### Chapter 1331

By the time this group of people arrived in front of the courtyard where Tianci lived, Gu Shaoyang had already subdued all the people in the courtyard to the ground:

"Godsend, I know that you are a genius among geniuses, but I just want to discuss with you. If you can hear me, please come out and discuss with me."

All those people in the courtyard have been knocked down by Gu Shaoyang. At this moment, the surrounding onlookers were dumbfounded and looked at everything in front of them. None of them dared to express their nervousness...

Ever since they knew that there was actually something happening in this academy. When there was still a precious cultivator, Gu Shaoyang's heart was always ready. If he could really defeat that man, then naturally no one would dare to challenge him again. After thinking about these things, Gu Shaoyang I felt very special excitement in my heart, but Tianci refused to go out at all, let alone compete, and even had no chance to meet the other party. In desperation, Gu Shaoyang could only go directly to the big house under the eaves. There was a scene, and at this moment he basically knocked down all the people in the Tianci Courtyard:

"I know that you are the most powerful in our academy, but since I have already won this competition, I will definitely be qualified to be your opponent. It's better to come out quickly and don't make everyone feel embarrassed.."

Well, other people in the surrounding colleges have already heard about Gu Shaoyang's troubles here, and everyone rushed here in a hurry. After all, no one in this college has ever dared to go. Challenging the authority given by God.

At this moment, Gu Shaoyang looked at the people around him. The expressions on the faces of the people around him looked particularly frightened. Maybe everyone didn't expect it at all. They didn't expect Gu Shaoyang at all. He will come here to challenge Tianci regardless of life or death.

"Oh my god, is it possible that this Gu Shaoyang really doesn't want his life? Doesn't he know that Tianci is a cultivation genius that only comes once in a century? Even the dean sometimes wants to listen to what he says. He dares to challenge Tianci. It's really a life-threatening situation."

The more he spoke, the more he felt a special nervousness in his heart. After hearing this, Gu Shaoyang even curled up his lips and smiled coldly. Since the god in front of him is a genius recognized by everyone, then as long as he can defeat With this genius, he should be able to surpass the so-called genius, right?

After thinking of this, Gu Shaoyang began to knock on the door in front of him desperately, and just when he was about to continue to say something, the man in front of him The door to the courtyard finally opened, and a young man wearing white clothes walked out.

The expression on the young man's face looked very cold, and at this moment, when Gu Shaoyang saw the young man's eyes, he couldn't help but fall over. He took a breath of cold air, because the eyes of the young man in front of him seemed to be full of indifference to the world. He swallowed subconsciously, and the people around him were already chattering like an explosion, although they were all the same They were practicing in an academy, but these people had never seen Tianci a few times.

"Oh my god, I actually forced him out. It seems that Gu Shaoyang really has some tricks up his sleeve. I heard that Tianci hasn't gone out for several months. Usually he is the same person. The little girl delivered the meal to his door."

Looking helplessly at Gu Shaoyang in front of him, Tianci's eyes looked particularly impatient. If it weren't for the fact that the man in front of him had been shouting here, he would never have run away now. came out. He watched helplessly as the expression on Gu Shaoyang's face gradually became a little excited. At the same time, Tianci also said very coldly:

"You must have just arrived at the academy. I can tell you that I never compete with anyone. If you dare to continue shouting in front of my courtyard, then I will directly return to the academy. The boss fired you."

The opponent still didn't seem to have any intention of continuing the game, and after hearing this, Gu Shaoyang directly picked up his weapon:

"Don't worry, I have already said hello to the old dean before coming here to challenge you. The old dean also agreed to let me come and challenge you, so the two of us are now opponents."

The old dean has always been a person who has a very thorough view of all things. After hearing this, Tianci in front of him also frowned. He really did not expect that the old dean would agree with this hairy man in front of him. The head boy comes to challenge himself?

Now that he has come out.

## Chapter 1332

The current Tianci finally nodded. The moment he saw her nodding, the group of people around him couldn't help but exploded:

"Oh my god, did Tianci really agree to compete with this man just now? Who is this man? It has actually impressed the famous cold-blooded and ruthless figures in our college."

Everyone didn't expect that Gu Shaoyang would dare to challenge Tianci's authority, and they didn't expect that Tianci would actually agree to the other party's challenge. The academy was really lively when they arrived.

After coming directly to the arena in front of them, At the same time, Gu Shaoyang glanced at the man in front of him with a smile. The man in front of him looked a little innocent. Maybe it was because he never communicated with other people in normal times!

Time had already passed quietly. After walking for a long time, Gu Shaoyang rushed up at this moment. The swordsmanship of the two of them was particularly fast, and even those behind him were a little surprised.clear.

