

Attributes 1301

Chapter 1301

"It turned out to be the dean. Forgive me for my poor eyesight. I couldn't tell it at the beginning. I wonder if there was something wrong with the dean finding me here?"

If I really broke through that illusion, then it should be the maze that appeared before. Now it appears in front of the dean inexplicably. It seems that the dean deliberately set the exit in this place.

Gu Shaoyang is not a fool. Of course he knows that the dean in front of him will not call him here for no reason. Since he has already been called here, it means that the dean must have other thoughts, right?

At the same time, Gu Shaoyang nodded gently in front of him. He couldn't wait to seek revenge on the three brothers.

"In fact, you are the most optimistic person among all our teachers, but you didn't expect to be plotted by those people. However, this is also your lack of ability. If you could draw carefully from the beginning, you would not be plotted by those people. Three people settled it."

It turns out that the dean already knew everything from the beginning, and after hearing this, Gu Shaoyang felt a little guilty in his heart.

In fact, what the dean said is right. If it wasn't because he underestimated the enemy, if it wasn't because he looked down on those three people at all, he wouldn't have been pushed to the side of the maze by those three people. Just when Gu Shaoyang was still feeling guilty in his heart, the man in front of him The old man suddenly took out a ball

"The teachers among us are making a bet. If you can come out of the illusion with your own strength, we will give you a chance. Go ahead. This is the key to the entrance to the third level. We believe in you."

There is nothing special about the ball in his hand. It is just marked with a number, and the number is 31.

After being slightly stunned for a moment, Gu Shaoyang suddenly realized that it seemed that the old man in front of him Grandpa wanted to give himself another chance to succeed.

After thinking of this, Gu Shaoyang took the ball from the grandfather's hand unceremoniously, but still thanked him respectfully:

"Please rest assured, dean, I am lucky enough to be able to give me this opportunity. I will not let him down."

After saying this, Gu Shaoyang went directly to the next level, and at the same time, another teacher came over dragging his long skirt:

"Is there really no problem? After staying in that illusion for such a long time and breaking the illusion with his own strength, his physical strength must be very weak now."

The female teacher behind him seemed a little worried. Ordinary people might not be able to stand up after what they just experienced, but Gu Shaoyang was not only able to stand up, but seemed to have almost recovered his mental strength. This man's recovery The ability is really terrifying.

The dean didn't speak at all. He just came to the exit. People were already coming out one after another, and two of the three brothers from the Lin family came out.

Lin Er and Lin San and the others have also come out. They originally wanted to watch the eldest brother come out, but the eldest brother has already been dragged to the college's emergency center.

I heard that his eldest brother was not able to come out of this level. , Lin Er and Lin San were extremely frustrated. In fact, the two of them had always regarded their eldest brother as their center.

"Cheer up, although the eldest brother can no longer lead the two of us to move forward, he can't stay with us forever. Now we just need to be good and produce some results."

Just when Lin Er and Lin San were encouraging each other, Gu Shaoyang also walked out on the route No. 31.

Lin San was the first person to see Gu Shaoyang. When he saw that he should be trapped When the man in the maze actually appeared at the exit of Route 31, the expression on his face became surprised:

"how can that be possible? I clearly remember that this man was not qualified to participate in the third level at all. How could he suddenly appear in front of me? What is going on?"

Lin Er has also seen Gu Shaoyang. Both of them were in a very nervous mood. After Gu Shaoyang came out of that route, he came directly to the dean's side:

"Thank you Dean for giving me a chance. If I can enter the academy, I will definitely practice well in the future."

It took Gu Shaoyang less than ten minutes to get out of this line from the time he entered it, even faster than some people came out. The female teacher next to him was shocked when he saw this situation.

Chapter 1302

No one has ever been able to get out of the way so quickly, and this was despite having been injured before.

Seeing Gu Shaoyang standing in front of him in high spirits, the dean in front of him nodded at the same time. After the other party left, the female teacher next to him finally said with great seriousness:

"It seems that I really made a mistake this time. This man is indeed very powerful. He was able to walk out in less than ten minutes, and he walked out even though he was injured. This man Men are indeed not to be underestimated."

The tone sounded full of shock. Gu Shaoyang on the other side had already arrived in front of Lin Er and Lin San, but did not see Lin Da. It seems that the eldest brother was injured by a monster in the third level. Bar?

"You two are really good at it. You pushed me aside for no reason. Don't you really think that this will damage your reputation?"

When he said these words, Gu Shaoyang's tone sounded particularly sarcastic. He really didn't expect that these people could do such a crazy thing:

"You keep saying that you belong to the family. Is this how your family educates you? It seems that your family is not a good family after all? You'd better pray secretly from now on."

