Chapter 1602

Gu Shaoyang felt that this woman in green was really talkative, talking so much nonsense while dealing with him.

He looked in the direction of the woman in green, and his eyebrows were deeply knitted. Looking at this monster, he felt really disgusting.

Although she is now wearing a very beautiful human skin, Gu Shaoyang still hates him in his heart.

Gu Shaoyang looked at the woman in green and said to him: "Stop talking nonsense."

Gu Shaoyang raised the sword in his hand, and when he saw the soft one, he had already picked it in the distance and rose directly into the air. middle.

The woman in green immediately flew into the air, then stretched out her hand, holding her soft sword in her hand.

He looked in the direction of Gu Shaoyang and said to him: "I really don't know how to pity the fragrance and cherish the jade. I'm really very annoying."

When he said this, he was so pretentious that Gu Shaoyang felt like he had a fever in his body. I had goosebumps, it was really disgusting, and I felt like I wanted to vomit.

Gu Shaoyang once again took his sword and rushed towards the monster.

But I didn't expect that not only the woman in green, but also her own sword was very soft. Even her body was also very soft, as if she had no bones.

When Gu Shaoyang stabbed him in the heart, she had already dodged it softly.

Gu Shaoyang was really surprised by his sudden attack. He didn't expect that this monster was really powerful and had such strength.

Gu Shaoyang looked at the bell on the other side. At this time, it was already being attacked by a monster and was completely defenseless.

Seeing how dangerous this little guy was, Gu Shaoyang immediately flew in the direction of the bell, blocking the bell behind him.

At this time, Gu Shaoyang was fighting against two monsters, one against two, and Gu Shaoyang was completely at ease.

Because although this green monster looks like a leader of these monsters, it is not particularly powerful.

The corners of Gu Shaoyang's mouth raised slightly, he looked in the direction of those monsters and said to them: "It seems that we are really going to go on a killing spree today." The

Qilin Beast on the other side was very fast and had already pinned down the wild boar monster on his own paws.

He looked down at the direction of the wild boar monster below him and said to him: "Don't blame me, I will kill you today."

Then when Luo Zishan raised his hand, he had already formed a very sharp claw, pointing towards the opponent. He had already swung it at the throat and directly caught the wild boar monster's neck.

I saw that the wild boar monster started to struggle all of a sudden. I didn't expect Luo Zishan's current strength to be so powerful.

Then he let out the cry of a wild boar and said to Luo Zishan: "Let me go, let me go."

How could Luo Zishan let him go? She immediately stretched out her long claws and directly After inserting it into the opponent's neck, blood spurted out all of a sudden, spraying on the body of the Luo Zi Shirt Qilin Beast.

Luo Zishan shook the unicorn skin on his body, then looked at the wild boar monster with great disgust, which had now completely turned into a dead pig, and said to him: "It's really disgusting, it made me sick. There is blood all over his body."

However, at this time, Gu Shaoyang saw that Luo Zishan could already pull away and said to him: "Come here and help me."

After all, it is very difficult for Gu Shaoyang to fight one against two at this time. With Luo Zishan's help, he might be able to get rid of these burdens very quickly.

Luo Zishan arrived very quickly, beside Gu Shaoyang, and said to him: "It's really useless, you can't beat him with two guys like him."

Luo Zishan directly stopped the giant monster, looked in the direction of Gu Shaoyang, and said to him: "Go deal with that smelly snake."

Then Gu Shaoyang personally took a long sword and rushed towards the woman in green.

I saw the woman in green dodge backward slightly, then shook off her green dress, and then returned to her monster body, which looked like a green snake.

It snaked upwards in the direction of Gu Shaoyang, and had already strangled Gu Shaoyang.

His entire snake's body was entangled, and it circled Gu Shaoyang's chest three times. Gu Shaoyang felt that it was difficult to breathe.

Then he swooped in the direction of Tianci and shouted: "Tianci."

I also saw a snake with a green ribbon wrapped around Gu Shaoyang's body. He immediately waved his sword and shot a light blade in the direction of Gu Shaoyang..

