Chapter 1781

After Sun Yulan said this, she was so sad that she couldn't help herself. She burst into tears, remembering the events of her childhood, and felt that Lord Ouyang Xinde and his wife had died unjustly. Her life and the lives of other peers in the Xuanwu Sect were saved by Ouyang Xinde and Wen Wanying. But facing the pain Ouyang Xinde and Wen Wanying experienced, they had no way to alleviate it, and they couldn't even avenge them after their deaths. After so many years, no one in the Xuanwu Sect even knew who killed Ouyang Xinde and Wen Wanying.

When she thought of this, she couldn't control her emotions and burst into tears. Seeing this scene, Ouyang Zhengxiong, Gu Shaoyang and Li Haotian didn't know what to do. Ouyang Zhengxiong quickly stepped forward to comfort him: "Dad and mother just went to another world. Maybe there are people in the other world who need their rescue? Although I am also sad that father and mother left me and ran away, but I think living people should live seriously for them and feel the beauty of this world seriously, which is a kind of respect for them, so that they will feel at ease when they see us in another world!"

Sun Yulan heard Ouyang Zhengxiong comforted him, and his heart warmed. Is there really another world where Ouyang Xinde and Wen Wanying can continue to live seriously?

Sun Yulan gradually calmed down under the comfort of Ouyang Zhengxiong, and then asked Li Haotian, Gu Shaoyang and Ouyang Zhengxiong: "Where are we going next? If we are going to find the truth about the kidnapping of boys and girls, do you have any clues?"

"When they heard about the kidnapping case of boys and girls, Li Haotian and Gu Shaoyang slapped their thighs and said, "Oops, we wanted to leave an obedient young man as our guide, but we didn't expect you to kill them all. We wanted to let him take us there. Probably all the boys and girls between the ages of eight and twelve who have been kidnapped from various places will be sent to the headquarters! I wonder what those people are going to do to these boys and girls?"

Sun Yulan smiled awkwardly when she heard what they said. He smiled and replied very embarrassedly: "I'm really sorry. We thought that you really didn't have the ability to resist. Those little minions who escorted you, I thought they were about to attack you, so we took action. Rescue me."

Ouyang Zhengxiong said innocently: "I think you did the right thing. We really don't have the ability to resist those who escorted us. Brother Haotian and Brother Shaoyang have tried their best to

protect me but they were insulted by them. ? So thank you very much for killing them all. Why did you say you were sorry to us? This sounds very strange."

After listening to Ouyang Zhengxiong's strange speech, Li Haotian silently held his forehead and secretly cursed in his heart:" It turns out that the play between himself and Gu Shaoyang was too real, right? This stupid kid still hasn't discovered that the two of them deliberately hid their strength and wanted the minions who escorted them to take them to the headquarters. Unfortunately, it was self-defeating and became Now this is the situation."

Li Haotian turned to Gu Shaoyang and asked:"Brother Shaoyang, what should we do now? The clue seems to have been suddenly interrupted again?"

After listening to Li Haotian's words, Gu Shaoyang also frowned. He thought for a while and then replied Li Haotian said:"The effects of Ouyang Zhengxiong's medicine have not completely passed, and his body has not fully recovered. Otherwise, the four of us should find a safer place first and adjust our condition before making plans.""

Li Haotian nodded, indicating that he could accept this arrangement, so he turned to Ouyang Zhengxiong and Sun Yulan for their opinions. Both said that this arrangement was very reasonable, and they should first find a safe place to adjust their status.

So a group of four people hurriedly started looking for a nearby inn or cottage. The sky was getting dark, and the four of them had not eaten yet, so they chose to rest in a nearby open space for a while. Ouyang Zhengxiong and Sun Yulan went out to look for dry branches, while Li Haotian and Gu Shaoyang went out to look for wild fruits and game to fill their stomachs.

When Li Haotian and Gu Shaoyang were chasing a big wild rabbit, they discovered a river. So Li Haotian said to Gu Shaoyang with a smile:"Brother Shaoyang, let's have an extra meal today, grilled fish!" Gu Shaoyang replied with a smile:"Then it depends on who catches the fish first today." The two of them They found a suitable branch on the shore and sharpened one end of the branch. Then the two of them aimed at the opportunity and inserted the branch into the body of the fish. Li Haotian had quick eyes and quick hands and caught the fish before Gu Shaoyang. Li Haotian laughed. He laughed at Gu Shaoyang:"Brother Shaoyang, your skills are not very good. Then you will be responsible for handling these fish and game tonight. I will just be an idler today." So the two of them took the trophies back to them to rest. At this place, Ouyang Zhengxiong and Sun Yulan had already cut the branches and lit a fire. When they came back, Li Haotian saw this scene and suddenly said with emotion:"These children have really grown up."

Everyone knows that their future will be difficult, but everyone chooses to live the life in front of them seriously and treat every day in the future with heart. Li Haotian and Gu Shaoyang believe that the first criterion for a serious life is to take every meal seriously, because food is the most important thing for people, and food can heal a person's tired body and mind when they are sad.

When they encounter an unexpected accident and really have no way to eat on time, it means that their life is chaotic. But now they have enough time and energy to deal with food, which will give them a spontaneous sense of happiness. Just like Ouyang Zhengxiong, his most profound memory of treating his father and mother is the scene of the family eating together, so many times, food carries a person's best memories.

The four people quickly dealt with the game that Li Haotian and Gu Shaoyang brought back. Sun Yulan chose to eat some wild fruits to fill her stomach first. Like other girls, Sun Yulan also liked to eat sour and sweet preserved fruits. It's just that she didn't have the conditions for this choice before, so now she can show her girlishness unscrupulously in a relaxed environment. After the four of them had a simple dinner, they looked for a higher, dry and flat open space. The three of them planned to rest here for the night. It was still arranged that Li Haotian and Gu Shaoyang take turns to stay on duty at night to prevent the four of them from falling into a deep sleep and causing accidents. Fortunately, the four of them spent the night together peacefully.

