Chapter 1371

Gu Shaoyang has absolute authority in this organization.

And because he led his organization to change the people around him's impression of the organization, Gu Shaoyang has always been the big brother in everyone's heart.

Seeing the surprised expressions on the faces of the people around him, Gu Shaoyang coldly kicked Wu Yi in front of him. He no longer wanted to continue acting with this man:

"A few days ago, I accidentally discovered that you secretly met with a man in black. You said, if it weren't for you betraying the organization, how could these leaders in the organization be locked up in that small cell? Inside the dark room?"

After saying this, Gu Shaoyang directly called all the leaders in front of him, and he also took out the real talisman and placed the real talisman on the throne:

"This was the real talisman I found in the study, but because I also found another small note in the study at that time, I couldn't take out the real talisman."

Gu Shaoyang looked at everyone in front of him like this. Everyone may have guessed that Wu Yi is the real traitor, but this person is always very careful in the organization, so everyone is a little uncomfortable. She believed that he would do something treacherous. The reason why those people just confronted Wu Yi was because they felt that Wu Yi was not worthy of being their eldest brother, but she never thought that Wu Yi would betray the organization.

The mood in her heart became more and more uneasy. At the same time, Gu Shaoyang quietly looked at the subordinates in front of her. She took out the note she found in the study:

"When I got the talisman in the study, I also got a note like this. The note should have made it very clear, right?"

"There are traitors among the senior leaders of the organization, so I have no way of getting the talisman into their hands."

Wu Yi beside him was so frightened that he backed away in panic, but how could Gu Shaoyang let it escape? Now she is the focus of the people around her:

"I really didn't expect you to be the traitor? Do you know how I found out you were a traitor? It's because I never gave you the real talisman from the beginning"

"But you used a fake to summon the power within the organization. Isn't this something particularly suspicious?"

The expression on Wu Yi's face in front of him looked particularly horrified, and at this moment, Gu Shaoyang was no longer prepared to show mercy. Anyway, the man in front of him had betrayed the organization. He will never be able to be with him in this life. Around the organization.

If it weren't for the fact that this man had been working in the organization for most of his life, Gu Shaoyang might have thrown this man directly into the dungeon.

Now At this moment, he was looking condescendingly at the man in front of him, and his tone of voice sounded like he could not hide his regret:

"Since you personally did such a treasonous thing, we have nothing to say. From now on, you have no relationship with the organization, and you will never be allowed to use the organization's name again in the future. Go out and do things."

Wu Yi was completely expelled from the organization this time, and the senior leaders of the company were also stunned. They really did not expect Wu Yi to be someone who would do such a thing.

Now There are still some people outside who have not been completely wiped out. At this moment, Gu Shaoyang can only temporarily assume the task of big brother again. He called everyone in the organization to come to him:

"I know that this incident is difficult for everyone to accept. I also know that Wu Yi's betrayal is a sad thing for everyone, but now we must protect our organization well. There are still people outside Countless people are watching us eagerly? We must not fall down like this."

This time, the talisman in Gu Shaoyang's hand is a real talisman, and those around him are all convinced. Even these leaders have knelt in front of Gu Shaoyang respectfully:

"As long as Big Brother gives the order, we will go through fire and water without hesitation. We will definitely kill all those people outside. Those who want to harm the people in our organization will never be able to live in this world."

Of course this kind of momentum is particularly good. After hearing this, Gu Shaoyang nodded. He had already investigated the organization where the mysterious man belonged. That organization was just an organization that only knew how to do it. Just an opportunistic little organization.

Chapter 1372

If it weren't for Wu Yi and his cooperation inside and outside, maybe the current small organization would have been destroyed by other organizations long ago:

"There are still some remnants running around outside. I hope everyone can work together to catch them all. People who harm the interests of our organization? We can't let anyone go."

Gu Shaoyang's appeal in the organization is unrivaled. After hearing these words, the others immediately nodded. After they frantically strangled the remnants, the organization finally recovered again. The peace of the past.

This time, Gu Shaoyang inadvertently saved the organization, and the leaders in the organization have always been very grateful. They even always hope that Gu Shaoyang can continue to stay in the organization. One of the senior leaders was full of tears:" If it weren't for you always giving us clues, we wouldn't have known who killed us long ago. I hope you can continue to stay in the organization."

After what happened this time, the group of people in the soul hunting organization really feel that Gu Shaoyang is more and more reliable, and Gu Shaoyang's subordinates in the past are even more complacent now.

