Chapter 1361

"I will naturally send someone to pick you up when the time comes."

Originally, Gu Shaoyang didn't want to alert the snake, but if he didn't find a place for these senior executives to settle down, the traitor would probably poison them again. It's not certain whether they can be rescued by then?

After hearing this, the senior executives in front of them nodded immediately. They were not fools. Of course, they knew that everything Gu Shaoyang was doing now had been done with all his strength:

"We placed the magic talisman in my elder brother's study. There was a small room in the study. There was a box in that room, and inside the box was the magic talisman we placed."

After hearing this, Gu Shaoyang nodded. Before leaving, he used all the troops he could mobilize to protect these senior leaders and came to the inside of the organization alone.

If he really wanted to find As for the magic talisman, he had to go to the study first. However, the current study had already been sneaked near by Gu Shaoyang that night. But when he saw that the study was already surrounded by water, he also He couldn't help but frowned.

These people in front of him must be the people arranged by the traitor, but the traitor has never shown his face from beginning to end, and the subordinate who has been following Gu Shaoyang also looks worried. Neither of them knows what to do. Yes, if you force your way in now, you will probably alert the snake. But if you don't break in, will you have to spend time here?

Gu Shaoyang here can't help but feel that he has no solution. When the two people in front of him suddenly started to change shifts, Gu Shaoyang finally discovered that these people also needed to change shifts. He could n't help but feel happy in his heart. Gu Shaoyang here had figured out what happened to them. Regularly, while the two teams in front of him were handing over, he immediately brought one of his subordinates to the study.

The layout in the study was completely different from the layout when he was here. The layout here seemed to have changed. It must be bigger.

I think the original leader felt that this place was not big enough, so he made a larger space. But now this large space has brought difficulties to Gu Shaoyang.

There is actually something in front of him. There are two rows of identical shelves, and there are various small spaces on these shelves. At this moment, Gu Shaoyang really regrets that he should have asked someone to draw a drawing. The same goes for the subordinate next to him. I couldn't help but start to complain: "If I had known that this place was so thorough, I should have asked the leader to draw a drawing for us. You can see what we can do."

Both of them couldn't help but feel a little anxious. Just as Gu Shaoyang was about to go forward, he suddenly heard the sound of opening the door:

"You must guard the study carefully. If something goes wrong in the study, you will not be able to escape the relationship. Do you hear me clearly?"

The voice sounded very strange, and after hearing this voice, Gu Shaoyang and his men immediately hid behind one of the bookshelves.

The voice just now should be a voice that I have never heard before. Gu Shaoyang is right here. When he was wondering who the voice was, at the same time, a person came in from outside the door.

This person was wearing a big black cloak, and the cloak looked familiar. Gu Shaoyang didn't have time to think too much. , the person in front of him had already retreated directly.

This person came and left quickly, but fortunately, this person left quickly. If he continued to stay in this place, Gu Shaoyang and his men would probably It was hard to escape.

After waiting for nearly two or three minutes, the outside finally returned to the original calm, and at this moment, Gu Shaoyang also immediately began to find the so-called secret room.

"I remember that there should have been a shelf in this place. How could that shelf be moved to another place? What the hell is going on?"

Seeing that a shelf had disappeared next to him, Gu Shaoyang sounded even more confused. At this moment, his subordinates didn't know the layout of the study room.

The two of them could only continue walking forward. : "If this secret room existed before, then the switch of this secret room should not have changed. There should be mechanisms on the row of untouched shelves, right?"

After thinking about it, Gu Shaoyang already knew it in his heart, and when he came to one of the hidden cells, he unexpectedly found that there was a small mechanism on the hidden cell. He opened the mechanism very smoothly, and as expected

, I found something like a small box in the back.

Chapter 1362

And what's inside this box is even more extraordinary.

You still have to be cautious when dealing with people around you, so after seeing this thing, Gu Shaoyang immediately put it in his arms in a hurry, and he also found a letter in the small box just now.

Two people climbed out of the window at the back. The subordinate in front of him looked a little scared. After all, he had never done such a big thing before. At this moment, Gu Shaoyang was comforting him:

"Just rest assured, if the traitor can be successfully caught this time, then you will be a great benefactor in our organization, and what you say will be the most reliable in the future."

I don't know if it's reliable or not. At this moment, his subordinates just felt that their legs were almost shaking. After coughing lightly, Gu Shaoyang came to the back mountain with the things he had just found. The original one The box should contain magic talismans. What I never expected was that there was a letter inside, and this letter should be written by the former leader of the organization.