It was daybreak, and the warm sunshine shone on the faces of the four people, which was very pleasant. Li Haotian thought: "If everyone didn't shoulder such a heavy mission, it would be so pleasant to stop and stop along the way to see the great rivers and mountains of the motherland."

But the reality is that the four of them set out on the road together, looking for the people who are with Jiang. Clues about the family. When they reached a bustling town, it happened to be getting late, so the four of them planned to rest here. Li Haotian called the waiter and asked if there were any free rooms. The waiter threw the towel over his shoulder and replied enthusiastically: "Sir, don't worry, we still have many guest rooms. How many guest rooms do you four plan to ask for?"

Li Haotian and Gu Shaoyang thought for a while and replied. : "Just three guest rooms. If you live here well, we will choose to rent them for a few days."

After hearing this, the waiter happily took the four of them to the guest room to rest. Li Haotian and Gu Shaoyang planned to stay in the same guest room because they still needed to discuss the matter of Jiang's kidnapping of the boys and girls.

Currently, their investigation into the kidnapping case of a boy and girl has entered a bottleneck period, and the clues have been completely interrupted. So now I don't know what to do, so Li

Haotian said to Gu Shaoyang: "Since there is no way at the moment, let's think about nothing for the time being and just rest for a few days."

They simply tidied up, and it was evening in a blink of an eye. Li Haotian and Gu Shaoyang also planned to take them out for a walk and see the nearby market. See if there is anything you need, or if there are any new gadgets, buy them for these two children. But the strange thing is that the sun has just gone down and the shopkeepers have closed the doors of their shops.

Even the inn where they stayed was no exception. When they were about to go out, the waiter looked at the four of them nervously and told them that if they went out at night, the inn would not open the door when they came back. Therefore, if several guests go out, they cannot come back to stay at night.

Li Haotian and Gu Shaoyang thought this request was very strange, so they expressed their doubts: "Why did you close your doors and stop doing business just after the sun went down? Shouldn't there be those bustling markets in your town? Logically speaking, there should be a lot of people coming to stay at the hotel at night. Why don't you even do business?"

After hearing this, the waiter told Li Haotian and Gu Shaoyang with a bitter look on his face: "The guest officer doesn't know something. There have been a lot of weird things happening in the place recently. At night, there are sounds similar to wild beasts roaming the streets, and no one dares to go out to see what happened. Because those who went out to see what happened never came back after going out. Before Many young and middle-aged people went out to check the situation after hearing strange noises, but they all turned out to be gone. They must have been some monsters on the mountain. All we could do was stay in our rooms and close the shop early. When night comes, everyone doesn't come out, so there is no business to do, so there is no loss. It's just that this incident has made everyone panic. In fact, we also miss the old life of going out to watch rallies and busy markets at night. But it is still important to save your life during this period."

After Ouyang Zhengxiong and Sun Yulan heard this, they felt very strange. They never believed in monsters and ghosts. So I didn't take it seriously, thinking it was just a gimmick between the store owner and the people in this small town.

Chapter 1783

Li Haotian and Gu Shaoyang did not want to take risks on this matter, because Ouyang Zhengxiong and Sun Yulan were only children and could not protect themselves well when encountering dangerous situations. Although Sun Yulan wanted to become Ouyang Zhengxiong's bodyguard in her future life, she was only a thirteen-year-old girl after all, and she was far from adequate in terms of strength and experience.

So, Gu Shaoyang and Li Haotian grabbed Ouyang Zhengxiong and Sun Yulan, and said to them very seriously: "There is a certain danger in this matter. We can't let you get involved, so I plan to go out with Gu Shaoyang to find the boy involved. The clues to the girl's kidnapping case, and you two are staying in the inn and taking a rest. After all, Ouyang Zhengxiong has been experiencing many abnormalities in his body after being poisoned by Mongolian sweat medicine." When

Ouyang Zhengxiong heard this, his brother Haotian and brother Shaoyang He actually wanted to leave him and act alone, so he quit immediately. Ouyang Zhengxiong, angry and aggrieved, said to Li Haotian and Gu Shaoyang: "I am no longer a child, and I can take care of myself. Why do you two abandon me? Didn't you agree to teach me martial arts?" Didn't we promise to use the kidnapping case of boys and girls to give us a test? Why do you choose to leave us and act alone now? Are you liars?" As he spoke, tears were about to flow down. Sun Yulan was very anxious when she saw it from the side, thinking that Li Haotian and Gu Shaoyang should not abandon them, because she had practiced martial arts since she was a child and was still able to protect herself. So he also said anxiously: "You can take us with you. This is also a good opportunity. Wouldn't it be more dangerous for the two of us to stay in the inn? If something happened to Ouyang Zhengxiong alone in the room, I would also I don't know."

The strong opposition from the two children gave Li Haotian and Gu Shaoyang a headache. They never thought that Ouyang Zhengxiong and Sun Yulan thought that we wanted to leave them behind. Li Haotian covered his face and couldn't laugh or cry. Gu Shaoyang also smiled, feeling in his heart that Ouyang Zhengxiong and Sun Yulan were both young people with integrity.

So Gu Shaoyang gently said to the two of them: "Okay, okay, don't be angry anymore. We two just didn't think well, so we'd better take you with us!" After some discussion, the four of them set off together. First, let's find out where the strange beast noises mentioned by the store come from. As soon as the sun goes down, all the major stores close their doors tightly.