Gu Shaoyang has basically become more and more reliable these days. She was dealing with things in the organization. She was finally ready to go to the garden to have a good rest that day. Suddenly she heard two people discussing something next to her. One of them said proudly:

"I used to be a Even if you work under our head Gu, you don't know how majestic our head is. Do you think this matter was handled beautifully this time? In fact, the things we did in the past were more beautiful!"

After hearing this, Gu Shaoyang really felt that he couldn't laugh or cry. He didn't know when he had become a great hero in the hearts of this group of people.

"If it weren't for the fact that our boss Gu was here this time, we might have been taken advantage of by that group of evildoers, and the reason why our organization has such a good reputation is all because of our boss Gu. The head of the family had a hard time figuring it out!"

The voice sounded very excited, and after hearing this, Gu Shaoyang was about to find a crack in the ground to crawl in. He was just messing around casually, but he didn't expect that he would be in these places. Such a good impression was left in the hearts of his subordinates.

The atmosphere in the air gradually became a little tense. That night, Gu Shaoyang was already thinking about whether he should return to the academy? If he didn't go back quickly now, he would probably From now on, the task of being the eldest brother of the spirit hunting organization will fall on him again.

The more he thought about it, the more he felt that this matter was a bit strange. In order not to waste time in the organization, Gu Shaoyang immediately took all the tasks the next day. Everyone was called to come forward, and he felt that he needed to talk to these people in front of him:

"I have been here for a long time this time. If I don't go back to the academy quickly, the academy will definitely be in a mess, so I am ready to set off immediately!"

After hearing this, the people around him didn't speak at all. They really didn't want to let Gu Shaoyang leave. If their master left, they wouldn't know how to manage the organization by then. One of them even more I couldn't help but muttered there:"There are so many elders in charge of the academy. If something really happens there, brother, you won't be able to help me when you go back now, so you might as well feel at ease first." Stay in our organization."

After hearing this, Gu Shaoyang couldn't help but feel a headache. What he was most afraid of was that the people in front of him had been trying to keep him, but he didn't expect that he had fallen into their hands. The feeling in his heart He became more and more helpless. Just when Gu Shaoyang here didn't know what he should say, Gu Shaoqing in front of him suddenly stood up. Now she is the highest leader in the organization..

In the past, Gu Shaoqing should have been just the second in command, but now there is really no more convincing leader in the organization, so he was forced to shoulder the responsibility of the leader.

"Brother, actually I know that you must be worried about things in the academy now, but there are so many gentlemen in charge of the academy. I believe they will be able to manage the academy well. Why don't you stay in our organization for a while first?"

Gu Shaoqing really felt a little unsure in his heart. If he accidentally paid management fees to the organization, all the strength of the organization accumulated by his ancestors would be lost. After thinking of this, he couldn't bear it. Don't stop persuading.

Chapter 1373

"In fact, I have no experience in managing an organization at all. If I accidentally ruin the management of the organization, then I will definitely be too worried about it, so I'll let my brother show us here.."

The people around them have also started talking non-stop. They really don't want Gu Shaoyang to leave. If Gu Shaoyang leaves now, there will probably be many other organizations eyeing them. We are causing trouble here.

One of them seemed to be really sincere:"If the eldest brother leaves now, what if other organizations take advantage of the fact that our organization is relatively weak and come out to attack us?"

Looking at the people in front of him who kept looking downcast, Gu Shaoyang could only shake his head helplessly. He did not expect that these people were so dependent on him. In fact, the power of the ghost hunting organization There is no doubt about it, and even if we look at the entire continent, the forces within the organization can definitely be counted:

"In fact, you don't have to worry at all, because you are all very strong, and I believe that you will be able to protect yourselves. I really have to go back now."

Gu Shaoyang has already made up his mind this time. In fact, he has never wanted to be a big brother before, and he is more comfortable in the academy, so he still hopes that he can go to a place where he is more comfortable. Before leaving ,

Gu Shaoyang called Gu Shaoqing into the room:"Actually, you are a very, very powerful person. I also know that you must feel panic in your heart now, but I still hope that you can shoulder your responsibilities." Come."

Gu Shaoyang had already divided the magic talisman into two halves:"I give you this half of the spiritual talisman because I hope you can manage the organization well in the future. If there is something that you can't solve, then when you arrive, Just come to me when the time comes."

Gu Shaoyang's attitude was very determined when he said these words, and after hearing these words, Gu Shaoqing in front of him also felt a little helpless. It seemed that he really couldn't persuade the other party this time.

In the end, Gu Shaoqing could only sigh softly:"Since eldest brother has already made up his mind, there is nothing left to say on our side. We will definitely follow eldest brother's instructions!"