It would be difficult for an ordinary person to withstand three moves from the God-given sword, but this time Gu Shaoyang could withstand ten moves.

As a well-known cultivation genius in the college, Tianci's reputation has naturally spread far and wide, and now the students in the college have nothing to do and open a few gambling games.

At the beginning, no one thought that Gu Shaoyang would win, so everyone put their profits on Tianci, and everyone was particularly dismissive of Gu Shaoyang:

"He is just a young boy who has just come to our academy to practice. How can such a young boy compare to Tianci who has been practicing for such a long time? I think now he is just humiliating himself and not paying attention to him at all."

Everyone has basically put all their money on Tianci. At this moment, the situation in the arena has quietly changed. Gu Shaoyang has taken Tianci's ten moves. Looking at the situation in front of

him. When Gu Shaoyang still looked relaxed, Tianci finally became serious this time, because he didn't expect that the man in front of him could actually survive ten moves under him. This kind of situation had never happened before. Unheard of.

Tianci has always lived in this academy since he was a child, and he has been dubbed a cultivation genius early on, so he has never had much contact with outsiders since he was a child.

Basically, inside the academy There is no one who can beat him, and it is for this reason that Tianci has never competed with anyone, because he feels that those people are not worthy of being his opponents.

Looking at Gu Shaoyang in front of him, he has already peeled off the He had used ten moves, but there was still no tired expression on his face. At the same time, Tianci also laughed directly:

"You are the first person who can support me for such a long time. It seems that I did underestimate you before. No wonder the old dean can let you come. The old dean must have seen through your potential. Already?"

Both of them can be regarded as geniuses among geniuses. The audience friends around them were already stunned because they felt that Gu Shaoyang and Tianci seemed to be equally powerful.

"My God, if I remember correctly, the two of them should have fought for more than ten rounds, right? Isn't this Gu Shaoyang really awesome? No one has ever been able to withstand three moves under the sword given by God, but he has managed to survive until now."

I remembered the surprised voices of the students in the college. Everyone thought that Tianci would definitely be able to solve it within three moves. Gu Shaoyang didn't expect that it hasn't been solved yet. His voice seemed to have changed. He was trembling a little, and at this moment, Gu Shaoyang looked condescendingly at Tianci in front of him. It was also the first time that he encountered such a troublesome opponent:

"No wonder you are a famous cultivation genius in our academy. It seems that you are indeed very powerful. I haven't met an opponent like you for a long time. Let's take a good look at who wins and who loses between the two of us today.."

After saying this, Gu Shaoyang rushed out once again, and the Tianci in front of him naturally would not be taken lightly.

It was not easy to find an opponent that he could recognize. The Tianci that night was particularly special. They were very happy, but the two of them fought for more than an hour, and still couldn't tell the winner.

At the beginning, the people below were a little nervous, but gradually, they had already forgotten that they came in the first place. The purpose here.

The gambling game set up for Gu Shaoyang and Tianci in the audience has also been put away early.

Chapter 1333

And seeing that it was already dark now, but the two people on the challenge stage still couldn't decide the winner, the students in these colleges also became impatient.

"Isn't this really weird? Why haven't the two of them figured it out yet? These two people are both geniuses. It seems that it is impossible for them to decide the winner today. Let's go back quickly to avoid the cold wind blowing here."

A few students in the college had already lost interest. When it was almost dark, there were no students around the challenge stage. At this moment, Gu Shaoyang and Tianci were already out of breath. After all, they have been fighting on this challenge stage all afternoon.

If the teacher hadn't stopped him in time, maybe the two of them could have continued to fight, but it was already dark now, and it was impossible to continue fighting. It's not very safe.

After thinking about this, the teacher walked directly to the challenge stage. She was not willing to let these two talented disciples continue to fight among themselves:

"The abilities of the two of you are indeed comparable. Practice hard after you go back. I believe you will be able to make greater progress in the future. After hearing this

, Gu Shaoyang put away his sword. At this moment, he gently nodded to Tianci in front of him and said with a smile:

"It seems that there is no way for the two of us to decide the winner this time, but don't worry, I will definitely go back and practice hard. Next time the two of us will compete again and see who loses and who wins."

Knowing that Tianci was a very silent person in the past, Gu Shaoyang thought that the other party must not be willing to talk. After saying what he just said, he was going to go to the canteen to see if there was anything to eat. ?