Li Haotian and Gu Shaoyang took Ouyang Zhengxiong and Sun Yulan and quietly climbed out of the wall. They carefully hid in the gaps of various houses along the way, waiting for the so-called beast's cry to appear. Sure enough, as soon as it got dark, I heard the roars of strange beasts coming from about two or three kilometers outside the town. The roar sounded terrifying, like the shouts of a mad man. Hearing this terrifying roar, Ouyang Zhengxiong was so shocked that he even got goosebumps. What should he do? What if it's a real beast? Brother Haotian and Brother Shaoyang should be able to fight, right? He comforted himself by saying that it shouldn't be a big problem. So he boldly followed Li Haotian and Gu Shaoyang.

Li Haotian and Gu Shaoyang, who also heard the roar here, analyzed it together and found that it seemed to be the roar of a beast, but in fact, if you listen carefully, you will find that it is a bit like a human cry. It's just that the roar is deeper and more chaotic. Thinking of this, Li Haotian and Gu

Shaoyang felt very strange. What kind of person would roar like this? Who is playing tricks here? Or is there something hidden behind this?

Li Haotian and Gu Shaoyang turned to Ouyang Zhengxiong and Sun Yulan and said, "We want to follow the source of the sound and keep looking for the animal or person who made the roar. Ouyang Zhengxiong, how do you feel? Do you still want to come with us now? ? If you regret it now, we can still escort you back, but if you have already left the town later, you may not have the chance to return. You have to think carefully." Ouyang

Zhengxiong looked at Li Haotian and Gu Shaoyang and asked alone. Do you want to go back? I feel very embarrassed. Can I be any worse than a girl?" Once a man has made his promise, it is hard to follow him. So I just said I was going and I must go now. How can there be any reason to regret it?"

Li Haotian could see that Ouyang Zhengxiong was a tough talker and was obviously very scared. , but I still had to force myself to go with them. He thought for a while, and after these few days of rest, he and Gu Shaoyang had almost recovered. And Sun Yulan should also have some self-defense skills, so even if they encounter any danger later, they can be guaranteed to be safe. So he gently touched Ouyang Zhengxiong's head and said, "Then let's go there now. Don't be so scared that you cry later."

After hearing this, Ouyang Zhengxiong snorted angrily, so So we set off with them.

Chapter 1784

A group of four people followed the strange roar to find the source of the sound. The sound seemed to come from the woods outside the town. And the closer you get to the source of the sound, the louder and more complex the sound becomes, and there seem to be many sound sources.

At this time, even Gu Shaoyang and Li Haotian felt a little cautious and had goosebumps all over their bodies. It wasn't until he got here that he felt that things really weren't that simple. Maybe the store was not lying to them, but was really kindly reminding them that there was a fatal danger behind this mysterious roar.

On the other side, Ouyang Zhengxiong tightly grasped the sleeves of Li Haotian's clothes. When he heard such a sound, he felt very scared. What was ahead was unknown, and he didn't even know whether it was a human or a beast.

Li Haotian and Gu Shaoyang, together with Ouyang Zhengxiong and Sun Yulan, planned to enter the woods. A very obvious and strange roar came from the woods. Li Haotian said: "The current situation does not seem to be optimistic. For safety reasons, Gu Shaoyang and I We will meet you

two separately and take you two to the top of the woods. In this way, even if there is any danger below, we will not encounter each other head-on. This is called the enemy being in the light and we being in the dark. Let's do this, Ouyang Zhengxiong and I will be together, Sun Yulan, you and Gu Shaoyang is in a group, and you two stand behind us. Once you encounter a dangerous situation, you must escape quickly and smartly, and don't worry about us. Do you hear it?"

Ouyang Zhengxiong and Sun Yulan nodded in unison, and said in unison: "I heard it. , I will definitely listen to what you say."

So Li Haotian and Gu Shaoyang took them to the top of the forest with flying swords. Li Haotian and Gu Shaoyang tried their best to keep the sound to a minimum, so as to minimize the impact or alarm to the strange people in the forest. Sound source.

When the four of them flew over the forest with their swords, the scenery inside surprised all four of them. Ouyang Zhengxiong was so frightened that he almost fell off his sword. Fortunately, Li Haotian had a bad eye and caught him quickly. Strange roars continued to come from the forest. When they saw the source of the roar, everyone held their breath. There are actually more than a dozen zombies scattered throughout this forest, and their eyes are glowing green. Wearing tattered clothes, they looked like they must have been farmers before they were alive. Some of them had missing arms and legs, but most of them had intact bodies. There are no obvious scars on the appearance of the zombies. Where did these zombies come from? Why did they turn into zombies?

A group of zombies seemed to be looking for something, making horrifying roars while searching without a clue. Perhaps the young adults who came to look for this strange source of life were caught by them and infected and turned into zombies, right? So there is a rumor that people who go out after hearing these roars will never come back.

But they still don't know how to identify these zombies. Are they the same kind they encounter? They were above the forest. Although they were safe, they couldn't observe too carefully.

It was the first time Ouyang Zhengxiong and Sun Yulan saw such a scene, and they were so frightened that their faces turned pale. Not to mention Ouyang Zhengxiong and Sun Yulan, even Li Haotian and Gu Shaoyang found this scene extremely terrifying.

Because each of these zombies' eyes glowed green, and even their fingernails were abnormally extended. The skin of these zombies has turned gray-black. Except for the shape, which still barely resembles a human being, all other characteristics have been alienated.