Finally, I finally found an excuse to put it in. The subordinate next to him was sent away, and then Gu Shaoyang finally opened the letter in front of him. The content of the letter was also very simple: "There are traitors among the senior leaders, so be careful!"

After seeing this situation, Gu Shaoyang suddenly raised his head. Just now he helped the senior leaders get rid of their shackles. Is it possible that there are really traitors here? What if there are really traitors among the senior leaders? If there are traitors, then everything that happened before should be explained. No wonder those traitors were able to penetrate directly into the organization. It seems that this person really may have told the leader. He hurriedly put the letter in his pocket. Inside the small box, Gu Shaoyang looked at the talisman in his hand at this moment.

If those senior leaders really had talismans in them, then he could never hand them over, so that night he hurriedly made a fake magic talisman.

When he came to this group of senior leaders, Gu Shaoyang felt very nervous in his heart. He didn't know whether the fake talisman he worked overtime to make could deceive the other party.?

There was a sound outside, and at the same time, Gu Shaoyang handed the talisman inside to the leaders in front of him: "As you expected, this thing is waiting on the shelf in the book. Fortunately, we got it in time. Bring it over."

The leaders in front of him seemed very excited, but Gu Shaoyang never let go of the vigilance in his heart. Originally, he made this fake talisman to confuse the leader in front of him, so later he directly handed this fake one to Li Zhou.

The key to recovery is to quickly get the power of this talisman. So when Gu Shaoyang took out this thing, the expressions on the faces of the leaders in front of him looked very excited..

Since Gu Shaoyang didn't know which of these leaders was the real traitor, so at this moment he could only pretend to be calm and secretly observe what these leaders were doing.

Li Zhou is the most authoritative among the leaders, Gu Shaoyang was the first to hand over the magic talisman to the other party. At this moment, the expression on Li Zhou's face seemed to be very complicated.

He couldn't help but frown: "It will take a certain amount of time to restore our strength. If we continue to hesitate,....."

"It is estimated that everyone in the organization will be deceived by that traitor, and we must quickly recover our strength."

Gu Shaoyang's antidote only restored 20% of their skills. If they really want to completely restore their skills, they must think of a way next.

Gu Shaoyang naturally wants to He helped them practice together, and this time he also kept an eye on it. Anyway, this fake magic talisman only has a little spiritual power. If it is really used by someone with intentions, it won't cause much trouble. The storm came.

Gu Shaoyang nodded quietly:"You are the pillars of our organization. If even you can't support it, it's impossible for the people in our organization to survive."

The leaders around him have already entered a state of cultivation in an instant. At this moment, Gu Shaoyang will stay around this small house every day. Sometimes he will also think about Tianlu Academy in his heart.

If it is a gift from God, If he really follows him here, he might be able to gain a lot of experience this time, but since the current opponent has not come at all, there is nothing to feel regretful about.

Chapter 1363

Time kept going like this, and while Gu Shaoyang here was still thinking about Tianlu Academy, he suddenly heard a loud noise coming from inside the house.

The voice sounded very weird, which made Gu Shaoyang very curious.

So after Gu Shaoyang heard the sound, he immediately hurried to the room to check the specific situation, but when he came to the room.

Standing in the room, he was suddenly shocked by the oppressive atmosphere in the room.

The atmosphere in the room was really very depressing. If it weren't for the fact that Gu Shaoyang had already made preparations before coming here, he might have been rushed out by the shock wave just now.

The elders standing next to Gu Shaoyang looked very painful. After Gu Shaoyang finally helped them up, Wu Yi looked at Gu Shaoyang with pain on his face and said:

"You rush to help. Li Zhou didn't know what was going on just now. Now he seems to be going crazy. You rush to help him. His veins are about to break now."

After hearing this, Gu Shaoyang's heart sank. It seems that the traitor has struck somewhere where he can't see it. But fortunately, the talisman from before was not a real talisman at all, so there will be no trouble this time. Something big happened.

Gu Shaoyang thought silently in his heart, and rushed to help.

Several other leaders in the room were working together to control Li Zhou, who was about to go crazy, but he was about to go crazy. The state was so powerful that the people around him couldn't control it at all.

Seeing helplessly, one of the leaders was about to be thrown into the room next to him. At the same time, Gu Shaoyang took action directly. After breaking the barrier around Li Zhou, at this moment he could only stab the barrier with one sword.

Li Zhou's huge roar came in front of him. At this moment, Gu Shaoyang could not stop the enemy before he completely exploded. He sealed all his lifelines and then tightly controlled Li Zhou on the ground.

