Chapter 171

Gu Shaoyang points his sword at the Jade Sea.

Everyone was shocked.

Elder Yuhai is a warrior in the Divine Sea realm!

Gu Shaoyang is not even half a step into the Divine Sea. In the later stage of Xuan Dan, when he challenges the Divine Sea realm, should I call Gu Shaoyang arrogant or confident?!

No one dares to guess at random.

After seeing Gu Shaoyang's sword strike just now, they understood that some monsters cannot be deduced using common sense.

Yu Hai stared at Gu Shaoyang closely, her eyes flashing with light, and her heart was filled with surprise, shock and a trace of regret.

Yes, he regretted it a little.

For a genius like Gu Shaoyang, who is as powerful as a demon, he really shouldn't stupidly stand in front of his opponent.

Yuhai has seen such monsters before. Their rise is like the rising sun. Anyone who tries to stand in their way will be ruthlessly crushed or burned to ashes.

However, Gu Shaoyang challenged him by name, and it was impossible for Yuhai to back down.

He is a strong man in the Divine Sea Realm. If he is scared away by the Revolving Core Realm, he will really become the laughing stock of everyone.

It's hard to get off the tiger...

In this case, just give him a small lesson and give him a step down, which may ease the relationship between the two parties.

Yuhai made up her mind, laughed loudly, and flew onto the field.

"Since you asked me for advice by name, I won't be polite. No matter what happens in this battle, I agree that Gu Shaoyang will become the elder of our Hanhai Sect..."

"hehe.."

Yu Pu on the sidelines shook his head and said with a helpless smile:"This old fox 480, he can see clearly.."

Others were also a little confused as to why Elder Yuhai's attitude changed so quickly.

Gu Shaoyang didn't care, as if he didn't hear Yu Hai's words at all. He just said lightly:"Elder Yu Hai, please take my sword."

Yu Hai was stunned:"Huh?!"

Before he could react, Gu Shaoyang The sword has been drawn brazenly.

This sword was the same as the one Gu Shaoyang had just fired.

Qicheng Tribulation Thunder Sword Intention, Heaven-level middle-level swordsmanship"Huangtian Prison Thunder Sword".

With the fusion of the two, the power of this sword has long surpassed the scope of the Xuandan realm, surpassed half a step of the divine sea, and reached the terrifying lethality of the divine sea realm.

The sword light, like a purple dragon or a thunderstorm of heavenly punishment, surged toward the Jade Sea.

Yu Hai's pupils shrank suddenly. Only by facing Gu Shaoyang's sword directly could he realize how terrifying this sword was.

Yu Hai had no time to react, and struck out one palm after another. The power of the Shenhai Realm's confined space was broken through layer by layer like a fishing net under this sword, and was easily torn open.

Everyone could hear the "cracking" sound coming from the void.

Yu Hai retreated crazily, constantly slapping his palms to weaken the power of the sword.

From the perspective of others, Yuhai seemed to be flying back continuously due to Gu Shaoyang's sword.

At this moment, Gu Shaoyang's voice sounded on the field again.

Not loud, but clearly transmitted to everyone's ears

"Elder Yuhai, please accept my sword again."

Yuhai had just weakened Gu Shaoyang's Huangtian Prison Thunder Sword to the point where he could easily neutralize it. Hearing these words, he suddenly looked up and watched as Gu Shaoyang slashed out with another sword.

"Well.."

What Yu Hai wanted to say was wiped out by the blood in front of him.

Killing intent, naked killing intent enveloped him.

Yu Hai's eyes widened. He had never thought that he would be forced to sweat on his forehead by the murderous intention of a Revolving Dan Realm warrior.

100% perfect killing sword intent!

Yuhai took a deep breath, then swung out two palms, smashing the purple electric sword light in front of him, and then hit the bloody sword light with one palm.

He shouted in his mouth: "Lift the sky and lift the sea!"

Yuhai's palm had the power to lift up the entire vast sea, and the bloody sword light quickly disappeared and shattered under this palm.

Before Yu Hai could breathe a sigh of relief, Gu Shaoyang's nightmarish words rang in his ears again.

"Please take my third sword!"

The next moment

"buzz buzz.."

There was a tidal wave of sword sounds in the field, and the disciples of the Hanhai Sect exclaimed. Each one of them watched helplessly as their swords broke free from their control, flew into the air, and hovered obediently in front of Gu Shaoyang.

Gu Shaoyang had already activated the sword pill to the extreme.

In the Brahma Sword Tomb, he used thousands of broken swords to easily kill Ye Zhuo, who was in the Divine Sea Realm. He gained some insights and discovered the true power of the exquisite sword elixir.

Take advantage of the situation!

Use the power of thousands of swords to defeat the divine sea!

In the dantian, the Flawless Sword Pill was spinning crazily, and Gu Shaoyang's body was filled with powerful sword energy.

Countless long swords were above him, circling and flying around him, like ministers worshipping the king.

The sword energy split the clouds and mist, clearing out a piece of blue sky

"The sun and the moon shine together!"

(bbdj) Gu Shaoyang shouted softly and swung his sword in the direction of Yuhai.

In an instant, everyone seemed to be in a trance as if they saw the scorching sun and bright moon rising behind Gu Shaoyang at the same time. Thousands of swords flowed back, gathered at the tip of Gu Shaoyang's sword, and then exploded out with the sword's power.

A vast river of swords!

Shocking!

An unspeakably shocking scene.

The clear eyes of the young disciples of the Hanhai Sect with green faces reflected the figure holding a sword in one hand and dressed in white standing on the sword river.

The peerless style of this sword.

Maybe they will never forget it in their lifetime.

Seeing the sun and moon rising and falling Jianhe coming in mightily, Yuhai's eyes widened and his expression changed suddenly.

He no longer dared to have any reservations in his heart, and his strength belonging to the Divine Sea Realm exploded.

He roared, and a rich dark blue light emitted from his body, and then he slapped one palm after another crazily. With each palm, the blue light around him became thicker, and in the end it almost turned into a huge blue light. Colored eggshell.

The Jian River washes past.

Everyone heard the "ding-ding-ding-ding" sound, like the sword river hitting a rock.

Gradually the sound became obscure...

Finally..

"click.."

A figure jumped out from the scattered long sword in embarrassment.

The pale-faced Yuhai looked a little embarrassed. He no longer had the high-spirited spirit of Elder Shenhai before, and the eyes that looked at Gu Shaoyang were filled with only horror and shock.

He almost didn't survive that sword blow.

The number one genius in the Southern Territory, a true dragon-level genius who has never been born in ten thousand years, is indeed extraordinary...

Yuhai's eyes are complicated and his heart is bitter.

Gu Shaoyang looked at Yuhai and said calmly: "What does Elder Yuhai think of my three swords? Can I be the guest elder of Hanhai Sect?"

Yuhai's tone was difficult and he said in a deep voice: "I do. All matters are up to Yu Pu. Senior brother arranged it, so I will resign first..."

After saying that, he flew away without looking back.

Lin Sihai, who was holding two severed guns in his hands, was still in a daze. When Gu Shaoyang glanced at him, he immediately tensed up and left quickly like a frightened rabbit.

Horrible... Abnormal...

At this time, Gu Shaoyang has long been synonymous with monster in his heart.

In the late stage of Xuan Dan, he was able to force Elder Yuhai of the Divine Sea Realm to go to such a place. Is this Gu Shaoyang really human?!

Lin Sihai never wanted to see Gu Shaoyang again in his life.

The spot is not up for grabs!

Such monsters should have stayed with the monsters from the Zhongtian Domain's main sect.

Immediately afterwards, Yu Pu announced in public the fact that Gu Shaoyang had become the elder of Hanhai Zong Keqing.

The original guest elders of Hanhai Sect all looked at Gu Shaoyang with deep awe.

They are both Keqing elders, but the gap between them and Gu Shaoyang is too big.

As for the disciples of Hanhai Sect, they were excited and excited, with their green and immature faces filled with admiration and admiration for Gu Shaoyang.

"It turns out that this is the style of the number one young person in the Southern Region. He is so handsome!"

"Gu Shaoyang is much stronger than his senior brother. He can force Elder Yuhai back with three swords in the Xuandan realm. Be good, he will be my idol from now on!"

"Starting from today, I will also learn to sword!"

## Chapter 172

"The main sect of Hanhai is the top fourth-level sect in the Zhongtian Region. It has branch sects in the four regions of East, West, South and North. The branch sects have a quota for selecting disciples every ten years... Speaking of which, it can be regarded as the main sect's influence on us. These branch sects compensated to a certain extent.."

While Master Yu Pu introduced Gu Shaoyang casually, he pointed to a formation in front of them with a radius of several meters and inlaid with pieces of silver-white stones and said to Gu Shaoyang:"This is the teleportation formation leading to the main sect. Shaoyang, stand up. , I will activate the magic circle immediately."

Gu Shaoyang nodded, his eyes falling on the silver-white stones.

This is a space elemental stone, which contains space energy. It is essentially the same material as the spirit storage ring, but the spirit storage ring is made of space crystals, which are of a higher grade.

"Spatial attributes\*134.."

"Spatial attributes\*211.."

Gu Shaoyang resisted the urge to extract and absorb the silver-white attribute bubbles one by one, and strode into the teleportation array, with strange birds following at his feet.

Master Yu Pu and Zhou Canglan stood outside the teleportation array and looked at him

"Canglan wishes Brother Gu to become famous and shine in Zhongtian Domain!"

Zhou Canglan raised his hands to Gu Shaoyang and said seriously.

Gu Shaoyang nodded slightly, his eyes slightly soft.

Zhou Canglan has a free and straightforward temperament, and is not as pedantic as Wei Zhuang. Looking at it carefully, he is the friend who likes him the most.

Master Yu Pu also rushed Gu Shaoyang smiled gently, and then a ray of light shot out from his hand. Gu Shaoyang suddenly felt the ground under his feet shaking slightly, and all the space yuan stones emitted a strong light at the same time.

"There will be some discomfort during the transmission process, please bear with it for now, it will arrive soon..."

The voice of Master Yu Pu rang in his ears, and then the voice was soon pulled to a very far place and could no longer be heard.

