

Attributes 1321

Chapter 1321

"How come you've already been to a place like this?"

The expressions on the faces of the people around him all looked very surprised, but Gu Shaoyang didn't intend to tell them too much. He directly took out the elixir he had studied before:

"Since we are going to the deep sea to catch lantern fish, we naturally have to go to the deep sea. This pill was developed by me before. It allows you to breathe freely underwater."

They had never heard of such a magical thing before, so when they saw Gu Shaoyang taking out a jar of pills at once, they were all almost stunned:

"Oh my gosh, I discovered that you are really our treasure chest here. You can actually find anything, and isn't this kind of pill very, very precious? How come you have such a big box?"

Some elixirs do have special functions, but elixirs with special functions are generally very expensive, and also very rare. Unexpectedly, Gu Shaoyang just took out a box of them..

After first letting the people in front of him take a few pills, Gu Shaoyang finally answered casually:"These pills are not all made by me personally, and they will definitely not have any side effects."

The people around seemed to be getting more surprised, but Gu Shaoyang didn't give them much time, and immediately took the members of his team to prepare to go to the sea.

"The world in the sea is completely different from the world on our mainland. The world in the sea is very dark, and you must pay attention to your surrounding environment. Even though some fish are just small fish, they may have Hugely toxic."

Gu Shaoyang still felt a little uneasy. Although she had led her brothers to the East China Sea Dragon Palace before, she always felt that it was particularly dangerous.

Those around her had already eaten After receiving the pills given to them by Gu Shaoyang, even this time Lei Fang said to him very seriously:

"No wonder the old dean accepted you as a closed disciple among so many disciples this time. It seems that you are indeed a very, very powerful person, and your practical ability is far beyond what others can imagine. We really have Proud of you."

Lei Fang has never said those fancy words, but this time he sincerely wanted to praise Gu Shaoyang.

Seeing the people around him praising him non-stop, in fact, Gu Shaoyang's heart He really felt a little embarrassed, and he didn't expect these people to really praise him so much.

After they had all entered the deep sea directly, several other people in the group were still on the surface of the sea. They were constantly struggling, they simply didn't know how to enter the deep sea:

"We are not fish at all. If we really go to the deep sea, we will not be able to suffocate to death there. Moreover, I heard that things like lantern fish live in the deep sea. How can anyone be able to complete such a task? Woolen cloth?"

At this moment, these people are really anxious to death, because they have tried all their methods, but they still can't get a correct way to enter the water. They feel more and more incomparable in their hearts. Angry, at this moment, Gu Shaoyang has led his small team to the deep sea. The deep sea is full of darkness. The few people next to him couldn't help but sigh and said:

"Isn't this place really too dark? I never thought before that one day I would be able to breathe freely in the water. Aren't we the same as fish?"

This is the first time they have obtained such a useful elixir. It is precisely for this reason that the people in front of them all look very excited. The brothers around them are all extremely excited. , Gu Shaoyang couldn't help but burst out laughing:

"If you want to play in the deep sea next time, you can go to my place and get some medicine. Anyway, these things are just made, no big deal."

Gu Shaoyang's words made other people couldn't help but start cheering, and one person even looked at the water above his head with gloating:

"I guess the people in the other groups must still be scared. They don't know how to breathe underwater. I guess we will be the first to complete this task today, and we will definitely be able to do it again by then. Let the teacher look at us with admiration."

Whether we can be the first to complete the task is still unknown.

Chapter 1322

Besides, there are countless dangers in this deep sea? Although Gu Shaoyang has been to this place before, he can't guarantee that he can completely avoid these dangers.

The atmosphere in the air seemed to be slightly relaxed. At the same time, these people kept looking at the surrounding environment. When they saw the beautiful corals around them, they were almost stunned:

"My God, these big corals here are really too big, right? If this thing were taken to the ground, I estimate that this thing could be sold for a lot of money."

Corals are indeed very valuable on the ground. Although they are very common in the sea, few people can get complete and large corals.

After hearing this, Gu Shaoyang couldn't help but nodded. I also feel that if this thing is brought to land, it will definitely be very valuable. If I really have no money in the future, I might be able to go to the sea to find the treasure.

From the beginning, Lei Fang He is not a particularly talkative person, but his expression is much more lively now than when he was on the mainland, and she seems to particularly like the environment under the sea. Based on her previous impressions, she came to a lantern fish In his lair, Gu Shaoyang asked the people behind him to hide in the coral for a while:

"You must remember clearly to me that things like lantern fish are extremely dangerous, and you must not touch them. The last time I came here was because I couldn't figure out the temperament of this lantern fish, so That's why I lost several brothers."