If Gu Shaoyang had come a little more, maybe Li Zhou would have gone completely crazy. Fortunately, this time Gu Shaoyang came in time. , and the magic talisman used was not a real magic talisman at all, so he was finally feeling a little better at this moment. He became a little nervous. When Li Zhou in front of him had recovered, Gu Shaoyang asked Someone gave him a glass of water

"I don't know what's going on. I have been practicing quietly just now, but I suddenly feel a huge energy in my body. That energy swallowed up all my consciousness. , and then I didn't know anything."

After waking up, Li Zhou looked at everything around him in shock. He didn't expect that all this would become so disturbing.

After waking up, Li Zhou was also a little scared.

Fortunately, this time Gu Shaoyang left one If it weren't for his careful mind, Li Zhou would probably have gone to the Palace of Hell to report this time. At this moment, he could only comfort there:

"Don't be stupid. I won't tell anyone what happened this time. Don't try to regain your previous strength in the past two days. Since you've almost gone crazy, you have to control your heart first. magic."

Li Zhou is no longer suitable to hold the spiritual talisman. After thinking about it, Gu Shaoyang finally handed the spiritual talisman to Wu Yi:

"What happened this time is thanks to you. If it weren't for you taking care of me all the time, Lizhou might have died a long time ago. It's really all thanks to you."

After hearing this, Wu Yi's face looked a little embarrassed. That afternoon, Gu Shaoyang immediately called all the leaders over. Some things must be discussed:

"I know that everyone's time is very precious, but some things still need to be discussed, and I also want to know if you have any other plans next?"

At this moment, Gu Shaoyang knew very well in his heart that if the traitor was really among this group of people, he would definitely have to do everything possible to get the talisman, and choosing a suitable person is the most important thing.

There is A leader said:"I think our current recovery speed is still too slow. If we continue to recover at this speed, the organization will definitely be chewed up by that group of outsiders. We must speed up our recovery. speed."

This sentence basically hits the mark on the difficulty of all leaders. They also know that they should speed up, but they can't speed up at all.

Chapter 1364

If it weren't for Gu Shaoyang's care this time, Li Zhou might have really gone crazy while practicing. At this moment, he handed the magic talisman to Wu Yi with some worry.

Ever since he got the letter in the study, Gu Shaoyang has been feeling suspicious in his heart. He doesn't know who put the letter next to the magic talisman, but since it has been placed next to it, then It means this thing must be right.

The atmosphere in the air became more and more tense. At this moment, Wu Yi had already called all the leaders over. During this period, the physical strength of the leaders had almost recovered.

Although they are not as powerful as before, it is a miracle that they can recover to this point.

To be able to figure out what happened this time? Gu Shaoyang was immediately ready to investigate, but Wu Yi was the first to mention another incident.

"If we continue to sit here and wait for death, then our enemies will definitely kill us all. If we really want to achieve success this time, I hope we can mobilize all our strength."

Unless all the people are mobilized, if all these people are not mobilized, then the enemy will attack them directly, and at that time they are also likely to be trapped. Trapped.

The more I thought about it, the more I felt a little uneasy in my heart. After hearing this, Gu Shaoyang nodded. Maybe finding out the true identity of the enemy is the most important thing now.

Apart from Gu Shaoyang, None of the leaders knew that there was a traitor among these high-level officials. In addition to guarding against attacks from enemies, Gu Shaoyang also had to guard against the traitor among the high-ranking officials from betraying him anytime and anywhere.

Gu Shaoyang was really acting out these days. What's more, she feels that the pressure on her is getting bigger and bigger. If it weren't for the fact that he has to guard this organization, maybe she would rather go back to Tianlu Academy now. At least the students in the academy are relatively simple-minded.

Moreover, the old dean and Tianci are very kind to me. If I can go back smoothly, I will still be able to stay in the position of elder. When I am an elder, I only need to teach some casual things. That's it, there's nothing else he can ask for.

At this moment, Wu Yi has decided to use the power that the magic talisman can mobilize to attack the enemy, and after thinking of this, Gu Shaoyang was stunned.

If they find this magic talisman, it will be If there was no way to mobilize his power, wouldn't he have to tell him about the note he found in the study?

Gu Shaoyang, who was right here, was hesitating in his heart whether he should hurry up and tell him about the note he found in the magic talisman. When he said it? At this moment, Wu Yi in front of him had already begun to mobilize the power of the spiritual talisman.

After seeing this situation, Gu Shaoyang couldn't help but feel shocked. It was obvious that this spiritual talisman was a fake spiritual talisman. A fake spiritual talisman. How could it be possible to mobilize power?

After thinking about this, Gu Shaoyang suddenly had a very bad feeling in his heart. He had never doubted Wu Yi before, because Wu Yi had always been They are all very kind-hearted.

