### Chapter 1351

But because this time Gu Shaoyang had already taken the team to Nanfeng Academy to inquire about the situation, so everything rested on Tianci's shoulders.

The weather these days basically meant that he could only sleep for five or six hours a day. The long-term lack of sleep had already caused big dark circles on his eyes.

By the time Gu Shaoyang came back, the dark circles under her eyes were almost like those of a giant panda.

This time Gu Shaoyang did not want to directly confront Nanfeng Academy, but this time he just went to find out the true strength of the dean of Nanfeng Academy. The dean's strength was indeed unfathomable.

At the moment, Gu Shaoyang said with some worry: "Most of their elders have already retreated to practice. If there is a fight, as long as we have someone who can deal with their dean, the other problems should not be big."

After saying these words, Gu Shaoyang frowned again. The dean was indeed very powerful. He even had the style of an old dean:

"I secretly tested the strength of their dean in private, and I found that their dean's strength is particularly powerful."

"And if we are not careful, we may be poisoned by their unique poison, so we should still be careful."

Before, Gu Shaoyang wholeheartedly hoped that he would not be bullied, but after the on-site inspection, he suddenly felt that there might be nothing wrong with using other methods.

Tianci did not want the two colleges to be bullied from the beginning. There was some conflict inside, and this time she still insisted on her own ideas:

"There has never been any fight when the old dean was here. If the two of us get some innocent people involved in the fight, then the two of us are the culprits."

Although he said that he did not agree with the other party's opinion, this time Gu Shaoyang's heart to fight against Nanfeng Academy began to waver, while Tianci in front of him said calmly:

"In the past few days since you left, I have secretly thought about it in my heart. If it is possible without using force, of course I don't want to use force, and we might also be able to use a little trick."

The expression on Tianci's face looked a little cunning. This was the first time Gu Shaoyang saw such an expression on Tianci's face. At the same time, the other party said with a cheerful smile:

"The dean of Nanfeng Academy is usually very arrogant towards everyone, and she is not on the same value line as most of the deans."

"If we could provoke conflicts between Nanfeng Academy and other academies, then they wouldn't target us, right?"

Tianci was very serious when he said these words, and at this moment Gu Shaoyang smiled: "I remember that you were a very upright person when I first met you, but now you are already able to use these little conspiracies.!"

In fact, at the beginning, Gu Shaoyang felt that he should not swallow his anger at all, but when he saw how powerful the dean of Nanfeng Academy was, his mood suddenly began to waver.

If it really happened this time If we go to confront Nanfeng Academy, we will probably end up with a lose-lose outcome. Besides, what the old man hated most when he was here was the struggle in the academy.

Since the old dean has already taken care of everything in the courtyard, After leaving it to himself and Tianci, Gu Shaoyang must exercise this right well, so after discussing it with Tianci, he decided to use some bad tactics.

That night, Gu Shaoyang and Tianci basically discussed in the room for the whole night. Moreover, both of them were feeling a little panicked. Tianci kept saying:

"I think we are doing this in a decent manner. If others really find out, they will probably gossip around us again."

After hearing this, Gu Shaoyang had already rolled his eyes. He didn't care at all whether others would gossip about him? He only cared about some things in the academy now:

"What's the point? If our people really fight with the people from Nanfeng Academy, then it will definitely be our people who suffer."

"Besides, Nanfeng is also the one who wants to stir up trouble. We just want to make a small change."

Since becoming an elder, Gu Shaoyang has been studying various colleges on this continent every day. The college he is in is naturally the most powerful college in the world, and the third college is none other than Boren.

"In fact, I think Nanfeng College is overestimating its capabilities."

Chapter 1352

"If we can give him a good taste of the pain, maybe they will be able to keep their feet on the ground in the future."

"I think we should cause a conflict between Nanfeng College and Boren College, and then we can both benefit from it."

Tianci has always been a very cautious person. At this moment, the expression on the other party's face looked particularly difficult. If it weren't for Gu Shaoyang insisting on implementing this plan, maybe Tianci would I would not agree at all.

The world finally passed with great difficulty, and that night, Gu Shaoyang immediately handed over all the information about Nanfeng Academy to Boren Academy, and even picked some things specially.

Nanfeng The strength of the academy is second only to Boren Academy. The two academies often quarrel over some things. Maybe they are just trying to compete for superiority!

In order to smoothly cause conflicts between the two academies, the first The next day, Gu Shaoyang specially called for his subordinates:

"During this period, the people in Nanfeng Academy have been hanging around us. If we continue to let them provoke here, there will probably be trouble in our academy."