Anyway, I have pretty much dealt with the things in the organization now, so Gu Shaoyang is already preparing to leave for the academy, and the weather at the academy should still be waiting for him, right? The mood of the members of the organization in those few days They were all very bad. When they thought that their eldest brother would soon return to the academy, they felt a little angry in their hearts.

Originally, they still hoped that Gu Shaoyang could continue to manage the organization within the organization. Unexpectedly, the other party wanted to return to the academy wholeheartedly, which always made his subordinates feel angry.

After Gu Shaoyang left to mind his own business, these people felt a little uncomfortable in their hearts. But now that Gu Shaoqing has firmly taken the position of eldest brother, they can only swallow their anger.

Gu Shaoyang on the other side finally returned to the academy, and when he returned to Tianlu Academy, the few outside The person who cleaned things had already reported to the old dean in a panic.

Since Gu Shaoyang left, Tianci really felt more and more that he was too busy with the things in the college, and the things in the college were very special. There are so many, it is absolutely impossible for a vice-dean to rely on himself.

The voices of the disciples guarding the mountain gate came to my ears, and the eyes of several disciples looked particularly excited:

"Elder Gu is back and is already outside now. He is probably going to come in soon. The deputy dean should hurry over and take a look!"

After hearing this voice, Tianci stood up suddenly, and when he hurriedly came to the courtyard, Gu Shaoyang had already come in:

"I thought you must have been here waiting for me to come back early, but it turned out to be in the study. If I had known that I was so ignored, I shouldn't have come back at all."

When he said these words, Gu Shaoyang deliberately pretended to be sad, and after hearing these words, Tianci in front of him burst into laughter.

He hadn't laughed like this for a long time, and even the man next to him laughed. Several people couldn't help being stunned for a moment.

"How could I not welcome you back? Everyone in our college is waiting for you to come back after class. If it weren't for your help, I would be almost exhausted by now."

Chapter 1374

The two good friends have not seen each other for a long time, but of course Gu Shaoyang has not forgotten to report to the old dean first. If he does not report to the old dean, he will probably be criticized again.

"Should I stop telling you now? I haven't told the old dean yet when I came here. If I don't tell him now, what if the old dean peels off my skin by then?"

Gu Shaoyang just came to the study room while talking. The old dean on the other side had already heard the news of Gu Shaoyang's return, so he was already waiting in the yard. Wait until those around him had retreated. After getting off, the old dean finally smiled:"I've heard a lot of rumors about you recently. I heard that you saved the soul hunting organization this time. You are indeed amazing."

I didn't expect that what I did outside would be spread here. After hearing this, Gu Shaoyang also shook his head slightly in embarrassment:

"That is because the people in the organization trust me more. If it weren't for them trusting me, I wouldn't have been able to complete these things so quickly."

Whenever someone praises him, Gu Shaoyang will feel particularly embarrassed. After hearing this, the old dean in front of him even smiled:

"If it weren't for you being more reliable in doing things, I don't think these people would trust you at all. It's true that you are more powerful, so you can win everyone's trust. There is no need to be modest about this. What will you do next? Any plans?"

I don't know if it was his own misunderstanding, but the old dean always felt that Gu Shaoyang didn't want to stay in the college anymore.

As expected, after hearing this, Gu Shaoyang couldn't help but froze for a moment: "Actually, I think I am now. It's time to go out and practice, and I've learned a lot in the academy. If I don't go out and practice, then I won't have any room for improvement."

The tone sounded particularly helpless. After hearing this, the old dean in front of him also nodded gently. In fact, he also thought that Gu Shaoyang should go out to practice now.

"That's right. I also feel that you should go out and experience it now. If you want a vacation, then I will give you a vacation. You can come back anytime you want."

Gu Shaoyang knows that the old dean will definitely not stop him. After all, he is not going out to eat and drink, but for his own cultivation. But in fact, there is another thing in his heart.

Gu Shaoyang has always regarded God's gift as a gift. His good brother came to see him, so he also hopes to be with his good brother. If he goes out to practice now, it will be difficult for the two of them to meet each other. The look on

Gu Shaoyang's face after thinking of this. His expression looked a little tangled, but the old dean had already known what he was thinking.

Before Gu Shaoyang could continue speaking, the old dean had already nodded gently: "I do. I think you should go out with Tianci to practice now. This child has been in the academy all the time and has never seen the risks outside. It will not do her any good."

Tianci had actually already guessed Gu Shaoyang's intention to go out for training, but he really didn't want to let his good friend go out, so he didn't feel very good these days.

After hearing this, Gu Shaoyang suddenly raised his head. He didn't expect that the old dean would guess his thoughts so quickly.

"I know that the two of you must have been good friends for a long time. If this is the case, then I have nothing to say to you. I hope everything goes well for you two." The old dean squinted his eyes and smiled.