Recalling what happened in the past, Gu Shaoyang here couldn't help but sigh, and the brothers in front of him swore and patted their chests and promised:

"Just rest assured, we are not fools. Of course we know that this kind of thing must be extremely dangerous. We just need to catch a lantern fish this time."

When he came, Gu Shaoyang didn't think about how to catch the lantern fish. At that time, everyone had focused all their attention on how to enter the sea?

Things like lantern fish cannot be touched directly with hands. If you touch it directly with your hand, it is very likely that the hand will become useless, and this kind of thing may also release poison.

Although it is now near the lantern fish's nest , but Gu Shaoyang didn't know what to do next, and the people around him couldn't help but frowned:

"I think we should bring a few large glass bottles on the shore when we come here. If we can't touch them directly, how can we catch this lantern fish?"

Gu Shaoyang had never thought of this before coming down, and he really didn't know how to catch this lantern fish. When he first came to the deep sea, he tried to hide as much as possible. With this lantern fish:

"I really forgot to think about how we can catch this lantern fish? What to do now? If we had to use our hands directly, our arms would probably be useless, but we don't have the right tools at hand."

Several people are becoming more and more worried about this matter? And now the other teams are still struggling on the shore. They don't know how to breathe underwater.

"I think the teachers have made it clear this time that they want to torture us? How could anyone in this world be able to breathe underwater freely? Moreover, things like lantern fish live in the deep sea. If the lantern fish didn't come up occasionally, we humans wouldn't be able to catch them at all."

When he said these words, Lin Er kept pacing back and forth. He didn't know how to breathe underwater, but if he didn't complete the task this time, then It is simply impossible to win this competition...

At this moment, the deep sea in front of them is quiet and quiet, and the lantern fish they are looking for should also be sleeping, right?

"I guess no one in the other teams has successfully entered the water now. Naturally, they are not as capable as our Gu Shaoyang."

The tone of his voice seemed to be a little triumphant, and after hearing this, Gu Shaoyang also smiled helplessly.

This elixir was already researched by him before. If it weren't for the previous If he had ever taken his men to the East China Sea Dragon Palace, maybe he had not expected such a clever move?

Chapter 1323

Although he had already arrived in the deep sea, because he was in such a hurry before, Gu Shaoyang never thought of using some utensils to catch lantern fish.

"I think we can go to the side and pull those kelp trees over, and then just kidnap the lantern fish away, right?"

One of the people said these words in a careless tone. Maybe he thought it was just a fish in the deep sea. How could it be very toxic? After hearing this, Gu Shaoyang shook his head. Now he You must not act rashly. If you accidentally disturb such a large group of lantern fish, you will probably encounter these lantern fish:

"You must be careful. You must not disturb these lantern fish. We can only take one away secretly. If these lantern fish are disturbed, we will probably be stuck by them. Yes, their toxicity is particularly strong."

The things that happened before are still vivid in my mind. If I don't find a way to take away the lantern fish quickly, the friends around me may also feel impatient! I can't help it. He frowned tightly, and the people around him felt impatient. The seabed was pitch black. If it weren't for the lantern fish that glowed, it would have been impossible for them to find the lantern fish:

"Then we can't just wait here. What if they move in groups? Is it possible that our trip this time will be in vain?"

A few people around him sounded a little dissatisfied, and after hearing this, Lei Fang also turned around gently:

"We should think of a way quickly. If we continue to stay in this place, we may be targeted by other creatures in the deep sea, and we will be in trouble."

They have never been to such a ghost place before. If they are accidentally targeted by other creatures in this place, things will definitely become unimaginable.

Gu Shaoyang naturally knows this in his heart. , but now he does not have any weapons that can catch lantern fish, nor any utensils that can be used to catch lantern fish.

"I think there seems to be a big shell over there, otherwise we can just use that shell to catch this lantern fish."

This is a good idea. If it is possible to put the lantern fish inside the shell, the shell can definitely cut off the distance between them. After thinking of this, Gu Shaoyang couldn't help but nodded. If it is really possible, If you find such a big shell, you can naturally use the shell to bring the lantern fish to the shore.

After hearing this sentence, several people immediately started looking for shells outside, and they searched for almost ten minutes. After a while, Gu Shaoyang finally found a shell of similar size and came over:

"You must be careful and remember that this group of lantern fish is particularly dangerous. If you accidentally encounter this group of lantern fish, it is very likely that your lives will be lost here."