There will be a competition next, so Gu Shaoyang doesn't plan to quarrel with the two men in front of him now.

After a slight warning, Gu Shaoyang has already arrived in the hall next to him, and at the same time, the deputy The dean has already come out with the next question:

"Congratulations to all of you for coming to this place. You have worked really hard. The next level is very simple. As long as you can defeat yourself in your heart, you will be promoted successfully. The top three who can complete this level will be Will be eventually admitted to our college."

There were cheering sounds from other people around him. Seeing that the people around him were very excited, Gu Shaoyang just frowned because he knew that this tip given by the old man was very difficult.

"Defeat yourself in your heart. What is there to defeat in your heart? Besides, all of us have overcome the previous three views, so how can we still not defeat ourselves?"

There seemed to be people chattering around, but they still haven't figured out what this topic means?

At the same time, the vice-dean also gathered everyone in front of a big stone. The material of this stone seems to be completely different from what I have seen before.

"Is there an obstacle in everyone's heart that cannot be overcome? Only by overcoming this obstacle can your future life be more positive, so this time I hope you can defeat yourself in your heart."

The vice-dean just pointed to the stone in front of him as he spoke. This stone can reflect people's most sincere desires and the truest self in their hearts:

"This stone can reflect the truest point in your heart. Only by defeating your own desires can you gain stronger power, so your next competition will take place during this time."

At this moment, Gu Shaoyang was very suspicious. The material of the stone in front of him looked really extraordinary. What was this stone made of?

Time continued to go on like this. As they walked, the people in front of them lined up one by one to go to the big stone, and they soon saw their true selves inside the big stone. When it was about to be

Gu Shaoyang's turn, he suddenly saw The deputy dean next to him shook his head, and then someone said:

"One of the people who entered in front has already been defeated by me. It's really a pity. It seems that we won't be able to pick out good seedlings this time, right?"

After hearing this voice, Gu Shaoyang couldn't help being shocked. It has only been a few minutes now. Has someone already been defeated by himself in his heart?

He couldn't help frowning and came to this stone. In front of him, a particularly dazzling light appeared in front of him. When Gu Shaoyang turned around, he was in a large desert again. The blazing sunshine kept shining in the mid-air, looking at the scene around him. Gu Shaoyang couldn't help being stunned in the vast desert. Even she didn't know what her truest thoughts were.

Just when Gu Shaoyang here was about to go to the front to see what was there, he suddenly heard There seemed to be a very strange sound coming from behind, and the sound sounded particularly awkward.

Chapter 1303

When Gu Shaoyang turned around, he discovered that a person exactly like him appeared behind him. The only difference was that the person in front of him had a red mole between his eyebrows.

"who are you?" After seeing the person in front of him, Gu Shaoyang suddenly became extremely nervous. He could not feel the energy fluctuations in this person's body.

"What kind of person am I? how? Haven't you figured it out yet? I am the true personality in your heart!"

The man in front of him just laughed out loud as he spoke. After hearing this, Gu Shaoyang tightened his grip on the weapon in his hand.

Because he didn't know what the man in front of him was like. ability, so Gu Shaoyang was very careful at the beginning, but it was no use being careful. The person in front of him was already ten times faster than him. He couldn't help but feel a little surprised. Gu Shaoyang really didn't expect , he really didn't expect that the speed of the monster in front of him would become so fast. He finally stumbled up and got up, but the monster in front of him actually chopped his weapon into pieces:

"You are still so timid, you are still so cowardly. If you really want to go to the academy, then you must pass my level and show your true ability!"

After saying this, the monster in front of him suddenly transformed into a little girl and came to Gu Shaoyang.

Gu Shaoyang only saw the little girl in front of him wearing tattered clothes, and the tears in his eyes were like Falling like beads:

"You can't destroy me. If you defeat me, then I will never be alive again. Please, please just let me live!"

The little girl's voice sounded very pitiful, and after hearing this voice, Gu Shaoyang couldn't help but froze for a moment. Just as he was stunned, the little girl in front of him returned to his previous appearance and looked directly towards her. Gu Shaoyang struck hard.

The knife in the opponent's hand left a deep scratch on Gu Shaoyang's arm. He was breathing heavily. At that moment, he felt like he was about to faint from the sun.

The environment in the desert was already very violent. In addition, the monster in front of him had no idea what his attributes were. Gu Shaoyang didn't know what was going on. Originally, he wanted to attack with the weapon in his hand. In the past, but every time his weapon was about to hit the monster, the monster would transform into various images of pitiful little girls.