The scenery in front of Gu Shaoyang changed drastically, from the small room before to a bizarre scene.

The colorful stream of light, like ribbons, changed into different shapes and floated past Gu Shaoyang, giving a slight feeling of weightlessness.

Gu Shaoyang felt a bit like flying on a plane in his previous life. He saw a translucent film outside his body.

This film is constantly decreasing in the void, but the rate of decrease is very slow and it can sustain it for a long time.

Suddenly, Gu Shaoyang's eyes lit up.

A large wave of silver-white attribute bubbles flew over from directly in front of him, like a school of silver-white fish.

"Spatial attributes\*2344.."

"Spatial attributes\*3556.."

The largest one among them even reached "space attribute \* 14566", which is many times more than what he had absorbed by absorbing the spirit storage ring bit by bit!

Gu Shaoyang took a deep breath, his heart became hot, and he tried to stretch out his hand to absorb those space attribute bubbles.

However, he just put his hand out of the film and found that the film was consumed very quickly.

Gu Shaoyang stopped his hand in a hurry.

His eyes flashed, thinking and hesitating.

Gu Shaoyang thought for a while and took out a middle-grade earth-level sword from the spirit storage ring. He got it from the tomb of King Xuan.

He casually threw the middle-grade sword out of the film. The sword jolted in the void, and then quickly disappeared under Gu Shaoyang's eyes.

It is true elimination, as if there is an invisible big mouth that "eats" the sword bit by bit.

Gu Shaoyang took a deep breath and his eyes became more serious.

It's too dangerous in space.

With his current level of cultivation, once the attack occurs, it will basically be the result of physical death and Tao disappear.

But...

Gu Shaoyang looked at the silver bubbles passing by one after another, his eyes full of unwillingness.

At this moment, there was a glimmer of light coming from the front.

Coming?

Gu Shaoyang was startled and then made up his mind.

He reached out decisively and grabbed an attribute bubble that happened to pass by. absorb!

Space attributes \*2667!

Gu Shaoyang felt a strange force integrating into his body. His body seemed to have undergone some changes, but he couldn't explain it.

The thickness of the film outside the body is also instantly reduced by one-third.

Come again.

Gu Shaoyang took action again. absorb!

Space attributes \*3455! absorb!

Space attributes \*4013!

Gu Shaoyang struck twice in succession, and the film protecting him was consumed in an instant to only a thin layer. At this time, Gu Shaoyang was still quite far away from the light in front of him.

Um?!

Gu Shaoyang's eyes flashed and he shouted: "Xinglong Transformation! Black Dragon Transformation!"

The two secret skills of the True Dragon Way were used at the same time, and Gu Shaoyang's aura suddenly increased several times.

Then he grabbed the strange bird next to him and took a step forward.

There seemed to be a flash of silver light on his body, and when he reappeared, he was only a few steps away from the light.

The membrane outside the body suddenly burst at this moment.

Gu Shaoyang's expression changed drastically, and the black-level pagoda immediately appeared, and his figure disappeared again.

The black-level pagoda shattered silently, and there were faint traces of torn on Gu Shaoyang's robe.

At the critical moment, he and the strange bird stepped into the bright exit...

"Bang!"

All the space yuan stones on the teleportation array burst together, startling Yu Pu and Zhou Canglan.

"what happened?!"

Yu Pu quickly stepped forward to check the abnormality of the teleportation array.

"These space elemental stones can obviously provide at least three more teleportations, so why do they suddenly run out of energy?! Zhou

Canglan looked nervous and couldn't help but ask:"Master, is Brother Gu here?""

Yu Pu shook his head and said with a serious expression:"The energy is exhausted early, and the transmission should not be completed yet..."

"What to do? Brother Gu..Brother Gu.."

Zhou Canglan's face turned pale and he kept mumbling.

Yu Pu sighed and said:"It should be caused by space turbulence or something like that... But you don't have to worry, Shaoyang is blessed with shocking luck. Even if there is an accident on the way, he will definitely be able to turn disaster into good luck. At most, it was just a slight twist. It is not easy for a true dragon like him to fall casually..."

Zhou Canglan reluctantly relaxed and whispered:"I hope so... ugh.."

Gu Shaoyang felt severe pain all over his body. Even he was slightly afraid of acting so boldly during the extremely dangerous space teleportation process.

The strange bird curled up in his arms, trembling all over, obviously frightened.

Gu Shaoyang opened his eyes, and a mysterious silver light flashed in his eyes, and even he didn't notice it.

Gu Shaoyang looked at the place where he was now.

It is an antique room with simple furnishings, but it is full of atmosphere and elegance.

"Huh?!"

A surprised voice suddenly sounded in his ears.

Gu Shaoyang turned around and saw a young man wearing a blue robe looking at him doubtfully.

Half a step into the sea of spirits!

Gu Shaoyang's pupils shrank.

His bone age was no more than 25, half Bu Shenhai's cultivation is considered to be the first-class genius in the Southern Territory.

It seems that this should be the Zhongtian Territory without a doubt

"There was a problem with the teleportation array, but he was still able to escape from the space channel alive. He is worthy of being a little genius recommended by the branch sect. He has a bit of luck..."

The young man looked Gu Shaoyang up and down with a novel look.

Gu Shaoyang stood up, straightened his robes, and said, "Gu Shaoyang, from the Hanhai branch of the Southern Territory, dare to think that this is the main sect of Hanhai?" The young man smiled and nodded, "Yes, you are lucky, it is my turn to be on duty during this period. If it were anyone else, seeing that the teleportation array is unstable, they would definitely terminate the teleportation by force. No matter how desperate you were, you wouldn't be able to escape..."

Gu Shaoyang's heart trembled.

Aborting the transmission means closing the exit before Gu Shaoyang arrives. Thinking about the danger before...

Gu Shaoyang thanked him sincerely at the moment: "Thank you, senior brother. May I ask your senior brother's name?"

The young man waved his hand and said: "It's just a little effort, you Just call me Fu Xuan. Well, you come here and I will register you..."

Gu Shaoyang nodded and followed the young man out of the room...\_

## Chapter 173

Gu Shaoyang followed Fu Xuan to another room.

This room is larger than the previous one, with many cabinets, and gray soul storage rings displayed on the cabinets.

Fu Xuan took out a small jade plaque from one of the spirit storage rings. Gu Shaoyang's sharp eyes saw the words Hanhai Sect engraved on the jade plaque.

Fu Xuan noticed Gu Shaoyang's gaze and explained with a smile: "This is the token for the inner disciple of Hanhai Sect. As long as your cultivation level reaches the Xuandan realm, you will be automatically promoted to the inner disciple. I will help you engrave the information into it now." .."

Gu Shaoyang sighed a little in his heart.

In Qingyun Sect, one can become an inner disciple in the Juyuan realm, with Ningzhen as the core.

However, in the Hanhai Sect, only those who have condensed the Revolving Pill are qualified to become inner disciples.

The cultivation level of Wei Huan, the head of the Qingyun Sect, is only at the Xuandan realm. The gap between the two is truly indescribable.

"Name?"

"Gu Shaoyang"

"From what domain?"

"Southern Territory"

"Cultivation?"

"Late stage of Xuan Dan."

Fu Xuan asked Gu Shaoyang a few general questions. Seeing that Gu Shaoyang was a little confused, he explained: "Even the inner disciples are divided into green clothes and blue clothes. Qing Yi is considered an ordinary inner disciple, while Lan Yi is an elite inner disciple. The latter gets ten more top-quality Yuan stones per month than the former, as well as a bottle of Yuan Tempering Pill. Oh, by the way, what is your bone age? ?

Gu Shaoyang thought for a while and replied: "There are still a few months until I reach 20.""

"Um?! Fu

Xuan was slightly surprised and praised:"You can reach the late stage of Xuandan in less than twenty years. You have good qualifications. You must be a famous figure in the Southern Territory.""

Gu Shaoyang was noncommittal.

Fu Xuan smiled and said:"Then you might have a chance to be directly rated as a blue shirt. Later I will take action to test your combat power and test your level of Xuandan..."

After saying that, Fu Xuan became serious again and said to Gu Shaoyang:"However, Junior Brother Gu, I still want to remind you a few more words. I know that geniuses like you are the top proud figures in other fields, and you are among the best. Let's go all the way. It's been a smooth journey, and perhaps none of my peers have ever encountered an opponent..."

But don't forget, this is Zhongtian Territory."

Fu Xuan looked at Gu Shaoyang and said seriously:"Zhongtian Territory, compared to other territories, especially The most barren Southern Territory is much bigger. There are as many outstanding people as the stars in the sky, and there are also some people who are as bright as the sun and the bright moon, which you have never seen before... Don't be conceited and arrogant, don't belittle yourself. This is me Two pieces of advice for you."

Fu Xuan's eyes were clear, his brows clear and upright, and his words were sincere.

In addition, he had saved Gu Shaoyang once before in the teleportation array. Gu Shaoyang was touched and said seriously:"Thank you, Senior Brother Fu Xuan, for the tip."

"Um

Fu Xuan was also impressed by Gu Shaoyang's cold and indifferent temperament. He was satisfied and asked:"How many grades of your elixir are you ready for? Let me see." A trace of hesitation flashed across Gu Shaoyang's face. His flawless sword elixir was unparalleled in the world. I don't know if it will cause unnecessary trouble.

Just when Gu Shaoyang was about to spit out the sword pill, suddenly a person hurriedly walked in from outside.

"Fu Xuan, you are still here... What have you been doing for so long with these branch disciples from a small area? I have something urgent to ask you."

The person who came was a handsome young man who looked a bit younger than Fu Xuan. He was also half a step into the sea of gods. He was wearing blue clothes and had a strong aura.

From Gu Shaoyang's perspective, whether it was Fu Xuan or This person gave him a feeling far better than those half-step divine sea masters in the Southern Territory.

The difference between the two was like a clay man and an iron man. They seemed similar, but in essence they were very different.

He was the top of the Zhongtian Territory. The style of the elite disciples of the sect

"Hang Weizhi, why is it so urgent?"

