Chapter 1341

Gu Shaoyang couldn't help but kindly reminded them: "You should think carefully about why your elders came to open the door for you so late? And it seems that your elders didn't open the door according to the regulations at all." They had already been reminded. It was so obvious, but the people in front of him still seemed to be at a loss, and then Gu Shaoyang couldn't bear it anymore:

"I have told you two so many times. I really don't know what is going on in your mind. Do you really want me to reveal the old dean's plan?"

While Gu Shaoyang here was dealing with these people in front of him, Tianci on the other side had already found some people to pretend to be members of the Lin family, and they also specially pestered Elder Lin.

"You must be careful, the dean is very powerful. If you are accidentally discovered by the dean, he will probably kill all of you."

When he said these words, Dean Lin's tone sounded particularly worried. After hearing these words, Tianci next to him also imitated Gu Shaoyang and rolled his eyes. He really looked down on the elder in front of him.

Seeing that the time has finally passed, Tianci at this moment is really unwilling to continue dealing with the elder in front of him. He nodded directly to the people next to him. The man next to him The pretenders also knew what God's gift meant, so they immediately took off the clothes of the Lin family, and at the same time, they pointed the tips of their knives directly at Elder Lin.

"Elder, since you already know that the dean is a very difficult person to mess with, why do you still want to mess with him?"

The expression on Tianci's face when he said these words seemed very elusive. After hearing these words, Elder Lin finally understood that all the people in front of him were pretending.

Or maybe they were. Because it was too dark, right? So he didn't realize at the beginning that the team leader in front of him was actually led by Tianci, and Tianci was from the old dean's side. After thinking of this, Elder Lin suddenly I felt a little collapsed. It turned out that the old dean had already known everything they had done. No wonder the college was so peaceful during this period.

Time continued to go slowly like this, and Tianci at this moment directly The tip of the knife in his hand pointed at the elder. In fact, he had surpassed the elder's cultivation a long time ago:

"If you don't do anything to harm the academy, I will never point a weapon at you, but you are really wrong this time. What you did this time is really too much."

The body of the elder in front of him was like sifting chaff. At this moment, the other party kept trembling, and his tone of voice sounded much weaker than before:

"Tianci, I know you are a good boy, and I also know you are a smart boy. I was just forced to come here by them. I never thought about actually rebelling!"

When he said these words, Dean Lin's eyes were particularly frightened. Just when the other party here was about to continue talking, Gu Shaoyang directly tied up several people in the conference room:

"How could it be possible that you were forced to do so? If you had confessed this matter to the old dean a long time ago, the old dean would definitely escort you carefully. How could he force you?"

After saying this, Gu Shaoyang kicked the people around him to the ground hard. These people were specially trained by the head of the Lin family:

"I thought that the people your master trained were so powerful, but it turned out that they were just a bunch of paper tigers. They had just taken three moves from me, and they were already so exhausted."

At this moment, basically everyone in the Lin family has been wiped out, and only the last head of the family has not come over.

Looking at the time, it is already getting late. At this moment, Gu Shaoyang directly He kicked the person just now hard on the butt:

"The time you mentioned is really unreliable, right? Didn't you say that your master would come in at three quarters in the morning? It's been a quarter of an hour now, why haven't you come in yet?"

The people around him naturally refused to talk anymore, and at this moment, Gu Shaoyang suddenly realized a problem. The time had been agreed upon before, so why was the head of the family suddenly late? Is it because he had already noticed something was wrong before?

After thinking about this, Gu Shaoyang really felt that he could no longer stay here.

Chapter 1342

After hurriedly handing over all these people to Tianci, he immediately ran in the other direction.

The strong intuition in her heart told her that maybe the head of the family at this moment was not far from the school gate.

The fact is that this is indeed the case. The original head of the family had already climbed over directly from outside the courtyard wall, but when he saw that there was no one to respond to him in this place, he began to become extra vigilant in his heart.

Since the head of the family can sit in the position of Lin's head of the family for so long, he must have his own merits, so when he saw that no one came to help him, he immediately wanted to escape quickly..

He began to feel very worried in his heart, and at this moment, Gu Shaoyang kept running towards the school gate. Although it was very easy recently, the intersection out of the school had already been blocked.

Nowadays, there is only one place that can go out, and that is the main entrance of the college. If you really want to escape, you must do it in that place.

Nowadays, Tianci can only capture these prisoners and come to the old dean, and the old dean quietly looks at the elder in front of him:

"I still remember when you came to the academy. You were a very young person at that time. How come you have become like this now? Could it be that the pursuit of power really changed you?"