Facing such a pitiful little girl's appearance , Gu Shaoyang simply couldn't bring himself to fight, so she was hit by the monster again and again.

Time passed slowly like this, and seeing that there were already large and small wounds on her body, Gu Shaoyang In the end, he reluctantly stumbled to his feet.

He knew very well in his heart that if he didn't quickly find the key to defeating this monster, things would probably get serious. Wait until

Gu Shaoyang hits him hard again When he slashed at the monster, the monster turned into a little girl again, but this time Gu Shaoyang closed his eyes.

A strange scream came from his ears. When Gu Shaoyang opened his eyes again, The monster in front of him had long since disappeared, and the desert around him was also disappearing at an extremely fast speed.

By the time Gu Shaoyang came out of that environment, the wounds on his body had already healed automatically, and there were several monsters around him. Individuals?

Only the last of the three children of the Lin family is left, and this time a total of ten people have passed the fourth level.

If the previous agreement is followed, the three people who come out first will definitely be able to enter the academy. But this time the dean decided to temporarily increase it again

"You all performed very, very well this time, and it is precisely because of your performance that the dean wants to give you a chance."

The deputy dean came in front of these people. After hearing this, the top three people immediately became unwilling. Gu Shaoyang happened to be the third person who came out, and now there are people around him who are constantly there. Chirping and saying:

"Wasn't it already agreed upon before? It was agreed that the first three people to come out would be admitted, so how could they change their minds like this? Doesn't this chill everyone's hearts?"

Of course the three top three people are reluctant, but the remaining people have already become excited. Originally, they had no chance to participate in the academy, but now that there is an additional competition, it is very likely that they can also be admitted. Selected.

Anyway, the old dean means everything.

Chapter 1304

So this matter is equivalent to being settled like this.

"Everyone must be very tired now, right? In this case, you should go back and have a good rest first. If you recover quickly, we will proceed to the final level tomorrow."

Everyone else went back to rest. Only Gu Shaoyang felt strange in his heart. Logically speaking, the elders in the academy should be the most principled. How could the competition suddenly and inexplicably increase?

Although I feel that there must be something fishy in this matter, since people have already said this, they must have their own ideas, and there is no need to think more. That night,

Gu Shaoyang stayed in the inn where the contestants were arranged. settled down, and the college also provided them with pretty good food.

"It is indeed one of the best colleges here. Look at the food and drinks here. They are countless times better than what we had before!"

The voices of the people around him all sounded cheerful, but Gu Shaoyang just ate what was on his plate. The teachers in the college on the other side held a meeting. The deputy dean frowned. Wrinkled like a marijuana flower, he did not expect that the dean would suddenly propose to increase the competition:

"Dean, some people have already doubted the fairness of our selection this time. Why is there suddenly an additional competition? Adding another competition will definitely bring a lot of impact to our side!"

Originally, it had been decided before that the first three people who came out could enter the college to study, but this time the old dean suddenly changed his mind in advance.

"Isn't that right? We have always acted according to the rules in the past. If we don't act according to the rules, we will have to speak out again. Now there are probably many people trying to figure out the intentions of our courtyard behind our backs."

Everyone's voice sounded very anxious. After hearing this, the old dean nodded. He must have done this because he had his own ideas.

Time continued to slow down like this. As he walked down, looking at the anxious expressions of the people in front of him, the old dean could only explain in detail:

"In recent years, the qualifications of our disciples have become worse and worse. It was true that there were only three rounds of competition before, but if we continue to select according to the previous method, I estimate that the people we select will be similar to those in previous years.."

The quality of these disciples in the academy is getting worse and worse. If we don't recruit some high-quality resources quickly, then I'm afraid the academy will become much weaker than before:

"I know you are thinking about the reputation of our school, but we must not introduce those poor resources anymore. We must ensure the quality of the students in our college."

The words have already reached this point, and the few people around them can only shake their heads helplessly. They know that things cannot be changed now, so they leave it to the dean.

When everyone has left After that, the dean called the vice-dean to his side, and the two of them discussed the people who broke through the barrier during the day.

Naturally, the vice-dean watched from beginning to end, and he also had special feelings for a few of them. Very impressed, especially on Gu Shaoyang:

"The boy who won the first place in the first competition was indeed amazing. This time, his inner demons he encountered were both the most powerful and the least powerful."

Other people's inner demons are all abilities, or some shadows. Only Gu Shaoyang's inner demon is kind. The inner demon he faces is particularly cunning, and he keeps taking advantage of Gu Shaoyang's kindness.