The handsome young man who was called Hang Weizhi by Fu Xuan said:"That guy Di Ming just went to measure his strength. He exerted nearly seven dragons' power and almost broke the strength measurement record. Now he is making quite a fuss. What a sensation. Many people came to watch the excitement.."

A trace of surprise flashed in Fu Xuan's eyes, and he whispered:"Di Ming has made a breakthrough again?"

Then he said calmly:"His breakthrough has nothing to do with me, I still want to introduce this junior brother... Well, Junior Brother Gu, you will use the Revolving Pill Release it"

"What catches your eyes.."

Hang Weizhi waved his hand impatiently, pulled Fu Xuan's sleeves, glanced at Gu Shaoyang disdainfully, and sneered:"I've seen too many disciples from this small domain. Even if they can

condense a good elixir, they can't bear it." Great use. Did you forget that a second-grade Tiandan guy came in from the Eastern Territory last time? Known as the evil genius who has not been seen in thousands of years from the Hanhai Branch of the Eastern Territory, he reached the half-step Divine Sea realm at the age of twenty, but as a result, he was killed by a certain person as soon as he entered. A senior brother who is also a half-step Shenhai and a fourth-grade Xuandan was slapped on the ground, making him laugh...

According to me, give him a Qingyi identity, and you should follow me quickly."

Fu Xuan shook his head coldly,"Hang Wei Zhi, the disciples of the branch sect are also disciples of Hanhai. I should treat them equally."

"Why!"

Hang Weizhi stamped her feet in frustration and said,"Then don't regret it, Junior Sister Xiaoxiao is here too. It's not like you don't know that Di Ming is interested in her. You are worried that the beauty will be snatched away..."

"Junior sister Xiaoxiao is here too?!"

Fu Xuan's face suddenly showed surprise and hesitation.

Hang Weizhi urged:"That's why I came to find you. Just go quickly, I'll help you with the things here.."

Fu Xuan looked tangled, and finally made up his mind, put the jade plaque in Hang Weizhi's hand, and said,"Then I'll go and have a look. Hang Weizhi, you must review it carefully. Junior Brother Gu has quite a lot of qualifications and cultivation." Not bad, qualified to attack the blue shirt"

"Don't worry, don't worry."

Hang Weizhi agreed, and Fu Xuan hurriedly left when he saw this.

When Fu Xuan's figure disappeared, Hang Weizhi picked up the token and silently imprinted it, then threw the token into Gu Shaoyang's hand and said casually:"Okay , from now on you will

belong to my Hanhai Sect. You are now a Tsing Yi disciple of the inner sect... Take this token to collect your things later."

After making peace, Hang Weizhi turned around and left.

Gu Shaoyang frowned slightly, stepped in front of Hang Weizhi and said in a deep voice: "This senior brother, senior brother Fu Xuan just said that he wanted to see my Xuan Dan and test it. My combat power is used to determine whether I am qualified to be a blue shirt..."

Hang Weizhi looked him up and down, and said with a smile: "Fu Xuan is Fu Xuan, I am me. Fu Xuan has the patience to play slowly with you small domain geniuses, but I don't have so much free time." .."

As he spoke, Hang Weizhi narrowed his eyes and snorted coldly at Gu Shaoyang: "To be honest, what I hate most is that you guys from Xiaoyu. It's obviously an embroidered pillow, but you still look so high on yourself, thinking that you are How amazing..."

I tell you, in your Southern Region, you are a genius and a monster, but in the Central Heaven Region, you can only be ignored by everyone.

The dragon in the Southern Region is just a loach in the Central Heaven Region!

A frog at the bottom of a well does not know how thick the sky is..."

Gu Shaoyang's face was expressionless, with a faint coldness in his eyes.

Hang Weizhi blinked and smiled

"Yo, are you angry?! Don't be unhappy, the annual Yiyi Conference will be held in just two months. At that time, white clothes will be promoted to green clothes, green clothes will be promoted to blue clothes, blue clothes will be promoted to purple clothes... If you have the ability, even if you are promoted to xuanyi, it is not impossible to be the only eldest son of my Hanhai Sect.

At that time, I will respectfully call you Senior Brother Gu!

Ha ha.."

Hang Weizhi laughed and passed by Gu Shaoyang.

Gu Shaoyang held the disciple token representing his identity in his hand, his eyes flashed, and he said to himself:"Is there a promotion meeting... Qingyi, just Qingyi, at least, I can successfully come to Zhongtian Domain and join Hanhai Zong.."

## Chapter 174

After Hang Weizhi left, a Hanhai Sect disciple wearing white came out and led Gu Shaoyang to pick up his disciple Qing Yi, this month's disciple welfare, sect rules and other sundries.

There is also a map of the Hanhai Sect, with the residence assigned to Gu Shaoyang marked on the map.

Gu Shaoyang walked out of the room alone.

I suddenly discovered that this was actually a very inconspicuous small building.

What appeared in front of him was a magnificent grand style.

The Hanhai Sect was built by the sea, located in the extreme east of the Zhongtian Territory, surrounded by the sea on three sides, except for the land side, which was surrounded by a series of towering mountains.

The Hanhai Sect was built near the mountains and the sea. The entire sect was shrouded in an extremely huge formation. No matter where you were, you could hear the sound of the ocean tide.

Countless palaces and pavilions are scattered in the mountains, with abundant water vapor and mist. The sunlight casts colorful light and is refracted, which is truly magnificent.

Gu Shaoyang had seen the ruins of the Brahma Holy Land and compared the two.

The former is like a long sword reaching into the sky, while the Hanhai Sect is like a wave that rises and falls one after another.

No matter which one it is, it is more than a hundred times better than any sect in the Southern Region.

Gu Shaoyang walked a few steps and suddenly realized that he had underestimated the size of the Hanhai Sect. According to the map, his current location was only one of the ten inner branches of the Hanhai Sect, and there were hundreds of outer branches. Elder Peak There are hundreds of people on Deacon Peak and Handyman Peak.

The tallest and majestic main peak is quite far away from Gu Shaoyang, and only a faint outline can be seen.

Gu Shaoyang sighed in his heart, looking around as he walked, and soon came to his inner disciple's residence.

There were red dots marked on the map, but what appeared in front of him was a small, unique courtyard.

There were handyman disciples in gray clothes waiting at the door. Gu Shaoyang stepped forward and showed his disciple token.

The handyman disciples bowed respectfully to Gu Shaoyang and then led him into the courtyard.

Gu Shaoyang asked casually: "Which house belongs to me?"

The handyman was stunned and said respectfully: "Senior brother is joking, this is all the place where senior brother practices."

"So big?!"

"What the senior brother doesn't know is that this is only the residence of the disciples in blue, and the residence of the disciples in blue is bigger and better. As for the core disciples, they can even control a peak by themselves."

Gu Shaoyang was slightly surprised, but he quickly figured it out.

Yes, he is said to be a core disciple of the inner sect, but in fact he is already a strong man in the Xuandan Divine Sea Realm outside.

In the Southern Territory, strong people in the Xuandan Realm can become elders. Okay, this small courtyard was a bit aggrieved to him.

Gu Shaoyang asked the servants, and after understanding the situation, he gave a few instructions, left the strange bird to the servants, and then randomly selected a house to close. He has not yet fully digested the benefits he gained in the space at the risk of falling.

Gu Shaoyang stood alone in the room, feeling that he seemed to have some unknown changes.

The most obvious ones were shrinking to an inch and teleportation. The power of the move is more than ten times stronger than before.

Now Gu Shaoyang takes a step at will and can appear anywhere within a radius of five miles. The instant kill has a wonderful change.

Gu Shaoyang slashes out with a sword, and the Shadow Bearing Sword transforms in his void. Countless sword shadows, these sword shadows are very strange, with angles facing different directions and different lengths.

It is as if the void is folded under this sword, just like what you see when you insert a chopstick into the water.

However, The virtual image seen when the chopsticks are inserted into the water, but every sword performed by Gu Shaoyang is real. Gu Shaoyang put away the long sword, stared closely at the black and fine traces left by the long sword in the void, and murmured: "Instant kill seems to have transformed into a wonderful sword intention, using the power of space folding and splitting to hurt people, which can be regarded as.."

"Space Sword Intent, it barely reaches 10%."

In addition, Gu Shaoyang also found that his soul power, which was originally able to separate from the body, became more transparent and could penetrate into the surface of ordinary objects, and his detection ability increased several times.

There was also the fact that he had The ability to "break delirium" obtained by the tyrannical soul power becomes even more abnormal under the catalysis of space attributes. The direct effect is his eyes.

A cool breath flows around the eyeballs all the time. Once that breath is used , many silver-white lines will appear in the world in front of Gu Shaoyang's eyes.

He still doesn't know what their specific purpose is.

"Having just joined the Hanhai Sect, what I have to do now is to improve my strength as soon as possible, and then try my best to show my talents at the right time, so that I can gain the attention of the sect, tilt resources, and greatly speed up my promotion..."

"Less than 20 years old, in the late stage of Xuan Dan...it seems that the results are very dazzling, but in fact it is still slow. In the Southern Territory, being able to enter the Xuan Dan before the age of twenty-five is considered extremely outstanding, but in the Zhongtian Territory, this result is completely insufficient. Perhaps only by advancing to Shenhai before the age of twenty can we catch up with those evil geniuses who are at the top of the younger generation..."

Gu Shaoyang has good reason to believe that the Hanhai Sect, which is the top sect of the fourth rank, has so many geniuses in their twenties who are half-stepping into the divine sea. How strong should it be?

He carries the fate of the Holy Son of the Holy Land of Brahma. From now on, he will definitely embark on a path to compete with the great geniuses, so he cannot relax for a moment.

"Although the Galaxy Sword Code is strong, promotion requires too much vitality. In the Southern Territory, it is difficult for me to quickly collect so many resources. Entering Zhongtian Territory early is indeed a wise choice.."

Gu Shaoyang took out all the spirit storage rings of the Xuandan realm and half-step Shenhai realm warriors he killed along the way, poured out all the Yuan stones, and piled them into a hill in front of him.