Actually, Gu Shaoyang has always found it a bit difficult to understand. This place is obviously so dangerous. If someone is not careful, the students may die here. Why do the teachers in the school let the students come here? Yes. There are many methods that can be used to prove students' abilities. Why do we use such dangerous methods? Is it possible that the teachers in the school really don't take the students' lives as their own?

Although they think so in their hearts, but on the surface Gu Shaoyang didn't say anything, and at this moment, a large number of people set off in the direction of the lantern fish.

The entire deep sea was pitch black, but fortunately the lantern fish in front of them could emit light. Come, so Gu Shaoyang can successfully find the location of the lantern fish with these weak lights.

When they came to the lantern fish, Gu Shaoyang began to move more carefully, but just as he was about to take one of the lanterns When the fish was caught, another partner beside him accidentally slipped his foot.

There was a dull sound in his ears, and the group of lantern fish in front of him was immediately awakened, one by one. He kept scurrying towards the coral bush next to him.

At the critical moment, Gu Shaoyang slammed one of the lantern fish under the shell in his hand, but when he came back to his senses, I found that several people had fainted behind me.

"What exactly is going on?"

"Didn't I tell you already? No matter what, you must not touch this lantern fish."

Chapter 1324

"Why don't you even have the ability to protect yourself?"

This time he fell down directly. The two people's eyes were so swollen that they could not open their eyes. You can easily imagine Gu Shaoyang's heart. He hurried to the side in a panic. After that, at this moment, Gu Shaoyang immediately began to detoxify the people in front of him.

"I don't know what happened. Just now, a lantern fish swam directly towards me, and then hit him directly."

The voice of one of the team members came to his ears. After hearing this, Gu Shaoyang felt even more angry. These people didn't even have the ability to protect themselves.

Fortunately, Gu Shaoyang had been inside his clothes before coming here. He packed several pills, all of which were powerful antidotes.

After feeding all the antidote pills to the two people in front of him, Gu Shaoyang finally felt relieved in his heart, and around him The few people inside were also carefully preserving the lantern fish in the shell. At this moment, everyone was in a very nervous mood.

Although Gu Shaoyang had been to the deep sea before, but that time he only I just wanted to get the Dragon Ball from the East China Sea Dragon Palace, so I never cared about the creatures under the water. In the past, it was because several of my companions encountered the lantern fish that they fell unconscious directly. But this time When his companions were unconscious, Gu Shaoyang had already had some experience.

After putting the antidote pills he brought this time into the mouths of these companions, Gu Shaoyang finally felt the pain in his heart. The big stone was put down, and he breathed a heavy sigh of relief:

"Fortunately, I brought some pills when I went out this time. If I had not brought the pills, these people would probably be dead. You must protect yourselves in the future. No matter what the circumstances, you must always protect yourself. Protect yourself."

Since two of his companions have been injured around him, Gu Shaoyang cannot quickly return to the water now. The few of them can only carefully watch the surroundings? Waiting for the two companions to wake up. There should be one or two after it is almost over. After about an hour, the partners in front of me finally opened their eyes, and most of their physical strength had recovered.

"Thank you very much. If it weren't for your presence, I'm afraid the two of us would have gone to have tea with the Lord of Hell."

After waking up, these two people couldn't help but smile. If it weren't for Gu Shaoyang's help, they might have gone to the Palace of Hell by now.

Knowing that these people were sincerely thanking themselves, Gu Shaoyang here was too embarrassed to say anything else. He just looked at everyone around him seriously:

"I actually couldn't figure it out before. I couldn't figure out why we were always asked to do such dangerous tasks? But I finally figured it out now. I think the teacher wants to give us more practical experience, and you must firmly remember these experiences today."

The faces of the people around were very solemn. Anyway, they have caught the lantern fish now. All they need to do next is to deliver the lantern fish to the teacher. How many people returned to the coast calmly? At the same time, other teams had not yet had time to go into the sea, because they still did not think of any way to breathe underwater.

After seeing everyone in Gu Shaoyang's team coming back from the deep sea, several people couldn't help but there he said with a mocking smile:

"I thought you were so powerful, but it turns out you are just a bunch of paper tigers. You have been down there for so long, and why haven't you been able to get one back?"

The voice sounded full of ridicule, but the people in Gu Shaoyang's team ignored them at all. They had already hidden the lantern fish they found before they came up.