But it is obviously just a fake magic talisman, and the other party is able to mobilize power in such a fake talisman. Doesn't this mean that this person has not used the talisman at all?

Those around him None of the elders had any other opinions. At this moment, Wu Yi also used the power he could mobilize to rush directly into the spirit hunting organization, killing all the enemies in the headquarters. The power in the spirit talisman is naturally powerful. It is conceivable that there is no opponent for such a powerful force.

So he watched the enemies in the headquarters kneeling on the ground and wailing, and the faces of the senior leaders around him Their expressions were particularly excited.

The final organization was back in their hands, but Gu Shaoyang couldn't rest assured because he didn't know how Wu Yi mobilized the power in the talisman.

Everything around him While everyone couldn't help but celebrate their victory with singing and dancing, Gu Shaoyang quietly leaned on the door frame alone. He really felt that he couldn't figure it out. Could it be that Wu Yi was really the traitor?

I couldn't help but turn around. At this moment, Wu Yizheng was having a fight with the brothers around him. One of them kept laughing and talking.

"Fortunately, Gu Shaoyang was called back this time, if he had not been called back."

It is estimated that all the people on our side have died in that prison long ago. This time there is really no danger!"

The person in front of him sounded very excited when he said these words, but after hearing these words, Wu Yi just smiled perfunctorily. At this moment, Li Zhou's voice came from beside Gu Shaoyang:

"If it weren't for you helping me, I would have gone crazy by now. I will treat it as you helping me this time, and I will definitely repay you in the future."

After saying these words, Li Zhou directly raised his glass and drank it down. Seeing the good friend in front of him looking so happy, the doubts in Gu Shaoyang's heart were temporarily put aside.

"You are really disappointing. I originally thought that your cultivation level would definitely increase greatly, but I didn't expect that you almost went crazy."

If it weren't for me here, you would have fallen into the devil's way by now. You should be more careful when practicing in the future."

Gu Shaoyang said these words sincerely this time. If it weren't for his own If you were present, maybe Lizhou has already been possessed by the madness, and the lives of those who are possessed by the madness may depend on it.

The people around them kept laughing and laughing. They finally managed to get their organization back again, so they naturally felt excited in their hearts. Only Gu Shaoyang was still worried.

He had been observing Wu Yi's every move these days. It was clear that there was nothing wrong with Wu Yi's every move, but when he thought of this person using fake magic talismans to mobilize power, Gu Shaoyang felt something was wrong.

In order to find out what happened this time, Gu Shaoyang, who was helpless, could only conduct a secret investigation, and these days, he slowly began to have close contact with Wu Yi.

Naturally, there are more and more things going on in the organization. After this incident, the leaders found that there were many loopholes in their management process, and they also found that if errors occurred due to these loopholes, it would be deadly.

Nowadays, all the leaders are basically correcting their previous management methods. Only Gu Shaoyang is absent-minded. During this meeting, he basically stared closely at the person in front of him throughout the meeting. Wu Yi.

The elders around him have also expressed some of their opinions. After hearing the opinions of these elders, Wu Yi is very serious every time, but he will also express the opinions of these elders. There are some shortcomings, but this is really admirable.

What Gu Shaoyang disliked most before was sitting in this damn place for meetings, but now she suddenly started to enjoy meetings. Maybe it was because she had been an elder in the college for a long time, right? So I feel a sense of superiority when I sit in this place.

Wu Yi's voice came to his ears, because this time Wu Yi used the power in the talisman to defeat the invaders, so now he has naturally been pushed to the position of the eldest brother:

"I think there is still a certain gap in our leadership. If you have time, we can visit other organizations. Moreover, we almost caused a catastrophe this time, so our power will be certain in the future. Be focused."

These words are all words that Gu Shaoyang particularly agrees with. Wu Yi has basically never presided over anything before, but now her ability to preside over meetings is getting stronger and stronger. What happened this time should be regarded as it was a big blow to them. If it weren't for Gu Shaoyang coming over at Tianlu Academy in time, their organization might have been completely destroyed. After finally waiting for Wu Yi to finish speaking, at the same time Gu Shaoyang He couldn't help but frown. He felt that he had something to tell the people in front of him:

"In fact, I have discovered your shortcomings before. I found that you people are really easy to trust others. Believing others is not a bad thing in itself, but if you just blindly believe it, then sooner or later you will bring some trouble to the organization."