It's a pity that when Jianhe killed Ye Zhuo, the core disciple of Zhenling Sect, he also destroyed Ye Zhuo's spirit storage ring. Otherwise, a large amount of resources would be available.

"In the following time, I will attack the Divine Sea Realm with all my strength. In two months' time, I will become a blockbuster at the Shengyi Conference!"

A bright light flashed in Gu Shaoyang's eyes, and he instantly extracted all the vitality of a hundred top-grade Yuan stones.

The rich vitality flowed into his meridians like the Yangtze River, returned to his Dantian, and was quickly swallowed by the transparent and flawless sword pill...

One month later.

Gu Shaoyang opened his eyes suddenly, and a sharp sword energy shot out from his eyes, leaving a deep mark on the wall in front of him.

At this time, Gu Shaoyang's aura was several times more powerful than a month ago. , but his brows were still frowning tightly

"Not enough. Even after absorbing it all, it's still not enough..."

Gu Shaoyang was surrounded by dim Yuan stones of different sizes.

This is the difference between him and other warriors. He relies on extracting attributes to absorb vitality. He absorbs vitality perfectly without damaging the Yuan Stone. Therefore, the Yuan Stone absorbed by him will not turn into powder, but will leave pieces of "empty space". "Shell"

In the dantian, a fist-sized Flawless Sword Pill is slowly rotating. The transparent small sword inside the sword pill becomes clearer and clearer. It contains amazing sword energy, and it seems that it can escape from the body with just a slight move.

"To reach the limit of the Revolving Core, I need at least 10,000 top-grade Yuan Stones. How can I fill this huge hole?!"

Gu Shaoyang's expression was a little gloomy, and his eyebrows relaxed slightly.

"Fortunately, the most important step to break through the Divine Sea realm is to open up your upper dantian and gather the Divine Sea... To put it bluntly, it is to enhance your soul power. My soul power is unparalleled. This step has been done a long time ago. From the Xuan Dan There is absolutely no obstacle to reaching the Divine Sea, all you need is to accumulate enough Yuan Power..."

In other words, unlike ordinary warriors, I don't have the realm of half-step to the Divine Sea!"

Gu Shaoyang stood up and put the empty shells of Yuanshi all over the ground into the Spirit Storage Ring, and whispered:"It's better to go out for a walk. I remember it is recorded in the sect's rules. If you can break certain test records, you can get Yuanshi. Rewarding.. This may be a shortcut for me to earn Yuan Stones..."

## Chapter 175

Gu Shaoyang changed into green clothes, left the courtyard where he belonged, and followed the map to Tianlian Peak.

Tianlian Peak is one of the busiest places in the entire Hanhai Sect.

Hundreds of assessment and test items, large and small, are set up here for sect disciples to test their own cultivation.

For example, if a disciple of the body-refining path does not know where his strength, speed and defense are at the same level, he can take the test to accurately understand his own strength.

In this way, when going out for training, you will not blindly challenge those monster opponents who cannot be defeated, which reduces the casualty rate of disciples to a certain extent.

Moreover, if you can surpass your peers in a certain test and become the first and record holder, you can receive extremely generous Yuan Stone rewards.

This can also be regarded as a means for Hanhai Sect to encourage its disciples to practice hard.

Gu Shaoyang has never seen any sect implement such a testing system in the Southern Territory. Firstly, because the training level of warriors in the Southern Territory is generally lower than that of the Zhongtian Territory, and secondly, there are not many sects in the Southern Territory who have such a generous talent and are willing to take it. The release of so many multi-stone elixirs stimulates the disciples' daily practice.

It is worthy of being the top sect in the fourth rank.

Both the appearance and the spirit are far beyond those of ordinary sects.

Only in such a fierce and benign competitive environment can we unearth talented disciples one after another, making the sect prosper and pass on endlessly.

Gu Shaoyang sighed in his heart and strolled around casually.

The most disciples coming and going in Tianlian Peak are the white-clothed disciples from the outer sect, followed by the inner sect in blue, and those in blue are relatively rare.

As for the purple clothes that symbolize the core disciples, he has never seen them before.

Gu Shaoyang has seen the record holders of several assessments. The corresponding cultivation levels after the names written above are basically in the late stage of Xuandan or the half-step Divine Sea, and there is no Divine Sea realm.

After thinking for a moment, he figured it out.

For the Tianjiao of Shenhai Realm, these tests can no longer accurately test their strength level, and their end is also suspected of bullying other disciples. The sect should have regulations that the testers' cultivation level cannot exceed the Xuandan Realm.

"Roar.."

Several long dragon roars attracted Gu Shaoyang's attention. Gu Shaoyang followed the sound and saw a group of people gathered in front of a huge gray stone monument.

A man dressed in blue stood in front of the stone monument, with many people in green and white clothes surrounding him.

The blue-clothed disciple's right fist was imprinted on the stone tablet. The stone tablet shook, and then four lifelike ink-colored dragons soared into the sky from the stone tablet. The scene was astonishing.

The power of the blue-clothed disciple's punch attracted a lot of attention, and the surrounding green-clothed and white-clothed disciples all let out bursts of exclamation.

"Senior Brother Liu is so strong. He is obviously not specialized in physical training, but he can still exert the power of the four dragons. It's amazing!"

"No wonder Senior Brother Liu was promoted to blue shirt just after he entered the late stage of Xuan Dan. With time, the core can be expected!"

"However, in terms of body training, our inner sect still has the best position, Senior Brother Di Ming. Senior Brother Di Ming reached the power of Seven Dragons a month ago. If he trains for a while, he might be able to break the record of the force measuring monument."

"Senior Brother Di Ming is a monster who specializes in physical training and is not within the scope of our comparison. Besides, Senior Brother Liu is only in the late stage of Xuan Dan. When Senior Brother Liu reaches the divine sea, he might be able to reach the same level as Senior Brother Di Ming."

"Most likely."

The comments and compliments in his ears made the disciple surnamed Liu in blue shine on his face, and a smile appeared on the corner of his mouth, which seemed to be very helpful.

Although he knew in his heart that his physical strength had almost reached a limit, Not to mention the power of three more dragons, even one would be extremely difficult.

But who in the world doesn't like to hear good words.

Gu Shaoyang looked at it for a while, then quietly walked in and looked at the gray stone stele.

The stele was ten feet high and three feet wide. It is one foot thick, made of special material, and has the ability to manifest power.

The stele is surprisingly hard, and it is covered with small fist marks and palm marks of different shapes and depths. The deepest ones are almost five inches into the stele. A disciple named Liu in blue The fist mark is also on it, two inches into the monument.

Next to it is a record of the ranking of the force measuring monument. The top record holder is a half-step Shenhai disciple named Yan Xinyu, who has the power of eight dragons.

As for these people, they keep talking about it. Di Ming, ranked fifth, has the power of seven dragons. There are three disciples above him who have the power of seven and a half dragons, and their cultivation levels are also half a step of the divine sea.

Gu Shaoyang thought for a while and strode to the gray stone tablet..

A disciple in Tsing Yi glanced at him and asked:"Do you want to challenge the force measuring monument?"

Gu Shaoyang nodded.

"Give me the disciple token."

Gu Shaoyang handed his identity token to the disciple in blue, who briefly took notes, and then nodded, indicating that Gu Shaoyang could start.

At this time, the disciples gathered in front of the stone tablet were still shouting out various words around the disciple named Liu in blue. There was a voice of exclamation and praise.

He noticed Gu Shaoyang's appearance, but glanced at the Tsing Yi on his body and quickly looked away. He was just an ordinary Tsing Yi disciple, not much to see.

Gu Shaoyang ignored others and stood in front of the stone monument. , raised his right hand, made a fist and waved it out.

The third level of Capturing Dragon Power!

"boom!"

The white and delicate fists hit the stone tablet firmly, and the stone tablet shook.

The next moment, several dragon roars sounded one after another.

Those disciples who were praising the disciple named Liu in blue turned their heads when they heard the sound, and waited until they saw the stone tablet. Everyone was stunned by the scene that appeared on the stone tablet.

Four ferocious-looking black dragons appeared on the stone tablet, soaring into the sky.

"The power of the four dragons!"

Everyone was shocked, and the look in their eyes when they looked at Gu Shaoyang suddenly changed.

"Damn it, who is this guy? Isn't he Qing Yi? Why is his body so powerful?"

"He must specialize in physical training. In the late stage of Xuan Dan, it is not too difficult for those who are excellent in physical training to reach the power of the Four Dragons."

"Huh, no wonder... Although this man is not as good as Senior Brother Liu, his strength is pretty good."

The expression of the disciple named Liu in blue also softened.

"Senior Brother Di Ming already possesses the power of the Five Dragons in the late stage of Xuan Dan. Although you are far behind him, if you practice hard, you still have a chance to be promoted to Lan Yi..."

The disciple surnamed Liu said to Gu Shaoyang in the tone of a senior brother teaching a junior brother.

However, Gu Shaoyang didn't even look at him. He faced the stone tablet with a thoughtful expression on his face.

I made a kind point, but was ignored...

The disciple's face suddenly looked a little ugly.

The disciples who were watching also shouted: "Who, Senior Brother Liu is kind enough to give you a heads up, but you are so rude to Senior Brother Liu!?"

"I'm afraid it would have been a huge blow to see that my strength was not even comparable to that of Senior Brother Liu who was also practicing physical training."

"Haha, that must be the case."

Gu Shaoyang turned a deaf ear to the cynicism coming from his ears. He was estimating the power conversion standard between the Southern Territory and the Zhongtian Territory.

The last time he absorbed the power of thunder from Zhenling Sect Tuoba Hai, Gu Shaoyang's physical strength had reached 50,000 kilograms.

He just didn't use all his strength, and the third level of Dragon Capturing Strength increased eight times, with a huge force of 400,000 kilograms, and the power of four dragons.

From this point of view, the power of one dragon in the Southern Territory is equivalent to the power of one dragon in the Zhongtian Territory. Power, the two represent the same power, but they have different opinions.

The Zhongtian Domain's statement is more accurate, and the Southern Territory is a bit of a whitewash.