This group of people on the coast definitely don't know how to enter the deep sea. If they know that they have caught lantern fish, they might have some bad intentions. It is for this reason that before landing, Gu Shaoyang specially put this lantern fish into his space ring:

"The things in this deep sea are unfathomable, and we can't stay in this deep sea forever. Haven't you even gone into the sea? He actually had the nerve to come over and laugh at us."

After Lin Er on the other side heard this, his face turned green. At this moment, he ran over angrily and cursed there.

Chapter 1325

"Don't think you are so great, no matter how great you are? Aren't you still not completing the tasks assigned to you by the teacher? It's a shame that you are still a close disciple of our old dean. I think it's just like this. It's really a shame for our old dean."

In fact, most of the children from rich families want to become the closed disciples of the old dean, but what they didn't expect was that Gu Shaoyang, an ordinary person, could become a real closed disciple.

Although everyone knows that Gu Shaoyang is particularly powerful. People, but it was precisely because they felt that they could not live up to their own reputations that they did not ask Gu Shaoyang to form a team at first. At this moment, they saw that Gu Shaoyang had already come back once, but they had nothing to do. You can go into the deep sea. These people once again felt that they could not save their face.

The previous people simply wanted to provoke themselves, and after hearing this, Gu Shaoyang shook his head helplessly. Anyway, he did not want to be in front of him. What are these people struggling with:

"I advise you to think carefully about how to get into the deep sea. If you continue to delay here, it will be time to complete the competition. You can't even go into the water, right? After saying this

, Gu Shaoyang immediately left with several other people in his team. After hearing this, Lin Er was so angry that he continued to curse:

"Who do you think you are? You dare to show off your power in front of me now. Why don't you pee and show yourself? Let me tell you, there will definitely be a chance for a few of us to go down, we will definitely be able to come up with ideas, and we will definitely be able to win this competition."

The voices behind him had already become rounder and rounder. One of his teammates rolled his eyes after hearing this. He came to Gu Shaoyang's side and asked with some doubts:

"Why do I feel like there is something going on between you and this person? What's the quarrel between you two? I feel like people in their family have been targeting you."

To be honest, Gu Shaoyang actually doesn't know why these people have to target him. If it was for the original quota, wouldn't it be enough to just say it outright? Why do you always do these roundabout things?

Okay ? Yi finally returned to the academy. The teachers in the academy looked even more shocked. They didn't expect that Gu Shaoyang's speed refreshed their knowledge again:

"Oh my god, you are really powerful. No wonder the dean can accept you as a closed disciple. Very few people can go to the deep sea, and even fewer people can retrieve the lantern fish from the deep sea. You guys The crowd is really awesome."

The teacher's voice sounded very excited. At this moment, Gu Shaoyang didn't care. Anyway, he had even been to the East China Sea Dragon Palace before, so how could he care about such a thing?

Time continued to pass slowly like this. Walking down the street, by the time the people in the other teams returned to the academy, Gu Shaoyang had already been sitting here and resting for most of the day.

Except for Gu Shaoyang's team, no other team could complete the important task. Especially the team Lin Er was in. Basically, the people in the team didn't get into the water very much?

Looking at the group of people in front of them all looking downcast, the teacher at this moment announced the results of this competition. :

"I believe everyone should have figured it out by now, right? We have so many teams, and the only one who completed this mission was Gu Shaoyang's team. This is worthy of commendation."

The sound of Xisong's applause came to his ears. After hearing this, Lin Er was itching with hatred, and the teacher's next words made him feel a little shocked:

"Gu Shaoyang has already brought this lantern fish here this morning. I believe everyone should have seen it already, and I hope everyone can learn from him. These things are all necessary to learn."

The people around couldn't help but exclaimed in surprise. They thought that Gu Shaoyang was sneaking around later and went to the sea again. They didn't expect that the other party had already caught the lantern fish the first time.

Looking at the surprised eyes of the people in front of them, those in Gu Shaoyang's team concept felt elated. After all, they had won the championship this time, and even when all the teams were not optimistic about it.

Next to Lin Er's His face had already become particularly ugly. This time, Gu Shaoyang won first place in this task with an absolute advantage, and the last task was the most difficult of the three tasks.

Chapter 1326

"After the previous two games, I believe everyone has a little understanding of our game. The next third level of the game will be held in Ming Village."

Everyone has now focused all their attention on the third level, and the teacher in front of them at this moment also smiled and took out the next task card:

"The mission this time is to get the Thousand-Year Zombie Energy. If you can get the Thousand-Year Zombie Energy, you will be given the supreme honor. This time, the captains of each team need to participate."