Seeing that these two people had put away the weapons in their hands, the teachers around them naturally went home. But just when Gu Shaoyang was about to leave, a person suddenly appeared behind him. Figure:

"You are indeed very powerful. I haven't seen someone as powerful as you for a long time. In this school, I basically fight against all the invincible opponents in the world. I didn't expect that I could find an opponent like you. It's really It's so good."

When he said these words, the expression on Tianci's face looked very happy, and after hearing these words, Gu Shaoyang couldn't help being stunned. He didn't expect that the other party would take the initiative to come and talk to him after the game.

After being slightly stunned for a moment, Gu Shaoyang finally came back to his senses, and at this moment he said with a cheerful smile:

"You are also very powerful. I have heard before that you are a cultivation genius. Now it seems that you are indeed a cultivation genius. It is rare for someone to make me fight so hard."

The two people have some common experiences in terms of abilities and cultivation experience, and the two people even had a meal together that night. The God-given gift in front of them may be due to the fact that the person who received it before was too Less, right? So when he spoke, his tone always became gentle unconsciously, and at this moment, Gu Shaoyang also deliberately said jokingly:

"Although I just came in from outside the school, I will definitely be a student in our school in the future. If you don't dislike it, then the two of us will be together. I haven't seen someone as close to each other as you in a long time. People."

Gu Shaoyang originally had no hope of getting the other party to agree to him. What he just said was just a joke. But what he didn't expect was that after hearing this, the god in front of him nodded:

"Of course, you should be a close disciple of the old dean. If we count it this way, then the two of us should be considered brothers. So if the two of us work together, the dean will definitely be very, very happy."

Tianci didn't seem to have any evil intentions when he said these words. After hearing these words, Gu Shaoyang was stunned, but fortunately she had figured out these things quickly.

Tianci in this school Of course, his status is obvious to all. If he can really get along with the person in front of him, then no one will dare to embarrass him in the future. After thinking about this, Gu Shaoyang couldn't help but want to laugh, but rationally Let him quickly cover up that he was about to lose his composure.

Then Gu Shaoyang changed his appearance and said very seriously to Tianci in front of him:"Since you have recognized me as your brother, the two of us must interact with each other in the future. Help each other!"

"Since we are both disciples of the old dean, we must not embarrass the old dean."

Chapter 1334

After nodding happily, one can imagine the excitement in Gu Shaoyang's heart. Originally, he wanted to have a fight with this godsend, so that the students would no longer be grateful and cause trouble with him.

What I never expected was that I would have an unexpected gain this time. Men like Tianci were now willing to be brothers with me. This should be regarded as the most successful thing, right?

The fact that Gu Shaoyang and Tianci were in love soon spread out. The reactions of the students who heard about it were different. Some students thought it was a matter of course, but some students were really surprised. My jaw almost dropped.

Especially after Lin Er heard about this incident, he felt a little panic in his heart. He usually always opposed Gu Shaoyang. If Tianci turned around now, then maybe all the people in the academy would... People will fight against him.

The losers around Lin Er were now taking this opportunity to gossip in her ears. One of them kept saying:

"I think we should hurry up and admit our mistakes to Gu Shaoyang now. Gu Shaoyang has already bowed to Tianci. He will be the most powerful person in our school from now on. If we offend this man again, it is estimated that it will become more troublesome in the future."

The tone sounded particularly uncomfortable, and after hearing this, Lin Er couldn't swallow this breath in his heart. If it was like a god-given land, he would naturally not feel anything, but Gu Shaoyang, a stinky boy, was so harmed. Two of his senior brothers couldn't enter the academy!

Feeling aggrieved in his heart, Lin Er immediately found the elder of his family that night and said angrily:

"Elder Gu Shaoyang has already bowed to Tianci. If we don't think of a solution quickly, what if they really gang up to deal with us?"

The more he spoke, the more panic he felt in his heart, but this time the elder had no choice, because this Tianci didn't obey discipline very much before, and this person was extremely talented, so there was no one in the academy at all. The teacher can teach him:

"Now that the matter has come to this, the only thing you can do is to never cause trouble in the future. Gu Shaoyang has already made love with Tianci. It is very likely that the two of them will do things together in the future. You must control yourself. Don't do anything outrageous anymore."

Although he still felt a little aggrieved in his heart, Lin Er had no choice but to go back after hearing this. He also knew that everything the elder said this time was for his own good.

These days The group of people in the college all respected Gu Shaoyang very much after seeing him. Even those who looked down on him before would now send some things over to curry favor with him from time to time.

Gu Shaoyang received another big gift today. After piling up the things, seeing that there were already a lot of bottles and cans piled up in his house, Gu Shaoyang, in desperation, could only carry these gifts to Tianci:

"I found that you really have a lot of influence in our college. Since I paid homage to you, I have almost been unable to collect all the gifts in my house, and they still insist that I accept them. Next, what do you think we should do?"