The men in front of him were finally selected by Gu Shaoyang with great difficulty. He also knew that these people in front of him were very clever, at least enough to complete the task he was assigned next:

"You are all smart people, and I have always believed in you. Listen carefully to me."

"If you can complete the next task, then I can open a green channel for you in the college for free in the future."

After hearing this, the few people in front of me naturally felt very happy. At this moment, Gu Shaoyang also immediately began to arrange his troops. He put the traitors in Nanfeng College into his own college. All of them were deliberately led into Boren College.

Since Nanfeng College and Boren College are usually in a state of struggle, the two colleges have always paid special attention to each other's movements.

When Boren College found out that there were several people in its college, When these people were sent by Nanfeng College, the people at Boren College were extremely angry.

They cursed angrily and said:"The people in Nanfeng College are really good at what they do. It's getting more and more despicable, and now they are directly arranging people in our college.

He knew before that there were spies from Nanfeng College in his college. It was for this reason that Gu Shaoyang made special use of these people this time.

After sending everyone to Boren School, Gu Shaoyang naturally felt a little excited at this moment, but Tianci next to him still felt that these methods were not very good:

"I think otherwise we should just break up with Nanfeng College. If there really is a fight between Nanfeng College and Boren College, I am afraid that the two of them will definitely end up in a fight that will hurt both sides. Aren't we the chief culprits?"

The voice sounded a little strange, and after hearing this, Gu Shaoyang in front of him shook his head. He never thought there was anything wrong with the two colleges fighting:

"We just successfully used them, don't you still know in your heart?"

"These two colleges are always fighting over some messy things, so the reason why they are so easily provoked by us now is because they already have other things in mind."

It's because these two colleges have already made some small moves before, that's why they were instigated by Gu Shaoyang so easily. As expected, the current Nanfeng College and Boren College started immediately Struggle.

The people in Boren College are all aggrieved by the fact that Nanfeng College has placed people on their side, especially the elders. The current elders are almost angry to death:

"These people are so arrogant. Who would have thought that they would be so arrogant now?"

"If we continue to make concessions, then we will definitely have to continue to give in. Will we have to give in to them for the rest of our lives?"

Obviously the gap between Boren College and Nanfeng College is not very big, but I don't know what is going on. There seems to be a big gap between the two in the hearts of others. It has already been because of I feel particularly dissatisfied about this matter. At this moment, the elders of Boren Academy are even more angry:"If we can't catch them all in one go, wouldn't we have wasted our efforts?"

Chapter 1353

These two academies have had conflicts a long time ago, and at this moment, Gu Shaoyang is just taking advantage of this conflict.

As expected, after seeing the misunderstanding between the two colleges, Gu Shaoyang couldn't help but feel secretly happy in his heart, but Tianci always felt weird because of this matter.

Things have been calm in the college these days. Since the troublemakers in Nanfeng College were beaten out, the students in the college are much safer.

However, after discovering that the people from Nanfeng College were assigned to their own college, the elders from Boren College immediately stopped working, and they also took the initiative to attack this time.

On this day, when Gu Shaoyang was carelessly preparing to go out and have fun, at this moment, his subordinates outside suddenly ran over. The expression on his face seemed to be a little excited:

"I heard that the elders from Boren College seemed to have gone to Nanfeng College today, and those few people made a particularly unpleasant fuss. Did one of the elders get hurt when they came out?"

It seems that there should be a conflict between the people on their side. After hearing this, Gu Shaoyang immediately sent someone to inquire about the matter carefully, and as expected, they found out something fishy. The men in front of him said respectfully. : "Today, the elders in Boren Academy went to argue with the people in Nanfeng Academy."

"But those at Nanfeng Academy did not admit that they had planted spies, so they started fighting."

This matter sounds unheard of, and at this moment, Gu Shaoyang's heart sank. It seems that he has really made a big fuss this time. The subordinates next to him were saying: "This time it is a few people from Boren College. An elder took the initiative"

"So they had already made preparations, but the strength in Nanfeng Academy was really stronger than them, so an elder from Boren Academy was injured."

After hearing that an elder was injured, Gu Shaoyang still hesitated a little in his heart. After all, this matter could be regarded as his own fault, so he thought about whether he should go to Boren Academy to take a look. ?

After thinking about it, Gu Shaoyang still felt that he should not get involved in this matter anymore.

Nanfeng Academy and Boren Academy have conflicts in themselves. If he were to join in this conflict again, the conflict would probably be even worse by then. The solution was solved.