I thought that this elder was also a young and promising person, and that this elder was highly sought after by young people when he was young. I didn't expect that he would become like this now? After hearing this, the people in front of me This elder was also a little sad. In fact, he didn't want to be like this, but it has been so unfair over the years:

"You have always kept saying that you want to give us real fairness, but you have never given us fairness, and you have never been towards our family."

After saying this, the elder in front of him burst out laughing. Even Tianci did not expect that she would make such a terrifying laugh:

"You have always said that you are the fairest person in the world, but where is the fairness in this world? All disciples must wait until they are selected in the academy before we can ask for them. How could we be willing to accept those wastes?"

The expression on the face of the elder in front of him looked particularly crazy. After hearing this, the old dean just shook his head. He did not explain what the other party said just now:

"If you still have a little bit of repentance, I will not destroy your power. But now it seems that you don't have any repentance. Then you should reflect on what you have done. Just do it."

After saying this, the old dean slapped the elder in front of him on the back, and the elder in front of him spit out a mouthful of blood. The people around him were trembling with fear. At this moment, the old dean looked at the dying elder on the ground. How could he not feel pain in his heart? This elder has been staying in the college since the establishment of the college:

"I really have never thought about using your family, and I have never put any pressure on you. If it weren't for you being so aggressive now, I naturally wouldn't do anything to you? But you failed me this time."

All the spiritual powers of the people in front of me have been abolished, but the old dean did not take away their lives at all, because taking away their spiritual powers would be fatal enough. At this moment, the old dean has already came to the courtyard quietly. The students tonight could hear movement in the old dean's courtyard, but they didn't know what happened. At this moment, Tianci had already walked up respectfully, and all the students The students have all been gathered in front of the elders:

"Dear students, I know that this incident is very sudden for you, but this incident is also a test for you. People from the Lin family broke into our college tonight and want to kill all the elders. Kill and silence."

After hearing this, the group of students in front of them immediately exploded. They did not expect that the Lin family would do such a ridiculous thing, and this matter sounded really strange. Already?

"How could he do such a thing suddenly? Elder Lin obviously had a class with us a few days ago. How could he suddenly do such a thing?"

"Wasn't their family always very peaceful before?"

How come all of a sudden...

Chapter 1343

"How did it become like this? Could it be because there is something unspeakable?"

At this moment, the students were already panicking. Looking at the panic of the students in front of him, Tianci suddenly felt that these people were just a bunch of trash.

If Gu Shaoyang suddenly heard If this happens, I'm afraid the other party will just laugh coldly. The people in front of them really have a different pattern. The atmosphere in the air has already become more and more embarrassing, and at this moment the old dean His mood also became a little uncomfortable, and he did not expect that things would change like this:

"Elder Lin has been subdued, but now we need to do a more important thing, we need to conquer the Lin family."

The students in front of them seemed to be slightly stunned for a moment, but they quickly came to their senses. After all, what the Lin family did this time was a treasonous thing.

If all the elders were really killed , If so, then the world would have changed, and at this moment they are fully supporting it.

All the students have been mobilized, and now the Lin family is just an empty shell, and on the other side Gu Shaoyang finally found the head of the Lin family:

"You can't run away anymore. From the moment the people in your family entered here, all of you have become pockets."

At this moment, Gu Shaoyang directly forced the head of the house into a corner, and after hearing this, the head of the house suddenly burst out laughing:

"It seems that I should not have kept you as a scourge at all. I should have killed you directly. I should not have kept you at all."

After saying this, the head of the family rushed forward suddenly, and at this moment, Gu Shaoyang also felt that his power seemed to be somewhat outmatched by the opponent...

Originally, Gu Shaoyang thought that the head of the house in front of him had no real ability, absolutely not. What he thought was that this time he had really underestimated the ability of the old guy in front of him.

He watched helplessly as this old guy was about to escape under his nose.

In desperation, Gu Shaoyang could only speed up. His own speed, but when he increased his speed, the defensive capabilities around him were relatively reduced.

When Gu Shaoyang finally rushed to the head of the house in front of him, the head of the house at the same time suddenly She curled up her lips and smiled coldly.

At first, the head of the family was still running away, but when she found that Gu Shaoyang had forced herself to increase speed to catch up, she suddenly turned around. He punched Gu Shaoyang hard on the body

"Are you really overestimating your abilities? Do you think someone like you can really stop me?"

"I still think that someone like you can be an enemy of the head of a dignified family like me."