Does the pile of gifts in front of me really have everything? And there are even a few particularly valuable jade pendants. After hearing this, Tianci's face looked a little confused:

"I remember, weren't they always targeting you before? You complained to me at that time, why did you suddenly give you a gift? Is it possible that they liked you so quickly?"

Tianci sincerely didn't know what was going on. After hearing this, Gu Shaoyang couldn't help but rolled his eyes. He found that the so-called cultivation genius in front of him was actually an idiot in life:

"Tell me about you, you are so flexible when you are practicing cultivation, but why do you become so incomprehensible when you are exposed to the world? They must want to come here to curry favor with you."

Tianci looked at Gu Shaoyang in front of him, whose mouth kept moving and kept talking. Tianci was really puzzled. He was obviously giving a gift to the other party, but now he was fawning over him again. Woolen cloth?

"I found that your mind is really weird. Is your mind filled with only cultivation things every day?"

"They just see that I have a good relationship with you now, so they give me some gifts so that I can say good things about them in front of you. Why can't you even understand these?"

Chapter 1335

After hearing this, Tianci finally realized. In fact, she didn't understand anything about these people's ways. His only hobby every day was to practice in his room.

He originally thought that the great genius in front of him should be superior, but what he didn't expect was that this so-called cultivation genius was just a big idiot in life. After realizing this, Gu Shaoyang was almost laughing to death.

Tianci had been practicing in the academy before. He basically never left his small courtyard all year round. After hearing this, Gu Shaoyang brought her a lot of gifts the next day.

"I bought all these things at the market outside. You must have never been to the market, otherwise I will take you there to go shopping next time, just in time to see what is there.."

Gu Shaoyang just said this while taking out the pile of things he bought. After hearing this occasionally, Tianci became even more excited. From then on, the two of them would go outside to play.

In fact, Gu Shaoyang just wanted to joke. He didn't expect that Tianci in front of him had actually become his friend.

Moreover, even the so-called "obedience" at the beginning was just a joke, but when he saw that Tianci in front of him took this matter very seriously, Gu Shaoyang was embarrassed to take back his previous promise.

Nowadays, the two people have become serious brothers. Gu Shaoyang originally thought that Tianci must be a very serious kind of person, but after getting to know him better, he discovered that the reason why this person pretended to be serious was The reason for this is because this person didn't understand the ways of the world before.

As a cultivation genius in the academy, Tianci has been enhanced by various teachers a long time ago, but such robbery is not a good thing at all. Such robbery will only make Tianci feel like a commodity being pushed around. Pushed away.

That night, Gu Shaoyang directly brought a can of wine over. He felt increasingly sad in the past two days and wanted to have a drink with his brother, but he never expected that he had never touched wine before.

Looking at the expression on Tianci's face in front of him, he had already become more and more confused. At the same time, Gu Shaoyang looked at the other person with some confusion, and then looked at the bottle of wine in the other person's hand:

"It seems that the teachers in the school really control you very strictly. Have you never had a drink before? Men all drink. Why have you never drank before?"

In the past, I thought Tianci was a superior cultivation talent, but now Gu Shaoyang suddenly discovered that the so-called genius just didn't understand life at all. After hearing this, Tianci felt

the same in his heart He felt very melancholy. He had never thought about these things before, and no one had ever shared these things with him:

"They all said that I am a cultivating talent that is rare in a century, so everyone is respectful when they see me, and they never give me wine or anything. They may think that I only need to drink water!"

After saying this, Tianci couldn't help but smile. This smile looked more painful. After hearing this, Gu Shaoyang also patted his shoulder carelessly:

"Don't talk about so many messy things. Just relax. Haven't you already bowed down to me? I will definitely let you know many, many things in the future, and there are many things in this world that are particularly delicious."

Looking at the high-spirited look of Gu Shaoyang in front of him, Tianci nodded at the same time. Maybe such a good friend is not a bad thing. At least he has begun to understand the life outside.

Time continues like this minute by minute. Walking down, Tianci's personality has obviously become much more cheerful in the past two days. Normally, he always looks aloof, but during this period of time, Tianci seems to have become a lot more down-to-earth.

Even those in the academy have felt the huge changes in God's gift, and everyone is particularly surprised by this change. In their impression, the so-called cultivation genius should be superior, but they did not expect that this cultivation genius actually Such a down-to-earth spirit.

Gu Shaoyang has already become a famous figure in the school, not only because he had tied with Tianci before, but also because of the huge changes he brought to Tianci. It was something that others couldn't even think about before.