He had already understood this in his heart, so at this moment, Gu Shaoyang decided to watch the show with Tianci, but at the same time, the crisis in their academy was naturally resolved. The old dean was just now Less than a month after practicing in seclusion, I didn't expect that Nanfeng Academy was already making moves. If it weren't for the clever use of the conflict with Boren Academy, Gu Shaoyang and others might really want to start a war over this.

As the youngest elder in the academy, Gu Shaoyang is actually not afraid of those people in Nanfeng Academy. To put it bluntly, those people are just a mob, and those people usually don't leave a good reputation. What if

? If the two academies really fight, the reputation of Nanfeng Academy will definitely be damaged. Such a result will not bring any harm to Gu Shaoyang. The only bad thing is that it may hurt the students in the academy. Come on, everyone. The only purpose of going to the academy is to practice well. If you spend all your boring time fighting against others, it will be more than worth the gain. I feel more and more helpless in my heart, and at this moment, Gu Shaoyang Tianci and Tianci were also worried. This time, the Nanfeng Academy matter was settled smoothly, but there would be no other troubles in the future. That night, Tianci drank a bowl of wine for the first time: "Dean, this has just happened." We haven't been practicing in seclusion for long, and now we are like this. There are still a lot of people lining up to come and bully us. What should we do?"

If the old dean was here, then those people now would definitely not dare to act rashly, but now the old dean is practicing in seclusion and has no idea about the things outside.

Since the old dean sincerely Trusting himself, and also entrusting the entire academy to himself and Tianci, Gu Shaoyang must not disappoint the old dean.

This time, he was lucky to be able to overcome this difficulty, but there is no guarantee that someone else will not come next time To make things difficult for himself, Gu Shaoyang directly convened a meeting of all teachers and students the next day.

At the meeting, Gu Shaoyang showed his airs as an elder for the first time. He sat on the elder's seat and watched quietly. Look at everyone in front of you.

Chapter 1354

"Everyone has worked so hard to get here. I believe that the purpose of everyone coming here is to practice cultivation, so I don't want to disturb you with other things."

"But now that someone is bullying us, we can't always swallow our anger."

These students in the college actually already know what happened recently, but because they have not participated in the battle, they are still a little confused.

The crowd is even more uproar, watching helplessly. The people in front of them were all chattering away, and Tianci next to him nodded:

"I know that everyone has been working very hard, and I also know that everyone has been hoping to practice well during this period. In this case, we must not let down the old dean's expectations of us."

Tianci was very prestigious in the academy before. After all, he also had the reputation of being a genius who is rare to see in a hundred years, so what he said convinced everyone. Time continued to pass slowly like this. While walking down, Gu Shaoyang from this teacher-student conference urged everyone to work hard to improve themselves. After this teacher-student conference, those in the college have really worked harder.

Looking at themselves The hard work was not in vain. Gu Shaoyang and Tianci both felt a little excited. They had no confidence in themselves before, but now they suddenly discovered their management abilities.

These students in the college are indeed very hardworking. And during this period of time, they have always wanted to strive to surpass themselves before. Nowadays, the entire academy is full of vigorous efforts. Of course, everyone in Tianlu Academy must work hard to improve themselves, and Gu Shaoyang also Tried every possible way to help everyone.

Although the old dean had already gone into seclusion to practice due to his injury, the people in the academy did not slack off at all. On the contrary, they were even more energetic than when the old dean was here. Work hard.

After seeing this situation, Gu Shaoyang and Tianci were very relieved. Now they can no longer rely on the authority of the old dean. All they can rely on is their own real strength. On the other side, Nanfeng Academy They are fighting with Boren Academy. The two academies have already had conflicts before, and this time the conflict has aroused them, making them even more angry.

Basically, every day, people in the academy are because of the fighting. The incident was hurt, and when the news reached Gu Shaoyang, Gu Shaoyang felt that he had gone too far.

But this is a world of jungle and strong food. Gu Shaoyang already knew this when he first came to this world. Only the strong have the right to speak in this place, and he is the top strong one.

Tianlu Academy is the most powerful academy. It was enough for Gu Shaoyang to enter this academy in a short time. People were amazed.

Now that he has become an elder at the youngest age, he is even more popular all of a sudden. In the past, there were a few people in the academy who felt a little aggrieved, and some even thought that Gu Shaoyang was just a newbie. The boy is not worthy of taking on the important role of an elder in the academy.

But when they saw Gu Shaoyang's talent and hard work day and night, everyone felt convinced, which also made Gu Shaoyang's status in everyone's hearts more and more. High.

Recently, Nanfeng Academy and Boren Academy have been fighting. Although Boren Academy's overall strength is not as good as Nanfeng Academy, after so many years of development, it can be regarded as having its own outstanding top. Local.