Due to the special dangers in the village, this competition can only have one representative from each group.

Gu Shaoyang's group is naturally the one he wants to represent, and Lin Er's group is already in trouble. Because no one is willing to do such dangerous things.

The so-called Millennium Zombie Qi is to pluck a strand of hair from a thousand-year-old zombie, and this strand of hair will turn into breath. It has already been done before I heard that the Millennium Zombies are extremely ferocious, and today's rich kids are not willing to go there at all, and everyone keeps saying no:

"Let me tell you, the most capable person in our team is only Lin Er. If he doesn't go, then the few of us going there will be equivalent to dying, so let Lin Er go!"

The people around him kept cheering. Originally, Lin Er didn't want to participate in this competition, but after looking at the people around him, he had already pushed himself, and Gu Shaoyang also wanted to participate. In the end, he still decided. He gritted his teeth and decided to participate in this competition.

The members of the team were responsible for sending their captain outside the village. The atmosphere in the team at this moment was worried, and the people around him were unwilling to talk at all.

Knowing that they These good brothers must be afraid that their lives will be threatened, so Gu Shaoyang couldn't help but smile, and then gently patted Lei Fang's shoulder beside him:

"Don't worry, have you forgotten who I am? I have already accumulated so much experience in this competition. If I cannot complete this task this time, there are not many people in our college who can complete the task."

Gu Shaoyang is particularly confident. Although he has never seen what a thousand-year-old zombie looks like? But since the teacher has asked him to participate, it means that the task load of this competition should not be too heavy. Go?

Although the people around them said they were still worried in their hearts, they could only smile lightly now. After all the captains had gone to the village, the outside of the village had already been surrounded. Three layers outside and three layers

"You must be careful. I heard that zombies like people like you the most, and arrogant people like you."

When he went there, Lin Er kept provoking. After hearing this, Gu Shaoyang couldn't help but rolled his eyes. He didn't know why this man was still targeting him.

"You'd better mind your own business. If you continue to talk nonsense here, I can't guarantee whether the zombies will swallow you directly?"

Just when Gu Shaoyang here was about to continue talking, a particularly loud roaring sound suddenly came from in front of them, and the thousand-year-old zombie appeared directly in front of them. They had seen it before He passed some small zombies, but after seeing the thousand-year-old zombie in front of him, Gu Shaoyang finally understood the difference between the thousand-year-old zombies and the small zombies.

The captains around him had already fled, and this time they The main task is to get the Millennium Zombie Qi, not to anger this zombie at all.

When Gu Shaoyang was hiding in a small cave with others, Lin Er behind him suddenly slammed him Pushed out.

And Gu Shaoyang's huge movement happened to attract the attention of the big zombie in front of him. Now Gu Shaoyang has become the focus of the big zombie's attack.

Taking advantage of Gu Shaoyang's fighting time with the zombie in front of him , all the remaining captains rushed to take away the zombie energy, and at this moment, Lin Er left a trap for Gu Shaoyang before leaving.

Just because he left this trap, Gu Shaoyang accidentally swallowed it He had been suffering from zombie energy for thousands of years, which left him with no strength to even walk. After all the captains had ran out, Gu Shaoyang was still hiding in the cave. He had to detoxify himself before he could get out. Otherwise, he was still hiding in the cave.

He didn't know what he was about to face, but the only thing that was certain was that Lin Er would not be himself!

Chapter 1327

Basically all the team members who went to the village have returned, and the old dean has been waiting for his disciples to come back, but it was almost dark, and Gu Shaoyang was still not seen.

The other members of the team had already begun to panic, and they kept chattering and discussing:

"what is going on? This mission shouldn't be a very difficult one for Gu Shaoyang, right? Why hasn't it come out yet? Could it be possible that we encountered some danger inside?"

The people around him looked worried. After Lin Er came over in the village, he proudly gave the thousand-year zombie energy he had obtained to his teacher. He looked at the people in Gu Shaoyang's team. While the person was still looking around, Lin Er deliberately said casually:

"I seemed to have seen your captain when I came back just now. Your captain seems to have been poisoned by the thousand-year zombie gas. I guess he narrowly escaped death this time, right?"

Before he finished speaking, the people around him couldn't help being shocked. They didn't expect that Gu Shaoyang would fall into the trap.

