu Shaoyang entered a meditative state according to the method given by the instructor just now.

After he completely entered the meditative state, the stone in front of him suddenly burst out with a particularly dazzling light.

The examiners around him were all sitting there drinking tea, but when they saw the light of the stone When he was so strong, he was stunned.

Chapter 1292

When Gu Shaoyang woke up, everyone present was about to turn to stone. Only Gu Shaoyang stood there with a bewildered look on his face.

The crowd was quiet. It was clear that the crowd didn't react like this before. Could it be that something happened when I entered the meditative state?

After swallowing subconsciously, the examiner in front of him suddenly clapped his hands gently:

"It's really amazing. This is the first time I've seen a player as talented as you. You are the most talented player in this competition."

The people around him immediately started chattering. Although their voices were very small, Gu Shaoyang could still hear them:

"Oh my god, what the hell is going on with this man? It doesn't seem like a big deal, but I didn't expect him to have such a talent. I remember no one has ever been able to make a stone so bright!"

"The level of the stone's light represents the intensity of the man's talent. The light of the stone has already blinded us. It seems that this man's talent cannot be underestimated."

The people around him kept chattering like this. After Gu Shaoyang was stunned for a moment, he calmly started to enter the second round of selection.

He never felt that he lacked talent, but he just didn't think of his talent. What these people said was so exaggerated.

After the first talent competition was over, the teachers in the academy had already set their sights on Gu Shaoyang. This man was one of the few good prospects they saw. The second round of the competition is the legendary maze exploration, and the most taboo thing in the maze exploration is multiple people fighting.

At the beginning of the competition, Gu Shaoyang didn't even notice that there were three teenagers around him. The teenagers beat Gu Shaoyang up and down. Brightened up a bit

"Big brother, it must be this kid. I remember it was this kid who came first in the first round."

One of the shorter people said to another person next to him, and the other person nodded in the same way:

"This year's quota is already very rare, and the existence of this person is even more of a threat to us. You should be well prepared, and we will talk about other things later."

Following the order from the teacher next to him, everyone entered the maze. Just when Gu Shaoyang was about to go exploring, a person suddenly came out from behind:

"You must be the one who won the winning prize in the first round. You are really good at picking your luck."

Looking in the direction of the sound, I happened to see a person standing there with a look of disdain on his face, and his face was almost crooked with anger:

"We are bound to win these places this time. If you continue to compete, the people in our family will always be against you."

The three teenagers in front of him were all wearing the same clothes. They seemed to be members of the same family. Gu Shaoyang recalled the gossip he had heard before. The tone of the man just now was so arrogant, and coupled with the What this man said, Gu Shaoyang nodded gently. It seems that these three people should be from the family:

"This competition itself is based on the principle of fairness and justice. If you really want to enter the academy, you should show your true skills."

The person who just spoke is called Lin Da. In fact, the so-called neighbor family is not a first-class family at all? But because they spent a lot of money this time, these three people are particularly crazy.

"Don't talk about these nonsense with me here, even if you talk about these nonsense, it is completely useless. I warn you, if you dare to block the way of our three brothers, then don't blame us for being rude to you."

The Lin Da in front of him rushed up directly, and his voice was also full of anger. After hearing this, Gu Shaoyang just felt bored. He didn't pay attention to these people at all, and chose to ignore them and run away..

This competition should be fair and just. In addition, Gu Shaoyang has never thought of relying on some small means to win before, so he does not think that these three family disciples can hide it from the eyes of the academy teachers..

Now it's the second round of the game. After entering the maze, Gu Shaoyang looked at the heavy fog in front of him in a daze. The first round is all about talent. If you lose in such a game, you lose. There is no such thing. Any other possibility, but the second round of the game is completely different.

The path in the maze in front of him has been buried by heavy fog. Just when Gu Shaoyang here just wanted to choose a path at random , Lin Da's voice came from behind again:

"It seems like you want to go against us out of pure intention!"

Chapter 1293

"You are really capable, we won't let you go this time."