"Sometimes being kind-hearted is nothing more than harm to yourself. This time Gu Shaoyang was able to cut off his inner demons through this opportunity, and his decisiveness will definitely become more and more powerful in the future."

After saying this, the deputy dean in front of him nodded. In fact, he had already seen Gu Shaoyang's results. The dean was also very interested in this boy. He was able to be in that maze at first. Coming out already shows that this boy has good observation and strength.

In addition, this time he focused on watching Gu Shaoyang's fourth level game, so the dean is really very satisfied with this boy:

"You are right. I think we should really consider it. Gu Shaoyang is a talent worth cultivating. I plan to accept him as my close disciple in the future."

Cherishing talents is a mentality that every teacher has. After hearing this, the deputy dean in front of him nodded directly:

"This boy is indeed a malleable talent. If he can work under you, the dean, he will definitely achieve great things in the future."

Chapter 1305

"We will pay close attention to his movements here."

While the dean and the vice dean here were talking, they never thought that there was someone outside who had been secretly eavesdropping on their words.

Now Lin Da and Lin San have been eliminated. After being eliminated, only Lin Er was left who could barely continue the competition.

Because he was really worried, Lin Dal came to the door of the dean's room overnight and heard that he wanted to accept Gu Shaoyang as a closed disciple.

After returning home, Lin Da told Lin Er and Lin San about this matter. The three of them were as anxious as ants on a hot pot, and they were all very nervous.

This time, the people in the family were really It took a lot of money to send the three of them back. Although two of them have been eliminated now, Lin Er still has a chance to enter the academy.

It is for this reason that when they learned When the dean actually wanted to accept Gu Shaoyang as a closed disciple, Lin Da immediately took out a packet of poison from his bag:

"If you want to stop the dean from doing this, there is only one possibility now, which is to prevent Gu Shaoyang from participating in tomorrow's game. I also have a pack of sweat medicine here, and I will send all these to him in a moment."

On the other side, Lin Er and Lin San seemed to be hesitant, but things were too tense now, so they didn't say anything in the end.

Just when Lin Da just wanted to deal with Gu Shaoyang. , at this moment, a voice suddenly came from behind, and the dean appeared next to Lin Da:

"Don't think about these nonsense all day long. If you think about these messy things all day long, I will disqualify your brother from the competition."

The dean's face looked particularly ugly. He had already seen through from the beginning that these disciples of the Lin family were not economical lamps.

In fact, the old dean had already noticed that someone was stealing after Lin Da left. Listen, that's why the investigation came to his head.

After seeing the bag of sweat medicine in Lin's hand, the old dean felt a little angry in his heart at this moment:

"You should all be members of the Lin family. Generations of ancestors in your family have been heroes. How come you have such a despicable and shameless person in your generation? Is it possible that you still want to use drugs to deceive others?"

Lin Da really didn't expect that what he did would be heard by the old dean, so now he wants to make up a reason for himself, but he can't make up any reason.

"For the sake of the elders in your family, I won't argue with you this time. If you dare to play tricks again, then don't blame me for being rude to you."

After saying these words, the old dean left angrily. If it weren't for the fact that some elders in the academy were from the Lin family, they might have been expelled long ago. It's because there are a

few elders in the academy. The elder is from the Lin family, so the dean wants to let them go. At least he should do it on the surface.

After going back, Lin Da did not tell his two junior brothers about this matter, because now he didn't want to affect the mood of the two junior brothers, and he didn't want his two junior brothers to be expelled because of one of his ideas.

When it was just dawn the next morning, Gu Shaoyang had already gotten up, and he didn't even know what happened last night?

After finally finishing breakfast, Gu Shaoyang came to the entrance of the academy with his weapons. There were already several people waiting, and everyone was very excited.

Yesterday they After finally resting for a whole day, they are all very energetic now, but because they don't know what the content of the next level is? So they seem to be particularly nervous.

"I think maybe they want us to fight in a group. Maybe they just want the most capable people."

Some people have already guessed the content of this competition, but Gu Shaoyang does not think that the content of the final level of the competition will be so superficial. The dean of the college must be a well-informed person, and the dean of the college must be well-informed. Chang Ye is particularly powerful. If it is so superficial, it would look a bit weird.

After thinking of this, Gu Shaoyang's heart became extremely nervous. He always felt as if there were greater difficulties. Waiting for himself in front of him.

While everyone was chattering there, the door inside the academy finally opened, and at the same time, the vice-dean came over with a scroll:

"I have kept everyone waiting for a long time. I believe that after what happened yesterday, everyone should be in a special spirit, right?"