Both academies should be regarded as relatively top academies. After these two academies started to quarrel, the whole world became a little uneasy. As the saying goes, when two tigers fight, one will be injured. But if the strength of these two tigers is equal, then only these two tigers will be injured.

People from Nanfeng Academy and Boren Academy will both suffer losses, but the disciples in Tianlu Academy are getting better and better, and there are several individuals who have directly broken through the bottleneck period of their original cultivation.

After this battle, the people in Nanfeng Academy no longer had any other hostility, because they were really damaged this time, so they were forced to quietly recuperate.

Thinking that when Nanfeng Academy and Boren Academy were about to destroy them, Gu Shaoyang and Tianci finally couldn't stand it any longer, and the two of them joined forces to stop the fight between the two academies.

Today's Tianlu Academy is more powerful than when the old dean was there, and seeing that Gu Shaoyang and Tianci have come to them, even the elders of Nanfeng Academy feel uneasy.

They could only agree with compromise.

The war soon subsided. Gu Shaoyang and Tianci played a decisive role in this war. If they had not stopped it, Nanfeng Academy and Boren Academy might have continued to quarrel. At that time, the people will not be able to live a stable life at all.

After everything was stopped, Gu Shaoyang and Tianci finally felt a lot more relieved. They had always felt weird, but now they felt much better.

Sometimes Gu Shaoyang would deliberately joke to Tianci: "Why do I feel that this fight this time was completely directed and acted by the two of us?"

"Otherwise, let's go out and write story books in the future. The picture books we write will definitely be liked by others."

Knowing that Gu Shaoyang just said these words just to make a joke, Tianci still frowned tightly. If it weren't for the two of them wanting to shift the blame,

Nanfeng College and Boren College might not have been able to fight. , to a certain extent, he was the one who got Boren College involved in this incident.

Tianci has always felt uneasy because of this incident, and more than half a year has passed soon. , everyone in the school has been practicing hard for more than half a year.

Since they no longer have the protection of the old dean, everyone hopes that they can be stronger. Without the protection of the old dean, they are like They are a group of hairless chicks, and they can only rely on their own strength to protect their dignity and safety.

When the old dean finally recovered from his injuries, Gu Shaoyang and Tianci had already He was already waiting respectfully at the door of the old dean's retreat for cultivation. He had never seen the sun for more than half a year. When the old dean walked out of the room, he was fascinated by the dazzling sunshine in front of him. He closed his eyes for a moment, and Gu Shaoyang beside him had already walked over:

"Congratulations to the old dean. If it weren't for the old dean, I'm afraid our college would have disappeared long ago. During this time, the two of us finally understood the hard work of the old dean."

Tianci still looked very dull, and after hearing this, the old dean couldn't help laughing.

In fact, before he came out, he still felt a little worried in his heart. After all, he always He felt that he, the old dean, was incompetent and actually asked two juniors to manage everything in the academy.

He also knew that there were several academies outside that were always eyeing his academy. It was for this reason that the old dean was The dean did not dare to waste any time. Fortunately, Gu Shaoyang and Tianci did not live up to her expectations.

Looking at the innocent smiling faces of the two children in front of him, the old dean also walked out of the room slowly at the same time, and When he walked outside, he realized that all the disciples outside were already waiting below.

After seeing the old dean, these disciples were stunned for a moment, and then quickly resumed their training. The formation shouted loudly: "Congratulations to the dean for his return, congratulations to the dean for his successful reset."

The voice was as loud as the sky, and after hearing this, the old dean smiled happily. At this time, she suddenly realized that the abilities of Gu Shaoyang and Tianci around her were much improved than before.

These two children were first-class before, and now they have more abilities than before. The old dean really came out after practicing in seclusion in a secret room for more than half a year, and originally his He was still a little worried in his heart.

Because Gu Shaoyang and Tianci were too young, he was worried that these two people were not old enough to suppress those in the academy.

But it was not easy for the old dean to finally end his retreat. When he arrived, he found that everything in the academy was fine, and the self-cultivation of Gu Shaoyang and Tianci had also improved to a certain extent.

Now the disciples in the academy in front of him have begun to greet the elders of the academy respectfully. After leaving the seclusion and looking at the people in front of him, the old dean suddenly felt very special happiness in his heart.

If other colleges had experienced such a big event, they would have already experienced it. I feel lonely, but my college is still thriving precisely because of the two geniuses Gu Shaoyang and Tianci, and it is even better than before. I finally returned to my room again, and now Gu Shaoyang directly reported everything that happened during this period to the old dean. He also told the story of the conflict between Nanfeng Academy and Boren Academy.