I couldn't help but feel a stab of pain in my chest. Just when Gu Shaoyang stumbled and wanted to stand up, the head of the family in front of him had already rushed over again.

Seeing the opponent's hand The weapon inside was about to be placed on top of his head. At the same time, Gu Shaoyang was stunned on the spot. He did not expect that the man in front of him

would be so crazy. He coughed slightly subconsciously, and at that moment Gu Shaoyang closed his eyes. This time he had indeed underestimated the enemy. If he really died in the hands of the old monster in front of him, then he would have paid a corresponding price, right? He felt a sense of despair in his heart. Ding Ling's voice came to my ears. I originally thought that this man would hit me hard. What I never expected was that this man was stopped halfway. He opened his eyes in disbelief. Eyes, Tianci had appeared in front of him at this moment. The expression on his face also looked a little painful, but he still forced the owner to retreat.

After helping Gu Shaoyang up in a panic, Gu Shaoyang and Tianci looked closely at the head of the house in front of them, and at the same time, the head of the house suddenly burst into laughter:

"You two are really good disciples trained by that man, and you two really think about them!"

The voice sounded particularly sarcastic, and after hearing this, Gu Shaoyang subconsciously took two steps back. He didn't know why the old guy in front of him was so hostile to the old dean.

Gu Shaoyang and Tianci's The main task was to take down the old guy in front of him. It was precisely for this reason that the two of them did not hesitate at all. It was indeed difficult for Gu Shaoyang to deal with the head of the family in front of him at the beginning, but after all, now Today's godsend has come.

Chapter 1344

Opportunities for two people to join forces were rare, and looking at the crazy old guy in front of him, Gu Shaoyang suddenly smiled lightly and glanced at Tianci beside him, and said cheerfully:

"This is a once-in-a-lifetime opportunity for the two of us. If the two of us can take down this old thing, then the two of us will be famous overseas."

Tianci never cared about these messy reputation issues, but after hearing this, he couldn't help but laugh.

If he can join forces with Gu Shaoyang, it would be quite a good thing to think about. The two of them had become extremely nervous this time, and after hearing this, the old man in front of them laughed even more wildly. He did not take Gu Shaoyang and Tianci seriously at all:

"You two must have been carefully trained by that old guy, right? Since you were trained by him, let me test your abilities. Let me see what your abilities are."

Sooner than later, after hearing these words, Gu Shaoyang rushed out suddenly. At this moment, Tianci on the other side was also attacking from another angle. The three figures quickly struggled together. , where is the old dean on the other side still dealing with the disciples of the Lin family? Most of these disciples are ignorant people, so they did not expect that they were being used by the elders in their own family.

Except for a few more important ones Except for the elders who had all their spiritual powers abolished, all the remaining people had been expelled.

The elders in the college couldn't help but feel a little frightened. They didn't expect that the Lin family would do such a thing. Come.

If it weren't for Gu Shaoyang always guarding outside the conference room, they might have been killed by these monsters from the Lin family. After thinking of this, one of the elders was indignant:"I didn't expect that their family The people inside are actually so cruel. If all our elders were killed, wouldn't it cause turmoil in the entire country? Why don't they think about these things?"

These elders felt even more aggrieved, because they did not expect that the Lin family would attack them, let alone that this person would attack them so viciously.

Of course, the old dean had already done this before. He had anticipated everything, and it was precisely for this reason that he was able to send Gu Shaoyang and Tianci to pursue him together. The old dean actually knew this, after all, he had already worked with the Lin family before. The head of the house had competed together, and he knew exactly what kind of ability that man had.

Although it is very likely that Gu Shaoyang could not defeat that head of the house now, if Gu Shaoyang could join forces with Tianci, they would The strength of the two people cannot be underestimated.

As expected, Gu Shaoyang felt a little struggling at the beginning, but since the help from God around him, the movements of the two people have begun to become faster and faster. In my heart , The mood in front of them became more and more exciting. At this moment, Gu Shaoyang and Tianci finally worked together to take down the head of the family in front of them. The other party's voice came to their ears:"You little bastards, what do you think you are doing?" Is the dean you work for a good dean?"

"You are just being used by him. You people will definitely regret it in the future. You will definitely regret it."

After hearing this, Gu Shaoyang kicked the head of the family hard. He would not believe the nonsense this man said.

If he believed the nonsense told by this old man, then what would happen to the old man after so many years? What does the dean's hard work mean?

Since they had already made an agreement with the dean before, Gu Shaoyang and Tianci prepared to push the head of the family to the square in front:

"Just be honest with me. If you dare to say these nonsense words again, I will cut off your tongue so that you will never be able to speak again."