The shadows of those three people appeared behind him again. After hearing this, Gu Shaoyang rolled his eyes in boredom. He originally didn't want to get to know these people, but these people couldn't get along with him at all.

"I don't want to conflict with you. We are all here to provide ourselves with better conditions for cultivation. If you can choose a fair competition, I can pretend that you didn't say what you just said."

Gu Shaoyang spoke righteously. He didn't want to conflict with the people in front of him, but that didn't mean he was afraid of the people in front of him.

"Stop farting here. You don't even know how much effort our family has put into sending us here. If it goes as you just said, will all the efforts made by our family be in vain? Yet?"

Since he said he didn't know why these three people were staring at him, but since the words had already been said, Gu Shaoyang knew that there was no possibility of mediation between the two parties.

Now they are all in the maze, Just when Gu Shaoyang was about to speak, Lin Da in front of him rushed over, the whip in his hand crackling.

Fortunately, Gu Shaoyang's reaction was relatively quick. If it weren't for his quick reaction, he would probably The whip just now was really going to hit him hard.

Lin Da's whip was no ordinary whip. This whip had been soaked in poison for decades before, and it was full of everything. It's poisonous.

If someone is accidentally whipped by this whip, the next thing will definitely become unimaginable. The other two younger brothers also surrounded Gu Shaoyang, looking at the people around him , Gu Shaoyang couldn't help but clenched his fists.

They had already started to take action. Gu Shaoyang originally wanted to fight back, but just when he was about to take action, he suddenly realized that the inside of this maze was a world under surveillance. He had already been there before. I have heard the teacher talk about the rules here. If there is a conflict with the people around him, then both groups of people will be judged to have no grades.

In order to take the overall situation into consideration, Gu Shaoyang decided not to conflict with the people in front of him. , anything else should be discussed after this competition is over:

"It seems that the three of you are really disobedient. Didn't you already say that before? Team fighting is not allowed here. You want to die, but I don't want to die yet. Just play house here."

While these people didn't react at all, Gu Shaoyang rushed out of the encirclement, and when he left, he knocked Lin Da hard to the ground.

"Damn it, this kid is so arrogant. We must get this kid out. We must not let him finish this competition....."

Maybe it was because he had never been knocked to the ground before, so after being knocked to the ground, Lin Da was really angry and couldn't speak.

In fact, Gu Shaoyang has never understood that if he wants to be against him, these people are not the same at all.

They clearly understand the gap between the two, so why do they always want to come here to provoke them? Is it possible that this academy will not recruit other people?

Gu Shaoyang had such doubts in his heart. He never thought that those disciples had already inquired about the academy's enrollment quota. This time, the academy only admitted three people.

If you want to let people in their family in, you must first eliminate those powerful people around you.

It is precisely for this reason that these people have been tightly surrounding Gu Shaoyang. The Lin family wants to let one of the three in to prepare for future emergencies.

Since Gu Shaoyang has already run away, these three people can only prepare to go elsewhere angrily. Before leaving, Lin Da was still there saying to several other people:

"This kid will definitely become an obstacle on our road to success. You all should keep an eye on this brat. If you find this brat's whereabouts, intercept him immediately."

The fog in this maze is so heavy that even Gu Shaoyang can't tell where he is now? He didn't know the layout of this maze at all when he came in? What if he can't find it now? As for the basic direction, it will probably get worse in the future, right?

"There should always be some clues. Could it be that this maze didn't give us any clues and was just a test of pure luck?"

The occasion of this competition is so serious, Gu Shaoyang does not think that these are just to test his luck.

Chapter 1294

Luck is such a biased thing.

A person walks slowly in this maze, which is quiet like a no-man's land where no one grows.

Gu Shaoyang carefully recalled every corner when he came in, and he carefully recalled everything he had seen before.

When he came, he specifically looked at the road he chose. There should be no problem with the road he chose. As for which road really leads to the destination, no one is sure?

And knowing that those three brats are now focusing on him wholeheartedly, Gu Shaoyang must find a correct route to the end for himself on the one hand, and on the other hand, he must prevent those three people from coming to cause trouble for him:

"The teachers in the academy are really good at playing. They must have made these heavy and big things themselves. This thing doesn't look easy to make....."