Immediately after, the woman in green was seen falling to the ground limply, changing back into a human form, looking pitiful.

Chapter 1603

He had some pitiful pear blossoms, and said to Gu Shaoyang: "You really don't know how to show mercy to your beauty, so you beat me to such a miserable state." The green clothes on its body had begun to ooze red blood. It really looks like flowers are blooming on a piece of green grass.

But apart from being a gift from heaven, Gu Shaoyang is not one of those people who cherishes beauty, not to mention that this guy is also a Warcraft.

Gu Shaoyang held up his sword and stabbed in the direction of the opponent.

The woman in green turned into a snake again, and started to run away in the distance with blood still on her body.

Tianci's side has completely won the victory. He looked in the direction of Gu Shaoyang and said to him: "Can I help you?"

Gu Shaoyang did not expect that these people had all killed the monsters, leaving only himself. There is no strength to fight back yet.

He looked at Tianci and said to it: "No, you take a rest."

Then he chased in the direction of the snake.

Gu Shaoyang and Green Snake quickly disappeared in front of everyone.

Gu Shaoyang narrowed his eyes slightly and stopped chasing him. Instead, he took the sword in his hand and threw it forward. It hit the green snake's tail very accurately.

I saw that when the snake was walking forward, it could no longer move at all. After all, its tail had been injured, so it immediately changed into a human form again.

Then he gritted his teeth towards Gu Shaoyang's sword, stretched out his hand and pulled it out.

He looked in the direction of Gu Shaoyang, not expecting that Gu Shaoyang was really powerful this time.

He looked at Gu Shaoyang, and his body began to grow in size instantly, turning into a huge python more than ten meters long. It looked as if he could eat Gu Shaoyang by just moving his big mouth.

He looked at Gu Shaoyang eloquently and said to him:"This is all the result of you offending me."

Then he opened his big mouth and attacked Gu Shaoyang.

Gu Shaoyang really didn't expect that this guy could change so many forms. One moment he could turn into a little snake, the next moment he could turn into a python, and he could even turn into a beautiful woman, but Gu Shaoyang couldn't do it either. Fear these.

She held the sword and had already fought with the huge python.

The python's tail was very flexible, and it collided with Gu Shaoyang's sword. After one attack after another, Gu Shaoyang stopped all his movements.

He stood there, quietly observing the huge green python in front of him.

Gu Shaoyang finally knew why he had caused so many injuries to him, but he had never killed it, because it was only then that he remembered that the snake's real weakness was its seven inches.

So Gu Shaoyang raised the corners of his mouth slightly, smiled in a very dangerous arc, looked in the direction of the green python, and said to it:"I finally found your weakness."

Sure enough, the green python looked in the direction of Gu Shaoyang, and immediately He had already lowered his body. After all, if its seven inches were cut by Gu Shaoyang, he would really be dead.

Gu Shaoyang didn't wait for the other party to make any move. He took a long sword and rushed forward, stabbing directly into the seven inches of the python.

All of a sudden, it had penetrated half of the sword, and the body directly in the python channel began to spread. It was really very painful.

Then he said to Gu Shaoyang in human words:"You, you, you guy."

Then slowly it began to spread throughout his body and rolled up Gu Shaoyang.

Gu Shaoyang did not expect that this huge python, injured so seriously that it was about to die, could actually hurt himself.

Gu Shaoyang was fucked tightly by the tail of the huge python that day.

Gu Shaoyang felt a little uncomfortable breathing at this time, and the python looked like it was about to die. It said to Gu Shaoyang: "I will die with you."

Then it coiled tighter and tighter.

At this time, Luo Zishan, Tianci and the others had all rushed over.

Seeing that Gu Shaoyang was entangled in the huge python at this time, Gu Shaoyang stabbed it with his sword, but he did not expect that the python would not let go of Gu Shaoyang.

And he seemed to have completely died. The body in front was already lying on the ground. Is the python actually dead?

Li Zhou immediately transformed into the Qilin beast, ran to Gu Shaoyang's side very quickly, opened his Qilin beast's big mouth, and then bit him.

Chapter 1604

The huge body of the python was bitten in half by Luo Zishan.