#### Chapter 1356

"The two of us really had no choice at that time. If we hadn't hidden them together at that time, it would probably have been a disaster for our Tianlu Academy, so we could only come up with this last resort."

When he said these words, the expression on Gu Shaoyang's face seemed to be a little embarrassed. After hearing this, the old dean nodded. He would never deny Gu Shaoyang's approach just because of his blind kindness:

"What you did was particularly right. The reason why they attacked our Tianlu Academy in the first place was because I was practicing in seclusion. They thought this was the best opportunity for them to seize the First Academy. You did a very, very good job."

The old dean naturally praised Gu Shaoyang's actions. After hearing this, Gu Shaoyang finally breathed a sigh of relief. Fortunately, the old dean did not punish himself for these things.

That day In the evening, Gu Shaoyang reported on most other things, and then returned to his room. In fact, he has not let down his guard for more than half a year, and he looks very nervous every day. Time is just Continuing to walk slowly down like this, he finally got a good sleep. At the moment, Gu Shaoyang had no idea that the people in the organization were looking for her shadow everywhere.

Thinking about the people in the ghost hunting organization back then I wrote a letter of introduction to Gu Shaoyang and never took care of his affairs again. However, a big event has happened in the organization now. Without Gu Shaoyang's strength, they may not be able to survive it.

Outside Those people have been looking for crazy for a long time, but now the world where Gu Shaoyang lives is relatively closed, and the people in it have not been out much, so no one knows how Gu Shaoyang is doing in here. That's it.

The elders in the organization have been worried these days. Originally they thought they could write a letter to Gu Shaoyang, but now they realize that they can't find anyone at all.

Those elders in the organization I've been really anxious these days.

"This is how to do ah? If we can't find Gu Shaoyang again, then those people will definitely control our organization. This is an organization that we have worked hard to maintain for so many years!"

When they said these words, several people were very anxious in their hearts. They finally found out the news that Gu Shaoyang had entered Tianlu Academy, so they immediately sent a few people over to ask for help.

But now Gu Shaoyang He has already reached the position of elder in Tianlu Academy, so now he is not visible to just anyone. Faced with the requests of those people in the organization, the few gatekeepers The doorman just shook his head:

"If you don't have evidence to prove that you know Elder Gu, then don't come here to struggle anymore. It is absolutely impossible for us to let you in unless you can prove that you did know Elder Gu before."

After hearing this, several people in the organization felt that they were not well. Moreover, Gu Shaoyang had been their eldest brother before. What is there to prove?

"We really didn't lie. Gu Shaoyang was the eldest brother in our organization before. This time we just came to find our eldest brother. Is it wrong for us to come to our eldest brother?"

The tone of the people in front of me sounded very anxious when they spoke, but at this moment, the little doorman was still unwilling to listen to what they said and pushed them out directly. Time continued like this. Walking down, Gu Shaoyang originally wanted to go to the old dean's academy to report something this morning, but when he just walked to the side of a garden, he suddenly heard a few people discussing over there.

"I heard that someone from some kind of soul hunting organization came to our Elder Gu a few days ago and said that our Elder Gu was the big brother in their organization before. Isn't this nonsense?"

"Our Elder Gu has already reached the position of elder at a young age, how could he be their eldest brother? You really don't even have to draft a lie."

After hearing this, Gu Shaoyang suddenly froze on the spot. During this period of time, he had never asked about the spirit hunting organization. He did not expect that the people in the organization were actually looking for him.

"No, I heard that those people have come to our place several times. If they come to our place again, we can just beat them out with sticks. Why let them harass us all the time."

The voices of several people sounded particularly mocking? But after hearing this, Gu Shaoyang couldn't care anymore.

Chapter 1357

He was supposed to go to the dean to report something, but at this moment he arrived at the mountain gate in a panic.

The few doormen at the mountain gate were guarding the mountain gate. When they saw Gu Shaoyang running over in a hurry, they immediately saluted respectfully. Gu Shaoyang's voice came to their ears:

"Have people from the ghost hunting organization come to see me in the past few days? Did they tell you what happened?"

Originally, these little doormen thought that the so-called spirit hunting organization was a made-up organization. After all, they had never heard of such a thing as a spirit hunting organization in the world before.

In addition, Gu Shaoyang is already the youngest elder in the academy, so there must be countless people who want to come and enjoy his happiness. Those few doormen also regard people in the spirit hunting organization as wanted. Here comes the happy person.