Although they had not been exposed to the thousand-year zombie energy before, they had never been exposed to it. You can tell from the name that this kind of thing is definitely not a good thing? If you are really contaminated, you may not even be able to save your life. Time continues to go on slowly like this As we walked, the old dean had heard these words at this moment, and the teacher next to him looked even more panicked:

"Gu Shaoyang has always been a very careful child, how could he suddenly become like this? Moreover, it is absolutely impossible to unlock the Millennium Zombie Qi by oneself. What is going on? Otherwise, let's have someone take a look!"

Anyway? Gu Shaoyang is also the proud disciple of the old dean, and the old dean has not accepted a closed disciple for a long time, so Gu Shaoyang can naturally be regarded as the most valued person of the old dean.

Although everyone's He was very anxious in his heart, but at this moment the old dean still shook his head. If the old dean didn't say anything, no one around would dare to go to the village to follow Gu Shaoyang:

"Let's wait a little longer. There is still one hour before the prescribed time. If we can't get out within one hour, then we will go in and take a look before talking about it."

The old dean actually felt a little worried in his heart, but after all, he was the disciple he personally selected. He didn't think that his disciple would let him down. He couldn't help but coughed lightly, Just when the members of Gu Shaoyang's team here didn't know what to do, Lei Fang on the other side suddenly replied coldly:

"Don't worry, if Gu Shaoyang is really caught this time, he will definitely have a way to deal with the poisonous gas on his body. We just need to wait here and not go in to hinder him."

There is no chronological order this time. If you can get the Millennium Zombie Qi, you have completed the third level. At this moment, there is still more than an hour before the end of this game. If it is more than one hour later, If Gu Shaoyang can come out within the time limit, then he will definitely be the first in this competition.

If he cannot come out, then the championship will naturally not be with Gu Shaoyang this time, and if he brings most of the Breaking in together with all the other players would be equivalent to breaking the rules of the game and ruining the fate between Gu Shaoyang and the championship.

It is precisely because we have always known this in our hearts that at this moment everyone is feeling Feeling particularly uneasy, Lin Er on the other side couldn't help but smile coldly.

He had already thought of this from the beginning, but now during the game, even outside These people already knew that Gu Shaoyang might be poisoned, and it was absolutely impossible for them to go in.

It was precisely for this reason that Lin Er told them about Gu Shaoyang's poisoning in a carefree manner. He just wanted to see Look at how anxious these people are here now.

Lin Er actually doesn't understand at all. The reason why Lei Fang and his group can wait outside calmly is because they believe that Gu Shaoyang can definitely be in danger. Those who escaped.

Gu Shaoyang had already created countless miracles before, and these miracles they created also made these friends feel particularly relieved.

At this moment, Gu Shaoyang was the only one left in the village. Yes, some people are really afraid in their hearts.

Chapter 1328

So even if he didn't get the Millennium Zombie Qi at all, he still ran out in a hurry.

Gu Shaoyang's entire arm had turned black and blue. At that moment, he was just looking at his arm quietly, the expression on his face became more and more painful, and he was dripping with sweat flowing down

"It turns out that the Millennium Zombie is such a thing. It seems that I really underestimated this thing this time. I should have known that I shouldn't touch it with my hands."

When he said these words, Gu Shaoyang seemed to have some regret in his tone, but in fact, what happened this time was all because of Lin Er. If it weren't for Lin Er suddenly showing up, Gu Shaoyang would never have touched him. He was so angry at this thousand-year-old zombie.

He hurriedly found a relatively hidden corner for himself. At the same time, Gu Shaoyang was sitting quietly in this corner. He had to get rid of the poisonous gas in his body. Forced out.

The sweat on her forehead kept pouring down one by one. At this moment, Gu Shaoyang was breathing heavily. She could feel the poisonous gas in her body that kept flowing to the left and right. Rushing to the right.

After coughing uncontrollably, Gu Shaoyang finally opened her eyes. Just now he had used his internal strength to force out all the poisonous gas, but her body still felt a little Weak.

After using the equipment around him to put the thousand-year-old zombie aura in a bottle, Gu Shaoyang finally stood up holding on to the wall next to him. Naturally, he knew it very well in his heart. Maybe the outside world now Lin Er had already publicized his affairs to the public, or maybe his members were waiting for him...

Finally, he stumbled to the entrance of the village. The whole village didn't know when it was already there. There was a heavy fog, and at the same time, Gu Shaoyang felt that he was almost overdrawn.

There were only a few minutes left before the end of the game, and the few good friends around him couldn't help but feel nervous. , now they put all their focus on Lei Fang:

"Gu Shaoyang won't really encounter any danger inside this time, right? I think we should go in quickly and take a look. If we really encounter any danger, then we might be able to help if we go in. Look, it's almost the end of the game now.."