Then Gu Shaoyang slowly broke away from the opponent's power.

He took a few breaths and felt that there was air in his chest.

He looked in the direction of Luo Zishan and said to Luo Zishan: "Thank you, brother."

At this time, Luo Zishan's Qilin mouth was still spitting spit, and it was bloody. He said to Gu Shaoyang and the others: "It's really disgusting to me. I didn't expect that this guy would still disgust me after he died."

Gu Shaoyang looked at a huge python lying dead on the ground, and then faced Luo Zi Shan said: "I didn't expect that this guy really has a lot of thoughts. Even if he is dead, he still makes me so sick."

In this way, Gu Shaoyang and the others have solved the pursuit of these monsters.

Gu Shaoyang knew that the next journey would not be so easy.

He watched a few people rushing forward and said to them: "We should be more careful next. Since Long Hanming's side already knows our traces, Emperor Jin Zong's side will definitely be aware of our traces next." We then hunted"

"So the journey in a few days will definitely not be particularly easy."

Several people agreed very much with what Gu Shaoyang said.

Lingdang on the other side looked at Gu Shaoyang cautiously and said to Gu Shaoyang: "But when I fight against the monster today, I want to practice my skills well. I don't know, brother Gu Shaoyang, Can you teach me."

When Gu Shaoyang heard Lingdang say this, he was really interested. He didn't expect that Lingdang had already started practicing. At this time, he had a positive attitude and wanted to practice the technique.

Gu Shaoyang felt really happy. , he had always given Lingdang a basic basic skill to get started with, so he didn't have any special teachings for Lingdang.

She looked at Lingdang and said to him: "Okay, since you want to practice, then you have to rest every night When the time comes, I can teach you for an hour. Then you can seize the time to practice by yourself."

Lingdang was really very happy. When he heard that Gu Shaoyang promised him, he immediately started to dance like a happy little butterfly.

Then he danced in front of them and chased after them. God-given He said happily: "Sister Tianci, did you hear it? Brother Gu Shaoyang has promised me to practice the exercises well."

Of course Tianci has heard it, and he also watched Lingdang holding his hand, patted Lingdang's hand, and said to him: "If you don't understand anything, you can ask me, and I will teach you. your."

Hearing what Tianci said, Lingdang was even more happy. He felt that these few people were really good to him.

In the past, he was always angry in various ways and bullied by many people. She, however, did not expect that since she met Gu Shaoyang and the others, these people would treat her like her own relatives. If she had difficulties, they would definitely help her. If she was not feeling well, someone would take care of her.

Now He can still practice Kung Fu. You must know that many people are ordinary people. Now he can become a very powerful person like Gu Shaoyang and others, so how can he be unhappy in his heart? Even if he can read and write, he can become a very powerful person. , it was completely taught to him by Gu Shaoyang and the others, so he seemed to be very happy that day.

And when it got dark, Gu Shaoyang had already seen Lingdang finishing his meal early.

They At this time, at the foot of a mountain in the forest, Lingdang had already walked to Gu Shaoyang with his ordinary skills.

He looked at Gu Shaoyang cautiously and said to him: "Brother Gu Shaoyang, do you have time now? Can you teach me?"

Gu Shaoyang looked at this little girl. She was always cautious when speaking. He still felt a little sorry for her in his heart.

He looked at the direction of the bell and chased after it. He said, "Of course I can teach you. bring it on."

Hearing what Gu Shaoyang said, Lingdang was really happy. He quickly walked to Gu Shaoyang with his book on basic exercises.

He said to Gu Shaoyang: "This is the place. There's something I don't quite understand."

Gu Shaoyang looked at the places pointed out to him by Ling Dang. He had never taught this little girl before, so Gu Shaoyang was very patient and explained to Ling Dang. In one night, Gu Shaoyang had already explained many Ling Dang Everything he didn't understand had been explained to Lingdang one after another.

After listening to it, Lingdang suddenly became enlightened and had no idea that it was all like this.

He said to Gu Shaoyang: "I understand."

Then the next night, after Gu Shaoyang and the others finished practicing.