Now looking at Gu Shaoyang in front of him with such a panic expression on his face when he spoke, the few doormen suddenly felt that something was not right. If Gu Shaoyang really is As for their eldest brother in the spirit hunting organization, I'm afraid things will be difficult to handle this time.

My heart became extremely uneasy. Just when the little doorman here was about to say something, something sounded in his ear. Suddenly there was a voice, and several people from the spirit hunting organization came to Gu Shaoyang:

"Big brother, we finally found you. We have been trying to find you in the college these days, but they won't let us in no matter what. If big brother doesn't come out today, I'm afraid we won't really see you. No more big brother."

The expressions on the faces of the little doormen next to them seemed to become more frightened. They did not expect that several people in this so-called spirit hunting organization actually knew their elders, and they actually knew him. In the past, he was really the younger brother of the elder.

After thinking of this, the few doormen couldn't help but feel a little scared in their hearts, and after hearing these words, these people in the spirit hunting organization were even more excited. Extremely anxious, Gu Shaoyang could only comfort them first:

"No one is allowed in the academy during normal times. They are just performing their duties. What on earth made you come to me? Is there something going on in the organization?"

Gu Shaoyang didn't intend to argue with the few doormen around him. These few doormen were just performing their duties. They didn't do anything wrong at all. It took a lot of effort to finally meet Gu Shaoyang. , the expressions on the faces of the people in front of them seemed to be getting more and more excited, and one of them couldn't help but frowned tightly:

"A big thing has indeed happened in the organization. If the eldest brother didn't go back to help, the current organization would have been finished long ago. I hope that the eldest brother will definitely go out to help!"

Obviously, the organization was always good when I came here. I didn't expect it to suddenly become like this. After hearing this, Gu Shaoyang couldn't help but feel suspicious. Listening to this person in front of him. Several people were talking in unison:

"The elders in the organization have been locked up. If the elder brother doesn't go back quickly now, it is estimated that the elders in the organization will be poisoned to death. I also hope that the elder brother can go back quickly and save the organization. Go inside!"

This matter must be something that cannot be explained clearly in a few words. After hearing this, Gu Shaoyang hurried to the old dean. He knew that he had to go back quickly.

If not Because if the ghost hunting organization had helped him back then, he might still be a street gangster now. Gu Shaoyang has always been grateful in his heart.

Because now he is already a member of Tianlu Academy Dean, so the most important thing for Gu Shaoyang is to complete some debris in the academy, but now he must go back to the organization first

"Old Dean, I'm afraid I won't be able to continue to help here this time. There is a traitor in the organization I was in before. I must go and find the traitor immediately."

When he said these words, the expression on Gu Shaoyang's face looked particularly complicated. After hearing these words, the old dean also nodded. She knew that Gu Shaoyang had some experiences before coming here:

"Don't worry, I will definitely find someone to take your place temporarily when the time comes. As long as you finish handling your affairs, you can come back anytime and anywhere."

The old dean can be considered a reasonable person, and after hearing this, Gu Shaoyang finally felt relieved.

Chapter 1358

At that moment, he immediately went back to his room to pack his things.

All the people in the previous organization were promoted by himself. If a traitor suddenly appears among these people, does that mean that he was unclear about who he was before? That's why it creates hidden dangers for the organization.

Just when Gu Shaoyang here was thinking about these things in his heart, Tianci suddenly appeared at the door, holding a big box in his hand:

"I heard that you are about to go to the organization you stayed in before. If you need help with anything, just tell me. I will definitely help you with everything I can help.."

When he said these words, the expression on Tianci's face seemed to be a little worried. Although he said that he had never experienced life at the foot of the mountain, he also knew that life at the foot of the mountain was definitely not as simple as the mountain.

He knew that the other party must be worried that he would do things in the organization, so after hearing this, Gu Shaoyang couldn't help laughing and nodded, and he quietly patted Tianci in front of him on the shoulder:

"Don't worry, this organization is one that I have already worked for before, and I also spent a lot of time in the organization. They just want me to go out and help, and I will finish helping by then. Will be back."

Tianci also wants to go out to help, but since the current old dean has just left, there are still a lot of things that have not been dealt with in the college. Gu Shaoyang is gone. If she, the vice dean, leaves again, The old man really couldn't handle everything by himself. As if he had already seen through the inner thoughts of his good brother, Gu Shaoyang quietly patted Tianci in front of him on the shoulder. She looked with some relief. Zhu Tianci said:

"You just need to stay in the college and help the old dean handle things. The old dean finally got out of retirement. Now he must not be too tired anymore. You must help him well and you must not delay it. Did you hear the old dean's hindrance?"