Speaking of these disciples of the Lin family, they are actually quite unlucky. They want to let one of them enter the academy wholeheartedly. No matter who can enter, as long as one of them can enter.

Originally, they were full of confidence to win the first place in the first competition. What they never expected was that Cheng Yaojin suddenly appeared in the middle, and Gu Shaoyang was an absolutely formidable enemy. No one can match his talent value.

Precisely because they were caught off guard this time, these people were actually very anxious, and they had no idea whether they could enter the academy.

This time, I originally wanted to trip Gu Shaoyang directly in the maze, but I didn't expect that he would slip away again. Lin Da, one of them, punched the side hard:

"If we can't stop that man here today, I guess we won't have any chance in the future. No matter what, we must stop all these people."

The more he spoke, the more he felt a little angry in his heart. At the same time, the other Lin Er next to him frowned:

"That's right, that man's talent value is too high. If we let him get out of the maze, then all three of us will probably be in trouble. We have to trap him in the maze."

The three people started their plan secretly. Gu Shaoyang on the other side was looking for the next exit out of boredom. Because the fog in this place was too heavy, he couldn't see clearly where it was. exit:

"It's really baffling. This time, the college doesn't only recruit one person, so why are these things only focused on me? It's so weird, isn't it? I don't know what these people are thinking about all day long!"

The expression on his face seems to have become more and more disdainful. At this moment, Gu Shaoyang just hopes that he can find a way out quickly, but the way out in this place is not so easy to find.

Everyone is already surrounding this broken place. The place had been moving around for almost half an hour, but Gu Shaoyang still couldn't find any clues, which made him feel worried.

"It's impossible to leave no clues at all. How could it be possible to leave no clues at all? Could it be that this maze is really just about luck? The admissions process of this college is really confusing. Can luck solve everything?"

I have to admit that sometimes luck is also a part of strength, but even if luck is a part of strength, luck is still far inferior to strength. People with strength can turn defeat into victory no matter how bad the situation is. In the air The atmosphere had already become more and more tense. Just when

Gu Shaoyang here was about to move forward, he suddenly felt a strange sound coming from his ears.

Looking in the direction of the sound, he saw At the same time, Gu Shaoyang hid in a panic. The wall made of plants in front of him actually moved, and countless green hands stretched out from inside the wall. He had already heard that someone could control plants before. , but this is really the first time Gu Shaoyang has seen this, and the tentacles of the plant in front of him have begun to become more and more:

"It belongs to his grandma. It seems that there are indeed good things in it. Why are the people in the college so calm all the time? It seems that a trap has been laid in this place a long time ago. Why haven't I encountered it before?"

After seeing the huge green tentacles in front of him, Gu Shaoyang froze on the spot at this moment. He didn't know whether he could escape under the green tentacles.

Gu Shaoyang had never been able to escape before. He has no experience fighting against the legendary controller.

Chapter 1295

It was precisely for this reason that he gradually felt a little uneasy in his heart.

He was already annoyed enough by those people in the family, but he didn't expect to encounter this huge green tentacle again this time, which made him feel more and more uncomfortable.

Seeing the huge green tentacle in front of him slapping towards him again, Gu Shaoyang directly pulled out his sword and stabbed the center of the tentacle fiercely.

I thought that I could inflict some wounds on this tentacle, but what I didn't expect was that this hand seemed to feel no pain at all and actually penetrated the sword directly.

"Damn it, this thing really doesn't have any feeling, right? That's right, this thing is probably controlled remotely by the operator, so it's impossible to have any sense of touch."

After thinking about this, Gu Shaoyang immediately wanted to escape from this place. The 36 strategies were the best way to go. If he didn't leave quickly, he would probably have to stay here today. He kept running forward in a hurry But unfortunately, the tentacle behind him seemed to have eyes, and kept following behind him.

Just when Gu Shaoyang here was about to leave, at the same time, the families on the other side The people inside had also heard the sound here. The three people hurriedly came to Gu Shaoyang's next door. They had seen the entire process of Gu Shaoyang's battle with the green tentacle just now.