Gu Shaoyang really felt particularly impatient. He didn't expect that the head of the family next to him would be so noisy. He was obviously the head of the Lin family, but he didn't expect that he would still be so unstable in doing things.

In his heart Their mood had already become more and more angry, and when the two of them pressed the head of the Lin family to the square in front, the head of the Lin family kept trying to escape.

There were several times when the head of the Lin family really He almost ran away. If it weren't for the cleverness of Gu Shaoyang and Tianci to catch the head of the Lin family, the two people now might have let the head go.

Chapter 1345

Following the instructions of the old dean, the head of the family was imprisoned. At the same time, the old dean walked to the prison alone, leaving a few people around waiting there.

The waiting time was extremely boring. Gu Shaoyang believed that these people in the Lin family were naturally unforgivable, and these people had no qualifications to defend themselves:

"I think our old dean should not have gone in at all. Rather than continue to listen to their nonsense, it would be better to kill this person directly to avoid other troubles in the future."

Gu Shaoyang has just come to the college not long ago, so he doesn't know much about these things in the college.

But after hearing this, Tianci shook his head. He knew that the old dean would not be able to directly The head of the family was killed. After all, there was a blood relationship between the two people:

"In fact, the head of the family we caught this time is the biological brother of our dean. The two of them seemed to have been practicing together before, but later they turned against each other for some unknown reason, and then it became like this."

After hearing this, Gu Shaoyang could hardly close his mouth. He didn't expect that the original head of the family would have such an identity? No wonder the expression on the dean's face would become strange whenever he mentioned the head of the Lin family. Strangely, it turns out that there is a so-called blood relationship between these two people. The two people are actually brothers. He looked at Tianci beside him in disbelief. Tianci seemed to have already thought of Gu Shaoyang's surprised eyes, so At this moment, the other party just shook his head helplessly:

"In fact, these things are not a big deal at all, and I have secretly inquired about it before. The relationship between our old dean and the head of the Lin family is not very good. Although they are brothers, sometimes they cannot offend. Get to the bottom line."

This sentence is indeed correct. The old dean always does things according to the rules. Even if he is his biological brother, if he really violates certain rules, he will definitely be punished without mercy.

Since he can control the most powerful college on the continent, the old dean must have certain management methods. After hearing this, Gu Shaoyang finally nodded gently.

The things that the head of the family violated this time are terrible. It's not just a little bit. If he really has to be sentenced to death, I'm afraid the old dean will feel uncomfortable in his heart!

And right here, Gu Shaoyang can't help but feel in his heart. While thinking about these things, the old dean had already come out of the prison at the same time. The old dean's expression looked a little empty.

Knowing that the old dean was going to interrogate his biological brother in person this time, Gu Shaoyang naturally did not Hui Hui went up to ask for the result without knowing it. He and Tianci just followed the old dean quietly. The two of them followed the old dean to the garden. A new

batch of bamboos had recently arrived in the garden. Now, Today's batch of bamboos are growing lush and lush.

The atmosphere in the air is a little awkward, and Gu Shaoyang is a little uncomfortable, but because the old dean didn't speak at all, he and Tianci could only force themselves. Standing there with his scalp shaved.

Ever since he came out of that prison, the old dean looked like a completely different person, and at the same time, Gu Shaoyang felt a little nervous in his heart.

Just when he wanted to When he started to speak, the old dean in front of him suddenly lowered his head quietly. The old dean's voice sounded a little deep:

"If it weren't for the fact that he did such a crazy thing this time, I would never have touched the power of the Lin family, but this time they went too far."

You can tell from the business that the old dean who said these words must be very sad, and after hearing these words, Gu Shaoyang shook his head helplessly.

After all, he executed his own brother with his own hands, so Everyone must feel uncomfortable in their hearts, but Tianci on the other side responded blankly like a little fool:

"Rules are rules. If someone can break the rules casually, then the existence of the rules will become meaningless."

The silly boy said these words more and more casually, and after hearing these words, Gu Shaoyang couldn't help but rolled his eyes:

"Dean, please don't take it to heart. It's best not to think about these things, right? Thinking about these things is just asking for trouble. These things will be over when they are over....."

Gu Shaoyang tried his best to make up for it, but at the same time, the old dean in front of him suddenly turned around and looked at Tianci and Gu Shaoyang quietly.

Chapter 1346

"He has committed suicide. From now on, no one will dare to do anything against the rules. This is the sin he deserves."