Chapter 1605

Everyone will find a very comfortable place and lie down to sleep.

Gu Shaoyang woke up once in the middle of the night, but the little girl Lingdang worked really hard without any rest.

He spent the whole night sitting cross-legged and practicing very seriously.

Although Gu Shaoyang was resting, because he was in the wild and was being chased by Long Hanming and the others, when Gu Shaoyang was resting, he did not completely fall asleep. He would open his eyes from time to time, but he did not expect the little Lingdang. Girl, you really worked very hard.

Cultivation time always goes very quickly, and three days pass by again.

What shocked Gu Shaoyang was that he didn't expect Lingdang to have completely mastered the basic skills and practiced them all by herself.

He looked at the bell with great satisfaction, and then said to the bell: "I didn't expect you to be really powerful. How about I give you another intermediate Kung Fu book for you to practice."

Gu Shaoyang has been He has already begun to copy an intermediate skill secret book for Lingdang, so he feels that Lingdang is fully capable of practicing at this time.

Ling Ding was really very happy, and his eyes were already glowing, like those tiny starlights.

He looked in the direction of Gu Shaoyang with some disbelief, and then said to Gu Shaoyang: "What you mean is that I have mastered all these preliminary skills and can practice intermediate skills."

Gu Shaoyang nodded and faced He said: "It is true that you can practice the ultimate technique. If the speed is fast, we can start practicing the same thing soon."

Tianci was really shocked by the speed of Lingdang's practice. He did not expect that just Just three days.

In the past, he had already understood everything by reading the book by himself.

He walked to Gu Shaoyang's side, then took Lingdang's hand and sat next to Gu Shaoyang.

Tianci said to Gu Shaoyang: "Do you think that the little girl Lingdang is practicing a little too fast? You know, we were both geniuses in the past, but it took us a year to master the basic skills. All the methods have been practiced."

Gu Shaoyang had never thought of so many things before. After hearing what Tianci said, he was slightly surprised. After thinking about it carefully, he found that he was indeed teaching Lingdang seriously and did not teach it very much. Over a long period of time, Lingdang's cultivation speed is indeed very fast.

Gu Shaoyang looked in disbelief and looked in the direction of the bell. After looking for a long time, he carefully looked at this little girl of twelve or thirteen years old.

Gu Shaoyang looked at the bell, then looked at Tianci, and said to him: "Can you say that he is a genius in cultivation?"

Gu Shaoyang really didn't realize this before, but after hearing what Tianci said, he really I have to admit that Lingdang's cultivation speed is indeed very fast.

Her understanding ability is also very good. As long as she finishes explaining it, Ling Dang can rely on her own understanding and start practicing.

Tianci nodded without hesitation, looked in the direction of Gu Shaoyang, and said to him:"I wanted to talk to you about this issue yesterday. I think Lingdang is really a genius in cultivation. I told her yesterday Some content, but he was able to understand it quickly. You must know that the two of us practiced very fast before, but compared with him, we are still a little behind."

After hearing what Tianci said, Li Zhou also walked in this direction.

He looked at a few of them and said to them:"You actually said that this little girl like a bean sprout is a genius in cultivation."

Tianci nodded and said to him:"Then when you were practicing the elementary skills before, , how long did it take."

Li Zhou thought about it carefully, and it seemed that it was two years or three years. Since he was only a few years old when he started learning, he didn't remember it, but it was indeed not as fast as Ling Dang's cultivation. quick.

He was a little unconvinced and said to Gu Shaoyang and the others:"It's just because he is already older than us in cultivation at this time, so his cultivation speed is faster."

Regarding these things, Luo Zishan He doesn't particularly care. After all, he has lived for thousands of years. For him, these things have already happened a long time ago.

She watched several people bickering with each other.

Gu Shaoyang said to them:"Okay, okay, don't say anything. Lingdang's cultivation speed is indeed very fast. I will give him the ultimate technique now and see how long it takes him to learn it. Then we will know what he is like." Is he that kind of genius?"

After all, practicing geniuses is very rare, and Gu Shaoyang and the others are already very good, if Ling Dang is really even more powerful.