Thinking of this, Gu Shaoyang couldn't help but sigh at the prosperity of the martial arts in the Zhongtian Territory, the Barbarian Demon Sect Chao Qian can almost be said to be the number one body refiner among the younger generation in the Southern Territory (except Gu Shaoyang). When his Chi Demon Arm is fully opened, he has the power of five dragons. He can be placed in front of the Hanhai Sect's inner sect. Ten of them can't even make it in.

The gap between the two is huge, tsk tsk...

Gu Shaoyang knew it in his heart. He looked up at the disciple in green who was in charge of the force measuring tablet and said, "Can I try again?" The disciple in Tsing Yi was stunned and nodded subconsciously: "Of course you can. Every time you take the strength test test, you have three chances to try."

"good."

Gu Shaoyang nodded. The next moment, his expression became serious.

The disciples who were watching sneered: "Hey, you are still not convinced, do you want to try again?!"

"So what if I try him a hundred more times? Don't you understand the principle of one burst of strength only to fail again and again? Generally speaking, the first shot is the peak state, and the performance will definitely decline after that."

"Haha, we are just waiting to see the show.."

Gu Shaoyang turned a deaf ear, his eyes became bright, and a mysterious and deep aura of nobility suddenly rose from his body.

True Dragon Way. Black Dragon Transformation!

This time, his right hand turned into a claw and reached out fiercely.

True Dragon Way. True Dragon Exploring Claws!

The fourth level of Dragon Capturing Strength, a sixteenfold increase, explodes!

Chapter 176:

One arm has a huge strength of 50,000 kilograms, with a sixteenfold increase, and an instant burst of strength of 800,000 kilograms.

In addition to this period of time, Gu Shaoyang's understanding of the True Dragon Way has deepened, and he has connected with the soul of the ancient black dragon, and his power has increased again.

In an instant, the gray stone tablet trembled violently, as if it was about to be knocked up by Gu Shaoyang's palm and fell backwards.

"Roar..roar.."

With the continuous roar of dragons, one after another ink-colored dragons appeared on the stone tablet.

Scrambling to jump up.

One, two, three...

A total of eight black dragons appeared instantly, and then two more dragons appeared.

Everyone opened their eyes wide and watched as the ten dragons competed and gradually merged together.

Everyone's eyes opened wider and wider. Under the gaze of everyone, ten ink dragons twisted into one, the ink color gradually faded, and a more majestic, noble, and wild dragon head broke free.

Shining with brilliant golden light

"Roar.."

The roar of the dragon shook the world, and a huge pressure came for no reason. Everyone's heart seemed to be pressed against a heavy stone, so heavy that they couldn't breathe.

"Real...real dragon power?!"

"One million kilograms of strength, the power of ten dragons, the power of an ancient true dragon!!"

"Oh My God!"

Unbelievable exclamations came one after another.

Everyone could hardly believe their eyes. The golden dragon finally appeared completely, entrenched on the gray stone tablet, with dragon scales and claws, lifelike. The noble and majestic Longmu glanced coldly. The people under the stone tablet glanced at each other, then jumped into the sky and disappeared in the blink of an eye.

"call.."

Gu Shaoyang slowly stopped his hand

"click.."

A crisp sound.

Everyone's eyes suddenly popped out, and they clearly saw a brand new palm mark left on the extremely hard gray stone tablet. The palm mark was nine inches into the monument, and a clear crack appeared in the center of the palm mark, and was slowly spreading to the surroundings.

"hiss.."

Everyone gasped.

Looking at Gu Shaoyang's eyes was like seeing a ghost.

The strength measuring tablet was actually cracked by this disciple in green?!

So scary

"Well.."

The young man surnamed Liu in blue eyes widened and looked at Gu Shaoyang, making strange sounds from the bottom of his throat, as if he was being strangled by the neck and unable to speak.

The other disciples who were watching were all shocked, horrified, and completely dumbfounded.

The dreamlike scene actually happened before their eyes. Many people rubbed their eyes over and over again, but the palm prints and cracks on the stone tablet only became clearer and clearer.

Gu Shaoyang was quite satisfied with his palm.

More than half a year ago, his True Dragon Path Black Dragon Transformation could only increase his strength by 100,000 kilograms. Now it has reached 200,000 kilograms. This martial art that can be understood to the Nine Dragon Wall is obviously much more mysterious and advanced than he imagined. , there is still potential to be tapped, and the grade is not lower than the "Galaxy Sword Codex" which is a top-grade heaven-level sword.

Gu Shaoyang turned to look at the Tsing Yi disciple who was completely stunned and said, "Do I break the record?"

After asking several times, the Tsing Yi disciple woke up from a dream and hurriedly replied: "Forget it..."

"Are there any rewards?"

"have!"

The disciple in Tsing Yi swallowed hard, took out a purple jade talisman from his arms, and said to Gu Shaoyang: "With this talisman, you can go to the Contribution Hall to exchange for one thousand top-grade Yuan stones."

"good."

Gu Shaoyang's face showed a look of joy, he put away the purple jade talisman, turned and left without looking back, and whispered: "If you break a record, you will be rewarded with a thousand top-quality Yuan stones. This Hanhai Sect is indeed rich and powerful..Then I only need to break a few more records similar to the force measuring tablets, and then I can collect 10,000 top-quality Yuan stones and hit the Divine Sea realm..."

The Tsing Yi disciple closest to him was so shocked that his heart trembled again when he heard these words.

Break a few more records...

Who is this guy? He's so loud. He says breaking records is as easy as eating and drinking. What a monster!

After Gu Shaoyang's back was out of sight, the quiet dynamometer suddenly erupted into a burst of heated discussion.

"Damn it, what is this person's identity?! How terrible!"

"A million kilograms of strength, the power of an ancient true dragon. Is this a power that can be achieved in the Revolving Pill Realm?!"

"Even Senior Brother Di Ming is far behind him!"

"incredible!"

Everyone was shocked and sighed, and suddenly a voice sounded

"What's this guy's name?"

It was the young man in blue surnamed Liu. He looked at the disciple in blue who was in charge of the test with a complicated expression.

Others also reacted and asked questions one after another.

"Yeah, what's his name?!"

Only the Tsing Yi disciples at the scene knew Gu Shaoyang's identity.

The Tsing Yi disciples tried hard to recall and stammered: "Gu Shaoyang! Yes, his name is Gu Shaoyang. The disciple token is new, obviously he joined the sect not long ago!"

On the performance list next to the strength test monument, the name that originally belonged to the disciple named Yan Xinyu at the top of the list quietly changed to—"Gu Shaoyang."

Millions of giants of power, the performance of an ancient true dragon's power is so dazzling that people can't even open their eyes.

There are also the deep palm prints and cracks on the stone tablet.

Everything blew up like a hurricane, sweeping towards the entire Tianlian Peak. And go.

And more and bigger hurricanes are still fermenting silently...

The crystal jade pillar is testing the strongest attack of the Revolving Dan Realm.

Gu Shaoyang looked at a pillar in front of him that was surrounded by several people and was thick and jade-shaped.

This It was he who discovered another project with many participants besides the force test monument.

"drink!"

At this time, standing in front of the crystal jade pillar was a tall man in green clothes. He opened his mouth and spat out his own spinning pill. The fourth-grade spinning pill spun around six times. The momentum around him surged to the extreme, and then he struck out with a palm.

The dull jade pillar suddenly lit up with light.

Every other palm on the jade pillar had a clear grid pattern, dividing the entire jade pillar into one grid after another, a total of one hundred grids. The tall disciple in green clothes used his best palm, After lighting up the jade pillar for more than 40 squares, a look of joy appeared on his face.

"Nearly three more than the last test. It seems that my hard work during this period is still useful, haha.."

The rest of the people also came up for the test one after another, and most of them scored thirty or forty grids. The most powerful person scored more than fifty grids, which attracted low exclamation from the others.

Gu Shaoyang still looked at the results list first.

Number one on the list is Yu Tielong.

Score, eighty-three squares.

A knife was used.

Then I saw a familiar name again.

Yan Xinyu, eighty-one frames.

Fu Xuan, who introduced Gu Shaoyang to the academy, is also on the list, ranking seventh with a score of 76.

Gu Shaoyang handed his identity token to the test disciple and gently placed his right hand on the Shadow Sword.

Since it was a test of the strongest attack, of course he had to use a sword

"Huangtian Prison Thunder Sword!"

"Seventy percent of the Tribulation Thunder Sword Intent!"

Gu Shaoyang took action boldly, and a purple sword light like an angry dragon roared out and struck hard on the crystal jade pillar.

Suddenly, the crystal jade pillar was so bright that seven or eight squares of it jumped up like crazy. jumped to the 78th frame before stopping.

"I'll go."

The onlookers were all startled.

They looked at Gu Shaoyang in a daze, their brains a little unable to react.

This ordinary inner sect disciple who was wearing green clothes and didn't look strange, managed to squeeze into the top ten with just a single move.

Did you make a mistake? But before they came to their senses, Gu Shaoyang was already preparing to take action for the second time.

Gu Shaoyang's whole body momentum suddenly shrank, all his energy and energy were concentrated in the scabbard, his eyes were as bright as stars.

Then , suddenly took action!

In an instant, the sun and moon rose from behind Gu Shaoyang, and the light of the morning and the bright moon bloomed in his sword.

Then all these visions were sucked back by an inexplicable force, and they all returned to the sword above the tip

"clang!"

The tip of the sword collided with the jade pillar, and the clear and sweet sound was like the jingling of gold and jade.

The next moment, everyone exclaimed and narrowed their eyes.

Because the light that the jade pillar bloomed in that moment was so powerful, so powerful. It's hard for them to open their eyes...\_

## Chapter 177

When the onlookers gradually got used to the light of the jade pillar, they tried to open their eyes and saw clearly the number of grids on the jade pillar, and they were all stunned.

Seventy squares, eighty squares, ninety squares...

This section almost always jumps up ten squares. When it reaches the ninety mark, the light beam gradually slows down.

Ninety-one, ninety-two, ninety-three...

The beam of light slowly but firmly climbed upward, one by one.

The hearts of the disciples who were watching were also rising little by little.

Until, at the ninety-seventh square, the light pillar finally stopped moving.