After hearing this, Gu Shaoyang nodded heavily: "That's really great. Please rest assured, dean, I will definitely be able to take care of him well this time. He practiced together."

Tianci, this child, has never experienced any big storms in normal times. He has always been in the academy before, and he probably has no experience of the outside world. Taking advantage of this opportunity, he just asked Gu Shaoyang to take him outside. Give it a try.

By the time Gu Shaoyang told him that the old dean asked him to take Tianci with him to practice outside, Tianci was almost jumping for joy.

"I really never thought that one day I would be able to practice outside with you. I have basically lived in the academy all my life. I am really excited when I think about it."

In the past few days, Qian Qian has been preparing things to practice outside, but he has been very silent before and after.

Chapter 1375

But in the past few days, it's like I suddenly opened up my chat box, and I feel very happy every time I talk.

When looking at the other party's happy expression, even Gu Shaoyang couldn't help but froze for a moment. He was just going out for a little practice, but he didn't expect that Tianci was already so happy.

"I saved a lot of money at the foot of the mountain before. This money should be enough for the two of us to eat, drink and have fun. Don't worry, I will definitely be able to take you to practice well."

When he said these words, Gu Shaoyang felt particularly warm. At this moment, Tianci nodded, and the two of them went on the road. The old dean looked at the backs of the two of them. The elders around him He looked a little worried:"The two of them don't have much energy yet. What if they really suffer a loss outside? Isn't the old dean really not worried?"

The mood of these people is naturally a bit complicated, and after hearing this, the old dean in front of him shook his head. If he keeps protecting these two children by his side, there will never be anything he can do for these two children. Get real growth.

Gu Shaoyang has already experienced a lot of storms and waves before. His character allows him to successfully pass through all the things in the future, but Tianci is still relatively simple, and now he should go out and have a good experience..

On the other side, Gu Shaoyang didn't have so much to worry about. Anyway, he brought Tianci to the mountain to practice, so he went to all the things he thought were fun before. It was the first time for

Tianci to see so many dazzling things at the foot of the mountain. The two of them worked together to fight bandits, rob the rich and give to the poor, and each time they were praised by the people around them.

At night, Gu Shaoyang sat on the big tree and said to Tianci under the big tree:"I heard There seems to be a mountain king on the mountain over there. The mountain king usually goes to the bottom of the mountain to do some immoral things. Let's punish him tomorrow!"

Tianci naturally didn't have any other ideas, and the next day the two people went straight to the mountain alone. The mountain king on the mountain was still drunk and dreaming. Both

Gu Shaoyang and Tianci were carrying big Wearing black cloaks, the bandits in front of them at the beginning did not pay attention to these two people at all. One of the gatekeepers even said directly:

"I advise you to get out of here now. If our eldest brother discovers that you are working here, don't blame me for not warning you. Your lives may not be saved."

Tonight, the cottage is decorated with lights and colorful decorations. It seems that a big happy event must have happened inside. At this moment, Gu Shaoyang also deliberately asked casually:

"I see that you guys seem to be quite happy today. Could it be because of something that happened? how? Is there anyone here who wants to get married?"

The village in front of me was full of red lanterns. After hearing this, the people in front of me said proudly:

"That's natural. Our eldest brother is going to marry Mrs. Yazhai tonight. Those who know the truth should get out quickly. If you don't get out quickly, don't blame me for being rude to you."

After hearing this, Tianci felt excited in his heart. He did not expect that this time he would actually meet the legendary bride-stealer. He had already heard that this mountain king loved women, but he did not expect that he would already do it now. When he reached such a frenzied state, Gu Shaoyang narrowed his eyes coldly:

"I think you guys have gone a little too far, right? This girl definitely didn't marry your king willingly. What's the difference between you and a bandit? No, you are robbers to begin with!"

Anyway, these people in front of me are just a group of bandits. After thinking of this, Gu Shaoyang nodded to Tianci next to him, and the two of them took out their weapons and rushed out. The person in front of him seemed to want to refute. What I didn't expect was that Gu Shaoyang and Tianci defeated everyone with just two moves.

After seeing this situation, Gu Shaoyang couldn't help but sneered: "I thought you were so capable. It turns out that this is all you have. If I had known you only had this ability, one of the two of us would have taken action."

The person who just spoke has been beaten to the point of vomiting blood, and the Mountain King inside has also heard the news outside. When the Mountain King ran out, he had not even had time to put on his clothes. He could vaguely see There seemed to be a girl behind. When Tianci saw it at this moment, he rushed forward directly.

"How dare you bully a girl? It seems that you are really willing to drink the wine as a penalty!"