The voice sounded decisive, but after hearing this, Gu Shaoyang suddenly felt that comforting was useless. Did it turn out that the old man had committed suicide?

Although Gu Shaoyang had not had any interaction with the head of the family before, he It can also be felt that the head of the Lin family is a very, very strong person, and the opponent's talent should be considered to be relatively powerful.

Gu Shaoyang and Tianci did not continue to ask further questions, but after that day's experience After the incident, the Lin family was completely in decline.

Until the end, Gu Shaoyang did not ask whether the old dean was from the Lin family. He also felt that it was not appropriate for him to ask these things now.

Time continued to slow down like this. Walking down, after Gu Shaoyang and Tianci here had almost solved everything, the old dean suddenly called them into the room:

"The two of you have completed the task very well this time, and the task completed by the two of you is also relatively difficult. You are now qualified to be elders."

It's okay for Tianci to be an elder. After all, Tianci has been in the college for such a long time, but Gu Shaoyang has just enrolled in the school for less than a year. If he has become an elder quickly, I am afraid it will cause confusion among others. It's a criticism.

After thinking about this, the expression on Gu Shaoyang's face seemed a little embarrassed. He really didn't want to be the target of the people around him anymore, let alone let the people around him continue to do it. For yourself:

"I feel that I am not qualified to be an elder now. If I really become an elder, I am afraid that the people around me will feel unhappy in their hearts. Otherwise, I should just promote Tianci to the elder. Bar."

Gu Shaoyang looked very serious when he said these words, but after hearing these words, the old dean shook his head:

"Although it is true that you have not been in the academy for a long time, you are already qualified to become an elder, and you have also made great achievements during the encirclement and suppression this time. No one will be unconvinced."

Gu Shaoyang doesn't know at all. Although people often said those messy things in the past, everyone nowadays has really been convinced of Gu Shaoyang for a long time.

They already know that Tianci is the genius among geniuses. , and it is precisely for this reason that no one will be jealous of geniuses. Even when Tianci has reached a level beyond the reach of others at a young age, no one will say harsh words behind his back.

But Gu Shaoyang It's different. Gu Shaoyang entered the academy through proper selection, and although his talent value has been confirmed in the first trial, due to its relatively low starting point, the surrounding People always want to come and give advice.

In the past, these people did not have any self-knowledge at all, but gradually, they have begun to have some self-knowledge, and these people have gradually become convinced.

In order to verify Gu Shaoyang has long been qualified to become an elder. The next day, the old dean issued a vote in front of everyone.

The vote of the old dean was to solicit public opinion. Due to the chaos in the college this time, several elders It was time to go back to rest, and several elder positions were vacant.

In order to fill these vacancies as much as possible, the dean immediately called all the students that night, and in front of all the students He solemnly announced something:

"Our college has experienced such a tribulation, and now the power of teachers has become smaller and smaller, so we hope to re-select a few elders through this selection."

After saying this, the old dean looked at Gu Shaoyang and Tianci next to him:"These two are the candidates I personally selected. If you have no objections, you can cast your votes."

Gu Shaoyang was really forced to come up this time. He always felt that maybe the people around him were not very friendly to him.

Although Tianci around him seemed to be particularly calm, Gu Shaoyang's heart was always Unable to calm down, the students on the other side couldn't help but look at each other in confusion.

In the past, the elders were basically all selected from the aristocratic families. Unexpectedly, the elders this time were actually from the old dean himself. Choose from several disciples trained by his subordinates.

The expressions on everyone's faces look a bit strange, and Gu Shaoyang right here feels that he is about to...

Chapter 1347

When Gu Shaoyang was about to find a crack in the ground and burrow down, one of them suddenly cast his vote.

More and more people put their votes into the ballot box in front of them. After a series of sorting, Gu Shaoyang and Tianci basically passed it unanimously.

The positions of Gu Shaoyang and Tianci are still different. Since Gu Shaoyang has been in this college for a relatively short time, he was only given the title of elder, and now Tianci has become the vice president.

After knowing this result, Gu Shaoyang finally breathed a sigh of relief. Being able to become an elder was beyond his expectation. Naturally, he did not dare to think about the vice president.

And that night, Gu Shaoyang happily carried a large jar of wine and came to Tianci's house. The two good brothers drank and chatted as before:

"Let me tell you, I was actually almost nervous to death when I was sorting out the ballot. I was really scared because the students in our college often targeted me before."

When he said these words, Gu Shaoyang couldn't help but feel a little sad. He really didn't do anything at the beginning, but that group of people kept targeting him, and they didn't distinguish between reasons and reasons. The situation is specific to yourself:

"I originally thought they would definitely not agree to me becoming an elder, but I didn't expect them to be more reasonable this time. Could it be that our old dean secretly put pressure on them?"