The hearts of the disciples watching suddenly rose to the extreme, and they stopped motionless.

The scene was eerily quiet, and the atmosphere seemed suffocating.

Ninety-seven squares... a total of ninety-seven squares!

The jade pillars glowed all over, and the grids that had never been lit up were also lit up, almost all of them were filled.

Shining and radiant.

Everyone was as if they were in a dream, their minds went blank, and they forgot where they were and what they were doing.

Gu Shaoyang was the only one who slowly sheathed his sword, looked at the jade pillar, and frowned slightly as he looked at the top three unlit squares.

The limit of the spinning core has not been reached, and there is still room for improvement in attack power. If he is now at the stage where he can break the divine sea, he should be able to completely light up the jade pillar.

However, since the record has been broken, there is no need to demand perfection.

Gu Shaoyang woke up the test disciples who were in great shock, received a reward of one thousand top grade Yuan stones and left quietly.

After half a stick of incense, the disciples gathered around the crystal jade pillar woke up as if from a dream.

The light on the jade pillar had long since faded and become dim again, but the new record that appeared on the performance list shocked them again.

"Gu Shaoyang, a disciple in Tsing Yi, with a score of ninety-seven"

"hiss.."

"Who is Gu Shaoyang?! This monster came out of nowhere!"

"Ninety-seven grids, this attack method has probably reached the level of the Divine Sea Realm, right?!"

"Oh my god..crazy.."

Each of the disciples looked crazy, unable to express the horror and shock in their hearts in words. They could only ask over and over again the identity of the disciple who broke the record with his sword. When they learned that he had left long ago, they all felt disappointed.

"Is it a physical examination project?"

Gu Shaoyang came to the test project with only a few onlookers this time.

To be honest, although he was aiming to earn Yuan Stone, after two tests, he also had the idea of testing the limits of his strength.

His trump card was too Many, they are as powerful as monsters in all aspects. Sometimes even I don't know what level my strength has reached. The

Hanghai Sect's test project provided Gu Shaoyang with a good reference standard.

"How is this project tested?"

"First time here? The disciple in charge of the body test gave Gu Shaoyang a strange look and explained casually:"It's actually very simple. Just enter, find the target object and then come out. The shorter the time, the better." The target is the little flag in my hand.."

The disciple in charge took out a small flag that glowed with azure blue, pointed at the small door behind him, and reminded:"There is a maze inside, and the target will be randomly refreshed in any

position deep in the maze. But you have to be careful. There are a lot of traps in the maze, and lurking puppets, monsters, and even powerful disciples are trying to stop you...

Since this is your first time participating, I would like to say one more thing, don't get entangled with them for too long, otherwise it will be very difficult. Trouble, it's just wishful thinking to get good grades..."

Gu Shaoyang nodded, thanked the disciple in charge, and then handed over the token.

He looked up at the grade list next to him, "Is the grade three and one-third the time it takes to burn incense?".."

The disciple in charge said: "What you have achieved is the best result ever. Every time you participate in the test, you have three chances. If you want to participate again, you have to wait for a month... I suggest you don't be quick and figure out the maze first." Say it again.."

"clear."

Gu Shaoyang responded and rushed into the maze.

The disciple in charge lit up a stick of time incense and waited boredly.

The movement test was a bit boring. After all, people outside couldn't see the specific situation inside, so the onlookers couldn't see it either. Many.

One stick of incense burned out quickly.

He lit the second stick.

Then the third stick.

When the disciple in charge started to light the fourth stick of incense, a figure suddenly appeared in front of him.

"alright."

Gu Shaoyang calmly handed a blue flag to the disciple in charge.

"Oh, okay, let me register the results for you.."

The disciple in charge subconsciously answered, but suddenly reacted suddenly and screamed in disbelief:"What?! You are fine! How long has it been? How could you be fine?".."

"Only...just...just three sticks of incense have passed."

The disciple in charge stammered and said in disbelief.

Three sticks of incense have already broken the record.

And the guy in front of me is taking part in the maze movement test for the first time!

Gu Shaoyang muttered:"It's a bit unfamiliar for the first time. , I took a wrong path, it was indeed a bit slow... It should be much better the second time."

"What did you say? The disciple in charge was dumbfounded, fearing that he heard wrongly,"A little slow... too slow?"

"Here I go again."

Gu Shaoyang dropped a word, turned around and rushed into the small door.

The disciple in charge still stood there dumbly, murmuring continuously:"The first time... three sticks of incense... the first time... three sticks of incense..."

I don't know how long it took, but the disciple in charge reacted like he was waking up from a dream:"I'm going, I forgot to time it." He hurriedly lit a stick of incense. Just after the incense was half burned, Gu Shaoyang's figure appeared again, clutching his hand. with a familiar blue flag.

The disciple in charge was startled, "You came out again?!"

"How long did it take this time?"

Gu Shaoyang asked

"Use time..Use time.."

The disciple in charge was hesitant and speechless. He was a little embarrassed. He simply forgot to time the clock.

Gu Shaoyang frowned slightly and said, "It doesn't matter, I'll try again. I hope you won't make any mistakes this time.""

"Uh-huh."

The disciple in charge nodded hurriedly, watching Gu Shaoyang enter for the third time, and then accurately lit the incense.

The first incense was almost burned out, and the disciple in charge was about to light the second one.

Suddenly..

"Uh-huh!"

A figure appeared in front of him like a ghost, holding a small flag in his hand.

"This time, how much? The disciple in charge was confused.

He looked at Gu Shaoyang, pointed at the time incense and replied unconsciously: "One stick of incense breaks the record.""

"good."

Gu Shaoyang showed a smile on his face, "Then please give me the reward."

"Okay, this is your reward. You can receive one thousand top grade Yuan stones. Keep it."

"Thanks."

Gu Shaoyang turned around and left.

The disciple in charge finished all this as if he was sleepwalking. When Gu Shaoyang's back disappeared, he started shouting like crazy.

"Oh My God! This guy... This guy completed the maze in just one stick of incense! It's more than twice as fast as the previous best result.. Be a pervert or a monster..."

"Let me see what your name is!"

"Gu Shaoyang!"

"No, I have to tell others the news quickly. It's big news, big news! Another monster is born."

Gu Shaoyang didn't know how much shock he had caused to a certain poor disciple in charge.

His speed was extremely abnormal, and his dragon shape increased and shrunk to inches, and even the powerful people in the Divine Sea Realm wanted to chase him. It was a bit difficult for him to climb up.

In addition, as soon as he entered the maze, he dispersed his powerful soul power. After scanning the maze, a virtual map automatically appeared in his mind. The route was clearly planned from the beginning.

For ordinary people For a disciple of Xuan Dan, the maze with repeated twists and turns is no different from walking on a straight path. The last test was quite lucky, the blue flag was refreshed in a place very close to him, and it took the shortest time.

This is why it is so big sensation

"I broke three records in a row. I think it will definitely cause a huge sensation in the inner gate. When the time comes, many people will get wind of it and come to watch, which will cause unnecessary trouble and waste a lot of my time..."

Gu Shaoyang thought about it in his mind and said to himself:"It seems that I have to speed up. Before this shock subsides, I must collect 10,000 top-grade Yuan stones as soon as possible.".."

## Chapter 178

Gu Shaoyang began to look for unpopular test projects that did not have many people watching to challenge.

Generally speaking, the difficulty of this kind of test is relatively high and difficult to break through, so most disciples will not try it again for a second time unless they have made a major breakthrough in their own strength.

""Rolling Gold" is such a project

"I can actually see the disciples in blue.."

It is rare to see four or five disciples in blue gathered together.

Gu Shaoyang narrowed his eyes slightly, raised his feet and walked up

"Brother Duan's Tiansha Gang Body is becoming more and more powerful. He has already knocked down more than 300 black gold nuggets!"

"Brother Duan is awesome! It seems that there is no pressure at all for Brother Duan to break through 400 this time. This time, it is Brother Duan and I's turn to win this bet! Ha ha.."

"Hey, I wouldn't have bet with you if I had known better. I've had five guests at Cooking House this month, and all my hard-earned savings have been plundered by you guys."

"Haha, Junior Brother Lu, follow me and Brother Duan next time and just keep it safe and you won't lose!"

Several blue-clothed disciples, each with a powerful aura, almost all of their cultivation level is half a step into the divine sea. They are looking at one person while sighing and talking and laughing with each other.

Gu Shaoyang looked towards the challenger.

It was a man with a bare upper body and muscles all over his body. A tough man made of steel and exuding a faint black sheen.

In front of this man, black-gold iron blocks the size of a man's head kept shooting towards him like cannonballs. The tough man's face was expressionless, and his eyes were like rocks. His fists and kicks were thrown out, causing a sharp roar in the air. His fists and feet were like indestructible treasures, unparalleled.

He knocked the black gold and iron pieces away piece by piece, smashing them on the ground and smashing them into pieces. Pit.

Gu Shaoyang looked at it for a while, with slight surprise in his eyes.

"Each of this man's attacks is comparable to about 80% of the power of the late-stage Xuan Dan. Moreover, the angles at which these black gold iron blocks appear are becoming more and more cunning, their numbers are increasing, and their difficulty is also increasing exponentially..."

Gu Shaoyang thought to himself: "This rolling gold should test the disciple's reaction ability, shooting speed and ability to continue fighting. It will also test the recovery speed of Yuanli to a certain extent..."

Just as he was thinking about it, the man who challenged him had already shot down a total of four hundred pieces of black gold and iron.

At this time, the number of black gold iron blocks that appeared at the same time reached more than ten, attacking the man's hands, feet, chest, abdomen, vagina, throat and other various locations.

Each piece of black gold and iron packs a considerable impact, which requires at least 80% of the power of the late-stage Xuan Dan to withstand it.

Ten blocks attacking at the same time means that the challenger has to hit ten attacks with no less than 80% of the strength of the late stage Xuan Dan in a very short period of time in order to pass.

Under this round, not only the tough man who was in the challenge, but also the disciples who were watching felt the pressure, their faces were solemn, and they stopped talking one after another.

"drink!"

The tough man shouted low, and more black light bloomed on his body. His legs were like spears, and his fists were like dragons. He launched seven or eight attacks in an instant.