The Mountain King in front of Gu Shaoyang and Tianci just looks a bit more powerful. In fact, he has no real ability at all.

The little brother next to the Mountain King can be said to have managed to kill Gu Shaoyang's move. The one in front of him This mountain king didn't even land a single move.

Seeing that Tianci next to him had knocked out the mountain king, Gu Shaoyang finally went to the tent on his own and released the tied-up girl..

The two people sent the girl directly to the foot of the mountain, and when they saw the girl and her parents hugging each other and crying together, Tianci felt a warmth in his heart.

He had never enjoyed the warmth that his parents brought to him, but When he saw the two people in front of him, he suddenly understood what the relationship between children and parents is?

These two people have been doing chivalry everywhere in the past few days, and the world of the rivers and lakes has soon begun to have the relationship between the two of them. Legend has it that just when Gu Shaoyang was about to go to the next place, he suddenly found that there seemed to be someone staring at him.

Tianci was so special and innocent. He never thought that someone would follow him, so he was not worried yet. I want to go to the next place.

In the corner on the other side, there is a demon person looking at Tianci's back in a gloomy way. This person's name is Liu Chengmin. He has already been eyeing Tianci before..

During this period, Gu Shaoyang and Tianci were basically doing chivalry every day, and they also particularly enjoyed the pleasure brought by chivalry. However, what they didn't expect was that the two of them were actually killed by Liu Chengmin. Targeted.

Liu Chengmin has been committed to developing and strengthening the demon clan before, but because the righteousness of the outer world is so powerful, the demon clan there has basically been suppressed until there is no strong person.

At the beginning, Liu Chengmin had no way to deal with Tianci, but now that Tianci is no longer in the academy, and there is no one to protect him, he has already begun to have bad thoughts.

Gu Shaoyang and Tianci today. They came to a place. The place in front of them looked particularly beautiful, and the surrounding spaces were also very spacious.

Since they had not seen any serious villages in the past few days, Gu Shaoyang was going to go to this place. After observing the village first, he asked Tianci to wait for him in the nearby forest:

"Please wait for me here for a while. If there is really something else going on inside, I will definitely come out quickly and the two of us won't have to go there."

After hearing this, Tianci in front of him had already nodded, and Gu Shaoyang on the other side had already gone to the village to inquire about the news. As soon as he left, Liu Chengmin from behind had already walked over.

He also knowing that Tianci was a very kind-hearted person, it was precisely for this reason that he deliberately pretended to be seriously injured and tied some bandages on his hands.

Tianci had always been beaten in the academy before. He was very protective, so he never knew the world of people outside. If it weren't for following Gu Shaoyang for a trip outside this time, he might not have grown up in this life.

And the godsend during this period was also He is deeply aware of his own shortcomings. Although he has started practicing a long time ago, in fact, his cultivation level is not high enough to defeat everyone.

If it weren't for Gu Shaoyang who has always been by his side, if he was helping himself, he would probably become more and more broken in the past few days.

Now looking at Liu Chengmin in front of him looking so weak, Tianci couldn't help but frown, because he felt the person in front of him didn't look like a good person.

Liu Chengmin in front of him knew that Tianci was a good person, so at this moment, the other person deliberately dressed himself up to look embarrassed, and then limped away. Come and get help:

"Please help me, please help me, I know you must be a very powerful person. There is a group of thieves in my house. If we don't get over now, my wife and my daughter will definitely kill me. All dead."

When he said these words, the man in front of him kept wiping the tears from the corners of his eyes. After hearing these words, Liu Chengmin had already frowned. Gu Shaoyang just asked himself to wait here. Looking at him, you can't save people now, can you?

Liu Chengmin deliberately came to ask for help because Gu Shaoyang was not around at all. At this moment, he could already see a trace of hesitation on the face of the man in front of him.

Chapter 1377

Liu Chengmin, the only strong person left in the current demon clan, immediately started crying.

"I really have no other choice. If I don't go back quickly now, my wife and child will definitely be killed by those bandits. My child is not yet one year old!"

After hearing this, Tianci was moved, but Gu Shaoyang didn't know when he would come back.

But if he didn't get to know this man's family quickly, the bandits would probably kill all his wife and children.

After thinking of this, Tianci nodded lightly, and at the same time, Liu Chengmin in front of him pretended to be very grateful.

He kept talking in a panic.

"If you can really save my wife and children this time, then I will definitely repay you well in the future. Thank you so much, thank you so much."

At the beginning, Tianci couldn't help but feel doubtful in his heart, because he felt that the man in front of him seemed a little weird.