After hearing these words, the people in front of them couldn't help but look at each other. Maybe they didn't expect that Gu Shaoyang would say such words inexplicably today. At the same time, Gu Shaoyang also watched quietly. Looking at these in front of me:

"If you really want to manage this organization sincerely, then I can give you two suggestions. The first suggestion is that you must learn more from the experience of your own people."

Chapter 1366

"The second suggestion is that you should have frequent and focused discussions."

When he said these words, Gu Shaoyang would deliberately interact with Wu Yi frequently. He has now shifted his suspicion to Wu Yi, because what this man did is too suspicious.

When this meeting is over After that, Gu Shaoyang specially kept Wu Yi here

"It is very likely that things in the organization will be left to you to manage in the future. I know that managing an organization is a very tiring task, but I hope you can persevere."

After hearing this, Wu Yi's face seemed to be a little surprised, and the other party's voice at this moment was also a little strange.

"In fact, I think you should stay in the organization. If you don't stay in the organization, everyone in the organization will have no backbone at all, so I think you should stay in the organization."

If it weren't for the fact that the man in front of him used a fake magic talisman to mobilize the power in the talisman, Gu Shaoyang might have really thought that this man wanted to let him stay, but now he only shook his head.

"I had briefly stayed in the organization for a year before, and now I am an elder in Tianlu Academy. If I don't go back, what will my students do?"

Gu Shaoyang's tone was particularly helpless when he said these words, and that night she sneaked around Wu Yi's yard. He wanted to see what this man did at night? The moon seemed to be very special tonight. It was bright, just when Gu Shaoyang here could not help but shudder, at this moment he suddenly found a figure coming not far away.

After the figure hid in a bush, he blew out There was a strange sound, and after hearing the sound, Wu Yi immediately walked out of the house in a hurry.

In the past few days, Gu Shaoyang actually had to observe Wu Yi's house every night, but before For a few days, I didn't notice anything fishy at all.

Unexpectedly, today I suddenly found that the other party seemed to be doing something unusual.

After thinking of this, Gu Shaoyang couldn't help but follow him, and when he came outside When he was in the garden, he happened to see Wu Yi chatting with a man in black clothes.

The man in black seemed to be holding something in his hand:"You should have promised us before. Already? If you can sit in the position of big brother, then give us what we want."

This voice sounds weird, and Gu Shaoyang has never heard any such voice in the organization. Wu Yi in front of him looked embarrassed.

"I will definitely give you what I promised you, but Gu Shaoyang is still with us now. If I do something weird again, I will probably alert the snake by then."

Gu Shaoyang had already frowned. He didn't expect that now he would become an obstacle for the person in front of him to do bad things. What Wu Yi said next made her heart twitch even more:

"Just rest assured, didn't I already promise you before? Of course I will never break my promise to you, and I will definitely consider it carefully this time."

It seems that these two people have known each other for a while. It seems that this is not the first time they have met.

After seeing this situation, Gu Shaoyang couldn't help but frowned. At the same time, The man in black in front of him also took out another thing inside. This thing looked like a magic talisman:

"Don't you want this? I have already brought this thing to you. If you disappoint us again this time, then we will never cooperate with you again, so we can take care of ourselves."

These words have been said so clearly. After hearing these words, Gu Shaoyang couldn't help but frowned. It seemed that he had indeed trusted the wrong person before. He didn't expect that Wu Yi would do this. Such a thing happened?

Time continued to move slowly like this. At this moment, Gu Shaoyang's mood began to become more and more serious. He did not expect that Wu Yi would secretly betray the organization behind his back.

In Gu Shaoyang's case, In my impression, Wu Yi has always been an unknown person in the organization.

Although this person's ability is indeed very special, he doesn't really want to show off in front of outsiders.

He obviously seems to be a relatively honest and reliable person on the surface, but he didn't expect that the other party would say such a thing now?

Chapter 1367

At this moment, Gu Shaoyang was even more stunned.

Although what the man in front of him took out was not a magic talisman, it was definitely a very important thing. At this moment, Gu Shaoyang was following them and listened to all their plans.

The man in black in front of him seemed to be well prepared:"I heard that Gu Shaoyang seems to have returned to the organization, but it's not harmful. Why don't we just pretend that the magic talisman has been taken away, and then we can Mobilize all the power in the organization for our use."

The man in black in front of him really had the idea of the magic talisman, and after hearing this, Gu Shaoyang also smiled coldly. Fortunately, he had already done it before I have already left a hand. If it weren't for the fake magic talisman left behind, it would have been eaten up by these people by now.

Wu Yi seemed a little hesitant at the beginning, but soon the other party nodded, because he also wanted to get the supreme power, and he no longer wanted to be an unknown person like before.