"Bang bang bang.."

The black gold iron blocks aimed at his throat, vagina, lower abdomen and other key points were struck by him one by one, but he reached his limit. Two black gold iron blocks were unable to stop him, and he watched helplessly as they hit his chest and thighs.

Suddenly he groaned and fell back.

"Brother Duan!"

"Brother Duan, are you okay?"

The blue-clothed disciples who came with him immediately gathered around and asked with concern.

The stubborn man shook his head, relaxed his body, and said with a wry smile:"After the four hundred mark, although the number of black gold iron blocks that appear in each round is only Two

pieces more, but the pressure has more than doubled. It seems that I won't be able to break through this limit unless I enter the divine sea or make another breakthrough with the Black Evil Gang Body..."

"well.."

The stubborn man exhaled a breath and sighed:"I really don't know how Yan Xinyu managed to get six hundred yuan in the first place..."

The others immediately comforted them:"Brother Duan, please don't belittle yourself. Yan Xinyu has the appearance of a true dragon, and he has condensed a first-grade heavenly elixir. When he was still in the inner sect, he overpowered his peers and did countless evil things." He entered the core and climbed to the third position in just three years. Even Elder Wu of Tianxing Peak accepted him as his disciple, calling him the most promising person to become the eldest son of my Hanhai Sect... You and I are both ordinary geniuses. Compared with that kind of monster?.."

"that is.."

Someone next to him laughed and said:"Anyway, brother Duan, you are already the most outstanding existence among us. Di Ming, who made a lot of noise some time ago, claims to have the power of seven dragons and is expected to defeat Yan Xinyu before the sea of gods." The strength test record... In fact, none of us know clearly that Di Ming can't even survive fifty moves under you, Brother Duan. He just has a brute strength for nothing..."

"Junior Brother Lu is absolutely right, Brother Duan is the number one body refiner in my inner sect..."

A group of people said something to each other, and the tough man's face looked much better.

Someone was booing, "Okay, today to celebrate Brother Duan's breakthrough in making money, and because some people lost a bet, we're going to the Cooking House to have a good drink, and we won't come back until we're drunk!"

"Right, that's right.."

Several people were laughing and about to leave with Duan Hongtian surrounded.

At this time, Gu Shaoyang, who had been feeling confident after watching for a while, stepped forward, handed the identity token to the disciple in charge, and said, "I want to take part in the test."

Duan Hongtian suddenly stopped and looked in the direction of Gu Shaoyang go

"What's wrong with Brother Duan?"

The rest of the people followed his gaze and asked doubtfully: "A little Tsing Yi, what's so good about him?" Duan

Hongtian showed a hint of interest on his face and explained: "Except for a few of us, few people from Gunliujin participate in the test on weekdays." I feel that this person has strong blood, and his physical training strength may not be weak. He is worth watching...

"Good physical training strength?"

Several blue-clothed disciples blinked, with some strange looks on their faces.

"Brother Duan, don't be joking. This man is handsome and slender. He doesn't look like he's doing physical training..."

"Yes, and I think he seems to have a very sharp aura in his body, he should be a swordsman."

"Is it a sword cultivator?! Duan

Hongtian's eyes lit up, his smile became even stronger, and he said, "Then we should take a look.""

Seeing that he insisted on doing this, the others had no choice but to follow him and stay to watch.

"It's time to start."

Gu Shaoyang stood in front of a blank wall and said calmly to the disciple in charge.

After a while, many hidden grids will appear in this wall, and from each hidden grid, menacing black gold and iron blocks may fly out.

The disciple in charge signaled Received it, and then shot a ray of light towards the wall.

Immediately afterwards, the wall melted like water, and countless hidden grids were revealed.

"Whizzing.."

Gu Shaoyang's pupils shrank, he concentrated, and his soul power spread out like water.

As soon as the two black gold iron blocks flew out of the hidden grid, they were cut in half and fell to the ground.

"So fast!"

Duan Hongtian and a group of disciples in blue looked startled, with surprise flashing across their faces.

"I didn't see clearly when he drew his sword?!"

"His reflexes were also terrible. The black gold iron block was chopped off as soon as it appeared."

"interesting.."

Duan Hongtian nodded slightly and said in a deep voice:"However, sword cultivators have always been known for their sharpness and swiftness. They follow a fast, ruthless and accurate path, and their lethality is amazing. It's just that they don't have enough endurance, and it will be difficult to continue after the explosion. I don't know what is going on with this person..."

Chapter 179

There were only two black gold iron blocks flying out from the dark grid at the beginning in each round, which was very easy for Gu Shaoyang.

But his sword draw was not as fast as the first time, but became smoother, and others could see the light of his sword clearly.

"No wonder this person is just a Qing Yi, and his successors are too weak..."

A disciple in blue shook his head in disappointment.

Someone laughed and said:"With one drum, the momentum is like a tiger, then it fades, and then it stops... Except for the top sword cultivators, this is the case for most sword cultivators..."

"No!

Duan Hongtian shook his head and said in a deep voice:"Didn't you notice that he was adjusting?""

"Adjustment?!"

The rest of the people were stunned for a moment, and continued to look at the man in green clothes in front of them.

Sure enough, they found that Gu Shaoyang's sword was still fast, ruthless, and accurate. Although the power of the sword light was constantly decreasing, his aura was not disordered from beginning to end. Duan

Hongtian's eyes flashed, and he said word by word:"He is adjusting the power used with each sword, trying to cut through the black gold and iron blocks without wasting any energy..."

Just as Duan Hongtian said, Gu Shaoyang was indeed adjusting the strength of each sword strike.

Although he could see the power Duan Hongtian used in every move he challenged before, he was using a sword, and the way he broke the black iron blocks was different from Duan Hongtian's, and the subtleties still needed to be adjusted.

Soon, Gu Shaoyang's sword light became completely stable, and his moves became more smooth and smooth.

"horrible! Duan Hongtian said in a deep voice:"

If this person is challenging Gunliujin for the first time, then his control over Yuanli and his own power is really terrible... I counted, and after he came to the second At the time of the twelve swords, he had already adjusted the sword light to a perfect level. One point more would be a waste, and one point less would not be able to cut through the mysterious gold block, which would hinder the sword's power.

He had completely found himself. The pace of clearance!"

"Rhythm!

The others whispered in confusion,"What is rhythm?!" Duan

Hongtian looked at a few people and explained:"This is actually the trick of rolling gold that I have been telling you about." Facing black gold and iron pieces flying from nowhere is like fighting against a master. If you can find your own rhythm, you can use the least amount of energy to achieve the greatest attack effect, and the length of time you can persist in this level is also the same. The longer. If you fall into the rhythm of black gold and iron, you will definitely get twice the result with half the effort, cause chaos and chaos, and you will be defeated sooner or later..."

Duan Hongtian sighed:"I only realized this after challenging Gunliujin for the thirteenth time. I didn't expect that this man could grasp the gap between people in just twenty-two sword strikes. Seriously. Huge.."

Others consoled him:"Perhaps Brother Duan is overthinking. Maybe this is not the first time that this person has come to challenge Gunliujin.".."

"Will not.."

Duan Hongtian shook his head and said:"You are all half-step warriors of the Divine Sea. Can't you see this? This person's unfamiliarity at the beginning is indeed a novice, and I can feel that his combat intuition is frighteningly high...."

Several people were silent, and suddenly someone whispered: "Let me go, this Qingyi has broken through the two hundred yuan barrier!" At this time, the black iron blocks shot out from the hidden grid on the wall reached six yuan in each round, but Gu Shaoyang His expression is still relaxed.

Because he was already familiar with the trick of Rolling Gold, the angle was tricky, but his soul power spread all over the place and he could immediately detect the appearance of the black gold iron piece.

Then he found the smoothest and most labor-saving way and cut all six pieces of mysterious gold in half with one sword.

Moreover, there will be a few breaths between the appearance of the black gold iron block in each round. The flawless sword pill in the dantian rotates rapidly, and each breath can swallow a large amount of Yuan. It restores the Yuan power consumed by Gu Shaoyang in the process of drawing the sword.

Although it cannot reach a perfect state of no consumption, Gu Shaoyang's actual consumption is much smaller than others imagine.

The sword light was like a dragon, drawing gorgeous tracks one after another in the void.

Soon, the 400th black gold iron block was also chopped down by Gu Shaoyang. The next moment, the number of black gold iron blocks in each round increased again, reaching ten blocks.

"Go ahead, this guy is really amazing!"

The blue-clothed disciples who were watching marveled: "It's almost approaching Brother Duan's score, and his aura is still long, and his sword is steady and powerful. Obviously he still has some leftover power. This person's level of Xuandan must not be low. With such strength, how can he still be a disciple in Tsing Yi?.."

"yes!"

Someone echoed: "I am half a step into Shenhai, but when I approach 400 yuan, I am very strenuous. This talent is in the late stage of Dan Dan, but he doesn't feel tired at all. He is really a monster..."

"Has he never participated in the Shengyi Conference? This Qingyi really wants to embarrass me!"

"Maybe you are just getting started."

A few people were talking about it, but Duan Hongtian said nothing and stared at Gu Shaoyang.

He fell in the first round after the four hundred mark. He wanted to see how Gu Shaoyang broke through.

Ten pieces of black gold The iron blocks formed a large net, covering almost all the vital parts of Gu Shaoyang's body.

However, Gu Shaoyang was unhurried and unsheathed the Shadow Bearing Sword, drawing a brilliant sword light in the void and quickly passing by ten pieces of black iron..

Then, she sheathed the sword.

The twenty evenly divided black gold iron blocks fell to the ground.

Duan Hongtian's pupils tightened, looking at Gu Shaoyang's calm expression, he whispered in his heart, "So easy?!"

Gu Shaoyang's eyes were bright, and he swayed out one after another with sword light that was as bright as meteors, and sliced the black iron block in front of him flatly.

Now that he has passed through the level, he can't help but gradually become more interested.

"No one cares about this rolling gold, but it is actually the most beneficial challenge I have encountered along the way.