At this moment, most of the people in the academy were discussing their own matters, but Gu Shaoyang on the other side didn't take this matter to heart at all.

## Chapter 1336

Just when he was about to take his good brother to play at the foot of the mountain, he suddenly found Lin Er walking over with a big gift box.

Gu Shaoyang didn't have a good impression of Lin Er before, and he also knew that this person was the kind of person who was unjust for profit.

It was precisely for this reason that when he saw the other party approaching with a gift box, Gu Shaoyang subconsciously stood in front of Tianci.

At the same time, Lin Er beside him seemed a little angry, but after he saw Tianci behind him, he immediately changed his expression:

"This is a specialty brought back from my hometown. Basically everyone in the school has gotten a copy. I know you shouldn't be rare about this kind of thing, but after all, it is a specialty brought from home. I hope you can download these."

After hearing this, Gu Shaoyang was stunned for a moment. If what the other party gave him was really a specialty, then what he was doing now seemed a little inappropriate.

And Tianci behind him was not interested in this so-called He was also very interested in the specialties. After finally driving away Lin Er, Gu Shaoyang carefully observed the specialties in the box.

This specialty seemed to be a serious specialty. He originally thought that Lin Er was sure Who would have tampered with this special product? I didn't expect that the other party actually sent a special product this time.

When looking at the confused expression on Gu Shaoyang's face next to him, Tianci felt a little nervous at this moment, because he was very It's rare to see Gu Shaoyang being so defensive about someone:

"Why do I feel like you have a special hostility towards this person? Did he do something before?"

Lin Er has really done a lot of things, but Gu Shaoyang doesn't intend to find out the old things from the past. Speaking of those things will only make him appear more stingy.

He just feels that he is a little I couldn't figure it out, even though I had already severed the relationship with Lin Er, why would the other party suddenly come to give Tianci a gift in front of me? Besides, all the so-called teachers and students in the school had already received it. In fact, he had never seen a hair at all, which made Gu Shaoyang feel particularly strange. He clearly felt that something was wrong, but Gu Shaoyang still didn't point it out, and continued. In the past few days, Lin Er sent Tianci a lot of things from time to time.

When Tianci had almost memorized Lin Er's face, the other party finally took action, and that night Lin Er Er directly called Tianci to a small pavilion next to him.

Lin Er's ultimate purpose of doing this was to destroy the relationship between Gu Shaoyang and Tianci, and even make the two of them turn against each other.

At this moment, Lin Er had already Tianci was called into the small pavilion, and the other party's voice sounded particularly harsh:

"In fact, I have been wanting to remind you before. Do you know why Gu Shaoyang is so attentive to you all of a sudden? Do you think he really wants to be a good friend with you? He just wants to take advantage of your resources in our school."

When Lin Er said these words, he seemed to be speaking righteously, but after hearing these words, Tianci just picked up the tea lightly, and he answered casually:

"I think you are overthinking it? Gu Shaoyang has never received any resources from me, and he is already a close disciple of the old dean. If we really talk about resources, maybe I am still far behind him now. Woolen cloth."

Tianci is not a fool. He can naturally see that Lin Er in front of him wants to sow discord between himself and Gu Shaoyang, but he also wants to see the other person's real purpose of doing these things. As expected, after hearing this, Lin Er in front of him had already stood up and slapped the table. The voice of the other party seemed to be particularly excited:

"I know you are a very, very simple person, but do you know what that man did secretly behind your back?"

"That man secretly goes out to sell your information behind your back. Do you know what this means? This means that your information can be used by anyone who wants to."

Seeing that the other party has already reached this level, Tianci at this moment can only cooperate and pretend to be angry. After finally leaving, Lin Er coldly hooked He smiled.

He was a very stupid person, especially when he saw Tianci pretending to be angry, he felt that maybe he had succeeded in sowing discord.

Chapter 1337

In the following time, Lin Er went to Tianci every day to show his courtesy. That night, Lin Er deliberately pretended to be lost and came to Tianci:

"I know there's a huge difference between the two of us, and I know I don't deserve to be called your friend at all, but can you do me a favor? If you don't do this for me, I might have to drop out of the academy."

After hearing this, Tianci couldn't help but frowned. He thought that Lin Er should be able to continue pretending for a few more days, but he didn't expect that the other party had revealed his purpose so quickly..

Time continued to go down slowly like this, and at the same time, Lin Er was also crying and pretending to be uncomfortable:

"I really don't know what I should do now. If I don't think of a solution quickly, I might really have no choice but to be kicked out of the college. Can you help me? Even if I beg you."