Chapter 1306

"The last level of our competition today is to climb to the top of the academy."

Before I finished speaking, those around me could not help but take a breath of cold air. Everyone knows that there are thousands of steps to the top of the academy.

Ordinary people will never climb boringly. The mountain of the academy, now there is an inexplicable title? Everyone is feeling extremely panicked

"Our elders have already set some restrictions on the mountain. You must rely on your own abilities to climb to the top of the academy. Who can climb the highest? Who has the best resources for cultivation?"

A few people originally wanted to fly with swords, but after hearing this, they became even more sad. If there were some restrictions on the mountain, then they would probably have to use their physical strength to climb to the top of the mountain.

"Since everyone has had a good rest yesterday, I believe that your physical strength must be enough. I hope you can hold on. The elders and I are waiting for you at the highest place."

After saying this, the vice president disappeared directly. After hearing this, other people couldn't help but complain.

After passing the fourth level yesterday, there were only a dozen people left. , those people nowadays are constantly complaining:

"I've heard about it a long time ago. I heard that there seem to be thousands of steps on this mountain, and that this mountain is particularly dangerous. If we just use physical strength, I don't think any of us can make it down."

The people around him kept sighing, but after hearing this, Gu Shaoyang did not hesitate at all. He has always believed in his physical fitness. Without saying anything, he went directly to the entrance, and Gu Shaoyang took the lead in starting the climb. Journey, and then the few people behind him climbed up helplessly one by one. It was pretty good at the beginning, and you could vaguely see a few people following you behind you, but as the mountain The altitude of the mountain is getting higher and higher, and the physical strength of the people behind him is getting weaker and weaker. By the time Gu Shaoyang reaches the top of the mountain, the people who have been following him no longer know where they are going.

The dean and deputy director at the top of the mountain The dean was waiting not far away. Gu Shaoyang was the first person to climb to the top of the mountain. He surpassed the previous contestants by several hours.....

If they simply relied on their own physical strength for support, many people would not be able to persevere, and no one had ever really been able to attempt it on the Academy Mountain with physical strength.

Some people have already lost mentally from the beginning. It is precisely for this reason that they cannot climb down at all. Many people have exhausted all their energy when they are halfway up the mountain.

Gu Shaoyang was naturally the first to climb to the top. When he saw that the people behind him had disappeared, he couldn't help but feel a little proud in his heart. Practicing in stupid ways does have some effect.

There were already several teachers waiting for Gu Shaoyang and the others on the top of the mountain. When they found out that the first boy had climbed to the top of the mountain, and that it had only been two hours since they climbed the mountain, several teachers were already staring in surprise. Big eyes?

Even their teacher might not be as fast as Gu Shaoyang, and their teacher had tested the speed of ordinary people before. It should take ordinary people at least three or four hours to climb to the top of the mountain.

Gu Shaoyang was already the most talented person from the beginning, and now with such strong physical strength, even these teachers couldn't help feeling sighing in their hearts.

One of them came to Gu Shaoyang happily and patted his shoulder gently:

"Young man, I remember I noticed you before. You should be the one who came first in the first competition. You are really amazing. You can climb the mountain in just two hours. If we go to the top of the mountain, I'm afraid our teachers can't do this."

After hearing this, Gu Shaoyang lowered his head deliberately pretending to be embarrassed. In fact, he was already very proud in his heart. After waiting for about two hours, someone finally climbed up again. We reached the top of the mountain.

The person in front of him looked very cold. Since Gu Shaoyang needed to wait for the third person with this person, the two of them sat side by side on the chair next to him.

"I just came here not long ago, so I'm not very familiar with the world here. You must have been training here for a while, right?"

"Do you think there's anything bad about this place?"

Chapter 1307

Maybe it was because he was looking for some topics, so Gu Shaoyang wanted to talk to the man next to him, but this man's face was very, very cold:

"You are the first one to climb to the top of the mountain, and you should have been waiting here for a while. Your physical strength is very good. I believe your strength is not bad. We still wait here for the third person to come up. Bar!"

The person next to him looked like he didn't want to communicate at all. After hearing this, Gu Shaoyang could only shut his mouth helplessly.

And when the third person really came to the top of the mountain, even Gu Shaoyang couldn't bear it. He couldn't help but feel a little surprised in his heart. He didn't expect that the third person was Lin Er from the previous family.

Seeing Lin Er in front of him panting, he came to the teacher to register. Gu Shaoyang's He felt some mixed emotions in his heart. It seemed that this person would definitely continue to fight against him in the future.

Gu Shaoyang had obviously been acting in accordance with the local rules since he came to this place of cultivation, but he didn't know For whatever reason, those three people in the family seemed to want to torture him regularly.