Chapter 1606

As long as Gu Shaoyang thinks about it, he is actually happy for this little girl.

Ling Dang didn't speak during the whole process. Seeing the few of them talking, he was really confused in his heart. When he was practicing, he just felt that these things were not particularly difficult, so he still felt that the speed of practice was very fast.

He took an intermediate Kung Fu book given to him by Gu Shaoyang and said to Gu Shaoyang: "Can you explain it to me? Brother Gu Shaoyang."

Gu Shaoyang also looked at Tianci very patiently and said to him: "Okay, then we two Let me explain it to you personally."

After all, he didn't want to leave Tianci now, so he finally had a chance to rest at night.

Li Zhou and Luo Zishan were sour that they had already walked aside and no longer wanted to be in this place, eating their dog food.

Gu Shaoyang was very serious and started to explain to Lingdang. But what Gu Shaoyang didn't expect was that Lingdang's understanding ability was really very fast when he explained these things.

Although he said that he had mastered the ultimate technique, Lingdang had never been exposed to it at all.

Gu Shaoyang said to him: "Do you know how this place should be absorbed?"

Lingdang nodded and said to him: "I know, I understand how it should be fixed."

Then he already said to Gu Shaoyang: "Then I will It's not a special understanding."

Gu Shaoyang didn't expect that this little girl had already studied half of the book in just two hours and understood all these things thoroughly.

In the next time, he just has to rely on himself to continue to practice, and then through time and practice, he will be able to accumulate bit by bit.

Gu Shaoyang was really very interested today. He and Tianci started to teach this little girl every word.

After all, these things are very simple for them.

I listened to the bell very carefully, and the time passed little by little, and it was already midnight.

Gu Shaoyang looked at the time and saw that it was indeed too late. Moreover, his eyes were very tired when I told him these things by the light of the fire.

He looked at Tianci who was exhausted at this time, and said to the bell: "Okay, let's come here today. After you finish practicing these, if there is anything you don't understand, come and ask me again."

Tianci At this time, he began to feel a little sleepy. He looked at the bell and said to him: "You were very tired from practicing yesterday. Please rest early."

Because Tianci saw this little girl, he had been practicing for a while. I am very serious, and I am afraid that he will be eager for quick success. It will not be possible if he does not have a good and solid foundation in cultivation, so I also want this little girl to learn slowly bit by bit.

Lingdang really felt that he was very energetic at this moment. He looked at Gu Shaoyang and Tianci and said, "Thank you very much, brother Gu Shaoyang, thank you, sister Tianci, I already understand, I will practice him now."

He immediately stood up, very excited, walked towards a big rock, and then sat cross-legged and started practicing.

Gu Shaoyang did not expect that this little girl was really very motivated and had entered a state of cultivation so quickly.

Gu Shaoyang was really very happy in his heart. If Lingdang could practice well in the future and protect himself as well as God's gift, he felt that this little girl would have a good future.

Time flies by and three days have passed.

Lingdang came to Gu Shaoyang's side with a copy of the intermediate technique that she had completely completed.

Then he looked at Gu Shaoyang with great annoyance and said to him: "I have finished practicing this book and I have understood it all." The reason why Lingdang was so upset was that he was afraid that Gu Shaoyang would think that he was not serious. Reading, but I have studied this book over and over again, and I have indeed learned everything.

Gu Shaoyang was really in disbelief. He didn't expect that in three days, he would have finished practicing an intermediate skill.

Although this book is not a particularly advanced thing, it is very basic for many sects, but she did not expect this little girl's cultivation speed, which is simply amazing, simply too fast..

He looked at Lingdang in disbelief and said to him: "You really understand everything."

Lingdang nodded and said: "It is true that I already know it, but I want to learn new knowledge and new things." Content."

Gu Shaoyang looked in the direction of the bell, and then looked at Tianci. Several of them had already looked in his direction.

He looked at the bell in disbelief and said to him: "Then let me give it a try. How do you learn it?"

Chapter 1607

Ling Dang looked at Gu Shaoyang at this time. Did he really hear it right?

Gu Shaoyang can make two gestures with himself.