After saying this, Gu Shaoyang couldn't help but smile bitterly. After hearing this, Tianci in front of him drank all the wine in the glass:

"How could it be possible that there was pressure exerted secretly? You probably don't know your abilities. The dean will never do such sneaky things. They sincerely want you to become an elder."

We are not fools. Except for Gu Shaoyang and Tianci, there is no other person in this college who can take on the position of elder. The two people got drunk that night, and at the same time in the college Preparations for the ceremony have also begun.

After all, a vice president and an elder have been recruited at the same time, so the celebration ceremony this time must be more grand than before. The expressions on the faces of everyone in the college look... They were so happy that they really couldn't wait to hold this ceremony as soon as possible.

Gu Shaoyang and Tianci were voted by everyone, and what the elder Gu Shaoyang did was worthy of the name. After all, there were few people in the academy who could compare. His cultivation level is higher.

Although it has not been long since he arrived in the academy, we are not blind. Gu Shaoyang's contribution to the academy is not just as simple as one or two things.

God has given this Bian naturally has nothing else to do. Before Tianci, he had always been a god-like existence in the school, and his talent was unrivaled.

In addition, he practiced in seclusion next to the old dean. After so many years, the fact that he is now the vice-dean is the result of everyone's joint recommendation.

Two capable people will continue to gift Tianlu Academy together, which makes the old dean finally feel happy at this moment. A lot.

And he also knew that as long as he handed over this academy to his two favorite disciples, these two disciples would never let her down. The ceremony held by Gu Shaoyang and Tianci in their academy was held smoothly.

During this ceremony, the two of them were really the center of attention, and Gu Shaoyang even felt a little embarrassed.

This ceremony was particularly grand, and even the elders of the school came to visit. For a moment.

Several heads of other colleges also came here to take a look.

In fact, some heads of colleges felt that they did not understand. After all, Gu Shaoyang and Tianci were too young.

If such a young man takes over the college, things in the college are likely to be disrupted.

It is for this reason that representatives from the other colleges have not spoken, but this does not hinder Gu Shaoyang and Tianci successfully held their own preparation ceremony.

After the day finally passed, Gu Shaoyang and Tianci felt that they were about to die of exhaustion. At this moment, the two of them were so tired that they staggered to the ground. On the bed.

At that moment, Gu Shaoyang couldn't help but complain a little in his heart. He didn't expect that just holding a big ceremony would be laborious enough.

If he really wants to manage the college in the future, I guess it's even more tiring than this.

Time continues to go slowly like this, until the ceremony this time is completed.

Chapter 1348

After the ceremony was completed, Gu Shaoyang and Tianci had become elders and vice-presidents as expected.

After everything was almost stable, the old dean called the two of them over that afternoon and solemnly handed the two secret books into their hands:

"Do you know why I promoted you two directly at such a young age?"

"Because I know that you young people are truly unlimited, and if we didn't rely on you young people, we old guys would have been useless long ago."

Listening to these words, there seems to be some sadness in them. Gu Shaoyang doesn't quite understand why the old dean came to him this time. Could it be that he wants to provide him with pre-job training? The gods around him are still very, very Quietly, at the same time, Gu Shaoyang couldn't help but carefully look at the old dean in front of him. The old dean in front of him looked really weird:

"These two secrets are rare treasures. You must make good use of these treasures. I will leave the entire academy in your hands."

"I believe that the two of you can definitely take care of everything. If you still don't understand something, you can go over there and ask some elders."

Obviously it was a very festive event, but after hearing this, Gu Shaoyang always felt that the old dean in front of him was saying goodbye to him.

Sure enough, while he was still thinking about this in his heart, the old dean in front of him The dean nodded gently:

"I have spent a lot of energy in this battle, so I must go back to practice in seclusion now. I believe that the two of you can manage the academy better."

"So I leave the academy to you for the time being. I hope that when I come out next time, I can see that our school is still so prosperous."

After hearing this, Gu Shaoyang finally realized. No wonder the old dean was so anxious to pass on the position of elder to him, and no wonder he was so anxious to promote Tianci to the position of deputy elder. In fact, he and Tianci are among these students. There is no authority at all. If the two of them are really promoted now, then there will probably be a few people who make trouble in the future. The old dean must be very aware of this in his heart, but As for why the other party suddenly promoted Tianci to the position of deputy elder, Gu Shaoyang couldn't explain it in his heart.