Sometimes honest people are the most terrifying kind, and at this moment, Gu Shaoyang didn't know what to say. When she saw that the two people in front of her had finished their discussion, she secretly It was pushed to the side yard.

Since he had already received the news that there were traitors among these senior officials, Gu Shaoyang did not give them the real talisman at all, but took a fake one to confuse the fake one with the real one.

It was precisely because he took a fake thing that Gu Shaoyang was so lucky to retain the real strength of the organization this time. At this moment, he knew in his heart that it seemed that he had to suppress it well this time. Wu Yi's strength.

The talisman at the beginning was a fake talisman, so Gu Shaoyang would not take that kind of thing to heart, but now he began to think about how to make these people believe what he said.

If they really want to steal the magic talisman, then they will directly use it. As long as the real magic talismans are in their hands, the power they can mobilize is the power in the organization.

After thinking of this, Gu Shaoyang felt a lot more comfortable, and just when he was about to go to his room to sleep, a voice suddenly came to his ears at this moment:

"Why did you suddenly appear here? Can't you sleep tonight?" Wu Yi didn't know when he appeared behind him.

Seeing the person behind him suddenly rushing out, Gu Shaoyang was really frightened, but in order not to let the person in front of him Seeing some clues, he could only pretend to be very irritated and wave his hands:

"I really feel that I have become less and less accustomed to living in an organization these days. I used to live in the mountains. It is very cool in the mountains. I originally thought about it in the past few days. I just went back, but I didn't expect that I would be too hot to sleep tonight."

Since there was no way of alerting the enemy, Gu Shaoyang deliberately pretended not to hear anything. He glanced at Wu Yi in front of him in surprise:

"It's already late at night. You've dealt with so many things during the day, why don't you go to sleep? Could it be that you have been under too much pressure recently, so you can't sleep at all?"

Obviously knowing that this man and the mysterious man outside had just sneaked out, Gu Shaoyang here still had to pretend that he didn't know anything. At the same time, Wu Yi in front of him also smiled:

"I may be under too much pressure these days. I always feel like someone is watching me. But don't worry, I will definitely adjust my mentality. You should go back as soon as possible. Rest, it's getting late now."

The man in front of him smiled amiably. If it hadn't been for the fact that he had just witnessed this man colluding with those outside, Gu Shaoyang might not have believed that this man was a bad person at all. He finally returned to his room with great difficulty. After that, Gu Shaoyang finally breathed a sigh of relief at this moment, but now she has begun to worry about another thing.

It is estimated that Wu Yi will tell everyone about the theft of the magic talisman tomorrow morning, but if they find out that the magic talisman is a fake one, will they put suspicion on themselves? It took a long time, and Gu Shaoyang waited anxiously until the next day. Sure enough, when it was just dawning the next morning, at this moment, Wu Yi was already shocked.

Chapter 1368

"Someone stole the magic talisman while I was sleeping last night. Who did this? Who is it?"

Wu Yi's voice sounded extremely angry, but after hearing this, Gu Shaoyang just sneered. It was obviously just a self-directed and self-acted play, but now he is still playing it so seriously. The elders around him and The senior management had already hurriedly squeezed into the study. When they heard that the magic talisman had been stolen, their faces instantly became particularly ugly.

Fortunately, this time Gu Shaoyang went out for a walk at night, if it weren't for this trip, he really didn't expect that Wu Yi would actually make deals with those mysterious people in broad daylight.

Maybe it's because this man is too confident? Wu Yi was basically the same in the past. There has never been any mistakes in the organization, and this person is one of those people who has no sense of existence at all in the organization.

It is such a person who now colludes with the trash outside to murder the leaders of the organization. The top management, Gu Shaoyang has no way to accept this.

But the facts are already naked in front of them. If he doesn't accept it, there is no other way.

Gu Shaoyang has no choice but to first He will follow the trick, and because this time he gave the fake magic talisman to Wu Yi, this fake talisman will become his final turning point.

Time continues to move slowly like this, at this moment As expected, Wu Yi relied on fake talismans to mobilize the power of the organization.

When he gathered all the people in the hall of the organization, Gu Shaoyang had already thought of a countermeasure.

This time Wu Yi Under the guise of letting the surrounding senior executives rest, no senior executives were allowed to come over at all, but Gu Shaoyang secretly informed them in private.

After some disguises, Gu Shaoyang finally came secretly In the hall, Wu Yizheng on the other side was holding a magic talisman in his hand, and this magic talisman was just a fake.

When looking at the other party who believed it to be real, Gu Shaoyang suddenly felt a little sad at this moment.