He looked at Gu Shaoyang and said, "Okay."

So Gu Shaoyang and Lingdang fought against each other. At this time, the two of them, with their bare hands, had already stretched out their hands and started gesticulating together.

When Gu Shaoyang stretched out his hand and attacked in the direction of the bell, he still slowed down his speed slightly. After all, he also knew that this little girl had just started practicing and her reaction speed might not be that fast.

But what shocked Gu Shaoyang was that the speed of this little girl's environment simply exceeded his imagination.

Luo Zishan, Li Zhou and others were also looking in the direction of Gu Shaoyang.

They also wanted to take a look at this little girl named Ling Dang. She was really arrogant and claimed that she had mastered the ultimate technique in three days.

Li Zhou was still reminiscing at this time. You must know that it took him two or three years to complete the intermediate exercises, and he was already a little genius in practice.

I saw that Ling Dang was very fast, dodging Gu Shaoyang's attacks, and sometimes even stretched out his legs to attack Gu Shaoyang.

Gu Shaoyang really started to get very serious at this time, and he and Lingdang started fighting.

He rushed towards the bell, but the speed of the bell was a bit slow. Gu Shaoyang grabbed her wrist and threw it around. He suffered a little pain, and then without any help, again He moved his hand in the direction of Gu Shaoyang.

Li Zhou let out an ouch, looked at Luo Zishan, and said to him: "I didn't expect that this little girl like me is really very powerful, and I can actually match up with Gu Shaoyang in several moves."

Luo Zishan also really said I didn't expect that the little girl Lingdang, who looked about twelve or thirteen years old, and had only been practicing for half a year, would make such a big progress.

After the two people finished talking to each other, they already looked at Tianci's side.

Li Zhou looked at Tianci sitting not far from him. He called to Tianci and said to him, "Tianci, come here." At this time, Tianci was watching Gu Shaoyang and Lingdang fighting together.

He really didn't expect that Lingdang would be so fast. Although he knew that Gu Shaoyang would be merciful at this time, he didn't expect that this little girl, Lingdang, would actually be with Gu Shaoyang and make so many moves, but she wouldn't be completely fell into a particularly embarrassing situation.

When Tianci heard someone calling him, he had already walked in the direction of the two people.

Tianci looked at Li Zhou and said to them, "What's wrong?"

Li Zhou was really curious. He looked at Tianci and said to him, "How did you find out that this little girl, Lingdang, is a master of cultivation?"

Tianci's mouth curled up slightly. When Shangyang looked at the bell, she was really satisfied. She said to him: "I didn't expect to find out all of a sudden. When I watched that little girl reading the exercises, as long as I read it twice, You can completely see the transparent white."

Li Zhou was really shocked. You must know that the reason why they went to the academy to study was, on the one hand, to learn their own knowledge, and on the other hand, to learn the exercises, so they were practicing A master, but he also has a master to teach him.

If you want to be self-taught, it is really not easy.

Li Zhou heard what Tianci said, and he also looked in the direction of the bell.

Li Zhou's voice was still a little weaker, and he said to Tianci and the others: "This little girl Lingdang is really the only one who taught her Gu Shaoyang in just a few days, and she has already learned everything."

Tianci nodded without hesitation. He raised his head and said to the two of them: "How do you think this little girl is really a genius?"

Li Zhou was really speechless about what Tianci said. It was indeed what he said. Like that, if this little girl Lingdang is really like this, then she is really a genius, simply a great genius. In just a few days of effort, she has already learned a set of skills.

Gu Shaoyang had already stopped his hand. He pulled the bell around and put it on the ground.

Lingdang chuckled. His face was covered with sweat and his hair was stuck to his face, but he was really happy when he smiled. He really didn't expect that at this moment, he was completely capable. of people.

She looked at Gu Shaoyang, asked him with bright eyes, and said, "How's it going? Brother Gu Shaoyang, how am I doing in my practice?"

He really wanted to hurry up and ask Gu Shaoyang whether he was satisfied with him or not, and he didn't know whether he was practicing or not. After all, he has never been in contact with these people, and he has just started practicing, so he is still very interested.