At this time, Ouyang Zhengxiong couldn't stand it anymore and asked quietly: "Brother Haotian, brother Shaoyang, what should we do next? Do we want to keep observing them above the forest?" Gu Shaoyang thought for a while and asked the three of them: "Let's just fly with the sword and take a look around. Maybe the source of this roar is not just in this forest." After listening to Gu Shaoyang's words, Li Haotian pondered for a while and replied: "Brother Shaoyang That makes sense. I also think things are not that simple. Zombies don't just appear in this forest. And I really want to know where the first zombie came from? I guess the first zombie was man-made. Created, and then spread the infection to more people. If this matter is not solved, then all the people in this town will turn into zombies. It is only a matter of time." At this time,

Sun Yulan She exclaimed: "Look!" Following the direction of her finger, we can see a zombie walking to the edge of the forest, but it was immediately bounced back. Is there a barrier here? How could a barrier appear in an ordinary small forest? Logically speaking, it shouldn't be. The four of them flew over with swords from above the forest. If there was a barrier, they wouldn't be able to fly up. Li Haotian felt very strange, so he told Hu Shaoyang his doubts. Gu Shaoyang thought for a moment and then replied to him: "Haotian, I think this barrier was set up specially for these zombies. The reason why this town can survive until now is It's probably because of the existence of this barrier. Otherwise, the scope of zombie activity will gradually expand, and all the people in this town should not be spared."

Chapter 1785

Li Haotian nodded, and added that this barrier seemed to be only useful for zombies, and had no blocking effect on ordinary humans. Therefore, it can be inferred that those who heard the strange roar and came out to find the source could enter the forest without any hindrance. Then when they encountered zombies, they had no power to fight back, and they could only die in vain.

Li Haotian and Gu Shaoyang continued to patrol around the forest with them, and found that almost all of the zombies were young people. The zombies should have been young and middle-aged when they were alive, not old, weak, sick or disabled. After making a simple observation, Li Haotian and Gu Shaoyang planned to take Ouyang Zhengxiong and Sun Yulan back to the inn to rest.

Li Haotian and Gu Shaoyang reminded softly: "You two, please hold on tight. We plan to fly back with our swords. After hearing this, Ouyang Zhengxiong and Sun Yulan quickly replied: I understand, I will hold on to you tightly. If you fall, If you do, your life will be lost."

As soon as he finished speaking, Li Haotian and Gu Shaoyang turned around and led them away, but there was a problem The lone zombie was very close to Li Haotian and Gu Shaoyang, and he climbed up a tree silently. When Li Haotian and Gu Shaoyang led Ouyang Zhengxiong and Sun Yulan past the tree, the zombie suddenly let out a roar. After Ouyang Zhengxiong was frightened, he suddenly shifted his foot and was about to fall.

Because he had lost his center of gravity, one of his feet was already hanging in the air. Li Haotian had just been flying with his sword and was looking straight ahead, not noticing the sudden change on Ouyang Zhengxiong's side. Therefore, he was unable to catch him in time, so Ouyang Zhengxiong fell from the top of the forest, and was about to hit the tree with the zombies. Li Haotian discovered that Ouyang Zhengxiong was in danger. However, when Li Haotian wanted to catch Ouyang Zhengxiong, it was too late and he could only grab his clothes. But because his clothes were too slippery, Li Haotian couldn't exert his strength, so he could only watch Ouyang Zhengxiong pass through the barrier and fall into the tree with zombies.

When Sun Yulan saw Ouyang Zhengxiong falling into the forest with zombies, she became anxious and fell down too. Seeing this, Li Haotian and Gu Shaoyang frowned anxiously, so they both put away their spiritual swords and followed them. Go down together. They were afraid that they would be caught by zombies if they went down too late. What I believe in you is that when Ouyang Zhengxiong fell, he did not come into direct contact with the zombies, but happened to be still a certain distance away from them. But because it fell so loudly, it alerted the surrounding zombies. The zombie closest to him roared continuously, seeming to be summoning his companions with a special sound. At first, Ouyang Zhengxiong was frightened by their sudden roar, so he fell down.

Ouyang Zhengxiong was very anxious and scared here. He didn't have any weapons or charms around him that could resist zombie attacks. Since Sun Yulan fell right after it, she was very close to him. Seeing that the zombie was about to approach Ouyang Zhengxiong, Sun Yurong rushed over from the side and kicked the zombie over, but the movement here was really... It was too big, and the body temperature and smell of the four people attracted the attention of the zombies, so more and more zombies gathered towards them, which meant that they were surrounded by these disgusting zombies with hidden dangers of green light.

Li Haotian and Gu Shaoyang were very anxious, so they rushed to the place where Ouyang Zhengxiong and Sun Yulan were surrounded. Without saying a word, Gu Shaoyang knocked over the zombies that were about to pounce on Ouyang Zhengxiong and Sun Yulan with a blow from his palm. Li Haotian also hurriedly joined the fight and cut off the zombie's arm with his sword. However, the zombie seemed to have no physical consciousness, so the cut off arm had no effect and would continue to rush towards them.

Li Haotian had no choice but to cut off the zombie's head. The zombie oozed thick green blood. Ouyang Zhengxiong and Gu Yulan had never seen such a scene. Ouyang Zhengxiong was frightened for a moment, and the zombie's The blood was so disgusting that Ouyang Zhengxiong vomited out everything he had eaten.

Seeing this, Sun Yulan hurriedly took care of Ouyang Zhengxiong to avoid being attacked by zombies when he was in poor health. Here, Li Haotian and Gu Shaoyang were around them, protecting them from the attacks of the remaining zombies. Probably because the lost call is a

special signal that they can communicate with each other, so more and more zombies are gathering towards them.

Fortunately, the number of zombies in this forest is limited, and the attack power of these zombies does not seem to be strong, but they are very durable. Even if their hands, feet, or even heads are cut off, they still have the ability to move. Therefore, for Li Haotian and Gu Shaoyang, the biggest problem at present is that there are many more zombies than them, and it is not possible to kill them with one sword.