Now that he heard that the old dean was about to go into seclusion for practice, at the same time, Gu Shaoyang gently He nodded, and Tianci beside him also looked confident:

"Elders, just feel free to go into seclusion and practice. The two of us will be able to protect our academy well. We will not let the students make any mistakes before the dean comes back."

After hearing this, the old dean in front of him nodded happily. That night, he started to practice in seclusion.

He thought he would just deal with some student disputes in the school, but he didn't expect that the old dean would. They had just retreated to practice, and their enemy Nanfeng Academy had already received the news about the dean's practice.

By the time Nanfeng Academy got the news about the dean's practice, they were almost happy to death, because they had always wanted to. They have to fight against Tianlu Academy, but they have never succeeded.

If they can successfully attack Tianlu Academy, then their Nanfeng Academy will definitely become the largest academy in the world, and they will have absolute power in the future. rights.

For this daydream in their hearts, Nanfeng Academy basically sent people to attack them every day these days, and some people even deliberately provoked them.

Even Gu Shaoyang once received. When I came to Nanfeng Academy, those students were very arrogant:

"It's just a metallurgical academy that appeared out of nowhere, and it actually has the nerve to compare with our academy, which is a serious royal academy."

There are indeed many people in Nanfeng Academy, but in terms of overall strength, Nanfeng Academy and the academy are absolutely different. After thinking of this, Gu Shaoyang had no intention of going head-to-head with the other party, but. But this time, Nanfeng Academy seemed to be targeting him. From time to time, it would send some people over to provoke him.

Seeing that people were almost bullying him at his doorstep, at the same time, Gu Shaoyang's. Feeling a little angry in her heart, she immediately called all the disciples she was optimistic about:

"I know that you have always wanted an opportunity to show your abilities."

"The opportunity for this ability has come. If you can successfully defeat those people from Nanfeng Academy, I will praise you in front of the whole school."

The children in front of me are all very motivated children. After hearing this, these children were almost crazy with joy. One of them said with a cheerful smile:

"They, Nanfeng Academy, always looked down on us before, wasn't it because they had a few bad guys in their academy?"

"If we talk about overall strength, they are definitely not as good as us, so we will push them aside immediately."

After saying this, the boy happily wanted to rush out, but after hearing this, Gu Shaoyang had no choice but to pull her back. As the saying goes, only by knowing yourself and your enemy can you be invincible in a hundred battles. If you don't know anything, If you attack rashly under such circumstances, you may fall into the enemy's trap.

"You are really too abrupt this time. Do you know why Nanfeng Academy has never been willing to conflict with us before?"

"That's because the old dean was here. When the old dean was there, these people would never dare to have any impulses, but now the old dean has gone into seclusion to practice, and he won't be able to come back for a while."

Gu Shaoyang has seen all this very thoroughly. If he can't find out the other party's information clearly, he will never be able to go against the other party with confidence. The reason why he put these few in front of him The child was called over because Gu Shaoyang wanted a few of them to inquire about the news in Nanfeng Academy.

Although the disciples in front of him seemed to be more inclined to fight directly with the people in Nanfeng Academy, after all, Gu Shaoyang The decision has already been made, and they can only follow it silently.

About an afternoon has passed, and all those people sent out before have returned to the courtyard one after another. The people they brought here The information was very similar.

In the past, the academy had always looked down on Nanfeng Academy. But when these people went to Nanfeng Academy to investigate this time, they discovered that there were actually things in Nanfeng Academy that they didn't have at all. The strength you can imagine.

The child in front of you at this moment looks particularly shocked.

"I originally thought that we must be unique in this world, but I went to Nanfeng Academy today to take a look, and I found that their resources are similar to ours."

After hearing this, Gu Shaoyang nodded gently. If the strength gap between the two academies is really much different, it is estimated that Nanfeng Academy will not rush directly for no reason.

After thinking of this, He nodded gently, all this was already within Gu Shaoyang's expectation:

"Don't worry, all this has been within my expectation, and I did a little research on their information before, and they are definitely not as weak as you said."

After this investigation, the students in the colleges in front of them have already looked at the people from Nanfeng with admiration.

But the academy is the number one academy on the continent. There is no way to deny this in any case. Yes. In fact, for so many years, various academies have wanted to compete for the name of the so-called First Academy, and since the name of the First Academy can also bring benefits to them, they want to sharpen their heads and go beyond the sky. Lu Academy.