Actually, Gu Shaoyang has always been very clear in his heart. This good brother in front of him must want to help him complete the task at the foot of the mountain, but now the academy cannot do without people. The old dean's injury has just begun. It's a little better, and the old dean is no longer familiar with some things in the college. If he is forced to let the old dean pass, he will probably be exhausted again by then! Also! It is precisely for this reason that Gu Shaoyang's mood at this moment has become particularly uneasy. He doesn't know what it means after he goes down the mountain this time. But it is absolutely impossible for him to do so before the danger is completely resolved within the organization. He will come back easily.

After hearing this, Tianci in front of him smiled. Maybe he was thinking too much, right? If Gu Shaoyang really shows his true ability, there are probably not many people in this world. Someone who could become his opponent.

That night, Gu Shaoyang had already hurriedly followed a few people in the organization down the mountain. On the way, those people in the organization kept describing to her what had happened in the past few days:

"We didn't even know who the traitor was at the beginning? But we knew that more and more strange things seemed to be happening in our organization. In fact, we didn't expect that things

would turn out like this. It was only later that we found out that the person had started to attack the elders in our organization, so we Will be vigilant."

Those elders in the organization are considered very powerful people. Unexpectedly, even the elders have been plotted by those people. After thinking of this, Gu Shaoyang couldn't help but frowned.

He was like this He looked at the people around him quietly:"Has the traitor discovered why you came here? If the traitor discovers it, we must find another way."

The last thing you can do now is to alert the snake. If those traitors are discovered by chance, they will probably take another set of measures by then, and then it will be too late. After hearing this, the people in front of me The few people nodded. They didn't tell anyone about coming here, and they didn't let the traitor find out when they came here:

"We were very careful when we came here. The traitor probably didn't notice that we had come to bring in reinforcements, but I'm not sure if they had attacked the elders during this time?"

Those traitors have always been ruthless people, and it was not easy for Gu Shaoyang to finally return to the soul hunting organization.

#### Chapter 1359

When he walked into the ghost hunting organization, he was a little surprised to find that all the things in the organization had been controlled by those traitors.

Basically all the senior leaders in the organization have been detained. The juniors below have no idea what is going on, but they can only listen to the instructions of the senior leaders.

Today's senior leaders are all detained in a small room, and these leaders have been poisoned. Every day someone comes to give them the antidote. If they don't listen to these traitors, then these leaders will There is no way to get the antidote.

Gu Shaoyang secretly inquired about the news outside. When he heard that the traitors had used poison on the leader, the anger in his heart was almost uncontrollable. He did not expect that the group of people actually used poison. It's become so vicious.

The mood in his heart became more and more angry. At this moment, Gu Shaoyang was clenching his fists tightly. If the people around him looked aggrieved, they could only rely on Gu Shaoyang now:

"When we went there, they didn't have a complete grasp of the organization. Unexpectedly, they have completely grasped the organization now. What should we do? Is it possible that we can only bow to them?"

The voices of the people around him sounded particularly frightened. After hearing this, Gu Shaoyang nodded. At that moment, he directly disguised himself and the people around him:

"We absolutely can't alert the snake now. Now we can sneak into the organization. There are so many people in the organization that they won't notice a few of us. The most important thing for us is to find out which leader is being imprisoned. Where."

Gu Shaoyang's disguise skills have always been particularly superb, and when several people around him discovered that he had already changed his face, they immediately happily agreed to the matter.

Sneakily When I came to the organization, the atmosphere in the organization these days was particularly depressing. Ever since the traitor took over the leadership of the organization, he would issue some perverted orders every day. The group of juniors below simply dared not to get angry. To be honest, although they didn't know what happened specifically, they also knew that the senior leaders must be different from before.

Gu Shaoyang spent a day inquiring around the organization, and he was about to give up. When I was there, I suddenly saw a person secretly calling them over.

The person in front of me held a key in his hand:"All the senior leaders in the organization were locked in a small room. The room is in the cave in the back mountain. This is the key to that cave. I hope you can get the upper floors out."

The person in front of him was one of Gu Shaoyang's most trusted subordinates before. After hearing this, Gu Shaoyang nodded lightly. Now he can't reveal his true identity for the time being. He finally came sneakily with great difficulty. When they arrived at the back mountain, Gu Shaoyang opened the door of the cave while the traitors were not paying attention. Only then did he realize that several high-level officials in the cave were about to be tortured beyond recognition. Finally, he finally came in a hurry. Arriving next to the senior management, after careful observation, Gu Shaoyang said in surprise:

"This group of disgusting wastes! How dare they give such poison to the elders. It seems that we must find an antidote immediately. If the delay continues like this, the elders' bodies will not be able to hold on."