But when he saw the man in front of him bursting into tears with excitement, he finally believed it. This must be a good person. He continued walking down slowly like this. At this moment, Tianci's

mood became a little nervous. When he came to a forest, he couldn't help but ask suspicious questions. road:

"Why does your family live in the forest? Don't you usually come out at all?"

I originally thought it should be in a small village, but I didn't expect that the man in front of me actually led him into the forest. After hearing this, Liu Chengmin started to behave miserably there again.

"I really have no choice. I can't just watch my wife and children being bullied by those people. Even if I beg you, I beg you to help me just this time!"

Actually, Tianci already felt that something was wrong with the man in front of him, but when he heard the other man's pleading, he couldn't help but feel compassion, so he continued to follow the man in front of him deeper into the forest. Gu Shaoyang on the other side was going to the village to check. He wanted to know what was going on in the village. After all, he had never encountered any village before, so he had to be careful.

And when it came to the village, It was found that there were basically no people in this village. Except for an old woman basking in the sun, there was no other person. After seeing the old woman, Gu Shaoyang stepped forward and asked:"Excuse me, why are there so few people in your village?"

I originally thought there would be robbers or something in this place, but after hearing this, the old lady in front of me just rolled her eyes:"Why else? Those people in the village have already disappeared, and the young people have long been unwilling to stay in the village. Only us old people are left."

When he said these words, the expression on the face of the old lady in front of him looked particularly helpless. After hearing this, Gu Shaoyang couldn't help but sigh. It turns out that the reason why there are so few people in this village is because of the village. The young people inside went out.

Before, he was worried that there would be robbers in this village, but now Gu Shaoyang has made sure that this place has not been robbed, and just when he was about to go back, the old lady in front of him suddenly called out Got him

"No one has come to our village for a long time. If you want to buy something, I'm afraid you have to go to the village next door. There is nothing in our village."

When the old lady said these words, her tone sounded a little sad, and after hearing these words, Gu Shaoyang couldn't help but shook his head. When he returned to the previous place again, he realized Tianci didn't know where he had gone.

He had obviously asked Tianci to wait here before, but he didn't expect that he had just gone there for less than half an hour, and the other party had already disappeared, and there was no trace of anything around him. There were no signs of fighting.

Tianci had always been very obedient before. After all, he had always stayed in the academy, so he knew that he had no life experience and had always followed Gu Shaoyang. In the past, Tianci has never made any appointments. Unexpectedly, this time Tianci ran away somewhere, which made Gu Shaoyang feel strange in his heart.

He hurriedly went to the side to check, but there was also someone nearby. There were no clues left at all. On the other side, Tianci was walking deep into the forest under the leadership of Liu Chengmin. As he walked deeper into the forest, he felt that the evil spirit in the forest was getting stronger and stronger.

Chapter 1378

This forest looks like a simple forest from the outside, but when you get inside the forest, you find that the demonic energy here is many times higher than the outside.

Since basically all the demons in the outer world have been suppressed before, Tianci has not felt the demonic energy for a long time. When he felt the huge grinding energy generated in the forest in front of him, he felt in his heart I couldn't help but feel surprised.

At this moment, Tianci couldn't help but stop: "Who are you? The demonic energy in this place is so strong that ordinary people have no way to live in such a place. Are you a demon?" A member of the clan, right?"

His eyes had already become extremely spiritual, and after hearing these words, Liu Chengmin in front of him burst out laughing. If Tianci could notice this earlier, he might still be able to escape. opportunity, but now that we have arrived in the forest, there is no chance to escape:

"You have always been called a once-in-a-century genius by others. It turns out that a once-in-a-century genius is just like this. I thought you were so powerful, but it turns out you are just pretending."

The tone of his words sounded particularly sarcastic, and after hearing this, Tianci understood that it seemed that he had been deceived by the person in front of him, and he immediately took out his weapon:

"You are indeed a member of the Demon Clan, but there is no grudge between us. Why are you so tit-for-tat? Moreover, Gu Shaoyang is in that village now. If he finds out that I have disappeared, he will definitely come to find me. I advise you to let it go."

How could Liu Chengmin be able to hear these words? If he could have heard these words, he would not have lured Tianci to this place at all. On the other side, after Gu Shaoyang discovered that Tianci was missing, they used special signals to communicate, but there was no connection at all, and there seemed to be a huge pressure surrounding them. While feeling the huge pressure around them, at the same time, Gu Shaoyang couldn't help but be stunned for a moment. He always felt as if someone had torn off some weird formations around him.

As he hurried forward like this, Gu Shaoyang already had a very special feeling in his heart. He had a bad premonition, and at this moment, he was looking everywhere. Whenever he arrived at a place, he wanted to see if there were any faint traces left by Tianci?