Nanfeng Academy is just the first academy to take action. If even this academy cannot be suppressed, Gu Shaoyang's situation will definitely become more and more difficult in the future. After thinking of this, Gu Shaoyang and Tianci and the two discussed quietly. At this moment, they have decided to accept the invitation from Nanfeng Academy.

"This Nanfeng Academy just wants to compete for the name of the so-called First Academy."

"If we just obediently give up this name, wouldn't it be equivalent to scrapping the legacy that the old dean worked so hard for?"

When he said these words, Gu Shaoyang's tone sounded particularly angry. After hearing these words, Tianci was still a little hesitant. He did not expect to have to sort out these things so soon.

"I hope to avoid any conflicts with them as much as possible. The strength of our academy is naturally obvious to all."

"If they really want to fight with us, we are not afraid of them, but we still hope to strive for peace."

Actually, everything Tianci considered was correct. The old dean had never provoked any struggle when he was here before.

If suddenly there is a rebellion.

Chapter 1350

So how can I explain to the old dean then?

Gu Shaoyang has actually thought about this in his heart for a long time, but if he allows the other party to bully him, he will never be willing to do so in his life, and he will never allow anyone to bully his colleagues.

It is precisely because he has figured out all this in his heart that Gu Shaoyang has been intensively training the subordinates around him during this period. He is preparing to take these subordinates to Nanfeng Academy.

Before leaving, Gu Shaoyang left all matters in Tianlu Academy to Tianci. Although Tianci was a bit dull at ordinary times, this person was very serious and simple in everything he did.

When leaving, Gu Shaoyang felt more and more uneasy. He knew that she was not sure about him, so Tianci laughed and patted his brother on the shoulder:

"I know what you are worried about in your heart, but don't worry, these things themselves are not worth mentioning, and I also believe that I will be able to manage the academy well."

Looking at the expression on the other person's face, which was full of confidence, Gu Shaoyang couldn't help but laugh. Maybe this time he was too nervous, so he was worried.

Tianci stayed in the academy and continued In charge of the overall situation, Gu Shaoyang came to Nanfeng Academy with his previous subordinates.

Gu Shaoyang had naturally sent people to inquire about all the information in Nanfeng Academy before coming. Well, the dean of Nanfeng Academy is indeed strong, but most of their elders are practicing in seclusion. He was worried that his subordinates would feel scared, so before leaving, they were directly called by Gu Shaoyang When they arrived at the study, Gu Shaoyang came here to boost their morale:

"I think you have already heard about what happened at Nanfeng Academy. In fact, I have always wanted to hear your thoughts. Do you think we should continue to swallow our anger this time?"

Gu Shaoyang's tone seemed to be smiling when he said these words. After hearing this, the men in front of him looked at each other, and finally one of them answered:

"Our Tianlu Academy has been the largest academy in the world since ancient times. If we just bow to their Nanfeng Academy"

"Then no one will respect us at all. Even for the dignity we have worked so hard for, we must not lose."

Sure enough, he is a good young man selected by himself. The man in front of him is indeed quite courageous. After hearing this, Gu Shaoyang also nodded lightly, and another person beside him laughed:

"Since the elders have already taken us to Nanfeng Academy to show off, why are we still asking these questions now?"

"We might as well go there early. I heard that their elders are practicing in seclusion now. I still don't believe it. The students in their college can be more powerful than the students in our college."

Everyone around him burst out laughing. After hearing this, Gu Shaoyang also laughed. This person was right. Most of the elders in Nanfeng Academy are practicing in seclusion.

"You are right, most of their elders are currently practicing in seclusion. If we can seize this opportunity, we can successfully turn this crisis into safety."

Those people from Nanfeng Academy just dared to come and act wild while the old dean was away. If the old dean had really come out, they would have already run away to nowhere. Went.

After thinking of this, Gu Shaoyang's mood began to get better and better. At this moment, Gu Shaoyang took his small team and secretly went to Nanfeng Academy.

Due to the previous situation in the academy , The matter had already been handed over to God.

So during this period, Gu Shaoyang only hoped that he could find out some information about Nanfeng Academy, and this time he really lived up to expectations and found out a lot of information.

Gu Shaoyang had already learned a lot before He pretended to agree to the invitation from Nanfeng Academy, but in fact he secretly brought his men to the academy for actual inspection. During this period, the weather in Tianlu Academy was very busy. , now he finally knows how hard it is to be the dean. What he has to correct every day is the whole school. There are always one or two students who need to take leave every day, and there are always many people every day. If you want to cheat and cheat, Tianci needs to handle it all personally.

Normally, Gu Shaoyang is by his side to help, so things are not so busy at all.