What if? If this man could live peacefully in the organization forever, he might not have to suffer such an end now. To be honest

, Gu Shaoyang actually really admired Wu Yi very much before, because this man had so much The strength is really too strong, and it is not easy for a person to live peacefully for such a long time.

If Wu Yi can really stay quiet in the organization, maybe Gu Shaoyang will really You would think that this person is your role model, but the person in front of you actually did such a shameful thing.

Just when Gu Shaoyang here couldn't help but think wildly in his heart , at the same time, Wu Yi in front of them had already come in front of everyone with the fake. At this moment, the expression on his face looked high-spirited.

"I called everyone here today because we will never bear the burden of humiliation. Our organization has always been a strong organization, and people in our organization will never allow anyone to humiliate us."

Before, because of the traitor incident, everyone in the organization was panicked. After hearing this, the few disciples in front of them couldn't help but frowned.

I don't know why Wu Yi gathered them here inexplicably. Discussing this kind of thing.

The atmosphere in the air seems to be getting more and more embarrassing. Wu Yi originally thought that these people in front of him would definitely cooperate with him. What he never

expected was that this group of people had no desire at all. In line with his intention, the expressions on everyone's faces looked particularly dull.

After seeing this situation, Gu Shaoyang really felt that he was about to laugh. He did not expect that this group of people would be so uncooperative. Moreover, Wu Yi even happily called everyone over this time.

As everyone knew, everyone didn't want to come over at all.

"Our organization has been bullied by those outside for such a long time. If we just swallow our anger, they will definitely continue to bully us in the future, so I hope everyone can unite."

Maybe it's because even he feels a little embarrassed? So this time Wu Yi's voice became louder and louder. Seeing that the people around him were already ready to make a move, Gu Shaoyang suddenly said

"Why do I feel that the talisman you are holding in your hand is not a real talisman at all? The real talisman seems to be more flexible than yours. Are you trying to fool us with a fake one?"

Chapter 1369

Wu Yi had always been respectful in the organization before. Although he had never made any mistakes, he could never win the trust of everyone in the organization.

It was because Gu Shaoyang took a fancy to this that he secretly called all the senior executives over. At this moment, Gu Shaoyang looked at Wu Yi in front of him deliberately and provocatively:

"I was the elder brother who had seen real spiritual talismans in his place before. The real spiritual talismans there were not like this at all. Do you have any evidence to prove that the thing in your hand is the spiritual talisman?"

Others around him couldn't help but started chattering. The expression on Wu Yi's face at this moment looked very angry. Maybe he also felt that he had lost his face this time, right?

"The talisman in my hand is definitely the real talisman. Now I am ordering you in the name of your elder brother. From now on, you must obey my command. Do you hear it?"

After hearing this, Gu Shaoyang couldn't help but rolled her eyes. She didn't expect this man to be so shameless. She had just said that the talisman in his hand was a fake, and he still said How could he speak there seriously?

And the people around him all felt particularly unconvinced. They didn't expect that Wu Yi would suddenly become their eldest brother? And because of the previous There were no signs at all, so some people began to deliberately find fault:

"Who knows whether the talisman in your hand is real or fake? If you really want to be our big brother, then you must prove that the talisman in your hand is real."

No high-level officials came to the scene today. This has always been a point of doubt in everyone's mind. After hearing this, Wu Yi in front of him was furious. He did not expect that these people would now doubt what he had in their hands. The authenticity of the magic talisman.

Gu Shaoyang deliberately continued to add fuel to the fire.

"If you don't prove it to us, then we will think it is false."

Looking helplessly at Wu Yi's face in front of him, the expression on his face has indeed become more and more ugly. At this moment, Gu Shaoyang can hardly hold it in anymore. He really thinks it is too funny. The people around him are so funny. Those people have already started chattering about it, and since Wu Yi usually doesn't make much contribution to the organization, everyone is not convinced at all that he is the eldest brother, and now they are even more picky about it. :

"I think the talisman in his hand is definitely not a real talisman. If it is a real talisman, it must have been handed over to several other senior executives. He has not contributed much to our organization, so why should he be here now? Be the big brother?"

If it weren't for Gu Shaoyang suddenly looking for trouble inside, this group of people might never have spoken out their thoughts. But now that one person has told the truth, there are more and more people. The more people speak out their inner thoughts

"If you really want to take over our organization, you must prove that the talisman in your hand is real. If you cannot prove that the talisman in your hand is real, then we will never listen. Your command."

The people around him seemed very excited. After seeing this, Gu Shaoyang was finally relieved. As long as the man in front of him can put the magic talisman on the test throne, then this man will definitely be able to do it. He became the object of everyone's ridicule.