If it hadn't been for those people's deliberate provocation, maybe Gu Shaoyang wouldn't have had to wander around in such a large circle in the desert. There is no need to accept the test of the so-called dean of the college.

Although he is not willing to let the three of them enter the finals this time, since Lin Er has already won the third place, Gu Shaoyang has no choice but to do so. He recognized his strength.

Mountain climbing should be all about physical strength. Other things may also depend on luck, but mountain climbing is all about one's own strength.

It is precisely for this reason that, in fact, Gu Shaoyang still has special admiration for Lin Er in front of him. At least he knows that the opponent should be relatively strong. The top three have already been produced, and the remaining few people naturally do not need to continue to compare. This time, the dean also specially called the three of them into the room.

The dean wanted to take Gu Shaoyang as his disciple from the beginning, and now it seems that the disciple has indeed won the first place in the last level. At that time, the dean was even more satisfied

"The fact that the three of you are able to work so hard to climb here already shows that the three of you are very, very capable people. I also believe that the three of you will be able to make great achievements in the future."

When he said these words, the dean was holding three secret books in his hand. These three secret books correspond to three different people, and these three secret books were carefully selected by the dean this time.

Gu Shaoyang is here. Naturally, he can get the best natural resources, and he has become the best candidate in the dean's heart, so now he has directly become the dean's closed disciple:

"For the remaining two, special teachers will come to take you away soon. I hope you can continue to work hard in the next time, and don't let down the effort you used in this competition!"

When he said these words, Gu Shaoyang's voice sounded very happy. After hearing these words, the two people in front of him also nodded. The second person who arrived said directly:

"I will definitely work hard. Although there is no close disciple who can become the dean, it is already an honor for me to enter the college. I will definitely not let the dean down in the future."

Originally, Lin Er was still a little aggrieved, but since the second place guy had nothing to say, he, the third place guy, was naturally embarrassed to say anything more.

All the resources Gu Shaoyang got were the best. resources, and after this conversation was completed, they held a ceremony to recognize the master in the academy.

"I hope you can devote yourself to research in the future, and I also know that you are a very, very potential person. I believe that you will be able to integrate what I give you."The dean seems to be very confident in Gu Shaoyang.

In fact, even Gu Shaoyang didn't expect that he could really become the first place in this competition, but when he saw the dean in front of him looking at him, In the end, he nodded lightly.

Now that he has become a member of the academy, the next thing is to practice well. If he can learn something here, he will definitely be able to go out on his own. Better to be a chivalrous person.

After the master recognition ceremony was over, Gu Shaoyang went directly to a small room in the Party Building Office, where the dean gave him a new secret book:

"I have always noticed you from the beginning, you are a very, very powerful person.

Chapter 1308

And I also believe that you will definitely be able to achieve great results in the future. This secret book is for you. You must understand the contents carefully."

The words on this secret book seemed a little unclear. After hearing this, Gu Shaoyang nodded gently. It seemed that he had to train well and he would never let the dean's hopes for him come to nothing..

This time, a total of three disciples were recruited in the academy. Gu Shaoyang and others returned to their courtyards, and the courtyard where Gu Shaoyang lived was the best courtyard.

Just when Gu Shaoyang here just wanted to rest , but suddenly the chirping voices of three people came from outside the house. The voices of the three people sounded particularly familiar.

After walking outside with a frown, Gu Shaoyang finally discovered at this moment that the person in front of him These three people turned out to be the three people who had been against him before.

At this time, Gu Shaoyang felt that he could not figure it out at all. He had no idea why the man in front of him would always target him. It was clear that his family Someone has already entered the academy, so you can't keep staring at yourself.

"Don't think that you can convince us just because you have entered the academy. If it weren't for some tricks you used, you would definitely not have been able to reach the academy now. What tricks did you use?"

Lin Da in front of him looked angry when he said these words. After hearing these words, Gu Shaoyang suddenly felt a little speechless. It was obvious that these people had been targeting him, and in the end they turned out to be used by him. Is it a trick?

His mood has already become extremely uneasy. At the same time, Gu Shaoyang quietly looked at the people in front of him. He was not willing to have any conflict with these people at all:

"I have absolutely no idea why you have been targeting me from the beginning, but I hope you can figure it out. The reason why I became the dean's closed disciple is because I played in the first, third and last games. Won the competition."