Chapter 1608

Gu Shaoyang patted Lingdang on the head, and then took out a handkerchief from his clothes to wipe Lingdang's sweat.

Gu Shaoyang wiped his sweat very skillfully and said to him: "You performed very well. You have mastered the ultimate technique so well in such a short time."

Gu Shaoyang really didn't expect it at all. Surprisingly, the speed of practice was so fast. It only took him a few days to master a set of intermediate techniques.

While he was shocked, he was also relieved and happy for this little girl.

Lingdang smiled and said to him: "Thank you, brother Gu Shaoyang for your praise."

Then he took the handkerchief from Gu Shaoyang's hand, wiped it with himself, and ran over in the direction of Tianci.

Lingdang ran to Tianci's side, looked at Tianci with interest, took Tianci's hand, and said to him: "Sister Tianci, how did I do?"

Lingdang finally had a chance to practice this time. It was really I want to hear it, bigHow does he evaluate his performance? He will know how he should adjust when the time comes, so he wants to ask everyone's opinion.

Tianci is of course very satisfied with Lingdang's performance.

He looked in the direction of Lingdang and said to him:"You are really a genius in cultivation. I really saw you right."

Lingdang immediately heard Tianci praising him and started to laugh. He really felt that I am very happy.

He looked at Tianci and said to him:"Is it true? Then the speed of my cultivation is indeed very fast."

Because he has never practiced and has never been in contact with people who practice, he is not familiar with this kind of cultivation. In terms of speed, it was a completely blank area for him, so when Tianci said this, he was really curious about what kind of person could practice so fast.

Tianci looked at the bell very patiently and said to him:"Of course, you have to know that when we practice, it takes more than a year. You said you could finish the practice in these two days. You are fast. Aren't you happy?"

Li Zhou felt that when Tianci said this, he was already a very big monster.

Originally, Li Zhou thought that he was still a genius in cultivation. When Li Zhou said this, he felt that Tianci was already a genius in cultivation.

But looking at the little girl who is twelve or thirteen years old, I feel that this little girl is the real evil genius.

Then he looked at the bell. Some of Li Zhou were injured and said to the bell:"Do you know that it took me three or four years to practice the intermediate skills."

When Li Zhou said this , I am really very embarrassed. After all, others have learned a set of ultimate skills after a few days of careful effort, but it took me so long.

After hearing what they said, Lingdang felt that his training speed was indeed a little too fast.

But he felt that when he practiced the exercises, he understood them very thoroughly and could quickly learn all the movements in the exercises, so he didn't know why he could understand them.

He immediately looked at Gu Shaoyang and the others, and said to them:"Am I practicing wrong?"

He felt that he had already completed the intermediate skills, so there was something wrong with him.

Gu Shaoyang shook his head, looked at Lingdang, and said to him:"It's not that you are not practicing wrongly, but that you are really a genius in cultivation."

Lingdang looked at several people praising her, and she felt really happy in her heart..

Gu Shaoyang had already looked at Tianci at this time and said to him:"Don't you have this set of advanced cultivation techniques in your place? Give it to him."

Tianci does have it. It was brought out from the academy before. It was given to him by his father. Although he has already mastered these things, he has always been by his side, just like his father is by his side, just leaving a thought.

He looked at Gu Shaoyang talking to him and said,"Okay, since the little girl Lingdang wants to practice well, let's give it to her."

Then he already took out a yellow book cover from his bag. The book on advanced Kung Fu training was given to Ling Dang, and he said to Ling Dang:"This is for you to practice well."

Ling Dang took this set of books on advanced Kung Fu training in his own hand, and his whole body was like At that time, I was really very happy.

He looked at Gu Shaoyang, Tianci and Li Zhou, and said to them: "Thank you very much, can you give me such an opportunity to practice?"

Lingdang was really grateful to Gu Shaoyang and the others. , They never have anything to hide from their professors. As long as they know what they are explaining to them, they will always explain it to themselves very thoroughly, giving themselves a chance to practice.

Chapter 1609

Li Zhou looked at Ling Dang. At this time, he didn't dare to say too many words to this little girl.