The teachers on the stage are also very worried. Now only Gu Shaoyang has not come out. And before the old dean has spoken, no teacher will go out to complain. The old dean also feels that in his heart He began to become nervous and saw that the time was almost up. At the same time, Lin Er beside him couldn't help but said to Lei Fang triumphantly:

"Fortunately, you were good brothers who lived together through life and death before. If you were really good brothers, shouldn't you rush over to save him now? Everyone is waiting here, what's going on? Could it be that you want to clean up your good friend for you?"

The tone of his words sounded particularly mocking, and after hearing this, Lei Fang couldn't help but clenched his fists tightly. A good friend next to him couldn't help but retorted directly:

"Do you have a bad mouth? What nonsense are you thinking about all day long? If you are really arrogant, then I advise you to get out of here quickly. Don't talk about these nonsense here with us all day long, because you don't have to annoy others."

After hearing this, Lin Er was angry in his heart for a long time, and just when the teacher here was about to ring the bell for the end of the game, Gu Shaoyang's figure finally appeared at the entrance. In the circle There was already a heavy fog floating at the entrance. At the same time, Gu Shaoyang ran out. There was a small bottle in his hand, and the bottle contained the thousand-year zombie energy.

After seeing The moment Gu Shaoyang finally ran out, the friends around him were almost excited to death. At this moment, they kept running forward:

"It's really great. We knew you would definitely come out, and we knew you wouldn't be hurt by those monsters in there. It's really great, it's really great."

Gu Shaoyang's performance before was too good, especially in the lantern fish level. Only one of their teams got the real lantern fish, and the other teams didn't get it at all. The second level was absolutely amazing. Victory also means that as long as Gu Shaoyang in the third level can come out of the village alive, he will definitely become the real champion of this competition.

Chapter 1329

His mood had already become particularly exciting. At this moment, Gu Shaoyang looked at Lei Fang next to him. Lei Fang was usually not a good talker, but now his eyes looked full. Full of excitement.

He couldn't help but walked forward and patted Lei Fang on the shoulder. Now Lin Er was the only one who was stunned. He didn't expect that Gu Shaoyang could still run out under such circumstances.

Although the expression on Gu Shaoyang's face looked particularly weak, Lin Er could feel that the other person must have removed all the toxins from his body long ago.

Feeling chaos in his mind, Lin Er really didn't expect that Gu Shaoyang was so powerful. The legendary thousand-year zombie energy was not so easy to crack.

If you really want to force out all the energy in your body, you must use a particularly powerful internal force, and that powerful internal force is enough to make people feel to fear.

Just like this, Lin Er watched in stunned silence as Gu Shaoyang came to him. At that moment, Lin Er didn't know what he should say.

At this moment, Gu Shaoyang also glanced at Lin Er with disdain. Those things in the past naturally wanted justice, but these things must be explained clearly by himself:

"Don't worry, I will definitely not expose you in front of the principal and others this time, but we will see what happens next. If you piss me off, you will never get any good results from me again."

The tone sounded very angry, and after hearing this, Lin Er almost couldn't stand still. At the same time, the old dean in front of him also left happily, and came over to take it from the old dean's hand. Holding a big trophy:

"It really did not disappoint me. I knew that you would be able to complete this task with excellence. It seems that I should give you more difficult tasks in the future, otherwise these tasks would not be difficult for you at all."

After hearing this, Gu Shaoyang smiled. At this moment, he took the trophy directly from the hands of the old dean. In fact, those around him were very convinced of his victory.

"Gu Shaoyang is indeed very powerful, I must admit this, and since he has become the old dean's disciple, his talent and strength cannot be underestimated."

There were already people around who were sincerely blooming. After hearing this, Gu Shaoyang smiled softly. According to the old rules from before, everyone can challenge for the championship.

Seeing that the old dean had already The trophy was delivered to Gu Shaoyang's hands, and at the same time, the people around him also came up one by one:

"Isn't this really awesome? I don't care, I have to challenge you anyway. Let's have a duel tomorrow, how about it?"

The people around him were chattering non-stop, but Gu Shaoyang did not agree to anyone's challenge, which also made other people a little dissatisfied.

"What are you doing? All previous champions have never been so arrogant. They just won this game and refused other people's challenges. Isn't this just because they are afraid?"

Some people deliberately ridiculed because of this matter, but after hearing this, Gu Shaoyang never explained. Naturally, he had other ideas in his heart. It was not the time to express his thoughts yet.