High-intensity attacks, as well as control of my own strength, make my heart and hands unite, and my hands and swords unite. This time I use the sword every time, it's like a sledgehammer is constantly strengthening my foundation.

Moreover, as I draw the sword again and again, some cumbersome and useless movements in my sword moves are constantly being eliminated. The speed of the sword draw is getting faster and faster, and the strikes are becoming more and more concise..."

Not only that, Gu Shaoyang also felt the many wonderful effects brought by the strong soul power.

For ordinary Xuandan warriors, facing so many black gold blocks attacking together, they may be frightened at the first moment, and even if they are in trouble, they will be panicked for a moment.

And Gu Shaoyang had the help of his soul power to lock the positions of the black gold and iron blocks from the moment they appeared.

When the black gold iron block reaches the range of his sword, the best sequence of attacks has already been planned, which will save a lot of waste of energy and energy.

When Gu Shaoyang shot down another round of black gold iron blocks, his mind suddenly moved and he found fourteen black gold iron blocks flying out suddenly.

He was slightly startled.

Have you crossed the 500 mark without realizing it?

Gu Shaoyang's eyes showed faint excitement, and he drew his sword out of its sheath: Well done!

"Let me go, I really broke through the 500 mark!"

Duan Hongtian and his group kept shouting in exclamation, looking at the green figure in front of them with a trace of admiration on their faces.

"It's amazing. I, Lu Shang, am convinced that Xuan Dan can reach this stage in the later stage!"

"It's really amazing, but after five hundred, the difficulty increases a lot. There are four more black iron blocks at once. This person is afraid that he will stop here."

"What does Brother Duan think? Duan Hongtian nodded slightly and said in a deep voice:"

I guess he may fail at the 600 level, but he is still very strong. If he breaks through the half-step divine sea, he might be able to break Yan Xinyu's record.""

"right!"

A disciple in blue couldn't help but said:"I, Lu Shang, must make friends with such talented people who may be on par with Yan Xinyu."

"That's right, when he stepped back, we immediately went up to talk to him."

The group of people were discussing excitedly when suddenly someone's eyes widened and he whispered:"Look, he... his sword seems to have become sharper!"

Everyone subconsciously turned around and saw that facing fourteen menacing black gold and iron blocks, Gu Shaoyang's sword light seemed smoother....

## Chapter 180

In the eyes of Duan Hongtian and others, Gu Shaoyang's aura seemed to become more condensed, and his sword draw speed became faster, but he still showed a posture of ease.

In fact, the trajectory of his sword that cut down fourteen pieces of black gold and iron became smoother and more harmonious.

Just like a silver-hook stylus hooking up fourteen morning stars under the blue night.

Gorgeous, magnificent, with a dazzling beauty.

Duan Hongtian and the others were stunned. They had never seen someone break through the level of flowing gold so...with a sense of beauty?!

Gu Shaoyang's relaxed and freehand state does not look like he is facing the challenge of the torrent of black gold, but like a master of painting using a sword as a pen and splashing ink wantonly.

Indescribable flowing clouds and flowing water, completely natural

"hiss.."

Duan Hongtian took a breath and said in shock:"With this sword skill alone, this man is enough to dominate the inner sect... No one I have seen who uses a sword can match him!"

"Horrible!"

Several people marveled again and again, staring intently at the sound of Gu Shaoyang drawing his sword without saying a word.

Gu Shaoyang fell into a very strange state.

After five hundred pieces of black gold and iron, he realized a problem.

His The speed of the sword, the technique of the sword, etc. have all reached a level of perfection. Not to mention fourteen dollars at the same time, even if it is forty dollars, for him it is just a matter of using a little more force.

However, the problem lies in Yuan Above the power.

He broke three test records non-stop, and with the previous five hundred black gold and iron blocks chopped down, even though it was a top-grade Tiandan, Gu Shaoyang also felt a sense of emptiness.

More than half of the sword elixir's energy was consumed, and he If he wants to break this record of flowing gold again, he must save his energy, otherwise it will be difficult to sustain his strength.

With a thought in his mind, Gu Shaoyang activated his "breaking illusion" ability in front of the black gold iron block.

Dark eyes His eyes turned silvery white, and in an instant, another world appeared in front of Gu Shaoyang.

Silver-white lines of different shades appeared on the black gold iron block.

Gu Shaoyang tried to draw along one of the lines with his sword.

The black gold iron block was very easy. The ground was cut open, and the power used was less than half of the previous one.

Gu Shaoyang was shocked.

Then he was delighted.

It turns out that this is the real use of "Breaking Delirium" after being upgraded with space attributes.

You can get a glimpse of the weakness of something, reaching The abnormal effect of killing with one strike.

In other words, it can no longer be called "breaking the illusion". Gu Shaoyang named this ability "Eye of Peeping Truth".

With the blessing of "Eye of Peeping Truth", Gu Shaoyang's swordsmanship is undoubtedly smoother. After reaching a higher level, although the number of black gold iron blocks in each round increased, the amount of Yuan Power he consumed decreased.

Gu Shaoyang even had bigger ideas in his mind.

Since the "eye of truth" can see the black gold iron blocks If you can detect the weaknesses in other people's moves, or even the life gate of a body-refining warrior!

If this ability is continuously enhanced by using the attributes of space, the potential is simply unlimited, and sooner or later it will become one of your own trump cards.

Five hundred and forty-four black gold iron blocks, five hundred and seventy-two black gold iron blocks...

Six hundred blocks

, the six hundred mark was broken instantly.

Duan Hongtian and others' pupils suddenly tightened, and they whispered: "Yan Xinyu was breaking through at that time. If you lose instantly after the 600 mark, now is the key.."

"But no matter what, this person is already infinitely close to Yan Xinyu... Moreover, his cultivation level is only in the late stage of Xuan Dan. To a certain extent, he is more powerful than Yan Xinyu."

"Oh My God! At the same time, there are six more black gold iron blocks in each round!"

"Twenty bucks!"

Duan Hongtian looked at the black gold and iron blocks pouring in from all directions. Even if the challenger was not him, the spectators could feel a suffocating pressure. The challenger was equivalent to having to deal with twenty late-stage spinning pills at the same time. Offensive attacks from left to right.

Moreover, after a series of high-intensity and high-pressure responses, both physical and mental body and spirit have already felt a great sense of slackness and fatigue.

Just like a bowstring that is stretched to the extreme, maybe just one more string at this time. If the pressure is too much, it will be the last straw that breaks the camel's back and suddenly collapse.

However, he saw that the windless green clothes and the handsome and cold side face faced the surging tide of black gold and iron. There was no panic, but a smile appeared at the corner of his mouth.

Gu Shaoyang's eyes were very bright, like stars in the sky.

He was filled with extremely fierce fighting spirit, his blood was hot, he was excited and looking forward to it..

"Interesting, I haven't felt such breathless pressure for a long time..."

Gu Shaoyang murmured and drew his sword boldly.

Duan Hongtian and others all held their breaths, watching in disbelief as the sword light, which looked like a spiritual snake in the void, swam and cut through the black gold and iron blocks.

For a moment, a glimmer of understanding arose in their hearts.

Perhaps, this is the real gap between them and talented people like Yan Xinyu.

Facing insurmountable and insurmountable difficulties and challenges, they will feel despair and collapse.

And some people... they get even more excited!

Gu Shaoyang continued to increase the speed of his attacks, and his hands and sword became a phantom in the void.

Those black gold and iron blocks shot out wildly at an unimaginable high frequency, and then were cut and fell down at a faster speed.

From the perspective of Duan Hongtian and others, it looked like a surging black-gold torrent gushing out from the hidden grid on the wall.

And what Gu Shaoyang is doing now is to cut off this torrent with a single sword.

Everyone's black gold and iron blocks fell helplessly when they came within three feet of him.

Duan Hongtian now finally knows why this challenge is called Rolling Gold?

This is the real flowing gold, the mysterious gold is like a torrent, rolling down to the sky!

Shocking!

An unspeakably shocking scene.

Not only Duan Hongtian and others, but also the disciple in charge of Rolling Gold were completely stunned.

His eyes were sore and his mind was confused. He could only remember counting.

"Seven hundred six...seven hundred eight.."

"Eight hundred and four...eight hundred and eight.."

After the eight hundred mark, the black gold iron blocks shot out in each round were as high as forty pieces, which could be piled up into a hill and completely submerge Gu Shaoyang.

But the man in green clothes stood firm, his sword shining as bright as before.

Finally, there was a slight muffled sound in the torrent of black gold.

Wearing a green shirt, he flew back in a slightly embarrassed state. The pale-faced Gu Shaoyang was leaning on the ground with his sword, looking like his energy had been exhausted.

He could still continue to challenge, but his energy was exhausted and there was no way... the torrent of black gold finally stopped.

The ground was covered with broken pieces of dark gold and iron, paved with dark gold.

The disciple in charge swallowed hard and stammered: "The final result is nine...nine hundred and thirty-seven yuan!"

"hiss.."

Duan Hongtian and others took a deep breath, almost numb from the shock.

It is more than three hundred yuan higher than the best result set by Yan Xinyu in Half-Step Divine Sea! fear! evildoer!

When they looked at Gu Shaoyang in front of them, their eyes slowly changed from admiration to awe!

There is no doubt that those who can achieve such results in the rolling gold will never be their opponents.

The opponent's sword is too terrifying. Maybe with just a few moves, they will be defeated by it.

And for such a peerless evildoer, he is still wearing Tsing Yi, which is simply the most ridiculous thing in the world!

Gu Shaoyang sat down cross-legged, and the dim sword pill quickly rotated, slowly restoring the lost energy.

Suddenly, several figures appeared in front of him, respectful and awe-inspiring, and awe-inspiring with a hint of flattery.

"This... senior brother, we have a good rejuvenating elixir. If you don't mind it, feel free to use it!"

Duan Hongtian and others almost all have several small jade bottles. The jade bottles are full of high-quality Qi-restoring pills that they are usually reluctant to use, but now they generously took them out. The disciple in charge on the side was registering the results for Gu Shaoyang, and his expression was I thought complicatedly, four or five men in blue clothes called one man in green clothes a senior brother, this is the first time I have seen this scene...