Chapter 1786

Forced to have no choice, Li Haotian and Gu Shaoyang could only hold their swords to defend, while Sun Yulan stood by to protect Ouyang Zhengxiong, who was in very poor condition. Retreating step by step under such a formation, Li Haotian said to Gu Shaoyang: "Brother Shaoyang, we just need to insist on walking out of this forest. This barrier is also equivalent to our protective umbrella. What do you think? Although the combat effectiveness of this group of zombies is not strong, but if there are too many, we can't handle it at all, so the two of us should protect them both from this forest as soon as possible." Gu Shaoyang nodded repeatedly and said: "I think so too, it's too late, we hurry up and escort the two of them out. I'm afraid that as time goes by, there will be more and more zombies here. If it exceeds our tolerance, things will be difficult to handle." Under the escort of

Li Haotian and Gu Shaoyang, the group of four quickly got rid of the zombies and retreated outside the barrier. The group of zombies can only move within the barrier and cannot jump out of the barrier.

Ouyang Zhengxiong saw the group of zombies lying on the barrier very close to him, still breaking out in a cold sweat. He gradually calmed down and apologized to Li Haotian and Gu Shaoyang aggrievedly: "I'm sorry, brother Haotian and brother Xiao Yang, I didn't expect that I wouldn't be able to hold on to your clothes. When that zombie roared just now, I was so frightened that I fell down. It's really useless. You have to suffer here with me because of it. I really... What a waste! If it weren't for Brother Haotian, Brother Shaoyang, and Sun Yulan, I might have died long ago, right? I'm so unmanly that I'm even afraid of the cry of a zombie." After saying that, Ouyang Zhengxiong lowered his head guiltily. Seeing this, Li Haotian and Gu Shaoyang hurriedly comforted him and said: "This is not your fault. You are still young and have never seen such a scene, and the scale of this zombie is relatively large. Big, and we don't know much about zombies, so fear is human nature. Your brother Shaoyang and I were disgusted when we saw this zombie. Don't feel guilty, this is a very normal thing, slowly you will see more of this kind of situation, and then you will naturally get used to it, and there won't be much trouble. However, this is also an opportunity to improve your experience. If you encounter such a thing in the future, first of all, don't panic. How about thinking calmly? Protect yourself as much as possible, and then protect the people around you."

After hearing this, Sun Yulan comforted him and said: "It's normal for you to be afraid, because we didn't give you martial arts and the ability to Weapons for self-defense, so when you encounter danger, you will first be afraid instead of thinking of protecting yourself. For example, we all know martial arts and have our own self-defense charms, so we will not be so panicked because we have the confidence to protect ourselves, but You didn't. The blood of this zombie is indeed disgusting. Not only are you disgusted, but I, Brother Haofing and Brother Saoyang are also severely disgusted by the horror of this zombie. But we all tried our best to suppress the disgusting feeling. Nausea, because when we vomit it will make it even more nauseating, and you will be even more unbearable."

Sun Yulan spoke to him in a brisk and naughty tone as much as possible, which could relieve her nervousness to the greatest extent and restore his self-confidence..

After hearing what Sun Yulan said, Ouyang Zhengxiong felt that it was very reasonable, although he did feel a tremor after looking at the zombie. So, I suddenly lost my guard, slipped and fell down. But then, when I saw the zombies dying tragically and the thick green blood splashing out, I couldn't control my nausea and vomited it out. Isn't this really embarrassing? He actually needs a girl to protect him? He is determined to practice martial arts well, not only to protect himself, but also to protect the people around him. Otherwise, he will always be a burden to others, which everyone should hate!

Seeing Ouyang Zhengxiong's thinking expression, Gu Shaoyang guessed his inner activities very well, so he asked him softly: "Zhengxiong, do you want to learn martial arts? But the time is tight at the moment, and we don't have a lot of people." I will give you some time to practice. So Haotian and I will teach you some techniques for cultivating internal strength for the time being. You can practice in the room when you go back to your room to rest every day. As long as you have a good foundation for internal strength, you will be able to practice in the future. It is very fast to learn other martial arts. The most taboo in learning martial arts is to take advantage of opportunities. You must be steady and steady, and you must lay a good foundation for every step. Only in this way can your martial arts foundation be solid, and you will be able to achieve faster results in the later stage. Improvement. Have you thought clearly? Do you want to suffer the pain of learning martial arts?"

Ouyang Zhengxiong knew that Gu Shaoyang's question was deliberately irritating him, but he still took the bait. Because he felt that no matter how much pain and difficulty he faced, he could get through it. What he couldn't accept was that he was too weak and had no way to protect himself. Then if he has someone he wants to protect in the future, what qualifications and abilities will he have to protect him? Gu Shaoyang actually already knew Ouyang Zhengxiong's thoughts. He deliberately said that to inspire Ouyang Zhengxiong and force Ouyang Zhengxiong to reflect on his own determination and purpose of learning martial arts.

Li Haotian smiled on the side, glanced at Gu Shaoyang meaningfully, and thought to himself: "You old fox, you are so cruel to children! The children are still on the first floor, and you, the old fox, are already on the third floor." Gu Shaoyang feeling Li Haotian's gaze, he smiled, patted Li Haotian's shoulder, and then whispered in his ear: "Brother Haotian, are you too gentle when raising children? If we don't train him, then He will have to suffer from others in the future." Li Haotian thought for a while and replied: "Brother Shaoyang said, I am still a bit too kind."

On the other side, after everyone escaped the zombies, Ouyang Zhengxiong and Sun Yulan took a deep breath and sighed: "We are finally saved, and we no longer have to see those disgusting zombies."

Li Haotian and Gu Shaoyang looked at the two happy children and came silently beside them. One sentence: "We have to track the source of these zombies during this period, so we will deal with them frequently in the future, and we will deal with fellow zombies in various areas. So you not only have to get used to this group of disgusting zombies, but also for To save their lives, we will inevitably kill them, so scenes of plasma splashing like today will appear frequently. You have to get used to it slowly."