Looking at the huge green tentacle in front of them , Lin San's heart became a little scary, and he hurriedly pulled his eldest brother's sleeve:

"Brother, I heard that once this thing gets entangled, it becomes very troublesome. Otherwise, we should leave quickly, but we must not get entangled with this thing."

When Lin San said these words, his hands were shaking non-stop. Lin Er next to him also looked very anxious. After thinking about it gently, at the same time, Lin Da in front of him suddenly Suddenly he burst out laughing:

"How could you leave now? You two are really too unambitious, right? This is a once-in-a-lifetime opportunity given to us by God. If we can take advantage of this opportunity to trip this man here, he will never have the chance to compete with us for a spot."

After saying these words, Lin Da couldn't help laughing. After hearing this, Lin Er and Lin San looked at each other. The huge tentacle in front of them was obviously not something that people of their level could control. That's right.

Just when Lin San here was about to say something, Lin Da suddenly turned his head. He was holding a mirror in his hand. This mirror was originally from the family. The elder himself put it into his hands:

"Just rest assured. When I came here, the elders had already given me our family heirloom. This thing can clearly see all the routes in this area, so I already know how we should leave. This maze."

After hearing this, Lin Er and Lin San became happy. If they could leave this maze now, they would definitely be the first.

"But don't be too happy too early. Have you forgotten what results this man achieved in his first competition? If those teachers really want to open the back door, I guess this man will definitely be selected."

When he said these words, Lin Da kept frowning tightly, and the two people next to him were also a little at a loss. This sentence is correct. After all, Gu Shaoyang's talent is indeed a rare one in a hundred years.

If it were the academy If there is no such talent in it, then it is impossible for this college to develop for such a long time. It is precisely for this reason that this time Gu Shaoyang seems to have already stepped into the threshold of the college.

After looking at the expression on Lin Da's face in front of him, Lin Er suddenly seemed to understand something at the same time. He looked at Gu Shaoyang with some shock as he was fighting hard with the tentacle:

"Brother, do you mean to let this man die in this place? If this man dies in this place, he will never have the chance to enter the academy in his life, and those three places will most likely be ours."

Yes, if Gu Shaoyang can be allowed to die in this place, then he will definitely be able to enter the academy directly, and maybe all three of them can go in. After seeing that the eldest brother in front of him didn't refute at all, the people around him Lin San was immediately frightened and took two steps back in panic. Lin San was a relatively innocent child.

Chapter 1296

"Brother, this person is just a little bit more powerful, but that doesn't mean we should let him die, right? If he really dies because of us, will you feel at ease for the rest of your life?"

Before he finished speaking, at the same time, Lin Da in front of him slapped Lin San hard on the face. At this moment, he replied coldly:

"Stop being ridiculous here, have you forgotten how much effort the family put in to finally send us in? If we fail to pass the threshold of the academy, our family will most likely be doomed."

After hearing this, Lin San didn't speak anymore. In order to send a few of them here this time, the family has basically exhausted all the connections and resources.

Besides, the elders have already sent their Zhenjia The treasure was taken out. If he didn't enter the academy quickly this time, his family would probably never have any chance to be proud in the future, right? After thinking about this, Lin San finally sighed helplessly. At this moment, he was just watching his elder brother block all Gu Shaoyang's escape routes.

After watching all the exits blocked, Lin Da finally finally He glanced at the wall next to him with a complicated expression:

"We have no way out now. Ever since the family wasted all their resources to send us in, we have no way out. The only thing we can do now is to enter the academy. , we must fight for those three places."

In the face of the naked facts, the three of them have no right to choose at all. If they don't choose what is best for them, their family will probably be completely wiped out. At this moment Gu Shaoyang was fighting the huge tentacle without knowing it. Because the dense fog around him was too big, he couldn't see where there was an intersection where he could turn. He managed to find almost three or four There was an exit, but no exit was accessible. After seeing this situation, Gu Shaoyang couldn't help but frowned.