He didn't expect that group of people would give such poison to the elders. After hurriedly going outside to search for medicinal materials, Gu Shaoyang immediately began to refine the antidote that night.

Gu Shaoyang's ability to refine medicinal materials He was originally first-class, but because this group of people poisoned him too hard this time, he could only spend some time making the antidote.

Finally, with great difficulty, he found the place where those high-level officials were. At this moment Gu Shaoyang couldn't help but feel angry in his heart. He didn't expect that the traitor could do such a thing to the top leaders of the organization.

These people in front of him were all famous figures in the original organization. , but now they all have many more wounds on their bodies, and even their skills are not as good as before.

I think these people helped a lot when Gu Shaoyang was the big brother in the organization. , if it weren't for the help of these people in front of him, Gu Shaoyang would never have been able to transform the organization into something else in a short period of time.

Chapter 1360

And these people also trust Gu Shaoyang wholeheartedly. Maybe they did think that Gu Shaoyang was relatively young at first.

So I think their experience may not be that rich, but after so many things happened later, they have long since regarded Gu Shaoyang as their real big brother wholeheartedly.

Now seeing Gu Shaoyang running over, the group of people in front of them struggled to stand up, and one of them coughed up blood.

"You are finally back. If you don't come back quickly, we will probably be killed by the traitor by then. Now that the traitor has taken control of the entire organization, those people below should No news yet."

The person who spoke was the elder in the organization. After hearing this, Gu Shaoyang hurriedly took out the antidote he had made. At this moment, he looked at the few people in front of him like this. An elder.

Seeing that one of the elders had taken his own antidote, at the same time, the big stone in Gu Shaoyang's heart finally let go. At least the lives of these people in front of him would not be in danger.

Gu Shaoyang The person who came now also looked sad. Everyone was about to be tortured by the traitor, and the people below didn't know why, so no one knew what the top leaders of the organization were going through. There was one person He sighed softly: "Our skills have been tortured and banned by that traitor for a long time. If we want to recover, it will probably take two months."

Originally, Gu Shaoyang thought that these elders should be able to recover their skills soon, but when he looked at the faces of the elders in front of him, he understood instantly. Even if he made a good ointment, it would never be possible so quickly. Let the opponent's skill return to its previous strength.

After thinking of this, he could only comfort him and said: "You just need to stay here well now. I will take action in the next matter. You must not scare the snake.""

After recovering for almost half a day, the cultivation levels of the top executives in front of them had only recovered to about 20% of their previous levels, but they were still unable to do anything. After finally coming out of that place, Gu Shaoyang Ask the people around you: "Is there any way to mobilize the strength in our organization? Where is the talisman now?"

The people in front of them looked at each other. Maybe they didn't know where the magic talisman was at all, and even if they really knew where it was, they probably couldn't do anything about it.

Ordinary people don't know where the magic talisman is at all. Where, if you really want to find the magic talisman, you must go to the top leadership of the organization.

I don't know if the current traitor has found the magic talisman, but the current spiritual talisman is the last thing they have hope, so Gu Shaoyang took an adventure and came in front of this group of senior executives.

After the last antidote treatment, the faces of the senior executives in front of him were obviously better, but at this moment they He still felt extremely weak.

Looking at the group of people in front of him quietly, Gu Shaoyang couldn't help but feel a little distressed in his heart. These people all contributed to half of the organization's success. He didn't expect that they would become like this now. Like this?

Time continued to move slowly like this. When Gu Shaoyang brought up the matter of wanting the magic talisman, the people in front of him did not hesitate at all. The magic talisman was something they had already hidden.

"In fact, we had already noticed that there might be a traitor in the organization a long time ago, so we hid the magic talisman directly. The traitor now locked us here because he wanted to know where the magic talisman was."

When he said these words, the expressions on the faces of the people in front of him seemed to become more and more angry. At the moment, in order to prevent these senior officials from being persecuted, Gu Shaoyang could only bring them here secretly. In a small room outside the organization.

These people must be used to being served by others, but Gu Shaoyang has no conditions at all. Now that he can save the lives of several senior officials in front of him, it is already amazing.

I looked a little apologetically at the hut next to me. The hut next to me was full of weeds, but such a place has become the last refuge of the leaders in front of me. Got it

"I'm really sorry. I haven't been to our organization for a long time, so I'm not particularly familiar with the situation in our organization. I can only ask you to wait here for a while."