Tianci never thought that Liu Chengmin was lying to him, so he followed Liu Chengmin directly into the depths of the forest without leaving any clues around him. Now Gu Shaoyang could only use all his strength to finally find traces of God's gift on some flowers, plants and trees. He followed the surroundings all the way. The traces on the flowers, plants and trees came to the outskirts of a forest. At this moment, Gu Shaoyang walked into the forest with some suspicion. He didn't know why Tianci suddenly ran into the forest.

In fact, Gu Shaoyang had already felt suspicious, he felt that the atmosphere around him was very strange, and when it came to the forest, he finally realized it.

No wonder he had already felt a huge pressure just now. At this moment he looked at the thick demonic energy in the forest in front of him. It turned out that this thick demonic aura was suppressed by a thick protective film in the forest, so the outside world could not detect that there was a tacit understanding inside..

Although he didn't know who did this, the person who sealed the demonic energy in this place must have some evil intentions. After thinking of this, Gu Shaoyang continued to walk forward. The aura of the demonic clan in front of him had long been gone. It became heavier and heavier, and Gu Shaoyang began to feel uneasy after seeing this situation. If Tianci really came to the demon clan's chassis, then it is estimated that this time it would be more misfortune.

Thinking of this session After that, he hurriedly wanted to ask if anyone knew the territory of the demon clan? But it had already searched a whole circle in the forest, and still could not find any human figure. Not only was there no It was so easy to find the figure, even the faint traces of the time before Tianci had disappeared, and they seemed to suddenly disappear out of thin air. In desperation, Gu Shaoyang could only use his search ability, and when After he searched all around the forest, he finally discovered that there was a village around the forest. He hurriedly went to the village to inquire, and the people in the village admitted that there was a village in the forest. It belongs to the demon clan, and I heard that the people in this village have been persecuted by the demon clan.

Chapter 1379

"Those demons are very arrogant, and they have done a lot of bad things in our village before." Some villagers in the village were cursing.

After hearing this, Gu Shaoyang began to feel an uneasy feeling in his heart. At the same time, he also began to go to the village to ask if anyone knew about the demon clan. In the territory?

Those people in the village had only seen people from the demon clan coming outside before, but because the forest was so dangerous, no one had ever really been inside.

After thinking about this , Everyone couldn't help but feel scared in their hearts, so no one told Gu Shaoyang where the demon clan's territory was. They could only say that the demon clan's territory was in that forest, forest, forest.

Time. He continued walking down slowly like this, while Liu Chengmin on the other side had already knocked Tianci unconscious. Since they were now in the territory of the demon clan, Tianci's strength was completely suppressed.

He came in At that time, he didn't even notice the bad intentions of the man in front of him. It was precisely for this reason that when he came to the forest, he subconsciously wanted to escape quickly. The aura of the demons around him became more and more intense. The thicker it became, and at this moment Tianci also felt that it was difficult for his own strength to withstand the attack of the demonic aura.

When he gradually felt that he was a little weak, he realized that his body was already full of The demonic energy must have attacked his body when he first entered the forest. At the beginning, Liu Chengmin pretended to be very weak, but at that time, he had not yet broken through his hypocrisy. mask, so of course Tianci would not think that Liu Chengmin was a demon.

Even when he saw the scars on the other person's body, Tianci offered to help the other party practice martial arts. What he didn't expect was that just as he was helping him While watching the opponent's movements, Liu Chengmin had already taken this opportunity to penetrate into Tianci's body.

Now Liu Chengmin was quietly looking at Tianci in front of him. The expression on Tianci's face had become more and more painful. It looks like he must have been eroded by the huge demonic energy in his body.

"Do you know when I injected this demonic energy into your body? Just when you wanted to help me with luck, didn't you think of it? You didn't expect that your good intentions would turn out like this, right?"

The tone of his words really sounded more and more indifferent, and after hearing this, Tianci reluctantly struggled to stand up. Although all the strength in his body was basically lost, he still relied on his own Stand up with perseverance:

"Do you think you can really do anything to me now? Let me tell you, Gu Shaoyang is still in the village next to me. If he finds out that I am missing, he will definitely find me by then, and that will be the day you all die."

At this moment, Tianci is really very regretful. He should have left some traces along the road, at least so that Gu Shaoyang would know where to find him.

Tianci also used the two of them secretly. special signals between them, but he found that this huge forest seemed to have swallowed up his existence. Whenever he tried to exert force, he felt a void in his body.

Now he is not only There was no way to use the special signal connection created between himself and Gu Shaoyang, and there was no way to leave any information. At this moment, Liu Chengmin in front of him couldn't help but laugh:

"Haven't you noticed it yet? Our forest has long been occupied by demons. If there are humans who dare to come to our place, their strength will definitely be suppressed. Do you think that man can fight so many of us alone? Are the demons fighting?"