He basically searched all eight directions just now, but still couldn't find it. Wherever there is an exit, is it possible that all exits are inaccessible?

Not to mention that I want to find a new intersection, even the intersection I came from before has been blocked. Is it possible? Is there any other trick here?

Seeing that the huge tentacle in front of him was about to pounce on him, Gu Shaoyang finally had no choice but to adopt an all-round attack method. The weapon in his hand was thrown out of thin air. At the same time, Gu Shaoyang also jumped up. When he kicked the tentacle in front of him hard, his two swords directly cut off the roots of the tentacle. There was a bang in his ears. At the same time, the three brothers of the Lin family on the other side were eavesdropping outside. When they found that the entire wall had collapsed, they all looked at each other. At the beginning, Gu Shaoyang was still It was a little strange. He didn't know why the three people in front of him suddenly appeared behind the wall.

But when he thought about all the eight exits he had just blocked, Gu Shaoyang suddenly understood at the same time. Okay, it seems that these people want to kill themselves!

"You are really laughing your ass off that you still want to enter the academy. Consider this a gift from me."

The wall next to it was being repaired rapidly, and at the same time, Gu Shaoyang directly trapped these three people in a dead place, and at the same time, a huge tentacle appeared next to him. He

watched helplessly as the three people in front of him were The death place was surrounded by huge tentacles. At this moment, Gu Shaoyang just smiled coldly. He has never been a saint, and he will never forgive those who want to harm him.

Just After leaving indifferently, Gu Shaoyang walked forward quietly, but when he reached a corner, he encountered the monster again, and this time the attack was stronger than before.

Since Gu Shaoyang already had the first combat experience, Gu Shaoyang has actually mastered the combat skills of all the monsters in this maze.

It is for this reason that looking at the monster in front of him When it rushed towards him, Gu Shaoyang slashed towards the left side of the monster without even thinking.

Chapter 1297

It was precisely because he had fought the tentacle monster just now that Gu Shaoyang was able to understand the monster's real weakness. The real weakness of the monster in front of him was on the left side of his head.

The monsters in this maze all have one thing in common, that is, there seems to be a red shiny thing on the left side of the monster's ear. This shiny thing seems to be the source of life for these monsters.

After finishing the monster in one fell swoop, Gu Shaoyang originally wanted to get away with it as before, but what he never expected was that this time, a map suddenly erupted from the monster's body.

After checking the map carefully, he found that the map actually contained the real information in the maze. After seeing this, Gu Shaoyang was very happy.

There is no real route that can be taken on this map, but as long as there is such a topographic map, Gu Shaoyang already feels a little confident.

Time continued to go down slowly like this. When Gu Shaoyang finally reached the exit, there were already several people in front of him at this moment.

If it weren't for the obstruction of a few people in the family, Gu Shaoyang would have been able to come out more than half an hour ago, and now there are about 30 people standing outside.

Just when the examiner here was about to ring the gong, a familiar voice suddenly came from the maze at the same time. Three brothers from the family helped each other and ran out:

"Sorry, the three of us are about to come out. Please wait for us a moment, we are about to come out."

After hearing this voice, Gu Shaoyang looked back slightly. The bodies of these three people were already scarred. It seems that they must have fought with that monster!

After thinking of this, Gu Shaoyang couldn't help but slow down. He has not been able to get out of the maze yet, but now he has seen the exit of the maze. Just when Gu Shaoyang here was about to get out of the maze, Lin Da in front of him suddenly rushed up with a strong step and fiercely. Suddenly he knocked him down at the fork next to him.

Lin Er and Lin San also ran out closely with their brother, and when Gu Shaoyang stood up, the exit of the maze had already been sealed. All the people have gone out

"What's going on? I was clearly almost at the finish line just now, why did you inexplicably leave me in this damn place again? What's going on?"

Gu Shaoyang began to knock on the wall in front of him crazily. He couldn't wait to let the people outside hear it, but the walls of this maze were soundproof, and it was always noisy outside, so No one heard clearly that there was another person locked up in the maze.