Ouyang Zhengxiong and Sun Yulan were shocked and said in surprise: "What?! Like this? The scene should appear frequently?" As soon as he finished speaking, Ouyang Zhengxiong thought of what Gu Shaoyang just said. Ouyang Zhengxiong suddenly realized that his thinking was a child's mentality. Not only would this kind of scene appear frequently, but he would also kill these people with his own hands in the future. *Zombie*

???Thinking of this, Ouyang Zhengxiong changed his cowardly image and said to Li Haotian and Gu Shaoyang with determination: "Don't worry, we will gradually become familiar with such a scene. And I will definitely not drag you down in the future, I will definitely act cautiously, and I will no longer make a fuss and be fussy like today. If it weren't for the three of you today, I would definitely have become a zombie's partner."

After hearing this, Gu Shaoyang nodded happily, patted Ouyang Zhengxiong on the shoulder and said: "Fat people are not made in one bite, so growing up also requires a process. It is very rare that you have this heart to learn, so take your time, let's I will teach you step by step, but you also need to listen more, watch more, and learn more. Everyone here, and even the people you meet in the future, whether they are enemies or friends, may be your teachers, and they have everything in them. There is something worth learning from you"

??After handling this unexpected incident, Ouyang Zhengxiong became more mature than before, but the four of them were very tired. Unknowingly, the sun was about to rise from the east, the sky

was turning fish belly white, and the crow of cocks was heard from the small town not far away. A new day was about to begin again.

No one knew that a fierce fight had occurred in the forest outside the town not long ago. The busy day started again in the town as usual, and everything seemed to be going on in an orderly manner.

??After thinking for a while, Li Haotian and Gu Shaoyang planned to take Ouyang Zhengxiong and Sun Yulan back to the inn. They had been busy all night and were very tired. Moreover, he seemed to have the smell of zombies on his body. During the fight, he inevitably came into contact with the blood of zombies, and his clothes were touched by zombies during the fight.

Sun Yulan smelled the smell on her body and frowned in disgust. After Ouyang Zhengxiong and Li Haotian saw Sun Yulan's behavior, they also smelled the smell on themselves and frowned. The smell of zombies was really... Smells too bad

??So the four of them hurried back to the inn to wash up. They planned to wash up, change into clean clothes, and then eat something casually at the inn where they were staying. Continue to go back to the guest room to rest, and wait until there is any strange movement at night before going out to investigate the surrounding situation.

??After returning to the inn, they chose to climb over the wall secretly to avoid being discovered that the four of them had gone out quietly last night. After successfully returning to the guest room of the inn, the four of them breathed a sigh of relief and were finally able to rest for a while.

After everyone returned to the guest room, everyone was thoughtful. Everyone was thinking about what they had experienced that night. Everyone had new insights and new ideas.

There were rooster crows outside the window, and Ouyang Zhengxiong was lying on the bed. Although his body was very tired, his mind was very clear. In the past, when I was lonely and helpless, even if I was bullied as a beggar, no one would comfort me. I have become accustomed to living a life of having nothing to eat, no warmth to wear, no place to live, and sleeping in the open. But now his emotional changes will be noticed by many people and taken to heart. This change makes him feel a little unrealistically happy. Learning to protect himself or others when he was a beggar was not that important to him.

Until he met Brother Haotian and Brother Shaoyang, he seemed to have someone he wanted to protect. But then again, he himself has become the person that others want to protect.

Therefore, he must protect himself even more and cause them as little trouble as possible. Ouyang Zhengxiong fell asleep unconsciously while thinking about it. The trip last night was too exciting. After the freshness wore off, the exhaustion of his body was fully revealed.

Chapter 1788

It was already dawn, and the chickens in the chicken coop of the inn were crowing one after another until the noisy crow finally stopped. The business of the inn is gradually getting better again, and there is an endless stream of people coming and going in the inn, and the sound is noisy. Li Haotian and Gu Shaoyang lived in the guest room near the stairs, so the voice sounded very clear, as if they were talking in their ears. However, Li Haotian and Gu Shaoyang spent too much energy fighting zombies yesterday. , coupled with the flying back and forth with the sword, both Li Haotian and Gu Shaoyang were very energetic. So they are very tired and need a very quiet environment to rest. In desperation, Li Haotian took out the sealing talisman. During the use of the talisman, they will temporarily lose their five senses.

Li Haotian asked Gu Shaoyang: "Brother Shaoyang, do you need to use this spell? After all, they haven't had a good rest for a day. Gu Shaoyang looked at the spell, and after thinking about it for a while, he said to Li Haotian, if we use this spell and all five senses disappear, We can't hear the noise around here. So if Ouyang Zhengxiong and Sun Yulan encounter any emergencies during this period, we will have no way to get to them in time. I'm worried that they will encounter other people here. A special situation.

When Li Haotian heard Gu Shaoyang's words, he covered his forehead, thought for a moment, and then replied to him: If you don't leave this inn, you shouldn't encounter any emergencies, right? I'm just afraid that the two of them are young and energetic. Young people don't want to stay and rest in the guest rooms of the inn. If they run out, they will easily encounter danger, and we will not be able to get to them in time." Gu Shaoyang nodded and said deeply: "If you are not afraid of ten thousand, just We're afraid of what might happen, these two kids are really worrying us!"

After some discussion, the two decided to make do with taking a break in the noisy environment and no longer use the sealing charm. Gu Shaoyang was more worried about Li Haotian's physical condition, so after thinking about it again and again, he said to Li Haotian: "Well, we don't necessarily need both of us to use this sealing charm. You can use this sealing charm to sleep, and then I won't use the sealing charm. In this way, one of the two of us can stay awake at any time, and we can use the sound transmission charm to contact us, so there will be no situation where we cannot wake you up in an emergency."