Gu Shaoyang definitely can't encourage the arrogance of these people. Besides, these people don't seem to be good people. If he had been weak from the beginning, these people would probably say some nonsense. That's it. He frowned coldly. At the same time, Gu Shaoyang looked at the people in front of him quietly. His voice sounded a little colder:

"I don't want to have any conflicts with you. Now that I am a member of the academy, I just hope that I can concentrate on my cultivation and repay the dean for his education. As for other things, I am now Naturally, I didn't think about anything!"

Gu Shaoyang in front of him had a high-sounding look on his face when he said these words. After hearing these words, Lin Da, Lin Er and Lin San both felt that they couldn't stand it. Lin Da even rushed out angrily:

"If you really want to convince us, then you can just challenge us directly. If you can't challenge us, then you can win this game by cheating. We are here Sometimes people will go out and say bad things about you."

Gu Shaoyang least wanted to have any conflicts with the people in front of him, but after hearing these words, he felt a little bored, because he really didn't know why these people always kept targeting him.

Now the words have been Speaking of which, if I don't agree quickly, these people will probably cause some trouble again:

"I see that this time you really won't shed tears until you see the coffin, and you won't give up until you reach the Yellow River. Since it's already like this, I will give you three days, if you can be better than me in three days. , then I am willing to give up my position to you."

Sure enough, after hearing this, the people in front of them began to become extremely excited. They never thought about whether they could beat Gu Shaoyang?

At this moment, Lin San was also extremely happy. They One person has already entered the academy. If they can get another place, it will be equivalent to two great things happening in their family:

"It's settled, we'll compete on the duel stage over there in three days!"

"If we really lose, then we will never come to harass you again. If I win, then I hope you can abide by the rules you set."

After saying this, the people in front of him left angrily. After hearing this, Gu Shaoyang spread his hands in boredom.

Chapter 1309

He didn't expect that the people in front of him would be so boring.

That night, a person was quietly walking in the study preparing his things, while the dean on the other side had already heard about their agreement, so he came over to inquire about the situation:

"I heard that you had a conflict with some people from the Lin family today. What happened? Did you know those three people before?"

The dean didn't have a good impression of these three people from the Lin family at all. If it weren't for the sake of the elders of the Lin family, he might have expelled these three people long ago.

Gu Shaoyang naturally knew that no big or small thing in this college could escape the eyes of the dean, so he said there with some boredom:

"They probably just want the opportunity to practice, so they have ganged up to target me from the beginning. It doesn't matter, as long as they are convinced by it."

Gu Shaoyang naturally won't take these messy things to heart. As long as he can perform as usual, there is absolutely no way he will lose face in front of those three people. Not to mention taking turns fighting with these people in front of him, even if he is. If these three people really team up, Gu Shaoyang feels that there is absolutely no chance that he has no chance of winning. Moreover, those people have no real talent at all. They are just a group of paper tigers who can pretend to be powerful.

The world continues like this every minute. As he walked down, looking at Gu Shaoyang in front of him with such a vow, the dean in front of him finally felt relieved. He nodded lightly, and then the dean finally went back. The three of them. The sky has arrived soon, and Gu Shaoyang has not prepared anything for this competition in the past few days.

The three people from the Lin family on the other side have been busy all day, and all three of them have arrived now. He looked down on Gu Shaoyang a little, and even kept saying carelessly:

"It is impossible for Gu Shaoyang to be so powerful. I think he must have cheated. As long as the few of us keep an eye on him, there is absolutely no way he will lose."

These people seem to be very confident on the surface, but in fact they have already made other preparations. If they are really at a disadvantage, they will use the dirty tricks they have prepared..

Soon it was time for them to agree. This time, many people were ready to watch the match between them, and more and more people knew about their duel.

As in the matches of the past few days, the person who came out on top, Gu Shaoyang, actually already had a certain degree of prestige in the academy. Now that they heard that he was actually going to duel with three other people, the people in the academy were even more crazy about it.

They haven't yet. Before the duel could begin, several circles of people had already gathered outside. After seeing this situation, Lin Da even sneered coldly:

"I advise you to think it over quickly now. If you don't think it over quickly, you will be embarrassed in front of the students at school."

Lin San went to the side sneaking around and didn't know what to prepare. This time, the competition was mainly between Lin Da and Gu Shaoyang. Lin Da was the strongest among the three people in front of him.

If it weren't for the slight difference in the competition, If there was a little mistake, Lin Da might have been one of the three disciples who entered the academy.

Gu Shaoyang had never taken what they said to heart, so at this moment He walked directly to the duel stage casually, and then looked at Lin Da quietly in front of him:

"Sometimes you say so many words just because you feel guilty. If you really felt that you were particularly powerful, you wouldn't say such nonsense at all now."