If Gu Shaoyang hadn't slowed down and looked at the people in the family, there was no way he would have been deliberately hit at a fork in the road, and the place's The thick fog was really too heavy, so the teachers could only hear the sound, but did not see anyone else at all.

In order to cover up the bad things he had done just now, Lin Da immediately smiled and took the I took my money bag and went to find the teacher just now:

"This time I really want to thank the teacher. If it weren't for the teacher who helped us delay the time a little, the three of us would have been unable to come out. We also hope that the teacher can accept our wishes."

Lin Da knew at a glance that this was not the first time he had done such a thing. His movements were particularly smooth. After hearing this, the teacher in front of him also smiled. After checking that there was no one else around him, he finally put this Putting the wallet in his bag:

"I have been very optimistic about the three of you from the beginning. I know that the three of you must be talented people. Your family spent a lot of money to send you here, right? Don't worry, our teachers naturally know it well. As long as you behave well, there shouldn't be any big mistakes by then."

The two people around him kept laughing, and when the teacher finally left, Lin San said worriedly:

"I think we should go back. If we don't release the man, what if he is really hurt in the maze? Do the three of us really have to live with one life on our backs?"

Lin San was very hesitant from the beginning, and after hearing this, Lin Da really couldn't bear it anymore. He directly pulled the two junior brothers to a place where no one was around:

"The three of us must unite now!"

Chapter 1298

"And we must not think about those messy things. Do you think I am willing to do those bad things? If it weren't for the fact that there was no other way, who would be willing to do such a shameful thing?"

Lin Er and Lin San were silent. Lin Da turned around angrily and prepared to follow the teacher. Before leaving, he ordered:

"The family basically spent all their honors to send us here this time. If all of you are so ignorant of praise, then don't blame me for being rude to you. You all should be imprisoned by me. Keep your mouth shut tightly, that man will definitely not die. We will release him after we have achieved success."

While the three people here were still fighting among themselves, Gu Shaoyang on the other side stayed alone in this maze gloomily. He was really about to regret it to death:

"Tell me about me. Normally I am not very curious. Why am I suddenly so curious this time? Being too curious is not killing yourself."

The mood in his heart became more and more helpless, and at this moment, he was walking aimlessly in the maze.

As he walked, he suddenly saw a very strong light in front of him. The burst of light had already passed through the thick fog.

After arriving at the origin of the burst of light with some curiosity, Gu Shaoyang was suddenly sucked in by the light. When he woke up, he found that he was standing in a desert. Originally, Gu Shaoyang wanted to see where the light source was? But after he was accidentally sucked in, he realized that he had come to a world that he had never been before. The blazing sun was simply He wanted to dry up the entire earth. At the same time, Gu Shaoyang looked around himself. He found that he had come to the desert inexplicably.

The environment in the desert was really torturous, although Gu Shaoyang had been there before. He had some survival experience, but because he didn't know why he came to this place, he didn't know how to get out at all. On the other side, the three brothers of the Lin family have now entered the final level. Okay, including these three people, only 30 people finally entered the final level.

"You all must listen to me clearly. No matter what happens, you must not tell us what we just did. If others find out, the three of us will never be able to enter the academy again."

Lin Da gave extremely serious instructions to Lin Er and Lin San beside him. He also knew that his two junior brothers actually did not want to do those bad things, but if they did not do such bad things, then they would not have the chance to do it at the same time. Entering this academy.

Just when Lin Er and Lin San were still struggling in front of them, at the same time, the teacher of the academy at the third level had already come out to announce the rules:

"First of all, congratulations to everyone for being able to come out of the maze within the stipulated time. I believe that everyone has a certain understanding of their own strength. The next level will test the independent ability of everyone here."

The people in front of them couldn't help but chattered, and the teacher here took out a map. There were exactly 30 routes to choose from on the map:

"Next, you will enter this place one by one and pass through the levels. Only after entering this place will you know what your mission is? Before that, you must first choose your route by drawing lots."

The people around them seemed even more at a loss. They could only follow the teacher's instructions and draw lots one after another to see which route they were on.