Li Haotian originally planned to take a nap in the noisy environment For a while, I didn't expect Gu Shaoyang to think about him so carefully, and a warm current flowed through my heart. So the final result of their discussion was that one person used the sealing charm and the other took a nap in a normal noisy environment.

The four of them were so exhausted that they all chose to rest in the guest room after a simple wash. Even the usually naughty Ouyang Zhengxiong and Sun Yulan did not sneak out to play. So all day long, everyone fell into a deep sleep peacefully. It was almost time for dinner, and the four of them gradually woke up. They planned to have dinner at a nearby restaurant today just like yesterday, wait until nightfall when all the businesses were closed, and then look for traces of nearby zombies. They firmly believed that zombies must not only appear in that forest, but also The forest boundaries appear very strangely, and the origin of the zombies is also puzzling.

Li Haotian and Gu Shaoyang took Ouyang Zhengxiong and Sun Yulan to find a restaurant that looked good. They wanted to ask the store owner if he had any recommendations for local specialties. The store happily sold them four to five local specialties. After the food was served, Ouyang Zhengxiong had a huge appetite, but when he thought about looking for traces of zombies later, he restrained his appetite and only ate a little. Li Haotian and Gu Shaoyang felt strange when they saw that Ouyang Zhengxiong only ate a little bit, so they asked him: "Zhengxiong, what's wrong with you today? Are you feeling unwell? Why did you only eat a little bit? Aren't these your favorite dishes? "

Ouyang Zhengxiong scratched his head in embarrassment and replied: "Aren't we going to look for traces of the loss later? So it is inevitable that we may have direct contact with zombies, and then we may also see zombies with their bodies separated, and their Disgusting green pus-like blood. I'm worried that I'll be nauseous again, so I'll eat less now, and I might not vomit it out later." Li Haotian and Gu Shaoyang laughed together after hearing his explanation. When she got up, Sun Yulan was covering her mouth and laughing secretly. When Ouyang Zhengxiong saw the three of them laughing together, he felt embarrassed himself, so he scratched his head and laughed together.

Li Haotian said: "If you don't eat enough now, you may not be able to run when you see the zombies later. You have slept all day and haven't had a drop of water this whole day, so you still have to eat more or less." A little bit, otherwise your body will not be able to withstand it. We have already experienced it today, so it will not be as tragic as yesterday. You can rest assured to eat, brother Shaoyang and I will protect you." After hearing this, Ouyang Only then did Zhengxiong eat with confidence.

Chapter 1789

After Gu Shaoyang and Li Haotian took Ouyang Zhengxiong and Sun Yulan to eat and drink in the restaurant, they planned to take a short rest and then wait until night fell to start looking for traces of zombies. Almost all the zombies in the forest where they were first discovered had been killed by Gu Shaoyang and Li Haotian. They planned to continue to observe whether there were zombies only in this forest? If there are still strange roars tonight, it means there is more than one source of zombies.

Li Haotian and Gu Shaoyang tried their best to recall some characteristics of zombies and the characteristics of their appearance together. Generally, there are no external injuries on zombies,

and their shapes vary greatly. Their skin becomes black and purple, and their eyes also glow with a faint green light. If there are no obvious wounds on the zombies, it means that they were not killed by wild beasts or others. The bite of the creature is infected, which means that this line of zombies may be artificially created.

On the other side, Ouyang Zhengxiong and Sun Yulan were actually very scared, but they held on to their spirits and went with Li Haotian and Gu Shaoyang to find other sources of the zombies' roars. Unconsciously, the four of them slowly returned to the inn to rest after finishing their meal. By the time they arrived in the guest room, it was already getting dark.

As expected, all the shops were closed one after another, thinking that the strange roars would still appear as usual. Ouyang Zhengxiong and Sun Yulan were very worried because they were about to set off to find the source of the strange sound, but they seemed not ready to face the zombies. Li Haotian and Gu Shaoyang sneaked out over the wall with Ouyang Zhengxiong and Sun Yulan who were not ready yet, without alerting the store owner or waiter.

Because the four of them heard roars from all directions and didn't know which way to go, Li Haotian stopped the advancing team and asked Gu Shaoyang seriously: "Brother Shaoyang, where do you think we should go now? I don't know if all of the forest that was lost yesterday was wiped out by us. I think we should search carefully in yesterday's mind to see if there are any relevant clues in the zombies we killed?"

Gu Shaoyang thought for a moment after hearing this. Then he replied: "I think it's okay. After all, I wanted to protect the two of them yesterday. I was too hasty and didn't carefully check the characteristics of the zombies and the condition of the forest. This time we are fully prepared. It should be okay. Comparatively Let's check it easily!"

But he added: "The forest yesterday was full of zombies with severed arms, legs, and even heads. So there might be green pus-like blood." After hearing this, Ouyang Zhengxiong and Sun Yulan, couldn't help feeling nauseated, and turned pale. A group of four people carefully entered the forest where they met the zombies yesterday.

Ouyang Zhengxiong carefully checked the surrounding situation this time to avoid being frightened and delaying everyone's schedule like yesterday. He didn't want to put himself in danger again because of his carelessness. This would be a very bad thing for himself, or for his fellow brothers Haotian and Shaoyang. Although after entering the forest, I found that there was not much movement in the forest. Maybe all the zombies were eliminated yesterday. But Li Haotian felt very strange, because yesterday he remembered that most of the zombies were killed just to ensure everyone's safety. Logically speaking, some zombies should still exist in this forest. Why did they

suddenly disappear? And why haven't you seen the corpses or remains of yesterday's zombies after walking for so long?