After hearing this, the expression on Tianci's face was a little confused. He still didn't know why the other party suddenly became like this:

"You have given me so many things before. If there is anything that needs help, of course I should help, but I still don't know what happened?"

When Tianci said these words, his eyes looked very confused. At this moment, Lin Er secretly smiled in his heart, and he continued to say aggrievedly:

"Did you know that the old dean has a magic lamp? I heard that the magic lamp can collect the energy of cultivation. I need that thing. If I can't get it, all my cultivation may be lost."

The old dean does have a magic lamp over there, and this magic lamp is a treasure. This magic lamp can collect excess energy and then release the energy when it is needed.

This magic lamp has always been in the dean's office, except for Tianci and Gu Shaoyang, no one could enter the office. After hearing this, Tianci was thoughtful. Do you want to help while Tianci is there in front of you? Kung Fu? Lin Er here has already cried into a ball, sobbing non-stop:

"I know that I must be particularly embarrassed for you now, but I only need to use it for one day. The energy in me is being exposed day by day. I need to collect this energy and treat it as my begging you. Okay, can I beg you right then and there?"

Looking at Lin Er's aggrieved look in front of him, Tianci couldn't help but nodded at this moment. What he didn't expect was that Gu Shaoyang overheard everything. Originally, Gu Shaoyang thought that

Tianci would definitely reject Lin Er directly. What I didn't expect was that the other party actually agreed, and actually sneaked into the old dean's study that night.

Seeing that Tianci was about to take the magic lamp out, Gu Shaoyang here finally, I couldn't bear it any longer and rushed out:

"Didn't I tell you before? Lin Er is not a good person at all? Why don't you remember a single word of what I said before? What on earth have you been thinking about all day long?"

After saying this, Gu Shaoyang placed the magic lamp on the table again. At this moment, he looked at Tianci angrily in front of him. He did not expect that this person would be so stupid:

"I really don't know what you are thinking in your mind all day long. Please listen carefully to me. If you hand over this magic lamp to Daolin Er, you will have nothing left by then. Why are you doing this kind of thing?"

The expression on Gu Shaoyang's face seemed to be filled with hatred. Just when he was about to continue questioning, at the same time, there was a sound of opening the door outside, and the old dean walked in. The old dean's expression looked particularly calm. After the old dean came to the room, Tianci had already consciously ran to the old dean's side. Only Gu Shaoyang was left to obediently put the magic lamp on the table.

Since he didn't want Tianci to be punished, Gu Shaoyang didn't mention the matter of Tianci trying to take the magic lamp out just now. He just deliberately and cheerfully wanted to confuse the dean's judgment:

"Dean, it's already so late, why are you still here? Could it be that he has something to tell us two?"

Obviously he was still angry at the beginning. Looking at Gu Shaoyang in front of him, he was no longer angry. At this moment, the dean couldn't help but burst out laughing. He just looked at him happily. disciple.

#### Chapter 1338

The expression on Tianci's face next to him looked a little strange, and when he saw the dean in front of him laughing so hard, Gu Shaoyang felt that these two people were working together to play a trick on him.

"I see that you two were still quarreling here just now. Why have you stopped quarreling now? Tell me what could have caused the two of you to quarrel like this, and by the way, I can help you two judge the situation."

After hearing this, Gu Shaoyang became even more nervous. If he really revealed that Tianci almost took the magic lamp out just now, I guess the old dean would definitely lose his temper.

But someone like the old dean must not lie to him, because the old dean can see everything in his heart, and it is really not a wise choice to lie now. After thinking about this, Gu Shaoyang finally decided that he should Telling the truth of the matter, at this moment he also gently looked at Tianci behind the old dean:

"Dean, I have admired you very much from the beginning when I came here. I feel that you are a person who has the ability to judge right from wrong. I believe that you will definitely not blame God this time."

After saying this, Gu Shaoyang picked up the magic lamp on the table next to him. He was still talking in his mind, thinking about how to speak to save Tianci from a more severe punishment.

"Lin Er really has ulterior motives. He just saw Tianci being so simple and kind, so he actually wanted to trick him into taking out this magic lamp. Such a disciple is really too sinister. He also hopes that the dean can take good care of him. Punish him."

When he said these words, Gu Shaoyang felt a little frightened. He didn't know whether the old dean would punish Tianci, but the magic lamp is a treasure in the academy. If it is given to others, the consequences will become It's unimaginable.

I was already thinking about whether I should take the blame for Tianci? But after hearing this, the dean in front of me suddenly nodded quietly, and said with half a smile:

"I know, hasn't Lin Er always wanted the magic lamp these days? I also asked Tianci to give him this magic lamp. Since they want this magic lamp so much, then take this magic lamp away."