After everyone had finished drawing lots, the teacher Then he finally looked at them with a smile and gave them his final blessing:

"I hope you can all return to this place safely. Since you have chosen to participate in this competition, I wish you a good result. I will be waiting for you at the final location."

Everyone has a number in their hand, and this number corresponds to the entrance to the third level.

Looking at the number in his hand, Lin Da at the same time faced Lin Erhe next to him. Lin San nodded:

"The next thing is up to you. You must be careful and concentrate all your attention. If you really can't hold on, admit defeat. Your own life is the most important thing."

Everyone has reached the third level. At this moment, Lin Da entered the route he chose. After entering the route, he saw another layer of fog in front of him.

Chapter 1299

Looking at such a thick layer of fog in front of him, Lin Da couldn't help but think of what he had experienced in the maze before. There was also a very thick fog in that maze.

In fact, Lin Da felt a little guilty in his heart, but if he had not kicked Gu Shaoyang to the side at that time, he and his two junior brothers would not have been able to advance together.

Soon enough, when Lin Da here couldn't help but feel a little uncomfortable in his heart, suddenly there was a rustling sound, and then there was a scorpion spirit who went crazy. Swinging his tail over.

Although the surrounding fog is extremely thick, it can still be seen that the height of the scorpion spirit in front of him is even several times higher than Lin Da's height.

Lin Da couldn't help but take a breath of cold air. At this moment, Lin Da couldn't help but clenched the weapon in his hand. It seemed that the monster in front of him was an obstacle on his way!

The situation of Lin Er and Lin San on the other side is not much better? Although the route chosen by these two people did not have such a thick fog as an obstacle, the two of them also encountered monsters large and small.

Among the three disciples, Lin San's ability was the weakest, but he was the luckiest. Although he also encountered a tiger, the tiger's ability was not very strong.

But Lin Da was not so lucky. At this moment, Lin Da had fought several times with the scorpion spirit in front of him, and he already had several wounds on his body.

Seeing that the scorpion spirit in front of him... was about to rush towards him, Lin Da immediately turned around, but his speed was too slow.

The poisonous tail of the scorpion spirit was inserted directly into Lin Da's thigh. By the time Lin Da tried his best to split the big scorpion in half, his legs were already black and blue.

Lin Da, who had already become confused in his head, struggled to move forward, but when he was halfway there, he finally fainted uncontrollably.

The situation in each route that night was different. Lin Er and Lin San were relatively lucky. The monsters they encountered were not very powerful, but the scorpion spirit Lin Da encountered was one of the best monsters in the entire game..

Lin Da had already fainted, which meant that he could only stop here, and it also meant that it was impossible for Lin Da to pass this competition.

Just as the third level here was in full swing, Gu Shaoyang on the other side was walking with difficulty in the desert. He realized that this desert seemed to be more than just a lack of water.

Ever since he came to this desert, Gu Shaoyang felt as if his spiritual power had been completely suppressed, and all he could rely on was his own physical strength.

At first he could barely hold on, but as he walked slower and slower, his stomach began to growl, and his mouth became thirstier and thirstier.

If he didn't find a clean water source quickly, Gu Shaoyang might really die in this place. After thinking of this, he began to feel particularly uneasy.

In fact, Gu Shaoyang had no idea where he was until now. Although he knew that the surrounding environment was a desert, it was hard for him to imagine where there could be such a large desert around this college?

You've been walking in this big desert for almost three or four hours, right? Apart from exhausting all his energy, Gu Shaoyang had no other gains.

The sun was hanging high in the sky. Gu Shaoyang raised his head and looked at the sun. The sun's dazzling light made it impossible for him to open his eyes.

After subconsciously swallowing his own saliva, Gu Shaoyang suddenly saw an oasis in front of him. When he jumped towards it with joy, he realized that it was just a mirage.

The further he walked, the faster Gu Shaoyang felt that his strength was losing, and his stomach kept growling, and his mind seemed to be getting more and more blurry:

"When I get out, if I can really get out, I will definitely blow the shit out of the three of you. It's obviously just an ordinary game, but are you being so deceptive now?"