Gu Shaoyang also felt very strange, so he said to Li Haotian: "Brother Haotian, do you feel that this place is a little different? It seems a little off from yesterday. It feels like this forest is a little quiet, not normal. Something is abnormal. There must be demons. I think we should all be alert to deal with emergencies."

Li Haotian nodded after hearing this, then turned to Ouyang Zhengxiong and Sun Yulan and said, "It's mainly you two. Children must be careful and pay attention to the small noises around them. Logically speaking, you can hear the roar of zombies in the forest today, because yesterday we also let a few zombies go. In this forest, if we hadn't killed them, it would mean that another wave of people had entered the forest." After saying that, they found that the surrounding environment was indeed quiet, which was very strange. Ouyang Zhongxiong himself felt that this forest was very scary. Because of the bad memory of yesterday and the scary atmosphere now, he was even more scared. He subconsciously grabbed Li Haotian's sleeve tightly. The nervousness revealed subconsciously was transmitted to Li Haotian and Gu Shaoyang. On the contrary, Sun Yulan, except for being a little nervous today, did not feel afraid. Probably because she had seen yesterday that the attack power of zombies was not very strong, and that Brother Haotian and Brother Shaoyang were fully capable of protecting them.

Chapter 1790

Just when everyone thought the zombie thing was strange, Li Haotian suddenly discovered that no one seemed to be able to find the corpse of the zombie left yesterday after entering the forest. When he was about to tell the other three people about this doubt, Ouyang Zhengxiong, who was concentrating at this moment, heard something strange in a bush not far away.

Ouyang Zhengxiong was very alert and immediately grabbed Li Haotian and Gu Shaoyang, telling them with his eyes that there might be zombies in the grass. What they find very strange is: "Why do zombies only come out at night? And why do they make such terrifying roars? Moreover, this forest looks very weird. Who set up the barrier is still unclear." I don't know. They walked back and forth several times and found that they seemed to be in an endless loop. Did they break into the formation by mistake?"

Sun Yulan took courage, approached the bush, and quickly went around behind the bush. Check if there is any foreign object inside. Li Haotian and Gu Shaoyang wanted to hold her back, but Sun Yulan's movements were too fast, and they were unable to stop her in time. But luckily, there seemed to be just a wild rabbit in the grass, not a zombie.

Just when everyone breathed a sigh of relief, they discovered that the behavior of this rabbit seemed to be very abnormal. It seemed not afraid of people and was even somewhat aggressive. After this

strange rabbit saw someone appearing around it, it actually ran straight towards Sun Yulan, who was closest to it, and bumped into it. Fortunately, the rabbit was not very big. Sun Yulan stepped on its neck, pinched the back of its neck, and picked it up. After careful observation, Sun Yulan discovered that the rabbit's eyes also glowed green. Is this rabbit also infected? It's actually a zombie rabbit?

Seeing this, Li Haotian and Gu Shaoyang used quick eyes and hands to cut off the rabbit's head directly to prevent the rabbit from biting Ouyang Zhengxiong and Sun Yulan without them paying attention. Because they didn't know much about the infection mechanism of zombies, they said they were on the safe side. Everyone would rather kill by mistake than miss a kill.

While a group of four people were observing the dead zombie rabbit, an adult zombie rushed out of the woods. But fortunately, he seemed to be the only one on this zombie, and there were no other companions with him. Therefore, after Ouyang Zhengxiong noticed his presence, he did not panic, but quickly dodged behind Li Haotian and Gu Shaoyang.

Li Haotian and Gu Shaoyang subdued the zombie very easily. Because they needed to observe the detailed characteristics of the zombie, they did not cut him into pieces. Instead, they tied the zombie's hands and feet with ropes. Gu Shaoyang slashed his neck with a knife, and the zombie fell down and lost consciousness.

After tying up the zombie's hands and feet, the four people squatted around it to examine the zombie's specific characteristics. Observing the zombie's body shape and basic appearance, we should be able to judge that he was a young man in his late twenties and mid-twenties. Looking at his clothing, we can tell that he was an adult man. Since there were no injuries in this fight, Li Haotian and Gu Shaoyang carefully examined the missing limbs and other parts of the body and found that there were no strange injuries on his skin. In other words, this zombie was not bitten. So becoming a zombie means that he was infected artificially.

However, a group of four people could not determine the cause of their infection very well, because there were too few samples analyzed, only this zombie. Therefore, they wanted to continue looking for the zombies they dealt with yesterday. Although they had been cut into pieces, they might be able to find some clues from their clothing.

So the four of them buried the zombie and the zombie rabbit hastily on the spot, and continued to search the forest for the group of zombies they dealt with yesterday. Li Haotian and Gu Shaoyang suspected that they had gone the wrong way with their two children and might have accidentally entered someone else's enchantment array. In addition to the barriers here, there may also be formations set up by others. So Li Haotian took out a talisman to break the enchantment formation, recited the talisman's formula, and threw it into the sky. The golden barrier of the enchantment array

appeared. Li Haotian turned to Gu Shaoyang and said: "Brother Shaoyang, you see, the four of us have mistakenly entered the ecstasy array set by others this time. No wonder the four of us got around here." I couldn't get out for half a day, and I've been spinning around in this place four or five times. I just said that the zombie corpses from yesterday must still be in the forest. I don't know who set up this enchantment array and the big barrier in the forest?"

Gu Shaoyang He also saw the boundary of the ecstasy array under the appearance of the talisman. After listening to Li Haotian's explanation, he also felt very strange. Why is there such a complicated barrier and enchantment formation in such a small town? A normal barrier would block both humans, demons and monsters, but this one is actually a selective barrier. So the emergence of the barrier and the emergence of the enchantment circle will make people feel that nothing is appropriate?