After saying this, Liu Chengmin slapped Tianci hard, and Tianci felt that his bones were about to be shattered.

Tianci, who was right here, was about to be filled with a lot of demonic energy by Liu Chengmin. At that time, Gu Shaoyang suddenly came here at the same time.

Fortunately, he finally found an old man in the village. This old man had one of his hands and legs cut off, and his eyes were also blind, but he He said that he had been to the forest before.

The old man's voice sounded particularly scary: "I advise you not to go into the forest. The forest is like a den of shit. You don't even know where it is." How many bodies are there."

Gu Shaoyang also knows that the demon clan's territory must be particularly dangerous.

Chapter 1380

But so what if it's dangerous? If he didn't rescue Tianci quickly, he would have no way to go back and deal with the old dean!

Tianci had never left the academy before, and he had always been well protected by the old dean, so he probably had never experienced the ups and downs outside.

If he is somehow deceived into the territory of the demon clan, Gu Shaoyang's illness cannot guarantee that Tianci can really come back safely.

Time continued to pass like this. Although the old man in front of him strongly asked Gu Shaoyang not to go into the forest, he still didn't listen. After finding out the true location of the demon, he hurried to the forest. inside.

When Gu Shaoyang came to the forest, he felt the huge pressure again, and at this moment, he felt a little helpless in his heart. No wonder he couldn't feel the breath of the demons outside. It turned out that all the All the breath is enveloped in this protective shield.

In order to find where Tianci is? Gu Shaoyang did not hesitate to use all his strength to investigate, and when he investigated the fluctuation of magic power on Liu Chengmin's side, he rushed over immediately.

Now Gu Shaoyang was looking at Liu Chengmin quietly in front of him. The eyes of the man in front of him seemed to have changed.

Tianci had already fainted nearby. At the same time, Liu Chengmin was surprised when he saw Gu Shaoyang. He did not expect that this person could be found so quickly without anyone to lead him. Killed myself.

Knowing that Gu Shaoyang must be a very powerful person, Liu Chengmin wanted to deceive him like he deceived Tianci at the beginning.

But how could Gu Shaoyang be deceived so easily? He could see at a glance that the man in front of him was just pretending.

Even when Tianci was behind, he felt something was wrong with Liu Chengmin in front of him, so Gu Shaoyang felt from the beginning that this person was not a human at all.

In addition, the forest was surrounded by demon territory, so he thought that the man in front of him was probably the person in the module.

After thinking of this, Gu Shaoyang couldn't help but feel extremely vigilant. When he found that Tianci beside him had already passed out, he became even more angry.

He kicked the man in front of him hard. At the same time, Gu Shaoyang grabbed Liu Chengmin's collar tightly:

"Don't think that you can get away by pretending to be crazy and stupid in front of me. If you can get away with it so easily, then I have been deceived so many times by others. What on earth have you done to God's gift? Who are you?"

It was only now that Gu Shaoyang finally remembered that the man in front of him seemed to have been following him since he was in the academy. But at that time, Gu Shaoyang thought he was just passing by, so he didn't think of this man at all. Take it to heart.

Seeing that Tianci has fainted a long time ago, Liu Chengmin here wanted to pretend to be weak, but Gu Shaoyang threw him into the space ring without even thinking. In a hurry He hurriedly came to Tianci's side, but now Tianci had already passed out. After checking the other person, Gu Shaoyang finally felt shocked. The aura in Tianci's body had been there before. They are all very special and stable, but today the aura in the opponent's body is actually mixed with a trace of demonic energy. It seems that it was Liu Chengmin who did it just now. After thinking of this, Gu Shaoyang was indignant and directly put Liu Chengmin in The space ring was pulled out:"You fucking did such a thing, do you know what will happen if you inject demonic energy into an ordinary person's body?"

Somewhat unwillingly, he gave Liu Chengmin a severe beating in front of him. When the opponent was even a little unsteady, Gu Shaoyang directly threw her into his space ring again.

This time, things happened naturally. We can't just let it go. If we let it go, there will probably be some troubles.

After thinking of this, Gu Shaoyang's mood became particularly melancholy, and he hurriedly brought Tianci to In a cave in the forest, at this moment, Gu Shaoyang immediately wanted to implement a remedy.

But he had poured his own power into Tianci's body, and the demonic energy in the other person's body could not come out at all.

"His grandma, if she had known earlier, I shouldn't have gone to that village to ask questions. Why did I go to that village to ask questions? I should always be with Tianci, what should I do now?"