Instead, he looked in the direction of Ling Dang and said to him: "Maybe one day I will have to rely on you to protect your brother Li Zhou. You are really very powerful. I didn't expect you to practice so fast."

Ling Dang said to him. Immediately hearing what Li Zhou said, he felt a little embarrassed and his face began to turn red.

Lingdang said to him: "I still need you to take care of anything, but don't worry, I will become stronger, and I will be as powerful as you in the future."

And this little girl is really thinking in her heart, if If you can practice as soon as possible, you must make yourself more powerful as soon as possible, so as not to hold back everyone, and only in this way can everyone regard it as a part of it.

At this time, Luo Zishan clapped his hands and saw that it was getting late now.

Lao Zou said to the few of them: "Okay, okay, get some rest quickly. It's already midnight, and I can't stop talking about it."

Several people were talking here, and they had already found themselves on the other side. position and began to rest.

A few days have passed, and they are getting closer and closer to Kunlun Mountain, and everyone has really made great progress along the way.

This progress is not because they want to practice, but because Emperor Jin Zong will send a lot of soldiers to this place every time to block them, so Gu Shaoyang and the others are really forced to do so, and they grow up fighting every time.

Their current strength is growing the fastest with Bell.

He has become even more powerful during this period. In addition to some generals and powerful figures, Lingdang personally took care of some very casual little Luoluo. Therefore, at this time, Lingdang not only relied on his ability to understand the techniques. He is stronger and has more experience in fighting.

After just finishing a battle today, Gu Shaoyang looked at Ling Dang and said to him: "How are you? Do you feel particularly good today?"

Because Gu Shaoyang really felt that Ling Dang's progress was so fast, and he didn't expect that it had just passed. Within a few days, I had already started to compete with myself, and I had made great progress at that time.

Lingdang wiped the sweat from his forehead, and then arranged his very messy clothes.

He looked in the direction of Gu Shaoyang and said to him: "Brother Gu Shaoyang, am I doing well?"

At this time, the little girl was fighting against the monsters and her enemies. They were not at all like before. They were very scared when they saw blood. But at this time, I was really excited and felt that I was getting stronger bit by bit.

Gu Shaoyang nodded, then wiped the sweat from his face for Lingdang, and said to him: "You have performed very well. All of Jin Zongdi's subordinates have been taken care of by you. Do you know that they can They are all people in their twenties and thirties who have been practicing for more than ten years."

Hearing Gu Shaoyang say this, Lingdang was even more happy.

When he heard Gu Shaoyang praising him, he immediately became more determined that he must continue to practice well.

Several people set off in the direction of Kunlun Mountain again.

But what Gu Shaoyang and the others didn't know was that just after Emperor Jin Zong's group was defeated, Long Hanming on the other side once again sent out his magical beasts to block Gu Shaoyang and the others.

The person sent this time turned out to be an old acquaintance of Gu Shaoyang and the others, the tiger monster that had previously blocked them in the forest near Long Hanming's palace.

When Gu Shaoyang and others were resting at night, they had already seen Luo Zishan's nose and showed it off carefully.

Gu Shaoyang knew that something must have happened to Luo Zishan at this time.

Because Gu Shaoyang could feel it every time, once Luo Zishan was in such a state, he must have smelled the scent of a monster.

He looked in the direction of Luo Zishan and said to him: "A new enemy is coming."

Luo Zishan did not speak at this time, because he felt that this smell was really very familiar to him, and This breath was even more familiar to him, and Luo Zishan's eyebrows began to twist deeply.

Although he didn't talk to Gu Shaoyang, Gu Shaoyang started to take it more seriously at this time.

Because she felt that Luo Zishan was taking it so seriously at this time because the enemy who came must be more powerful.

On the other side, Tianci and Li Zhou, they have long been accustomed to this kind of life.

He looked in the direction of Luo Zishan, and Gu Shaoyang said to him again: "What's wrong? Is there something wrong?"

Luo Zishan lowered his eyelids slightly, and then lowered his long Eyelashes, he was in a very lonely mood at this time.