After hearing this, Gu Shaoyang was stunned. He had no idea that Tianci would completely obey the principal's command, let alone that the principal had already known about Lin Er.

It was still in his heart. He felt extremely entangled inside. At this moment, Gu Shaoyang suddenly felt as if he had been tricked. It turned out that the two people in front of him had never been deceived by Lin Er from beginning to end.

Tianci on the other side also looked a little bit Depressed, he did not expect that Gu Shaoyang would follow him in the middle of the night, and he almost misunderstood that he wanted to take this magic lamp out:

"You really underestimate me, right? How could I possibly make such a mistake? You don't even think about it, the magic lamp is a treasure in the academy, no matter how powerful I am? You absolutely cannot give this kind of thing to a disciple who doesn't know where it came from!"

Now, everything has become Gu Shaoyang's fault, and after hearing this, Gu Shaoyang's mood became a little embarrassed, and he didn't know what to say next.

Time As he continued walking slowly down, Gu Shaoyang really couldn't figure it out. He knew clearly that the magic lamp was a treasure in the academy. Why was such a treasure being used by the other party?

"Dean, if something really happens, I hope you can make it clear to me. I never want to be a confused person, and I don't want to be kept in the dark by you."

When he said these words, Gu Shaoyang looked very serious. At the same time, the old dean also sighed. He knew that his closed disciple must be curious about this matter:

"Since you have been involved in this incident, I really should let you know what happened. You should have heard that there is an elder in our college who is from the Lin family, right?"

An elder in the college is indeed from the Lin family, and this elder helped a few disciples of the Lin family a lot before. If it weren't for this elder, Lin Er might not have been able to enter at all. Come to the academy.

He nodded solemnly. Gu Shaoyang felt that this time things were definitely not as simple as he thought. Last time, the Lin family was in a hurry and wanted to send so many disciples here. Maybe they wanted to Build your own power in the academy

"Do you know why they suddenly sent so many disciples this year? It's because they want to control the entire academy."

Chapter 1339

"They came to see this magic lamp today because they wanted to use the power of this magic lamp."

The old dean looked very calm when he said these words, but Gu Shaoyang beside him felt a little unbelievable. The college has been standing on this continent for so many years, how could it be so easy? Was he being controlled?

The more he thought about it, the more he felt that something was not right about this matter. At this moment, Gu Shaoyang couldn't help but frown. He didn't quite understand why Lin Er had such thoughts. :

"Why are these people so overconfident? Don't they know how extremely difficult this matter is? If the academy can really be controlled casually, does the air defense system in the academy belong to Bai An?"

Everyone knows that this matter should not be easy to cause, but those people in the Lin family are so confident that they even think that they can control the situation by sending a few disciples over.

If it weren't for Gu Shaoyang's sudden If someone appears in time, maybe those people from the Lin family will really send several disciples over.

"Tianci and I have already discussed it. We want to find out the real strength behind them, so I am going to give this magic lamp to them. Don't worry, everything is still within my control. Inside."

The old dean said these words calmly, and after hearing these words, Gu Shaoyang immediately said: "Since the dean has said this, I will resolutely follow the dean's command from now on and will definitely cooperate with you. of."

Although the child Tianci is said to be particularly innocent, Gu Shaoyang really didn't expect that he could now cooperate with the old dean's plan.

After hearing this, Gu Shaoyang also looked at Tianci sincerely in front of him. It seems This person should not be a fool who only knows how to cultivate:

"I used to think that you must not understand the so-called so-called worldliness. It turns out that you are so smart now. It seems that I must have trained you well during this period, so I was able to turn you into such a smart person."

When Gu Shaoyang said these words, there seemed to be some ridicule in his tone, but after hearing these words, Tianci in front of him nodded solemnly, and his voice sounded particularly certain:

"You're right. If it weren't for you always being by my side to help me, I might have been deceived by others. Thank you very much."

Obviously he just wanted to make a little fun of him, but seeing the person in front of him looking like he wanted to thank him so much, Gu Shaoyang really couldn't bear it. In his heart His mood suddenly became a little embarrassing, and at the same time, Gu Shaoyang also looked at the old dean next to him with some embarrassment. The old dean next to him had already laughed so hard:

"It seems that I am really grateful for accepting you as a closed disciple this time. If I hadn't accepted you as a closed disciple, I'm afraid I wouldn't be able to train Tianci's character at all."

These words made Gu Shaoyang feel even more frightened in his heart. Nowadays, things have become more and more urgent, and time has already become more and more tense.