This sentence made the people around him burst into laughter. After hearing this, Lin Da's face had already turned red. He flew directly to the duel stage and looked at the people in front of him coldly. Gu Shaoyang:

"Please remember carefully what you said back then. If you really surrender to my hand today, then you must respectfully give up everything, and you must Give me this position."

Everyone with a discerning eye can see that the reason why Lin Da is anxious to challenge Gu Shaoyang for a duel is because he also wants to enter the academy to practice, but something went wrong in a competition before, so there will be some mistakes. He ended up in this situation by mistake.

While he was watching Gu Shaoyang in front of him still looking careless, Lin Da suddenly rushed over at the same time.

Chapter 1310

But the other party has already been prepared.

After three rounds of fighting, it was now obvious that Lin had the upper hand. Even the people around him could not help but widen their eyes in surprise:

"Oh my god, is this really awesome? I really didn't expect this person to be so powerful. No wonder this person was able to win first place in our selection this time. I guess no one has ever achieved such an achievement before."

Everyone has already heard that Gu Shaoyang's first talent test score was particularly cold, but they have never seen him fight. Now after seeing the opponent's fight, several people are already in admiration. ?

The old dean has not talked about closed disciples for a long time. Now he has inexplicably accepted Gu Shaoyang as his closed disciple. It should be because the man in front of him is particularly powerful! After thinking about this, Several people in front of him felt that Gu Yang was very powerful, and at the same time, Lin Da also felt that he had indeed underestimated Gu Shaoyang before.

Just when Gu Shaoyang here was about to say something, Lin Da in front of him suddenly took out a powder-like thing in his bag. This thing looked white on the surface, but once it was sprayed out, it became colorless and transparent.

While Gu Shaoyang was not paying attention, Lin Da directly scattered the powder inside his hand. The people outside had no idea what was going on here. They only saw Gu Shaoyang staggering back two steps.

"What the hell is going on? Could it be that he was injured? I remember it was quite powerful before."

Those people outside did not see the powder that Lin Da had just sprayed. They could only see Gu Shaoyang staggering to the ground, and there was an additional scar on his body. They watched Lin Dachao like this. While flying over, Gu Shaoyang wanted to avoid it, but the powder just now left him without any strength.

At the critical moment, the branch that had been practicing quietly outside sensed the injured state of its owner and hurriedly After obtaining the qualification for promotion, he finally entered the outer world.

Gu Shaoyang already had several wounds on his body. Faced with such a huge change, people around him didn't know what happened.

Waiting until Lin Dagao in front of him When he raised the weapon in his hand high, the tree branch happened to come to the duel place at this moment.

After slamming Lin Da in front of him and kicked him to the side, the tree branch just protected Gu Shaoyang's body. There was absolutely no way he could leave his master alone.

Fortunately, all these branches came in time. If it had been a little later, Gu Shaoyang would have been seriously injured...

After realizing that Gu Shaoyang was in danger, After reaching the danger, Zhi rushed over immediately, and his speed even surprised the people next to him.

The Lin Da in front of him had poisoned his weapon before, and he just now also He deliberately threw his weapon directly in front of Gu Shaoyang, so now Gu Shaoyang was so groggy that he could hardly open his eyes.

If it weren't for the speed of the branches just now, I'm afraid Gu Shaoyang would definitely be unable to save himself this time, and When Lin Da discovered that a spiritual pet appeared in front of him, one can imagine the surprise in his heart.

After practicing for such a long time, Zhi Zhi must have made great progress, and when he saw Gu Shaoyang Without even being able to open his eyes, he directly stretched the branch in his hand to Gu Shaoyang's forehead.

In full view of everyone, the branch in front of him directly removed the poison from Gu Shaoyang's body, and also immediately threw Lin Da aside. Went.

Lin Er and Lin San ran to their eldest brother in a panic. The two of them helped his eldest brother up, but Lin Da was not convinced and wanted to continue rushing forward.

Before Gu Shaoyang could fully wake up, the people around him had already taken a breath of cold air. Just when everyone didn't know whether to help, the tree branch waved his hand and severely hit Lin Dalin and Lin Dalin. Lin San and three others were all pushed out of the field.

Originally, the duel stage they were on was a place for ordinary disciples to compete. If they got out of this stage, it would be equivalent to automatically admitting defeat. The people around couldn't help but I remembered a burst of cheers. Everyone was really impressed by Gu Shaoyang's performance this time. Although he was a new disciple who had just arrived in the academy, his power was really not much less than that of the disciples who had been practicing here for several years:

"Oh my God, I have already heard that our master seems to have accepted a closed disciple!"