In fact, Wu Yi didn't want to test the authenticity of this talisman at all. If he really wanted to test the authenticity of the talisman, it would be equivalent to wanting the group of people in front of him. Bow his head.

Naturally, the eldest brother will never be able to bow his head like his younger brother in this life, but when he saw that the mood of the people in front of him seemed to be getting more and more excited, at the same time Wu Yi could only He had no choice but to go over there to see if the magic talisman was authentic.

Before leaving, Wu Yi's expression on his face still looked very proud: "I tell you, if I can prove that the magic talisman is real, then you You must obey my orders. If you do not obey my orders, I have the right to expel you from the organization."

You haven't even had time to become a big brother now, and you have already said such cruel words. After hearing these words, several people just rolled their eyes. They will never trust people who are incompetent. Be their big brother, and the Wu Yi in front of them is someone they don't trust.

In fact, when Wu Yi usually acts as the leader, it doesn't make any sense to everyone.

Chapter 1370

But this person who knows nothing wants to be his big brother, which makes everyone worried.

Time passed very quickly, and in a blink of an eye they had arrived directly around the throne, and the men around them were three levels away and three levels away, surrounding everything.

In full view of everyone, Wu Yi directly placed the talisman in his hand on the throne. He originally thought that the talisman in his hand must be real. What he never expected was that when he placed the talisman on the throne, the talisman turned out directly. The bullet flew out.

The surrounding men couldn't help but be stunned for a moment, and just when they didn't know what to say next, Gu Shaoyang in front of them suddenly laughed:

"Didn't you swear before that the talisman in your hand was the real talisman? How could a real talisman not react with the throne? Could it be that you secretly changed the throne in the middle of the night?"

The tone of his voice sounded particularly mocking. After hearing this, Wu Yi put the talisman in his hand on the throne again with some disbelief, but the result was the same as the first time.

Obviously he The talisman that was taken from Gu Shaoyang's hand before was unexpectedly turned out to be fake now. Wu Yi never thought of this. The mocking expressions of those around him became more and more serious. It became more and more obvious that at this moment Wu Yi put the fake talisman on the throne again without believing in evil, but this time the throne not only bounced back, but also hurt Wu Yi's internal strength. Looking at the man in front of him When he tried again and again without believing in evil, Gu Shaoyang actually felt a little guilty in his heart. It seemed that this man really believed in himself, so he felt that this thing was the magic talisman when he first got it. Really.

The voices of several other brothers came to my ears. When these brothers saw that Wu Yi was fooling them with fake magic talismans, all of them were already very angry. Here it comes:

"It turns out that you came here with a fake magic talisman to control us. What exactly do you want to do? Why did you come here with a fake talisman?"

The brothers around him just kept coming angrily, and after hearing this, Wu Yi in front of him was already stunned. How could he know what was going on?

Now At this moment, he accidentally suffered internal injuries, and the brothers in front of him were constantly aggressive, so she couldn't control her internal strength at all.

Gu Shaoyang had already hid in a small corner and started watching the show. Of course he would not help Wu Yi. If this man could stay in the organization obediently, he would probably be able to reach the position of emeritus by now. But this man is not satisfied with his current position. The man in front of him is The expressions on the faces of these disciples looked increasingly angry. At this moment, Gu Shaoyang looked like he was almost beating Wu Yi, and then he finally casually walked out of the corner.

After seeing At the moment when Gu Shaoyang was looking at him, a glimmer of hope suddenly lit up in Wu Yi's eyes, and he crawled to Gu Shaoyang's feet again:

"Didn't you personally hand the magic talisman into my hands in the first place? Why is that magic talisman fake? How could that thing be fake? You quickly explain to them that you clearly put that thing in my hands yourself."

When looking at the aggrieved look of the man in front of him, Gu Shaoyang really couldn't bear it at this moment. He didn't expect that this man still trusted him so much.

Those around him When the elders had already come over and looked at the angry expressions of several other senior leaders, Gu Shaoyang was just looking down at Wu Yi in front of him quietly.

He shook his head helplessly. : "If you can always stick to your original intention, then I will naturally be able to give you a good death, but don't you know what you did this time?"

When he said these words, the expression on Gu Shaoyang's face looked particularly cold. He knew that he had no need to sympathize with the man in front of him. If it weren't for this man colluding with the traitors outside, he might These senior leaders in the organization didn't have to suffer at all.

At the same time, the leaders around them looked at each other a little bit. They only knew that Gu Shaoyang sent someone to call them into this hall, but they didn't know at all. What do you want to do here today?

The subordinates surrounding the leader have already looked at each other with curiosity.