Gu Shaoyang returned that night He took a good rest in his room. Because he had experienced too many things in the village, he could feel that his physical strength was a little weak. At the beginning of the second day, Gu Shaoyang immediately hurried to inquire about the affairs in the college. After such inquiring, he found out that there was a god-like existence in the academy.

"There is a very, very powerful person in our school. You don't even know how powerful this person is. Back then, she could defeat ten disciples who came in with their own strength. Such a talent is really incredible. Seen more often!"

There was a little fat man in front of him. Gu Shaoyang had just bought a chicken drumstick for this little fat man. He naturally found out all the information about the genius from the little fat man's mouth. The little fat man had already been in this college before. I have spent a lot of time there, so of course I know what kind of situation that genius is in. Now I am praising him and saying:

"You are indeed powerful enough now, but your current power cannot be compared with that genius. You don't even know how powerful that genius was at that time? At that time, no one really dared to challenge that genius."

Chapter 1330

It could be seen from the look in the little fat man's eyes when he spoke that the little fat man in front of him really admired that genius, and this made Gu Shaoyang even more excited.

If you can really challenge that so-called genius, then you will definitely be able to establish your own prestige. This doesn't mean you have lost the old dean's face, right?

Watching the fat man in front of him eat with his mouth full of oil, at the same time, Gu Shaoyang also said calmly and directly:

"I remember that you can challenge in our academy, right? Since you said this genius is so powerful, I am also going to challenge this genius to see who is more powerful between the two of us?"

After hearing this, the little fat man in front of him felt that he was not feeling well. Although he knew that Gu Shaoyang was the champion of this competition, that genius was like a god:

"Are you crazy? Do you know what a god-like existence is? Do you know what genius is? That boy's name is Tianci. He has lived in our academy since he was a child, and his cultivation speed is unmatched by anyone."

When he said these words, the little fat man in front of him seemed to hate iron. He kept chirping around Gu Shaoyang and kept praising:

"It doesn't mean that you can fight with others just because you have won the championship in this competition. Tianci is really very powerful, and because he is so powerful, she has never had any friends since she was a child."

Tianci has always lived in the academy before, and the only path in his heart is cultivation. He has never thought about other messy things. In the beginning, Tianci always followed the old dean. Practice, but then gradually the other party seemed to be practicing alone, but even without a teacher, the speed of God-given practice is not comparable to ordinary people.

Time continued to go slowly like this, and I heard After saying this, Gu Shaoyang thought for a moment. If he could really challenge Tianci, it would definitely cause a sensation in the whole school.

As a person who has just come to this place to practice, Gu Shaoyang actually has no experience in this place. Too much say, and it is precisely for this reason that he eagerly hopes that he can meet more talents.

"I know, I know, you can rest assured about this matter. Anyway, I have already made a decision. Why don't you tell me quickly, what kind of character is that Tianci?"

Gu Shaoyang looked a little careless when he said these words, but after hearing these words, the little fat man could only shake his head helplessly. He knew that he might not be able to persuade him this time:

"Since you came to the school, you have probably never seen Tianci. This person is particularly lonely because his cultivation speed is too fast, so he doesn't look down on the people in our school at all. He feels that the people in our school The people inside are all fools."

When he said these words, the little fat man was also a little dissatisfied. Although he knew that his own cultivation speed and other people's cultivation speed could not be compared at all, but when he thought of that person's arrogant attitude, he felt I felt a little annoyed:

"If you put it nicely, that person is a naked genius. If you put it harshly, that person is just arrogant. I don't think that person will agree to a duel with you."

Originally, Gu Shaoyang didn't take this matter to heart, but he didn't expect that the little fat man's words actually hit home. When Gu Shaoyang sent his decisive battle book to Tianci, Tianci directly gave his decisive battle letter coldly. The book was thrown to the ground:

"It just affected an inconsequential game. Do you really think you are qualified to compete with me? Stop daydreaming and go back and practice hard!"

Seeing that the final book that he had worked so hard to write was thrown to the ground, one can easily imagine Gu Shaoyang's heart at that moment.

Everyone that night was already preparing to pack up their things quickly. While practicing, a person suddenly ran over in a hurry and said nervously and loudly:

"Everyone, hurry up and take a look in the east yard. I heard that Gu Shaoyang wants to have a duel with Tianci, and now he has been forced to the door of his house."

Gu Shaoyang should be considered a big shot in the college now, and Tianci has always been a popular figure in the school, so after hearing these words, everyone immediately wanted to go over and watch the fun.