Since the old dean has already After knowing the conspiracies within the Lin family, he had already started planning the layout early, and now everything is almost ready.

"We have almost prepared everything now. You all must listen carefully to me. If you meet someone from the Lin family again, you must pretend to be stupid for me."

After hearing this, Gu Shaoyang nodded solemnly, because he also knew that the old dean in front of him must have been planning in his heart for a long time.

If something goes wrong on his side, then the old dean's Things around here will become very troublesome.

The atmosphere in the air gradually became a little embarrassing. At the same time, those people in the Lin family have also begun their planning. Their purpose is to control The entire Tianlu Academy

"Master, everything has been prepared inside, and Lin Er has already prepared everything inside, so we are ready to attack now."

There was a person next to him who was respectfully reporting what happened this time. After hearing this, the person in front of him nodded slightly. The person in front of him was the head of the Lin family.

"We must be careful about things this time. It's not like you don't know what the old cunning old dean is like. If we are not careful, it is very likely that we will be completely wiped out by her."

Chapter 1340

The Lin family was considered a well-known family before, and there was also a gentleman in the family who taught at Tianlu Academy.

But what I never expected was that since this elder entered Tianlu Academy, their entire family seemed to be targeted.

Obviously the old dean should be the legendary person who makes fair decisions, but the old dean never seems to be willing to stand on their side. No matter what happens, the Lin family must suffer.

After thinking of this, the head of the Lin family felt particularly angry. At the same time, he also looked coldly at the subordinates around him. These subordinates had been cultivated by him long ago. Long-term:

"You all listen carefully to me. The most powerful elders in Tianlu Academy must have been meeting in the conference hall recently. As long as you can surround the conference hall by then, all the old men inside will naturally be there. Can't run away."

When he said this, the man's tone sounded very excited. After the men around him had already gone to take action, the head of the Lin family finally took his time. The ground took out his own weapons:

"We, the Lin family, have endured this for so long, and now we finally don't have to endure it anymore. We will definitely kill all of you by then. Aren't you just a broken dean? Do you really think you have much ability?"

After saying this, the head of the Lin family came to the college angrily. The students in the college didn't know what happened at all, and were still thinking about studying. On the other side Those subordinates had already arrived at the door of the conference room early. The old men in the conference room were indeed having a meeting. These elders usually like to hold meetings at this time:

"It seems that our master really predicted it exactly. It turned out that these old men were actually having a meeting in this room. They surrounded the room and killed all the old men inside."

These people in the family entered Tianlu Academy through the elder who entered Tianlu Academy before. Just when they were about to take action, Gu Shaoyang smiled coldly beside them:

"Are your movements really too slow? I have been waiting for you here for nearly two hours. Why did you just come in now? Or is it that your elder is not that powerful at all?"

The voice sounded particularly sarcastic, and after hearing this, several people in front of them couldn't help being startled. They didn't expect that there was someone at the door of the conference room.

The young man in front of them looked at He looked very arrogant. And these subordinates couldn't figure out where Gu Shaoyang came from? So all of them were very nervous.

"I think you guys are really funny. If I had known that you guys were so slow, I should have gone to the cafeteria to eat some desserts first. I've been hungry all afternoon."

After saying this, Gu Shaoyang even touched his belly in a pretentious manner, and such an action made the faces of the people in front of him even more ugly. The people in front of him just wanted to come and take advantage of the academy. The elders were approaching with a net, but they did not expect that there was already a person waiting for them at the door of the conference room. At this moment,

Gu Shaoyang looked at the group of people in front of him coldly, and he felt that there was someone waiting for them at the door of the conference room. This group of people really don't know how to praise. The old dean has been so kind to the people in the Lin family, but he didn't expect these people to want to repay kindness with enmity.

At the same time, these people in front of them have already made up their minds. Determined, the entire Tianlu Academy will be theirs anyway, so even if they kill a few people inside, it shouldn't be a big deal.

"Have you ever thought about it? Why did your elders open the door to you so late? And haven't you elders mentioned it before? He had already taken away a group of people before!"

When he said these words, the expression on Gu Shaoyang's face looked particularly cunning. At this moment, he was waiting for this group of people to come over, because not all of the people that the elder of the Lin family picked up were People from the Lin family.

After hearing this, the people in front of them couldn't help but look at each other, because they didn't know what the words Gu Shaoyang just said meant.

The old dean had already made a very careful plan. It was arranged, and the old dean specially arranged for Tianci to find someone to pretend to be a member of the Lin family.

When he looked at the bewildered faces of the people in front of him.