Gu Shaoyang's heart is full of resentment, but the most important thing for him now is to escape from this place quickly. If he doesn't escape from this place quickly, things will probably become more difficult in the future. It's done.

After walking for almost half an hour, Gu Shaoyang originally wanted to see if there was any water source around here? But after walking here for such a long time, he didn't see any water source at all.

Chapter 1300

The sun above his head seemed to suddenly become two. Just when Gu Shaoyang here was about to take another step, he felt dizzy and dizzy in his head, and then he fainted without knowing anything. past.

Gu Shaoyang seemed to feel someone calling his name while he was sleeping. He tried to open his eyes, but he couldn't open his eyes at all.

When he finally woke up, he realized that he was still in the desert, but this time he seemed to feel that the surrounding environment was a little fishy.

Gu Shaoyang remembered that when he first arrived in this desert, the sun was not far to the south of him, but it had been so long and the direction of the sun had not changed at all.

After all, so much time has passed, and it is impossible that the direction of the sun will not change, unless it means that this space is not a real space at all.

After thinking of this, Gu Shaoyang suddenly felt enlightened. No wonder he couldn't feel any life breath in this desert. Maybe this desert was not a completely existing desert at all.

There are more or less living things in ordinary deserts, but the desert in front of us is completely lifeless, not to mention animals, and even the grass cannot revive:

"No wonder I suddenly appeared in this place. Could it be that this place exists in my fantasy?"

Now there is no other way. At the moment, Gu Shaoyang can only treat a dead horse as a living horse doctor.

He began to concentrate his energy to see if he could use his own mental power to break this existence that may be an illusion. In his ears there seemed to be some strange sounds coming from him. It was only now that Gu Shaoyang realized that he had not heard the wind at all this time, but where did the sounds in his head come from

? He was getting weaker and weaker. This time, Gu Shaoyang really tried his best to finally concentrate his mental power a little.

Time just kept going like this. , when Gu Shaoyang's mental power was almost exhausted, a bang suddenly appeared in his ears, and then the desert began to disappear at an extremely fast speed. After some staggering, he stood up holding on to the wall next to him, and then At this moment, Gu

Shaoyang finally smiled. It seemed that his guess was correct. The desert just now was indeed an illusion.

The desert formation should have been buried in the maze from the beginning. As for this formation, The fact that he was accidentally stepped on was all thanks to the three good brothers of the Lin family.

Finally, he finally came to a place with a more suitable temperature. At this moment, Gu Shaoyang was panting there. Rough, he couldn't wait to go outside to find something to drink.

"It seems that your vigilance is particularly high. You should be the first person to come out of this place in such a short time."

Suddenly there was a voice behind him, and after hearing the voice, Gu Shaoyang immediately turned around warily, only to find that in front of him was an old man wearing a Taoist robe. The old man's hair and beard had turned gray. After seeing the vigilance in Gu Shaoyang's eyes, the old man in front of him handed him a glass of water:

"Ordinary people would stay in that formation for several days. I didn't expect you to come out in just a few hours. No wonder you are the person with the highest talent value. You are indeed worthy of your reputation."

The old man in front of him looked like a fairy. After taking the glass of water that the other party gave him, Gu Shaoyang hesitated in his heart. He didn't know where he came from at all. If he was If you accidentally fell into the other party's trick, then you still don't know if you have the life to go back?

"You must have just come to practice with us, right? I've never heard of you before. Don't you want to go to the academy to practice? I'm the dean there."

As if seeing through the doubts of Gu Shaoyang in front of you, the old man in front of you directly announced his family name. He is the dean of the college:

"This time the competition was monitored by us throughout the whole process. Originally, I thought of trapping you in it for two days to show off your spirit. I didn't expect you to be able to escape so quickly. You are indeed a powerful person. Where are the characters?"

The old man in front of him really gave people a very unusual feeling. After hearing this, Gu Shaoyang finally felt relieved. When he was in the desert just now, he was really about to die of thirst. Dead.

After drinking all the water, Gu Shaoyang finally bowed respectfully to the old man in front of him:
